## Key Features

Crisp and Clear | Rich Colour from Every Angle | Enjoy The Lifelike Imagery of 10-Bit Colour | Industrial Colour Standard | Seamless viewing with narrow bezel

## Product Description

The ViewSonic® VG2719-2K is a 27" WQHD full ergonomic monitor with rich and accurate colour performance for graphic design, for office work and for home entertainment. Featuring a WQHD resolution panel (2560 x 1440) and SuperClear® IPS-Type technology, content is displayed in refined detail from virtually any viewing angle. WQHD resolution displays more content on the screen than FHD resolution, reduces scrolling and boosts productivity. The 10-bit colour depth, which produces 1.07 billion colours, and the 99% sRGB colour coverage ensures vivid colour reproduction for web content editing, graphic design or photo editing. VG2719-2K's ergonomic design offers a wide range of tilt, swivel, pivot, and height adjustments, while narrow bezel gives the monitor a clean aesthetic and is convenient for setting up multiple monitors side-by-side to improve workflow management. In addition, with optional ViewSplit software, users can divide, organize, and customize the screen layout for better workflow efficiency.
