

How to Choose Correct License for MagicInfo Server?

1

Check the version for MagicInfo Server

2

Check the player type for models

'20. New

MagicInfo Player		MagicInfo Server		3001.X ↑	4000.X ↑	4101.X ↑	6000.X ↑	7000.X ↑	8000.X ↑
Player Type		Comment	Models	Standalone or Videowall					
Player I		Select this for external media player based on Windows platform.	(SBB) SBB-A, SBB-C, SBB-DA, SBB-DI (PIM) SBB-PB32EV4 + 3 rd Party PC	BW-MIP30PW		BW-MIP70PA ³⁾ BW-MIP40PA ³⁾ BW-MIP30PW BW-MIP30PS BW-MIB10PS			
Player S	SoC	Select this to utilize full functions for SoC model.	(S4) PMF, PMF-BC, PHF, PHF-P, PMH, OMF, OHF2), OMH (S5) QMH, QHH, QBH, QBH-TR, QBN-W, DBJ (S6) QBN, QMN, OHN, OMN, QBR, QMR, QHR (S7) QPR-8K	BW-MIP30PS					
	Player Box	Select this for SoC signage player box	(S3) SBB-SSE (S4) SBB-SSF, SBB-SNOWH3U (S6) SBB-SSN, SBB-SNOWJMU, SBB-SNOWJAU, SBB-SNOWRAF	BW-MIB10PS					
RM Player		Select this for Tizen partners who has Tizen application and want to control display remotely	SOC models Flip1(WMH), Flip2(WMR)			BW-RMS40PA			
Player Lite ¹⁾		Free license for SoC model with limited functions.	MEA, MEB, MDB, DEA, SLB, UEA DCE, DCE-M, DCE-H, DCH, DCJ, QET	CY-MILSSTS					

1) Models supporting Player S are also available for Player Lite, but the available functions are limited when the license sets to Player Lite.

2) OHF 85" is excluded from MagicInfo Player S4 (OHF 85" is a scaler model)

3) BW-MIP40PA, BW-MIP70PA are an unified license SKU which is compatible with either Player I, Player S or Signage Player Box.
