X.

VTech 7" Smart Wi-Fi 1080p Pan & Tilt Monitor allows you to stay close to your baby when you are on the move or away. This monitor is Wi-Fi enabled, using your home wireless network to stream live video and audio through the 1080p baby unit and 7-inch color screen parent unit. It allows you to maintain a constant connection to your baby.

You can also monitor from your smartphone and mobile tablet.

VTech 7" Smart Wi-Fi 1080p Pan & Tilt Monitor uses **MyVTech Baby Pro** app to let you instantly see and hear what's happening with your baby from anywhere in the world. The app can be downloaded from the App Store or the Google Play[™] Store.

IMPORTANT SAFETY INSTRUCTIONS

When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

Follow all warnings and instructions marked on the product. Adult setup is required

- 3. CAUTION: Do not install the baby unit at a height above 6.5 eet (2 meters). 4. This product is intended as an aid. It is not a substitute for
- responsible and proper adult supervision and should not be used as such. This product is not intended for use as a medical monitor
- 5. Do not use this product near water. For example, do not use it next to a bath tub. wash bowl, kitchen sink, laundry tub or ing pool, or in a wet basement or showe
- **CAUTION:** Use only the battery provided. There may be a ris of explosion if a wrong type of battery is used for the parent unit. The battery cannot be subjected to high or low extreme temperature and low air pressure at high altitude during use storage or transportation. Disposal of battery into fire or a ho oven, or mechanically crushing or cutting or the battery can esult in an explosion. Leaving the battery in an extremely high temperature surrounding environment can result in an explosion or the leakage of flammable liquid of gas. Battery subjected to extremely low air pressure may result in an explosion or the leakage of flammable liquid or gas. Dispose of used battery according to the information in **The RBRC seal**.
- Use only the adapters included with this product. Incorrect pter polarity or voltage can seriously damage the produc

- huhai Great Power Energy Co., Ltc Model: GSP806090-5Ah-3.7V-1S1P The power adapter is intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed
- to hold the plug in place if it is plugged into a ceiling, under the-table or cabinet outlet.
- 10. For pluggable equipment, the socket-outlet (power adapter) shall be installed near the equipment and shall be easily accessible. 1. Unplug this product from the wall outlet before cleaning
- Do not use liquid or aerosol cleaners. Use a damp cloth fo
- 12. Do not cut off the power adapters to replace them with other plugs, as this causes a hazardous situation. 13. Do not allow anything to rest on the power cords. Do not
- install this product where the cords may be walked on or 14. This product should be operated only from the type of power
- source indicated on the marking label. If you are not sure of the type of power supply in your home, consult your dealer c local power company. 15. The equipment is to be supplied from an identified USB port
- complying with the requirements of Limited Power Source. 16. Do not overload wall outlets or use an extension cord.
- 7. Do not place this product on an unstable table, shelf, stand or other unstable surfaces.
- 18. This product should not be placed in any area where prope ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protec them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa product should never be placed near or over a radiator or heat register.

The applied nameplate is located at the bottom of the baby unit's base. 19. Never push objects of any kind into this product through the slots because they may touch dangerous voltage poi or create a short circuit. Never spill liquid of any kind on the 20. To reduce the risk of electric shock, do not disassemble this

- product, but take it to an authorized service facility. Opening r removing parts of the product other than specified access doors may expose you to dangerous voltages or other risk Incorrect reassembling can cause electric shock when the
- product is subsequently used. You should test the sound reception every time you turn on the units or move one of the components
- 2. Periodically examine all components
- 3. There is a very low risk of privacy loss when using certain electronic devices, such as baby monitors, cordless telephones, etc. To protect your privacy, make sure the product has never been used before purchase, reset the baby monitor periodically by powering off and then powering on the units, and power off the baby monitor if you will not use it for some time.
- Children should be supervised to ensure that they do not play with the product. . The small parts of this monitor can be swallowed by babies or
- small children. Keep these parts out of reach of children The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

SAVE THESE INSTRUCTIONS

- Use and store the product at a temperature between 32°F and Burn hazard, fire hazard, explosion hazard associated with
- nishandling of the battery.
- Do not expose the product to extreme cold, heat or direct unlight. Do not put the product close to a heating source.
- Warning–Strangulation Hazard–Children have STRANGLED in cords. Keep this cord out of the reach of children (more than 3 ft (0.9m) away). he reach of children (more than 3 ft (0.9m) away). o not remove this tag.
- lever place the camera unit(s) inside the baby's crib or playpen. Never cover the camera unit(s) or parent unit with nything such as a towel or a blanket.
- Other electronic products may cause interference with you camera unit. Try installing your camera unit as far away from these electronic devices as possible: wireless routers, radios cellular telephones, intercoms, room monitors, televisions, personal computers, kitchen appliances and cordless

Precautions for users of implanted cardiac pacemakers

Cardiac pacemakers (applies only to digital cordless devices Wireless Technology Research, LLC (WTR), an independent research entity, led a multiclisciplinary evaluation of the interference between portable wireless devices and implanted cardiac pacemakers. Supported by the U.S. Food and Drug stration, WTR recommends to physicians that:

- Pacemaker patients Should keep wireless devices at least six inches from the pacemake
- Should NOT place wireless devices directly over the pacemaker, such as in a breast pocket, when it is turned ON WTR's evaluation did not identify any risk to bystanders with

pacemakers from other persons using wireless devices. Electromagnetic fields (EMF) This VTech product complies with all standards regarding

electromagnetic fields (EMF). If handled properly and according to the instructions in this user's manual, the product is safe to be used based on scientific evidence available today.

尝TiP You may experience reduced signal

strength if your parent unit and baby uni re far apart, or there are obstructing

actors, such as internal walls, betwee them. You have to set up **Router mode** to connect the units via your home Wi-Fi network to improve the connection between your parent unit and baby unit.

enhance local access

TECHNICAL SPECIFICATIONS

How the system works

Direct mode

Your baby monitor parent unit and baby unit connect to each other in Direct mode by default, which allows you to immediately stream video out of the box. It is NOT recommended to continue using Direct Mode connection after initial installation.

Router mode

You are required to set up your monitor in **Router mode** to enjoy live video streaming via your parent unit with an enhanced connection. **outer mode** is the recommended mode for stable connectivity.

Router mode uses your home Wi-Fi network to connect your video monitor. It supports live video streaming through the parent unit

and smartphone app. If you want to stream live video

download and install the **MyVTech Baby Pro** mobile app. With the

remotely with your mobile device,

mobile app, your Wi-Fi router (not included) provides Internet connectivity to your HD video monitor system. It serves as a communicating channel between your baby unit and

mobile device, allowing you to monitor and/or control your baby unit wherever you are.

🖹 Note When both parent unit and app are viewing the camera simultaneously,

PROTECT YOUR PRIVACY AND ONLINE SECURITY

VTech cares about your privacy and peace of mind. That's why we've put together a list of industry-recommended best practices to help keep your wireless connection private and your devices protected when online. We recommend you carefully review and consider complying with the following tips.

Ensure your wireless connection is secure.

• Before installing a device, ensure your router's wireless signal is encrypted by selecting the "WPA2-PSK with AES" setting in your router's wireless security menu.

Change default settings. Change your wireless router's default wireless network name (SSID) to something unique.

 Change default passwords to unique, strong passwords. A strong password: - Is at least 10 characters long.

- Is complex.

 Does not contain dictionary words or personal information. - Contains a mix of uppercase letters, lowercase letters, special characters and numbers.

Keep your devices up to date. • Download security patches from manufacturers as soon as they become available. This will ensure you always have the latest security updates.

• If the feature is available, enable automatic updates for future releases.

Disable Universal Plug and Play (UPnP) on your router.

UPnP enabled on a router can limit the effectiveness of your firewall by allowing other network devices to open inbound ports without any intervention or approval from you. A virus or other malware program could use this function to compromise security for the entire network.

CONNECT, CHARGE AND POWER ON THE BABY MONITOR

Connect the baby monitor

🖹 Notes

- The rechargeable battery in the parent unit is built-in
- Use only the power adapters supplied with this product.
- Make sure the parent unit and the baby unit are not connected to the switch controlled electric outlets.
- Connect the power adapters in a vertical or floor mount position only. The adapters' prongs are not
- designed to hold the weight of the parent unit and the baby unit, so do not connect them to any ceiling, under-the-table, or cabinet outlets. Otherwise, the adapters may not properly connect to the outlets. Make sure the parent unit, the baby unit and the power adapter cords are out of reach of children.

Slide the switch to **ON** to power on your baby unit.

- When powering up, the baby unit's status LED turns on. It will turn off after a while and keeps off.
- The status LED is set to off by default. If you want to keep the LED on, press **MENU**, then go to

> Status LED and turn it on.

Camera lens and surface may get warm during normal operation.
