ATTENTION:

VALVE SPRING WARNING FOR ALL PACKAGES

On all complete packages, it is very possible that your valve springs are not correct for your camshaft. All valve springs should be checked for compatibility to your camshaft. Severe wear of valve train components and severe engine damage

could result from failure to do this. Check spring requirements before heads are installed on the engine. BRODIX requires you to supply the valve springs for any engine that has a flat tappet camshaft with over .615 valve lift.

WHILE OUR PRODUCTS ARE USED ON MANY SUPERCHARGED APPLICATIONS SUCCESSFULLY, PLEASE BE AWARE THAT THERE IS A GREATER POTENTIAL FOR ENGINE DAMAGE DUE TO THE POSSIBILITY OF TUNING ERRORS.

HOW TO ORDER LIKE A PRO

Here are some handy tips that will allow our sales department to ensure that you receive exactly what you need without problems or delay.

- 1) If you are a BRODIX customer, please have your customer number ready when you call. Please write it down for future reference.
- 2) Have your complete mailing and shipping addresses ready. Include : name, name of business, street address, and zip or postal codes. Please specify all correct spellings.
- 3) Remember, it is best to ship your order to an address where someone is able to receive it. Having the UPS driver leave thousands of dollars worth of parts on your front porch is a sure way to create problems.
- 4) Please have your order ready when you call. Give part numbers when possible. If you are uncertain as to the correct parts you need, one of our technicians will help you with your order.
- 5) All first time customers must prepay with Credit Card, Postal Money Order, or Cashier's Check.
- 6) We accept Credit Cards, Postal Money Orders, or Cashier's Checks with no waiting time for prepayment. Any other form of prepayment has a two week waiting period (Certified Check, Company or Personal Check, Official Check, Money Order, etc.) for the check to clear the bank. After prepayment has cleared the bank, your order will be processed as soon as it is available to ship. If you choose to prepay with a Credit Card, we need the following to process your order: your name as it appears on your card, card number, expiration date, and the bill-to address for your card.
- 7) A daytime phone number is required. We need some way to reach you during normal business hours if a problem arises with your order.

Notice:

If your order is in stock and you need it shipped the same day, you must call before 11:00 a.m. CST; and we will do our best to ship the order that day. BRODIX makes every effort to ship all in-stock orders within 24 hours, but please plan ahead and allow sufficient time for your parts to get to you.
