11-HQ-F-00456	1/5/2011	Tidy, Chris	I'm hoping that you may be able to help me with an FOIA enquiry. I'm writing about the history of J.B. Maris Co., a former engineering company in New Jersey which specialised in grinding and lapping. I am working out of England, but am in contact with the relatives of the former president of the company, James Bowman Maris, Jr. Unfortunately Mr. Maris has died, but his daughter believes he designed or manufactured a camera mounting of some kind that was carried on the Apollo spacecraft. I would like to verify the connection and find out exactly what the component was. I think the part would have been manufactured sometime in the 1960s. Would you be able to help? I do not know which NASA center to direct this request to, so perhaps you can advise? Many thanks, Chris Tidy	Other Reasons	D(6)
