Antimicrobial Tech Accessories

# LIFE REIMAGINED

Protection is at the heart of everything Targus does. With our antimicrobial range we've created next-level workspace solutions that not only help protect your tech and our planet, but your wellbeing too.

Organisations must put their employee wellbeing first: delivering peace of mind during commutes and creating demonstrably safe and flexible workspaces where people will want to come and quietly work, meet up or collaborate.

PROTECTION IS AT THE HEART OF WHAT WE DO...

Protecting Your Technology

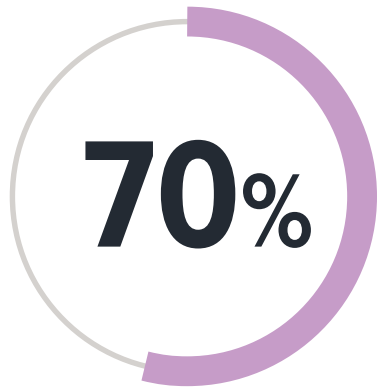

Protecting The Planet

Protecting Your Wellbeing  
and Workspace

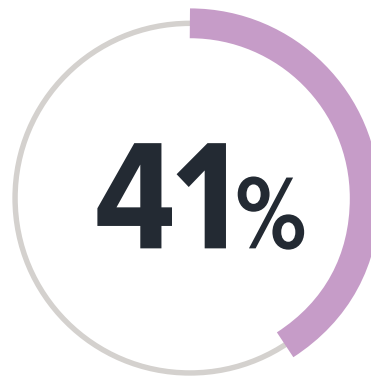

Our research reveals the **top expectations people have** for modern office working...

1

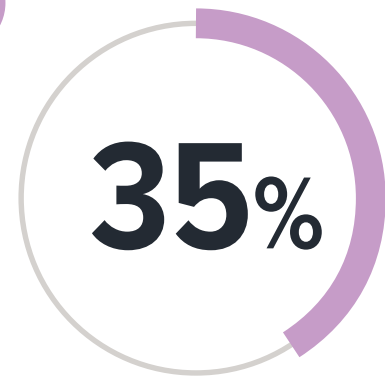

Improved cleaning protocols and health safety measurements

2

Increased levels of trust to work away from the office

3

Measure performance by output not hours spent in the office

**Trust Targus to help create clean workspaces.**

## AT HOME | AT THE OFFICE | ON THE MOVE...

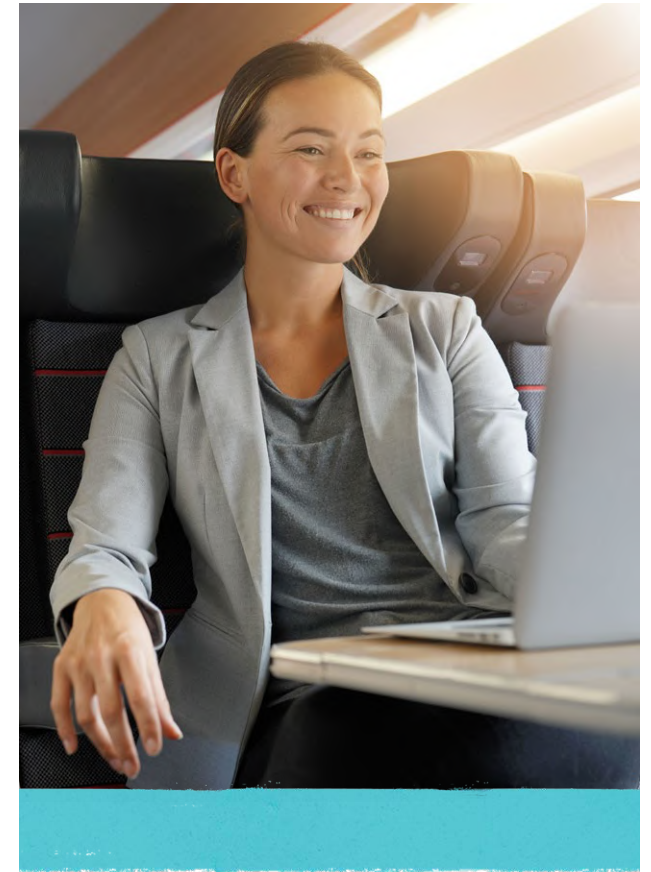

The transformation of the office has been an opportunity for us to reimagine what a workplace is. In shared workspaces safe working is key.

With hybrid working now a daily reality, the places we work have to work harder for us.

As our world expands to allow us to operate from anywhere, it's vital to have the right tools for the job.

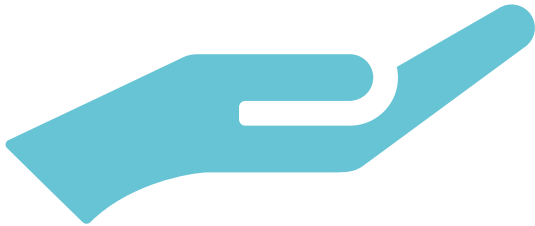

# THE FUTURE OF WORK

The future of hybrid working is here. As we continue to reimagine what a workspace can be, the tech and accessories we use are more important than ever. The right tools allow you to do more and worry less.

## 3 LEVELS OF CLEAN PROTECTION

1

Barrier Antimicrobial Protection

3

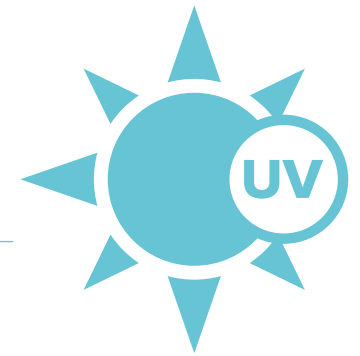

Active Antimicrobial Protection

SEE OUR SOLUTION ▶

Neutralise microbial threats. Prevent germ growth. **Create clean workspaces with Targus.**

# ACTIVE ANTIMICROBIAL PROTECTION

Our **UV-C LED Disinfection Light** actively disinfects workspace and device surfaces by killing unwanted micro-organisms right at DNA level. It harnesses the germicidal effects of UV-C light, killing micro-organisms like bacteria, viruses and mould at DNA level.

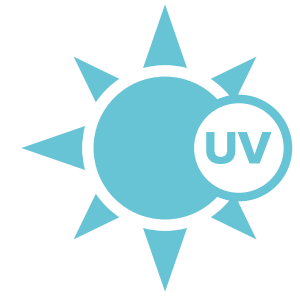

## UV-C Technology

The 'C' wavelength of ultraviolet light breaks down the DNA of micro-organisms disabling their ability to function or reproduce, and they die.

UV-C light is invisible and highly effective at disinfecting surfaces such as keyboards, mice, and other commonly used objects in the home or office.

Proven and tested technology is currently being used in hospital neonatal environments.

ACTIVE ANTIMICROBIAL PROTECTION...

## UV-C Led Disinfection Light

- Optimised to sit between a monitor and keyboard on a desktop to clean keyboards, mice and other items in the active area
- Easy to move, to enable disinfection of other items like keys, pens, stylus, smartphone or other items
- Automation and Motion sensing technologies enable this to be used safely in most environments
- Hourly Automated Cleaning Cycle
  - Waits for 5 minutes of no motion
  - Runs for 5 minutes every hour
- Motion Activated Safety Features
  - Motion sensing field UV-C active area
  - Auto shut-off
- Eliminates the need for liquid-based cleaning

\*Only available for purchase in USA, LATAM & Canada

# INTEGRATED ANTIMICROBIAL PROTECTION

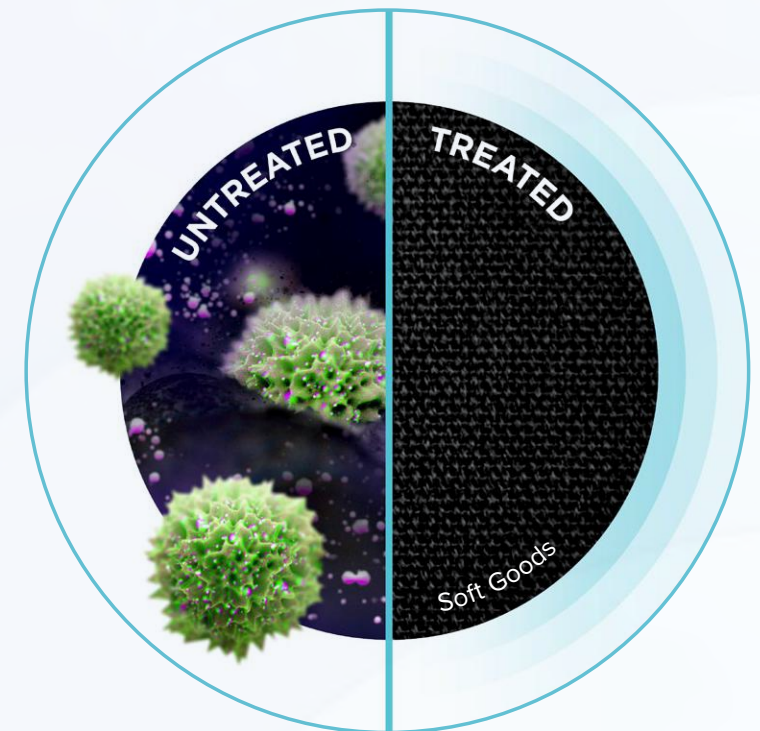

## DefenseGuard™ Antimicrobial Protection

A continuous cleaning innovation designed to prevent and eliminate the growth of bacteria. It delivers a durable, cleaner surface. Proven to protect bags, cases, keyboard and mice against germs it won't wear off or wash off, it is designed for life.

Testing of Targus materials including the JIS Z 2801 and ISO 22196:2011 standards at independent laboratories has demonstrated **99.9% reduction** of Staphylococcus aureus (Staph Infection) and Escherichia coli (E. coli).

BPR and EPA compliant, silver antimicrobial agents' have been infused into Targus DefenseGuard™ products for all-around protection, neutralising bacterial threats to your product for its lifetime.

\*Antimicrobial product protection is limited to the case or device itself.

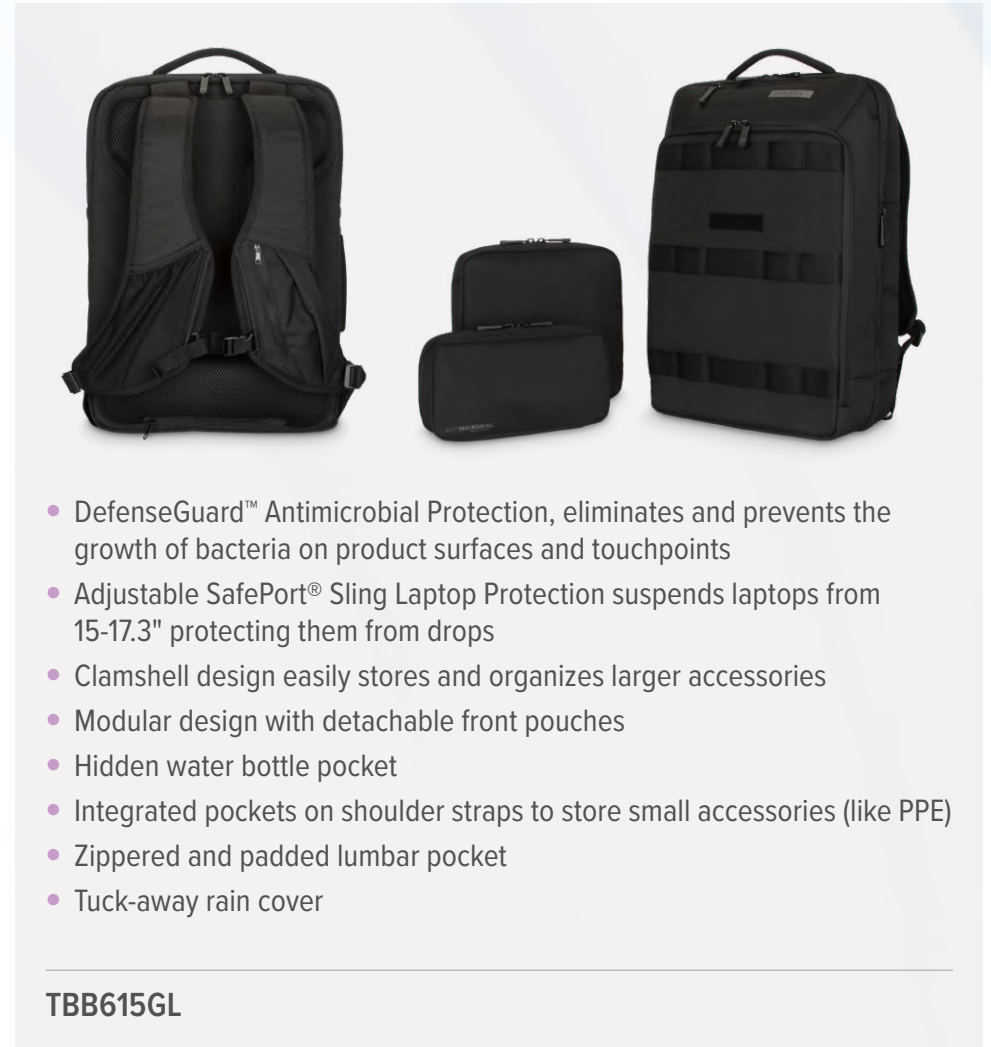

INTEGRATED ANTIMICROBIAL PROTECTION...
