

Horizon Cloud on Azure Pricing Document

Overview

VMware Horizon Cloud on Microsoft Azure is the lowest-cost approach to deploying Windows 10 virtual desktops and apps from Azure with all the enterprise-class capabilities of VMware Horizon. From a single cloud-based console, you can deploy and manage desktops wherever they are—on-premises or in Azure—with cloud-native features like application, user environment, and power management, plus much more.

VMware Horizon on Azure benefits:

- **Leverage your Azure Virtual Desktop benefits** - Horizon Cloud on Microsoft Azure adds incredible value to Azure Virtual Desktop through advanced power management, application and user environment management, and hybrid capabilities.
- **Hybrid Desktop Virtualization** - Horizon Cloud on Microsoft Azure lets you deliver the most cost-effective, cloud-based Windows 10 virtual desktops and applications in a hybrid environment with existing on-premises investments.
- **Application and User Environment Management** - Simplify application management while reducing cloud consumption costs with App Volumes while using Dynamic Environment Manager to add advanced user environment management capabilities.

Pricing example

SKUs provided in the pricing tables cover 12-, 24-, and 36-months term. To calculate the total price, multiply the per month price provided with the preferred term length required. For 24- and 36-months term, additional discounts will be applied to demonstrate the benefits of longer-term purchases as shown in the illustrative example below.

3. VMware Success 360

VMware Success 360 is a comprehensive success offering that guides you through all the stages of your journey with VMware solutions. It provides a consistent way of working with VMware that will help you continually realize value and achieve outcomes faster from your investments. It's a partnership between you and VMware. There are several components – Success Planning, Adoption Guidance and Workshops, Digital Learning, and Dedicated and Proactive Support.

We do this through a jointly developed Success Plan which identifies what you consider to be your success metrics around business value, performance value and experience value. These metrics are tracked in your personalized dynamic Health Scorecard.

Success Pathways leverage hundreds of assets, tools, and services and are organized to identify the next best steps for you to take to achieve your goals, including direct access to expert engineers.

Digital Learning provides a personalized flexible learning experience to help your team to gain new skills and accelerate value realization of your VMware technology. It offers 24x7 access to the VMware Learning Premium Subscription to an unlimited number of users.

Maximize productivity and uptime with Dedicated and Proactive Support to speed issue resolution, minimize downtime and help prevent recurring incidents. It includes global proactive and reactive support with unlimited support requests and customer administrators.

Pricing

Success 360 is a consumption-based pricing model where the Success 360 price is determined by customer's Subscription and SaaS license spend. If you need help deciding, please contact VMware sales.

Pricing Considerations

Please refer to the below key points when considering buying VMware offerings:

- Pricing based upon a 12m prepaid subscription with 24, 36-month prices available upon request
- Subscriptions require 1 core order per required environment plus required number of add-on orders to make up total user quantity
- Subscriptions with no vSphere can only be user on Azure
- Subscriptions with vSphere can be used in Hybrid deployments either on-premise or in any other cloud provider
- Academic pricing available subject to eligibility
