Guide to purchasing from The Scottish Government National Framework Agreement for Notebook & Tablet Devices – Education

A collaborative contract placed on behalf of the Scottish Public Sector by Scottish Procurement

XMA

We are XMA.

This document contains commercially sensitive information and should not be shared (wholly or in part) with any third party unless prior agreement is provided from Scottish Procurement.

We are XMA.

We deliver innovative IT solutions that enhance how people learn, teach, govern, deliver healthcare and do business. We are a team of over 250 specialists, based across the UK who bring together over 30 years of experience, world class vendor partnerships and broad service delivery capabilities on the ground and in the cloud.

Part of an independently owned British group, we are based in Nottingham, Reading, Halifax, Glasgow, Cwmbran and London. We have national reach and a local touch. Our UK-based data centre and ISO:27001 accreditation means we can host your data, applications and infrastructure in the cloud, securely.

We are a compliant route to purchase, with presence on local and national frameworks for hardware supply and services. Our partners are the biggest names in computing, infrastructure and print. We take their products and build, deliver and maintain solutions that work for you.

About the Framework

XMA was awarded the Scottish Government National Framework Agreement for Notebook & Tablet Devices Education Lot in March 2013. The framework enables schools, colleges and universities in Scotland to purchase from the enclosed range of mobile devices, accessories and services.

Standard Device Pricing

iPad		
Order Code	Device Description	Framework Price
ME276B/A (Space Grey) ME279B/A (Silver)	iPad mini with Retina display	£177.00

Android		
Order Code	Device Description	Framework Price
SM-T230NYKABTU (Black) SM-T530NZWABTU (White)	Samsung Tab 4 7" 8GB Wi-Fi	£110.00

Windows		
Order Code	Device Description	Framework Price
U143E-991J14VMP + EXT1031-VED	Toshiba NB10 W8.1Pro Celeron N2840 4GB 500Gb 3yr	£203.00
97420388/2	Dell Venue 11 Atom Win8 Pro	£380.00

CONFIDENTIALITY

The Buyers Guide contains commercially sensitive information and should not be copied and shared with any third party unless prior agreement is provided from Scottish Procurement.

All pricing includes delivery and excludes VAT.

* Pricing quoted includes a Microsoft technology access programme discount. Technology access programmes, formerly referred to as Shape the Future, is a global programme from Microsoft that provides a comprehensive approach for governments exploring a transformation of their education system to prepare students for the 21st century. These solutions achieve whole system change – from access (devices and connectivity) to capacity (educator professional development) to outcomes (skills for tomorrow's workforce).

iPad

Enhance your students' academic success with innovative tools that personalise learning. iPad supports education in any subject area — whether your students are improving their reading fluency, building maths skills or pursuing information sources beyond the classroom.

Thanks to these powerful devices, students can enjoy anytime learning with a growing wealth of educational content, Internet resources, digital books and interactive applications. All at their fingertips.

XMA and iTeach

Working with XMA since 2014, iTeach deliver a comprehensive range of training to schools that ensures iPad has an effective impact on classroom practice. Meaningful, relevant, curriculum focused training that enables real change. Delivered by experienced teachers, iTeach training has a genuine focus on learning and teaching. Training that ensures staff and pupils can benefit in class the very next day.

iTeach provide two core methods of training for schools in Scotland:

Apple Professional Development (APD)

Apple certified training that can be built into a half day or full day. It is 'catalogue' based to allow you to choose what suits your school and is facilitated by Apple Certified Education Trainers, all of which are teachers.

Bespoke Training

Specialised training designed around the unique needs of your school. We look at your vision, your school development targets and build a plan across the academic year that scaffolds and supports staff and pupils at every stage.

iTeach believe in relationships - working with over 2,000 schools across Scotland, Northern Ireland and England, iTeach have a proven track record in success by working with each school on its individual needs, always keeping to the fore the focus on successful learning outcomes. We take time to meet with senior leaders, identify a clear vision and agree specific targets. By creating a bespoke plan, we ensure success and evaluate, reflect and review every step of the way.

Effective use of iPad through amazing training. That's iTeach in partnership with XMA. Discuss iTeach training today with your XMA account manager and allow us to offer a customised training experience built for your school.

Aggregated Training Days

The available APD training days are managed on an aggregated basis across all of Scottish Public sector at a framework level. Organisations with qualifying purchases and eligible for APD training will continue to be given first priority. Thereafter, the remaining days will become available to Local Authorities and schools to aid their deployment of Apple devices.

Check iTeach out online at www.iteach.uk.com

Training offers

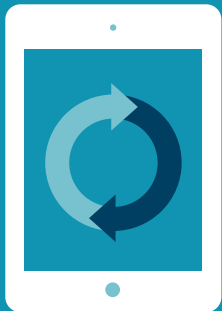

FREE Half Day Apple Professional Development Workshop

With purchase of 25 iPads.

FREE Full Day Apple Professional Development Workshop

With purchase of 50 iPads.

EXCLUSIVE
OFFER

Trade in your iPad with Tech-Trade and XMA

XMA have teamed up with Scotland-based Tech-Trade to offer highly competitive trade-in pricing on iPad.

Our site makes it easy to search for your iPad model, select the condition and receive an instant valuation. If you're happy, select a date, Tech-Trade will arrange for collection of your devices and provide written confirmation of their trade-in offer. Should you go ahead, a credit will be made available with XMA against future purchases.

FAQs

Q: What devices are eligible for trade-in?

A: iPad, iPad 2, iPad (3rd Generation), iPad (4th Generation), iPad mini, iPad mini 2 and iPad Air. If you're not sure about which devices you have, visit <http://support.apple.com/kb/HT5452>.

Q: Can I trade-in broken/faulty devices?

A: Yes, however the trade-in value will be reduced based on the unit condition.

Q: What is the minimum number of devices I can trade-in?

A: The minimum is 20 devices. These can be of any combination of eligible iPad models.

Q: Is there a cost to send my devices to Tech-Trade?

A: No, you will receive all packaging delivered to your specified location via courier or our own transport. Once you have packaged all devices a courier or our own transport will collect the order from your specified location.

Q: What happens to the devices I trade-in?

A: The used devices are thoroughly checked by a technician to assess their condition. Those in good working order are data wiped* and resold on secondary markets. If the device cannot be economically repaired, it will be recycled in an environmentally responsible way.

*Data disposal is achieved using Tabernus Enterprise Erase Mobile which is certified and approved by CESG (The information arm of GCHQ), CPA, NATO and The Defence INFOSEC Product Co-Operation Group UK. The software augments existing factory reset and re-flashing processes.

Q: How long does the process take once my devices are collected?

A: From the point at which your devices are received at our facility, we will process and grade all devices within 5 working days. If the device is received in the condition stated at the point of processing the transaction we will authorise a credit note with XMA.

Q: Who are Tech-Trade?

A: The Tech-Trade programme is operated by Games Centre Limited in association with XMA.

For further FAQs and full terms and conditions please visit the Tech-Trade website.

Training and Services

Our experienced team includes both Curriculum Specialists with backgrounds in education and Technical Specialists who are experts in the deployment of tablet technology. This unique mix of skills allows us to support you with all aspects of your mobile device deployment – from planning to ongoing support.

<p>Planning</p>	<p>Tablet Vision and Plan for SMT A vision and plan session ensures that key stakeholders in your school are aware of and have thought through the many considerations that come along with a mobile device deployment.</p> <p>Our team have been involved in the deployments of 10s of 1000s of mobile devices across the UK and will highlight some of the hidden benefits and how to avoid any pitfalls.</p>	<p>Platform: Not platform specific</p> <p>Cost: £325/half day £600/full day</p>
<p>Deployment</p>	<p>Managing Shared Sets of Tablets Our technical experts will help design a workflow for managing shared sets of tablet devices in your school including how to charge and sync effectively.</p> <p>Managing Tablets One to One Our technical experts will help propose a solution to manage devices that are allocated to pupils and that go home at night.</p>	<p>Platform: iPad, Android or Windows</p> <p>Cost: £325/half day £600/full day</p> <p>Platform: iPad, Android or Windows</p> <p>Cost: £325/half day £600/full day</p>
<p>Ongoing</p>	<p>Apple Professional Development For schools with iPad, Apple’s catalogue of Professional Development courses will help maintain the momentum of your rollout. These workshops can be delivered at your school or centrally at your local authority. Workshops include leadership sessions, iOS foundation topics and curriculum specific courses.</p> <p>Download the latest catalogue from xma.co.uk/apd</p>	<p>Platform: iPad</p> <p>Cost: £325/half day £600/full day</p>

Bespoke Training and Consultancy

Training offers

We know that each and every school has their own specific needs and we recognise this with our bespoke training and consultancy services. Contact your account manager to discuss your requirements and we will build a package of training and consultancy to be delivered how and when is most suitable to you.

Platform: Not platform specific, iPad, Android or Windows
Cost: Priced on request

FREE Half Day Apple Professional Development Workshop

With purchase of 25 iPads.

FREE Full Day Apple Professional Development Workshop

With purchase of 50 iPads.

Device Management

As mobile devices like tablets are designed to expand learning outside of school hours it is important to consider how to manage them and deliver apps to them when they are outside of your network. Mobile Device Management (MDM) solutions allow you to monitor, support and secure mobile devices over the air. With iPad, MDM can also manage and deploy apps purchased from Apple's Volume Purchase Programme.

Featured MDM partner – Lightspeed

Mobile Manager from Lightspeed Systems

With Mobile Manager you can make managing your mobile devices as easy as possible. With powerful features made just for schools, you can roll out, manage and safely utilise mobile devices for learning – balancing management between IT and educators and ensuring appropriate educational use wherever your learners go.

- Easily manage devices across your school with flexible groups and an intuitive interface
- Control device functions with a simple click
- Manage apps installed and purchased throughout the school
- View critical information about all devices in your school

A key benefit of Mobile Manager is that it has a school based structure which allows for hierarchical design that matches school structure and makes management intuitive. In addition, it allows for shared management so teachers and IT can each control and manage what they need to. With a simple and easy to use structure, you can push apps, control features and more with just a click.

Featured MDM partner – AirWatch

AirWatch is helping schools and universities embrace the next generation of learning with educational apps, eBooks and learning content on mobile assets. With AirWatch, you can track all mobile assets across your institution, configure policies and settings, distribute apps and secure access to school networks and resources all through our web-based console. AirWatch allows IT administrators to ensure devices are compliant with school policies and monitor violations in real time. This empowers you to maximise your mobile investment by increasing IT efficiency and reducing costs associated with managing mobility.

AirWatch is focused on the education industry, and has a dedicated team of account executives who understand the market, as well as an education specific R&D team. Education-specific pricing models and discounts are available.

Contact the team at XMA who can advise on an appropriate MDM solution for your school.

About optional MendIT insurance

MendIT Insurance is suitable for all makes and models of tablets and notebooks, providing protection against those everyday mishaps that occur at home, work or on holiday. Whether physical, liquid, fire or flood damage, MendIT insurance has you protected.

With an easy claims process and fully trained and accredited engineers, MendIT aim to have your device either repaired, or replaced and returned to you within the shortest time possible.

Examples of Accidental Damage can be dropping your device on to a hard surface, such as a wooden or concrete floor, resulting in a cracked/smashed screen/case. Liquid damage can consist of either a drinks spillage or caught in the rain.

Provision and Process

- You will receive insurance documents and a policy number after product registration
- You will receive worldwide cover and no excess on the policy
- To make a claim online visit www.compucover.co.uk/claims
- Claims must be reported within 14 days of the event
- MendIT will arrange collect of the defective device, repair and return it to your location (UK nationwide)
- MendIT will incur all repair and logistical costs during this process
- Examples of accidental damage cover include drops, liquid damage and accidental breakage

MendIT Insurance must be purchased during the manufacturer's standard warranty period (check guidance with the device or on the manufacturer's website). Your policy will begin from the date you purchased your MendIT insurance.

MendIT is an Appointed Representative of Summit Insurance Services Limited, and regulated by the Financial Services Authority (FSA). Summit Insurance Services Ltd's FSA Register No. 300172

Wi-Fi and Infrastructure

XMA work with world class infrastructure partners and our specialist team will either confirm that your existing network infrastructure is suitable for your expanding mobile device programme or advise on appropriate upgrades. We offer wireless solutions that can grow with your deployment, offering secure access to network services and appropriate access to the internet. We design these solutions to provide coverage and capacity to support your deployment now and as it expands in the future.

Featured infrastructure partner – Aerohive

Schools now require "business-grade" wireless networks – those that are managed centrally and offer sophisticated features for scaling the network throughout school buildings, campuses, and local authorities. Aerohive cost-effectively delivers these features – and more – so schools can take networking to the next level.

Feature	Benefit(s)
TeacherView Classroom Monitoring Application	<ul style="list-style-type: none"> Improves classroom efficiency by giving teachers simple tools to control classroom Wi-Fi access
Centralized Management (throughout a building or across school districts and campuses from a single console or online service)	<ul style="list-style-type: none"> Offers easy-to-use management for streamlining operations and reducing operating expenses
Fully Distributed Processing, Data Forwarding, Control Architecture	<ul style="list-style-type: none"> Results in higher network performance – no controller bottlenecks and no dependence on a vulnerable WAN connection to a remote controller Reduces capital expenditure costs because no controller purchases are required Improves budget control with the ability to "pay as you grow"
Secure Guest Access with Integrated Captive Web Portal	<ul style="list-style-type: none"> Provides secure connectivity for parents and other temporary users
Fast, Secure Roaming and Identity-based Security (enforced in every access point as a user connects)	<ul style="list-style-type: none"> Offers mobility while maintaining compliance with the network security aspects of privacy mandates Provides enhanced security above and beyond 802.11's inherent authentication and over-the-air encryption including integrated firewall, WIPS, VPN, RADIUS, and Active Directory support
Mesh Technology for AP-to-AP Direct Communications	<ul style="list-style-type: none"> Ensures highest levels of network availability and resiliency, as network "self heals" around any failure points Enables ability to wirelessly connect to portable classrooms and field houses
Simple Pricing Model and No Feature Licensing	<ul style="list-style-type: none"> Grows with your needs (linear cost curve) Eliminates budget "surprises" as you need additional features for new applications (i.e. QoS, VPN, mesh)

Options available across all devices

Accessories and Upgrades

We offer a whole range of accessories for mobile devices to ensure you get the most out of your purchase. From protective cases, to power adapters and batteries, earphones, headphones, keyboards, charging units, adapters to connect your device up to all sorts of displays and projectors, we have it all. There are new accessories appearing on the market all the time and we keep our ears close to the ground to make sure we can supply them for you. If you are looking for a device with additional storage or extra functionality such as cellular connectivity then we can offer these too.

Leasing

XMA can provide a 2 year operating lease option for all devices, including accessories. With an operating lease you pay a consistent lease amount across 24 months and have various options available at the end of the period - you can buy the equipment at a Fair Market Value, return the equipment or extend the contract. The lease option includes insurance against accidental damage and theft.

Insurance

When purchasing devices outright, XMA can provide options for accidental damage and theft insurance. The cover offered has no excess and the device is covered while at home and even on holiday.

Warranty Extension

Every device offered on the framework includes a 2 year collect and return warranty, all administered by XMA via our helpline and online framework portal. XMA can extend the term of the warranty to 3 or 4 years and provide onsite options. Where data security is especially important we can provide options that allow you to retain the storage from a faulty device or have us destroy it onsite.

Services

XMA can offer a number of services to assist in the deployment of mobile devices in your school or institution. We can asset tag or laser etch (minimum 10 units) your devices with asset numbers and your institution's logo, pre-configure your devices with applications and settings and store your device in our bonded warehouse for staged rollouts.

Get Advice and Order

XMA's team in Glasgow can advise you on the devices available under this framework as well as associated accessories and services. Contact the team by phone or e-mail using the details below.

Technical Support and Dead On Arrival (DOA)

Every device offered on the framework includes a 2 year collect and return warranty. That means if something goes wrong that we can't help you with over the phone, we will arrange to have the device collected, repaired and returned to you. If a problem develops with a device purchased through the framework, call our help desk on the number below, ensuring you have the device in front of you and the serial number to hand. We may ask you to perform some basic troubleshooting that could get you back up and running immediately.

Call **0115 918 3540 Monday to Friday, 08.00 - 18.00**

If you prefer to e-mail us with details of the problem, use the address below.

technical.support@xma.co.uk

These details should also be used to report any devices that are Dead On Arrival (DOA) i.e. they do not function as expected out of the box, within 30 days of delivery.

Warranty Cover

What is covered by standard warranty?

- Any hardware failure or defect under conditions of normal use during the 2 year life of the limited warranty
- A battery which has depleted to less than 50% of its capacity
- Any manufacturer options or accessories sold as standard at the original point of sale and which are specifically designed and authorized for the device under cover

What is not covered by warranty?

- A battery that has a reduced capacity but still holding more than 50% of its charge
- Damage to the machine or lack of functionality caused by fluid or accidental damage
- Cosmetic damage
- Software and applications other than where exclusively supported by the manufacturer under their standard warranty
- Defective media retention – an enhanced warranty service is offered for institutions that require to maintain device storage or have it securely destroyed.

We are XMA.
