Appendix C

Definitions

Activity: A specific and distinguishable service performed by a government to accomplish a function for which the government is responsible.

Capital Projects Fund: A fund established to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by proprietary funds and trust funds.

Certificates of Participation: Lease financing agreements in the form of tax-exempt securities that are similar to bonds. Title to a leased asset is assigned by the lessor to a trustee (non-profit corporation) that holds it for the benefit of the investors; that is, the certificate holders.

Debt Service Fund: A fund established to account for the accumulation of resources for the retirement of general long-term debt principal and interest.

Enterprise Fund: A fund established to account for activities for which a fee is charged to external users for goods and services.

General Fund: A fund established to account for all financial resources except those required to be accounted for in another fund.

General Obligation Bonds: Bonds for which payment is backed by the full faith and credit of the issuing entity. More commonly, but not necessarily, general obligation bonds are considered to be those payable from taxes and other general revenues; they must be approved by two-thirds of eligible voters.

Property Taxes: With the passage of Proposition 13, the maximum rate that can be levied against real property (land, improvements, and fixtures) is 1% of the market value (plus direct assessments and any voter-approved rate to pay off debt).

Revenue Bonds: Bonds for which principal and interest are payable from the revenues of a revenue-producing enterprise. However, the bond covenant may also include the provision that revenue from the bond may be acquired from sources other than the general fund of a local agency.

Special Assessment Act Bonds: Bonds payable from the proceeds of special assessments that are a compulsory levy against certain properties to defray part, or all of the costs of improvements or services deemed to benefit primarily those properties. For reporting purposes, these bonds are considered to be contingent liabilities of the government.

Special Revenue Fund: A fund established to account for the proceeds of specific revenue sources (other than those for major capital projects) that are restricted legally to expenditures for specified purposes.

Voter-Approved Taxes Levied: Ad valorem property taxes are approved by the voters in addition to the 1% rate that was enacted under Proposition 13.

Conduit Financing District

For the 2009-10 fiscal year, ten conduit financing districts filed a *Special Districts Financial Transactions Report* in a timely manner. The districts are listed below.

Alameda County	ABAG Finance Authority for Nonprofit Corporation
Sacramento County	California Alternative Energy and Advanced Transportation Financing Authority
Sacramento County	California Educational Facilities Authority
Sacramento County	California Enterprise Development Authority (CEDA)
Sacramento County	California Health Facilities Financing Authority
San Diego County	California Municipal Finance Authority
Sacramento County	California Pollution Control Financing Authority
Sacramento County	California Rural Home Mortgage Finance Authority Homebuyers Fund
Contra Costa County	California Statewide Communities Development Authority
Sacramento County	California Urban Waterfront Area Restoration Financing Authority

Special Districts That Failed to File

For the 2009-10 fiscal year, 32 special districts failed to file a *Special Districts Financial Transactions Report*. The California State Controller's Office has taken action to obtain these reports, as required by Government Code section 53895.

Special districts that failed to file their report are listed below alphabetized by Special District.

Tulare County	Atwell Island Water District
Los Angeles County	California Cities Home Ownership Authority
Modoc County	California Pines Community Services District
Los Angeles County	City of Los Angeles Public Facilities Corporation
San Diego County	City of San Diego Public Facilities Financing Authority
Fresno County	County Service Area No. 38 (Fresno)
Tulare County	Deer Creek Storm Water District (Tulare)
Sierra County	Downieville Fire Protection District
Fresno County	Garfield Water District
Tehama County	Gerber-Las Flores Community Services District
Plumas County	Indian Valley Community Services District
Kern County	Inyokern Community Services District
Lassen County	Little Valley Community Services District
Contra Costa County	Los Medanos Community Hospital District Hospital Building Corporation
Madera County	Madera Water District
Marin County	Marin County Major Crimes Task Force
Los Angeles County	Municipal Improvement Corporation of Los Angeles
Riverside County	Palo Verde Resource Conservation District
Riverside County	Palo Verde Valley Hospital District
Placer County	Placer Northstar Public Facilities Corporation
Trinity County	Post Mountain Public Utility District

Special Districts that Failed to File..... (continued)

Sacramento County	Rio Linda-Elverta Community Water District
Riverside County	Riverside County Waste Resources Management District
Contra Costa County	Rollingwood-Wilart Recreation and Park District
Santa Clara County	San Martin County Water District
Fresno County	Selma Health Care District
Madera County	Sierra Foothills Public Utility District
Modoc County	Surprise Valley Resource Conservation District
El Dorado County	Tahoe Resource Conservation District
Stanislaus County	Western Hills Water District
Los Angeles County	Westfield Park Recreation and Parkway District No. 12
Mariposa County	Yosemite-Alpine Community Services District

INTRODUCTION

The County Tax Collectors Reference Manual is produced by the State Controller's Office (SCO), Local Government Programs and Services Division, Property Tax Standards Unit. This manual is designed to provide comprehensive reference material to assist county tax collectors in performing his or her duties in compliance with statutory requirements and promote uniformity throughout the state.

All statutory references cited are from the Revenue and Taxation Code, unless otherwise noted. Citations and references in this manual are current as of its publication date; however, care must be taken to ensure that none have been superseded by subsequent legislative action or court decisions.

The SCO forms referred to within this manual are samples that contain all of the required information pursuant to statute. The county tax collector's office may use the sample forms or create his or her own forms. Forms used should contain all information required by statute.

NOTICE: This publication is provided by the SCO as a general resource for California's county tax collectors. This publication is written primarily for use by county tax collectors and does not constitute legal advice. This publication has been reviewed by The Committee on County Tax Collecting Procedures and members of the California Association of County Treasurers and Tax Collectors.

1000-1001 General Overview: General Information

1000. AUTHORITY FOR COLLECTIONS

“The tax collector shall collect all property taxes” ([§2602](#)). The county board of supervisors’ authority is limited to those expressed and implied powers granted to the board by the statutes.

However, by a four-fifths vote, and with concurrence from the tax collector, the board of supervisors may assign the collection of delinquent property taxes 90 days after they are due to a private person or collection agent ([Gov. Code §26220\(ba\)](#), manual section [2000](#)).

1001. ASSIGNMENT OR ENJOINMENT OF COLLECTION FUNCTION PROHIBITED

The board of supervisors may assign, for collection purposes, certain claims that the county has against debtors and any or all money judgments taken in the name of the county. However, “no assignment to a collection agency shall be made of obligations arising out of any delinquent assessments or taxes levied on the secured roll by the county or any other political subdivision of the state” ([Gov. Code §26220\(c\)](#); manual section [2000](#)).

The law prohibits any legal action “against any county, municipality, or district, or any officer thereof, to prevent or enjoin the collection of property taxes sought to be collected. In the case of a collection of taxes pursuant to a bankruptcy proceeding, the county may request a reasonable amount to attorney fees” ([§4807](#), [Ca. Const. Art. XIII, §32](#)).

NOTE: The United States Bankruptcy Act governs matters that entail automatic stays of enforcement of tax collection. Consult county counsel concerning the effect, if any, of [§4807](#) on restraining orders issued pursuant to the provisions of the Bankruptcy Act of 1978 and its subsequent amendment.

1010-1017 General Overview: Transfer of Tax Collection Functions to the County

1010. CITIES UNDER GENERAL LAW AND CITIES UNDER CHARTER

Since January 1, 1969, “general-law” cities have been prohibited from assessing and collecting his or her own taxes. “Chartered” cities may assess and collect their taxes, or they may transfer such duties to corresponding county officials. However, no city may now establish the offices of assessor and tax collector after January 1, 1969 ([Gov. Code §51501](#), [§51541-§51542](#)).

Details of the procedures involved in switching from city to county assessment are found in [Government Code sections 51500-51562](#).

1011. SPECIAL ASSESSMENTS

A city and county may enter into an agreement in which the county assumes responsibility for the collection of any special assessments levied by the city. The special assessments may be collected at the same time and in

the same manner as county taxes. All laws pertaining to the levy, collection, and enforcement of county taxes apply to such special assessments ([Gov. Code §51800](#)).

1012. MISCELLANEOUS LEVIES AND COLLECTIONS

Any public agency levying special assessment taxes upon land or real property may make an agreement with the county in which the county collects the taxes. The county's collection charge, as mutually agreed upon, is applied equally to each installment, and, following collection, is deposited in the county's general fund ([Gov. Code §29304](#)).

1013. IRRIGATION DISTRICTS

When an irrigation district elects to transfer the duties of tax collection to the county ([Wat. Code §26650](#)), any assessments levied are collected at the same time and in the same manner as other county taxes. Once collected, the assessments are deposited into the county treasury and later transferred to the district. The county's compensation for performing such services is made pursuant to [Water Code sections 26653-26654](#).

Unpaid irrigation district assessments are delinquent on the same hour and day as county taxes. In accordance with the agreement between the irrigation district and the county, the delinquent properties are either sold to the district or declared to be tax defaulted in the same manner, at the same time, and with the same penalties as other tax defaulted property for nonpayment of county taxes ([Wat. Code §26655](#)).

Land sold to an irrigation district as a result of unpaid assessments may be redeemed in the same manner as redemption of other property after a default for nonpayment of county taxes ([Wat. Code §26656](#)). For additional information see manual section [5010 et seq.](#)

1014. DEEDS TO IRRIGATION DISTRICTS

Land sold to an irrigation district that remain unredeemed five years after the date of its sale for delinquent district assessments is deeded to the district by the county tax collector ([Wat. Code §26658](#)). The deed must include the date of sale and a statement that no person redeemed the property ([Wat. Code §26276](#)).

Land tax defaulted for delinquent irrigation district assessments is subject to the tax collector's power to sell. See manual section [7000 et seq.](#)

1015. COUNTY WATER DISTRICTS

All county water district taxes must be collected at the same time, in the same manner, and with the same form as county taxes. Once collected, the taxes shall be paid to the district for which they are levied and collected ([Wat. Code §31706](#)).

1016. CALIFORNIA WATER DISTRICTS

When a California water district has, by resolution, elected to transfer the levy, collection, and enforcement of assessments to the county ([Wat. Code §37203](#)), the assessments are levied and collected at the same time, in the same manner, and with the same penalties and interest as general county taxes. When collected, the assessments are paid to the water district. The compensation to the county for performing such services is generally provided for in the resolution ([Wat. Code §37209](#)).

See the California Water District Law of 1951 ([Wat. Code §34000-38501](#)).

1017. SERVICE AREAS, LIGHTING DISTRICTS, AND SPECIAL ROAD MAINTENANCE DISTRICTS

Pursuant to the notice, protest, and hearing procedures in [Government Code section 53753](#), any county that fixes and collects charges for a service area may provide a procedure whereby the county can collect such charges on the property tax roll. The collection should be made in the same manner and at the same time as general county property taxes and assessments ([Gov. Code §25215.6](#)).

Special assessment taxes for lighting districts should be levied and collected at the same time and in the same manner as general taxes on the local roll ([Sts. & Hwy. Code §19181](#)).

NOTE: Property that is owned by federal or state governmental agencies or non-county local agencies is exempt from any assessments authorized for special road maintenance districts, 1911 maintenance districts (for lighting purposes only), and districts created under the Highway Lighting District Act; such property is also exempt from charges imposed under the county service area law ([Ca. Const. Art XIII §3](#)).

1020-1023 General Overview: Discharge of Accountability

1020. WHEN COST OF COLLECTION IS UNJUSTIFIED

Any county department, officer, or employee charged by law with the collection of any money owed to the county for any reason, that is due and payable, may file a verified application with the board of supervisors for discharge from accountability for the following reasons ([§2611.1](#), [Gov. Code §25257-§25259.5](#)):

- The amount is too small to justify the cost of collection;
- Collection does not warrant the expense involved; or
- The amount thereof has been otherwise lawfully compromised or adjusted.

The board of supervisors may adopt, with the approval of a majority of its entire membership, a resolution that authorizes and designates the county auditor as the officer to exercise the authority of the board ([Gov. Code §25259.5](#)).

No discharge from accountability obtained shall be construed to release any person other than the person who obtained that discharge from an obligation to pay amounts that are due and owing ([Gov. Code §25259](#)). The board of supervisors may order the discharge and instruct the auditor to adjust tax charges accordingly ([§2611.3](#)).

The application to the board of supervisors must include ([§2611.2](#)):

- A statement of the nature of the amount owing;
- The names of the assesseees or persons liable and the amount owed by each;
- The estimated cost of collection; and
- Any other fact warranting the discharge, except where the board of supervisors determines that the circumstances do not warrant the furnishing of detailed information.

1021. WHEN AMOUNT IS \$20 OR LESS

Collection may be waived without authorization of the board of supervisors or approval of the county counsel if the amount of any tax, assessment, penalty, cost, license fee, or money owing to the county is \$20 or less. A waiver from collection shall not be construed as releasing any person from payment that is due and owing the county ([§2611.4](#)).

NOTE: A charge that is so small as not to justify the cost of collection may be canceled in accordance with provisions of [§4986.8](#) (manual section [1524](#)).

1022. CASH DIFFERENCE FUND

The county has the option to establish a cash difference fund when authorized by resolution of the board of supervisors. This fund is used to increase the amount tendered to the county for the payment of any tax, assessment, penalty, cost, or interest when a difference of ten dollars or less exists. A record of each use of the fund shall be maintained, containing sufficient information to identify the name of the person whose account was credited and listing the amount of the difference.

The cash difference fund may be expended, maintained, or replenished by accounting entries into a cash difference account and an overage account maintained in the county automated accounting system. All transfers between the fund and the accounts may be made and retained in electronic form, and no written report, warrant, special warrant, or check warrant need be prepared by the auditor or treasurer. The county auditor may replenish the cash difference account by a journal entry or electronic funds transfer from the county's general fund ([§2611.5](#), [Gov. Code §29380.1](#)).

1023. CASH OVERAGE FUND

When the amount paid to the county on any tax, assessment, penalty, cost, and interest exceeds the total amount due, and the excess does not exceed ten dollars, then the excess amount may be deposited into the overage account. If the excess amount is not so deposited, it shall be refunded to the person who made the payment ([§2611.5](#), [Gov. Code §29370-§29375](#), [§29380.1](#)).

1030-1032 General Overview: Destruction of Secured Rolls

1030. GENERAL INFORMATION

Any delinquent tax roll and original secured roll on which it is based, containing the information set forth in the abstract, may be destroyed if ([§4377](#), manual section [4264](#)):

- The board of supervisors approves the destruction of the roll;
- The abstract list has been certified as correct and complete by the county auditor; and
- If a certified, permanent record on a substitute media has been prepared in accordance with [Government Code section 26205](#). The substitute media must be retained for at least 12 years from the original document's creation. The substitute media may also be destroyed after the 12-year retention period has expired, with the board of supervisors' approval.

The abstract list prepared under [§4373](#), or any photographic record thereof, shall be retained by the tax collector for at least two years after the time the lien has been removed.

Upon the destruction of the delinquent tax roll and the original secured roll pursuant to [§4377](#), any delinquencies not appearing in the abstract are conclusively presumed to have been redeemed, unless there appears a record of a tax deed from the county to a purchaser for such property ([§4378](#)).

1031. DUPLICATE COPIES

If the original or a permanent copy of any record, paper, or document is in the files of any county officer, any duplicate copies of it may be destroyed upon order of the board of supervisors ([Gov. Code §26201](#)).

1032. NON-JUDICIAL PUBLIC RECORDS

“Public records” include any writing containing information relating to the conduct of the public’s business that is prepared, owned, used, or retained by any state or local agency regardless of physical form or characteristics.

The county officer having custody of non-judicial public records, documents, instruments, books, and papers may cause destruction of any or all of them if all of the following conditions exist ([Gov. Code §26205.1\(a\)](#)):

- The board of supervisors has adopted a resolution authorizing the county officer to destroy such records, documents, instruments, books, and paper. The resolution may impose conditions, in addition to those specified in law, that the board of supervisors deems appropriate;
- The county officer maintains for public use a copy, microfilm, video recording, or other duplicate of such record, document, instrument, book, or paper destroyed; and
- All duplicates on any medium listed above that does not permit additions, deletions, or changes to the original document must be produced in compliance with [Government Code section 12168.7](#).

NOTE: The provisions of this law do not apply to records prepared or received other than pursuant to a state statute, county charter, or to records that are not expressly required by law to be filed and preserved.

Every reproduction is deemed an original record and a transcript, exemplification, or certified copy, as the case may be, of the original ([Gov. Code §26205.1](#)).

1040-1042 General Overview: Thirty-Year Law

1040. GENERAL APPLICATION

Every tax has the effect of a judgment against the person ([§2186](#)), and every tax, penalty, or interest, including redemption penalty or interest, on real property is a lien against the property assessed ([§2187](#)). The judgment is satisfied and the lien is removed only when the tax is paid or legally canceled, or the property is sold to a private purchaser or a public agency ([§2194](#)).

1041. TAXES COVERED

If the lien has not been otherwise removed within 30 years after any tax becomes a lien, it ceases to exist, and the tax is conclusively presumed to be paid ([§2195](#), [Ca. Const. Art. XIII, §30](#)). However, property that has become tax defaulted and subject to power of sale for nonpayment of taxes is not subject to the provisions of this section.

1042. MARKING RECORDS

If the 30-year period has expired, the delinquent tax records should be marked “conclusively presumed paid” ([§2195](#)). Any delinquency charges established by the auditor are then reduced accordingly.

1050-1052 General Overview: Change of Ownership Statements

1050. FILING OF OWNERSHIP STATEMENT

Whenever there is any change of ownership of real property, a manufactured home, or a floating home subject to local property taxation, the buyer is required to file a signed change in ownership statement, under penalty of perjury, in the county where the real property or home is located. In the case of a change in ownership where the transferee is not locally assessed, no change in ownership statement is required ([§480\(a\)](#)).

In the event of the death of an assessee, the personal representative shall file a change in ownership statement with the county recorder or the assessor. This statement shall be filed in each county in which the decedent owned, at the time of death, real property that is subject to probate proceedings. The statement shall be filed prior to or at the time the inventory and appraisal are filed with the court clerk.

In all other cases in which an interest in real property is transferred by reason of death, the change in ownership statement or statements shall be filed by the transferee, within 150 days after the date of death, with the county recorder or the assessor in each county in which the decedent owned an interest in real property. If the property is transferred through the medium of a trust, then the change in ownership statement shall be filed by the trustee ([§480\(b\)](#)).

1051. PENALTY FOR FAILURE TO FILE

Generally, the change in ownership statement must be filed at the time of recording, or, if the transfer is not recorded, within 90 days of the date of the change in ownership. However, when the change in ownership has occurred due to the death of an assessee, the statement shall be filed within 150 days after the date of death, or, if the estate is probated, at the time the inventory and appraisal are filed.

If any person or legal entity required to file a change in ownership statement fails to file the statement within 90 days from the date so requested by the assessor, a penalty attaches. The penalty is the greater of \$100 or 10% of the taxes applicable to the new base-year value reflecting the change in ownership of the real property or a manufactured home. The penalty cannot exceed \$5,000 if the property is eligible for the homeowner’s exemption, or \$20,000 if the property is not eligible for the homeowner’s exemption, unless the failure to file the notice is willful ([§482](#)).

1052. ENROLLMENT OF PENALTY ASSESSMENT

The penalty is added to the roll in the same manner as a special assessment. A penalty, for the purposes of collection, delinquent penalties, and enforcement, is treated the same as all other taxes on the roll on which it is entered. After January 1, the penalty may be added to the current roll only with approval of the tax collector. This procedure is typically employed to provide maximum security for its enforcement.

If a property transferred is only a portion of a parcel on the roll for the fiscal year in which the assessor’s 90-day notice expires, the taxes on the parcel must be prorated. This enables computation of the penalty on the

taxes applicable only to the property transferred. The proration is accomplished as a separate valuation for payment of taxes on a portion of a current assessment parcel without an application from the assessee. In these cases, the penalty may be entered on the current unsecured roll, in the name of the transferee, or on the current or subsequent year's secured roll as a lien against the portion transferred.

When a property has been transferred or encumbered by a lien prior to enrollment of a penalty for failure to respond to the assessor's 90-day notice, such penalty must be entered on the delinquent unsecured roll. The penalty is attached to the assessee responsible for failure to file the change in ownership.

After entry of the penalty on the delinquent unsecured roll, a certificate of lien may be filed immediately, pursuant to provisions of [§2191.3](#).

Notice of any penalty added to the roll must be mailed by the assessor to the transferee. The address used is that contained in the recorded instrument or document showing a change of ownership ([§482\(f\)](#)).

NOTE: Only when there has been a written request by the assessor does the penalty attach for failure to file within 90 days after such request.

1060-1063 General Overview: Miscellaneous Issues

1060. EXTENSION OF THE TIME FOR OFFICIAL ACTS

The time fixed for any act by the tax collector or auditor may be extended not more than 30 days by the State Controller. In the case of public calamity, this can be extended up to 40 days ([§155.3](#)). Requests for extension should be addressed to the State Controller's Office, Local Government Programs and Services Division, Bureau of Tax Administration and Government Compensation, ATTN: Property Tax Standards Unit, 3301 C Street Suite 740, Sacramento, CA 95816-3398.

Provisions of [§155.3](#) do not apply to the correction of an act performed erroneously. Such provisions are outlined in [§4831-§4842](#).

1061. FACSIMILE SIGNATURE

Documents that require the signature of the tax collector under any provisions in Division 1 of the Revenue & Taxation Code may be executed with a facsimile signature in lieu of the tax collector's signature. A facsimile signature has the same legal effect as a personal signature ([§168](#), manual section [8414](#)).

The State Controller's Office sample form, *Facsimile Signature of Tax Collector Permitted* ([SCO 1-07](#)), is an example of the format accepted by the California Secretary of State when filing for a facsimile signature.

1062. SECURITY DEPOSITS ON SUBDIVISION AND PARCEL MAPS

The clerk of the board of supervisors must certify that all certificates and deposits required under the Subdivision Map Act and by local ordinance have been made prior to the recordation of any subdivision map or parcel map with the county recorder ([Gov. Code §66464](#)).

The subdivider must have a certificate from the tax collector stating that all current and delinquent taxes have been paid ([Gov. Code §66492](#)). In addition, the subdivider must file a certificate with the clerk of the board of supervisors estimating the amount of tax that is a lien not yet due and payable and must deposit money,

securities, or a bond for same ([Gov. Code §66493\(a\)\(1\)\(c\)](#)). The deposit or bond filed to secure payment of the taxes should include amounts for the regular assessment roll and any taxes that are likely to appear on the supplemental assessment roll ([Gov. Code §66493\(g\)](#)).

A county, by ordinance and at the request of the assessee, may require the tax collector to draw upon a cash deposit to pay taxes and/or special assessments when due and payable ([Gov. Code §66493\(c\)](#)).

1063. PAYMENT OF TAXES PRIOR TO LOT-LINE ADJUSTMENT

A lot-line adjustment is a shift in parcel boundaries that results in one or more existing and adjacent parcels changing size or shape. A lot-line adjustment may not create a greater number of parcels than originally existed, and it must be approved by the local agency or advisory agency.

A local or advisory agency shall limit its review and approval to a determination of whether or not the parcels resulting from the lot-line adjustment will conform to the local general plan, any applicable specific plan, any applicable coastal plan, and local zoning and building ordinances ([Gov. Code §66412\(d\)](#)).

An advisory or local agency shall not impose conditions or exactions on its approval of a lot-line adjustment to require the prepayment of real property taxes prior to the approval of the lot-line adjustment, or to facilitate the relocation of existing utilities, infrastructure, or easements except to conform to the local general plan, any applicable specific plan, any applicable coastal plan, and local zoning and building ordinances ([Gov. Code §66412\(d\)](#)).

No tentative map, parcel map, or final map shall be required as a condition to the approval of a lot-line adjustment. The lot-line adjustment shall be reflected in a deed, which shall be recorded. No record of survey shall be required for a lot-line adjustment unless required by [Business and Professions Code section 8762](#) ([Gov. Code §66412\(d\)](#)).

A county may, by ordinance and after consultation with the tax collector, waive the requirement for collateral to secure payment of property taxes and/or special assessments for a final parcel map of four or fewer parcels or for a lot-line adjustment ([Gov. Code §66493\(d\)](#)).

1070-1071 General Overview: Special District Collections

1070. GENERAL INFORMATION

Under various provisions of law, assessments levied by special districts (levee, irrigation, water, reclamation, etc.) are entered on the county tax rolls. Such assessments entered on the roll are collected and enforced in the same manner as all other taxes entered on the roll ([§136](#)).

1071. PROPERTY ASSESSED CLEAN ENERGY (PACE) FINANCING

The Improvement Act of 1911, as amended today, allows cities and counties to form special districts to finance improvements using voluntary contractual assessments ([Sts. Hwy. Code §5898.12](#)). These assessments provide for the repayment of funds used for energy efficiency and water conservation improvements to real property ([Sts. Hwy. Code §5898.12\(b\)\(c\)](#)). PACE programs were created by municipalities and counties in California as a way for homeowners and small business owners to finance these voluntary energy and water

efficiency and clean energy improvements through voluntary contractual assessments ([Pub. Res. Code §26050\(a\)\(1\)](#)).

Property owners pay a portion of the assessment annually as part of their property tax payments. When property is transferred, sold, or foreclosed upon, any amount that is delinquent is due. The remainder of the assessment remains as a lien on the property.

Financing under PACE programs is done by the issuance of bonds by a public agency, such as the county, or through a loan from the public agency's funds. This is sometimes accomplished by the use of third-party program administrators to issue the bonds and provide funds to property owners ([§163](#), [BOE Letter to Assessors 2017/016](#)))

1100-1101 Billing Procedures and Requirements: General Information

1100. DELIVERY OF ASSESSMENT ROLL

The auditor is required to deliver the extended secured roll, with an affidavit attached, to the tax collector on or before the fourth Monday of September with an affixed affidavit subscribed by him, pursuant to [§2601\(a\)](#).

EXCEPTIONS:

- If the roll is a machine-prepared roll and the tax bills are, with the consent of the tax collector and the approval of the board of supervisors, also machine-prepared by the auditor, the auditor must deliver the extended tax roll on or before October 16 with an affixed affidavit subscribed by him, pursuant to [§2601\(b\)](#).
- An extension of 30 days may be granted to county tax collectors and auditors by the State Controller. In the case of an emergency, this can be extended up to 40 days ([§155.3](#)).

1101. ASSESSEE'S RESPONSIBILITY

Failure to receive a tax bill does not relieve the fee owner, or assessee, from the liability to pay taxes owed ([§2610.5](#)).

Neither the failure of the assessee to receive the information nor the failure of the assessor to so inform the assessee shall in any way affect the validity of any assessment or the validity of any taxes levied ([§619\(e\)](#)).

"... the owner must be charged with knowledge of the property which he owns, that it is his duty to ... see that he pays the taxes thereon ..." ([Webster v. Somer, 159 Cal. 459](#)).

1110-1112 Billing Procedures and Requirements: Tax Bill – Delivery

1110. GENERAL REQUIREMENT

On or before November 1 of each year, the county tax collector must mail or electronically deliver a tax bill (or a copy of one) for each property on the secured roll if taxes are due ([§2610.5](#)).

Land once described on the roll need not be described a second time, but any person claiming and desiring to be assessed for it may have his or her name inserted with that of the original assessee [§610\(a\)](#).

A person is “claiming” property for purposes of being assessed only if he or she provides the assessor with one of the following supporting documents:

- A certified copy of a deed, judgment, or other instrument that creates or legally verifies that person’s ownership interest in the property;
- A certified copy of a document creating that person’s security interest in the property; or
- The person’s declaration, under penalty of perjury, that he or she currently has possession of the property and intends to be assessed for the property in order to perfect a claim in adverse possession ([§610\(b\)](#)).

The tax collector is required to send a separate tax bill to the initial seller or the purchaser of an individual condominium unit if either party requests it ([§2188.6](#), manual section [1141](#)). The county tax collector is not required to send a separate tax bill where adequate security has been posted for the payment of property taxes in accordance with [Government Code section 66493](#).

1111. TAX BILL TO PERSON OTHER THAN ASSESSEE

Any person may be authorized to pay a property tax bill on behalf of the assessee. When mailing a tax bill to an authorized person other than the assessee, the tax collector must send an information copy of the tax bill to the assessee. The copy shall clearly state that the copy is not a bill and that the original bill has been sent to another person for payment ([§2610.6](#)).

1112. FAILURE TO MAIL TAX BILL

Failure to receive a tax bill does not relieve the owner from liability for taxes. However, the penalty imposed for delinquent taxes shall be canceled by the auditor or tax collector if the assessee demonstrates that delinquency is due to the tax collector’s failure to mail the tax bill to the address provided on the assessor’s roll or to electronically transmit the bill to the address provided and authorized by the assessee ([§2610.5](#), [§2617-§2618](#), [§2621](#), [§2704-§2705](#), [§2922](#), [§4985-§4985.2](#)).

The county has the option of canceling penalties for individuals who acquire secured property after the lien date ([§2610.5](#)).

1120-1128 Billing Procedures and Requirements: Tax Bill – Requirements

1120. INFORMATION ON THE TAX BILL

The following information shall be included in each county tax bill whether mailed, or electronically transmitted, or in a separate statement accompanying the tax bill ([§2611.6\(a-h\)](#)):

- The full value of locally assessed property, including assessments made for irrigation district purposes in accordance with [Water Code section 26625.1](#);
- The tax rate required by [Article XIII A](#) of the California State Constitution (1% of the full cash value);
- The rate or dollar amount of taxes levied in excess of the 1% limitation to pay for voter-approved indebtedness incurred before July 1, 1978, or bonded indebtedness for the acquisition or improvement of real property approved by two-thirds of the voters on or after June 4, 1986;
- The amount of any special taxes and special assessments levied;

- The amount of any tax rate reduction pursuant to [§96.8](#), with the notation, “Tax reduction by (name of jurisdiction).” The jurisdiction must be a local agency, school district, community college district, or county superintendent of schools ([§95\(b\)](#));
- The amount of any exemptions (exemptions reimbursable by the State are shown separately);
- The total taxes due on the property covered by the bill;
- Instructions on tendering payment, including the name and mailing address of the tax collector;
- A notice for the Property Tax Postponement program (the text of the statement is prepared by the Franchise Tax Board) ([§2615.6](#));
- Any descriptive information required pursuant to [Government Code section 53340.3](#);
- A notice that, if taxes are unpaid, delinquency penalties, costs, redemption penalties, and a redemption fee will be incurred ([§2611](#), manual section [1125](#));
- Information specifying all of the following ([§2611.6\(1-4\)](#)):
 - If the assessee disagrees with the assessed value as shown on the tax bill, the assessee has the right to an informal assessment review by contacting the assessor’s office;
 - If the assessee and the assessor are unable to agree on a proper assessed value pursuant to an informal assessment review, the assessee has the right to file an application for reduction in assessment for the following year with the county board of equalization or the assessment appeals board, as applicable, and the time during which the application will be accepted;
 - The address of the clerk of the county board of equalization, or the assessment appeals board, as applicable, where forms for an application for reduction may be obtained; and
 - If an informal or formal assessment review is requested, relief from penalties shall apply only to the difference between the county assessor’s final determination of value and the value on the assessment roll for the fiscal year covered.
- The billing of any special-purpose parcel tax as required by paragraph 2 of subdivision (b) of [Government Code section 53087.4](#).

NOTE: Not more than five assessment appeals boards may be created within any county. Assessment appeals boards shall be designated by number in the ordinance providing for his or her creation ([§1621](#)).

The State Controller’s Office sample form, *Tax Bill Checklist for Both Secured and Unsecured Taxes* ([SCO 2-01](#)), is a resource for designing new tax bills.

1121. DUE DATES

The due dates for tax bills established by statute are November 1 ([§2605](#), [2701](#)) and February 1 ([§2606](#), [§2702](#)). No other dates may be substituted.

1122. DELINQUENCY TIMES AND DATES

The delinquency times and dates established by statute are 5 p.m. or the close of business, whichever is later, on December 10, for the first installment ([§2617](#), [§2704](#)) and 5 p.m. or the close of business, whichever is later, on April 10, for the second installment ([§2618](#), [§2705](#)). As the penalties mentioned in manual section [1136](#) attach by operation of law, no other dates are authorized. For electronic payments, payment is accepted until midnight on April 10 and December 10.

1123. WEEKENDS AND HOLIDAYS

The following statement should appear in conjunction with the delinquency dates and time: "If December 10 or April 10 falls on Saturday, Sunday or a legal holiday, a delinquency penalty will not be charged if payment in full is received by 5 p.m. or the close of business, whichever is later, on the next business day." If the board of supervisors, by adoption of an ordinance or resolution, closes the county offices for business prior to the time of delinquency on the "next business day" or for that whole day, that day shall be considered a legal holiday ([§2619](#), [§2705.5](#)).

1124. TAX DEFAULTED PROPERTY

On the tax bill for tax defaulted property shall appear in writing the fact that it has been defaulted for delinquent taxes. As an alternative, the bill may contain language such as "prior-year taxes are in default," "prior-year taxes delinquent," "unpaid prior year taxes jeopardize property," or any other language indicating that the property is in jeopardy due to delinquent taxes from a prior year ([§2612](#)).

1125. REDEMPTION NOTICE

A notice must appear on the tax bill specifying that if taxes are unpaid, the assessee must pay ([§2611](#)):

- Delinquency penalties
- Costs
- Redemption penalties
- Redemption fee

Percentages or amounts are not required to be printed on the tax bill.

1126. WATER STANDBY CHARGES

County water standby charges, including penalties, must be shown separately from all other taxes when added to the county tax bill for collection ([Gov. Codes §25215.5](#), [§25215.6](#)).

District water service standby charges, availability charges, and any applicable penalties must be shown separately from all other taxes when added to the county tax bill for collection, if practicable ([Wat. Code §55501.5](#)).

1127. HOMEOWNERS' EXEMPTION INELIGIBILITY NOTICE

When the county sends a tax bill to an assessee who already received a homeowners' exemption the previous year, the tax bill shall include a notice concerning circumstances under which he or she becomes ineligible for the homeowners' exemption.

It is the assessee's duty to inform the assessor when he or she is no longer eligible for the exemption. The penalties applicable if the exemption continues must be included in the ineligibility notice. Failure to receive the notice shall not excuse the taxpayer of the duty to inform the assessor of his or her ineligibility for the exemption ([§2615.5](#)).

1128. MISCELLANEOUS

Each tax bill should be identified by parcel number, assessment number, bill number, account number, or a combination of such numbers. All tax statements must include the county name and the mailing address for the tax payment ([§2611.6\(h\)](#)).

1130-1137 Billing and Procedure Requirements: Tax Bill – Recommended Format

1130. GENERAL INFORMATION

The secured tax bill format is suggested to show the breakdown of information important to assessed values, exemptions and taxes.

1131. YEAR

Print the lien year (e.g., “2016”) or the fiscal year (e.g., “2016-17”) in bold numerals on the face of the bill, as well as on all stubs or segments that are returned to the tax collector with payment.

It is recommended that the bill contain the following statement: “For fiscal year beginning July 1, 20____, and ending June 30, 20____.”

1132. DESCRIPTION OF PROPERTY

Whatever portion of the tax bill is to serve as the assessee’s receipt, it should contain a description of the property. Such description should duplicate that which appears on the assessment roll.

1133. NAME AND ADDRESS

The assessee’s name and address, if known, should be prominently displayed on the tax bill. Property assessed to “unknown owners” or to other known descendants should also be billed. Use the most feasible mailing address. Mailing such bills may disclose unknown assessees to the county.

1134. VALUES

The tax bill must separately show values for:

- Land
- Improvements
- Personal property
- Total taxable value
- Exemptions

NOTE: Exemption values are shown on the tax bill pursuant to the assessor’s procedures. If more than one exemption is involved, the assessor may combine the exemption amounts and identify the component parts by a coded index.

EXCEPTION: The assessed value of the homeowners' property tax-exemption may not be combined with any other exemption value. Each exemption value must be shown separately ([§218](#), manual section [1127](#)).

1135. TAX-RATE AREA NUMBER

The tax-rate area number should appear on the face of the bill.

1136. PENALTIES AND COSTS

The delinquent penalty of 10% that attaches to both the first and second installments must be shown on each installment of the tax bill or on a separate statement that accompanies the bill ([§2617-§2618](#), [§2704-§2705](#)).

The \$10 charge that attaches upon delinquency of the second installment must also be shown on the tax bill or on a separate statement that accompanies the tax bill ([§2621](#), [§2706](#)).

1137. SHOW TAX REDUCTION ON BILL

Under provisions of [Article XIII A](#) in the California State Constitution, any jurisdiction may request that the amount of taxes computed for it be reduced. The county auditor shall then compute the effective tax rate reduction for all properties within the affected jurisdictions. The adjusted tax amounts must be shown on the secured tax bill and on the following year's unsecured tax bills with a notation reading, "Tax reduction by (name of jurisdiction)" ([§96.8](#)).

1140-1145 Billing Procedures and Requirements: Tax Bill – Other Types of Billing

1140. SEPARATE TAX BILLS

When tax defaulted property and property that is not tax defaulted have been combined into one assessment, the tax collector must issue separate tax bills for each portion. When requested by the tax collector, the assessor must within ten days furnish separate valuations ([§2612.5](#)).

The auditor enters the separate valuations and descriptions on the roll, computes the taxes and penalties, and notifies the tax collector ([§2612.6](#)).

NOTE: The assessor cannot combine separately assessed parcels into a single assessment when any of the parcels have been declared tax defaulted. However, the assessor may combine such parcels into a single assessment if subdivided land is reverted to acreage in accordance with the provisions of the Subdivision Map Act and local ordinances ([§455](#)).

1141. SEPARATE TAX BILLS FOR CONDOMINIUMS

Whenever real property has been divided into condominiums, as defined in [Civil Code section 783](#), the initial seller or purchaser of an individual unit may request the county assessor to separately assess such unit and to send a separate tax bill to such purchaser for the current fiscal year. The request can be made at any time during the fiscal year ([§2188.6](#), manual section [1110](#)). However, condominium units may not be separately

assessed and billed if adequate security for the payment of the taxes has not been posted with the county ([Gov. Code §66493](#)).

1142. SEPARATE TAX BILLS FOR TIME-SHARE ESTATES

A “time-share estate” is defined as, “The right to occupy a time-share property, coupled with a freehold estate or an estate for years with a future interest in a timeshare property or a specific portion thereof” ([Bus. & Prof. §11212\(x\)\(1\)](#)).

Whenever real property has been divided into time-share estates, a written request may be made to the assessor for a separate assessment of each interest. When all of the conditions set forth in [§2188.8\(c\)](#) have been met, the assessor must separately assess and enroll each interest. A tax bill can then be issued to the owner of each time-share estate ([§2188.8\(a\)](#)).

The county may charge a fee for processing an application for separate assessment, initial and ongoing costs of the assessment, and billing of the interests. The fee is to be divided proportionally and collected on the tax bill for each of the time-share estates ([§2188.8](#), manual section [6104](#)). This fee is not to exceed the actual cost of the separate assessment, billing, and mailing. When collected, this fee is to be deposited in the county’s general fund.

Whenever a time-share is a leasehold interest in real property, a written request for a separate assessment of each interest may be made to the assessor. When all of the conditions of [§2188.9](#) have been met, the assessor separately assesses each time-share interest. However, the tax on the total assessment of the time-share project constitutes a lien on the entire project. The tax collector sends a single tax bill to the time-share project organization or homeowner’s association, with an itemized breakdown detailing the taxes applicable to each separately assessed interest ([§2188.9](#), manual section [6104](#)).

1143. SEWER CHARGES

Sanitation and sewerage systems charges, defined as fees, tolls, rates, rentals, or other charges for services and facilities furnished by such systems, may, if the agency by ordinance so provides, be entered on the county assessment roll and collected along with the general county taxes ([Health & Saf. Code §5470\(f\)](#), [§5473](#)).

The tax collector may, at his or her discretion, issue separate tax bills for such charges and separate receipts for his or her collection. The county shall be compensated for the services rendered ([Health & Saf. Code §5473.9](#)).

1144. ADJUSTED OR “LATE” TAX BILLS

When an adjusted or “late” tax bill is issued due to an escape assessment, roll correction, cancellation of taxes, etc., the assessee has 30 days to pay without penalty ([§2610.5](#), manual section [1304](#)).

1145. CONSOLIDATED TAX STATEMENT

Adoption of a consolidated tax statement is at the discretion of the tax collector, and he or she must transmit a written memorandum to the board of supervisors and record the statement with the county recorder.

A tax collector who has elected to provide consolidated tax statements shall, upon written request by the assessee, issue a consolidated tax statement for all of the assessee's properties entered on the secured roll.

The person making the request must be the assessee, must provide a written request by September 1, and must provide the parcel numbers. Only one named assessee may request and receive a consolidated tax statement. A timely request is valid for those taxes levied for the first five fiscal years following the making of the request. The tax collector must print a notice on the back of each tax bill notifying each assessee of his or her right to request a consolidated tax statement. Included in the notice must be the fees, requirements, conditions, and limitations. The tax collector may charge a fee to provide a consolidated statement, not to exceed the amount to recover the costs incurred ([§2611.7](#)).

1200-1208 Payment Processing: Administrative Requirements

1200. TAX ADMINISTRATION AND COLLECTION

For the purposes of tax administration and collection, the assessor shall allow the tax collector access to all records in his or her office ([§408\(c\)](#)).

1201. PUBLICATION OF NOTICE

The tax collector is required by law to publish a notice on or before the day taxes are payable. For publication requirements, see manual section [9100](#) ([§2609](#)).

1202. COLLECTION IN EQUAL INSTALLMENTS

The law provides that all taxes on personal property on the secured roll, and half the taxes on real property, are due and payable November 1, with the other half of real property taxes due and payable February 1 ([§2605-§2606](#)).

The division of property taxes into two equal installments is also applicable to all assessments, fees, charges, or installments of special assessments that are a lien against the real property ([§2700.1](#)).

The entire tax on real property may be paid when the first installment is due. The first installment may be paid at any time prior to the time the properties are declared to be tax defaulted, even though the second installment has become delinquent. However, the second installment may be paid separately only if the first installment has been paid ([§2607](#), [§2703](#)).

1203. DUE DATES

The first installment of taxes is due and payable November 1. The second installment is due and payable February 1 ([§2605-§2606](#), [§2701-§2702](#)).

The tax collector has the authority to fix a date preceding the due date when payments may be made ([§2608](#)).

1204. AMOUNT DUE

When ordered by the board of supervisors, provided the resolution is adopted within the time limits specified in [§2700](#), the auditor is required to divide all real and personal property taxes due on the secured roll into two equal installments. If the amount is not evenly divisible by two, then the odd cent is payable with the first installment unless the roll shows the odd cent as part of the second installment ([§2701-§2702](#)).

By resolution, the board of supervisors may order the auditor to drop the odd cent ([§2152.5](#)).

1205. PAYMENTS

The tax collector shall accept payment of current taxes even though prior-year delinquencies on the real property may also exist ([§2607](#), [§2703](#)).

1206. METHOD OF PAYMENT

“Negotiable paper” is defined as checks, drafts, and money orders ([§2504](#)).

The tax collector may accept negotiable paper in payment of any tax, assessment, or redemption ([§2505](#)). This includes personal checks ([Attorney General Letter 3-6-46](#)). Checks written on foreign banks that charge a premium for clearing and converting funds to dollars should be accepted only if the extra charge is separately paid by the assessee. To minimize extra handling in converting money, include a note with tax bills going to foreign addresses that payment must be made in U.S. funds or that an amount representing conversion charges must be included.

NOTE: The tax collector has the right to refuse to accept payment in coins ([§2502](#)).

1207. PLACE OF PAYMENT

The tax collector is the public official responsible for collecting all property taxes ([§2602](#)). All taxes are payable on or before the due date, at the tax collector’s office, or, if so ordered by the board of supervisors, at any branch office or temporary collection site within the county or outside the county ([§2613](#)).

1208. THE COUNTY RECIPROCAL TAX ACCOUNTING (CORTAC)

The CORTAC process was established to allow lenders, loan servicing agents, or other entities (lenders) to make bulk payments for real property taxes either through a wire transfer or other mechanism, on behalf of the real property owners who are assessed by counties. The lenders agree to submit payment files, in a specific format, to the counties to facilitate bulk posting.

Under the CORTAC process:

- Lenders must first send the counties an electronic file identifying the real property parcels for which it will be submitting payment. These files must be received by a specific date, usually in August;
- The county will “flag” these parcels as having an impound or escrow account prior to issuing tax bills and place a notation on the tax bill that a lender has requested the tax information;
- The lender then requests a file containing all the amounts due for each installment, usually three times a year (first installment, second installment, and at the end of the fiscal year); and

- The Lender submits an electronic file when submitting payments that a counties can use to post the payments.

The CORTAC process allows counties to post bulk payments, sometimes containing thousands of payments, easily and without the requirement of processing checks.

1210-1215 Payment Processing: Electronic Fund Transfer Payment

1210. COLLECTIONS BY ELECTRONIC FUND TRANSFER

“Electronic Fund Transfer” (EFT) means any transfer of funds other than a transaction originated by check, draft, or similar paper instrument, that is initiated through an electronic terminal, telephonic instrument, or computer/magnetic tape so as to order, instruct, or authorize a financial institution to credit or debit an account ([§2503.1](#)).

At the discretion of the tax collector, EFT payments may be accepted in payment of any tax, assessment, tax sale, or for redemption of property. The tax collector may, at his or her discretion, require any assessee, or any paying agent of an assessee, who has made an aggregate payment of \$50,000 or more on the two most recent regular installments on the secured roll to make subsequent payments by EFT. Any assessee or paying agent making an EFT payment shall provide any supporting documentation and electronic information requested by the tax collector. Such a payment shall be made to the bank account designated by the tax collector ([§2503.2\(a-c\)](#)).

Any costs incurred by the tax collector as a result of acceptance of an EFT payment shall be considered administrative costs of tax collection. If an EFT fails for any reason, the tax collector may charge the person who attempted the EFT a fee not to exceed the costs of:

- Processing the transfer;
- Providing a notice of non-acceptance to that person; and
- Making the required cancellations on the tax roll ([§2503.2\(d\)\(g\)](#)).

The amount of the fee shall be set by the governing body of the relevant city, county, or city and county, and it may be added to the tax bill and collected in the same manner as costs recovered according to [§2621](#).

1211. ADVANTAGES OF ELECTRONIC FUND TRANSFER (EFT)

The primary advantage of EFT is that it eliminates the time required for a paper check to be mailed, received, and cleared. An EFT is finalized on a specified date (i.e. the statutory delinquent dates, December 10 and April 10), and the funds can be made available to the county on the day a transaction is initiated or the day after, depending on the method of payment. EFT is less labor intensive, making it less expensive than a paper check for both the assessee and the county. This may improve the investment earnings of the county. In addition, EFT transactions should be less prone to error because the data involved need not be entered multiple times by multiple entities such as the banking system or the tax agency.

1212. AUTOMATED CLEARING HOUSE TRANSACTIONS

The Automated Clearing House (ACH) system is an electronic network of financial institutions that helps individuals and organizations move money from one bank to another. Federal Reserve Banks and private processors operate the ACH network, and electronic transactions can be accomplished nationwide.

With a credit transaction, the assessee initiates the transaction with his or her financial institution, which is also called the originating depository financial institution (ODFI) in ACH language. The assessee specifies the amount of the payment, the bank and account number of the county being paid, and the date the transaction is to be finalized. The assessee includes such information as the type of tax being paid, the assessee identification number, and the tax period covered. The ODFI combines this transaction or batch of transactions with those from other customers and transmits the entire “file” of transactions to its ACH operator. The ODFI charges the assessee’s account for the transaction at an agreed upon time.

The ACH operator sorts all transactions it receives and sends the tax payment transaction to the ACH operator of the county’s member bank. The ACH operator also informs the Federal Reserve System of the transactions it processes so the reserve account of the ODFI may be debited for the amount of any payments made and the reserve accounts of the receiving banks may be credited for the payments.

The ACH operator prepares information for the county’s financial institution, also called the Receiving Depository Financial Institution (RDFI), on each payment involving that bank and its customers and provides it to the RDFI electronically, on tape, or on paper.

The RDFI credits the county’s bank account for the amount of the transaction and presents the county with the other information (e.g., tax type, taxpayer ID number, etc.) accompanying the payment. This information may be supplied electronically, on paper, or on tape; it is used to update the assessee accounting and other systems.

An ACH debit transaction follows much of the same course as a credit transaction, but instead the assessee notifies the county and not the ODFI. The county then initiates the transaction through the ACH network with its financial institution.

Both ACH credit and debit transactions require a minimum of 24 hours or one day for processing. Unless there is a problem with a transaction, the assessee’s account will be debited and the county’s account will be credited on the specified date.

1213. FEDWIRE TRANSACTIONS

Another method of making electronic payments is through the Fedwire system. In a Fedwire transaction, the information regarding the transaction is communicated directly through the electronic communications network linking all Federal Reserve district banks and his or her 25 affiliated branches.

In a typical Fedwire transaction, an assessee notifies his or her financial institution to transfer a specified amount to the county for a particular tax payment. The assessee’s bank then contacts the appropriate Federal Reserve Bank (via telephone or computer communication) and instructs the “Fed” to transfer the requisite amount to the county’s financial institution. The Fed then communicates with the county’s bank (via telephone or computer) regarding the transfer. The Fed also debits the reserve account of the originating institution and credits the reserve account of the receiving institution to accomplish the actual transfer of funds. These institutions debit and credit his or her customer accounts accordingly. The receiving financial institution notifies the county of receipt of the payment. Fedwire transactions can be initiated and settled on the same day.

Acceptance of Fedwire payments is at the discretion of the tax collector ([§2503.2](#)).

1214. SWIFT TRANSACTIONS

SWIFT is used by banks to securely transfer money globally. This form of EFT is beneficial for assesseees who are out of the country but need to make a property tax payment. SWIFT global payments innovation (GPI) increases speed, transparency, and cross-border payment tracking. Over 110 banks from all over the world use SWIFT GPI, including the United States.

SWIFT GPI allows banks to:

- Immediately stop payments, no matter where it is in the correspondent banking chain;
- Transfer rich payment data along with the payment, including additional line item details necessary for compliance checks; and
- Use an international payment assistant to further increase the process payments.

1215. NOTICE TO ASSESSEES

The tax collector is not required to send specific notice to qualifying assesseees requiring them to make subsequent tax payments by EFT, but the tax collector should notify the assessee of future requirements. The tax collector may choose whatever method is acceptable to the county ([§2503.2](#)).

There are several notification options, such as enclosing a notice with the tax bill, sending a notice by separate mailing (can be regular mail), or adding the notification statement to the tax bill. If a second notice is necessary, it should be mailed using registered or certified mail.

State Controller's Office sample forms, *Notice to Pay Real Property Taxes by Electric Fund Transfer (EFT)* ([SCO 1-09](#)) and *Notice to Pay Real Property Taxes by Electronic Fund Transfer (EFT): Second Notice* ([SCO 1-10](#)), are guides for providing notice to assesseees.

1220 Payment Processing: Credit Card Payment

1220. PAYMENT OF PROPERTY TAXES

The board of supervisors may authorize the acceptance of a credit card for payment of property taxes.

The use of a credit card immediately results in payment of the tax, provided that the transaction was successful. If any credit card transaction is not successful for any reason, any record of payment made is voided. The obligation to pay remains the assessee's responsibility.

The county may charge a fee for the use of a credit card and for all costs associated with a credit card draft. Any fees charged must be approved by the county board of supervisors ([Gov. Code §54986](#)). Any fees charged may be added to the tax bill and collected in the same manner as costs recovered pursuant to [§2621 \(§2511.1\)](#).

1230-1237 Payment Processing: Special Circumstances

1230. PARTIAL PAYMENT OF CURRENT TAXES

Notwithstanding any other provision of law, in the case of a deficiency in the payment of taxes, with the approval of the board of supervisors, a partial payment may be accepted from the assessee. The difference between the amount paid and the amount due should be treated as a delinquency in the same manner as any other delinquent tax ([§2636](#), [§2708](#), [§2927.6](#)).

1231. UNDERPAYMENTS AND INCORRECT AMOUNTS

Counties operating under [§4701-§4717](#), known as the “Teeter Plan,” must place the tax payment in a trust fund and immediately notify the assessee of the deficiency. The assessee may pay the balance due until the time the property becomes tax defaulted by operation of law. If the balance due is not paid on or before that date, the insufficient payment must be returned to the assessee and will become tax defaulted. The tax collector may accept payments that are within \$10 of the total due as payment in full ([§4717](#)).

Counties that do not operate under the “Teeter Plan” and do not accept partial payments of taxes pursuant to [§2607](#) or [§2703](#), whichever is applicable, should return the partial payment to the sender. A notification of the underpaid amount, a statement of the current amount due, and the reason for return of the remittance should accompany the returned partial payment. A copy of the notification should be retained.

See manual section [1522](#) for notification of shortage in payment of amount due; see also [Attorney General Opinion 6-16-72](#) ([§4985.2](#)).

1232. DISCOUNTING THE AMOUNT OF THE SECOND INSTALLMENT

Upon authorization by the board of supervisors, the tax collector may accept a discounted amount for payment of the second installment if the payment is made on or before the date the first installment is due. The rate of the discount is to be established annually by the board of supervisors ([§2607.1](#)).

Exercising this option requires an establishment of a date for payment on or prior to the statutory due date of November 1 and publication of an appropriate notice ([§2608-§2610](#)).

1233. RETURNED CHECKS

Acceptance of negotiable paper constitutes payment as of the date of acceptance only when it is duly paid ([§2506](#)). The tax collector shall cancel on his or her records any indication of payment when negotiable paper, for any reason, is not paid and shall immediately send a notice of cancellation to the person who attempted payment. The tax lien continues as though no attempt at payment had been made ([§2509-§2510](#)).

After returning any unpaid negotiable paper to the depositing county officer, the tax collector may charge the person who attempted the payment a fee, not to exceed the cost of making required notifications to that person, processing the returned unpaid negotiable paper, and making the required cancellations on the tax roll ([Gov. Code §6157\(b\)](#)). The fee may be added to the tax bill and collected in the same manner as costs recovered under [§2621](#) ([§2509.1](#)).

The fee amount is set by the board of supervisors and is subject to the fee-review procedures required by [Government Code section 54986](#).

If a check is returned and the person or entity who made the check refuses to honor the same check within 30 days following a written demand, the person or entity shall be liable to the county for (in addition to the amount owed) damages of three times the amount of the check, but in no case less than \$100 nor more than \$1,500. The written demand must be sent by registered or certified mail to the payer. If the payer has not satisfied the amount owed within 30 days of the mailed notice, an action may be brought in small claims court or in any other appropriate court ([Civ. Code §1719](#), manual section [8156](#)).

1234. REMITTANCES BY MAIL

If a remittance is received through the United States mail, in a sealed envelope, properly addressed with the required postage prepaid, it shall be deemed to have been received by the tax collector to whom it was addressed on the date shown by the post office cancellation mark and within the time of delinquency specified by law for that date. If satisfactory proof is submitted that mailing occurred on an earlier date, the remittance should be accepted as received in a timely manner. By law, remittances received more than 30 days after the date and time set for payment need not be accepted ([§2512\(a\)](#)).

This section shall not, for purposes of applying of [§3707\(a\)](#), apply to a remittance sent by mail for the redemption of tax defaulted property ([§2512\(c\)](#)).

1234.1 REMITTANCES BY AN INDEPENDENT DELIVERY SERVICE

If a remittance is deposited for shipment with an independent delivery service, which is either designated as an independent delivery service by the Internal Revenue Service or approved by the tax collector, prior to a specified date and hour, and if it is received before 5 p.m. on the next business day after the effective delinquent date, it is deemed to be received on the date shown on the packing slip or air bill attached to the outside of the package ([§2512\(a\)](#)).

1234.2 REMITTANCE BY EFT

If a remittance to cover a payment, required by law to be made to a county prior to a specified date and hour, is made by an electronic payment option, the remittance shall be deemed received on the date the transaction was completed by the assessee, if the remittance was made on the county's authorized internet website or via the county's authorized telephone number. Proof of completion of the transaction in the form of a confirmation number or other convincing evidence shall be presented by the assessee to the satisfaction of the tax collector. This subdivision does not apply to payments by electronic fund transfer as provided in [§2503.1-§2503.2](#) ([§2512\(b\)](#)).

This section does not apply to payments made for the redemption of tax defaulted property ([§2512\(c\)](#)).

1235. PAYMENTS UNDER PROTEST

In accordance with [§619](#) and [§621](#), the law permits an assessee to make payment under protest and to petition for an assessment reduction when the assessor fails to send a notice to either:

- An assessee whose property was not on the prior-year's secured roll; or

- An assessee of real property on the local secured roll whose property's full value has been increased by more than the Consumer Price Index adjustment permitted by the [California State Constitution, Article XIII A, section 2](#) (also see [§51](#)).

A protest must be filed with the tax collector when the first installment of taxes is paid. It must be accompanied by a petition for assessment reduction on the form prescribed by the county board of supervisors. See State Controller's Office sample form, *Payment of Taxes Under Protest and Petition for Reduction of Assessment (SCO 1-01)*.

The tax collector forwards the form to the clerk of the board of supervisors with the notation that taxes were paid under protest. The auditor may impound the taxes until the final disposition of the claim or action if it can be reasonably anticipated that the tax may be refunded in whole or in part ([§620](#), [Gov. Code §26906.1](#)).

1236. DUPLICATE PAYMENTS

Within 90 days after payment, the tax collector may refund any excess resulting when tax payments are transferred from an unintended application, made either before or after delinquency ([§4916](#)).

Duplicate payments may be refunded by either the tax collector or the auditor within four years after payment ([§5096](#), [§5097.2](#), manual sections [1601-1602](#)).

If two or more people pay taxes on the same property, accept both payments and issue receipts. Note the duplicate payment on the roll. With the consent of the auditor, deposit the amount received in a special trust fund as a duplicate payment on a certain parcel.

Contesting owners may litigate over ownership, or, alternatively, the owner of record may instruct the tax collector, by written request, to refund a replicated payment on a current assessment to the party who is not an owner of record, if the tendering party is known to the owner of record at the time of the request ([§610](#), [§2781.5\(a\)](#), [Attorney General Letters 12-4-47, 10-29-52](#))

Before the owner of record submits the request, both of the following requirements must be satisfied:

- The request must be certified by the owner as true, correct, and complete to the best of his or her knowledge; and
- The request must be accompanied by a certified copy of a deed, judgment, or other instrument legally verifying ownership of the property ([§2781.5\(b\)](#)).

The tax collector is not required to determine ownership of the property. This section does not apply to any payment on a current assessment that is delinquent ([§2781.5\(c\)\(d\)](#)).

1237. RETURN OF DUPLICATE PAYMENT

A duplicate payment is a payment submitted by, or on behalf of, an assessee that is intended to pay a specific tax or tax installment that has already been paid. This applies whether or not the prior payment and the replicated payment are in the same amount ([§2780.5](#)).

The law requires a county to return replicated payments to the tendering party within 60 days of the date the payment becomes final. Payment is "final" when the original payment is not subject to chargeback, dishonor, or reversal ([§2781](#)).

Replicated payments returned after 60 days must include interest calculated at the greater of 3% per annum or the county pool apportionment rate, if that interest is ten dollars or more ([§5151](#)). Replicated payments often occur because a tax has been paid by both the owner and an impound account, or by an escrow company unable to verify payment based on county records. These conditions often occur when a transfer of ownership is pending ([§2780-§2782](#)).

Counties that manually process payments usually can verify duplicates and return one of the two payments within a few days or weeks. Counties that use check processing machines ordinarily must refund replicated amounts.

If the payer returns the wrong payment stub or does not indicate the intended application for the payment, the tax collector may exercise reasonable judgment in applying the payment ([§2783](#)).

NOTE: The payment submitted must be clearly indicated as applicable only to a specific tax or tax installment. Usually such payment is accompanied by a letter or installment stub indicating the payer's intent to pay a particular tax or installment. In a case where no intent is expressed and an installment or a tax on another property owned by that person has not been paid, the tax collector may apply payment to the remaining installment or other tax without incurring interest penalties if subsequent data indicate that payment should not have been so applied ([§2635.5](#)).

1240-1246 Payment Processing: Collection on Part of an Assessment

1240. INTENT OF THE LAW

It is policy of the State to permit the payment of taxes on any parcel of real property separately valued from the whole assessment on the current roll if its description is executed on any recorded deed, purchase contract, deed of trust, mortgage, or final decree of court ([§2801](#)).

1241. DEFINITIONS FOR PURPOSES OF THIS SECTION

When collecting part of an assessment:

- “Improvements” are not a parcel separate from the land on which they are situated ([§2802\(a\)](#)).
- An “undivided interest” is a parcel that is separate from the whole assessment. This does not imply that the undivided interest must be separately assessed ([§2802\(b\)](#)).
- A “lien” is the charge against real property that ([§2802\(c\)](#)):
 - Is either created by the assessment of personal property, leasehold improvements, or possessory interests, or constituting a fixed amount credited by the special assessment or charge of a taxing agency or revenue district;
 - Includes special assessments or annual installments thereof, plus accrued interest and maintenance charges; and
 - Includes any and all other charges authorized by law to be levied against real property by any taxing agency or revenue district. This includes, but is not limited to, general tax or special tax levies ([Ca. Const. Art. XIII §1](#)), as well as weed abatement charges, water standby charges, availability charges, unpaid water bills, etc.

1242. SEPARATE PAYMENT OF LIEN

The taxes on any parcel of real property contained in an assessment and having a separate valuation on the current roll may be paid separately from the payment of any other taxes or special assessments that constitute a separate lien against the property. Although special assessments are collected by the tax collector in the same manner and at the same time as county ad valorem taxes, the assessee has a right to apply to the tax collector remove a lien created by a special assessment by making a payment separately from the general taxes ([§2801](#), [§2802\(c\)](#), [§2811\(a\)](#), [Loew's, Inc. v. Byram \(1938\) 11 Cal. 2d 746 \[82 P.2d 1\]](#)).

1243. TIMEFRAME FOR APPLICATION FOR SEGREGATION OF TAXES

Any person filing an affidavit of interest may apply to the tax collector to have any parcel separately valued on the current roll for the purpose of paying taxes. The application must be made during the current fiscal year. With the approval of the board of supervisors, a county may allow these applications between July 1 and March 31 ([§2821](#)).

1244. REMOVAL OF A SPECIFIC LIEN

Taxes constituting the amount of a lien created by the assessment of personal property, leasehold improvements, possessory interests, special assessments, or other charges as defined in [§2802\(c\)](#) may be paid separately from the whole assessment ([§2811\(a\)](#)).

1245. COMPUTATION OF TAXES

The taxes on personal property, leasehold improvements, possessory interests, special assessments, or other charges, as defined in [§2802\(c\)](#), must be paid in full together with, or prior to, the taxes on the separately valued parcel of real property. As these items must be paid in full, a common practice is to prepare separate tax bills for them and for the separately valued parcel of real property. This permits the payment of current taxes in installments on the separately valued parcel of real property.

The taxes on the separately valued parcel are computed by multiplying the assessed value(s) of the parcel by the appropriate tax rate(s).

If penalties or costs have been applied to the original assessment, these penalties and costs are prorated to the respective taxes computed in this section.

1246. ENTRIES ON ROLL

All separately valued parcels and all other assessed values on which the taxes were paid, including any assessments or charges that constitute liens against the real property, should be indicated paid, and the amount of taxes paid should be shown on the roll. The roll must reflect the assessed values remaining unpaid and the balance of the taxes yet due and payable ([§2614](#)).

NOTE: When no physical document of the extended roll and abstract list is prepared, all entries required to be made on the extended roll and abstract list shall be entered into the electronic data processing records.

The data and record shall be stored so that they can be made readily available to the public ([§109.6](#)).

1250-1258 Payment Processing: Separate Valuation

1250. ELIGIBILITY REQUIREMENTS

Any person, including the seller and the purchaser, who has filed for record a duly executed deed, purchase contract, deed of trust, mortgage, or final decree of court, may apply to the tax collector to have his or her interest separately valued on the current roll for the purpose of paying taxes ([§2821](#)).

Upon authorization of the board of supervisors, the county may charge a fee for actual costs incurred for the processing of an application for a separate assessment, the initial and ongoing costs of a separate assessment, billings, and mailings. This fee may be billed separately or prior to issuing separate tax bills, or both, or collected on subsequent tax bills. Once collected, fees shall be deposited in the county's general fund ([§2821](#), [Gov. Code §54985 et seq.](#)).

1251. APPLICATION REQUIREMENTS

The application shall be made during the current fiscal year and before the property becomes tax defaulted. It must be in the form of either an affidavit or a certification (declaration) under penalty of perjury ([Code Civ. Proc. §2015.5](#)). Included must be a statement certifying that the duly recorded document describes the parcel of real property sought to be separately valued. The county may impose the following conditions on applications for separate valuation ([§2821](#)):

- Upon approval of the board of supervisors, require that the applicant notify the property owners;
- Upon approval of the board of supervisors, allow these applications between July 1 and March 31;
- If any lien not determined by the application of a tax rate on a valuation of property has been levied or placed on the whole assessment, the application may be accompanied by the certification of the taxing agency or revenue district authorized by law to levy or place a lien. This certification sets forth the specific amount of that portion of the lien levied or placed on the whole assessment that is to continue to be levied or placed on the parcel sought to be separately valued ([§2821](#)); and
- The board of supervisors may provide that a parcel with a lien against it and other property, pursuant to the Improvement Act of 1911 ([Sts. & Hwy. Code §5000-§6794](#)) or the Improvement Bond Act of 1915 ([Sts. & Hwy. Code §8500-§8887](#)), will not be separately valued unless a request has been made to the agency levying the bond lien for a division of land and bond. A copy of the requested division of land and bond shall accompany the request for separate property tax valuation ([§2821](#)).

Any separations of property pursuant to [§2821](#) are for valuing property for tax purposes only and are not intended to create a legal building site or to supersede requirements pursuant to zoning, building, lot split, or subdivision ordinances.

The application may include a request that the tax created by the assessment of personal property, leasehold improvements, or possessory interest on the whole assessment be:

- Allowed to remain as a lien on the parcel sought to be separately valued;
- Paid in full by the applicant; or
- Attached to the applicant's parcel so that these taxes can be paid at the same time as the taxes on the segregated parcel of real property ([§2821](#)).

The assessor must determine whether the value of the applicant's parcel is sufficient to secure a lien for payment of taxes ([§2823\(f\)](#)). If the assessor determines that the value is insufficient, the value of the personal

property, leasehold improvements, or possessory interest is prorated in the ratio that the value of the real property of the applicant's parcel bears to the real property in the original assessment ([§2826\(b\)](#)).

Once created, an individual interest parcel may be entered as a separate assessment on subsequent assessment rolls until ownership of the interest is conveyed or until the original applicant, or his or her agent, requests that the parcel be recombined ([§2821](#)).

The application may be accompanied by certification of other taxing agencies or revenue districts, setting forth the amount of his or her liens or charges to be levied on the applicant's parcel and on the parcel(s) remaining ([§2821](#)). If the lien continues beyond the current year, the certificate must set forth the amounts for each of the subsequent years.

A separate valuation cannot be made of any parcel covered by a subdivision map that has been filed for record after the lien date preceding the current fiscal year. A parcel cannot be segregated or separately valued into more than four parcels, including the parcel remaining. However, this prohibition does not apply in any county in which the board of supervisors provides for a separate valuation pursuant to an ordinance adopted by a majority vote of the board ([§2823\(b\)](#)).

See the State Controller's Office sample form, *Application for Tax Segregation* ([SCO 1-02](#)).

1252. APPLICATION TO ASSESSOR

The tax collector transmits the application for separate valuation to the assessor. The assessor then places separate valuations on the parcel to be segregated and the remaining parcel. The sum of values must equal the total valuation before segregation ([§2823\(f\)](#)).

1253. VALUATIONS TO AUDITOR

When the valuations have been determined, the assessor transmits the application to the auditor. The auditor then enters the descriptions on the roll, along with his or her computation of the taxes due thereon ([§2824](#)).

1254. COMPUTATION OF TAXES

If the taxes are to be paid on either the segregated portion or the remaining portion of real property only, the ad valorem taxes are computed by multiplying the assessed value of the real property by the tax rate(s) applicable for the current year ([§2825\(a\)](#)).

FORMULA: Land Value(s) x Rate = Current Tax

1255. DELINQUENT PENALTIES AND COSTS

Applicable delinquent penalties and costs are computed by first determining the ratio factor in the same manner set forth in manual section [1251](#), then multiplying the penalties and costs by that ratio factor ([§2826](#)).

1256. BALANCE REMAINING

The amount due on the remaining parcel equals the difference between the amount due on the whole assessment and the amount due on the parcel separately assessed ([§2827](#)).

1257. UNDIVIDED INTERESTS

Applications for separate valuation of undivided interests must be submitted to the assessor for determination of separate value ([§2188.11](#), [§2823](#), manual section [1252](#)).

1258. SEGREGATIONS: NONRESIDENTIAL SUBDIVISIONS

The board of supervisors may authorize the county assessor, the auditor, and the tax collector to prorate the amounts of past-due property taxes and assessment liens, plus any interest and penalties that may have accrued, among the various parcels in a nonresidential subdivision ([§2823\(e\)](#)).

The tax collector may then enter into an installment payment agreement with the assessee with respect to the pending subdivision map. This agreement is deemed the equivalent of a certificate, pursuant to [Government Code §66492](#), for the purpose of permitting the filing of the final map ([§2823\(e\)](#)).

The final map should be recorded only with the provision that the past-due property taxes, assessment liens, and special assessment liens shall not be discharged of record by the agreement, but shall be prorated among the parcels created by the final map ([§2823\(e\)](#)).

1260-1265 Payment Processing: Post-Payment Requirements

1260. RECEIPTS FOR PAYMENT OF TAXES

Whenever taxes are paid in cash, or whenever a receipt is requested at the time of payment by the person paying the tax, the tax collector must give a receipt to the person making payment ([§2615](#)). The tax bills, when dated and stamped "paid," constitute valid receipts.

Receipts must contain:

- The amount of tax paid;
- The fiscal year and installment for which the tax is paid; and
- The description of the property ([§2615](#)).

1261. PAYMENTS BY MAIL

A receipt is not required for a payment received by mail. However, a receipt may be requested by the person making the payment ([§2615](#)).

1262. POSTING PAYMENTS

The tax collector shall mark the fact and date of payment on the roll or delinquent roll opposite the tax to which the payment relates ([§2614](#)), or, with the board of supervisors' approval, may adopt a procedure to show the fact and date of payment on machine-prepared lists ([§2614.5](#)).

The consent of the auditor and the tax collector and the approval of the board of supervisors must be obtained when recording payments in electronic data processing records. Data normally appearing on an extended roll and abstract list may be retained in electronic data processing equipment and no physical document need be prepared ([§2601](#)). Notwithstanding any other provisions of the Revenue and Taxation Code, where no physical

document of the extended roll and abstract list is prepared, all entries required to be made on the extended roll and abstract list shall be entered into the electronic data processing records. The data must be stored so that it can be made readily available to the public in an understandable form ([§109.6](#)).

1263. DEPOSITS OF MONEY COLLECTED

All property tax revenue collected must be immediately deposited with the treasurer or in a bank selected by the treasurer ([§2507](#), [Gov. Code §53680](#)). Daily collections deposited in a bank must be paid into the county treasury at least once a month ([Gov. Code §27401](#)).

1264. LIEN PRIORITY

Every tax and public improvement assessment declared by law to be a lien on real property has priority over all other liens on the property, regardless of the time of his or her creation. This tax or assessment shall be given priority over matters including but not limited to, any recognizance, deed, judgment, debt, obligation, or responsibility with respect to which the subject real property may become charged or liable ([§2192.1](#)).

1265. DISTRIBUTION OF PROCEEDS FROM OTHER SALES

Upon the sale, led under legal process, of any real property on which ad valorem property taxes or assessments are due and unpaid, the proceeds from that sale shall be transmitted by the conducting officer to the officer responsible for the collection of those taxes and assessments. The proceeds must first be applied to payment of any necessary and incidental sale expenses, and the remaining sale proceeds are applied to the amount of unpaid ad valorem property taxes and assessments ([§2192.2](#)).

NOTE: Tax sales as a result of defaulted taxes, pursuant to Chapter 7 of the Revenue and Taxation Code, and sales pursuant to [Civil Code §2920-§2944.1](#), are exempted from this procedure ([§2192.2](#)).

1300-1306 Delinquency: General Information

1300. DELINQUENT TIMES AND DATES

The first installment becomes delinquent at 5 p.m. or the close of business, whichever is later, on December 10; the second installment becomes delinquent at 5 p.m. or the close of business, whichever is later, on April 10. For electronic payments, payment is accepted until midnight on April 10 and December 10 ([§2617-§2618](#), [§2704-§2705](#)).

1301. WEEKENDS AND HOLIDAYS

If either December 10 or April 10 falls on a Saturday, Sunday, or holiday, the time of delinquency is 5 p.m. or the close of business, whichever is later, on the next business day ([§2619](#), [§2705.5](#)). If the board of supervisors, by adoption of an ordinance or resolution, closes the county's offices for business prior to the time of delinquency on the "next business day" or for that whole day, that day shall be considered a legal holiday.

1302. PAYMENTS BY MAIL

For payments received by mail after the delinquency date, see manual section [1234](#).

1303. PENALTIES

If either the first or the second installment becomes delinquent, a penalty of 10% is attached to it ([§2617-§2618](#), [§2704-§2705](#)).

NOTE: If escape and/or penalty assessments are added to or included in the current year's assessment, the taxes are computed pursuant to the provisions of [§534](#). Interest pursuant to [§506](#) (if applicable) is added, and the entire amount is then combined into one sum.

1304. PENALTIES ON ADJUSTED OR "LATE" TAX BILLS

When a replacement, late, amended, or corrected tax bill is issued, the penalty imposed for delinquent taxes shall be waived by the auditor or the tax collector if payment is received within 30 days from the date the bill was mailed. This 30-day period applies only when a replacement or late tax bill is issued and there are fewer than 30 days remaining prior to the delinquency date or when the delinquency date has already passed. Under no circumstances shall an assessee have fewer than 30 days to pay without penalty ([§2610.5](#)).

For additional information, see manual section [1144](#).

1305. COST CHARGE

The cost charge is ten dollars for preparing the delinquent tax records and published delinquent list on each separate valuation on the secured roll of:

- Real property;
- Possessory interests; and
- Personal property cross-secured to real property.

This cost attaches even though the property appears on the roll due to a special assessment and no valuation is given ([§2621](#), [§2706](#)). Also, the cost shall be collected whether or not the county has incurred any actual expense related to the delinquency.

1306. DELINQUENT LIST

A delinquent list must be prepared by the tax collector after the second installment of taxes becomes delinquent. The delinquent list shows all information relating to any unpaid assessments ([§2624](#), [§2707](#)).

If an abstract list of delinquent taxes has been prepared and the delinquent list eliminated, the current assessment roll is designed to accommodate the added information normally carried in the delinquent roll ([§2851](#)).

1400-1408 Corrections: General Information

1400. GENERAL APPLICATION

Corrections of errors on the assessment roll, other than those involving either “value judgment” or the assessee’s failure to report information on a property statement, must be made within four years after the assessment was made ([§4831](#)). Similarly, errors in the assessor’s judgment in establishing base-year values may be only within four years of July 1 of the assessment year for which the base-year value was established ([§51.5\(b\)](#)).

1401. WHO MAY CORRECT THE ROLL

Corrections are made on the roll by the auditor ([§4834](#)).

The board of supervisors may also appoint any county officer other than the auditor to perform on its behalf, unless otherwise enforced upon the board of supervisors by the California State Constitution ([§4804](#)).

1402. CHANGE IN AMOUNT OF TAX

If a roll correction increases the amount of an assessment, the tax rate applied to the increase must be the rate for the year in which the error was made. The auditor shall enter the increased taxes on the roll prepared or being prepared for the current assessment year ([§4836.5](#)).

1403. TRANSFER OF PAYMENT BEFORE CHANGE OF TITLE

If the tax collector determines that a title insurance policy has not been issued, the tax collector must cancel the payment, whether mistakenly paid on or credited to unintended property, and transfer the payment to the intended property. For this transfer to occur, the assessee or his or her agent must demonstrate to the tax collector that the payment was intended for another property. This action must be taken before a title insurance policy is issued on the unintended property and before two years have elapsed since the date of the payment. If any person mistakenly paid an amount of tax and there is no property of that person in the county, the tax collector should, by being convinced upon substantial evidence that the payment was a mistake, cancel the payment and return the amount paid ([§4911](#)).

If the intended property is tax defaulted and transfer of the payment on the unintended property has been made pursuant to [§4911](#) and [§4911.1](#), the tax default on the intended property must then be canceled. See manual section [5500 et seq.](#)

1404. TRANSFER OF PAYMENT AFTER CHANGE OF TITLE

If, through no fault of the assessee or his or her agent, the payment of taxes has been mistakenly applied by the tax collector to other than the property intended, the tax collector must transfer the payment, in full, to the intended property and cancel the credit on the unintended property.

When the transfer is made, the person who owned the property immediately before issuance of a title insurance policy becomes personally liable for the transferred amount. This amount shall be transferred to the unsecured roll and collected as unsecured taxes ([§4911.1](#)).

If cancellation and transfer of the payment was made after the declaration of default, transfer the amount of the tax due on the unintended property, with penalties and costs added, pursuant to [§2922](#), to the unsecured roll ([§4913](#)).

If any person mistakenly paid an amount of tax and there is no property of that person in the county, the tax collector must cancel the payment and return the amount paid.

1405. FILING OF CANCELLATION VOUCHER

A verified cancellation voucher containing all details of the transaction must be signed and submitted by the assessee to the tax collector. Reference to the document must be entered on the roll opposite the unintended property and preserved in a permanent file ([§4912](#)).

The State Controller's Office sample form, *Transfer of Credit* ([SCO 1-03](#)), is recommended for use as the cancellation voucher.

1406. NOTICE AND HEARING

The assessee of the unintended property must be notified, by registered or certified mail, of the cancellation of the credit on the unintended property and of the proposed transfer to the intended property. The assessee of the unintended property then becomes liable for payment of the amount transferred to the unsecured roll ([§4913](#)).

The assessee of the unintended property may, within 10 days after the mailing of the cancellation notice, demand a hearing before the board of supervisors regarding any dispute with the cancellation. A copy of the written demand must be filed with the tax collector ([§4914](#)).

1407. PAYMENT OF BALANCE DUE

If the payment to be transferred to the intended property is less than the amount due, the balance of the amount due must be paid prior to the transfer ([§4915](#)).

1408. REFUND OF EXCESS

If the amount transferred exceeds the amount due, the excess should be refunded. If the refund is completed within 90 days after the date of payment, it may be made by the tax collector ([§4916](#)). Otherwise, the refund must be processed within four years after the payment date by either the tax collector or the auditor ([§5097.2](#)).

1410-1414 Corrections: Errors

1410. ERRORS ON THE ROLL

Pursuant to [§4831](#), incorrect entries on the roll may be corrected at any time after the roll is delivered to the auditor and within four years after the assessment being corrected was originally made. This section does not apply to:

- Errors involving the exercise of value judgments; and

- Escape assessments caused by the assessee's failure to report the information required by [§441-§470](#).

NOTE: If an error is discovered as a result of an audit of an assessee's books and records, that error may be corrected at any time within six months after completion of the audit.

Any increase in the amount of taxes due created by the correction cannot constitute a lien or charge on the real property if the property has been sold or encumbered for value prior to enrollment of the correction ([§4836.5](#)). These taxes are transferred to the unsecured roll, and they are collected in the same manner and are subject to the same penalties as other taxes transferred under provisions of [§5090](#) ([§4831\(d\)](#)).

Assessments based on erroneous information supplied by the assessee may be corrected within the time limitation imposed by [§532-§532.1](#) ([§4831.5](#)). Most corrections must be made within four years from July 1 of the assessment year in which a problem occurs. An escape involving fraud or willful concealment may be corrected within six years after July 1 of the year in which the escape occurs. When a lien on real property on the secured roll is improperly or illegally, it can be canceled and then re-entered, either as cross-secured to other real property or on the unsecured roll, is provided in [§4840](#).

1411. AUDITOR ERRORS

When a tax rate has been correctly set by the board of supervisors but the auditor makes an error using an incorrect rate in extending the tax for a certain tax-rate area, then, if the tax bills have not been issued, a correction should be made on the roll under authority of [§4832](#).

1412. TAX COLLECTOR ERRORS

Clerical errors made in preparing the abstract may be corrected by the tax collector at any time before the property has been sold to a purchaser in a Chapter 7 or a Chapter 8 sale ([§4834.5](#)).

See manual section [1522](#) regarding timely payments not credited on the roll before the auditor extends the penalties and costs.

1413. ERRORS ON THE STATE DEPARTMENT OF TAX AND FEE ADMINISTRATION'S ROLL

Errors on the State Department of Tax and Fee Administration's roll, subject to the limitations set forth in [§4876-§4876.5](#), may be corrected within four years after the assessment was made or within the period for which a waiver was given, pursuant to [§868](#). Upon receipt of the statement of correction from the State Department of Tax and Fee Administration ([§4879](#)), the auditor must enter the correction on the roll and adjust the account with the tax collector accordingly ([§4880](#)).

1414. ERRORS NOT OTHERWISE CORRECTABLE

For errors that cannot be corrected or that are not corrected within the time limits provided by law, see manual section [1521](#).

1420-1423 Corrections: Disaster Relief

1420. APPLICATION TO ASSESSOR FOR REASSESSMENT AND TAX DEFERRAL

An assessee may apply to the county assessor to defer payment of the property tax installment for an eligible property's current taxes at the time a claim for reassessment is filed ([§194.1](#)). Eligible property as defined in [§194](#).

Note: Property taxes paid through impound accounts are not eligible for a tax deferral ([§194.1\(d\)](#)).

1421. TAX DEFERMENT

Property taxes eligible for the tax deferral are those due no later than the date immediately following the disaster which caused substantial disaster damage ([§194\(f\)](#), [§194.1\(a\)](#)).

1422. PAYMENT FOLLOWING REASSESSMENT

If the property is reassessed and a corrected bill has been sent to the property owner, deferred taxes on the corrected bill are due and payable as follows ([§194.1\(b\)\(1\)](#)):

- December 10 for the first installment or within 30 days after the date the corrected bill is mailed or electronically transmitted to the owner, whichever is later.
- April 10 for the second installment or within 30 days after the date the corrected bill is mailed or electronically transmitted to the property owner, whichever is later.

1423. PAYMENT FOLLOWING DENIAL

If the assessor determines that the property is not eligible to be reassessed and the property owner has been notified by the assessor of his or her decision, the taxes deferred for the current year taxes are due and payable as follows ([§194.1\(b\)\(2\)](#)):

- December 10 if the first installment of taxes was deferred or within 30 days from the latter of the mailing date printed on the assessor's notice or the postmark date on the assessor's notice, whichever is later
- April 10 if the second installment of taxes was deferred or within 30 days from the latter of the mailing date printed on the assessor's notice or the postmark date on the assessor's notice, whichever is later.

If deferred taxes are not paid timely, the taxes become delinquent and are subject to penalties ([§194.1\(b\)\(2\)](#), [§2610.5](#)).

1500-1501 Cancellations: General Information

1500. FORM AND CONTENTS

Each county may adopt its own multipurpose form. This form should combine the petition for cancellation and the order of the board of supervisors and set forth the reasons for cancellation, the description of the property, and various record entries to be canceled.

1501. COPIES

Copies of the petition for cancellation should be furnished to the board of supervisors, the auditor, the tax collector, and, if requested, the assessor.

1510-1511 Cancellations: Posting Rolls

1510. LOCAL ROLL

Cancellations are entered on the roll by the auditor ([§4986\(a\)](#)). If the cancellation affects city taxes, consent of the city attorney is required ([§4986.2](#)).

1511. THE STATE DEPARTMENT OF TAX AND FEE ADMINISTRATION'S ROLL

Assessments made by the State Department of Tax and Fee Administration that are double, erroneous or illegal, or for improvements that did not exist on the lien date, may be canceled by the board of supervisors ([§5011](#)). Such cancellations are entered on the roll by the auditor upon receipt of a statement of cancellation from the board of supervisors. The auditor must file the statement as a public record and adjust the charge to the tax collector ([§5013-§5014](#)).

1520-1524 Cancellations: Types of Cancellations

1520. ERRONEOUS OR ILLEGAL ASSESSMENTS

All or any portion of any uncollected tax, penalty, or cost that is erroneously or illegally levied or charged may be canceled under [§4986\(a\)](#).

EXAMPLES: An erroneous assessment is an insufficient description or a levy on improvements that did not exist on the lien date. An assessment against tax-exempt land is an illegal assessment, where property is clearly all tax-exempt ([Star Kist Foods, Inc. v. Quinn, 54 Cal. 2d 507](#)). Where classification of the taxable and exempt property within an assessment is questioned, the assessee may be required to petition the county board of equalization in order to have the taxable and exempt property segregated ([San Francisco v. San Mateo County, 36 Cal. 2d 196, 201](#)).

1521. UNENFORCEABLE TAX LIEN

If the tax collector discovers that collection of a tax cannot be enforced because of an error in description, assessment, equalization, levy, or any other proceeding, a request to cancel the tax should be made to the board of supervisors ([§3438](#), [§4946](#)).

If the board of supervisors determines that the tax should be enforced, they must order the assessor to place the uncollected taxes on the next roll. The procedure for rescinding the cancellation is provided in [§4946-§4948](#).

1522. PENALTIES AND COST

The tax collector or the auditor may cancel any uncollected delinquent penalty, redemption penalty, cost, or other charge that resulted from tax delinquency ([§4985.2](#)).

The tax collector or the auditor can cancel penalties and costs if circumstances beyond the assessee's control prevented him or her from making a timely payment.

The delinquent penalty or cost may be canceled only under the following circumstances:

- The principal payment is made no later than June 30 of the fourth fiscal year following the fiscal year in which the tax became delinquent;
- The assessee makes an inadvertent error in the amount of payment, provided the principal payment for the proper amount of the tax due is made within ten days after the notice of shortage is mailed by the tax collector ([§4985.2](#)); or
- The cancellation is ordered by a local, state, or federal court.

NOTE: When the assessee is making installment payments in accordance with [§4837.5](#), then [§4985.2](#) does not apply.

The Federal Deposit Insurance Corporation (FDIC) and the Resolution Trust Corporation (RTC) will neither pay, nor recognize liens for, any penalties, fines, or similar claims imposed for the non-payment of taxes, whether arising before or after acquisition of the subject property ([Federal Deposit Insurance Act, 12 U.S.C. 1825, Section 15, \(B\)\(3\)](#)).

1523. ASSESSMENT APPEAL

In the case of cancellations made to the roll pursuant to [§1646.1](#), where an assessee has failed to pay an amount of tax computed upon assessed value that is the subject of a pending assessment appeal, the relief from penalties shall apply only to the difference between the board of supervisors' final determination of value and the value on the assessment roll for the fiscal year covered by the application ([§4985.3\(a\)](#)).

If an assessee will be impacted by the penalty provisions of [§4985.3](#), the county board of supervisors will send a notice, pursuant to [§4833.1](#), of the requirements or present the notice to the assessee upon filing an application for assessment reduction with the county board.

For any assessee who has paid at least 80% of the amount of tax finally determined due by the board of supervisors, within 60 days of mailing or presentation of the notice prescribed, the tax collector shall accept payment of the balance of the tax due without penalties or interest ([§4985.3\(c\)](#)).

This procedure shall apply only to those properties for which an application for assessment reduction is filed or pending before the county board of supervisors after the effective date of the act adding this section ([§4985.3\(d\)](#)).

This procedure outlined in [§4833.1](#) will become operative only if the county board of supervisors, with the approval of the county's tax collector and the county's auditor, adopts a resolution or ordinance approving such procedure ([§4985.3\(e\)](#)).

1524. AMOUNT TOO SMALL

On the recommendation of the tax collector, the auditor may cancel any tax bill if the total amount is so small that it does not justify the cost of collection ([§4986.8](#)).

1530-1532 Cancellations: Double Assessments

1530. TO SAME PARTY

Upon discovery that a property is assessed by the same taxing agency more than once to the same person, and provided all charges justly due on one of the assessments have been paid, the other assessment may be canceled by the auditor on order from the board of supervisors ([§4990](#)).

1531. TWO DIFFERENT PARTIES

When property has been assessed to two different parties, the incorrect assessment shall be canceled ([§4986](#)).

1532. BY DIFFERENT COUNTIES

If the same parcel is assessed in two counties, and each county claims its assessment to be valid, the owner may bring a court action to compel the counties to litigate his or her claims ([§4988](#)).

1540-1547 Cancellations: Acquisition by Public Entity

1540. NEGOTIATED PURCHASE

If property is acquired by a public entity through a negotiated purchase after the lien date but before July 1, the taxes for the fiscal year beginning July 1 shall be canceled ([§5085](#)).

If the purchase is negotiated after July 1, the person who sells the property to the public entity is required to pay the prorated share of the current taxes, penalties, and costs accruing from July 1 to the day before acquisition by the public entity, or the date of actual possession, whichever is earlier ([§5086](#)).

The prorated portion owing is transferred to the unsecured roll, and demand for payment is made to the former owner. The public entity's prorated portion remaining on the secured roll is canceled (manual section [1543](#)).

If the amount of taxes or special assessment liens is unknown, the portion of the current taxes attributable to the period of the fiscal year that ends on the day before the date of apportionment shall be determined by the

auditor. This is done on a prorated basis of the previous year's taxes and paid to the tax collector. The auditor must adjust the assessment roll and the tax charge accordingly ([§5086\(c\)](#)).

NOTE: The board of supervisors may prescribe that any uncollected tax, penalty, or cost subject to transfer from the secured roll or abstract pursuant to the provisions of [§5090](#), and amounting to less than \$20, shall be canceled rather than transferred to the unsecured roll ([§5089](#)).

1541. EMINENT DOMAIN

The proportionate share of current and delinquent taxes, penalties, and costs that have accrued against the property prorated to the date of possession by a public entity, shall be certified to the court by the tax collector ([Code Civ. Proc. §1260.250\(c\)\(3\)](#)).

The court will then enter an order that the amounts so certified should be paid to the tax collector from the award ([Code Civ. Proc. §1260.250\(b\)\(6\)\(e\)](#)). The portion of such taxes, penalties, and costs pertaining to the part of the fiscal year that begins on the date that the property was acquired by the public entity, shall be canceled ([§5086\(b\)](#)).

NOTE: Special assessments are not mentioned in [§4986](#) because, under [California State Constitution, Article XIII, section 3](#), public agencies are not exempt from special assessments ([Turlock Irrigation District v. Williams, 76 Cal. 360](#)). Pre-existing special assessment liens against properties acquired by public agencies are not subject to outright cancellation ([Redevelopment Agency of City of Fresno v. Penzer, 8 Cal. App. 3d 417 \[87 Cal. Rptr. 183\]](#)).

1542. ALTERNATIVE

The board of supervisors may direct that all delinquent taxes, penalties and costs, and a prorated share of current taxes, penalties, and costs accrued while on the secured roll, computed in accordance with [§5081-§5091](#), shall be transferred to the unsecured roll and collected pursuant to [§2921.5](#). Amounts transferred shall continue to be subject to delinquent penalties until the amounts are paid, and the total amount is collectible from either the person from whom the property was acquired or the public entity that acquired the property. If such transfer is made or has been made, the court will not make any award of taxes payable to the tax collector in the eminent domain proceedings ([§5087-§5088, §5090](#)). Proration of current taxes shall be based upon the date specified in the [Code of Civil Procedure section 1260.250\(c\)\(3\)](#).

1543. PARTIAL ACQUISITION

If a public entity does not acquire title to the improvements and/or personal property, the full amount of tax due on either, or both, is transferred to the unsecured roll, unless the assessor determines that a remaining parcel provides sufficient security.

If only a part of the land in an assessment is acquired, the former owner's prorated share of taxes, penalties and costs on the portion acquired is transferred to the unsecured roll. The remainder of the taxes should be canceled, as the remainder is not a lien against the property not taken.

NOTE: Any tax, penalty, or cost totaling less than \$20, with respect to a given fiscal year, shall be canceled rather than transferred to the unsecured roll ([§5089](#)).

1545. FORECLOSURE BY PUBLIC ENTITY

According to federal law ([15 U.S. Code, Ch. 14a, §646](#) and [Internal Rev. Code §6323\(b\)](#)), liens held by the Small Business Administration (SBA) or the Internal Revenue Service (IRS) are subordinate to a county's lien for property taxes. The priority of a county's property tax lien on real property survives foreclosure by the SBA or the IRS and can be enforced against the property after it is acquired by the SBA or the IRS ([§2192.1](#), [United States v. California-Plywood, 527 Fed. Rptr. 2d 687 \(1975\)](#), [Garcia v. County of Santa Clara, 87 Cal. App. 3d 319](#)).

NOTE: This change of ownership is not one that empowers the county to transfer taxes to the unsecured roll ([§5090](#)). As the property is still subject to sale for delinquent taxes, the former assessee is not personally liable for secured taxes (manual sections [1540-1541](#)).

1546. STRIPS AND ROADS

Strips, lots, or parcels identified on either a filed or recorded subdivision map or a record of survey map as streets or roads dedicated to public use are tax-exempt if they are accepted by the board of supervisors, or accepted through prescription, such as long-continued public use.

An assessment of a public road can be canceled as illegal ([Gaspard v. Edwin M. LeBaron, Inc., 107 Cal. App. 2d 356](#)).

Any of these assessments discovered by the tax collector should be brought to the assessor's attention.

1547. ASSESSMENT BOND FORECLOSURE

Taxes may be cancelled on property acquired after the lien date by a city through foreclosure under the Improvement Bond Act of 1915 or otherwise acquired in lieu of foreclosure by city council resolution ([§4986.3](#)).

This section does not apply if the property has become tax defaulted property subject to the tax collector's power of sale prior to foreclosure. See annotations following [§3712](#) regarding the effect of deeds from two agencies.

1600-1602 Refunds: General Requirements

1600. BACKGROUND

When more than four years have elapsed after an erroneous or illegal collection, an assessee may not originate a petition for refund unless he or she has first been notified of the overpayment by the county, in accordance with [§2635](#), or unless the statute of limitations has been extended by mutual written agreement between the assessee and the assessor ([§532.1](#), [§5097](#))

1601. BY TAX COLLECTOR OR AUDITOR

Any taxes paid before or after delinquency may be refunded by either the tax collector or the auditor within four years after the date of payment if ([§5097.2](#)):

- The taxes have been paid more than once;

- The amount paid exceeds the amount due as shown on the roll by an amount greater than \$10;
- The amount paid exceeds the amount due as the result of corrections or cancellations ordered by the board of supervisors after such taxes were paid;
- In any other case, where a claim is made under penalty of perjury and is for an amount less than \$10; or
- The amount paid exceeds the amount due on the property because of a reduction attributable to a hearing before an assessment appeals board or an assessment-hearing officer.

All other refunds are made after approval by the board of supervisors ([§5096-§5097](#)).

Refunds may be applied to any delinquent taxes due on the same property for which the same assessee, or his or her agent, is liable ([§2635.5](#)).

1602. NOTICE OF REFUND DUE

When the amount of taxes paid exceeds the amount due by more than ten dollars (\$10), the tax collector shall send a notice of the overpayment to the assessee, unless a refund has been made earlier without a claim form by the tax collector or the auditor ([§2635](#), manual section [1620](#)).

The notice shall be mailed to the assessee's last known address. It shall state the amount of the overpayment and the fact that a claim for the refund may be filed pursuant to [§5096](#). No notice need be mailed by the tax collector if the amount of the refund due does not exceed \$10 ([§2635](#)). See State Controller's Office sample form, *Notice of Refund Due* ([SCO 1-05](#)).

1610-1618 Refunds: Types Permissible

1610. GENERAL APPLICATION

Taxes paid before or after delinquency, including penalties and costs ([§5107](#)), shall be refunded if they have been ([§5096](#)):

- Paid more than once;
- Erroneously or illegally collected;
- Illegally assessed or levied;
- Paid on an assessment in excess of the ratio of assessed value to the full value of the property, by reason of the assessor's clerical error or upon erroneous information supplied by the assessee;
- Paid on an assessment of improvements that did not exist on the lien date;
- Paid on an assessment in excess of the equalized value as determined pursuant to [§1609.8](#); or
- Paid on an assessment in excess of the value of the property as determined by the assessor pursuant to [§469](#).

If a penalty was added to the roll because the assessee failed to file an ownership statement within the prescribed time with the assessor, it may be abated by the board of supervisors under certain conditions. If the penalty is abated, it shall be canceled or refunded in the same manner as an amount erroneously charged or collected ([§482-§483](#)).

NOTE: The intent of [§5096](#) is to prevent the inequitable retention of money that has been improperly collected. However, taxes that were mistakenly paid on wrong property, not because of any error in the levy or collection process, are not erroneously collected. In such instances, taxes are "erroneously paid" by a volunteer, and a

refund is not required under these circumstances ([§5096](#), [Sierra Investment Corp. v. County of Sacramento \(1967\) 252 Cal. 2d 339, 343-344 \[60 Cal. Rptr. 519, 522\]](#)).

1611. REFUND WITHOUT FILING CLAIM

When a person has any taxable interest in land owned by the state or federal government and his or her liability for such taxes is affected due to a misfortune or calamity, there may be a reassessment of the property in its damaged condition. Any tax paid in excess of the total tax due after reassessment shall be refunded to the assessee, pursuant to [§5096-§5170](#) ([§170](#)).

NOTE: The county board of supervisors must enact an ordinance to make [§170](#) operative.

1612. APPLICATION OF REFUNDS

The tax collector may apply any refund due an assessee, or the assessee's agent, to any delinquent taxes due on the same property for which the assessee, or his or her agent, is liable ([§2635.5](#)).

1613. APPLICATION OF REFUND TO FUTURE TAX LIABILITIES

An assessee may enter into an agreement with the county to offset his or her refund amount against future tax liabilities. Interest accrues on the refund amount until it has been fully offset ([§5103](#)).

1614. FAILURE TO FILE FOR EXEMPTION

Failure to comply with exemption requirements, including timely filing, constitutes a waiver of tax-exempt status ([§260](#)). However, [§270-§279.5](#) provides that, under specified circumstances, failure to comply may be excused and the assessment of otherwise tax-exempt property may be canceled (or a tax may be partially canceled and any tax paid refunded upon timely application).

1615. NEGOTIATED PURCHASE - PUBLIC AGENCY

If current taxes have been paid on property acquired through negotiation by a public agency after commencement of the fiscal year, the pro rata share must be refunded to the person who paid the tax if it is deemed erroneously collected. This is unless such person was reimbursed for the tax by the acquiring agency. If the pro rata share is unpaid, it would be subject to cancellation under the [Code of Civil Procedure section 1268.440](#) ([§5096.7](#), manual section [1540](#)).

1616. EMINENT DOMAIN - PUBLIC AGENCY

If current taxes have been paid on property acquired after the lien date by a public agency under eminent domain, the pro rata share shall be refunded to the appropriate party if it is deemed erroneously collected. If the pro rata share is unpaid, it would be subject to cancellation under [§5086](#) ([§5096.7](#), manual section [1541](#)).

1617. DISASTER RELIEF REFUNDS

When the assessor, pursuant to [§170-§172](#), reduces values because of misfortune or calamity, the auditor enters the reassessed values on the roll. The auditor determines the amount due as a result of the correction to the roll. The excess is refunded, pursuant to [§5097.2](#).

The assessee need not file a claim in order to receive the refund.

1618. REFUND OF CITY AND DISTRICT TAXES

The refund may include taxes collected for a city or revenue district ([§5099](#)).

1620-1626 Refunds: Procedural Requirements to Initiate

1620. CLAIM REQUIRED

Generally, a refund may be made only upon a verified claim filed by the person who paid the tax, or his or her guardian, executor, or administrator ([§5097](#)).

EXCEPTIONS: The county board of supervisors may adopt a resolution or ordinance that allows for the refund of taxes or assessments to be paid to the assessee of that property or to the latest recorded owner of that property, as shown on the tax roll, without a claim for refund filed if both of the following conditions are met ([§5105](#)):

- There has been no transfer of the property during or since the fiscal year for which the taxes subject to refund were levied.
- The amount of the refund is less than five thousand dollars (\$5,000).

Additionally, the auditor or the tax collector can make a refund within four years after the date of the payment without a claim being filed, under the following conditions ([§5097.2](#)):

- The amount was paid more than once;
- The amount paid exceeds the amount due on the property as shown on the roll by an amount greater than \$10;
- The amount paid exceeds the amount due on the property as a result of corrections to the roll or cancellations ordered by the board of supervisors after such taxes were paid;
- In any other case where the claim for refund is made under penalty of perjury and is for an amount less than \$10, if written consent of the county legal advisor is obtained for the refund; or
- The amount paid exceeds the amount due on the property as a result of a reduction attributable to a hearing before an assessment appeals board or an assessment-hearing officer.

The claim must be filed for both secured and unsecured taxes in order to comply with necessary administrative procedures before filing a court action ([§5140](#), manual sections [1630](#), [2171](#), and [2175](#)).

NOTE: The law requires a verification on all claims for refund before a refund can be made ([§5097\(a\)\(1\)](#)). See the State Controller’s Office sample form, *Claim Refund of Taxes* ([SCO 1-06](#)).

1621. CLAIM FOR REFUND BY MAIL

A claim for refund may be submitted by mail. The terms and conditions under which such mailed applications may be accepted are set forth in [§2513](#).

1622. CONTENTS OF CLAIM

The claim shall be in writing, specifying whether the whole assessment or part of the assessment is claimed to be void. If the claim is for part of an assessment, it must be identified. The claimant must also specify the grounds on which the claim is founded ([§5097.02](#)).

1623. IMPOUNDING OF FUNDS

When a claim for refund of taxes is filed, the amount of tax computed on the portions of the assessment not in dispute shall not be impounded ([§5097.03](#)).

1624. TIME LIMITATIONS

If a verified, written claim for refund is filed, the following time frames apply (manual section [1620](#)):

- Except as provided in [§5097\(a\)\(3\)](#), the claim for refund must be filed four years after the making of the original payment or within one of the following, whichever is later ([§5097\(a\)\(2\)](#)):
 - Within one year after the mailing of the notice as prescribed in ([§2635](#));
 - The period agreed upon by the assessor and the assessee ([§532.1](#)); or
 - Within 60 days of the date of the notice by the auditor ([§4836\(a\)](#)).
- An application for a reduction of an assessment filed under [§1603](#) constitutes a sufficient claim for refund if the applicant states that the claim is for a refund. If the application does not include a claim for refund, the applicant can file a separate claim for refund, pursuant to [§1603-§1604](#) within the time frame specified in [§5097\(a\)\(3\)](#) ([§5097\(b\)](#)).
- If an application for equalization of an escape assessment is filed pursuant to [§1603](#) a claim may be filed on any taxes resulting from the escape assessment or the original assessment to which the escape relates within the period provided in [§5097\(a\)\(3\)](#) ([§5097\(c\)](#)).

1625. COMPUTATION OF AMOUNT

Penalties and costs refundable shall be computed only on the tax refunded ([§5106](#)).

1626. 1915 ACT BOND ASSESSMENTS

The Improvement Bond Act of 1915 provides, "Taxpayers shall have the same right to pay assessments together with interest, and any penalties thereon, under protest as they have to pay general city taxes under protest, but his or her written protest must accompany such payment" ([Sts. & Hwy. Code §8684](#)). Former Revenue & Taxation Code section 5138, which was repealed, provided for such an action after payment under protest.

With the repeal of the protest provision, [§5140-§5149.5](#) provides for the filing of an action against a city only in superior court, but not in the small claims division, if the city council has refused to refund on a claim filed pursuant to [§5096-§5107](#) (manual sections [1235](#) and [1601](#)).

NOTE: Once an apportionment and distribution have been made by a county that collects 1915 Act bond assessments on behalf of a city, any claim for refund must be filed with the city.

1630-1632 Refunds: Alternative Procedures

1630. COURT ACTION

If a claim, in whole or in part, is rejected by the board of supervisors, either the person who paid the taxes, his or her guardian, executor or administrator may, within six months after the rejection, bring an action only in the superior court to recover the taxes. He or she may not bring an action in the small claims division of the superior court ([§5140-§5141](#)).

An application for the reduction of an assessment, which is also intended to constitute a claim for refund pursuant to [§5097](#), shall be deemed denied on the date the final installment of the taxes becomes delinquent or on the date the county board of equalization makes its final determination on the application, whichever is later ([§5141\(c\)](#)).

Ordinarily, an assessee must exhaust all of the available administrative remedies before resorting to action in court, but an exception is made when the assessment has no legal effect. Therefore, if the assessee makes payment under protest in this situation, he or she may immediately resort to a court action ([Exchange Bank v. Sonoma County, App. 131 Cal. Rptr. 216](#)).

If the plaintiff fails to have the defendants served with a summons within one year after the action is commenced in superior court, the court must dismiss the proceedings. The action may be extended if the parties have filed a stipulation in writing or the party against whom the action is prosecuted has made a general appearance in the action ([§5147](#)).

If the board of supervisors fails to act on the claim for a period exceeding six months following the filing of the claim, the failure amounts to a rejection and authorizes the assessee to commence an action to recover the amount of the claim ([Otis v. San Francisco, 170 Cal. 98](#)).

The plaintiff in any action to recover taxes must be the person who paid the taxes or his or her executor, administrator, or guardian. The court is prohibited from rendering judgment for any other plaintiff ([§5140](#)).

1631. UNCLAIMED REFUNDABLE AMOUNTS

After the time limitation for filing a claim for refund has expired under [§5097](#) (manual sections [1624](#) and [5611](#)), any unclaimed amounts that are otherwise refundable may be transferred to the county General Fund on order of the County Board of Supervisors ([§5102](#)).

NOTE: Certain circumstances permit refunds to be issued without a claim being filed. See [§5105](#) and manual section [5610](#)

1632. INTEREST ON REFUNDS

In any action in which the recovery of a penalty assessed, pursuant to [§830\(c\)\(1\)\(2\)\(3\)](#) (failure to file property statements), is allowed by the court, the plaintiff shall be entitled to interest on the penalties for which recovery is allowed. This interest shall be calculated at the applicable rate or rates in effect and payable on a refund of tax, as provided in [§5151](#).

This interest shall be payable from the date of filing of the claim for refund, but no earlier than the date of payment of the penalty or installments to be refunded, to the date of entry of judgment. This accrued interest shall be included in the judgment.

Interest at the greater of 3% per annum or the county pool apportioned rate shall be paid on all refunds of ten dollars or more if the assessee has filed a claim for refund within 30 days after receiving notice of overpayment, pursuant to [§2635](#). The interest must be paid on amounts refunded to an assessee for any reason. When interest is due to the assessee, it must be computed pursuant to [§5151](#).

1700-1706 Escape Assessments: Procedural Information

1700. GENERAL APPLICATION

Property escaping assessment on the local assessment roll shall be assessed by the assessor on discovery at its value on the lien date for the year for which it escaped assessment ([§531](#)).

1701. TAX-DEEDED TO TAXING AGENCY

If property has not been locally assessed for any year because such property had been tax-deeded to a taxing agency, the property shall be deemed to have escaped assessment for such year.

Owners of property are prevented, as described in [§531.7](#), from avoiding taxes by allowing his or her property to become tax-deeded to a taxing agency other than the State, such as an irrigation district, and subsequently regaining title by redemption, free of intervening taxes that could have been levied on the county roll but for the tax-exempt status. This provision is applicable if:

- The property has not been declared to be tax defaulted for delinquent taxes;
- The property has been redeemed from the tax sale and deeded to the taxing agency; or
- The tax deed to the taxing agency has been held to be invalid and has been canceled, provided that the statute of limitations in [§532](#) does not apply.

1702. EXEMPTIONS INCORRECTLY ALLOWED

If an audit reveals that any type of exemption has been incorrectly allowed, an escape assessment in the amount of the exemption shall be made ([§531.1](#)).

1703. ENTRY ON ROLL

Escape assessments are entered on the roll for the current year. If this is not the roll for the assessment year in which the property escaped assessment, the entry must be followed with “Escape assessment for the year 20__” ([§533](#)).

NOTE: “Assessment year” is defined as covering the period beginning with the lien date and terminating immediately prior to the next succeeding lien date ([§118](#)).

1704. EFFECT OF ENROLLMENT OF ESCAPE ASSESSMENT - NOTICE TO ASSESSEE

Escaped property is treated like property regularly assessed on the roll on which it is entered ([§534\(a\)](#)). This means it is entitled to and subject to county equalization, pursuant to the provisions of [§1605](#).

No such assessment shall be effective for any purpose, such as a review, equalization, or adjustment by the county board of equalization, until the assessee has been notified in person or by U. S. Mail.

Receipt by the assessee of a tax bill based on the escape assessment satisfies the requirements of notice ([§534\(3\)](#), [§1605\(e\)](#)).

NOTE: When an increase in property tax occurs due to an escape assessment, the assessee has the option of paying the additional tax over a four-year period ([§4837.5\(a\)](#), manual sections [1740-1741](#)).

1705. TAX COMPUTATION: INTEREST CHARGEABLE

When an escape assessment has been made, taxes for it are computed by multiplying the value by the tax rate to which the property would have been subject if it had appeared on the roll in the year when it should have been lawfully assessed ([§506](#), [§531](#), [§2905](#)).

NOTE: The delinquent penalty should not be added to an escape assessment when it is enrolled ([§2617-§2618](#), [§2704-§2705](#), [2922](#)). However, the assessor must add a 25% penalty to some escapes for willful concealment or a 75% penalty for fraud, omission, or collusion. The interest under [§506](#) also applies to the 25% penalty. When calculating interest for secured escape assessments, the tax must be divided so that interest is applied on half of the amount from December 10 and on the other half from April 10.

1706. ADJUSTMENT OF CHARGES

Charges added to the roll after it has been delivered to the tax collector require the auditor to make the necessary changes on the account of the tax collector ([§2604](#)).

1710-1711 Escape Assessments: Time Limitations

1710. NON-PENAL ESCAPE ASSESSMENTS

Non-penal escape assessments must be made within four years after July 1 of the assessment year in which the property escaped taxation or was under-assessed ([§532](#)).

1711. PENAL ESCAPE ASSESSMENTS

Any assessment to which the 25% penalty, provided for in [§504](#), must be added within six years after July 1 of the assessment year in which the property escaped assessment or was under-assessed ([§532](#)).

If any taxable tangible property escapes assessment or is under-assessed because of fraud, omission, or collusion, the assessor shall add to the assessment a penalty of 75% of the additional assessed value so assessed. This does not apply to assessments that are placed on the current roll prior to the time it was originally completed and published ([§503](#)).

1720-1724 Escape Assessments: Real Property

1720. LIEN CREATED

Escape assessments on real property are enrolled on the secured assessment roll and create or impose a lien or charge on such real property ([§531.2](#)).

EXCEPTION: The escape assessment does not create or impose a lien or charge on such real property if, subsequent to July 1 of the year of escape and prior to the date of entry of the escape assessment on the secured roll, the property has either:

- Been transferred or conveyed to a bona fide purchaser for value; or
- Become subject to a lien of a bona fide encumbrance for value.

NOTE: If a condition exists as described above, the escape assessment is entered on the unsecured roll in the name of the person who would have been the assessee in the year in which the property escaped assessment. Thereafter, it is treated and collected like other taxes on the unsecured roll. The tax rate applicable is the secured tax rate of the year in which the property escaped assessment ([§531.2](#)).

From the date of entry on the unsecured roll, a certificate of lien may be recorded against the assessee who is liable for the taxes, including any penalties and costs, in accordance with [§2191.3](#). See the State Controller's Office sample form, *Certificate of Lien for Unsecured Property Taxes* ([SCO 2-02](#)), for an example. From the date of recording, such a certificate of lien attaches against any personal or real property owned by such person in the county or counties where the certificate is recorded ([§2191.4](#), manual section [2340](#)).

For information regarding satisfaction and release of the lien, see manual section [2385](#).

The tax collector may evidence the release or subordination by recording a written certificate to that effect with the county recorder. See the State Controller's Office sample form, *Release of Certificate of Lien* ([SCO 2-03](#)).

1721. PENAL ASSESSMENTS

If any person escapes assessment of real property through either a fraudulent act or omission, by collusion with the assessor, or by an exemption incorrectly allowed upon the willful submission of erroneous or incomplete information, the property shall be assessed by the assessor ([§504](#)). The assessor must impose a penalty assessment equal to 25% of the value of the property that escaped assessment if an assessee willfully conceals, fails to disclose, removes, transfers or misrepresents tangible property ([§504](#)). The assessor must impose a penalty assessment equal to 75% of the value of the property that escaped assessment if the assessee is found responsible for any fraudulent acts on taxable property ([§503](#), [531.1](#)).

The assessment and the penalty are entered on the secured roll by the assessor, pursuant to rules prescribed by the State Department of Tax and Fee Administration ([§505](#)).

The tax and the added interest are computed pursuant to the formulas provided in [§506](#) (manual section [1705](#)).

1722. PROBATE PROCEEDINGS

When an owner of real property dies, the resulting change in ownership requires revaluation, except when the property is not subject to a change in ownership because it transfers to a surviving spouse, parent, or child. When there has been a delay in the assessor's discovery of an individual's death, the assessor can levy an escape assessment against the heirs.

The first notice the assessor may receive occurs when an individual becomes the owner of a property as an heir prior to the lien date but no change in ownership statement is filed.

1723. ESCAPE ENTRY ON THE SECURED ROLL

When the sale of such property occurs after July 1, an entry is made on the secured roll and the escape assessment is transferred to the unsecured roll in the name of the person who would have been the assessee or heir on the lien date ([§531.2\(a-b\)](#)).

The heir (the assessee on the lien date) is liable for the escape assessment on the regular roll. Taxes resulting from escape assessments shall be prorated only if the board of supervisors has adopted a resolution approving proration ([§531.2\(c\)\(1\)](#)).

Proration shall be between the following entities ([§531.2\(c\)\(2\)](#)):

- The person who would have been the assessee if the change in ownership had not occurred; and
- The person who purchased the property.

If the real property has been transferred or conveyed to a bona fide purchaser for value more than once during the year of escape or assessment, each owner of record during that period is liable for a pro rata share of taxes based on the length of time each was the owner of record of the real property ([§531.2\(c\)\(3\)](#)).

When the assessor has identified the fact and amount of the escape assessment, the assessor shall identify the owners of record during the year of escape assessment. Once the owners of record are identified, the assessor shall determine the date of ownership for each owner ([§531.2\(c\)\(4\)](#)).

The auditor shall compute the respective prorated shares of taxes for each owner of record. The share of taxes of the current owner of the real property shall be placed on the secured roll as a lien on the parcel for which the escaped assessment was discovered ([§531.2\(c\)\(5\)](#)).

1724. CHANGE IN OWNERSHIP STATEMENT

If a change in ownership statement is filed in a timely manner, the assessor must reassess the property and process the assessment prior to the sale of the property. It is the responsibility of the administrator or executor of the decedent's estate to file a change of ownership statement at the time the inventory and appraisal is filed with the court ([§480](#)).

1730-1731 Escape Assessments: Personal Property

1730. LIEN CREATED

Escape assessments on personal property are enrolled by the assessor on either the secured or the unsecured roll ([§109](#), [§531](#), manual section [1703](#)).

1731. PENAL ASSESSMENTS

If personal property escapes assessment through a willful act or omission on the part of the assessee, it is subject to a penalty equal to 25% of the value of the property that escaped assessment. If personal property escapes assessment due to a fraudulent act on the part of the assessee, or due to collusion between the assessee or his or her agent and the assessor or any of his or her deputies, it is subject to a penalty equal to 75% of the value of the property that escaped assessment ([§503-§504](#), [§531](#), [§531.3](#), [§531.5](#)).

These penalties also apply to tangible personal property that any person willfully conceals, fails to disclose, removes, transfers, or misrepresents in order to avoid taxation ([§502](#)).

1740-1741 Escape Assessments: Collection

1740. INSTALLMENT COLLECTION OF TAX INCREASE

When an increase in property tax, whether secured or unsecured, results from either an escape assessment or correction of an error on the roll, the assessee has the option of paying the tax over a four-year period ([§4837.5\(a\)](#)).

Effective January 1, 1984, [§4837.5](#) was added to the law to replace the three-year installment plan (formerly [§534.5](#)) and the eight-year installment plan (formerly [§532.5](#)). Its provisions apply to both the secured and unsecured assessment rolls, as follows:

- The assessee cannot make installment payments if the additional tax is less than \$500 ([§4837.5\(a\)\(1\)](#));
- Taxes resulting from correction of errors pursuant to [§4831.5](#) do not qualify for payment by installments; and
- Supplemental assessments are not subject to the provisions of [§4837.5](#) ([§75.13](#)).

1741. FOUR-YEAR (FIVE-PAYMENT) PLAN

The auditor must make the appropriate changes to the roll when an error is discovered ([§4831](#)) or upon notification by the assessor of an escape assessment ([§531](#)).

If the total amount of the escape is \$500 or more, the tax collector must include with the tax bill a notice to the assessee of his or her right to make an initial payment of 20% or more and the balance of payments over a four-year period ([§4837.5\(a-b\)](#)).

An assessee who elects to make installment payments for a secured escape must file a written request for an installment payment plan prior to 5 p.m. on April 10 or by 5 p.m. on the last day of the month following the

month in which the tax bill is mailed, whichever is later. For unsecured escapes, the written request for installment payments must be filed with the tax collector prior to 5 p.m. on August 31 ([§4837.5\(a\)\(2\)](#)).

When payment by installments is requested, 20% or more of the tax must be paid by the deadline for filing the written request. The assessee must pay the current year's taxes, any prior year's taxes, penalties and costs with or before the initial installment payment ([§4837.5\(b\)](#)).

In each subsequent fiscal year, the assessee must pay all current year's taxes and a sum sufficient to reduce the outstanding balance of the escape tax by at least 20% of the original amount. This sum must be paid before the delinquency date of the second installment of taxes on the secured roll (April 10) ([§4837.5\(b\)](#)).

In the case of unsecured taxes, the required annual installment must be paid on or before August 31 ([§4837.5\(b\)](#)).

The tax collector may file the certificate of lien against unsecured escapes for collection if the plan is defaulted. The certificate must be filed, without fee, in the office of the county recorder of any county. The certificate must show that the computation and levy of the tax have complied with the amount due, the name, and the last known address of the assessee liable for the amount. If known, the certificate should also contain the last four digits of the assessee's social security number ([§2191.3](#)).

Any such recorded lien applies for 10 years and has the force, effect, and priority of a judgment lien ([§2191.4](#)).

No penalties shall be charged as long as installment payments are made in a timely manner. In the case of secured taxes, as long as all payments are made in a timely manner, the tax collector may not publish an affidavit of tax default pursuant to [§3371](#).

The tax collector may charge a fee for the actual cost of setting up the escape assessment payment plan ([§4837.5\(i\)](#)).

The escape installment plan is sometimes referred to as an "off-roll assessment" because the tax charge is established in the year in which the assessor enrolls the escape. The charge is reintroduced to the current roll by the auditor only if the assessee defaults the plan ([§4837.5\(e\)](#)).

The plan is defaulted if:

- Any installment is not paid by April 10;
- Property on the secured roll becomes tax defaulted or subject to the tax collector's power to sell;
- Taxes for the property on the unsecured roll are not paid before becoming delinquent; or
- There is an ownership change.

If the plan is defaulted, the remaining balance of the tax immediately becomes due and payable. The payment plan can be reinstated only if ([§4837.5\(e\)](#)):

- The assessee or the agent of the assessee can, by substantial evidence, convince the tax collector that the non-payment was not the fault of the assessee; and
- Payment of the installment amount plus any additional interest that has accrued is made prior to the time the property becomes tax defaulted or prior to June 30, whichever is earlier. The tax collector must inform the auditor of the defaulted, off-roll installment plan and of the delinquent amount remaining unpaid.

The auditor adds the unpaid balance, penalties, and costs to the current roll and adjusts the tax collector's charge accordingly. The remaining balance of the tax becomes subject to all of the provisions of law applicable to delinquent taxes ([§4837.5\(f\)](#)).

When the installment account is paid in full or is placed on the tax rolls due to a defaulted payment plan, and the tax collector has filed for record a certificate of lien, the tax collector also must file for record a release of lien. The filing of the release of lien shall not be subject to a recording fee if the certificate of lien was filed in error ([Gov. Code §27361.3](#)).

1800-1805 Reports & Settlements: General Requirements

1800. PERIODIC ACCOUNTING OF MONEY

The tax collector must account to the auditor, not less than once every 12 months and on dates approved by the auditor, for all money collected during the preceding reporting period. On the same day, the tax collector must file with the auditor either a statement under oath, an affirmation ([Code Civ. Proc. §2015.6](#)), or by declaration under penalty of perjury ([Code Civ. Proc. §2015.5](#)) showing that all money collected has been paid as required by law ([§2616](#)).

1801. ITEMIZED ACCOUNT OF TRANSACTIONS

The tax collector must file a statement either under oath, an affirmation ([Code Civ. Proc. §2015.6](#)), or by declaration under penalty of perjury ([Code Civ. Proc. §2015.5](#)) with the auditor that itemizes all transactions and receipts following to the tax collector's last settlement. The statement must show a breakdown on the amounts collected for each fund or district extended on the roll. Such statements must be submitted not less than once every 12 months on dates approved by the auditor ([§2616](#), [Gov. Code §24353](#)).

Where counties use a mechanized management reporting system in his or her informative reports that covers a uniform four-week period, the board of supervisors may provide by ordinance that the tax collector may utilize the same four-week period in complying with the duties required by this section ([§2616](#)).

1802. SETTLEMENT FOLLOWING FIRST INSTALLMENT DELINQUENCY

Annually and before February 1, the auditor shall ([§2623](#)):

- Compute and enter the delinquent penalty and costs ([§2621](#)) against all taxes on the secured roll not marked paid;
- Foot the penalties and costs; and
- Charge the tax collector with the total penalties and costs on the secured roll.

1803. SETTLEMENT FOLLOWING SECOND INSTALLMENT DELINQUENCY

On or before June 1, the auditor must compare the delinquent roll with the secured roll. If satisfied that the delinquent roll is correct, the auditor shall ([§2626](#)):

- Foot the unpaid taxes and penalties;
- Credit the tax collector with the unpaid taxes and penalties on the secured roll; and

- Make a final settlement with the tax collector of all taxes and penalties on the secured roll.

Within three days after this settlement, the auditor shall ([§2627](#)):

- Compute and enter the delinquent penalty and costs against all taxes on the delinquent secured roll not marked paid;
- Charge the tax collector with the amount due on the delinquent roll and foot the penalties and costs; and
- Deliver the delinquent roll duly certified to the tax collector and charge the tax collector with the total penalties and costs on the secured roll ([§2623](#)).

1804. AUGUST SETTLEMENT

Annually, on or before August 10, the tax collector shall make a collections report on the secured roll and make it available to the auditor for purposes of audit ([§2856](#)).

The auditor then administers to the tax collector an oath, which is written and subscribed on the secured roll, that all payments on the roll have been credited. Upon completion of the oath, the auditor credits the tax collector with the amount unpaid and has a final settlement with the tax collector ([§2857-§2858](#)).

1805. TAX COLLECTOR'S LIABILITY

Refusal or neglect by the tax collector to make all required payments or settlements within five days automatically makes the tax collector liable for all taxes charged against him or her. The district attorney is then required to bring suit against the tax collector and his or her sureties for that amount ([§2632-§2633](#), [§2860-§2861](#)).

1810-1813 Reports and Settlements: Servicemembers' Civil Relief Act

1810. WHO QUALIFIES

All active-duty list members of the armed forces, as defined by [Title 10 U.S. Code section 101](#), qualify for the Servicemembers' Civil Relief Act. An enlistee has the same benefits as does a draftee, and no distinction is made between enlisted personnel and officers. Benefits extend to a servicemember's dependent(s), spouse, child, or individual for whom he or she provide more than half of the individual's support for 180 days immediately preceding application. Benefits do not extend to business partners or family members who are not dependents.

The following individuals do not qualify under provisions of the Act:

- Military retirees;
- Persons on inactive reserve status;
- Civilian defense workers; and
- Merchant seamen.

1811. THE BENEFITS OF THE ACT

The Act applies only to property owned by the claimant or his or her dependents for dwelling, professional, business, or agricultural purposes, and only to those taxes becoming due immediately prior to or during the period of military service.

If a property tax is unpaid or is on an installment plan of redemption during and by reason of active service, the delinquent tax is subject to interest, at 6% per year, in lieu of all other penalties or interest ([Title 50 U.S. Code §561\(d\)](#)).

Execution of a judgment against the individual is stayed during the period of qualifying service and for 60 days thereafter, unless, in a court's opinion, the individual's ability to comply with the judgment has not been materially affected.

During the period of service and for 180 days thereafter, sales to enforce collection of a tax or assessment are prohibited unless first authorized by a court.

If a court does permit a sale to collect a tax or assessment, the servicemember has a right of redemption (although the terms of redemption are unspecified) for six months after termination of the period of military service ([Servicemembers' Relief Act §521, §561\(b\)\(1\)\(c\)](#)).

1812. HOW ONE QUALIFIES

Qualification does not depend on impairment of income alone. Any condition that would reasonably impair the individual's ability to pay taxes or to respond to actions against his or her title to property must be considered. See State Controller's Office sample form, *Application for Property Tax Relief for Military Personnel* ([SCO 1-08](#)).

1813. TAXES SUBJECT TO THE ACT

If current-year taxes and assessments become delinquent after the onset of qualifying service, they are subject to interest only at 6% per year. This interest is computed from the point of delinquency under California law. Do not apply costs, penalties, redemption fees, or other charges.

As of the onset of qualifying service, amounts accrued remain charged against either the person or the property. However, during the protected period, additional penalties that would be imposed, pursuant to [§2922](#) or [§4103](#), are set aside in favor of the overall 6% interest.

The Servicemembers Civil Relief Act shields the eligible servicemember from making payment, and it suspends the effect of state lien-perfection laws during the protected period. Therefore, the tax collector may not default any installment redemption plan because current taxes have not been paid. For the protected period, substitute simple 6% interest for the 1.5% per month interest required by [§4221\(d\)](#).

Turlock Irrigation District 2019 Financial Forecast

	2017 Actual	2018 Budget 12/12/2017	2019 Proposed Budget
District Operating Revenues:

RESOLUTION NO. 2020 - 59

RESOLUTION APPROVING TURLOCK IRRIGATION DISTRICT 2021 BUDGET AND SCHEDULES OF OTHER CHARGES

BE IT HEREBY RESOLVED by the Board of Directors of the Turlock Irrigation District that as follows:

1. That the Turlock Irrigation District budget for calendar year 2021 is hereby approved and a copy is ordered filed in the Executive Secretary's office.
2. Those schedules of Other Charges, consisting of the Electric Service Schedule of Charges, Materials and Services Schedule of Charges, and Damaged Meter Charges, are hereby approved and adopted effective January 1, 2021.
3. Equipment Rates and Hourly Labor Rates for Work Billed to Others, copies of which are attached to this resolution, are hereby approved and adopted effective January 1, 2021.
4. All Previously adopted Schedules of Other Charges are hereby rescinded.

Moved by Director Frantz, seconded by Director Fernandes, that the foregoing resolution be adopted.

Upon roll call the following vote was had:

Ayes: Directors Fernandes, Frantz, Alamo, Macedo, Santos
Noes: Directors - None
Absent: Directors - None

The President declared the resolution adopted.

I, Tami Wallenburg, Executive Secretary to the Board of Directors of the TURLOCK IRRIGATION DISTRICT, do hereby CERTIFY that the foregoing is a full, true and correct copy of a resolution duly adopted at a regular meeting of said Board of Directors held the 15th day of December, 2020.

Executive Secretary to the Board of
Directors of the Turlock Irrigation District

RESOLUTION NO. 2021 - 73

**RESOLUTION APPROVING TURLOCK IRRIGATION DISTRICT
2022 BUDGET AND SCHEDULES OF OTHER CHARGES**

WHEREAS, that the Turlock Irrigation District Budget and Schedules of Other Charges for calendar year 2022 is hereby approved and a copy is filed in the Executive Secretary's office; and

WHEREAS, those Schedules of Other Charges, consisting of the Electric Service Schedule of Charges, Materials and Services Schedule of Charges, and Damaged Meter Charges, are hereby approved and adopted effective January 1, 2022; and

WHEREAS, Equipment Rates and Hourly Labor Rates for Work Billed to Others, copies of which are attached to this resolution, are hereby approved and adopted effective January 1, 2022; and

WHEREAS, all previously adopted Schedules of Other Charges are hereby rescinded; and

WHEREAS, the District uses monies accumulated in the Power Supply Adjustment Balancing Account for effective utilization for the District; and

WHEREAS, the Board of Directors has expressed interest in cash funding capital projects; and

WHEREAS, Turlock Irrigation District currently has monies available in its Power Supply Adjustment Balancing Account to fund a \$76,000,000 transfer.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Turlock Irrigation District that the 2022 Proposed Budget and Schedules of Other Charges are approved; and \$76,000,000 be transferred from the Power Supply Balancing Account to the Rate Stabilization Account for the purposes of funding the District's capital projects.

Moved by Director Macedo, seconded by Director Fernandes, that the foregoing resolution be adopted.

Upon roll call the following vote was had:

Ayes: Directors Fernandes, Alamo, Macedo, Frantz
Noes: Directors - None
Absent: Director Santos

The President declared the resolution adopted.

I, Tami Wallenburg, Executive Secretary to the Board of Directors of the TURLOCK IRRIGATION DISTRICT, do hereby CERTIFY that the foregoing is a full, true and correct copy of a resolution duly adopted at a regular meeting of said Board of Directors held the 14th day of December, 2021.

Executive Secretary to the Board of
Directors of the Turlock Irrigation District

Report of Independent Auditors

To the Board of Directors of
Turlock Irrigation District

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Turlock Irrigation District (the "District"), which comprise the consolidated statements of net position as of December 31, 2020 and 2019, and the related consolidated statements of revenues, expenses, and changes in net position and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the Amended and Restated Plan for Employees and Elective Officers of the Turlock Irrigation District, (the, "Retirement Plan") which consists of the statements of fiduciary net position as of June 30, 2020 and 2019, statements of changes in fiduciary net position for the years then ended, and Note 11, Fiduciary Fund Retirement Plan. Those statements and Note 11 were audited by other auditors, whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Retirement Plan, is based solely on the report of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, and the California Code of Regulations, Title 2, Section 1131.2, State Controller's *Minimum Audit Requirements* for California Special Districts. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District as of December 31, 2020 and 2019, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of changes in net pension liability and related ratios, schedule of retirement plan contributions, schedule of changes in net OPEB liability and related ratios and schedule of OPEB plan contributions on pages 3 through 14 and 69 through 72 be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Turlock Irrigation District Management's Discussion and Analysis (Unaudited) December 31, 2020 and 2019

Using this financial report

The following management's discussion and analysis of Turlock Irrigation District (TID or the District) and its financial performance provides an overview of TID's financial activities for the years ended December 31, 2020 and 2019. Management's discussion and analysis should be read in conjunction with TID's financial statements and accompanying notes, which follow this section.

Background

TID is an irrigation district organized under the provisions of the Wright Act and has the powers provided therein. Organized in 1887, TID was the first of 65 irrigation districts to be formed in the State of California (the "State"). Its Board of Directors (the "Board") governs TID. The five members of the Board are elected from geographic divisions of TID for staggered four-year terms. The Board appoints a general manager and certain other senior managers who are responsible for the operations of TID.

Since 1923, TID has provided all the electric service within its 425 square-mile service area, which includes portions of Stanislaus, Merced and Tuolumne counties. TID's service area includes the cities of Turlock, Ceres, Hughson and a part of Modesto and the unincorporated communities of Ballico, Keyes, Denair, Hickman, Delhi and Hilmar.

Since 2003, TID has owned and operated the electric distribution facilities in a portion of the west side of Stanislaus County, including the City of Patterson, the community of Crows Landing and certain adjacent rural areas (collectively, the "Westside"). The Westside covers approximately 237 square miles.

To provide electric service within its service area, TID owns and operates an electric system, which includes generation, transmission and distribution facilities. Its generating facilities include hydroelectric, wind, natural gas-fired and other facilities. TID also purchases power and transmission service from other sources and participates in other utility arrangements.

TID also supplies water for irrigation use within 308 square miles of its service area, comprising approximately 5,800 parcels of land and 250 miles of gravity flow canals and laterals. TID's electric and irrigation systems are operated and accounted for as a single entity; hence, revenues from both systems are available to pay the obligations of TID.

Rates and charges

TID's Board has full and independent authority to establish revenue levels and rate schedules for all electric service provided by TID. TID is not subject to retail rate regulation by any state or federal regulatory body, and is empowered to set retail rates effective at any time. TID has maintained rates for electric service that have been sufficient to provide for all operating and maintenance costs and expenses, debt service, repairs, replacements and renewals and to provide for base capital additions to the system. The Board fixes rates and charges of TID based on a cost of service methodology.

TID had no electric rate increases for the years beginning January 1, 2020 and January 1, 2019.

Irrigation rates in a normal year are \$60/acre and in a dry year are \$68/acre, and there are varying tiers based on the amount of water used ranging from \$2 to \$20 per acre-foot. There were no irrigation rate schedule changes for 2020.

Turlock Irrigation District

Management's Discussion and Analysis (Unaudited)

December 31, 2020 and 2019

TID has a credit requirement for all new service connections, which requires new customers to place a deposit with TID.

Financial reporting

TID maintains its accounts in accordance with generally accepted accounting principles for proprietary funds as prescribed by the Governmental Accounting Standards Board (GASB). TID is accounted for as an enterprise fund and is financed and operated in a manner similar to that of a private business enterprise. TID uses the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. TID's accounting records generally follow the Uniform System of Accounts for public utilities and licensees prescribed by the Federal Energy Regulatory Commission (FERC), except as it relates to the accounting for contributions in aid of construction (CIAC).

TID provides energy for residential, commercial, and industrial use and provides irrigation water for agricultural use. Accordingly, TID defines operating revenues as sales of energy, wholesale sales of energy and natural gas, irrigation sales, and other miscellaneous energy and irrigation service revenues. Operating expenses include the costs of sales and services, administration expenses, depreciation, depletion and amortization. Nonoperating revenue and expense typically includes interest income on investments, interest expense, and other miscellaneous items.

In accordance with the GASB accounting rules which govern regulatory accounting, the Board has taken various regulatory actions for ratemaking purposes that result in the deferral of revenue or expense recognition. At December 31, 2020 and 2019, TID had total regulatory assets of \$47.0 million and \$50.6 million, respectively, and total regulatory credits of \$153.3 million and \$128.2 million, respectively. The regulatory credits are recognized in the statement of revenues, expenses and changes in net position when the Board concludes that they should be used for ratemaking purposes.

Investment policies and procedures

The Board reviews TID's investment policy on an annual basis. TID has contracted with Public Financial Management, Inc. (PFM), a leading investment manager of public entity funds, to invest TID's cash and investments. PFM only purchases investments on behalf of TID which are permitted by TID's investment policy. The Bank of New York Mellon Trust Company holds these investments in custody.

Debt management program

TID regularly reviews its debt structure, which includes the issuance of refunding bonds to achieve debt service savings.

Turlock Irrigation District
Management's Discussion and Analysis (Unaudited)
December 31, 2020 and 2019

Component units

The District has two component units, the Walnut Energy Center Authority (WECA) and the Tuolumne Wind Project Authority (TWPA), both of which were formed for the purposes of developing and operating generation facilities for the District's use. WECA operates a 250 MW natural gas fueled generation facility located in TID's service territory. TWPA has a membership interest in a 136.6 MW wind farm, consisting of 62 wind-turbine generators located in Klickitat County, Washington. Although WECA and TWPA are separate legal entities from TID, they are reported as part of TID because of the extent of their operational and financial relationships with TID. Additionally, TID has fiduciary responsibility for a single-employer group pension plan, the Amended and Restated Plan for Employees and Elective Officers of the Turlock Irrigation District, (the, "Retirement Plan"). The Retirement Plan is a component unit which is presented as a fiduciary fund and the activities of the Retirement Plan are recorded in the Statements of Fiduciary Net Position of the Retirement Plan and Statements of Changes in Fiduciary Net Position of the Retirement Plan. Accordingly, all operations of these component units are consolidated into TID's financial statements.

Using this financial report

This annual financial report consists of management's discussion and analysis and the financial statements, including notes to the financial statements. The annual financial report reflects the activities of TID primarily funded through the sale of energy, transmission, and distribution services to its retail and wholesale customers, as well as irrigation services.

Statements of net position, statements of revenues, expenses and changes in net position, and statements of cash flows

The statements of net position include all of TID's assets, liabilities and deferred outflows and inflows using the accrual basis of accounting, as well as information about which assets can be utilized for general purposes, and which assets are restricted as a result of bond covenants and other commitments. The statements of revenues, expenses, and changes in net position report all of the revenues and expenses during the time periods indicated. The statements of cash flows report the cash provided and used by operating activities, as well as cash payments for debt service and capital expenditures and cash purchases and proceeds from investing activities during the time periods indicated.

Turlock Irrigation District
Management's Discussion and Analysis (Unaudited)
December 31, 2020 and 2019

Management's Discussion and Analysis as of and for the Year Ended December 31, 2020:

Assets

Utility Plant – TID had approximately \$1,189.2 million invested in utility plant assets, net of accumulated depreciation at December 31, 2020. TID transferred approximately \$51.8 million of assets from construction in progress to utility plant in service in 2020 and had net disposals of \$0.3 million. Net utility plant makes up 69% of TID's assets at December 31, 2020 and 2019.

During 2020, TID capitalized \$60.6 million of additions to utility plant. TID invested \$1.4 million in Walnut Energy Center Authority modifications and inspections, \$12.9 million in relicensing fees related to Don Pedro Dam Hydroelectric facilities and upgrades, \$6.0 million on routine expansion, \$5.3 million on irrigation facilities, \$8.6 million on emission credits, \$7.2 million on T & D lines, \$7.7 million on the development of a new customer information system and \$9.0 million on underground lines, substation upgrades and general capital.

Cash, cash equivalents and investments

TID's cash, cash equivalents and investments decreased \$13.4 million during 2019. This was primarily due to cash outflows from current year capital offset by current year operations.

Other noncurrent assets

Other noncurrent assets decreased \$3.3 million during 2020. This decrease is primarily related to a decrease in regulatory assets of \$3.6 million driven by current year amortization of pension costs and a decrease in other assets of \$0.1 million offset by an increase in other postemployment benefits ("OPEB") asset of \$0.4 million.

**Turlock Irrigation District
Management’s Discussion and Analysis (Unaudited)
December 31, 2020 and 2019**

Other current assets

Other current assets increased \$9.6 million during 2020. The increase was due primarily to an increase of \$7.2 million in retail accounts receivable, an increase in accrued interest and other receivables of \$4.6 million and an increase in materials and supplies of \$0.2 million offset by a decrease in prepaid expenses and other current assets of \$1.9 million, a decrease in wholesale accounts receivable of \$0.3 million, and a decrease of \$0.2 million in receivable from the Transmission Agency of Northern California.

Deferred outflows of resources

Deferred outflows of resources decreased \$2.6 million primarily due to current year amortization of \$3.6 million in debt refunding losses, a decrease of \$1.4 million in cash flow hedges and a net decrease in deferred ARO outflow of \$0.7 million offset by an increase of deferred pension outflows of \$2.5 million and an increase deferred OPEB outflows of \$0.6 million.

Liabilities and changes in net position

Long-term debt – Long-term debt decreased \$65.3 million primarily due to scheduled principal payments of \$31.9 million, a debt refunding which resulted in a net long-term debt decrease of \$16.0 million, and the amortization of debt premiums of \$17.4 million.

The following table shows TID’s future debt service requirements from 2021 through 2025 at December 31, 2020 (dollars in thousands):

At December 31, 2020, TID’s bond ratings are A2 from Moody’s, AA- from Fitch and AA- from Standard and Poor’s.

Turlock Irrigation District
Management's Discussion and Analysis (Unaudited)
December 31, 2020 and 2019

Other noncurrent liabilities

Other noncurrent liabilities decreased \$2.6 million in 2020. The decrease was primarily due to a decrease of \$1.3 million in the net pension liability, decrease of \$1.1 million in derivative financial instruments and a decrease of \$0.4 million in TID's Pacific Gas & Electric (PG&E) pipeline obligations offset by an increase of \$0.2 million in TID's asset retirement obligation.

Other current liabilities

Other current liabilities decreased \$13.9 million in 2020. The decrease was due to a net decrease in commercial paper of \$4.4 million, a net decrease in gas and power accounts payable and accrued expenses of \$4.9 million, a decrease of interest payable of \$2.5 million, a decrease in customer deposits and advances of \$2.0 million, a decrease of \$0.4 million in current portion of lease obligations and a decrease of \$0.4 million in derivative financial instruments offset by an increase in accrued salaries, wages and related benefits of \$0.7 million.

Deferred inflow of resources

Deferred inflow of resources increased \$30.5 million due to an increase of \$25.9 million in the power supply adjustment, a \$4.1 million net increase in deferred debt refunding gain as a result of current year refunding, a net increase in deferred pension inflows of \$1.5 million and \$0.9 million increase in unrealized gain on investments offset by a decrease of \$1.7 million in deferred auction sales and a decrease in deferred OPEB inflows of \$0.2 million.

Changes in net position

Operating revenues

Operating revenues decreased \$1.0 million from \$343.0 million in 2019 to \$342.0 million in 2020. Wholesale electric revenues decreased \$7.9 million to \$47.0 million in 2020 from \$55.0 million in 2019, as a result of a decrease in volume sold offset by a small an increase in average sales price. Volumes decreased approximately 14.0% when compared to 2019 while average sales price increased approximately 6.2% from an average of \$41/megawatt hours (MWh) in 2019 to \$44/MWh in 2020. Wholesale gas revenues decreased \$1.6 million primarily due to a decrease in sales volume. Electric retail power revenues were up \$10.5 million primarily due to a deferral of \$25.9 million, which reduced revenues in 2020 as a result of the power supply adjustment compared to a deferral of \$30.2 million in 2019. The Board elected to utilize electric rate stabilization of \$0 million in 2020 compared to \$9.6 million in 2019 to fund capital projects. Consumption for 2020 was up approximately 5.8% when compared to 2019.

Turlock Irrigation District Management's Discussion and Analysis (Unaudited) December 31, 2020 and 2019

Operating expenses

Purchased power, generation and fuel expenses decreased \$2.9 million to \$141.2 million in 2020 compared to \$144.1 million in 2019. The decrease is primarily due to a decrease in fuel related expense of \$7.5 million offset by an increase in purchased power of \$7.5 million. The remaining decrease is due to decreased maintenance cost at the District's generating facilities. Other electric expense decreased \$0.4 million due to a reduction in competitive transition charges ("CTC") for 2020. Irrigation expense remained primarily flat with a small decrease \$0.1 million. Administrative and general expenses increased \$1.0 million when compared to 2019 primarily due to increased technology costs to accommodate employees for the California State at home order as the result of Covid-19. Depletion expense decreased \$0.4 million as a result of current year production from TID's gas field investments. Depreciation and amortization expense decreased \$0.1 million primarily due to new assets being placed into service offset by a decrease in amortization of emission allowances under the State's cap and trade program.

Net investment income

Net investment income in 2020 decreased \$0.2 million when compared to 2019, primarily due to slightly lower yields on investments.

Other income

Other income in 2020 increased \$0.1 million due primarily to a \$0.7 million increase in contributions in aid of construction revenue and an increase of \$0.1 million in property tax revenue offset by a decrease in late fees of \$0.7 million.

Derivative gain

For the year ended December 31, 2020, TID had a net gain of \$0.7 million compared to a net loss of \$0.1 million for the year ended December 31, 2019, due to a change in the fair value of derivative instruments.

Interest expense

Interest expense decreased \$3.8 million in 2020 as compared to 2019, primarily due to savings realized from the bond refunding executed in 2020 and a full year of savings from the bond refunding's executed in 2019.

**Turlock Irrigation District
Management's Discussion and Analysis (Unaudited)
December 31, 2020 and 2019**

Management's Discussion and Analysis as of and for the Year Ended December 31, 2019:

Assets

Utility Plant – TID had approximately \$1,194.2 million invested in utility plant assets, net of accumulated depreciation at December 31, 2019. TID transferred approximately \$26.6 million of assets from construction in progress to utility plant in service in 2019 and had net disposals of \$0.2 million. Net utility plant makes up 69% of TID's assets at December 31, 2019, compared to 71% in the prior year.

During 2019, TID capitalized \$48.3 million of additions to utility plant. TID invested \$2.5 million in Walnut Energy Center Authority modifications and inspections, \$7.2 million in relicensing fees related to Don Pedro Dam Hydroelectric facilities and upgrades, \$4.8 million on routine expansion, \$3.9 million on irrigation facilities, \$3.1 million on emission credits, \$7.2 million on T & D lines, \$2.8 million on property acquisition and improvements, \$8.1 million on the development of a new customer information system and \$8.6 million on underground lines, substation upgrades and general capital.

Cash, cash equivalents and investments

TID's cash, cash equivalents and investments increased \$59.6 million during 2019. This was primarily due to cash inflows from current year operations.

Other noncurrent assets

Other noncurrent assets decreased \$1.3 million during 2019. This decrease is primarily related to a decrease in regulatory assets of \$3.9 million driven by current year amortization of pension costs and a decrease in unrealized loss on investments offset by an increase in other postemployment benefits ("OPEB") asset of \$2.7 million.

**Turlock Irrigation District
Management’s Discussion and Analysis (Unaudited)
December 31, 2020 and 2019**

Other current assets

Other current assets decreased \$2.6 million during 2019. The decrease was due primarily to a decrease in wholesale accounts receivable of \$2.7 million, a decrease in prepaid expenses and other current assets of \$1.4 million, a decrease of \$1.0 million in retail accounts receivable, and a decrease in derivative financial instruments of \$0.4 million offset by an increase of \$1.6 million in receivable from the Transmission Agency of Northern California, an increase in accrued Interest and other receivables of \$0.6 million and an increase in materials and supplies of \$0.5 million.

Deferred outflows of resources

Deferred outflows of resources decreased \$18.6 million primarily due to a net decrease of deferred pension outflows of \$15.4 million, current year amortization of \$4.2 million in debt refunding losses and amortization of deferred ARO outflow of \$0.9 million, an increase of \$1.4 million in cash flow hedges and an increase deferred OPEB outflows of \$0.5 million.

Liabilities and changes in net position

Long-term debt – Long-term debt increased \$40.6 million as a result of a debt refunding which resulted in a net long-term debt increase of \$85.2 offset by scheduled principal payments of \$34.6 million and the amortization of debt premiums of \$10.0 million.

The following table shows TID’s future debt service requirements from 2020 through 2024 at December 31, 2019 (dollars in thousands):

At December 31, 2019, TID’s bond ratings are A2 from Moody’s, AA- from Fitch and AA- from Standard and Poor’s.

Turlock Irrigation District
Management's Discussion and Analysis (Unaudited)
December 31, 2020 and 2019

Other noncurrent liabilities

Other noncurrent liabilities decreased \$32.5 million in 2019. The decrease was primarily due to a decrease of \$33.3 million in the net pension liability, a decrease of \$0.4 million in TID's Pacific Gas & Electric (PG&E) pipeline obligations offset by an increase of \$1.2 million in derivative financial instruments.

Other current liabilities

Other current liabilities decreased \$59.4 million in 2019. The decrease was due to a net decrease in commercial paper of \$65.9 million and a decrease of interest payable of \$2.0 million, offset by an increase in customer deposits and advances of \$4.7 million, a net increase in gas and power accounts payable and accrued expenses of \$3.2 million, an increase in accrued salaries, wages and related benefits of \$0.2 million and an increase of \$0.3 million in derivative financial instruments.

Deferred inflow of resources

Deferred inflow of resources increased \$40.5 million due to an increase of \$30.2 million in the power supply adjustment, a net increase in deferred pension inflows of \$19.9 million, an increase in deferred OPEB inflows of \$2.1 million, an increase of \$1.8 million in unrealized gain on investment and a \$0.5 million net increase in deferred debt refunding gain as a result of current year refunding offset by a decrease of \$9.6 million in the electric rate stabilization, a decrease of \$3.9 million in deferred auction sales and a decrease in cash flow hedges of \$0.5 million.

Changes in net position

Operating revenues

Operating revenues decreased \$1.3 million from \$344.3 million in 2018 to \$343.0 million in 2019. Wholesale electric revenues increased \$1.5 million to \$55.0 million in 2019 from \$53.5 million in 2018, as a result of an increase in average sales price and a decrease in volume sold. Volumes decreased approximately 0.5% when compared to 2018 while average sales price increased approximately 1.9% from an average of \$40/megawatt hours (MWh) in 2018 to \$41/MWh in 2019. Wholesale gas revenues decreased \$0.7 million primarily due to a decrease in sales volume. Electric retail power revenues were down \$4.1 million primarily to a deferral of \$30.2 million which reduced revenues in 2019 as a result of the power supply adjustment compared to a deferral of \$23.4 million in 2018. The Board elected to utilize electric rate stabilization of \$9.6 million in 2019 compared to \$7.5 million in 2018 to fund capital projects. Consumption remained flat when comparing 2019 to 2018.

Turlock Irrigation District

Management's Discussion and Analysis (Unaudited)

December 31, 2020 and 2019

Operating expenses

Purchased power, generation and fuel expenses decreased \$6.2 million to \$144.1 million in 2019 compared to \$150.3 million in 2018. The decrease is primarily due to a decrease in purchased power of \$4.2 million, a small decrease in fuel expense of \$0.2 million and remaining decrease is due to decreased maintenance cost at the District's generating facilities. Other electric expense decreased \$2.0 million due to decreased distribution maintenance expense. Irrigation expense decreased \$0.2 million primarily due to a decrease in water delivery expenses of \$0.4 million offset by an increase in maintenance cost of \$0.2 million. Administrative and general expenses increased \$1.1 million when compared to 2018 primarily due to increased labor and benefit costs. Depletion expense decreased \$0.2 million as a result of current year production from TID's gas field investments. Depreciation and amortization expense increased \$0.8 million primarily due to new assets being placed into service offset by a decrease in amortization of emission allowances under the State's cap and trade program.

Net investment income

Net investment income in 2019 increased \$2.8 million when compared to 2018, primarily due to higher yields on investments.

Other income

Other income decreased \$3.8 million primarily as result of one time transactions that happened in 2018. In 2018 \$2.4 million in net insurance proceeds were realized as a result of a fire from a previous year and \$1.6 million related to reimbursement from FEMA for costs incurred with increased river flows from 2017 were recognized in 2018. The remaining change is due to an increase of \$0.2 million in property tax revenue.

Derivative gain

For the year ended December 31, 2019, TID had a net loss of \$0.1 million compared to a net gain of \$0.1 million for the year ended December 31, 2018, due to a change in the fair value of derivative instruments.

Interest expense

Interest expense decreased \$1.5 million in 2019 as compared to 2018, primarily due to savings realized from the bond refunding's executed in 2019.

Turlock Irrigation District

Notes to Consolidated Financial Statements

(dollars in thousands)

Note 1 – Organization, Description of Business

The Turlock Irrigation District (TID or the District) was organized under the Wright Act in 1887 and operates under the provisions of the California Water Code as a special district of the State of California (the State). As a public power utility, TID is not subject to regulation or oversight by the California Public Utilities Commission (CPUC). TID provides electric power and irrigation water to its customers.

TID's Board of Directors (the Board) determines its rates and charges for its commodities and services. TID levies ad valorem property taxes on property located in the counties of Stanislaus and Merced. TID may also incur indebtedness, including issuing bonds, and is exempt from payment of federal and state income taxes.

Note 2 – Summary of Significant Accounting Policies

Method of accounting

TID maintains its accounts in accordance with accounting principles generally accepted in the United States of America (GAAP) for proprietary funds as prescribed by the Governmental Accounting Standards Board (GASB). TID is accounted for as an enterprise fund and is financed and operated in a manner similar to that of a private business enterprise. TID uses the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. TID's accounting records generally follow the Uniform System of Accounts for public utilities and licensees prescribed by the Federal Energy Regulatory Commission (FERC), except as it relates to the accounting for contributions in aid of construction (CIAC).

TID provides energy for residential, commercial, and industrial use and provides irrigation water for agricultural use. Accordingly, TID defines operating revenues as sales of energy, wholesale sales of energy and natural gas, irrigation sales, and other miscellaneous energy and irrigation service revenues. Operating expenses include the costs of sales and services, administration expenses, depreciation, depletion and amortization. Nonoperating revenue and expense typically includes interest income on investments, interest expense, and other miscellaneous items.

Component units

The Walnut Energy Center Authority (WECA) owns and operates a 250 MW natural gas fueled generation facility, which commenced commercial operations in 2006. The Tuolumne Wind Project Authority (TWPA) owns a membership interest in a 136.6 MW wind farm, consisting of 62 wind-turbine generators located in Klickitat County, Washington. WECA and TWPA have no employees and all the output from both facilities is sold to TID through power purchase agreements.

Although WECA and TWPA are separate legal entities from TID, they are consolidated component units of TID and reported as part of TID because of the extent of their operational and financial relationship with TID which includes majority oversight from the same Board of Directors.

Turlock Irrigation District

Notes to Consolidated Financial Statements

(dollars in thousands)

Note 2 – Summary of Significant Accounting Policies (continued)

Accordingly, all operations of WECA and TWPA are consolidated into TID's financial statements as blended component units. Internal transactions, including revenues and expenses between the District's component units and the District, have been eliminated in the accompanying financial statements in accordance with GAAP. Copies of the WECA and TWPA stand-alone annual financial report may be obtained from TID's executive office at 333 East Canal Drive, Turlock, California 95381.

Fiduciary Fund

TID has a fiduciary responsibility for a defined benefit pension plan, the Amended and Restated Retirement Plan for Employees and Elective Officer of Turlock Irrigation District (the "Retirement Plan"). The financial activities of the Retirement Plan are included in the financial statements as a Statements of Fiduciary Net Position of the Retirement Plan and Statements Changes in Fiduciary Net Position of the Retirement Plan as of June 30, 2020 and 2019, the Retirement Plans fiscal year end.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. TID's more significant estimates include fair value estimates for investments; estimated useful lives of utility plant; total pension liability; total other postemployment benefits liability; depletion; and workers' compensation reserves.

Long-term and short-term debt

Long-term debt is recorded at the principal amount of the obligations adjusted for original issue discounts and premiums. The premiums and discounts on bonds issued are amortized over the terms of the bonds using the effective interest method and recorded as a component of interest expense.

Deferred refunding gain or loss

Debt defeasance charges result from debt refunding transactions and comprise the difference between the reacquisition costs and the net outstanding debt balances including deferred costs of the defeased debt at the date of the defeasance transaction. Such charges are included as a component of deferred outflows or deferred inflows and amortized into interest expense over the shorter of the life of the refunded debt or the new debt, using the effective interest method.

Utility plant

Utility plant is recorded at cost. Capital assets are generally defined by TID as assets with an initial, individual cost of more than \$5 and an estimated useful life in excess of one year. The cost of additions, renewals and betterments are capitalized; repairs and minor replacements are charged to operating expenses as incurred. Interest cost incurred before the end of a construction period is recognized as an expense in the period in which the cost is incurred in compliance with GASB Statement No. 89, *Accounting for Interest Cost Incurred before the end of a Construction Period*. TID incurred gross interest costs of \$44,544 and \$48,334 during the years ended December 31, 2020 and 2019, respectively.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 2 – Summary of Significant Accounting Policies (continued)

Depreciation is computed using the straight-line method over the estimated useful lives, which generally range from 20 to 40 years and 40 to 150 years for electric and irrigation related assets, respectively. The estimated useful lives of furniture, fixtures, equipment and other assets range from 5 to 25 years. Upon retirement of an asset that was previously in service, the cost of depreciable utility plant, plus removal costs, less salvage, is charged to accumulated depreciation. If a capital asset is disposed of prior to being put into service, the costs capitalized to date are expensed. In addition, during the years ended December 31, 2020 and 2019, TID had net loss totaling \$333 and \$186, respectively, from retirements and disposals that were previously classified as utility plant.

Future power rights are costs incurred by TID in development of hydroelectric facilities owned by others who provide power to TID. Such costs are recorded as a component of utility plant and are amortized on a straight-line basis over the 49-year periods to which these rights apply.

Impairment of long-lived assets

TID accounts for potential impairments in accordance with GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*, under which TID evaluates prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. A capital asset is considered impaired when its service utility has declined significantly and unexpectedly and when full recovery through utility rates or other means is not considered probable. There were no material impairments of long-lived assets recorded during fiscal 2020 and 2019.

Intangible assets

TID accounts for intangible assets in accordance with GASB Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*, which provides guidance regarding how to identify, account for and report intangible assets. Intangible assets are defined as assets that lack physical substance, are nonfinancial in nature, and have an initial useful life extending beyond a single reporting period. GASB 51 provides that intangible assets be classified as capital assets, except for items explicitly excluded from the scope of the standard.

Included in nondepreciable utility plant are costs related to emission credits acquired that are necessary to operate gas fired facilities. Such credits have an indeterminate life and are therefore, not amortized.

TID is subject to the requirements under the State's cap and trade program and has purchased emission credits through the State's auction program. The cost of the emission allowances purchased is included in depreciable utility plant. Entities subject to the cap and trade program surrender allowances and offsets equal to their emissions at the end of each compliance period; therefore, TID is amortizing the purchased emission allowances based on District emissions as incurred for wholesale power sales and the amortization expense is included as a component of depreciation expense on the statement of revenues, expenses and changes in net position.

Amortization expense totaled \$3,425 and \$3,989 for the years ended December 31, 2020 and 2019, respectively.

Turlock Irrigation District

Notes to Consolidated Financial Statements

(dollars in thousands)

Note 2 – Summary of Significant Accounting Policies (continued)

Investments in gas properties

TID owns nonoperating ownership interests in gas producing properties in Wyoming and Texas. TID uses the successful efforts method of accounting for its investments in these gas producing properties. The costs of the investment along with costs to drill and complete wells that access economically recoverable reserves are capitalized as a component of utility plant on the statement of net position. Costs to drill wells that do not find economically recoverable reserves are expensed. The capitalized costs of producing gas properties, after considering estimated residual salvage values, are depleted by the unit-of-production method based on the estimated future production of proved reserves for the properties. If prominent events or changes in circumstances are identified, the investments in gas properties are evaluated for impairment. No impairment has been recorded to date.

Gas production from TID's share of these properties is sold to wholesale buyers as an economic hedge to offset the net cost of TID's gas supply. Sales of gas in 2020 and 2019 totaled \$2,005 and \$3,600, respectively. Depletion expense, which is included as a component of depreciation and amortization expense in the accompanying statement of revenues, expenses and changes in net position, totaled \$3,835 and \$4,256 for the years ended December 31, 2020 and 2019, respectively.

Cash and cash equivalents

Cash equivalents include all debt instruments with original maturity dates of three months or less from the date of purchase, all investments in the California Asset Management Program (CAMP) and the Local Agency Investment Fund (LAIF). The debt instruments are reported at amortized cost which approximates fair value. The investments in CAMP and LAIF are reported at their net asset value, which approximates fair value. CAMP is a joint powers authority (JPA), a public agency whose investments are limited to those permitted by the California Government Code. TID is invested in CAMP's California Asset Management Trust Cash Reserve Portfolio which is a short-term money market portfolio. Investments in CAMP shares are not insured by the Federal Deposit Insurance Corporation (FDIC) or any other governmental agency. LAIF has an equity interest in the State of California Pooled Money Investment Account (PMIA). PMIA funds are on deposit with the State's Centralized Treasury System and are managed in compliance with the California Government Code, according to a statement of investment policy which sets forth permitted investment vehicles, liquidity parameters and maximum maturity of investments. The PMIA cash and investments are recorded at cost which approximates fair value. TID's deposits with CAMP and LAIF are available for withdrawal generally on demand. TID has an automated investment account where at the end of the business day funds are automatically swept overnight to purchase shares in a money market mutual fund from TID's primary bank and the primary bank automatically redeems the shares the next day. TID receives monthly interest based on the dividend rate of the money market mutual fund.

Investments

Investments are reported at their fair market value, in accordance with GASB issued Statement No. 72, *Fair Value Measurement and Application*. Premiums and discounts on investments are amortized using the effective interest rate method. TID defers unrealized holding gains and losses on its investments until such investments mature or are sold which is consistent with TID's rate setting process. Realized gains and losses are included in net investment income in the accompanying statement of revenues, expenses and changes in net position.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 2 – Summary of Significant Accounting Policies (continued)

In accordance with provisions of the credit agreements relating to TID's long-term debt obligations, restricted funds held by trustees have been established to provide for certain debt service and project funding requirements. The restricted funds held by trustees are invested primarily in United States (U.S.) government securities and related instruments with maturities no later than the expected date of the use of such funds.

Participation in joint power authorities

TID's ownership investments in JPAs are accounted for using the cost method except for the WECA and TWPA which are consolidated into TID's financial statements.

Accounts receivable and allowance for doubtful accounts

Accounts receivable arise from billings to customers for the sale of power and water, and certain improvements made to customers' properties. Accounts receivable also includes an estimate for unbilled retail and wholesale revenues related to power delivered between the last billing date and the last day of the reporting period.

TID recognizes an estimate of uncollectible accounts for its retail and wholesale receivables based upon its historical experience with collections, current market conditions and specific identification of known losses. At December 31, 2020 and 2019, the allowance for doubtful accounts totaled \$1,095 and \$401, respectively. TID records bad debt expense as a reduction of revenue in the statements of revenues, expenses and changes in net position. In 2020 and 2019, net bad debt expense was \$734 and \$203, respectively.

Materials and supplies

Materials and supplies are used in TID's operations and are recorded at average cost, net of reserves for obsolete items. Reserves for obsolete items totaled \$450 at December 31, 2020 and 2019, respectively.

Long-term lease obligations

In connection with completing the Walnut Energy Center and the Almond 2 power plant, TID entered into long-term transmission arrangements with Pacific Gas and Electric (PG&E) which included PG&E constructing new, and reinforcing existing natural gas transmission facilities. The arrangements represent, in substance, capital leases wherein TID (lessee) is obligated to repay all costs associated with the construction and reinforcement of the transmission facilities to PG&E through billings on transmission usage. In accordance with GASB accounting rules governing lease accounting, TID records its obligations to PG&E as long-term lease obligations and the associated assets in utility plant. At inception, the contracts required up-front payments totaling \$23,720 plus irrevocable payment obligations which totaled \$44,087 on a net present value basis to be paid over ten year periods. Amounts due within one year are classified as current.

Turlock Irrigation District

Notes to Consolidated Financial Statements

(dollars in thousands)

Note 2 – Summary of Significant Accounting Policies (continued)

The lease obligations are included in TID's statements of net position at December 31, 2020 and 2019 with a balance of \$0 and \$797, respectively, along with the related assets with a net book value of \$3,329 and \$6,657, respectively, in utility plant. Assets are recorded at the total cost to be paid over the lease term and are depreciated over the life of the lease on a straight line basis. Depreciation expense is included as a component of depreciation and amortization expense in the accompanying statement of revenues, expenses and changes in net position.

Regulatory assets and credits

TID's Board has the authority to establish the level of rates charged for all District services. As a regulated entity, TID's financial statements are prepared in accordance with GASB accounting rules governing regulatory accounting, which require the effects of the rate making process to be recorded in the financial statements. Accordingly, certain expenses and revenues, normally reflected in operations as incurred, are recognized when included in rates and recovered from or refunded to customers as set forth in rate actions taken by the Board.

Public benefit

To comply with state mandated legislation, TID's Board has specified a component of its rates, 2.85%, to be committed to public benefit expenditures. Public benefit expenditures consist of noncapital and capital expenditures for energy efficiency programs and renewable energy resources.

Compensated absences

TID accrues vacation leave, sick leave and other compensated absences earned as liabilities when the employees earn the benefits. At December 31, 2020 and 2019, the total estimated liability for vacation, sick, and other compensated absences was \$6,353 and \$5,654, respectively, and is included in accrued salaries, wages and related benefits in the accompanying statements of net position.

Self-insurance liability

Substantially all of TID's assets are insured against possible losses from fire and other risks. TID carries insurance coverage to cover general liability claims in excess of \$1,000 per occurrence up to \$35,000 and workers' compensation claims in excess of \$750 per occurrence. TID records liabilities for unpaid claims when they are probable of occurrence and the amount can be reasonably estimated.

TID purchases its excess workers' compensation insurance from the California State Association of Counties (CSAC) Excess Insurance Authority. The risk of loss in excess of \$750 per occurrence is transferred to the insurance pool.

The accompanying financial statements include accrued expenses for general liability, workers' compensation and medical, dental and vision claims based on TID's best estimates of the ultimate cost of settling outstanding claims and claims incurred, but not reported. At December 31, 2020 and 2019, TID's estimated self-insurance liability for its workers' compensation claims totaled \$2,071 and \$2,217, respectively, and is reported as a component of accounts payable and accrued expenses in the statements of net position.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 2 – Summary of Significant Accounting Policies (continued)

TID is a member of CSAC's Excess Insurance Authority Health program, which administers TID's self-insurance for employee health. CSAC's purpose is to pool the risk of its members to develop and fund programs of excess insurance for its members. Members fund the program through annual premiums developed by the CSAC Board with assistance from actuary and risk management consultants. Should actual losses among pool participants be greater than funds for the program, TID would be assessed its pro-rata share of the deficiency. No such losses have occurred and no additional liability has been accrued by TID.

Gas price swap and option agreements

TID uses forward purchase agreements, swaps and option agreements to hedge the impact of market volatility on gas prices for its gas fueled power plants. Such agreements are treated as derivative financial instruments as defined below. Expenses under the contracts, net of the payments received, are reported as generation and fuel expense, in the period in which the underlying gas and power deliveries occur.

Derivative financial instruments

TID accounts for derivative instruments in accordance with GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments* (GASB 53), which establishes accounting and financial reporting standards for the recognition, measurement, and disclosure of information regarding derivative instruments entered into by state and local governments (Note 9).

TID records derivative financial instruments, consisting of gas price swap agreements, option agreements, and gas and electricity purchase and sales agreements that are not treated as normal purchases and normal sales, at fair value on its statements of net position. Normal purchases and sales contracts are for the purchase or sale of a commodity, such as natural gas or electricity, to be used in the normal course of operations, provided that it is probable TID will take or make delivery of the commodity specified in the derivative instrument. Changes in the fair value of derivatives that do not meet the requirements of an effective hedge transaction are included in nonoperating revenues and expenses as a derivative gain (loss). Changes in the fair value of derivatives which are effective hedges are deferred on the statements of net position.

The fair values of gas and electricity purchase and sales agreements are based on forward prices, established from published indexes from applicable regions and discounted using established interest rate indexes, where applicable, and information obtained from a pricing service where a published index is not available.

TID reports derivative financial instruments with remaining maturities of one year or less and the portion of long-term contracts with scheduled transactions over the next twelve months as current on the statements of net position. TID is exposed to risk of nonperformance if the counterparties default or if the agreements are terminated. TID monitors these risks and does not anticipate nonperformance.

Turlock Irrigation District

Notes to Consolidated Financial Statements

(dollars in thousands)

Note 2 – Summary of Significant Accounting Policies (continued)

Pension plan

TID has a single-employer group defined benefit pension plan (the “Retirement Plan”) which provides retirement benefits covering substantially all of its employees who have completed one year of continuous service. TID accounts for the Retirement Plan in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, an amendment to GASB Statement No. 27, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date* (GASB 68). This statement establishes standards for measuring and recognizing liabilities, deferred outflows and deferred inflows of resources, and expenses. For defined benefit plans, this statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service.

Other Post-Employment Benefits

TID provides post-retirement medical benefits in accordance with TID policy to qualified retirees and their spouses through TID’s Employee Health Care Plan (the “Health Plan”) until the retiree and participating spouse reach age 65. In 2018, TID adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB 75). The primary objective of GASB 75 is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). For defined benefit OPEB, GASB 75 identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. TID considers post-employment healthcare benefits to be OPEB costs.

TID’s OPEB liability(asset) at January 1, 2020 is based upon a valuation date of June 30, 2019.

Net position

TID classifies its net position into three components – net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

Net investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation reduced by the outstanding debt balances, net of deferred inflows and outflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt.

Restricted – This component of net position consists of assets with external constraints placed on their use. Constraints include those imposed by debt indentures, grants or laws and regulations of other governments, by law through constitutional provisions or enabling legislation.

Unrestricted – This component of net position consists of net amount of assets, deferred outflows of resources, liabilities, and deferred inflows that do not meet the definition of restricted or net investment in capital assets.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 2 – Summary of Significant Accounting Policies (continued)

Board designated net position

Net position includes amounts that TID’s Board designates as reserves for debt service, capital improvements and rate stabilization. The rate stabilization fund represents amounts reserved for the purpose of stabilizing electric utility rates in future periods. The Board determines the annual transfers into and out of these reserves. While the Board designates these funds as reserve funds, they are not restricted and the Board can utilize such funds for any purpose.

The designated funds included in unrestricted net position were as follows at December 31:

	2020	2019
Rate stabilization	\$ 34,076	\$ 34,076
Capital improvements	7,791	7,791
	\$ 41,867	\$ 41,867

Purchased power expenses

A portion of TID’s power needs are provided by power purchase agreements. Expenses from such agreements, along with associated transmission costs paid to other utilities, are charged to purchased power expense in the period the power was received. Adjustments to prior billings are included in purchased power expense once the payments or adjustments can be reasonably estimated. Gains or losses on power purchase and sale transactions that are settled without physical delivery are recorded as net additions or reductions to purchased power expense.

Additionally, any changes in the power supply adjustment (Note 9) balance, resulting in a regulatory asset increasing or decreasing are recorded as additions or reductions to purchased power expense and any changes resulting in a regulatory credit increasing or decreasing are recorded as additions or reductions to retail revenues. When the power supply adjustment balance changes from a regulatory credit to a regulatory asset or from a regulatory asset to a regulatory credit from one year to the next, a change to both purchased power expense and a change to retail revenues will be reflected in the statement of revenues, expenses and changes in net position. For the year ended December 31, 2020, the power supply adjustment balance increased resulting in a decrease to retail revenues of \$25,935, and for the year ended December 31, 2019, the power supply adjustment balance increased resulting in a decrease to retail revenues of \$30,235.

Contributions in aid of construction (CIAC) and grants

TID receives CIAC for customer contributions relating to expansions to TID’s distribution facilities. TID also receives grant proceeds from federal and state assisted programs for its river restoration programs and other programs. The contributions and grant proceeds are included in other income in the statement of revenues, expenses and changes in net position. When applicable, these programs may be subject to financial and compliance audits pursuant to regulatory requirements. TID considers the possibility of any material grant disallowances to be remote.

Turlock Irrigation District

Notes to Consolidated Financial Statements

(dollars in thousands)

Note 2 – Summary of Significant Accounting Policies (continued)

Asset retirement obligations

TID records asset retirement obligations (AROs) where there is a legally enforceable liability associated with the retirement of tangible capital assets. An ARO is measured based on the best estimate of the current value of outlays expected to be incurred. The current value is adjusted annually for the effects of general inflation or deflation. All relevant factors are evaluated at least annually to determine whether there is a significant change in the estimate outlays and whether to remeasure the ARO. The deferred outflows of resources are reduced and recognized as outflows of resources in a systematic and rational matter over the estimated useful life of the tangible capital asset.

California greenhouse gas legislation

California Assembly Bill 32 (AB-32) was passed by California lawmakers in 2006 and is an effort by the State of California to set a 2020 greenhouse gas emissions reduction goal into law. The goal is to reach a statewide emission limit of 427 million metric tons of carbon dioxide equivalent of greenhouse gases (GHG). Central to this initiative is the implementation of a cap and trade program, which covers major sources of GHG emissions in the State including power plants. The legislation directed the California Air Resources Board (ARB) to begin developing discrete early actions to reduce greenhouse gases while also preparing a scoping plan to identify how best to reach the 2020 limit. A scoping plan is expected sometime in 2021. The program starts with an enforceable compliance obligation beginning with the 2014 GHG emissions. The cap and trade program includes an enforceable emissions cap that will decline over time. The State distributes allowances, which are tradable permits, equal to the emissions allowed under the cap. Sources under the cap will need to surrender allowances and offsets equal to their emissions at the end of each compliance period. The District is subject to AB 32 and became subject to the requirements under the cap and trade program in 2013. The allowances distributed to the District from the State for the District's retail customers are used in operations. There is no s in service capacity and no asset has been recognized.

Subsequent events

Subsequent events have been assessed through April 27, 2021.

Recent accounting pronouncements

In June 2017, the GASB issued Statement No. 87, *Leases* (GASB 87). This statement establishes a single approach to accounting for and reporting leases based on the principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. Limited exceptions to the single-approach guidance are provided for short-term leases, defined as lasting a maximum of twelve months at inception, including any options to extend, financed purchases, leases of assets that are investments and certain regulated leases. This statement is effective for TID in 2023. TID is currently assessing the financial statement impact of adopting this statement.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 2 – Summary of Significant Accounting Policies (continued)

In May 2019, the GASB issued Statement No. 91, *Conduit Debt Obligations*. The primary objective of GASB 91 is to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with commitments extended by issuers, arrangements associated with conduit debt obligations, and related note disclosures. This statement is effective for TID in 2022. TID is currently assessing the financial statement impact of adopting this statement.

In January 2020, the GASB issued Statement No. 92, *Omnibus 2020*. The objectives of GASB 92 is to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB statements. This statement is effective for TID in 2022. TID is currently assessing the financial statement impact of adopting this statement.

In March 2020, the GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*. Some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR), most notably the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates. The objective of this statement is to address accounting and financial reporting implications that result from the replacement of an IBOR. This statement is effective for TID in 2023. TID is currently assessing the financial statement impact of adopting this statement.

In May 2020, GASB issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. The objective of this Statement is to provide temporary relief from certain new accounting and financial reporting requirements in light of the COVID-19 pandemic. The Statement is effective immediately and the Board has adopted the provisions for the year ended December 31, 2020.

In May 2020, GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements* (GASB 96), to provide guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for governments. The statement (1) defines a SBITA as a contract that conveys control of the right to use another party's information technology software, alone or in combination with tangible capital assets, as specified in the contract for a period of time in an exchange or exchange-like transaction; (2) establishes that a SBITA results in a right-to-use subscription asset and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in GASB No. 87, *Leases*, as amended. This statement is effective for the Authority in fiscal year 2023. The Authority is currently assessing the financial statement impact of adopting this statement.

Note 4 – Participation in Joint Powers Agencies

Transmission Agency of Northern California

TID is a member of the Transmission Agency of Northern California (TANC), a JPA consisting of fifteen municipal utilities. TANC is a participant, with a 79.3% share of the California-Oregon Transmission Project (COTP) and other facilities for electric power transmission. TANC develops, operates and manages these projects. The COTP provides electric transmission between the Pacific Northwest and California. TID's entitlement share of TANC's portion of the COTP and other facilities is 17.4%, representing approximately 237 megawatts (MW) of transmission capacity. TID also has a 7.4% entitlement share of TANC's transmission under the South of Tesla transmission agreements, which provides TID with 22 MW of transmission during normal operating conditions between Tesla and Midway.

Under the TANC agreements, TID is responsible for TANC's development, operating and debt service costs on a take-or-pay basis proportionate to its entitlement share. During 2020 and 2019, TID's total expenses in connection with its TANC agreements, included in purchased power expense, totaled \$7,753 and \$5,356, respectively. At December 31, 2020 and 2019 TID has an affiliate receivable due from TANC of \$14,169 and \$14,386, respectively.

Turlock Irrigation District

Notes to Consolidated Financial Statements

(dollars in thousands)

Note 4 – Participation in Joint Powers Agencies (continued)

The long-term debt of TANC is collateralized by a pledge and assignment of net revenues of each JPA, supported by the take-or-pay commitments of TID and other members. As such, TID is contingently obligated for its proportionate share of TANC's liabilities of \$305,096 at December 31, 2020. Should other members of TANC default on their obligations to these JPAs, TID would be required to make "step up" payments, up to 25% of its proportionate share, to cover a portion of the defaulted payments and would be entitled to the same proportion of additional transmission.

Historically, there have been no defaults by members of TANC. To obtain audited financial statements of TANC, contact TANC at 35 Iron Point Circle, Suite 225 Folsom, CA 95630.

Northern California Power Agency (NCPA)

While NCPA develops and operates numerous projects for the generation and transmission of electric power, TID participates in two of NCPA's geothermal projects. TID has a 6.3% entitlement share in the capacity and energy from NCPA Geothermal Plants 1 and 2 (the Geothermal Project). TID is responsible for development, operating and debt service costs on a take-or-pay basis in proportion to its entitlement share. TID's expenses relating to the Geothermal Project, included in purchased power expense, were \$2,062 and \$2,030 in 2020 and 2019, respectively.

The long-term debt of NCPA is collateralized by a pledge and assignment of net revenues of each JPA, supported by the take-or-pay commitments of TID and other members. As such, TID is contingently obligated for its proportionate share of NCPA's debt related to the Geothermal Project of \$982 at December 31, 2020. Should other members of NCPA default on their obligations to these JPAs, TID would be required to make "step up" payments, up to 25% of its proportionate share, to cover a portion of the defaulted payments and would be entitled to the same proportion of additional power production. Historically, there have been no defaults by members of NCPA. To obtain audited financial statements of NCPA, contact NCPA at 651 Commerce Drive, Roseville, CA 95678.

Turlock Irrigation District
Notes to Consolidated Financial Statements

(dollars in thousands)

Note 5 – Cash, Cash Equivalents, and Investments

TID's investment policies are governed by the California Government Code and its Bond Indentures, which restrict TID's investment securities to obligations which are unconditionally guaranteed by the U.S. government or its agencies; direct and general obligations of the State or any local agency within the State; obligations of international agencies incorporated by authority of an act of Congress; commercial paper; certificates of deposit; time certificates of deposit; repurchase agreements; medium-term corporate notes; shares of beneficial interest; mortgage pass-through securities; and deposits with the LAIF and CAMP.

TID's investment policy includes restrictions for investments relating to maximum amounts invested as a percentage of the total portfolio and with a single issuer, maximum maturities, and minimum credit ratings.

Credit risk

To mitigate the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment, TID limits investments to those rated, at a minimum, "A1" or equivalent for medium-term notes and "A" for commercial paper by a nationally recognized rating agency. The following schedule presents the credit risk at December 31, 2020 and 2019. The credit ratings listed are from Standard and Poor's as of December 31, 2020. NR means not rated.

	90,834	105,141
	\$ 414,427	\$ 427,824

Custodial credit risk

This is the risk that in the event of the failure of a depository financial institution or counterparty to a transaction, TID's deposits may not be returned or TID will not be able to recover the value of its deposits, investments or collateral securities that are in the possession of another party. TID does not have a deposit policy for custodial credit risk. At December 31, 2020 and 2019, TID had deposits totaling \$1,257 and \$1,204, respectively, which are insured by the FDIC. The remaining deposits of \$108,689 and \$103,722 are uncollateralized and uninsured at December 31, 2020 and 2019, respectively. TID's money market mutual fund is collateralized with shares held by the pledging bank's trust department, who is acting as TID's agent. All investments are held in TID's name. Investments in the LAIF and CAMP at December 31, 2020 and 2019, of \$112,366 and \$131,232, respectively, were uninsured and uncollateralized.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 5 – Cash, Cash Equivalents, and Investments (continued)

Concentration of credit risk

This is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. TID places no limit on the amounts invested in any one issuer for federal agency securities, except for mortgage pass through securities, which may not exceed 20% of TID's portfolio. For disclosure purposes, investments issued or explicitly guaranteed by the U.S. government and investment in mutual funds and external investment pools are not required to be evaluated for concentration of credit risk. The following are the concentrations or risk representing 5% or greater in a single issuer in either year, all of which are government sponsored enterprises:

	<u>2020</u>	<u>2019</u>
Investment type		
Federal National Mortgage Association (Fannie Mae)*	21%	N/A

*Does not represent 5% or more at December 31, 2019

Interest rate risk

Although TID has restrictions as to the maturities of some of the investments, it does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increases in interest rates. All of TID's cash and cash equivalents have original maturities of 90 days or less. Investments maturing within one year are classified as current. At December 31, 2020 and 2019, TID has investments with original maturities of greater than 90 days, which are therefore subject to increased interest rate risk. The following schedules indicate the interest rate risk at December 31:

	<u>2020</u>	<u>Weighted Average Maturity (Years)</u>
Investment type		
Corporate notes	\$ 28,135	2.07
Government sponsored enterprises	51,831	2.66
Municipal notes	5,707	2.74
Certificates of deposits	12,131	1.19
Asset-backed securities	17,502	3.20
International government bonds	2,318	2.64
Bank Note	751	2.44
U.S. Treasury notes	73,738	1.62
	<u>\$ 192,113</u>	

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 5 – Cash, Cash Equivalents, and Investments (continued)

	2019	Weighted Average Maturity (Years)
Investment type		
Corporate notes	\$ 30,436	1.97
Government sponsored enterprises	12,283	4.65
Municipal notes	1,737	1.25
Certificates of deposits	13,991	1.61
Asset-backed securities	22,526	3.16
International government bonds	5,393	1.38
U.S. Treasury notes	94,495	1.85
Total fair value	\$ 180,861	

In accordance with provisions of the credit agreements relating to certain of TID's long-term debt obligations, restricted funds are maintained at levels set forth in the agreements to provide for debt service reserve and project funding requirements. These funds are held by trustees and have maturities no later than the expected date of the use of the funds.

Note 6 – Long-Term Debt

Long-term debt consists of the following at December 31:

	2020	2019
Revenue bonds, fixed interest rates of 4.0% to 5.5%, maturing through 2046	\$ 404,920	\$ 459,925
WECA revenue bonds, fixed interest rates of 5.0% to 6.2%, maturing through 2037	190,765	197,750
TWPA revenue bonds, fixed interest rates of 5.0% to 6.9%, maturing through 2034	295,635	309,790
Total long-term debt outstanding	891,320	967,465
Less		
Current portion	(34,320)	(31,885)
Unamortized premiums and discounts, net	119,246	108,382
Total long-term debt, net	\$ 976,246	\$ 1,043,962

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 6 – Long-Term Debt (continued)

Refunding

In October 2019, TID issued revenue refunding bonds, Series 2019, totaling \$92,655, the proceeds of which were combined with \$10,458 from a reserve fund and other available funds, and were used to refund of the remaining 2011 Series A revenue refunding bonds of \$181,410, through a legal defeasance. Accordingly, the liability for the defeased bonds has been removed from long-term debt in the consolidated statements of net position. This refunding resulted in a net deferred accounting loss of \$5, which was expensed during 2019. The refunding reduced aggregate debt service payments by \$8,150 and resulted in a total economic gain of \$1,619.

Concurrent with the TID revenue refunding bonds, Series 2019, WECA revenue refunding bonds, 2019 Series A in the amount of \$61,315 were issued. The proceeds from the issued WECA revenue refunding bonds, 2019 Series A, were combined with \$6,576 from a reserve fund, and used to refund the remaining WECA revenue bonds, 2010 Series A, totaling \$84,515, through a legal defeasance. Accordingly, the liability for the defeased bonds has been removed from long-term debt in the consolidated statements of net position. This refunding resulted in a net deferred accounting gain of \$774, which is being amortized over the life of the refunding issue. The refunding reduced aggregate debt service payments by \$36,013 and resulted in a total economic gain of \$30,497.

In addition to the TID revenue refunding bonds, Series 2019 and the WECA revenue refunding bonds, 2019 series A, TID entered into a forward delivery agreement to refund the TID First Priority Subordinated Revenue Refunding Bonds, Series 2011. TID revenue refunding bonds, Series 2020, in the amount of \$137,150, was issued in October 2020. The proceeds from the issued TID revenue refunding bonds, 2020 Series A, were combined with \$21,572 from a reserve fund, and used to refund the remaining TID First Priority Subordinated Revenue Refunding Bonds, Series 2011, totaling \$181,410, through a legal defeasance. The refunding reduced aggregate debt service payments by \$60,827 and resulting in a total economic gain of \$45,708.

The Build America Bonds were sold as a taxable issue and TID receives a federal subsidy of 32%, as reduced by sequester, of the interest paid on the bonds. For the years ended December 31, 2020 and 2019, TID received \$3,458 and \$3,449 in this federal subsidy which is included in other income on the statement of revenues, expenses, and changes in net position.

The summarized activity of TID's long-term debt during 2020 and 2019 is presented below:

	December 31, 2019	Additions	Payments and Amortization	December 31, 2020	Amounts Due Within One Year
Revenue bonds	\$ 967,465	\$ 137,150	\$ (213,295)	\$ 891,320	\$ 34,320
	967,465	137,150	(213,295)	891,320	<u>\$ 34,320</u>

Component unit debt

The TWPA and WECA revenue bonds are payable solely from the unconditional payments made by TID under Power Purchase Agreements with both TWPA and WECA, and also include amounts held by a trustee for the benefit of the registered owners of the bonds. TID has an unconditional obligation to make all payments to TWPA and WECA, regardless of the output of the projects. TID guarantees to make payments sufficient to pay principal and interest and all other payments required to be made under the Power Purchase Agreements. TWPA and WECA are not required to repay TID for any amounts under this guarantee.

General

The revenue bonds are collateralized by a pledge of, and a lien on, the revenues of the entire electric and irrigation system after deducting maintenance and operation costs, as defined in the bond resolutions. The 2011 Revenue Refunding Bonds, the TID first priority subordinated revenue refunding bonds, Series 2014 and the TID first priority subordinated revenue refunding bonds, Series 2016 are subordinate to the 2010 revenue refunding bonds. As noted above, the 2010 revenue refunding bonds were refunded and therefore the above mentioned TID bonds are no longer subordinated as of the refunding date. TID's bond resolutions contain various covenants that include requirements to maintain minimum debt service coverage ratios, certain financial ratios, stipulated minimum funding of revenue bond reserves, and various other requirements.

Fixed rate revenue bonds totaling \$89,510, \$141,425, and \$194,435 may be subject to redemption during 2024, 2027 and 2031, respectively, by TID without a premium or discount. Fixed rate revenue bonds totaling \$188,350 may be subject to redemption by TID at any interest date with a make whole premium.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 6 – Long-Term Debt (continued)

TID's scheduled future annual principal maturities and interest are as follows at December 31, 2020:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$ 34,320	\$ 46,105	\$ 80,425
2022	37,780	44,204	81,984
2023	39,925	42,190	82,115
2024	42,740	40,003	82,743
2025	45,495	37,676	83,171
2026-2030	241,775	151,230	393,005
2031-2035	281,740	70,510	352,250
2036-2040	114,110	23,658	137,768
2041-2045	48,930	4,658	53,588
2046	4,505	-	4,505
	<u>\$ 891,320</u>	<u>\$ 460,234</u>	<u>\$ 1,351,554</u>

Note 7 – Commercial Paper

TID utilizes a commercial paper program which is the WECA commercial paper program, which is used to finance capital expenditures up to \$60,000, primarily WECA improvements and gas field capital expenditures. At December 31, 2020 and 2019, the balance outstanding was \$29,496 and \$33,878, respectively, under this commercial paper program, of which \$11,665 and \$12,447 was taxable at December 31, 2020 and 2019, respectively. The effective interest rate for the commercial paper outstanding at December 31, 2020 and 2019 was 0.20% and 1.37%, respectively, and the average term was 85 and 46 days, respectively. A letter of credit of \$65,400 supports the sale of the commercial paper and TID incurs an annual fee for this service. There has not been a term advance under the letter of credit, which expires in September 2022. The counterparty to the letter of credit is a national bank whose credit rating is AA-Stable (Standard & Poor's).

The activity of TID's commercial paper during 2020 and 2019 is presented below:

	<u>2020</u>	<u>2019</u>
BALANCES, beginning of year	\$ 33,878	\$ 99,764
Additions	-	38,557
Payments	<u>(4,382)</u>	<u>(104,443)</u>
BALANCES, end of year	<u>\$ 29,496</u>	<u>\$ 33,878</u>

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 8 – Regulatory Deferrals

TID's Board has taken various regulatory actions that result in differences between recognition of revenues and expenses for rate-making purposes as reflected in these consolidated financial statements and as incurred. These actions result in regulatory assets and credits. Regulatory balances are as follows:

Regulatory assets

Regulatory assets consist of the following at December 31:

	2020	2019
Debt issuance costs	\$ 6,669	\$ 7,556
Pension costs	40,351	43,041
	\$ 47,020	\$ 50,597

Regulatory credits

Regulatory credits consist of the following at December 31:

	2020	2019
Electric rate stabilization	\$ 46,678	\$ 46,678
Power supply adjustment	103,961	78,026
Deferred auction sales	-	1,733
Unrealized gain on investments	2,660	1,810
	\$ 153,299	\$ 128,247

Regulatory assets

Debt issuance costs – The debt issuance costs will be collected through retail rates over the life of the respective debt and therefore will be expensed over the life of the respective debt. Accordingly, costs incurred in connection with the issuance of debt obligations, principally underwriters' and legal fees, are deferred on the statement of net position as a regulatory asset and are amortized into interest expense over the terms of the related obligations using the effective interest method.

Pension costs – TID established a regulatory asset for pension costs related to the adoption of GASB 68 which required TID to record a net pension liability. The regulatory asset is being amortized over 20 years, which began in 2016.

Turlock Irrigation District

Notes to Consolidated Financial Statements

(dollars in thousands)

Note 8 – Regulatory Deferrals (continued)

Regulatory credits

Electric rate stabilization – These amounts are recognized as increases in income in future periods based on a rate program approved by the Board which releases rate stabilization amounts under identified circumstances. As part of the 2019 budget, the Board elected to utilize funds to from the electric rate stabilization regulatory account to fund certain capital projects; as a result, \$9,570 was utilized to fund capital projects for the year ending December 31, 2019.

Power supply adjustment – TID’s rate schedule power supply adjustment (PSA) billing factor provides for an adjustment to the kilowatt-hour (KWh) portion of customer bills to reflect variations in the variable cost of power supply, which comprises purchased power, fuel used for generation of electric energy and gas field costs including related capital costs, reduced by revenue from wholesale sales of gas and energy to other entities. The PSA rate is reset semi-annually in June and December. The Board has limited reset amounts to (\$0.005) to \$0.01 per KWh. A balancing account is maintained in an amount by which the energy revenues collected from retail customers are less than (or more than) the actual cost of power supply. Excesses or (deficiencies) in the balancing account are managed by increasing (or decreasing) the PSA billing factor. During 2020, \$25,935 was added to the deferred power supply regulatory account. During 2019, \$30,235 was added to the deferred power supply regulatory account.

Deferred auction sales – TID has participated in the carbon allowance auctions under AB-32, the Global Warming Solutions Act. In 2014, the Board authorized the deferral of AB-32 auction proceeds from the sale of emission credits, to match the revenue recognition with the related expenses. The difference between the auction proceeds received and the funds spent on AB-32 programs will be deferred into future years. As funds are spent on AB-32 programs the deferred auction sales are recognized in rates. TID has spent less than it has collected in AB-32 revenues and has recorded a regulatory credit of \$0 and \$1,733 at December 31, 2020 and 2019, respectively.

Unrealized gain on investments – TID defers unrealized holding gains and losses on its investments until such investments mature or are sold which is consistent with TID’s rate setting process.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 9 – Derivative Financial Instruments

TID enters into contracts for the purchase of electricity to meet the expected needs of its retail customers and for the purchase, transportation and storage of natural gas to meet its generation needs. TID also enters into hedging transactions to reduce the price volatility of some of these agreements. Many of these contracts are considered derivative financial instruments under the provisions of GASB 53. For those contracts, substantially all of the electricity contracts and most of the gas related contracts qualify as normal purchases or normal sales under GASB 53 because TID takes or makes delivery under the related contract, and as a result, the contracts are not required to be recorded at fair value. The fair values of TID's derivative instruments that are not considered normal purchases or normal sales are as follows:

	December 31,	
	2020	2019
Derivative financial instrument assets		
Gas related contracts	\$ 156	\$ 286
Electric related contracts	-	-
Total derivative financial instruments	156	286
Less: current portion	(156)	(286)
	\$ -	\$ -
Derivative financial instrument liabilities		
Gas related contracts	\$ 4,419	\$ 5,920
Electric related contracts	-	-
Total derivative financial instruments	4,419	5,920
Less: current portion	(681)	(1,130)
	\$ 3,738	\$ 4,790

Turlock Irrigation District

Notes to Consolidated Financial Statements

(dollars in thousands)

Note 10 – Fair Value Measurements

GASB 72 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). TID utilizes market data or assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique.

GASB 72 establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy defined by GASB 72 are as follows:

Level 1 – inputs are quoted prices (unadjusted inactive markets for identical assets or liabilities).

Level 2 – inputs are inputs other than quoted prices included in Level 1 that are observable for an asset or liability, either directly or indirectly.

Level 3 – inputs are unobservable inputs that reflect TID's own assumptions about factors that market participants would use in pricing the asset or liability.

The valuation methods of the fair value measurements are as follows:

CAMP – uses the net asset value per share as determined by the portfolio manager multiplied by the number of shares held. The portfolio includes investments exclusively in the following authorized investments: U.S. government and agency obligations, repurchase agreements collateralized by U.S. government and agency obligations, negotiable certificates of deposit, bankers' acceptances and commercial paper. The fair values of the securities are generally based on quoted market prices for similar assets.

LAIF – uses the fair value of the pool's share price multiplied by the number of shares held. This pool can include a variety of investments such as U.S. government securities, federal agency securities, negotiable certificates of deposit, bankers' acceptances, commercial paper, corporate bonds, bank notes, and other investments. The fair values of the securities are generally based on quoted market prices for similar assets.

Government sponsored enterprises – uses a market based approach which considers yield, price of comparable securities, coupon rate, maturity, credit quality and dealer-provided prices.

U.S. Treasury notes – uses prices quoted in active markets for those securities.

Corporate notes – uses a market based approach. Evaluations are based on various market and industry inputs.

Municipal notes – uses a market approach based on institutional note quotes. Evaluations are based on various market and industry inputs.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 10 – Fair Value Measurements (continued)

Asset-backed securities – uses a market approach based on institutional note quotes. Evaluations are based on various market and industry inputs.

International government bonds – uses a market approach based on institutional note quotes. Evaluations are based on various market and industry inputs.

Certificates of deposit – uses a market approach based on institutional note quotes. Evaluations are based on various market and industry inputs.

Money market mutual fund – uses a net asset value as determined by the fund manager. Money market mutual fund may include several different underlying obligations, of which at least 80% of the net assets are invested in U.S. Government obligations including, U.S. Treasury obligations and obligations of U.S. Government Agencies, authorities, instrumentalities, or sponsored enterprises obligations, and municipal securities.

The following table identifies the level within the fair value hierarchy that TID's financial assets and liabilities were accounted for on a recurring basis as of December 31, 2020 and 2019, respectively. As required by GASB 72, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. TID's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of the fair value of liabilities and their placement within the fair value hierarchy levels.

	Fair Value as of December 31, 2020		
	Level 1	Level 2	Total

Note 11 – Fiduciary Fund Retirement Plan

Plan description and benefits provided

TID has a single-employer group defined benefit pension plan, The Amended and Restated Plan for Employees and Elective Officers of Turlock Irrigation District, (the "Retirement Plan") which provides retirement benefits covering substantially all of its employees. Employees who have completed one year of continuous service can elect to participate in the plan, but are not required to. For participants that became eligible for the Retirement Plan prior to January 1, 2013 they may retire after age 55 with benefits based on compensation and years of service to actual retirement date. For those participants that become eligible on or after January 1, 2013, they may retire after age 52 with benefits based on compensation and years of service to actual retirement date. As of each anniversary date (January 1 of each year), a retiree whose pension is being paid shall have their monthly pension subjected to a cost-of-living adjustment, as defined under the Retirement Plan. The Retirement Plan also provides death benefits for those participants having reached age 55 or 52 depending on when participants became eligible for the Retirement Plan.

TID, through the action of its Board, may amend or establish Retirement Plan provisions. The Board has appointed third parties to carry out substantially all administrative responsibilities, including custody of the Retirement Plan assets and as a result, excludes the pension trust funds from these financial statements. The Retirement Plan is a governmental plan under section 414(d) of the Internal Revenue Code (IRC). Copies of the Retirement Plan's annual financial report may be obtained from TID's executive office at 333 East Canal Drive, Turlock, California 95381. The Retirement Plan's annual financial report is the responsibility of TID.

(dollars in thousands)

Note 11 – Fiduciary Fund Retirement Plan (continued)

Summary of significant accounting policies

For purposes of measuring net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Retirement Plan and additions to/deductions from the Retirement Plan's fiduciary net position have been determined on the same basis as they are reported by the Retirement Plan.

For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

Funding policy

To participate in the Retirement Plan, employees who are not members of a bargaining unit and are eligible for the Retirement Plan are required to contribute 3.25% of their earnings and employees who are members of a bargaining unit are required to contribute 4.25% of their earnings. Beginning July 1, 2020, employees who are not members of a bargaining unit and bargaining unit members' contributions increased to 4.25% and 5.25% of their earnings, respectively. Employees hired or that become eligible after January 1, 2013 are required to contribute 50% of the normal cost rate of the plan rounded to the nearest quarter of 1% as actuarially determined annually. However, the contribution rate will only adjust when the normal cost rate of the plan increases or decreases by more than 1% of payroll. For December 31, 2020 and 2019, the contribution rate for employees hired or that became eligible after January 1, 2013 was 5.5%. Under the Retirement Plan provisions established by the Board, the Retirement Plan is to be funded in amounts equal to the normal costs of the Retirement Plan plus an amortization of the past service liability. Contributions made by the employees vest immediately. Contributions made by TID are fully vested after five years of participation. For the years ended December 31, 2020 and 2019, TID made contributions of \$15.3 million and \$15.3 million, which includes \$2.0 million and \$1.8 million of employee contributions, respectively.

Investment policy

The Retirement Plan's investment policies are governed by the Pension Investment Committee. The Retirement Plan's investment policy includes restrictions for investments relating to Maximum amounts invested as a percentage of allocated portfolios to individual investment managers and with a single issuer, and minimum credit ratings.

Credit risk

To mitigate the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment, the Retirement Plan limits investments to those rated, at a minimum, "Baa" or equivalent for fixed income securities and "A-1" for cash instruments.

Custodial credit risk

This is the risk that in the event of the failure of a depository financial institution or counterparty to a transaction, the Retirement Plan's deposits may not be returned or the Retirement Plan will not be able to recover the value of its deposits, investments or collateral securities that are in the possession of another party. The Retirement Plan does not have a deposit policy for custodial credit risk. At the Retirement Plan's fiscal year-end of June 30, 2020 and June 30, 2019, the Retirement Plan held no cash and cash equivalents collateralized with securities held by the pledging bank's trust department.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 11 – Fiduciary Fund Retirement Plan (continued)

Concentration of credit risk

This is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. As noted above, the Retirement Plan places limits on the amount an investment manager can invest in one security. Non-participant directed investments as of the Retirement Plan's fiscal year-end of June 30, 2020 and June 30, 2019 are summarized as follows:

		June 30,	
		2020	2019
Non-participant directed investments greater than five percent of the Plan's fiduciary net position:			
DFA International Core Equity Portfolio	International stocks and mutual funds	\$ 27,534	\$ 28,149
DFA Emerging Markets Core Equity Portfolio	International stocks and mutual funds	19,550	19,186
DFA US L/C Value Portfolio	Domestic stocks and mutual funds	32,022	34,089
Vanguard Institutional Index Func	Domestic stocks and mutual funds	36,147	36,061
		115,253	117,485
Aggregate of non-participant directed investments less than five percent of the Plan's fiduciary net position		202,341	192,285
		\$ 317,594	\$ 309,770

Foreign currency risk

The Retirement Plan's exposure to foreign currency risk derives from its positions in foreign currency-denominated securities. The Retirement Plan's investment policy permits its investment managers to invest up to 10 percent of the total investments under their management in foreign currency-denominated investments. At the Retirement Plan's fiscal year-end June 30, 2020 and June 30, 2019 the Retirement Plan held no investments in foreign currency denominations.

Money weighted rate of return

For the fiscal years ended June 30, 2020 and 2019, the annual money weighted rate of return on retirement plan investments, net of investment expense, was 0.74% and 3.32%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 11 – Fiduciary Fund Retirement Plan (continued)

Interest rate risk

Though the Retirement Plan has restrictions as to the credit rating of fixed income securities, it does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increases in interest rates. As of the Retirement Plan's fiscal year-end June 30, 2020 and June 30, 2019, the Retirement Plan had the following investments with maturities:

Investment Type	Fair Value	Investment Maturities (in Years) at June 30, 2020			
		Less than 1	1 to 5	6 to 10	More than 10
Asset-backed securities and CMOs	\$ 22,603	\$ -	\$ 283	\$ 1,880	\$ 20,440
Commercial bonds	40,028	2,809	20,735	8,585	7,899
U.S. agencies	165	-	-	-	165
U.S. treasuries	1,557	389	742	197	229
Total	\$ 64,353	\$ 3,198	\$ 21,760	\$ 10,662	\$ 28,733

Investment Type	Fair Value	Investment Maturities (in Years) at June 30, 2019			
		Less than 1	1 to 5	6 to 10	More than 10
Asset-backed securities and CMOs	\$ 25,701	\$ 1,980	\$ 374	\$ 766	\$ 22,581
Commercial bonds	39,363	4,271	23,172	6,807	5,113
U.S. agencies	151	-	-	-	151
U.S. treasuries	1,249	-	1,249	-	-
Total	\$ 66,464	\$ 6,251	\$ 24,795	\$ 7,573	\$ 27,845

Employees covered by benefit terms

At December 31, 2020, the number of employees covered by the Retirement Plan was:

Inactive employees or beneficiaries currently receiving benefit payments	445
Inactive employees entitled to but not yet receiving benefit payments	82
Active employees	440
	<u>967</u>

Net pension liability

TID's net pension liability was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation date of January 1, 2020, rolled forward on an actuarial basis.

Turlock Irrigation District

Notes to Consolidated Financial Statements

(dollars in thousands)

Note 11 – Fiduciary Fund Retirement Plan (continued)

Actuarial assumptions

The actuarial methods and assumptions used for the December 31, 2020 total pension liability are as follows:

- Investment rate of return applied to assets of 7.00%;
- Discount rate of 7.00%, net of pension plan investment expense, including inflation;
- Cost of living adjustment of 2.25%;
- Inflation of 2.25%; and
- Salary increases projected on a sliding schedule based on years of service, ranging from 5.75% down to 2.25%.

The mortality assumption was updated to Pri-2012 projected with scale MP-2019 generational improvements. Based on the nature of the work, workforce, and benefit offering of TID, the actual mortality experience of TID's employees is expected to be more in line with the general US population mortality study than the Public Plan Study.

Given the size of the Retirement Plan, there is limited data available to conduct a credible experience study in all assumption areas. The liabilities and data are analyzed each year in order to identify any trends of experience deviating from the actuarial assumptions.

Discount rate

The discount rate used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 11 – Fiduciary Fund Retirement Plan (continued)

The long-term expected rate of return on Retirement Plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These expected future real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Retirement Plan's target asset allocation as of December 31, 2020 are summarized in the following table:

	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Major asset classes		
Fixed income obligations and mutual funds	29.00%	2.75%
Domestic equities	36.90%	5.00%
International equities	25.10%	5.75%
Alternative assets/private equity	8.00%	6.25%
Cash	<u>1.00%</u>	0.50%
Total	<u><u>100.00%</u></u>

Notes to Consolidated Financial Statements
(dollars in thousands)

Note 11 – Fiduciary Fund Retirement Plan (continued)

Changes in net pension liability

The changes in TID’s net pension liability for the year ended December 31, 2020 are as follows:

	Total Pension Liability (a)	Increase (Decrease) in Plan Fiduciary Net Position (b)	Net Pension Liability (a)-(b)
BALANCES, January 1, 2020	\$ 368,044	\$ 340,915	\$ 27,129
Changes for the year:			
Service cost	8,450	-	8,450
Interest cost	27,481	-	27,481
Difference between expected and actual experience	1,148	-	1,148
Change of assumption	19,359	-	19,359
Contributions – employer	-	13,240	(13,240)
Contributions – employee	-	2,039	(2,039)
Benefit payments	(20,154)	(20,154)	-
Investment income	-	42,806	(42,806)
Administrative expenses	-	(360)	360
Other changes	-	45	(45)
Net changes	36,284	37,616	(1,332)
BALANCES, December 31, 2020	<u>\$ 404,328</u>	<u>\$ 378,531</u>	<u>\$ 25,797</u>

Since the prior measurement date of January 1, 2019, the following changes of assumptions affected the total pension liability.

	January 1, 2020	January 1, 2019
Assumption		
Investment rate of return	7.00%	7.50%
Discount rate	7.00%	7.50%
Cost of living adjustment	2.25%	2.75%
Inflation	2.25%	2.75%

Additionally, the mortality assumption was updated to Pri-2012 projected with scale MP-2019 generational improvements. Based on the nature of the work, workforce, and benefit offering of TID, the actual mortality experience of TID’s employees is expected to be more in line with the general US population mortality study than the Public Plan Study.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 11 – Fiduciary Fund Retirement Plan (continued)

Sensitivity of the net pension liability to changes in the discount rate

The following presents the net pension liability as of December 31, 2020, calculated using the discount rate of 7.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Net pension liability	\$ 79,230	\$ 25,797	\$ (18,469)

Pension plan fiduciary net position

Detailed information about the Retirement Plan’s fiduciary net position is available in the separately issued Retirement Plan financial statements, which are typically available 210 days after the fiscal year end.

Pension expense and deferred outflows of resources and deferred inflows of resources related to pensions

For the years ended December 31, 2020 and 2019, TID recognized pension expense of \$13.6 million and \$18.1 million, respectively.

At December 31, 2020, TID reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Summarized statement of net position		
Differences between expected and actual experience	\$ 6,059	\$ 478
Changes of assumptions	22,466	-
Net difference between projected and actual earnings on pension plan investments	18,136	37,281
Total	\$ 46,661	\$ 37,759

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 11 – Fiduciary Fund Retirement Plan (continued)

The balances as of December 31, 2020 of the deferred outflows/(inflows) of resources will be recognized in pension expense for each of the years ending December 31, as follows:

Years ending December 31, 2021	\$ 3,454
2022	7,690
2023	(5,686)
2024	26
2025	<u>3,418</u>
	<u>\$ 8,902</u>

Deferred compensation plan

TID offers its employees a deferred compensation plan (the “Deferred Plan”), which provides employees the option to defer part of their compensation until termination, retirement, death, or unforeseeable emergency. TID makes no contribution to the Deferred Plan. TID has the duty of reasonable care in the selection of investment alternatives, but neither TID nor its directors or officers have any liability for losses under the Deferred Plan. TID holds all deferred compensation assets in the name of the Deferred Plan, and accordingly, the Deferred Plan assets and corresponding liability are not recorded in the accounts of TID.

Note 12 – Other Post-Employment Benefits

TID provides post-retirement medical benefits in accordance with TID policy to qualified retirees and their spouses through TID’s Employee Health Care Plan (the “Health Plan”) until the retiree and participating spouse reach age 65. The Health Plan is part of the EIAHealth Program, which is a multi-employer public sector healthcare purchasing pool, for which EIAHealth is the administrator and through which the action of its Board may amend or establish Health Plan provisions. The qualification requirements for these benefits are the same as those under TID’s Retirement Plan.

The Board has appointed third parties to carry out certain administrative responsibilities. TID contributes the full cost of coverage for retirees; however, retirees contribute the estimated health care cost of dependents. For participants hired on or after January 1, 2018, TID contributes a percentage ranging from 50 percent to 100 percent of the retiree’s premium cost, based on years of service. At the time of retirement an employee may utilize the remaining balance of unused sick leave, at the rate defined in the employee’s applicable employee contract for one month’s medical coverage for an eligible dependent. Covered retirees are also responsible for personal deductibles and co-payments. Currently, 183 retirees and surviving dependents are receiving post-employment health care benefits.

TID participates in the CALPERS Pre-funding OPEB Plan, which is an irrevocable multi-employer trust and plan consisting of an aggregation of single-employer plans, with pooled administrative and investment functions. To obtain a CALPERS Pre-funding Plan report contact CALPERS at Lincoln Plaza North 400 Q Street, Sacramento, CA 95811.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 12 – Other Post-Employment Benefits (continued)

Employees covered by benefit terms

At June 30, 2020 the number of employees covered by the Health Plan was:

Inactive employees or beneficiaries currently receiving benefit payments	185
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	452
	637

Net OPEB asset

TID's net OPEB asset was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation date of June 30, 2019, rolled forward on an actuarial basis.

Contributions

The actuarially determined contributions were determined by actuarial valuations using the frozen entry age actuarial cost method.

Employer contributions were \$15,278 for the years ended December 31, 2020 and 2019. Total covered-employee payroll and contributions as a percentage of covered-employee payroll was \$43,756 and 34.92% for the year ended December 31, 2020. Total covered-employee payroll and contributions as a percentage of covered-employee payroll was \$39,392 and 38.78% for the year ended December 31 2019, respectively.

Actuarial methods and assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 12 – Other Post-Employment Benefits (continued)

In the most recent actuarial valuation the entry age actuarial cost method was used. The actuarial assumptions included a 7.00% investment rate of return per year, inflation rate of 2.75% per year, payroll increases range from 1.25% to 3.25% per annum based on years of service, in aggregate and an annual healthcare cost trend rate of 6.5% initially, reduced by decrements to an ultimate rate of 5% after four years. Assets of the Health Plan, as of the latest actuarial report, were valued on a market value basis. Future gains and losses may be averaged over five years subject to certain restrictions. The unfunded actuarial accrued liability (UAAL) is being amortized over rolling 15 years using a level dollar amortization method.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the OPEB plan's target asset allocation as of June 30, 2020 are summarized in the following table:

	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Major asset classes		
Global equity	59.00%	5.50%
Global debt securities	25.00%	1.35%
Inflation assets	5.00%	1.50%
Commodities	3.00%	1.75%
Real Estate Investment Trusts (REITs)	<u>8.00%</u>	3.65%
Total	<u><u>100.00%</u></u>

Note 13 – Asset Retirement Obligations

In 2019, TID adopted GASB issued Statement No. 83, *Certain Asset Retirement Obligations* (GASB 83). An Asset Retirement Obligation (ARO) is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this statement. GASB 83 establishes the criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs.

Recognition occurs when the liability is both incurred and reasonably estimable. The determination of when the liability is incurred should be based on the occurrence of external laws, regulations, contracts, or court judgments, together with the occurrence of an internal event that obligates the government to perform the asset retirement activities. GASB 83 requires the measurement of the ARO be based on the probability weighted best estimate of the current value of outlays expected to be incurred, and adjusted for general inflation or deflation at least annually. It requires a government to evaluate all relevant factors at least annually to determine whether the effects of one or more of the factors are expected to significantly change the estimated asset retirement outlays. The ARO should only be remeasured when the result of the evaluation indicates a significant change in the estimated outlays. GASB 83 also requires disclosures of descriptive information about the nature of a government's AROs including the methods and assumptions used for the estimates of the liabilities, the estimated remaining useful life of the associated tangible capital assets, how any funding and assurance requirements are being met, and the amount of any assets restricted for payment of the AROs (if not separately displayed in the financial statements).

If a liability for an ARO (or portions thereof) has been incurred by a government but is not yet recognized because it is not reasonably estimable, the government should disclose that fact and the reasons therefor.

Prior to the adoption of GASB 83, TID reported an ARO liability of \$4.4 million, which was included in Liabilities on the Consolidated Statements of Net Position, consistent with prior accounting standards.

The adoption of GASB 83, had no impact on the on beginning net position, but did result in an increase to deferred outflow of resources for asset retirement obligation of \$11.5 million, an increase in asset retirement obligation of \$10.0 million and a decrease to Utility Plant, net of \$1.5 million.

As described in Note 2 and 4, TWPA has a membership interest in a 136.6 MW wind farm, consisting of 62 wind-turbine generators located in Klickitat County, Washington and is a blended component unit of TID. In conjunction with the purchase of the Tuolumne Wind Project, TID recorded an ARO related to a decommissioning plan approved by Klickitat County. As the decommissioning plan represents a legal obligation to clean up the site at the retirement of the asset to comply with the approved contract with the Klickitat County, Washington, it meets the definition of an ARO. The Project is operated and maintained pursuant to an operating and maintenance agreement with the operator. During 2019, the operator obtained an estimate, from a third party, to determine the estimated cost of executing the decommissioning plan. The previous estimate had been performed at the time of purchase of the Tuolumne Wind Project. The estimate presented a list of the work that will be performed on site such as turbine removal, foundation removal and road removal. Cost estimates include labor and equipment use.

Turlock Irrigation District

Notes to Consolidated Financial Statements

(dollars in thousands)

Note 13 – Asset Retirement Obligations (continued)

The liability recognized for the ARO was \$14,580 and 14,430 for the year ended December 31, 2020 and 2019, respectively. The estimated remaining useful life of the Project is approximately 13 years. The deferred outflows recognized was \$10,018 and \$10,703 as of December 31, 2020 and 2019 and is amortized over the remaining useful life of the Project. During the years ended December 31, 2020 and 2019, TID recorded \$835 and \$823 of expense, respectively.

Note 14 – Commitments

Power sales agreement

TID supplies energy to Merced Irrigation District (MeID) under a ten-year Power Supply Agreement (MeID Agreement) that began on May 1, 2017. The price for the energy under the MeID Agreement is based on the market price of energy in California. However, MeID is obligated to provide for capacity resources under the MeID Agreement. The MeID Agreement includes certain ancillary services that can be competitively procured and for the provision of certain control room services. Transmission service and ancillary services provided by TID are addressed by a separate Interconnection and Transmission Agreement. Either Party may terminate the agreement on two-year's notice effective on an anniversary date not before 2021. Sales and services provided under the agreements totaled \$29,408 and \$27,275 in 2020 and 2019, respectively, and have been recorded in electric wholesale revenues within the statement of revenues, expenses and changes in net position.

Power purchase agreements

TID has a long-term power purchase agreement with a power producer to purchase capacity and associated energy to meet its load requirements, the contract expires in December 2024. Capacity and certain energy is purchased on a take-or-pay basis. Power purchased under the agreement totaled \$1,132 and \$1,984 in 2020 and 2019, respectively, and has been recorded in purchased power expense within the statement of revenues, expenses and changes in net position. During 2019, TID received a payment of \$3,876 for its share of the Coal inventory from a previous purchase power agreement that expired in 2018, which has been recorded in purchased power expense within the statement of revenues, expenses and changes in net position.

Gas purchase agreements

TID has three natural gas supply agreements with three counterparties to meet the consumption of its natural gas fired power plants. Each contract is with a different counterparty. The first contract obligates the fuel manager to supply all the natural gas required by TID's Walnut and Almond power plants (excluding the Almond 2 power plant) up to 27,000 million British Thermal Units (MMBtu) per day. This contract automatically renews for a 1-year term unless terminated by either party. The second contract obligates the fuel manager to supply all the natural gas required by the Walnut Energy Center up to 55,000 MMBtu per day. This contract expires on January 1, 2026.

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 14 – Commitments (continued)

The third contract obligates the fuel manager to supply all the natural gas required by the Almond 2 power plant up to 50,400 MMBtu per day. This contract expires on January 1, 2022. All contracts allow for TID to purchase gas from parties other than the fuel manager and obligate the fuel manager to purchase TID's excess gas. All contracts provide for pre-determined index-based prices or a mutually agreed upon price. Fuel purchased under the three agreements totaled \$30,342 and \$30,043 in 2020 and 2019, respectively, and has been recorded in generation and fuel expense within the statement of revenues, expenses and changes in net position.

Gas transportation capacity and storage agreements

TID has nine long-term gas transportation capacity agreements and one long-term gas storage agreement with Canadian and U.S. companies to transport natural gas to TID's natural gas fired power plants from gas supply basins in Alberta, Canada. The gas transportation capacity agreements complement TID's gas purchase agreements, described above, but expire through 2033. Payments under these agreements totaled \$3,164 and \$3,353 in 2020 and 2019, respectively, and have been recorded in generation and fuel expense within the statement of revenues, expenses and changes in net position.

The approximate future minimum obligations for the above described power purchase, gas supply, and gas transportation and storage contracts are as follows at December 31, 2020:

2021	\$ 6,471
2022	6,709
2023	3,057
2024	2,745
2025	2,410
Thereafter	<u>20,827</u>
	<u>\$ 42,219</u>

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 14 – Commitments (continued)

Solar power purchase agreement

TID has a twenty-year power purchase agreement to purchase 100% of the output from a 54 megawatt Solar Plant to assist TID in meeting its environment compliance requirements. TID purchases the output along with the environmental attributes as it is produced, which began in February 2017. Purchases under this agreement totaled \$6,073 and \$7,331 in 2020 and 2019, respectively, and have been recorded in purchased power expense within the statement of revenues, expenses and changes in net position. The annual purchases under the remaining term of the power purchase agreement (based on guaranteed energy production under the purchase power agreement) is estimated to as follows:

2021	\$ 7,703
2022	7,683
2023	7,664
2024	7,644
2025	7,625
Thereafter	<u>83,821</u>
	<u>\$ 122,140</u>

Biomass power purchase agreement

TID has a five-year power purchase agreement to purchase 4.48% of the output from an 18-megawatt biomass plant to assist TID in meeting its SB859 and environment compliance requirements. TID purchases the output along with the renewable energy credits as it is produced, which began in April 2018. Purchases under this agreement totaled \$2 and \$131 in 2020 and 2019, respectively, and have been recorded in purchased power expense within the statement of revenues, expenses and changes in net position. Energy deliveries under the power purchase agreement stopped in February 2020 due to the bankruptcy filing of the owner. Under the power purchase agreement, a letter of credit was issued for TID's benefit and available to be drawn. TID drew the full amount of the letter of credit in the amount of \$81 and is currently holding the drawn amount to mitigate potential damages resulting from the bankruptcy filing. The facility has been purchased by another owner and is expected to be running sometime in 2021. The annual purchases under the remaining term of the power purchase agreement (based on forecasted energy production) is estimated to as follows:

2021	\$ 620
2022	620
2023	<u>207</u>
	<u>\$ 1,447</u>

Turlock Irrigation District
Notes to Consolidated Financial Statements
(dollars in thousands)

Note 14 – Commitments (continued)

Land leases

TWPA has leases with nine land owners on which its turbines are located. The land owners are paid a fixed price per kilowatt-hour based on the output of the respective turbines. Each agreement is for 20 years beginning in 2009 with two 10-year renewal options. Total expense for the years ended December 31, 2020 and 2019 was \$1,203 and \$1,034, respectively, and has been recorded in generation and fuel expense within the statement of revenues, expenses and changes in net position. The annual lease expense under the remaining initial term of the land leases (based on average wind data measured for 10 years) is estimated as follows:

2021	\$	1,154
2022		1,154
2023		1,154
2024		1,154
2025		1,154
Thereafter		5,039
	\$	10,809

Note 15 – Contingencies and Uncertainties

Novel coronavirus (COVID-19)

During 2020, an outbreak of a novel coronavirus (COVID-19) occurred in the United States, along with various other countries globally. On March 11, 2020, the World Health Cooperative assessed the novel coronavirus outbreak and characterized it as a pandemic. Subsequent to the declaration of a pandemic, a variety of federal, state, and local governments have taken actions in response to the pandemic, which have ranged by jurisdiction, but are generally expected to result in a variety of negative economic consequences, the scope of which are not currently known or quantifiable. The duration and intensity of the impact of the coronavirus and resulting impact to TID is unknown.

General contingencies

In the normal course of operations, TID is party to various claims, legal actions and complaints, including possible liability for environmental matters. Although the ultimate outcome of these matters is not presently determinable, TID’s management believes the resolution of all such pending matters will not have a material adverse effect on TID’s financial position.

Note 16 – Subsequent Events

Subsequent to year end, TID officially began participating in the California Independent System Operator’s Western Energy Imbalance Market (EIM) on March 24th. The EIM allows participants to buy and sell power close to the time the electricity is consumed and give operators real-time visibility across neighboring grids. TID believes that participation in EIM will allow TID to manage TID generating assets more effectively and improve reliability while reducing its carbon footprint and lowering costs.

Schedule of Retirement Plan Contributions (Unaudited)
December 31, 2020
(dollars in thousands)

Schedule of retirement plan contributions

The schedule of retirement plan contributions is presented below for the years for which TID has the available data. Ultimately, this schedule will present 10 years of data.

	2020	2019	2018	2017	2016
Actuarially determined contribution	\$ 12,132	\$ 11,859	\$ 11,413	\$ 13,372	\$ 12,975
Contributions in relation to the actuarially determined contribution	<u>15,278</u>	<u>15,278</u>	<u>15,278</u>	<u>50,279</u>	<u>15,279</u>
Contribution deficiency (excess)	<u>\$ (3,146)</u>	<u>\$ (3,419)</u>	<u>\$ (3,865)</u>	<u>\$ (36,907)</u>	<u>\$ (2,304)</u>
Covered-employee payroll	43,756	39,392	38,144	36,366	35,245
Contributions as a percentage of covered-employee payroll	34.92%	38.78%	40.05%	138.26%	43.35%
	2015	2014	2013	2012	2011
Actuarially determined contribution	\$ 11,863	\$ 15,324	\$ 14,417	\$ 14,514	\$ 12,340
Contributions in relation to the actuarially determined contribution	<u>15,279</u>	<u>46,561</u>	<u>15,279</u>	<u>13,083</u>	<u>12,338</u>
Contribution deficiency (excess)	<u>\$ (3,416)</u>	<u>\$ (31,237)</u>	<u>\$ (862)</u>	<u>\$ 1,431</u>	<u>\$ 2</u>
Covered-employee payroll	33,349	31,643	33,824	34,218	33,960
Contributions as a percentage of covered-employee payroll	45.82%	147.14%	45.17%	38.23%	36.33%

Notes to Schedule

The actuarially determined contributions for 2020 and 2019 were determined by actuarial valuations using the frozen entry age actuarial cost method. The actuarial assumptions utilized for the January 1, 2020 and 2019 actuarial valuations were as follows:

	January 1, 2020	January 1, 2019
Assumption		
Investment rate of return	7.00%	7.50%
Discount rate	7.00%	7.50%
Cost of living adjustment	2.25%	2.75%
Inflation	2.25%	2.75%

Realized and unrealized gains are phased in to the actuarial value of Retirement Plan assets over a three-year period, and may be adjusted so that the actuarial value of Retirement Plan assets are not less than 80% or more than 120% of the fair market value of the Retirement Plan's assets as of the current valuation date. The unfunded actuarial accrued liability (UAAL) is being amortized as a level percentage of projected payroll basis. The remaining amortization period in the latest actuary report was 15 years.

Covered-employee payroll	\$ 46,082	\$ 44,740	\$ 41,273
Plan net OPEB asset as a percentage of covered-employee payroll	-8.5%	-7.8%	-2.0%

Turlock Irrigation District
Schedule of OPEB Plan Contributions (Unaudited)
December 31, 2020
(dollars in thousands)

Schedule of OPEB plan contributions

The schedule of OPEB plan contributions is presented below for the years for which TID has the available data. Ultimately, this schedule will present 10 years of data.

	<u>2020</u>	<u>2019</u>	<u>2018</u>
Actuarially determined contribution	\$ 1,943	\$ 1,943	\$ 1,938
Contributions in relation to the actuarially determined contribution	<u>1,969</u>	<u>1,969</u>	<u>8,470</u>
Contribution deficiency (excess)	<u>\$ (26)</u>	<u>\$ (26)</u>	<u>\$ (6,532)</u>
Covered-employee payroll	46,082	44,740	41,273
Contributions as a percentage of covered-employee payroll	4.27%	4.40%	20.52%

Notes to Schedule

In the most recent actuarial valuation the entry age actuarial cost method was used. The actuarial assumptions included a 7.00% investment rate of return per year, inflation rate of 2.75% per year, payroll increases range from 1.25% to 3.25% per annum based on years of service, in aggregate and an annual healthcare cost trend rate of 6.5% initially, reduced by decrements to an ultimate rate of 5% after four years. Assets of the Health Plan, as of the latest actuarial report, were valued on a market value basis. Future gains and losses may be averaged over five years subject to certain restrictions. The unfunded actuarial accrued liability (UAAL) is being amortized over a rolling 15 year period, using a level dollar amortization method.

MOSSADAMS
