

New York State Electric & Gas

COLUMBIA COUNTY TRANSMISSION PROJECT

PSC Case No. 12-T-0248

Information Request

Requesting Party and No.: Protect Ghent, Inc. (PG-11)
Response No.: CCTP-12-074
Request Date: August 29, 2013
Reply Date: September 13, 2013
Witness: Carol Howland/Dave Metcalfe
RE: Historic Resources Review

QUESTION:

Please identify (including by statutory or regulatory citation) the specific criteria that the URS Corporation (Zana Wolf, Sr. Architectural Historian) applied to arrive at the conclusion of whether a surveyed resource is, or is not (in URS's opinion) eligible for listing on the National Register of Historic Places.

2. State whether the 12 resources URS has deemed eligible for listing on the National Register of Historic Places (Table 2 to the URS report dated November 8, 2012) would also be eligible for listing on the State Register of Historic Places.

3. On or about April 25, 2013, Protect Ghent, Inc. propounded document request "PG-3" to Applicant, related to correspondence and communications between Applicant and the NYS Office of Parks, Recreation and Historic Preservation (including the State Historic Preservation Office). Applicant is reminded of its obligation to supplement its prior discovery responses in a timely fashion, including its response to PG-3, as supplemental information becomes available that is responsive to a prior IR or document request. Protect Ghent, Inc. reserves all of its rights to seek an order of preclusion in the absence of such timely supplementation.

RESPONSE:

1. During the reconnaissance level survey, URS architectural historians identified properties that are over 50 years of age in the survey area. The reconnaissance-level survey is a first step in the survey process that identifies those areas and properties worthy of further study. In addition to gathering data on the properties such as architectural style, materials, and construction date, URS provided preliminary eligibility recommendations for the resources. URS evaluated individual resources in the context of the group of resources that were documented. At the reconnaissance level, preliminary eligibility recommendations are made primarily through integrity evaluations (the National Register traditionally recognizes a

Information Request

property's integrity through seven aspects: location, design, setting, materials, workmanship, feeling, and association) and identification of resources that might be eligible National Register Criterion C. Resources that might be eligible under Criterion C embody distinctive characteristics of a type, period, or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction.

URS uses established guidelines in the survey evaluation including:

National Register Bulletin. How to Apply the National Register Criteria for Evaluation.
http://www.nps.gov/nr/publications/bulletins/nrb15/nrb15_2.htm

36 CFR 800 Protection of Historic Properties. <http://www.achp.gov/regs-rev04.pdf>

National Register Evaluation Criteria. <http://www.achp.gov/nrcriteria.html>

New York office of Parks Recreation and Historic Preservation Website.
<http://nysparks.com/shpo/national-register/>

2. The resources that are recommended as potentially eligible for the National Register would also be recommended potentially eligible for the State Register of Historic Places. The same eligibility criteria are used for both the State and National Registers.
3. We are unaware of any statutory or regulatory obligation to supplement our prior discovery response to PG-3. Our response was correct and complete when provided, and we have not determined any subsequent change in the facts which would cause the response to become incorrect. *See* 16 N.Y.C.R.R. §5.7. In the spirit of cooperation, however, NYSEG has attached hereto copies of the correspondence between NYSEG and the NYS Office of Parks, Recreation and Historic Preservation for the period beginning April 25, 2013 through the date of this response.

Thank you, Nancy, for working with us on this big report!
It has been a pleasure working with you too.
Thanks again,
Zana

Subject: nearly final (hopefully) list of all USNs associated with Klinekill Transmission, 10PR07367

Hi Zana:

I have finally completed the creation of and corrections to (hopefully) all USN's for your inventory forms (as per the attached DRAFT list). Our database is not very sophisticated in terms of ability to generate reports – I can only make it print out in alphabetical order by street. However, if a street falls into two MCD's (e.g., Church Street on p. 1 of my list), it is further broken down in ascending numeric order according to MCD, regardless of the actual house number (e.g., 1778 Church St/CR 21 in MCD 02110 comes BEFORE 37 Church St/NY 203 in MCD 02141). Sometimes I remembered to "flag" properties with no house numbers (e.g., URS # 283) by putting a sort of "place-holder" x in the address; I also tried to flag all the ones not visible from the road.

I have officially passed on the submission to Ken Markunas in our technical services unit. He will be considering the possible visual impacts to the nearly 100 NRE properties, and he will contact you directly with any questions.

In the meantime, feel free to contact me if there is anything else you need or want from me. It was a pleasure working with you. I was (and still am) impressed with the quality (and monumental quantity!!) of your well-prepared materials.

Nancy

Subject: RE: Klinekill, new spreadsheet and viewshed analysis

Hi Zana – I know you are probably drowning in public meeting chores, but I have a two-part note:

1. Were you going to be able to email me a copy of your excel spreadsheet so that SHPO can add whatever information we need/want to add? E.g., maybe we will type in USNs, maybe we will type in why we think the NRE's are NRE, etc.
2. Ken Markunas, the technical service unit staff who was going to be involved in reviewing the visual impact phase of the project, recently retired. During his last few weeks here, he was swamped with work, and he did not have an opportunity to take a look at the Klinekill project. Hence, SHPO has failed to meet our 30-day window to comment; I had hoped that he would have been able to outline your next "assignment" if, in fact, URS is going to be the firm that will be doing the next phase of the 14.09 process. In the meantime, Sloane Bullough, who has been with SHPO for about a decade, will be taking over technical review responsibilities for Columbia County. She and I met yesterday and I gave her a quick overview of the project – she would like to give you a call at some point to introduce herself and explain what she needs/wants URS to do next.

I will still be around, so feel free to stay in touch with me as your move forward.
Nancy

Subject: RE: new spreadsheet

Hi Nancy,
I am getting ready to send the corrected pages to you in the mail today.

Included in the package are the corrected inventory forms, the corrected master list, and corrected maps. A list of the removed and added properties is included in the cover letter. I have not changed the eligibility recommendations that differ from your determinations.

Please let me know if you would like me to send or include anything else.

Thank you!
Zana

Perfect – I am going to pencil in the changes on the individual inventory forms. Sooner or later I assume you will "data-enter" the corrections to the forms on your end for the "final report," at which point you could send copies of just those pages that were corrected. That's it for now!
Nancy

Hi Nancy,
Here is the spreadsheet. Please let me know if this is what you had in mind or if there are any tweaks that need to be made.

Thanks!
Zana

Good morning Nancy,
Thanks for the email. I am just back in the office from vacation, and I will send the excel spreadsheet by noon today. I will respond shortly about a good time for a call regarding next steps.

Thank you,
Zana
