About Mobern

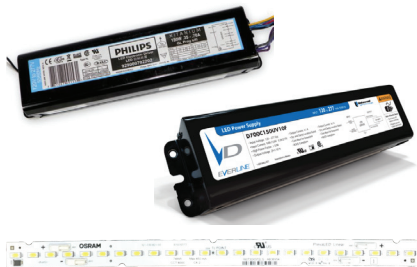

Who is Mobern?

Since 1944 Mobern Lighting has been providing the industry with high quality, specification grade lighting products. Over the years, Mobern has specifically expanded our design, engineering, and quality control departments to ensure reliable and effective LED products. We are dedicated to helping our customers enjoy the full benefits of LED lighting such as reduced maintenance, superior lighting, enhanced control, increased sustainability, and reduced operating cost.

What can Mobern do?

Our LED products are manufactured with the highest quality components available and with best assembly practices. Every product is thoroughly tested for reliability and quality to insure that the optics and thermal properties are optimized and in accordance with customer specifications. We source our gear from industry leaders such as Cree, Philips, Samsung, Nichia, Universal, and Osram to provide cutting edge technology for our customers and end-users. Most Mobern fixtures are BAA/ARRA compliant, and we are heavily invested in developing practical and economical solid-state lighting solutions to create the next generation of lighting products.

Where is Mobern?

Our headquarters, main assembly facility and distribution warehouse are located in Jessup, Maryland. We have five (5) stocking warehouses located throughout the United States in order to better fulfill customer orders. We ship to all contiguous mainland States, including Canada, via common carrier and parcel post. We deliver to Hawaii, Alaska, Guam, Mexico, and the Caribbean basin via air freight or ocean freight. Locally (within a 100 mile radius of our Jessup Headquarters) we deliver daily using Mobern Trucks.

How does Mobern do it?

From our state of the art headquarters, we manufacture/ assemble up to 2,000 custom/semi-custom fixtures per day using 7 fully staffed assembly lines comprised of 65 full-time employees. All of our fixtures are assembled by hand according to a detailed Production Order and Bill of Materials unique to the order. All of this is managed by an Operations and Production Staff of 12 highly qualified employees each with special skills and several with formal LEAN training.

Why choose Mobern?

We value our customers and endeavor to provide the highest level of customer service in our industry. To this end, Mobern has carefully selected a team of highly qualified individuals who offer help with lighting layouts, suggested placements, and consultation on potential rebate programs. We have a network of 41 independent lighting agencies who are equally committed to servicing our long-standing customers and growing our business organically. We pride ourselves on our exceptionally personalized service; we strive for and value our long-standing partner-centric relationships. Maintaining this foundation has enabled Mobern to continually meet the dynamic changes in the lighting industry and become a leader in quick ship, custom/semi-custom fulfillment. We are proud of our legacy.

Mobern is Pleased to Introduce Our New Professional Series Line of Commercial LED Fixtures.

These energy efficient, LED luminaires are assembled in our U.S. plant with our standard, high quality, Mobern housings, and are powered with cutting edge, Philips Lighting, LED gear. The result is a more reliable fixture that can compete favorably with imported product pricing. Our Professional Series line covers the standard "A" item commercial fixtures, including prismatic troffers, center basket troffers, strips, wraps, and vapor tights, and can be used in a wide variety of applications especially office buildings, warehouses, and parking garages. All of these products meet either BAA or ARRA requirements and are suitable for government projects. All fixtures come standard with 0-10V dimming capabilities and a five-year warranty. We designed the Professional Series for quality, quick shipping, and competitive pricing.

Ordering Patterns

Mobern can create patterns with L23, L44, L45 and L66 Series. Patterns are available for recessed and pendant mounting versions with lit corners or unlit corners. See below for some of the possibilities and consult factories for exact ordering numbers and pricing.

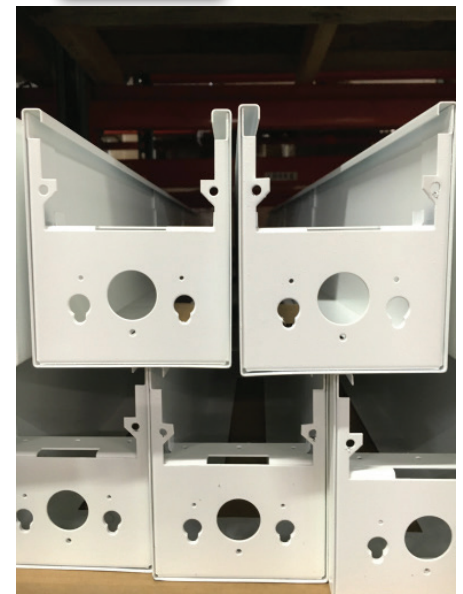

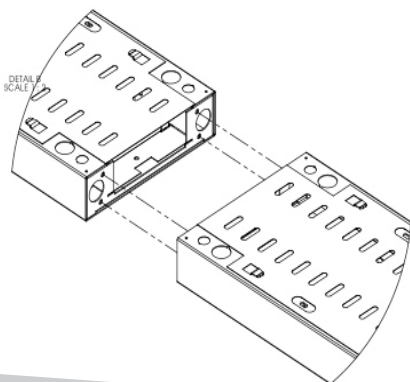

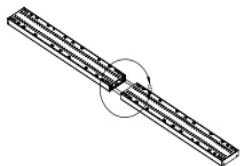

Continuous Run Ordering for L23, L44, L45, L66, LPLIA and LLP Series

1. Determine the run length and whether the run will be dimmed or not.
2. Use the above 2, 4 or 8 ft. runs from the Series Specified to add up to total run length. Use the largest individual fixtures to achieve run lengths (i.e. for 20 ft. run, use 2x8 ft. individuals and 1x4 ft. individual from above with the correct ordering info for your series). Watts and lumens for each section should be proportional for the size (i.e. If 48W with 4 ft then 8 ft should be 96W). Consult for other lengths.
3. Designate each length required in the run whether it will be the beginning of the run "B", joiner in the run "J" or the end "E" of the run. **Add the letter designation to the end of the part number.**
4. For Plug and Play electrical wiring between individual fixtures in the run, add one of the following harnesses. The number of wires is based on whether the run will be dimmable, with emergency or just ON/OFF.

Add Wiring Harness Code After the Driver Designation

- PI1 - 3 Wire Harness (normally for non-dim applications)
- PI2 - 4 Wire Harness (normally for emergency circuit)
- PI3D - 5 Wire Harness (normally for 0-10V dimming)
- PI4D - 6 Wire Harness (normally for 0-10V dimming and emergency)

Engineered ends either accept end cap to complete run or to join two fixtures together for continuous runs.

For continuous runs, first remove the end plates on the fixtures you want to join together; then using bolts and nuts (4X), attach the two ends together. Be sure both fixtures are properly aligned before tightening the bolts. Repeat steps for as long as you would like to continuous run the fixtures. Finish run with the end plate attached to the last fixture in the run.

Dimming to 1%
Standard DMV provides dimming to 10% intensity.
For Dim to 1% up to 57watt, change DMV to D1MV.

All-In-One LED Channels

Most Popular Pre-Configured Kits

Individual or Continuous Use

Convenient and Simple to Install

Based on your feedback, our brand new All-In-One LED Linear Channel is new and improved to provide the easiest channel in the industry to specify, order, and install. This integral driver channel in two different profiles provides the ideal solution for both individual fixtures (in 4 or 8 foot), and to join multiple channels for longer, continuous runs (in 4 or 8 foot multiples). This beautifully finished aluminum channel is so easy to install that the "do-it-yourselfer" can install in minutes; and professional installers will appreciate not only the reduction in cost, but also the speed in which installation can be completed. A specially designed integral wiring harness (ordered separately) makes joining two channels electronically simple and efficient. A unique, mechanical joiner bracket in conjunction with our special joiner tool allows for joining two or more channels together with no light leak and a clean connection.

LED Drivers and Dimming

Most of our LED Linear Fixtures have a Multi-Volt 0-10V Dimming Driver designated by DMV. For dimming, use any dimmer that works for 0-10 LED or purchase the Leviton IP710LFZ from us.

Dimming to 1%
Standard DMV provides dimming to 10% intensity.
For Dim to 1% up to 57watt, change DMV to D1MV.

Stairwell Lighting

Stairwells provide one of the easiest opportunities to provide energy savings. Reduce the light output when no one is in the stairwell and increase light when anyone enters the stairwell.

FS-505 Mounted in Stairwell

Ultrasonic technology for open area detection and line-of-sight obstructions.

Choose the percentage of light output (XX) that you want when space is unoccupied.

Sky Bay

Our SKB is an architectural and aesthetically pleasing addition to any environment. Not only do we offer our SKB as a whole fixture; we also are able to provide a recessed shroud to transform panels in your space. This specification grade luminaire is available in 1x4, 2x2, and 2x4 sizes with 3500, 4000, or 5000K Color Temperatures. Our 2x4 boasts an offering of two different Lumen packages.

The shroud can be customized to give your space that additional pop!

Transform your flat panel into a specification grade luminaire with our Sky Bay accessory. Custom interior color makes a statement and reinforces your brand.

The Simple LED Solution

EZ LED

The Benefits of LED with
Ease, Practicality and Flexibility

THE SIMPLE LED SOLUTION

EZ LED

The most economical, practical and user friendly series of LED fixtures with the energy savings, quality of light, long life and hassle-free maintenance. EZLED fixtures are UL Listed with the latest LED T8 Bypass lamps. Fixtures provide over 40% energy savings over comparable fluorescent fixtures utilizing less expensive fixtures than the fluorescent version and have flexibility to change wattage and color temperature any time. Fixture performance will evolve over time with the evolution of the T8 LED lamp technology. Concerned about maintenance with an LED array and driver fixture, EZLED solves that by utilizing LED T8 lamps that fit into the fixture just like a fluorescent lamp.

LED System

A complete UL Listed LED fixture with no ballast or driver to fail. Special red sockets to identify fixtures made for LED T8 lamps.

Flexibility and Long Life

Change the LED T8 lamp any time to different wattage, color temperature or lumens.

Premium LED T8 Lamps

Mobern uses top quality LED T8 lamps that are field tested for demanding applications.

How To Add Emergency to EZ LED

Separate LED Array added for Emergency.

KEYSTONE KT-EMERG-LED-12-1200-K1 LED EMERGENCY LIGHTING KIT

12W Constant Wattage - Ballast Battery Backup - Damp Location - 120-277V

Includes driver, separately housed 1200mAh Ni-Cd battery and 0.7" x 8" 1200 Lumen LED module for complete emergency lighting installations. When AC power fails, the driver will power the LED for a minimum of 90 minutes emergency illumination. Easy installation in existing LED or fluorescent fixtures with wiring diagrams and labels on all parts. Mounting hardware included. Full 5 year warranty on all components.

Output Current 1000 mA-200mA - Output Voltage 12 ~41 Vdc

To order, add EMKT12 to end of EZLED item number.

Universal Strip Retrofit Kit

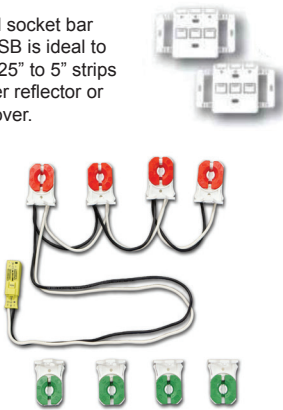

Choice of Reflectors
or Ballast Cover

For ballast cover,
choose strip width 4.25" or 5"

For enhanced light output add a mirrored
specular reflector (M) or white reflector (W).

Universal socket bar
M-SKRUSB is ideal to
retrofit 4.25" to 5" strips
with either reflector or
ballast cover.

SG Inside

What's Inside Your Fixture Matters

LED T8 LAMP WITH EXTERNAL BALLAST

Easiest Retrofit, But May Not Pay

LED T8 Lamps will improve the lighting from your fixture, but the ballast life of 3 to 5 years may reduce the benefit.

FLUORESCENT BALLAST & LAMP

Cost Effective without Performance and Energy Saving

Still a cost effective solution but doesn't have the performance, energy savings or maintenance of LED.

LED ARRAY & DRIVER

New Technology, But No Maintenance

On the surface the enhanced performance and life are great but not being able to adjust to your needs or "relamp" will be an unpleasant surprise.

SAVEGREEN INSIDE

Benefits of LED Plus the Maintenance and Flexibility

Great lighting, long life, easy maintenance and tons of flexibility make this the winner.

	Crisp, vivid lighting	Enhanced color	Extended lamp life over 50,000 hours	Energy efficient up to 40% savings	Flexible to change output during life of fixture	Flexible to change color over life of fixture	Flexible to change What's Inside without professional installer	Don't discard and replace entire fixture when breaks down	Change What's Inside by yourself in less than a minute

Manufacturer's Limited Warranty

A. Mobern Lighting warrants that all of its "legacy" Fluorescent or HID Product(s), other than ballasts, emergency battery packs, lamps and poles supplied in connection therewith, will be free from defects in workmanship and materials for a period of three (3) years from date of shipment. Mobern Lighting, at its option, will repair or replace, F.O.B. our factory, freight prepaid, any Mobern Lighting Product(s), other than ballasts, emergency battery packs, lamps and poles supplied in connection therewith, which are deemed, in its sole and absolute discretion, defective in workmanship or materials. Such repair or replacement is the sole and exclusive remedy available to any customer to rectify defects in Mobern Lighting Product(s), other than defects in ballasts, emergency battery packs, lamps and poles sold in connection therewith. Ballasts, lamps and poles are covered by separate manufacturer or factory warranties, if applicable at the time of defect. Therefore, each Mobern Lighting customer or end-user must timely notify Mobern Lighting or the manufacture directly, if directed to do so by Mobern Lighting in order to preserve the applicable manufacturer's warranty available under this provision. **CUSTOMER OR END-USER FAILURE TO TIMELY COMPLY WITH THIS NOTICE PROVISION MAY VOID THE MANUFACTURER WARRANTY.**

B. Mobern Lighting warrants that all of its indoor and outdoor light emitting diode (LED) fixtures, including the LED array, LED drivers and integral control devices, are free of defects in workmanship and materials for a period of five (5) years from the date of shipment. Unless otherwise expressly stated in writing, the LED array will be considered defective if a total of 15% or more of the individual light emitting diodes fail to illuminate. Mobern Lighting reserves the right to determine, in its sole and absolute discretion, whether to repair or replace defective LED fixtures or components. LED boards, drivers and other components are covered by separate manufacturer or factory warranties, if applicable at the time of defect. Therefore, each Mobern Lighting customer or end-user must timely notify Mobern Lighting or the manufacture directly, if directed to do so by Mobern Lighting in order to preserve the applicable manufacturer's warranty available under this provision. **CUSTOMER OR END-USER FAILURE TO TIMELY COMPLY WITH THIS NOTICE PROVISION MAY VOID THE MANUFACTURER WARRANTY.**

C. No charge-back, or reimbursement for in-the-field labor or material, or delay in installation, that results from defective products, will be honored, accepted or paid for by Mobern Lighting, unless expressly authorized in writing by Mobern Lighting. In no event shall any inside salesperson or outside sales agent of Mobern Lighting have the authority to bind Mobern Lighting to any such charge under this Warranty.

D. This Limited Warranty applies only when Mobern's product(s) are installed in applications in which ambient temperatures are within the range of specified operating temperatures and are operated within the electrical values shown on the ballast or LED driver Label. Mobern Lighting will not be responsible for any failure of any Mobern product(s) that results from external causes such as: acts of nature; physical damage; exposure to adverse or hazardous chemical or other substances; use of reactive cleaning agents and/or harsh chemicals to clean Mobern's product(s); environmental conditions; vandalism; fire; power failure, improper power supply, power surges or dips, and/or excessive switching; induced vibration; animal or insect activity; fault or negligence of purchaser, any end user of Mobern product(s) and/or any third party not engaged by Mobern Lighting; improper or unauthorized use, installation, handling, storage, alteration, maintenance or service, including failure to abide by any product classifications or certifications, or failure to comply with any applicable standards, codes, recommendations, product specification sheets, or instructions of Mobern Lighting; use of Mobern's product(s) with products, processes or materials supplied by any end user or third party; or any other occurrences beyond Mobern Lighting's reasonable control. Mobern Lighting also will not be responsible for any substantial deterioration in fixture paint finish that is caused by failure to clean, inspect, handle or maintain. **THIS LIMITED WARRANTY IS IN LIEU OF ANY OTHER WARRANTIES INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.**

E. Sensors, controls, emergency battery packs, lamps and poles are covered by separate manufacturer's warranties. Therefore, each Mobern Lighting customer or end-user must timely notify Mobern Lighting or the manufacture directly, if directed to do so by Mobern Lighting, in order to preserve the applicable manufacturer's warranty available under this provision. **CUSTOMER OR END-USER FAILURE TO TIMELY COMPLY WITH THIS NOTICE PROVISION MAY VOID THE MANUFACTURER WARRANTY.**

F. IN NO EVENT SHALL MOBERN LIGHTING BE RESPONSIBLE TO REPAIR OR REPLACE ANY PRODUCT THAT WAS NOT USED FOR ITS INTENDED PURPOSE OR THAT WAS INSTALLED OR MODIFIED IN ANYWAY NOT IN ACCORDANCE TO MOBERN LIGHTING'S EXPRESS WRITTEN INSTRUCTION.

G. No agent, employee or representative of Mobern Lighting has any authority to bind Mobern Lighting to any affirmation, representation or warranty concerning Products sold by Mobern Lighting unless authorized to do so in writing.
