que se creó la lista. Sin embargo, esta lista está sujeta a cambios sin aviso. Al programar una cita con el médico o proveedor asociado de VSP que usted haya elegido, pregúnteles si proporcionan los servicios que usted necesita.

Indicador de accesibilidad según los informes del médico/consultorio.

Acceso oportuno a la atención. Los inscritos tienen derecho a recibir atención y servicios de manera oportuna: acceso a un examen oftalmológico de rutina dentro de los 30 días calendario; acceso a atención de necesidades médicas que no sean de urgencia dentro de los siete días; acceso a atención urgente, si se recibe el llamado durante el horario de atención y el médico determina que la necesidad del miembro es urgente y debe verlo dentro de las 24 horas; acceso a una evaluación telefónica para determinar la gravedad de la afección y la disposición del paciente; y acceso a atención especializada dentro de los 14 días calendario, desde el momento en que el proveedor de atención primaria solicita la derivación.

Los inscritos tienen derecho a recibir servicios de interpretación sin costo. Para obtener más información, llame a VSP al (800) 877.7195. Para recibir servicios de interpretación durante una cita, los inscritos deben indicar en el consultorio del proveedor que necesitan un intérprete, cuando programen la cita.

Los proveedores contratados por VSP ofrecen un acceso completo e igualitario a los servicios cubiertos, incluso para los asegurados que padezcan discapacidades, según los requisitos de la Ley para Estadounidenses con Discapacidades de 1990 y la sección 504 de la Ley de Rehabilitación de 1973.

VSP evalúa de manera continua la red de médicos para garantizar a sus miembros un acceso adecuado. El estándar de acceso de VSP es un médico en un radio urbano/suburbano de 10 millas y un médico en un radio rural de 25 millas. VSP usa informes para analizar y determinar el porcentaje de miembros que tendrá acceso a un médico dentro de una distancia especificada. VSP realiza informes específicos para determinar si se cumple con los estándares y si se deben aplicar intervenciones apropiadas cuando se identifican brechas.
