*Sight Unseen Purchase Guarantee*

Sale Day Phone - (406) 423-7500. Buyers unable to attend the sale may call or send their bids to any of the Representatives listed or directly to Stevenson Angus. We provide a complete satisfaction guarantee for cattle purchased in this manner. When cattle purchased "sight unseen" are delivered, the buyer can inspect the cattle. If they are not as represented, simply put them back on our truck.

*Announcements*

Announcements from the auction block take precedence over any printed material.

*Herd Health*

All cattle sell with proper interstate shipment health papers.

*Delivery*

See our bull delivery policy on page 6. For all cattle purchased over the phone, through CCI or Frontier, Stevenson Angus will be in contact following the sale to arrange delivery. Full payment required before delivery of cattle.

*Hospitality*

Lunch will be available starting at 11:00 sale day with CAB Prime Rib dinner served that evening.

*Accommodations*

Call sooner than later, as rooms book up fast in White Sulphur Springs, Montana.  
 The Edith Hotel ..... 406-547-8888  
 Spa Hot Springs Hotel ..... 406-547-3366

*Inspection of Cattle*

Our cattle are available for inspection at the Ranch any time.

*Terms & Conditions*

The cattle sell under the suggested terms and conditions of the American Angus Association.

*Payment*

Payment is due at time of sale and no livestock shall be delivered until payment is received in full or other arrangements are made in writing. In the event Seller incurs attorney fees and costs for collection of payment, Purchaser shall pay the purchase price, interest at the statutory rate and all costs and attorney fees for collection. Past due accounts will be subject to 2% interest per month.

2. Select the Stevenson Angus auction and click *Get Approved to Bid* for absentee and live bidding. Follow instructions.
3. Login on sale day with credentials provided at registration. Call **866-313-0123** for tech help.

# Welcome to **STEVENSON ANGUS**

Fellow Cattlemen,

It is with great anticipation that we welcome your interest in this offering. This is a special event for the whole family. We are truly excited to host this spring sale at Darrell and Sara's Stevenson Down T Ranch in White Sulphur Springs, Montana. For the first time ever, we have chosen to offer a featured set of heifer calves. Representing our best, you will find top end heifers from some of the best cow families in the program. These are fancy, front pasture heifers, the kind to build a program around. Whether you have a growing junior project, looking to expand or searching for that next great donor, we welcome your consideration.

Leading off the bulls, is a select set of two-year olds. They were bred and developed specifically for this offering. Never picked over, these AI sired and ET bulls represent the top of the crop from the White Sulphur Springs unit. Take a look at these age advantaged bulls, simply put, they will cover more cows and cover more country.

The yearling bull offering represents our newest and most progressive genetics. High performance bulls from a time tested, reputable maternal cow herd. Several of these bulls are out of first calf heifers with many calving ease bulls presented. If you're in the mode to rebuild or expand, consider the maternal strength behind these bulls. These are the kind of genetics to build around, foundation type maternal genetics to best position you for the future.

This is the time to improve genetics! Two reasons ... more than ever, there is a distinct difference in value to those cattle that can make the grade or not. Generic black cattle and off colored breeds are being discounted. Why? Two premiums, either cattle grade Prime or be accepted for CAB. Second reason and more importantly is maternal prepotency. The national cow herd is built from the Angus cow. In a period and a need for regrowth, the strength of better Angus maternal genetics is in more demand than ever before. The industry will need more, better cows and the Angus female will unquestionably be that choice.

With this invitation, we proudly present our best. Whether you are looking for a herd bull or a pot load of bulls, there are high caliber genetics in every price range!

We're extremely confident with this offering and certain you will be as well! We truly welcome your visit and appreciate your continued support and interest. Consider this your personal invitation to join us on Sunday, March 3.

Sincerely,

*The family and crew of Stevenson Angus Ranch*

# Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 10-36 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	26	Heifer Pregnancy	17
Birth Weight	23	Calving Ease Maternal	20
Weaning Weight	27	Milk	36
Yearling Weight	23	Mature Weight	15
Dry Matter Intake	12	Mature Height	9
Scrotal Circumference	15	Carcass Weight	15
Docility	12	Yearling Height	17
Claw Set	10	Carcass Marbling	11
Foot Angle	10	Carcass Ribeye	17
		Carcass Fat	14

## How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs

[www.angus.org](http://www.angus.org)

# How to Read the Sale Lot Information

Expected Progeny Difference (EPD) is the estimate of how future progeny of each sire are expected to perform in each of the traits listed. EPD is expressed in pounds, either plus or minus. For example, when used on the same cows, calves sired by a bull with a +60 weaning EPD should average 10 pounds more than those sired by a bull with a +50 weaning EPD. EPDs are current as of catalog printing. Updated EPDs can be viewed at [www.Angus.org](http://www.Angus.org)

**Targeting the Brand™** logo highlights registered Angus bulls with greater genetic potential to produce calves that meet specifications of the Certified Angus Beef® brand.

**Calving Ease Direct (CED) EPD** is expressed in percentage of unassisted births, predicting the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**Birth (BW) EPD** is a predictor of progeny birth weight attributed to the parent.

**Weaning (WW) and Yearling (YW) EPDs** are predictors of the animal's ability to transmit weaning growth and yearling growth to its progeny.

**Scrotal Circumference (SC) EPD**, expressed in cm., is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

**Milk EPD** is a predictor of an animal's genetic merit for milk and mothering ability.

## Index values are expressed in dollars per head

**Maternal Weaned Calf Value (\$M)** predicts profitability differences from conception to weaning. Traits included: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

**Weaned Calf Value (\$W)** is the expected average difference in future progeny performance for preweaning merit and includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

**Feedlot Value (\$F)** is the expected average difference in future progeny performance for post-weaning merit compared to progeny of other sires.

**Grid Value (\$G)** is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

**Beef Value (\$B)** is the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires.

**Combined Value (\$C)** is an index which includes all traits that make up both \$M and \$B. EPDs directly influencing a combined index: CED, CEM, WW, YW, Milk, HP (Heifer Pregnancy), DOC, MW, Angle (Foot Angle), Claw (Claw Set), DMI (dry matter intake), Marb, CW, RE, Fat.

**Docility (Doc) EPD** is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility.

**Claw Set (Claw) EPD** is expressed in units of claw-set score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal claw set. The ideal claw set is toes that are symmetrical, even and appropriately spaced.

**Foot Angle (Angle) EPD** is expressed in units of foot-angle score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal foot angle. The ideal is a 45-degree angle at the pastern joint with appropriate toe length and heel depth.

**Pulmonary Arterial Pressure (PAP) EPD**, is expressed in millimeters of Mercury (mmHg), with a lower EPD being more favorable indicating a sire should produce progeny with a lower PAP score. PAP score is an indicator of susceptibility to high altitude disease commonly experienced at elevations greater than 5,500 feet.

**Marbling (Marb) EPD** is expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**Ribeye Area (RE) EPD**, expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

## Calving Ease Rating (CE)

- ★★★★ Excellent calving ease, use with confidence on any type of heifers.
- ★★★ Superior calving ease, should work with most heifers and most situations.
- ★★ Moderate calving ease, most people will use these bulls on cows, but they can be used on heifers if calving ease is of less concern.
- ★ We recommend these bulls just for use on cows.

# Cattle Delivery

We encourage all of you to stop by and coordinate delivery plans before leaving the Sale. If you are buying off-site, please let us know of any special instructions as soon as you can. Otherwise, we will contact you regarding date of delivery. Your cooperation in taking delivery is greatly appreciated.

## **Bull Delivery**

In order to better service our customers, we offer FREE NATIONWIDE BULL DELIVERY. For the western states we will make every effort to deliver the bulls to your doorstep. For our customers East of the Mississippi River, we ask your cooperation with potential drops at Central Delivery Points.

To our neighbors to the north, we are happy to bring you your bulls, however due to increasing scrutiny at the border, having the Canadian resident present, eases the process. If meeting at the border is not possible, we ask to share in a portion of crossing fees. Thank you for your understanding.

We will continue to offer a pickup credit of \$100 per head for all bulls picked up within 7 days of the sale.

## **FIRST YEAR BREEDING GUARANTEE**

In lieu of a commercial "loss of use" policy, we would like to offer our own First Breeding-year Guarantee. For bulls selling for \$5000 or more, and does not complete a full breeding season, we will share in the replacement cost up to 50% of the value of the injured bull. Breeding season is defined as 90 days after turning out the bulls.

50% of the value of the injured bull, minus salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2024.

*Example 1:* An \$8,000 bull is injured, a credit of \$4,000 minus any salvage value will be given to the buyer.

*Example 2:* A \$6,000 bull is injured, a credit of \$3,000 minus any salvage value will be given to the buyer.

*Example 3:* A \$4,000 bull is injured, no credit is given. Buyer retains all salvage value.

Applicable credits honored from our Breeding Guarantee are to be used within one year of submission.

## Registered Heifer Calves

It is with great anticipation that we welcome your interest in this offering. For the first time ever, we have chosen to offer a featured set of heifer calves. Representing our best, you will find top end heifers from some of the best cow families in the program. These are fancy, front pasture heifers, the kind to build a program around. Whether you have a growing junior project, looking to expand or searching for that next great donor, we welcome your consideration.

# YOU'VE DONE THE WORK.

Get paid for it.

You've invested in good genetics.  
You've kept all the records.

**AngusLink<sup>SM</sup>** combines USDA Process Verified Programs with a Genetic Merit Scorecard that gives buyers confidence in your calves. From age and source verification to cattle care and handling, you choose which programs make the most sense for you.

**Group Age & Source:** Verifies the group age and source of the cattle

**Angus-Sired Genetics:** Verifies calves are sired by 100% registered Angus bulls

**Non-Hormone Treated Cattle:** Verifies cattle have never received hormones

**NeverEver<sup>3</sup>:** No antibiotics, no hormones, no animal by-products ever

**Cattle Care & Handling:** Documents proper management, demonstrates quality commitment

**Calf Management:** Documents preventative health program

**Genetic Merit Scorecard<sup>SM</sup>:** Measures the genetic merit of calves for feedlot performance and carcass merit.

*\*Optional, not part of the PVP claims*

Easy and affordable, our customer service representatives walk you through the process.

## Two Year Old Bulls

---

- Never been picked over
- Predominately AI sired and embryo transfer
- Developed specifically for this sale offering
- Primarily born and raised on the White Sulphur Springs ranch

After more than 60 years of selling older bulls only in our fall sale, we have committed to improving our spring offering with a select group of age advantaged bulls. We have continual demand for these older bulls and feel this spring sale offers an incredible opportunity for your selection.

In our experience, these age advantage bulls have proven to cover more country and cover more cows. Feedback from our customers is true testimony to their breeding vigor and ability to hold up better.

With the expansion of the White Sulphur Springs unit for Darrell and Sara, they have committed to raising specifically these older age bulls. They are put into contemporary groups at weaning based upon their ranch origin and the conditions they were raised under. These contemporaries remain the same through their yearling performance test. Understand, because the bulls are in different contemporary groups, a ratio of 100 will not necessarily correlate to the same weight between the different groups. These bulls are then slow grown, fully concerned with their long-term ability to hold up. They are sound, athletic and not over conditioned.

These bulls are guaranteed breeders. They have all passed a breeding soundness evaluation including a semen test.

RETAINED INTEREST – we are selling FULL POSSESSION and 2/3 REVENUE-SHARING INTEREST in every bull in this sale. The bull you purchase is completely in your control regarding how you handle the bull and your natural service use. You receive 100% salvage value of the bull. Retaining 1/3 revenue-sharing semen interest simply allows Stevenson Angus the right to share in collection of semen, use of semen in our herds and the right to share in semen sale revenue if semen sales become a possibility.

Two Year Old Bulls

## ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the Certified Angus Beef® brand.

**Only 1 in 4 non-parent Angus bulls qualify.**

Minimum Genetic Requirements

Marbling EPD (Marb)	+0.65
Dollar Grid Carcass Index (\$G)	+55.0

## Yearling Bulls

---

These yearling Angus bulls represent our most progressive genetics born and are primarily out of first-calf-heifers. We have tried to put together a large selection of calving-ease bulls for your next year's calf crop.

Weaning weights were taken in September and yearling weights were taken the last week of January. EPDs are accurate to the day of sale book production.

These bulls are guaranteed breeders. They have all passed a breeding soundness evaluation including a semen test.

Retained Interest - we are selling Full Possession and 2/3 revenue-sharing interest in every bull in this sale. The bull you purchase is completely in your control regarding how you handle the bull and your natural service use. You receive 100% salvage value of the bull. Retaining 1/3 revenue-sharing semen interest simply allows Stevenson Angus the right to share in collection of semen, use of semen in our herds and the right to share in semen sale revenue if semen sales become a possibility.

Realistically, we will collect semen on a very small percentage of the bulls selling. It will be an even smaller number of bulls that will market semen. However, we realize that many promising bulls are identified after they have proven themselves in natural service. If you have any questions or concerns about our retained interest policy, please contact Stevenson Angus.

*Kate Looze*

# STEVENSON

WORLD CLASS BEEF

**Five generations of family ranching producing the highest quality beef.**

Angus cattle originated in Scotland, as did our family roots. For more than eight decades, our family has believed in our ability to make a living in the beautiful, but often harsh ranch land of central Montana. Carrying on the tradition, each new generation of family adds invaluable experiences that improve your family dining experience.

## Why us?

For generations, our sole livelihood has been from providing seedstock Angus cattle and genetics from our family ranch to the world. We love the beef industry and are excited to offer our world class cuts of beef to the market.

## Over 100 years ago

The Stevenson family moved from Missouri to the small town of Hobson, Montana to discover our legacy as Angus ranchers.

Originally, crops, cream, eggs, custom harvest work and a flock of turkeys were our main source of income. By the mid-40s, we introduced bigger livestock into the mix and purchased cattle. Ultimately, we found our true calling after purchasing four registered Angus heifers from the Airyland Ranch, Montana's pioneer Angus herds in nearby Lewistown. Five generations later, we sell our seedstock cattle and genetics all over the world producing the highest quality of beef worldwide.
