

IN1146 LED LIGHTPRO PROJECTOR

InFocus
The New Way to Collaborate

Easy from the word Go

If you're going mobile, take the InFocus® LightPro™ IN1146 with you. This incredibly small and light projector features an ultra-long-lasting light source that beams up to 1000 lumens of brightness. At about the size of a paperback book and only 0.8 kg, the IN1146 is easy to pack in your bag and carry on.

Better still, its lampless technology makes maintenance easy—or nonexistent—with a light-emitting diode (LED) that lasts up to 30,000 hours. So you can go from place to place, presentation to presentation, without ever giving your projector a thought.

Why choose the IN1146?

- 30,000-hour LED light source
- Only 0.8 kg
- WXGA (1280 x 800) widescreen resolution
- Excellent connectivity:
 - HDMI and VGA inputs
 - PC-less presentation via USB drive or SD card
 - Optional USB wireless connectivity
- Striking image quality and contrast
- Auto keystone correction
- Built-in stereo speakers

Connectivity

HDMI	USB Type A
VGA	3.5 mm composite video/stereo audio in
SD Card Slot	3.5 mm audio out

Long-lived lampless light

How long will the light source of IN1146 LED projector really last? The LED is rated for up to 30,000 hours—so if you use it 4 hours a day, 5 days a week, 50 weeks a year, it'll last about 12 years. Until then, it's maintenance-free—not even a filter to clean or replace. And LED projectors even use less power than their conventional cousins, so you can feel more “green” too.

Striking colour and contrast

LED projectors are known for their image stability and saturated colours. But the IN1146 features a high contrast of 10,000:1, so it's even better at vividly rendering fine detail and subtle colour differences. Even ho-hum business graphics and content pop on the screen.

Three presentation options

The IN1146 gives you three easy ways to connect. You can present content from your PC over a HDMI or VGA cable. Or forget the cable and connect wirelessly using your laptop and our optional USB WiFi adapter. Or forget the laptop and dynamically display PowerPoint presentations, Word documents, photos, videos and more from a USB thumb drive or SD card.

HDMI™
HIGH-DEFINITION MULTIMEDIA INTERFACE

Ultra-simple operation

When giving a presentation, you don't want to focus on your projector too. The IN1146 is ready when you are. It doesn't even have to warm up: it's on when you flip the switch. And auto keystone correction keeps your image square and true wherever you're projecting.

Auto Keystone Correction

Specifications*

IN1146

Native Resolution	WXGA (1280 × 800)
Technology	DLP® with LED light source
Brightness	1000 lumens
Contrast Ratio	10,000:1
