## A. COMPANY BACKGROUND

#### 1. The Center for Rural Development

The Center for Rural Development (hereafter, The Center), established in 1996 as a 501(c)3 community and economic development organization, serves 45 counties throughout Southern and Eastern Kentucky largely consisting of distressed rural Appalachian communities.

Originally developed by a group of community leaders including Kentucky 5th District Congressman Harold Rogers, The Center has led the way in developing new and innovative programs to serve the citizens in this region. We are governed by an independent board of directors.

Headquartered in Somerset, KY, The Center's mission is to provide leadership that stimulates innovative and sustainable economic development solutions and a better way of life for citizens in our service region.

The Center's programs and services center around four Focus Areas: Public Safety, Arts & Culture, Leadership, and Technology. While The Center's programs largely serve residents in our primary service area, we are also committed to constantly expanding our capabilities in order to deliver a range of key services throughout Kentucky and the nation.
