Arc, world leader in tableware, has nearly 200 years of experience and expertise in glassware production. But Arc has also acquired unique expertise over the years in the areas of food service, bars, gastronomy, and oenology.

With its three brands, Arcoroc™, Chef&Sommelier™ - by and large distributed on the food service circuit - and Cristal d'Arques™, Arc perfectly meets the needs of hospitality and restaurant professionals via a very extensive portfolio of products.

In this catalogue, discover more than 15 different unit needs (tableware, buffet, dinnerware, champagne or cocktail set, cutlery, etc.) among which you will find the perfect solution for your needs, from the heaviest to the most refined usage, as well as the most innovative.

## ARCOROC

Any day, any service, anything can happen. At Arcoroc™, we know all about it: we've been creating effective, durable tableware products since 1958. Because of our continuous search for comprehensive solutions, today we are the preferred partner to the biggest hotels, restaurants and bars in the world.

Our expertise is unique. It's down to our devoted, demanding teams, who place material innovation and design at the heart of our development. All with one objective: to measure up to the pressure and pace of your daily challenges, as well as your creativity and commitment to customer satisfaction.

## Chef&Sommelier

Chef&Sommelier™ carries on the legacy of an art of living rooted in the richness of French gastronomy and oenology.

Chef&Sommelier™ designs dinnerware, glassware and adjustable cutlery with sleek and elegant lines.

A unique signature for tables that become works of art.

Chef&Sommelier™ creations represent a world of innovation, where the most demanding professionals draw on their expertise to arouse the senses of their guests and create an unforgettable experience for taste buds. Never before have passion, elegance, and high expectations been so deeply anchored in a business. The focus is always on pleasure, creativity, discovery, and shared authenticity!

## CRISTAL D'ARQUES®

Since 1968, Cristal d'Arques Paris™ has embodied elegance à la Française and beauty within everyone's reach. While staying true to its values, the brand is now incorporating a casual chic look, inspired by the Art déco trend and the Parisian lifestyle.

Drawing on its expertise, Cristal d'Arques Paris™ is undergoing a makeover by reinterpreting the concept of luxury through a spontaneous and modern approach.

## EDUCATION

Creation requires comprehension.  
Comprehension requires communication.  
This is probably how our solutions for schools have become so successful.  
Arcoroc offers a large range of products that provide concrete solutions for school canteens including, for instance, glasses that are easy for children to hold, plates that save space on trays, and containers of varying sizes to match children's different appetites and thus limit waste.

# HEALTH CARE

Whether in a retirement home or a hospital, whetting residents' appetites while also guaranteeing enjoyment is a daily challenge. It requires developing inventive, quality cookware that is adapted to everyone's needs. Arcoroc's large range of practical and specialist plates, developed alongside healthcare professionals, will help you rise to the challenge. Our products are the perfect solution for tackling difficulties associated with cook and chill and cook and serve processes, as well as problems of space and ergonomics. Some also offer a touch of sophistication and colour.

## SELF SERVICE

Self-Service sector is constantly innovating to keep up with the latest trends. A wider choice of food is offered to seduce the customers and make them want to taste it all! They want to eat well and quickly ; they also expect to enjoy healthy food at any time of the day. Self-serve catering brands have to be creative to attract their share of the market. Arcoroc offers a complete assortment of on-trend and resistant items for all your food and beverage services. With our modular, ingenious designs, your customers can create attractive trays with appetizing plates.

## ECONOMY

The catering market is changing and, with fast food chains offering more high-end options to enter the fast-casual dining sector, and the casual dining sector becoming more popular while maintaining the same quality, economic food options are having to reinvent themselves.

Against a backdrop of more affordable prices and a need to promote their menus, economic food establishments can find an excellent partner in Arcoroc, thanks to its ultra-resistant collections (Zénix, Opal and tempered glass) and quality solutions in various materials and colours for very competitive prices.

## CASUAL

Casual dining is growing and the sector overflowing with innovative, stand-out concepts.

These establishments always have a friendly vibe and often produce the hybrid atmosphere of an ultra-connected restaurant that also focuses on history.

Arcoroc's vast range of dinnerware is perfectly suited to the needs of these new concepts, offering different materials, shapes, colours and effects.

It features practical dinnerware, glassware and cutlery collections designed specifically for professional uses.

## BISTRONOMY

The "bistronomy" concept is the new, hip restaurants with muted lighting that serve innovative cuisine. Here, style is king and friendliness dominates.

For your gourmet concepts, our brands Arcoroc™, Chef&Sommelier™ and Cristal d'Arques Paris™ help you trigger the discovery spirit in your customers' mind. For all these sharing moments filled with conviviality and friendliness, our collections offers an on-trend products that combines design, bold design and technology. Its unique offer features plates with innovative shapes, wooden trays, individual containers, concrete containers, allowing you to create endless combinations in this always evolving restaurant concept.

## BANQUETING

Banquets are important events for your customers and your savoir-faire is on par with their level of expectation. For the biggest events, simultaneity in service is a truly spectacular performance. Arcoroc and Chef&Sommelier draw from its expertise in event and reception service to offer collections that combine elegance with a high level of technical performance. Resistant materials such as Zénix, Opal, Porcelain, tempered glass, and Krysta – new crystal glass generation with a high shock resistance - light and stackable items, and expanded ranges help you provide a fast and high-quality service.

## BAR, PUB & TAVERN

Traditional pubs, futuristic bars and speakeasies are new places to drink and chat that boast limitless creativity to win over aficionados. Cocktails offer up a show, while beer is no longer just drunk but tasted, like a fine wine, and vintage spirits and aperitifs are experiencing a revival. To keep pace with these new trends, *Arcoroc™*, *Chef&Sommelier™* and *Cristal d'Arques Paris™* have developed a diverse range of products: cocktail and margarita glasses for a '20s atmosphere, a crystal style to create a vintage feel, and a "recycled" offering for ultra-creative, modern mixes.

Gastronomy professionals are searching for glasses that satisfy their needs in terms of **perfection and sophistication**.

Their desire: Splendidly elegant table settings with **fine, lightweight, extremely transparent** products.

Their professional needs: **Intensive daily use** requires products that are **highly resistant to shocks and detergents**.

To meet these twin challenges of **aesthetic excellence and resistance**, the Arc Research Centre is introducing a **new generation of lead-free crystal: Krysta**; The high-performance crystal glass.

**SUPERIOR STRENGTH**

The Arc Research Centre has developed a crystalline material, Krysta, combining **superior strength with exceptional finesse**.

Finer and stronger: the Krysta innovation.

Lip: with a thickness of 1.1 mm, KRYSTA is 30% stronger\*

Stem: Ultra-delicate stems (~6,5 mm in diameter) offer an important torsion mechanical resistance when crafted of Krysta

- **Savings across the entire chain: fewer breakages and chipping during transportation, storage, washing and polishing.**

\*than other standard crystal glasses on the market.

**COMPLETE TRANSPARENCY**

Krysta is one of the **purest and most transparent crystal glass** on the market.

The perfect mastery of its composition, the quality of the sand used, and fusion at a very high temperature gives Krysta perfect transparency.

- **Tables enhanced by the sparkle of Krysta.**
- **The robe of every wine respected to perfection.**

**LONGLASTING BRILLIANCE**

Krysta boasts extreme, long-lasting brilliance.

After 2,000 professional dishwasher cycles, Krysta is **as brilliant and transparent as ever**.

- **Glasses that bring a special brilliance to your tables.**
- **Dinner services with lasting sparkle that you will be using for a long time.**

**PERFECT ACOUSTICS**

Krysta's exclusive composition gives it **a clear, pure sound** in keeping with the tone of the best crystals.

- **The allure of Krysta: A unique shine coupled with a distinct sound for a refined sensory experience.**

**100% clarity**  
**0% colouration**

**HIGH - TRANSPARENCY**

Glass in its purest form Arcoroc has the «**High Transparency - Purity certified glass**» label on some of its products, this certifies that these items are made with only **the highest quality glass**.

Due to its composition and laboratory-tested and confirmed performance, Arcoroc glassware features an exceptional level of purity\*\*.

\*\*Quality certified by the IWA 8/AFNOR CLEAR GLASS STANDARD

For professionals, breakage problems are a regular occurrence. **In order to increase the lifetime of product by 10 to 50 times, in 1958, our research and development center developed and perfected since then, a technical process known as «tempering».** This process provides products with excellent resistance to heat and mechanical shock. Our items are fully tempered.

**Savings in terms of budget and restocking costs:** a tempered glass can be up to 5 times more resistant than an item that has not undergone any specific treatment process.

**Tempered products resist to temperature variations till 130°C:** they can thus be removed from the oven (or from a salamander) and placed directly in cold water without the risk of breakage.

**Completely safe for table service\*:** when a shock or series of shocks manage to rupture the exterior shell of the tempered glass, the resulting glass shards are not sharp to the touch\*. \*According to the thickness. Cannot be applied to tempered Opal.

The SAN items are very popular with hotels for rooftop, swimming pools, and terraces, and with many discotheques.

They have an excellent **mechanical resistance.**

They show **no deterioration of the material** after more than 2,000 washes in an industrial dishwasher

The Arcoroc SAN items are guaranteed **Bisphenol A free.**

**ZENIX**  
FINE QUALITY  
HIGH RESISTANCE

HIGH SHOCK  
RESISTANCE

HIGH SCRATCH  
RESISTANCE

THERMAL SHOCK  
RESISTANT

Thanks to an innovative manufacturing process, Zenix® combines the refinement of a nice cream color with advanced technology.

Zenix® is also remarkable for the finishing above and below of its items.

**Extremely resistant material**, Zenix® offers tableware a **long lasting quality**.

HIGH SHOCK  
RESISTANCE

**Zenix® is up to 3 times more resistant to shocks and chipping than porcelain:**

Savings in terms of budget and restocking costs.

HIGH SCRATCH  
RESISTANCE

**Zenix® has a perfectly smooth and non-porous reinforced surface.**

Knives slide naturally across Zenix® without leaving a trace\*.

In normal washing and using condition, Zenix® plates keep their beautiful aspect later for 2,000 industrial cycles.

\*Preferably used with knives hardened beyond 500 Vickers/norm ISO 8442. Ceramic knives should not be used.

THERMAL SHOCK  
RESISTANT

Zenix® products are **resistant to variations in temperature of 130°C**: they can thus be removed from the oven (or from a salamander) and placed directly in cold water without the risk of breakage.

PERFECTLY  
NON-POROUS

100% Zenix®, **0% porosity. 100% protection against bacterias.**

**HIGH  
RESISTANCE**  
OPAL GLASS

HIGH SHOCK  
RESISTANCE

THERMAL SHOCK  
RESISTANT

PERFECTLY  
NON-POROUS

In 1958, the Arc research and development department developed and perfected since then a new material generation for dinnerware: Opal.

Food service professionals all over the world have opted for that all-round **professional material** solution that is **economical, ecological and practical**.

HIGH SHOCK  
RESISTANCE

Up to **3 times more shock-resistant** than porcelain: the secret of its unbeatable durability.

THERMAL SHOCK  
RESISTANT

Opal Glass products are **resistant to variations in temperature of 130°C**: they can thus be removed from the oven (or from a salamander) and placed directly in cold water without the risk of breakage.

PROFESSIONAL  
2000 CYCLES

**Fade-resistant surface and pattern**, even after 2,000 industrial dishwashing cycles.

HEAT  
MANAGEMENT

As **efficient in keeping food hot** as other materials such as porcelain. (at the same thickness and weight)

MICROWAVE  
SAFE

Can be **safely handled after microwave** use.

PERFECTLY  
NON-POROUS

100% Opal, **0% porosity. 100% protection against bacterias.**

The ceramic tableware used for Chef&Sommelier and Arcoroc collection is of **remarkable quality**, which has no equal but its **resistance**.

- **Superior shock-resistance:**

Arcoroc and Chef&Sommelier porcelain offers a **superior shock resistance** that is perfectly adapted to **professional intensive usages**.

- **Long-lasting scratch resistance.**

- **Excellent dishwasher resistance:**

Both surface and decoration even after 2,000 industrial washes.

- **Cream white porcelain:**

A seal of quality and purity.

- **Heat retention levels:**

as effective as those offered by other materials currently available on the market.

Arcoroc and Chef&Sommelier cutlery is **designed** for **intensive and professional use**.

The **reliability** and **durability** is **underpinned by strict specifications and rigorous checks at each stage of the manufacturing process**.

Most of our collections are done in 18/10 - AISI 304 stainless steel, what is ideal for use in **high-quality cutlery and to guarantee resistance**, the thickness of the cutlery is examined in minute detail.

Some of our Arcoroc collections are done in 18/0 - AISI 430 performance polished stainless steel, also **resistant and designed for a long life**.

Each piece of our cutlery has been designed to combine **elegance with perfect ergonomics and balance**.

Our cutlery is **wash resistant and respects dinnerware material** by avoiding **scratches**.

The **bending strength and torsion resistance** has been designed to be above the requirements of the industry.

Regarding our knives some are available in both solid handle and hollow handle formats.

Our solid handle knives have been created to balance weight with design and use the finest quality stainless steel.

Our hollow handled knives use the traditional 3 piece composition, highest grade 18/10 - AISI 304 stainless steel handle (2 piece) and high grade (AISI 420) hardened knife blade (3rd piece), to give the optimum in quality, longevity and design. All of our cutlery collections are dishwasher safe.

CONTROLLED WEIGHT

Catering professionals are increasingly offering a pricing range that varies according to the weight of the food that their customers take. To ensure that it is as fair as possible, they need products the weight of which does not vary or varies only slightly from one item to another.

This is where Arcoroc™ comes in, **by controlling the weight of its items**, whether the products are made from Zenix®, Opal® or glass.

Within our Arcoroc™ offer, for certain references that are strategic for the venue, **we guarantee a tolerated weight standard** according to the following rule:

- +/- 10 g for items weighing <= 500 g
- +/- 15 g for items weighing > 500 g
