

Nome prodotto	Descrizione	Descrizione estesa
Apex One as a Service	Protezione all-in-one automatica e approfondita dedicata agli endpoint.	Include Mac, (VDI) infrastruttura desktop virtuale , (iDLP) prevenzione della perdita dei dati, (iVP) protezione delle vulnerabilità, (iAC) application control e console di gestione della sicurezza centralizzata Apex Central
Apex One on-prem		
Deep Security - Malware Prevention <i>per Non-Server System (Kiosk/POS/VDI)</i>	Sicurezza completa per ambienti container, cloud e data center virtualizzati	Deep Security offre protezione avanzata per i server fisici e virtuali, consentendo una facile installazione e gestione della sicurezza in ambienti multipli attraverso la gestione automatizzata delle policy e, nel caso di VMware®, sicurezza agentless hypervisor-integrated. Deep Security protegge i desktop virtuali contro il malware zero day, compresi ransomware, attacchi di cryptocurrency mining e attacchi network-based, mentre riduce al minimo l'impatto operativo derivante dalle inefficienze delle risorse e dall'applicazione di patch di emergenza.
Deep Security - Malware Prevention <i>per Server (VM)</i>		
Worry-Free Services Advanced, Multi-Language	Blocca i ransomware e gli attacchi mirati con la sicurezza per endpoint su host, per tutti i tuoi dispositivi	100% SaaS. Capacità di rilevamento, risposta e investigazione in un singolo agente. Protegge i dispositivi Windows (desktop e server), Mac, iOS e Android integrando il machine learning ad alta affidabilità in una miscela di tecniche di protezione dalle minacce, per la più ampia protezione contro ransomware e attacchi avanzati.
Worry-Free Services		Protegge Microsoft Exchange, Microsoft Office365 e qualsiasi altro soluzione email in tempo reale. Blocca attacchi mirati, spam, phishing, virus, spyware e contenuti inopportuni prima che abbiano un impatto sull'attività aziendale. Include le nostre ultime funzionalità contro Business Email Compromise e Credential Phishing. Protegge gli strumenti di collaborazione online dalle minacce sconosciute e protegge i dati aziendali da perdite accidentali e intenzionali.

Per tutte le soluzioni proposte Trend Micro offre 3 mesi gratuiti: par aggiungerli selezionare la fascia interessata ed il prodotto, poi selezionare rinnovo licenza durata 3 mesi.

Qualora si fosse interessati alla licenza con copertura triennale: selezionare nuova licenza durata 12 mesi + il codice a 24 mesi di rinnovo corrispondente alla fascia.

## Come funziona

Una gamma di capacità di rilevamento a più livelli, insieme a meccanismi di indagini e risposte, difende l'endpoint in ogni fase

## Worry-Free Services & Service Advanced
