Kraftform Kompakt Micro Set for precision applications. Suitable for the take-up of bits with 4 mm halfmoon drive (Wera Series 9) and bits with 4 mm HIOS drive (Wera Series 21); handle/interchangeable blade system for rapid blade exchange; Kraftform Micro handle with twist cap and rapid turn zone for accelerated twisting; no time-consuming repositioning of the hand necessary; power zone with integrated soft sections to transfer higher loosening/tightening torque; precision zone directly above the blade for the right turning angle when carrying out adjustment work; 10 bits for manual and power tool applications; rapid bit attachment by simply pushing the bit into the chuck, which locks automatically, thus ensuring a secure fit: to change the bit, simply push the sleeve forward and remove the bit; free-spinning sleeve to enable simple application of the tool during the screwdriving job.
