

# Flex-One™ Surgical Suction

EASE OF USE • SAFETY • ECONOMICAL SOLUTION

The product  
for your day-to-day  
surgical suction

## Flex-One System

Offers a large range of reusable products which are economic, easy to use, safe and reliable. The solution for all your medical suction requirements.

Easily adaptable for numerous configurations, due to the mobile carousel with 4 canister assembly. Wall mounting can be completed utilising a rail mount or directly to the wall.

\* products distributed on behalf of Cardinal Health, Inc., or one of its subsidiaries.

## Economical solution

- A simple and efficient management for a single capacity product of 2 litres.

## Ease of Use

- 2 ports: 1 x patient port and 1 x vacuum port.
- Colour coded to identify liners that contain a hydroscopic filter.
- Colour coded to identify external canister.

## Safety

- The hydroscopic filter on each canister with a green lid protects the source from aerosols and infected fluids.
- A non-return valve, placed on the liners patient port, ensures optimal protection of the staff and the patient by avoiding any risk of leaks.
