Working Student User Research
Potsdam/Berlin

Do you want to contribute to the working world of the future? Are you itching to push digital products and processes forward in all kinds of industries? Look forward to a motivated team and an exciting working environment at **D-LABS**!

───── **WHO WE ARE MISSING, IS YOU!**

YOUR PROFILE

> You currently major in psychology, sociology, ethnology, human factors or a similar degree.
> Ideally, you are already experienced in applying qualitative methods and want to expand your user research skills for organizations, digital products and digitization.
> You are interested in learning and applying methods of human-centered design and design thinking.
> You are able to quickly familiarize yourself with new topics and contribute your own ideas.

YOUR TASKS

> You are involved in all aspects of human-centered design, first and foremost by identifying user needs and requirements.
> You stand up for the end users and pursue a user-centered approach in the development of digital products and solutions. You accompany the design and implementation, e.g. via usability tests.
> You participate in crossfunctional workshops, e.g. to document and analyze as-is and to-be processes.
> As part of our interdisciplinary team, you inspire others and are a ready sparring partner.

You know you're the one for us — but you don't fulfill all requirements? Convince us!
We love to hear from you.
