Spring is full of giftable moments – birthdays and new babies, engagements and weddings, not to mention Valentine's Day, Mother's Day and Easter. PartyLite offers unique and exclusive gifts, beautifully packaged original designs for all those occasions and more.

# Q: Tell us more about how this catalogue is designed to transform each room in the home.

A: You'll find statement pieces like Hurricanes and Lanterns for living room or entryway plus sweet little tealight and votive holders that brighten any corner. Fresh Home fragrances neutralize odours in kitchen and bathroom, while GloLite Candles add drama to the dining room and Nature's Light™ Wooden Wicks Jar Candles bring warmth to the den.

## Q: What were yours and the merchandizing team's biggest trend influences for this collection?

A: For Spring 2019, the top trends in both fragrance and décor are all about the comforts of home that bring the best of the outdoors into indoor spaces. Nature inspires the shapes and finishes, the colours and scents that together create a comforting, garden-fresh ambiance that welcomes and restores. The season embraces the simple and authentic like our white ceramic butterflies, bunnies and birds.

We've layered in micro trends: customization and personalization. You're going to love our Clearly Creative<sup>TM</sup> Hurricane that you can pair with our decorative tealight trees or jar sleeves.

## Q: How are décor and fragrance working together in this Spring Collection?

A: The same trends that influence décor are reflected in the new Spring fragrances, garden-inspired scents that speak to the heart. Velvety florals and luscious fresh fruits blend together with favourite sweet nectars and green herbs.

## Q: How can this help Consultants sell more of both?

A: We all want to chase away Winter with a Spring refresh that reflects who we are. That's just what the PartyLite Catalogue offers a seasonal style boutique of on trend, complementary fragrances and décor all in one place. With you in mind, we've created a stunning assortment of scents, styles, materials and price points that lets everyone enjoy PartyLite.

### Do you have any teasers for the Summer Collection that you can share?

A: Wait until you see our glow-in-the-dark accessories... glass globes flecked with glowing paint that are simply enchanting, even before you light the candles!

We looked at one of the biggest home décor trends – pop icons in vibrant colours – to create our bright Green Buddha. He made us so happy we added 2 more: hot pink and vivid orange.

#### Indoor or outdoor

Several of our products are designed to be used indoors and out thanks to protective coating - they're shown in the catalogue. Don't forget to tell Guests to ensure their long life by taking them indoors in bad weather conditions.

#### Day into night

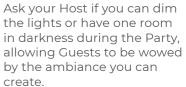

It goes without saying that candlelight works beautifully when it comes to nightfall, but it can also totally transform the look of many décor items. Even Spring nights love a feeling of coziness.

#### Add a pop of colour

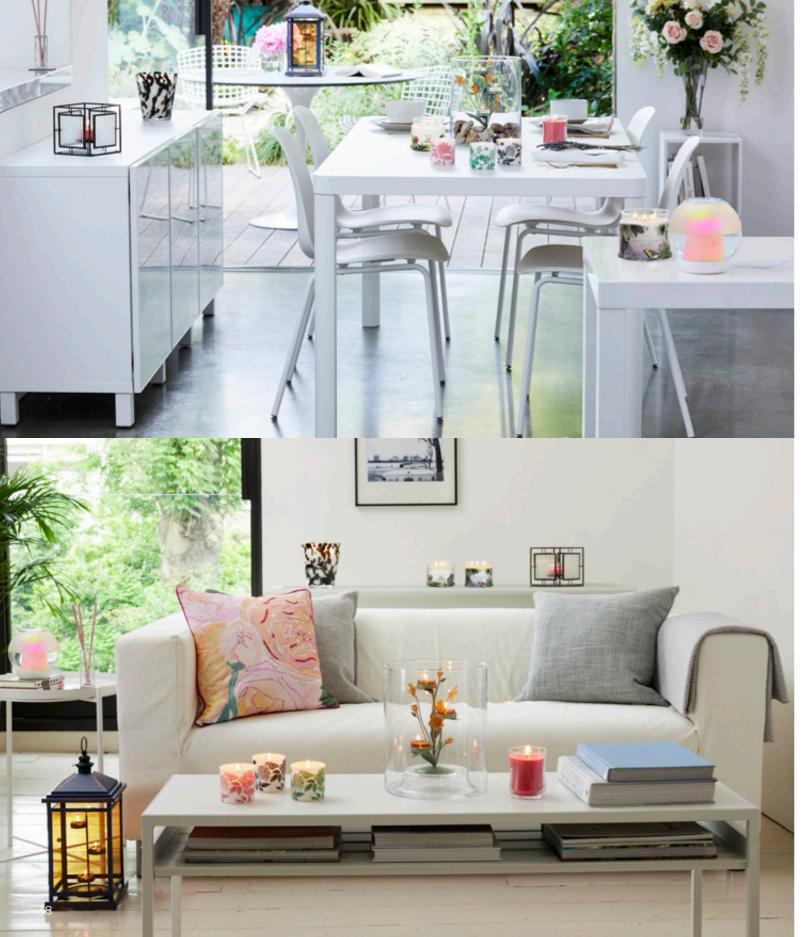

For so many of us, neutral colours and shades can dominate soft furnishings and walls in our homes. That makes coloured candle wax or vibrant décor the ideal centrepiece to add a low-commitment colour pop to any look.
