

# HP Wireless Earbuds G2 (169H9AA)

## Overview

**Moves you. Moves with you.**

Tune into True Wireless Stereo Sound and turn off all distractions with DPS noise reduction. The HP Wireless Earbuds G2 have been engineered for all-day comfort and long-lasting battery life. Control your sound with your fingertips and live untethered with Bluetooth® 5.[1]

### Stay true to the sound

Subtract background noise and cancel out echo with DSP noise reduction. Binge-watch videos, listen to music, and enjoy calls with high-quality wireless Bluetooth® 5 audio.[1]

### Play on repeat

Get up to 4 hours of audio with the built-in battery. Recharge on the go with a magnetic charging case that stores over 12 hours of listening time. Get 33 hours on sleep mode and over 100 days on hibernation mode.[2]

## Features

### Sound at your fingertips

Control your sound with built-in touch sensors. Turn on/off, pair device, play/pause music, skip songs, answer calls, adjust volume, and even summon voice assistant – all with your fingertips.

### Easy to stay in charge

Charge your magnetic case through the USB-C<sup>[3]</sup> port and keep track of charging status with LED indicators.

### Splash proof

Designed to outlast sweat and splashes of water. The IPX4 water-resistant earbuds have been built for durability across varying conditions.

### Fits right in

Find your perfect fit with 3 soft silicone ear tips. The angled design fits comfortably inside your ears.

### Go farther

Stay connected over greater ranges than ever before while optimizing power and battery life. Enjoy seamless connectivity with Bluetooth<sup>®</sup> 5.<sup>[4]</sup>

---

*[1] Listening to personal stereo equipment at full volume for long periods can damage the user's hearing. To reduce the risk of hearing damage, lower the volume and amount of time listening at full volume. Bluetooth<sup>®</sup> is a trademark owned by its proprietor and used by HP Inc. under license.*

*[2] Full battery earbud charge is 4 hours, magnetic charging case capacity is 12 hours (charge earbuds 2-3x). Sleep mode is earbuds at a full charge. goes into sleep mode due to no use and not used until battery is depleted. Hibernation mode is when earbuds are in the charging case at a full charge, goes into hibernation mode in case, not used, gradually battery depletes. Actual battery life will vary with use and environmental conditions and will naturally decrease with time and usage.*

## Specifications
