

**Bullet & Fixed Dome Cameras**

**M2014-E Network Camera**

The AXIS M2014-E Network Camera provides full-frame rate HDTV 720p video in H.264 and Motion JPEG. The camera's small and functional form factor makes it ideal for installations in retail stores, boutiques and small offices. Features include motion detection, active tampering alarm, Power over Ethernet (PoE) support and edge storage.

- Stylish and functional design
- HDTV 720p
- Edge storage
- AXIS Camera Companion support
- Axis Corridor Format

**P33 Network Camera Series**

The AXIS P33 Network Camera Series is specifically designed for efficient installation in both indoor and harsh outdoor environments. The unique remote focus and zoom functionalities, as well as the ability for the cameras to operate in extreme climates using standard PoE (IEEE 802.3af), save valuable installation time and make the cameras fit any project and environment. The AXIS P33 Series meets demanding requirements for superb video quality, on-board storage and intelligence.

- High-performance video, including HDTV quality
- Multiple H.264 and Motion JPEG video streams
- Easy installation with remote focus and zoom
- Outdoor-ready models support extended temperature range
- Compact and discreet design
- Power over Ethernet (PoE)
