Listing of Category C Projects	I93 - I96
Listing of Category T Projects	I97 - I98

**MOS ANNEX II**

Prospective World Bank Guarantee Operations	II1 - II2
---	-----------

## **INFORMATION ABOUT THE ENVIRONMENTAL ASSESSMENT PROCESS APPLIED TO BANK AND IDA PROPOSED PROJECTS**

In October 1989 the Bank established a specific policy and procedures for environmental assessment and related environmental analyses of IBRD and IDA lending operations. Under this environmental assessment process, the type, timing and main issues of environmental analysis to be performed by the borrower are to be confirmed at the time that a given lending operation is initiated into the Bank's prospective lending program and thereafter reported and updated on a quarterly basis in the Monthly Operational Summary.

In October 1991 the Bank revised its policies and procedures so that projects are now assigned one of the following categories based upon the nature, magnitude, and sensitivity of environmental issues:

- Category A - Environmental Assessment is normally required as the project may have adverse and significant environmental impacts.
- Category B - More limited environmental analysis is appropriate, as the project may have specific environmental impacts.
- Category C - Environmental analysis is normally unnecessary.

"U" (unclassified) is being introduced to indicate structural and sectoral adjustment loans, which do not fall within one of the above three categories for purposes of the directive governing environmental assessment.

The 1991 revision also introduced the use of a standard environmental data sheet for all projects to identify the main issues and schedule for any required environmental analysis.

Project descriptions in every issue of the Monthly Operational Summary include the environmental category A, B, or C, except in the case of structural and sectoral adjustment loans which are designated "U". On a quarterly basis (in the January, April, July and October issues) the Monthly Operational Summary contains an environmental annex which includes the environmental data sheets for Category A projects, data sheet headers for Category B projects, and a listing of projects in Categories C and T ("to be determined").

## **BUSINESS OPPORTUNITIES**

Borrowing countries through their implementing agencies have full responsibility for the design and implementation of World Bank-financed projects, including the hiring of consultants and procurement of goods and works. Many contracts for consulting services, as well as some for goods and works, are procured prior to loan/credit approval (advance contracting). Contracts for consulting services, unlike those for goods and works, are not usually advertised.

Therefore, consultants, in particular, should contact the responsible implementing agency early in the project preparation period to express their possible interest in providing the services described in the MOS. The information in the MOS is intended to be adequate to enable consultants to assess their possible interest. Further information, if needed, should be requested of the implementing agency. The likelihood of a timely response is enhanced if the queries are brief and to the point.

Firms should contact the World Bank (preferably by fax) only if they are unable to obtain a response from the implementing agency.

General information about business opportunities under Bank loans/credits may be obtained from the World Bank Business Affairs Adviser at fax number (202) 334-0003.

## **ADDITIONAL NOTES ABOUT THE MOS**

1. Addresses of Implementing Agencies of new projects are given in Section VII of the Summary.
2. The amount is in millions of US dollars and is approximate and tentative. SAF is the acronym for the Special Facility of Sub-Saharan Africa.
3. The letter (N) before projects means that the project is a new listing in the summary; the letter (R) means the information about the project has been revised since the last issue.
4. The Stage of Processing and Action on Procurement column contains available information, if any, about action with respect to the procurement of goods and services expected to be financed by the Bank or IDA, including retroactive financing; expenditures under the IBRD/IDA project.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>I. Africa Region</b>				
<b>Angola</b>				
Ministry of Social Assistance and Reintegration Support	20.0 (IDA)	<b>(N) Emergency Social Recovery (AO-PA-45644)</b> - This is an emergency program of social assistance to the most vulnerable groups affected by the war. Project components include: (a) a children's fund; (b) training, employment and reintegration assistance support for demobilized soldiers and displaced persons; (c) assistance for the handicapped; and (d) capacity building for the Ministry of Social Assistance and Reintegration Support. Environmental Assessment Category C.	Consulting services will be required.	Project is under preparation. Appraisal mission tentatively scheduled for August 1996.  (Cofinancing is expected.)
Ministry of Education, Ministry of Labor and Public Administration	30.0 (IDA)	<b>Labor Force Skills Development and Training</b> - Project would: (a) promote skill development; (b) make technical and vocational education and training (TVET) more responsive to the needs of employers and the labor market; (c) give a more important role to the private sector in the provision of training; and (d) improve the quality and efficiency of public sector TVET. Environmental Assessment Category C.	Consulting services will be required.	Project is in a two-year preparatory and pilot phase. PPF financing has been obtained.  (Cofinancing will be required.)
Ministry of Agriculture and Rural Development	40.0 (IDA)	<b>Agriculture Rehabilitation</b> - Project will assist smallholders through improvements in government services, an improved policy framework and the provision of funds for rural infrastructure and pilot agricultural credit schemes. Environmental Assessment Category B.	Consulting services will be required.	Project under preparation.  (Cofinancing will be required.)
Ministry of Planning	104.0 (IDA)	<b>Emergency Reconstruction</b> - The project will focus on rehabilitating critical infrastructure in six urban cities. Environmental Assessment Category C.	Consulting services will not be required.	Appraisal mission completed. Negotiations scheduled for January 1997.
National Directorate of Water	70.0 (IDA)	<b>(R) Urban Water and Sanitation</b> - Project to include institutional strengthening of National Directorate of Water and of the Provincial Commissariate of Luanda. Will also include improving public and individual water supply and sanitation facilities in Luanda and dissemination in five provincial capital cities. Environmental Assessment Category B.	Need for consultants not yet determined.	Appraisal mission completed. Negotiations tentatively scheduled for August 26, 1996.  (Cofinancing interest has been expressed by the European Union (US\$7.0 million) and Italy (US\$13.0 million). Additional Cofinancing will be required.)
Ministry of Finance	115.0 (IDA)	<b>Structural Adjustment</b> - Would provide import financing to support structural adjustment program. Environmental Assessment Category U.	Need for consultants not yet determined.	Identification contingent upon Government progress in implementing stabilization program.  (Cofinancing will be required.)

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Benin</b>				
Ministry of Rural Development	40.0 (IDA)	<b>(R) Agriculture Sector Investment</b> - Project is a follow up of the present agriculture services restructuring project covering most of the public sector agriculture programs including: (a) research; (b) extension; (c) animal health; (d) forestry; (e) fisheries; and (f) information. Project will further promote diversification, small-scale irrigation and feed distribution through the private sector. Environmental Assessment Category B.	Consulting services may be required.	Preparation mission completed. Pre-appraisal mission scheduled for October 1996.
Ministry of Rural Development, National PAs Office of the Forestry Administration	5.0 (GEF)	<b>National Parks Conservation</b> - Project to include capacity building for relevant government agencies for efficient management of protected areas. Will also include protection of priority parks and ecodevelopment activities in surrounding hunting reserves and buffer zones. Environmental Assessment Category B.	Need for consultants not yet determined.	Project under preparation. GEF Council submission expected October 1996. A GEF/PPA has been approved to assist the Government's institutional reforms necessary for implementation of project.
To be determined	35.0 (IDA)	<b>(R) Urban II</b> - Project will support the implementation of the Government's urban development strategy being prepared under the ongoing urban project. It will also likely include urban infrastructure, rehabilitation, and support to municipal development. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Pre-appraisal mission scheduled for January 1997.
Ministry of Finance	40.0 (IDA)	<b>(R) Structural Adjustment (SAL III)</b> - Project will provide the financial and technical support required to strengthen post devaluation stabilization efforts while deepening structural adjustment reforms, and encouraging the private sector supply response. Environmental Assessment Category U.	Consulting services are required for petroleum sector study.	Approved by the Executive Directors on May 23, 1995.
Ministry of Civil Service, Labor, Employment and Social Affairs and Administrative Reform, Ministry of Planning, Economic Restructuration and Employment Promotion	30.0 (IDA)	<b>(R) Labor Force Training/Development</b> - Project is intended to support in-service training of employed personnel in formal and informal sectors, with emphasis on women. Environmental Assessment Category C.	Consulting services will be required.	Identification mission completed. Pre-appraisal mission scheduled for September 1996.
Ministry of Public Works and Transport	40.0 (IDA)	<b>Transport Sector Investment Program</b> - Project will include support to sector management entities including road safety and traffic management, road facilitation of transport operations, and a pilot operation for rural transport network. Environmental Assessment Category B.	Need for consultants for engineering studies, technical assistance in transport sector management, traffic management, and road safety.	Appraisal mission completed. Negotiations scheduled for June 17, 1996.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Benin</b>				
To be determined	20.0 (IDA)	<b>(R) Private Sector Development</b> - The project is intended to support SMEs development and financing, inter alia, institutional strengthening, judiciary reforms, human resource development, investment and export promotion, and to promote entrepreneurship through communication. Environmental Assessment Category: To Be Determined.	Consultants are being selected.	An IEPS will be distributed in July 1996. An identification mission is currently in the field.
<b>Burkina Faso</b>				
Ministry of Industry, Commerce and Mines	20.0 (IDA)	<b>Mining Sector Capacity Building and Environmental Management</b> - Project aims to support Government initiatives for comprehensive reform to improve the enabling environment to promote private investment in mining. Environmental Assessment Category C.	Consulting services will be required for establishing institutional capacity including a geological database.	Negotiations postponed due to non-compliance of conditionality.
Faso Baara	10.0 (IDA)	<b>Public Works and Employment II</b> - Project will finance a program of small municipal works, promote local contractors, create new employment, and develop labor-intensive projects. Environmental Assessment Category C.	Need for consultants not yet determined.	Identification under way.
Office National de l'eau et de l'Assainissement (ONEA)	40.0 (IDA)	<b>(R) Water Supply</b> - Project will assist Government in sector reform to improve sector management, and rehabilitation and expansion of the Ouagadougou water supply. Environmental Assessment Category A.	Need for consultants not yet determined.	Appraisal mission scheduled for October 1996.
Ministry of Education	30.0 (IDA)	<b>Basic Education</b> - Project will support the development and implementation of a national strategy for primary education including programs to promote girls' education. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Identification under way.
Ministry of Agriculture and Animal Resources	25.0 (IDA)	<b>(R) Agriculture SECAL II</b> - The project will assist the Government in furthering reforms begun in Agriculture SECAL I. The main emphasis will be the reform of trade regimes for agricultural commodities import tariff structures for key agricultural inputs. It will also assist the Government in implementing the restructuring of the Ministry. Environmental Assessment Category U.	Consulting services may be required.	Appraisal mission in the field. Negotiations scheduled for October 25, 1996.
Ministere de l'Enseignement Secondaire, Supérieur et de la Recherche Scientifique (M.E.S.S.R.S.)	28.0 (IDA)	<b>Post Primary Education</b> - Project seeks to develop and implement a national strategy to strengthen secondary education. Environmental Assessment Category C.	Consulting services will be required.	Appraisal mission scheduled for July 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Burkina Faso</b>				
Ministry of Agriculture and Animal Resources	45.0 (IDA)	<b>Private Irrigation</b> - Promotion of private irrigation, principally small-scale, by low-lift pumping from shallow aquifers, possibly also large-scale irrigation using storage provided by existing earth dams. Total project cost estimated at US\$48.0 million. Environmental Assessment Category B.	Consulting services may be required.	Appraisal mission scheduled for August 1996.
Ministry of Agriculture and Animal Resources	55.0 (IDA)	<b>(R) Agricultural Services II</b> - Follow up to the Agricultural Services I Project. Concentrating on post-harvest technologies and promotion of farmers' organizations in addition to extension and functional literacy. The project will also provide support to the National Agricultural Research Institutes to generate technologies relevant to producers and processors needs and potentialities. Total project cost is estimated at US\$75.0 million. The links with national resources management projects will be reinforced. Environmental Assessment Category C.	Consultants services may be required in the field of gender issues and research infrastructure.	Pre-appraisal mission completed. Appraisal mission in the field. Negotiations scheduled for October 15, 1996.
Ministry of Economy, Finance and Planning	90.0 (IDA)	<b>(R) SAL II</b> - Second phase of macro-policy reforms, including accelerated development of human resources and completion of public enterprise, tariff and banking reform. Environmental Assessment Category U.	To be determined.	Identification planned, but preparation/identification has not begun.
<b>Burundi</b>				
To be determined	32.5 (IDA)	<b>(R) Water Supply IV</b> - Project will support improvement of public health and living conditions by increasing the quality and quantity of potable water in affected areas. Environmental Assessment Category B.	Need for consultants not yet determined.	Preparation to start in 1997/1998. Further reporting will be discontinued.
Ministry of Education	10.0 (IDA)	<b>Education V</b> - Project would assist the Government in the improvement of efficiency, quality and relevance of education, including teacher education and deployment. Environmental Assessment Category C.	Consulting services (both national and international) are likely to be required to assist the Government in elaborating its national plan on education.	Government designing a long-term strategy supported by UNICEF and UNESCO. First phase under way. Persistent security problems likely to postpone processing of this operation..
<b>Cameroon</b>				
Ministries of Agriculture and Sciences and Technical Research	10.0 (IDA)	<b>(R) National Agriculture Services and Research Program Support (CM-PA-45348)</b> - Project seeks to increase production and incomes by supporting more effective technology transfer to farmers through national agricultural research and extension programs. Environmental Assessment Category: To Be Determined.	Consulting services may be required in the field of gender orientation of extension services.	Pre-appraisal scheduled for July 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministry of Finance	11.0 (IDA)	<b>(R) Privatization and Private Sector Technical Assistance</b> - Project is designed to achieve the following objectives: (a) design of a broad privatization program which will be implemented by private companies; (b) support to restructuring of the financial sector by strengthening the loan recovery agency and privatizing/restructuring two banks; (c) review of the incentive system for the private sector and of some key sectoral regulations, such as the mining code and the energy framework; and (d) preliminary support to the judiciary to resume publication of the official gazette, judgments of the Supreme Court and to strengthen the Inspection Directorate. Environmental Assessment Category C.	Consulting services will be required for formulating privatization strategy and evaluation of companies.	Approved by the Executive Directors on June 13, 1996.  A PPF of US\$1.3 million was signed on November 16, 1995. PPF will finance legal and advisory services, a public relations campaign, and strengthening of the privatization unit.
Ministry of Education	10.0 (IDA)	<b>Education V</b> - Project will assist the Government in improving the quality of basic education, increasing access, and strengthening sector management. Environmental Assessment Category C.	Need for consultants not yet determined.	Studies to help prepare sector program are beginning.
Ministry of Finance	10.0 (IDA)	<b>Social Development</b> - Project would aim at creating employment opportunities, raising the purchasing power of disadvantaged groups (especially women) through a social fund, and support women's initiatives. Environmental Assessment Category C.	Need for consultants not yet determined.	Project concept under review.
Ministry of Finance, Ministry of Justice	150.0 (IDA)	<b>Enterprise Reform and Divestiture</b> - Project would include: (a) privatization of public enterprises in various sectors, and restructuring of financial institutions; (b) revision of the regulatory framework; and (c) reforms of the judiciary. Environmental Assessment Category C.	Professional services for privatization required.	Preparation under way.
Ministry of Economy and Finance, Ministry of Public Works, Ministry of Transport	60.7 (IDA)	<b>(R) Transport Sector Program</b> - Project will support the road maintenance component of the overall transport sector investment program. Will also assist in restructuring the sector institutions to increase private and beneficiary participation in road maintenance and transport management, and promote small and medium enterprises participation. Environmental Assessment Category B.	Consulting services will be required.	Approved by the Executive Directors on May 30, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Cape Verde</b>				
Ministry of Economic Coordination	11.4 (IDA)	<b>(R) Capacity Building For Private Sector Promotion</b> - The project would finance: (a) institutional support to the investment promotion agency (PROMEX); (b) assistance to private enterprises through the chambers of commerce; (c) technical support to modernize the macro infrastructure for financial sector operators; (d) assistance to the central bank to strengthen its monetary authority and supervisory functions; and (e) support to the commercial banking and insurance sectors. Environmental Assessment Category B.	Consulting services will be required.	Approved by the Executive Directors on May 21, 1996.
Ministry of Economic Coordination	13.2 (IDA)	<b>Social Sector Development</b> - The objective of this project is to decrease poverty and support quality improvements in child health and nutrition. Environmental Assessment Category C.	Need for consultants not yet determined.	Preparation under way. A Japanese Grant of US\$200,000 has been approved for project preparation.
<b>Central African Republic</b>				
Ministere des Transport et de Travaux Public, de l'Aviation Civile, de l'Habitat et de l'Amenagement du Territoire	30.0 (IDA)	<b>(R) Transport Sector II</b> - Project will follow up on the achievements of the ongoing Transport Sector I. It will support: (a) rehabilitation and maintenance of key transit roads and selected feeder roads; (b) development of emerging SMEs in the construction industry; (c) trade and transit facilitation in the Union Douaniere et Economique de l'Afrique Centrale (UDEAC) Zone; and (d) strengthening and refinancing of road and transport public bodies. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Identification under way.
Ministry of Finance	20.0 (IDA)	<b>Structural Adjustment</b> - Project will focus on broadening and deepening the structural adjustment process through policy changes designed to rehabilitate and improve the regulatory framework of key state enterprises including those in the energy sector. Environmental Assessment Category U.	Consulting services will not be required.	Preparation under way.
Ministry of Public Health and Social Affairs	5.0 (IDA)	<b>(R) Health and Nutrition</b> - Project will improve quality of basic curative and preventive health and family planning services and nutrition. Environmental Assessment Category C.	Consulting services will be required.	Pre-appraisal mission scheduled for September 1996.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Central African Republic</b>				
Ministry of Public Works	18.8 (IDA)	<b>(R) Urban Environment Rehabilitation</b> - Project focuses on rehabilitation and improvement of urban infrastructure, including storm drainage, water supply and sanitation, and on launching of community development programs on urban neighborhoods. Will also support development and reform of urban institutions. Project will cover the capital city of Bangui. Environmental Assessment Category B.	Consulting services will be required.	Negotiations completed. Board presentation will be rescheduled due to current country conditions.
Ministry of Education	15.0 (IDA)	<b>(R) Basic Education</b> - Project objectives include developing and applying strategic planning of sector increasing investment, with special emphasis on educational quality, improving girls' access to education, and increasing efficiency of sector management. Environmental Assessment Category C.	Need for consultants not yet determined.	Studies to help prepare sector program to begin September 1998.
<b>Chad</b>				
Ministry of Planning	20.0 (IDA)	<b>(N) Structural Adjustment II (SAC II) (TD-PA-44975)</b> - Project will provide assistance in the development of an adjustment program including improving public finance, divestiture and promotion of the private sector. Environmental Assessment Category U.	Consulting services will not be required.	Project under preparation.
Ministry of Public Works, Habitat and Transport	20.0 (IDA)	<b>(R) Third Transport Sector (TD-PA-35672)</b> - Project seeks to pursue the development of the road priority network and its maintenance reforms, notably for the promotion of the private sector and strengthening of the administration. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project identification under way.
Ministry of Mines, Energy and Petroleum	5.8 (IDA)	<b>(R) Household Energy</b> - Project will increase the sustainable supply of woodfuels, improve the efficiency of household fuels in urban centers and will enhance the role of the private sector in the household energy sector. Environmental Assessment Category C.	Consulting services will be required for assessing environmental benefits and costs, and determining optimal organizational setup.	Negotiations scheduled for September 1996.
Ministry of Public Works, Directorate of Urbanism	10.0 (IDA)	<b>(R) Urban Infrastructure</b> - Project will focus on urban infrastructure rehabilitation (mainly drainage), community-based water and sanitation improvements at the neighborhood level, and urban services management. Environmental Assessment Category B.	Further need for consultants not yet determined.	Appraisal mission scheduled for end 1996.
To be determined	20.0 (IDA)	<b>Private Sector Development</b> - Project description is to be determined. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project under preparation.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Chad/Cameroon</b>				
Ministere des Mines, de l'Energie et du Petrole (Chad), Societe Nationale d'Hydrocarbure (SNH - Cameroon)	100.0 (IDA)	<b>Petroleum Development and Pipeline</b> - The proposed project involves: (a) the development of Chad-Doba oil fields; and (b) the construction of a pipeline and related marine facilities to export oil to the Cameroon Coast. Environmental Assessment Category A.	Consultants have been selected.	Project under preparation. <u>Advance Procurement:</u> Advance procurement actions are being taken with respect to civil works related to pipeline installation.
<b>Comoros</b>				
Ministry of Finance	12.0 (IDA)	<b>(N) Population, Health, and Resources (PHR II) (KM-PA-44824)</b> - Project will continue to finance activities under the ongoing social fund. Health activities would also be envisaged. Environmental Assessment Category C.	Need for consultants not yet determined.	IEPS scheduled for December 30, 1996.
Ministry of Rural Development, Fisheries and Environment	3.3 (IDA)	<b>(R) Agriculture and Environment Pilot</b> - Project seeks to assist the Government in implementing its agricultural and environment strategy through: (a) strengthening of services (i.e. extension, research) and support to the private sector by supporting producer groups, and improving access to information and markets; (b) environment conservation; and (c) institutional strengthening. Environmental Assessment Category C.	Consulting services will be required for training and in specialized areas such as land tenure legislation, media development, natural resource management, etc.	Negotiations tentatively scheduled for late June 1996.
Ministry of Finance	8.0 (IDA)	<b>SAC</b> - The operation will focus on macro-economic measures and deregulation to strengthen economic performance and promote private sector development. Environmental Assessment Category U.	Consulting services will not be required.	Project under preparation.
Ministry of Education	8.3 (IDA)	<b>(R) Third Education</b> - The project will continue: (a) strengthening of delivery of education through quality inputs, community participation and decentralized management; and (b) support to vocational training. Environmental Assessment Category C.	Need for consultants not yet determined.	Preparation mission scheduled for late June 1996.
<b>Congo</b>				
To be determined	5.0 (IDA)	<b>Economic Social Management (CG-PA-45024)</b> - Project will focus on strengthening budget preparation and investment planning on key ministries, civil service reform, and staff training. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Initial EPS tentatively scheduled for July 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Congo</b>				
To be determined	20.0 (IDA)	<b>Transport (CG-PA-44823)</b> - Project focuses on the rehabilitation of major paved road sections and restoring of road maintenance capacity. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Initial executive project summary will be issued on November 15, 1996. Identification under way.
Ministry of Agriculture	9.0 (IDA)	<b>Agricultural Services (CG-PA-45183)</b> - Project will assist with the establishment of effective agricultural support services, including extension services, adaptive agricultural research, and support to group activities (training and functional literacy). Environmental Assessment Category C.	Need for consultants not yet determined.	Project under preparation.
Agence Congolaise d'Execution de Travaux Urbains, Acetur-ville de Pointe Noire - Ministere du Plan (to be created)	12.0 (IDA)	<b>(R) Urban Rehabilitation Sanitation</b> - Project will include: (a) labor-based improvement of urban infrastructure; (b) community-based sanitation improvement of poorer neighborhoods; (c) urban services management; (d) support to SMES in the construction sector; and (e) long-term sector strategy. Environmental Assessment Category B.	Negotiations of the main contract for project preparation are under way. Further consulting services will be needed for final design and works supervision.	Main preparation studies about to begin. Appraisal mission scheduled for early 1997.
Ministry of Health and Congolese Family Planning Association (ACBEF)	10.0 (IDA)	<b>(R) Population, Health and Nutrition Sector</b> - Project will include: (a) policy and institutional development; (b) population, health and nutrition (PHN) sector services development through health districts; and (c) support for NGOs and community administration. Environmental Assessment Category C.	Consulting services will be required.	Revised EPS is being reviewed.
Ministry of Economy and Finance	20.0 (IDA)	<b>(R) SAC/Public and Financial Sector Reform</b> - Project seeks to support Congo's transition from a state controlled to a market economy through: (a) civil service and public expenditure reform; (b) privatization and private sector development; and (c) financial sector reforms. Environmental Assessment Category U.	Consulting services will be required for privatization, legal framework, debt inventory and reform of social security agency.	Project under preparation.
<b>Cote D'ivoire</b>				
To be determined	100.0 (IDA)	<b>(N) Financial Sector II (CI-PA-41655)</b> - Project will focus on supplementing the banking restructuring program. Environmental Assessment Category C.	Consulting services will be required for preparation and implementation.	Draft IEPS will be issued end June 1996.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
SODEFOR/Ministry of Agriculture and Animal Resources	40.0 (IDA)	<b>(R) Second Forestry Sector</b> - Project would be the second phase of a long-term national forestry development plan to: (a) pursue implementation of priority forest protection and management activities, including some resettlement; (b) upkeep existing plantations; (c) strengthening environmental and forestry training and research; and (d) continue the strengthening of local capacity for forest management. Environmental Assessment Category C.	Need for consultants not yet determined.	Appraisal mission under way. Negotiations scheduled for September 1996.
Ministry of Industry and Commerce, Primature	5.0 (IDA)	<b>(R) Private Sector Development Technical Assistance</b> - Project will assist in the creation of an arbitration court, a private export promotion company, and streamlining of port and customs procedures through an electronic data network. Environmental Assessment Category C.	Need for consultants not yet determined.	Post appraisal mission is in the field.
Ministry of Agriculture, Ministry of Research	50.0 (IDA)	<b>Agricultural Services II (PNASA II)</b> - Project will support: (a) the Autonomous Agricultural Services Agency (ANADER); (b) agricultural research restructuring; (c) agricultural ministry restructuring; and (d) livestock support improvement. Environmental Assessment Category B.	Consulting services will be required for support to restructure agricultural research.	Pre-appraisal mission scheduled for September 1996.
Ministry of Education	70.0 (IDA)	<b>Basic Education</b> - Project seeks to revitalize the education system, increasing access and equity, enhancing efficiency and quality, and strengthening sector management. Environmental Assessment Category C.	Consulting services will be required for public management and administration, decentralization of services, education, finance, and school level research and management.	Pre-appraisal mission scheduled for July 1996.
Ministry of Agriculture and Livestock (MAL), Ministry of Economy, Finance and Planning	45.0 (IDA)	<b>(R) Rural Land Management and Infrastructure Development (PNGTER)</b> - The project will be a vehicle for implementing new governmental policies and programs related to land tenure, decentralization, local community empowerment, natural resources management and rural infrastructure development. Its main components will be: (a) community-based natural resources management and village infrastructure development; (b) institutional strengthening and improvement of regulatory frameworks; and (c) environmental monitoring and geographic information. Environmental Assessment Category A.	Consulting services will be required in the areas of land surveys, community development, and legislation.	Appraisal mission completed. Negotiations scheduled for August 1996.  A supplemental project preparation advance has been approved to help with Government expenses related to the preparation and start-up activities.
Ministry of Construction and Urbanism	65.0 (IDA)	<b>Urban Rehabilitation and Employment</b> - Project seeks to improve the urban productivity and urban environment through primary infrastructure investments. Project will also facilitate regulatory reforms through local management of environmental issues. Environmental Assessment Category A.	Consulting services will be required.	Pre-appraisal mission scheduled for October 15, 1996.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Cote D'ivoire</b>				
Ministry of Agriculture et des Ressource Animales	40.0 (IDA)	<b>(R) National Environmental Program (NEP)</b> - Project will support a program of action to protect the natural environment. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	IEPS to be prepared following donors' roundtable scheduled for October 1996.
Ministry of Public Health	40.0 (IDA)	<b>(R) Integrated Health Services Development (formerly Population, Health and Nutrition Sector)</b> - The project would constitute the first stage towards a full health sector investment and development program. It would improve quality and expand coverage of population, health and nutrition services, including health care (especially reproductive health), strengthen sector management and decentralization, and particularly the delivery of primary health services through district health development. Environmental Assessment Category C.	Consulting services will be required for family planning and health services management.	Negotiations substantially completed. Board presentation scheduled for June 26, 1996.
Ministry of Agriculture and Animal Resources	10.0 (GEF)	<b>Park Protection and Management</b> - Project to include capacity building for national environment, tourism and forestry agencies, research institutions and NGOs. Will also include park management, and establishment of buffer zones for priority protected areas. Environmental Assessment Category B.	Need for consultants not yet determined.	A Project Preparation Advance (PPA) has been approved. Appraisal mission scheduled for March 1997.
<b>Djibouti</b>				
Ministry of Health	14.5 (IDA)	<b>(N) Health (DJ-PA-617)</b> - Project proposes to support: (a) health policies; (b) health sector management; and (c) service delivery. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way. Specific processing schedule dependent on improvements in macroeconomic framework and completion of poverty assessment.
Ministry of Finance	9.0 (IDA)	<b>(R) Technical Assistance For Economic Reform (DJ-PA-1474)</b> - Project would support the Government in implementing its reform program by providing expertise in the areas of public enterprise reform, strengthening economic management, demobilization, and monitoring of the structural adjustment program. Environmental Assessment Category C.	Short-term consulting services will be required for all project components.	Appraisal mission in the field. Board presentation scheduled for September 9, 1996.  A Project Preparation Facility (PPF) has been approved.
<b>Eritrea</b>				
Ministry of Construction	30.0 (IDA)	<b>(N) Roads Development (ER-PA-44651)</b> - Project description is to be determined. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Government discussions ongoing.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Eritrea</b>				
To be determined	20.0 (IDA)	<b>(R) Refugee Integration (ER-PA-44650)</b> - Project description is to be determined. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Initial EPS tentatively scheduled for December 1996.
Ministry of Health	9.0 (IDA)	<b>(R) Health (ER-PA-43124)</b> - Project will support Government's interest in funding the construction of two regional hospitals along with improving supporting systems to ensure the financial management sustainability of the hospital and linked primary health care facilities, the principal policy focus of the Government. It will also support expanded Government responses to the HIV/AIDS epidemic and other major health problems. Environmental Assessment Category C.	Need for consultants not yet determined.	Appraisal mission scheduled for November 1996.
Ministry of Education	11.3 (IDA)	<b>(R) Basic Education</b> - Project would consist of three components: (a) expanding rural access and improvement of educational quality to support improvement of teaching facilities, increase availability of textbooks and other educational material; (b) improving efficiency and quality of vocational training to build, furnish and equip two skills development centers; and (c) institutional strengthening to improve the organization and management capacity within the sector. Environmental Assessment Category B.	Need for consultants not yet determined.	Appraisal mission tentatively scheduled for June 24, 1996.
Department of Maritime Transport (DMT)	18.0 (IDA)	<b>(R) Ports</b> - Rehabilitation and upgrading of the physical, managerial and operational capabilities of the two ports of Assab and Massawa to meet the traffic demand from Eritrea and its neighboring hinterland expected in the 1990's. This will improve the overall capacity output of Massawa and address the urgent capacity requirements up to the year 2005. Environmental Assessment Category A.	Need for consulting services yet to be determined.	Board presentation scheduled for July 23, 1996.
<b>Ethiopia</b>				
Ministry of Education	100.0 (IDA)	<b>(N) Education Sector Investment (ET-PA-732)</b> - Project will support a segment of a sectorwide investment program, and will likely emphasize primary education and education for girls. The sector investment program will guide assistance from other donors. Environmental Assessment Category C.	Consulting services will be required.	Initial EPS tentatively scheduled for September 1996.
Ministry of Mines and Energy, Ethiopian Electric Light and Power Authority (EELPA)	100.0 (IDA)	<b>(N) Energy II (ET-PA-736)</b> - Project seeks to meet growing domestic demand for electricity and export of energy by expanding transmission and generation capacity. Environmental Assessment Category: To Be Determined.	Consulting services will be required for project preparation and implementation.	Project preparation under way.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Ethiopia</b>				
Ethiopian Roads Authority	250.0 (IDA)	<b>(N) Road Sector III (ET-PA-755)</b> - Project is expected to include rehabilitation, upgrading, strengthening and maintenance of trunk and major link roads and rural roads in selected regions, and institutional strengthening and capacity building for ERA and the regions. Environmental Assessment Category B.	Consulting services will be required for preparation, design, review, and supervision.	Draft IEPS under preparation.
Ministry of Mines and Energy	150.0 (IDA)	<b>(R) Power Distribution (formerly Power Generation)</b> - Project will rehabilitate electricity and expand distribution in Addis Ababa. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project under preparation.
Ministry of Health	30.0 (IDA)	<b>Health Sector</b> - Project is a follow-up to the Family Health Project. Components are to be determined. Environmental Assessment Category: To Be Determined.	Local consultants have been hired to undertake 17 studies.	PHRD agreement has been signed with the Government. Processing timetable will depend on progress of implementation of PHRD Grant during the next 12-18 months.
Ethiopia Social Rehabilitation Development Fund	120.0 (IDA)	<b>ESRFI</b> - The project will fund microprojects in the area of basic social and economic infrastructure rehabilitation, and support to the delivery of basic social services as well as capacity building at the local level. Environmental Assessment Category B.	Local consultants will be needed to support capacity building components in technical areas such as small-scale irrigation and water supply.	Approved by the Executive Directors on April 9, 1996. The Governments of Egypt, Sudan, Eritrea, Djibouti, and Kenya have been notified of potential riparian issues arising from the small-scale irrigation component.
Ministry of Water Resources (MWR), Addis Ababa Water and Sewerage Authority (AWSA), Regional Government	35.7 (IDA)	<b>Water Supply Development and Rehabilitation</b> - Project seeks to provide: (a) institutional support for capacity building for the regional Government; (b) assistance in sector development planning and in pre-investment studies; and (c) assist in the medium and short-term rehabilitation and augmentation of urban water supply schemes. Environmental Assessment Category C.	Consulting services will be required for implementation of the project.	Approved by the Executive Directors on April 9, 1996.
<b>Gabon</b>				
To be determined	50.0 (Bank)	<b>Transport Sector (GA-PA-35657)</b> - Project seeks to improve efficiency and financial sustainability of the transport sector. Will assist the Government in privatization and/or introducing professions from the private sector in transport to public and semi-public entities. Environmental Assessment Category: To Be Determined.	Consulting services will be required for supervision of works and feasibility studies.	Initial executive project summary to be issued on September 15, 1996. Project preparation will begin November 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Gabon</b>				
Commissariat a la Privatisation, Ministere du Commerce, de l'Industrie, des Petites et Moyennes Entreprises, de l'Artisanat Charge du Redressement du Secteur Parapublic et de la Privatisation	9.8 (IDA)	<b>(R) Privatization Technical Assistance -</b> Project will provide support to implement privatization of major public enterprises and modernization of regulatory framework. Environmental Assessment Category C.	Consulting services will be required for project preparation for telecoms, agro-industries and transport.	Preparation under way.
To be determined	20.0 (IDA)	<b>(R) Urban Management -</b> Project seeks to provide support for the improvement of transit and sanitation conditions in the poorer neighborhoods of Libreville and secondary cities, and traffic management in Libreville. Support will also be provided for creation of appropriate and sustainable mechanism for financing urban infrastructure maintenance. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project is likely to be identified by September 1996.
<b>Ghana</b>				
Ministry of Lands and Forestry	15.0 (IDA)	<b>Forest and Wildlife Resources Management (GH-PA-946) -</b> Project will support implementation of forestry and wildlife policy through forest policy and institutional reform, and management of savanna woodlands and protected areas. Environmental Assessment Category A.	Need for consultants not yet determined.	Pre-appraisal mission departure scheduled for September 1996.
Ministry of Trade and Industry, Gateway Oversight Committee	77.0 (IDA)	<b>(R) Trade and Investment Gateway (GH-PA-41656) -</b> Project will assist the creation of a "trade investment gateway". It will support the Phase I activities for promotion of foreign direct investment, and continued strengthening of trade sector reforms with the objective of maximizing regional opportunities for domestic and foreign investment. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	IEPS to be completed July 1996.
Ministry of Finance	20.0 (IDA)	<b>(R) Public Financial Management Technical Assistance (GH-PA-45588) -</b> Project seeks to strengthen public financial management. Environmental Assessment Category C.	Consulting services will be required to develop project components.	Appraisal mission scheduled for June 25, 1996.
Ministry of Food and Agriculture (MOFA)	50.0 (IDA)	<b>(R) Village Infrastructure -</b> Project would support poverty alleviation efforts through small investments and grants targeted at small resource, poor communities for development of social and economic infrastructure at the village level. Environmental Assessment Category B.	Consulting services will be required.	Appraisal mission scheduled for June 24, 1996.  A PPF Advance of US\$440,000 has been approved to assist with preparation of the project.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministry of Health	50.0 (IDA)	<b>(R) Health Sector Support</b> - Project will provide a sector-wide credit to support the Government's medium-term strategic framework for health development. The strategy will aim to: (a) increase access to health services; (b) improve quality of services; (c) empower households and communities; (d) forge linkages with development partners; and (e) improve the financing of health services. Environmental Assessment Category C.	Consulting services will be required.	Appraisal scheduled for July 1996.
Ministry of Education	50.0 (IDA)	<b>(R) Basic Education Sector Investment</b> - The project will support the Government's subsector-wide program for basic education, putting in place a mechanism to ensure stakeholder's participation and financial sustainability of the program. It will support improving the process and outcome of teaching/learning; selectively improving access, especially of girls and the poor and strengthening capacity for planning and management at the central and decentralized levels. Environmental Assessment Category C.	Consulting services will be required.	Approved by the Executive Directors on June 18, 1996.
To be determined	40.0 (IDA)	<b>Water Rehabilitation II</b> - The project would provide financing to facilitate the restructuring of the urban water supply sector where private operating companies would be introduced. Financing would be for rehabilitation and expansion and might include guarantees to reduce the risk of private sector participation. Environmental Assessment Category B.	Consulting services will be required for project preparation including evaluation of current water supply facilities and rehabilitation/expansion requirements, assessment of environmental and water rights issues, and formulation of operating contracts and regulatory legislation.	Pre-appraisal mission scheduled for January 15, 1997.
Ministry of Transport and Communications	50.0 (IDA)	<b>Telecommunications III</b> - Project will support Government in implementing a comprehensive program of sector reform design to expand service, coverage and quality rapidly through the involvement of the private sector, and through promoting competition. Environmental Assessment Category B.	Consulting services will be required.	Project preparation under way.
Ministry of Local Government	71.0 (IDA)	<b>(R) Urban Environmental Sanitation</b> - The project will improve the quality and coverage of basic environmental sanitation services -- storm drainage, sanitation, and solid waste -- in five major cities. The main components would be: (a) capital investments; (b) improved institutional arrangements for service provision; and (c) capacity-building measures. Environmental Assessment Category B.	Consulting services for capacity building will be cofinanced by the Nordic Development Fund. Construction supervision services may be tendered.	Approved by the Executive Directors on March 26, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Ghana</b>				
Ministry of Transport and Communications	50.0 (IDA)	<b>Intermodal Transport</b> - Project components have not yet been identified, but might include road transport, railways, ports, lake and air transport. Environmental Assessment Category B.	Need for consultants not yet determined.	Project identification under way.
Highway Authority	100.0 (IDA)	<b>(R) Highway Sector Investment (KE-PA-1329)</b> - The project will continue rehabilitation and maintenance operations as part of a six year highway sector investment program. Some 2,000 kilometers will be rehabilitated and maintained. Environmental Assessment Category A.	Consultants will be required for design supervision, and technical assistance.	Approved by the Executive Directors on May 14, 1996.
Divestiture Implementation Committee	20.0 (IDA)	<b>(R) Public Enterprise/Privatization</b> - Technical assistance and training programs to support institutional and policy reforms for Government's privatization effort and for improving performance of the public enterprise. Environmental Assessment Category C.	Consulting services will be required.	Approved by the Executive Directors on June 11, 1996.
<b>Guinea</b>				
Ministry of Mines and Geology	12.2 (IDA)	<b>(R) Mining Sector Investment Promotion (GN-PA-1077)</b> - Project seeks to strengthen the Government's capacity to act as facilitator and regulator of mining activities and help attract investments for mining sector development. Environmental Assessment Category B.	Consulting services will be required.	Approved by the Executive Directors on June 4, 1996.
SONEG	25.0 (IDA)	<b>Third Water Supply</b> - Project will focus on four components: (a) capacity building; (b) urban water supply; (c) urban sanitation; and (d) village water and sanitation. Environmental Assessment Category B.	Need for consultants not yet determined.	Appraisal mission completed. Negotiations on hold subject to conditions being met.
Ministries of Planning and Finance	20.0 (IDA)	<b>(R) Capacity Building</b> - Project will focus on the organization/management strengthening of institutions charged with the management of public resources and enforcement of a system of checks and balances. Environmental Assessment Category C.	Consulting services will be required for project implementation.	Due to the need for an institutional environment assessment survey, post appraisal will be undertaken in November 1996.
<b>Guinea-Bissau</b>				
Ministry of Health	15.0 (IDA)	<b>Health/AIDS</b> - Project will support the development and implementation of national programs to: (a) enhance the onset of fertility decline; and (b) launch a vigorous AIDS prevention strategy. Environmental Assessment Category C.	Consulting services will be required.	Preparation under way. Pre-appraisal mission scheduled for June 25, 1996.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Guinea-Bissau</b>				
Ministry of Energy, Industry and Natural Resources	15.0 (IDA)	<b>Water/Energy</b> - Project will provide a reliable and potable water supply and sewerage system to the city of Bissau, and establish an organization to manage, operate and maintain a water supply, drainage and sanitation system. Will also provide necessary technical assistance, equipment, vehicles and offices for the new entity. The system would also include the infrastructure to expand. Environmental Assessment Category B.	Consulting services will be required.	Appraisal mission scheduled for September 1996 subject to conditions in the energy sector being met.
<b>Kenya</b>				
Ministry of Public Works and Housing	120.0 (IDA)	<b>(N) Highway Sector III (KE-PA-1329)</b> - Project description is to be determined. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project under preparation.
Ministry of Finance	86.3 (IDA)	<b>(R) Structural Adjustment I (SAC I) (KE-PA-1334)</b> - Project is expected to be an adjustment operation in which balance of payments support will be provided against implementation of key action and policy reforms with respect to parastatal restructuring and privatization, rationalization of public expenditure processes, and the civil service. Environmental Assessment Category U.	Consulting services will be required.	Approved by the Executive Directors on June 18, 1996.
Ministry of Agriculture, Livestock Development	70.0 (IDA)	<b>(R) Agricultural Sector Investment</b> - Project will provide support for: (a) extension, animal health, disease control, and other essential services and regulatory activities not already covered under other IDA or other bilateral programs; (b) continuation of policy and institutional initiatives begun under the Second Agriculture Sector Adjustment Credit; (c) infrastructure to support private sector development; and (d) pilot investment schemes to support smallscale capital investments covering communities/NGOs/private entrepreneurs. Environmental Assessment Category B.	Need for consultants not yet determined.	Appraisal mission scheduled for September 1996.
Ministry of Local Government	55.0 (IDA)	<b>Municipal Reform Program</b> - Project seeks to promote capacity building and municipal infrastructure investments in various local authorities nationally. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project under preparation. PHRD Grant funded project preparation activities are in progress by the Government.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Kenya</b>				
National Water Conservation and Pipeline Corporation	105.0 (IDA)	<b>(R) Mombasa Water III</b> - Project seeks to improve and expand water supply to Mombasa and the coastal region. Environmental Assessment Category B.	All major consulting services (except for construction supervision) are carried out under the ongoing Second Mombasa and Coastal Water Supply and Engineering Project.	IEPS will be prepared by mid-June 1996. Appraisal mission scheduled for October 1996.
Ministry of Education	90.0 (IDA)	<b>Cost and Financing Education</b> - Project is a policy-based sector investment and maintenance loan. Environmental Assessment Category: To Be Determined.	Consulting services will be required. Specific details yet to be determined.	Project under preparation. Government has prepared a project proposal for Bank review and further meetings are to take place prior to project design.  Japanese Grant of US\$566,000 to help prepare project has been finalized.
Ministry of Research, Technical Training and Technology	40.0 (IDA)	<b>(R) National Agricultural Research II</b> - The project will strengthen the Kenya Agricultural Research Institute's capabilities by: (a) financing management reform, research center rationalization staff development and training; (b) providing adaptive research funds to the Regional Research Centers; and (c) supporting vital crops, livestock and disciplinary research programs through (i) station rehabilitation, (ii) purchase of vehicles and equipment, and (iii) improved research information and reporting systems, and (iv) seed multiplication. Environmental Assessment Category C.	Consulting services will be required for the pilot seed system, farming systems, and for research.	Negotiations completed. Board presentation scheduled for early August 1996.  A PPF was approved for US\$750,000 to finance start-up activities prior to project effectiveness for institutional strengthening of staff training and related civil works and training.  A supplemental PPF of US\$405,000 was approved on March 12, 1996 to continue project startup activities.
Ministry of Energy, National Oil Corporation, Kenya Pipeline Company, Kenya Power and Lighting Company	100.0 (IDA)	<b>(R) Energy Sector</b> - Project will finance investments in the power and petroleum sub-sector in conjunction with energy sector policy and institutional reform. Environmental Assessment Category A.	Consulting services will be required.	Board presentation scheduled for September 1996.
Ministry of Education	25.0 (IDA)	<b>(R) Early Child Development</b> - The project would develop and test interventions to improve child quality and school readiness among pre-school children, and improve the health and nutritional status of primary school children. Environmental Assessment Category C.	Consultants will be required and are likely to be financed under the Japanese PHRD Grant.	Board presentation scheduled for February 7, 1997.
Kenya Wildlife Service (KWS)	6.2 (GEF)	<b>(R) Conservation of the Tana River National Primate Reserve</b> - Project will establish effective management of the reserve and reduce reliance of the local community on resources of the reserve. Environmental Assessment Category B.	Local and international consultants will be required for feasibility and community micro projects.	Board presentation scheduled for September 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Kenya/Tanzania/ Uganda</b>				
Lake Victoria Environmental Management Project, Regional Secretariat	35.0 (IDA) 35.0 (GEF)	<b>(R) Lake Victoria Basin and Ecosystem Management</b> - Regional program for management of fisheries, lake pollution, and land use in wetlands and catchment of Lake Victoria in order to improve fisheries management and water quality and thereby conserve biodiversity and genetic resources. Environmental Assessment Category B.	Consulting services will be required for fisheries management and research, water hyacinth control, water quality monitoring, environmental legislation, and pollution standards.	Negotiations completed. Board presentation scheduled for July 1996.  Three separate PPAs for a total of US\$1.8 million were approved to finance studies, research, workshops, and for national and regional consultations to prepare a 5-year program for environmental management of the Lake Victoria Basin.
<b>Lesotho</b>				
Lesotho Highlands Development Authority	120.0 (Bank)	<b>Highland Water IB</b> - This is the second phase of a project to transfer water from Lesotho to the Gauteng province of South Africa. This phase will add 12m <sup>3</sup> /sec to the 18m <sup>3</sup> /sec under phase IA. Project includes construction of a 150m high dam, a 19m high weir and two tunnels (one 31.5km and one 6.4km) as well as appropriate environmental and social activities. Environmental Assessment Category A.	Consulting services will be required in the areas of detailed design, supervision, financial advisory, environmental support and management strengthening.	Project being identified. (Cofinancing will be required.)
Ministry of Planning, Economic and Manpower Development	40.0 (IDA)	<b>Road Rehabilitation and Maintenance</b> - Project will strengthen Government's ability to rehabilitate and maintain its road infrastructure, increasing access to isolated areas. Will also develop local road construction industry through road civil works (rehabilitation, upgrading, maintenance), engineering services and technical assistance. Environmental Assessment Category B.	To be determined.	Approved by the Executive Directors on May 9, 1996. (Cofinancing will be required. Irish Aid confirmed for US\$2.0 million. European Union and KfW have expressed interest.)
<b>Madagascar</b>				
Ministere de la Recherche Scientifique et Technologie pour la Developpement	15.0 (IDA)	<b>Agriculture Research II</b> - Project is a follow up of the first phase which supported the restructuring of the research system. The second phase will seek to streamline government-financed activities and to institute sustainable financing mechanisms and ties with private operators. Environmental Assessment Category C.	Need for consultants not yet determined.	Project under preparation.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Ministry of the Interior and Decentralization	15.0 (IDA)	<b>Decentralized Infrastructure Management</b> - Project would focus on the strengthening of infrastructure management at three different levels: (a) greater Antananarivo; (b) the pilot region of Morondava; and (c) urban communes. It would include traffic management in Antananarivo, rural and urban road infrastructure in Morondava, and labor-based infrastructure works in urban municipalities. Environmental Assessment Category B.	Consulting services might be needed. Financing is to be sought.	Project under preparation. PHRD grant request to be presented at the Fall session.
Ministry of Energy and Mines (MEM)	26.0 (IDA)	<b>Water Sector</b> - Project will focus on: (a) rehabilitation of 13 secondary urban centers for water supply (10 managed by Jirama, 3 managed by collectivites decentralisees); (b) a rural component; and (c) restructuring of JIRAMA. Environmental Assessment Category B.	Consulting services will be required for supervision of works and a study for Jirama's restructuring.	Appraisal mission scheduled for October 1996.
National Environment Office	30.0 (IDA)	<b>Environment II</b> - Project provides financing to continue activities in soil conservation and biodiversity conservation, and pilot operations in marine and urban environment. Environmental Assessment Category C.	Need for consultants not yet determined.	Project under preparation.
Ministry of Health	20.0 (IDA)	<b>(R) Health and Nutrition II</b> - Project will support the decentralization of the health delivery system currently under way, reinforce the health districts strengthen public health programs, and promote community managed cost recovery. It will also support the extension of community nutrition programs nationwide using NGOs and other grass roots organizations. Environmental Assessment Category C.	Consulting services will be required in public health, health economics, health system management, nutrition programs, micro-nutrients, project management and implementation.	Project concept and institutional structure under review.
Office of the Prime Minister	13.8 (IDA)	<b>Capacity Building</b> - Project will provide support to building capacity of agencies involved in economic and financial management and improve governance. Components to include support to: (a) the technical secretariat for adjustment; (b) the National Statistical Institute; (c) civil service reform; (d) the decentralization process; (e) the reform of business laws and the judicial system; (f) the administration of economy and planning; and (g) the administration of finance and budget. Environmental Assessment Category C.	Consulting services will be required for all components.	Negotiations date to be determined.
Ministry of Education	30.0 (IDA)	<b>(R) Education Sector Development</b> - The proposed project would support qualitative and quantitative improvement in learning outcomes at the school level. It would basically extend reforms and actions initiated under the credit for the Education Sector Reinforcement Project (FY90). Environmental Assessment Category C.	Need for consultants not yet determined.	Sector strategy and investment program being finalized. Preparation mission scheduled for October 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Madagascar</b>				
To be determined	23.0 (IDA)	<b>Private Sector Development</b> - Project will support inter alia: (a) joint government-private sector competitiveness policy review; (b) private sector, market-based support services to upgrade private associations and private firms; and (c) tax administration reform. Environmental Assessment Category C.	Consulting services will be required.	Project under preparation.
Jivo Sy Rano Malagasy (JIRAMA) (Agency of Ministry of Energy and Mines)	46.0 (IDA)	<b>Energy Sector Development</b> - Institutional reform of the power sector. Project also includes: (a) rehabilitation of hydroplants; (b) rehabilitation and extension of diesel power plants in isolated systems; (c) improvement of distribution substations; (d) construction of transmission lines; (e) rehabilitation and extensions of distribution networks; (f) electrification and new electric service connections; (g) dissemination of improved carbonization techniques and efficient stoves; and (h) technical assistance and training. Environmental Assessment Category B.	Consulting services will be required for engineering and preparation of bidding documents, project management, master plan and design standards for electrification, power sector reform, utility restructuring, and energy efficiency and woodfuels programs.	Approved by the Executive Directors on April 16, 1996.
Ministry of Finance and Planning	70.0 (IDA)	<b>SAC</b> - To support the next phase of adjustment reforms, including restoring macroeconomic equilibrium, reform of the incentive systems, support of private sector activities and exports, divestiture from public enterprises and improvement of public sector management. Environmental Assessment Category U.	To be determined.	Appraisal mission date to be determined.
Ministry of Transport	31.4 (IDA)	<b>Transport Sector</b> - Assist in restructuring of public enterprises in charge of railroad transport and coastal shipping and to finance limited improvement to ports, air and rail transport infrastructure. Environmental Assessment Category B.	Consultants have been appointed for restructuring of national railway company, restructuring of ports management, and ports and inland waterways improvements.	Project under preparation.
<b>Malawi</b>				
Ministry of Research and Environmental Affairs, Mulanje Mountain Conservation Trust	5.0 (GEF)	<b>Mulanje Mountain Biodiversity Conservation</b> - Project would be an important component of the Government's overall priority environmental program. Project's main objective is the long-term conservation of the fauna, flora, and ecosystems of Mulanje Mountain which is both of global importance and vital to the livelihood of the people living in the surrounding communities. Environmental Assessment Category B.	Consultants may be required.	Project is under preparation. Will be submitted for preliminary GEF OPS Council review.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Malawi</b>				
Ministry of Health and Population	20.0 (IDA)	<b>Population/Family Planning</b> - Project will provide support for reproductive health services and for carrying out the population policy through the rehabilitation and expansion of facilities, expansion of community-based distribution, and strengthening information, education, and communication. Environmental Assessment Category C.	Consultants may be required.	Project is under preparation. (Cofinancing will be required.)
Ministry of Works and Supplies	30.0 (IDA)	<b>Road Maintenance and Rehabilitation</b> - Project would be carried out during the years 1998-2002. Its main components would be: (a) rehabilitation and upgrading of selected secondary/rural roads; (b) assistance to institutional development in the planning, management and maintenance of roads through support for the Road Maintenance Initiative (RMI); and (c) technical assistance in support of the development and implementation of policy reforms in the transport sector covering inter alia legislative aspects, deregulation and road safety. Environmental Assessment Category B.	Consultants may be required for detailed engineering designs and provision of technical assistance.	Project is under preparation. (Cofinancing will be required.)
Ministry of Finance	35.0 (IDA)	<b>Private Sector</b> - Project would provide support for the Government objective of developing small and medium scale enterprises, and would build on IDA support provided under the Financial Sector and Enterprise Development Project. The components are expected to include a line of credit for investment projects and technical assistance. Environmental Assessment Category C.	Consulting services will not be required.	Project is being identified. (Cofinancing will be required.)
Government of Malawi	20.0 (IDA)	<b>Environmental Support</b> - Project would support the conservation of a natural resource base in Malawi. Environmental Assessment Category C.	Consulting services will be required.	Project under preparation. (Cofinancing will be required.)
Ministry of Education	40.0 (IDA)	<b>Education Sector III</b> - Project will support the expansion and improvement of education in underserved areas. The project will also support priority needs at the secondary level. Will also strengthen institutional capacity for management of education and training services. Environmental Assessment Category C.	Need for consultants not yet determined.	Project under preparation. (Cofinancing will be required.)
<b>Mali</b>				
Ministry of Finance and Commerce	60.0 (IDA)	<b>(R) Economic Management (ML-PA-1735)</b> - Project is a structural adjustment credit to support macro policy reforms. Environmental Assessment Category C.	Need for consultants not yet determined.	Negotiations completed. Board presentation scheduled for June 27, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministry of Basic Education	45.0 (IDA)	<b>Education Sector Investment Program</b> - Project will focus on a ten year program to significantly expand primary education, increase girls' enrollment, restructure higher education and improve the quality, relevance and efficiency at all levels. Environmental Assessment Category C.	Consulting services will be required.	Preparation under way. (Cofinancing of about US\$10.0 million is expected.)
Ministry of Mines, Energy, and Hydraulics Power and Water Distribution Utility Company	27.3 (IDA)	<b>(R) Selingue Power Rehabilitation</b> - The main objective of the project is to repair and rehabilitate the Selingue hydropower facilities. Other objectives are to: (a) maintain the electricity demand/supply balance by increasing the thermal capacity of the system and implementing an energy efficiency program; (b) improve the management company to properly operate, maintain, and monitor its power generation facilities; and (c) prepare a long-term institutional and regulatory framework and implement as of 1999. Environmental Assessment Category B.	Consulting services will be required.	Approved by the Executive Directors on April 25, 1996. Credit was signed on May 13, 1996.  Parallel financing of US\$6.5 million equivalent has been confirmed with EIB.
Ministry of Rural Development and Environment	50.0 (IDA)	<b>(R) Rural Sector Support</b> - Project will focus on supporting the MDRE restructuring and capacity building, strengthening core public agricultural services (extension in all subsectors including livestock), and strengthening farmers' organizations and irrigation rehabilitation in Office du Niger. Environmental Assessment Category B.	Consulting services may be required.	First pre-appraisal mission completed. Second pre-appraisal mission scheduled for October 1996.  (Cofinancing is expected.)
Prime Minister's Office	15.0 (IDA)	<b>(R) Grassroots Hunger/Poverty (formerly Pilot Participation)</b> - Project will test and implement an innovative approach to Government and civil society's collaboration in responding to hunger, poverty and malnutrition. Environmental Assessment Category C.	Consulting services will be required.	Appraisal mission is in the field.
General Secretary of the Presidency	8.0 (IDA)	<b>Institutional Development</b> - Project will improve the capacity of Government agencies to implement economic and social policies. Environmental Assessment Category C.	Need for consultants not yet determined.	Project being identified. Pre-appraisal mission tentatively scheduled for July 1996.
Ministry of Urban Planning and Housing	80.0 (IDA)	<b>(R) Urban Development and Decentralization</b> - Project seeks to: (a) increase municipal revenue; (b) increase efficiency of municipal expenditures; (c) create financial instruments to provide housing finance. Total project cost is US\$80.0 million. Environmental Assessment Category B.	Need for consultants not yet determined.	Appraisal mission is in the field.
Ministry of Rural Development and Environment	5.0 (IDA)	<b>(R) Private Irrigation Promotion Pilot</b> - Pilot operation to test mechanisms, by sector, through which technical and managerial services would be provided to small-scale irrigation producers. Environmental Assessment Category B.	Mostly short term and local consultants will be required. Estimated at 100 staffweeks.	Negotiations tentatively scheduled for September 1996.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Mauritania</b>				
Ministry of Planning	13.9 (IDA)	<b>(R) Public Resource Management</b> - Project seeks to assist the Government in pursuing stabilization and adjustment, and implementing reforms at the institution level. Environmental Assessment Category C.	Mostly short-term and local consultants will be required.	Board presentation scheduled for June 20, 1996.
Ministry of Rural Development and Environment	14.0 (IDA)	<b>(R) Rainfed Natural Resource Management</b> - The project aims to ensure communities participation in the management of their resources, extending a sustainable intensified production system, while establishing protective, productive and defensive investments at the village level, through the strengthening of existing rural associations. Environmental Assessment Category B.	Consulting services will be required for institution building, financial management, social assessment and fuelwood management.	Appraisal mission scheduled for June 28, 1996.  (Cofinancing will be required.)
Ministry of Rural Development and Environment	14.0 (IDA)	<b>(R) Integrated Development Program For Irrigated Agriculture</b> - Development of private irrigation, selected rehabilitation of existing irrigation schemes and access roads, crop diversification and promotion of integrated agriculture. Total project cost estimated at US\$78.0 million. Environmental Assessment Category A.	Mainly short term and local consultants will be required. Estimated at 100 staffweeks.	Project under preparation. Pre-appraisal mission scheduled for October/ November 1996.  (Cofinancing expected.)
<b>Mauritius</b>				
Waste Water Authority (WWA)	15.0 (Bank)	<b>(R) Sewerage and Sanitation</b> - Project will support GOM in: (a) modernization of existing legislation on wastewater disposal; (b) assisting in creation of a cost recovery system which should generate resources for financing the operation and maintenance of sewerage facilities as well as gradual recovery of investment information; (c) assisting with institutional strengthening of the Waste Water Authority (WWA); and financing the Montagne Jacquot component of investment program. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project under identification. Appraisal mission tentatively scheduled for May 1997.
Ministry of Finance	10.0 (Bank)	<b>(R) Services Sector Modernization</b> - The project would: (a) liberalize provision of telecommunications services while creating effective regulatory capacity; (b) develop an automated payments system within the banking and finance system; (c) improve the delivery of public services with priority to those services which directly interface with the private sector, such as company and land registration; and (d) strengthen policy making capacity in tourist sector. Environmental Assessment Category C.	Consultants selected on various tasks.	Negotiations scheduled for September 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Mozambique</b>				
Ministry of Planning and Finance	40.0 (IDA)	<b>Rural Action Program</b> - The project will provide rural communities with resources to finance small subprojects, including health and education infrastructure, light agricultural equipment and implements, feeder roads, water wells, etc. The project will be demand-driven but oriented and closely monitored by the center to ensure consistency with national plans and budget. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Project being identified. (Cofinancing will be required.)
Ministry of Public Works and Housing	30.0 (IDA)	<b>(R) National Water Development</b> - An integrated sector program comprising: (a) institution building and human resource development; (b) formulation of flexible investment program for development of the sector; and (c) investment in rehabilitation and extensions of urban water supply systems, and in water resources protection and development. Environmental Assessment Category B.	Need for consultants not yet determined.	Appraisal mission tentatively scheduled for late June 1996. (Cofinancing will be required.)
Government of Mozambique	100.0 (IDA)	<b>(R) Economic Recovery III</b> - Project will support the continuation of stabilization policies at the macro level and multisectoral policy reform. In particular, it will aim at deepening financial and enterprise sector reform as well as improving the efficiency of fiscal policy. Environmental Assessment Category U.	Consulting services will be required.	Project being prepared. Appraisal mission tentatively scheduled for late June 1996. (Cofinancing will be required.)
Government of Mozambique	60.0 (IDA)	<b>(R) Agricultural Sector Investment (formerly Smallholder Agricultural Sector I)</b> - Project will provide support to the agricultural investment program. The program will focus on: (a) agriculture research and extension; (b) pilot land demarcation, adjudication and cadastre; and (c) the restructuring of the Ministry of Agriculture and Fisheries and the development of its human resources and management system. Program would also include priority reform in the sector policy environment. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Project under preparation. (Cofinancing will be required.)
National Directorate for Forestry and Wildlife	5.0 (GEF)	<b>Transborder Parks</b> - Project will focus on transboundary protected areas management, demarcation, management planning, environmental legislation, review and updating. Environmental Assessment Category B.	Consulting services will be required.	Project under preparation.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Namibia</b>				
Ministry of Trade and Industry	10.0 (Bank)	<b>(R) Walvis Bay Industrial and Urban Development</b> - Project will support the development of the planned export processing zone in Walvis Bay by financing an integrated urban development project. It will also finance the expansion of the existing sewage treatment works and electricity supply, the servicing of low and middle income housing sites, and the development of a new sanitary landfill. Environmental Assessment Category A.	Consulting services will be required.	Project is being identified. (Cofinancing may be required.)
<b>Niger</b>				
To be determined	60.0 (IDA)	<b>(R) SAL II</b> - Project seeks to strengthen competitiveness of the economy through better public sector management, civil service reform, and public enterprise (PE) reform, and continuation of other structural reforms to aim for private sector development and poverty reduction. Environmental Assessment Category U.	Need for consultants not yet determined.	Appraisal mission scheduled for August 1996.  A PPF advance in the amount of US\$750,000 was approved March 1992 for implementation of the project. A second PPF of US\$315,000 is being processed. A 1996-98 PPF has recently been agreed upon.
To be determined	20.0 (IDA)	<b>Infrastructure Rehabilitation</b> - Project will develop a capacity building strategy for the highway and urban infrastructure sector. Environmental Assessment Category B.	Need for consultants not yet determined.	Preparation under way.
To be determined	11.2 (IDA)	<b>Institutional Development</b> - Project seeks to improve economic planning, policy-making and management capacity, and develop personnel management policies and practices more in line with effective public sector management. Environmental Assessment Category C.	Need for consultants not yet determined.	Pre-appraisal mission scheduled for March 30, 1997.
Ministry of Public Health	30.0 (IDA)	<b>(R) Health II</b> - The project will support implementation of the Government's health development plan and AIDS prevention programs. Environmental Assessment Category C.	Consulting services will be required.	Negotiations scheduled for mid-June 1997.
<b>Nigeria</b>				
To be determined	50.0 (IDA)	<b>Primary Health Care Support</b> - Project description is to be determined. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project identification is to be determined.
National Universities Commission	80.0 (IDA)	<b>Federal Universities Sector Investment</b> - Project will continue support for institutional reforms and strengthening of twenty-four federal universities and the National Universities Commission. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation suspended pending dialogue on country economic policies.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
To be determined	25.0 (IDA)	<b>(R) Social Fund</b> - Project would help finance community-based projects to improve living conditions of the poor. It will provide support to programs that may include the provision of basic services, development of income generation skills, and opportunities and strengthening capacity at the community level. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Identification/preparation under way. Dissemination of poverty assessment results are being carried out with National Planning Commission (NPC) assistance.
Rivers State Environmental Protection Agency	To Be Determined (IDA)	<b>Coastal Zone Management</b> - Program to assist the State Environmental Protection Agency and other related institutions in: (a) controlling the pollution in Rivers State; (b) developing a management plan to conserve the mangroves and other natural resources in the Niger Delta; (c) developing an environmental education program in the state; and (d) developing community level environmental management and development initiatives. Environmental Assessment Category: To Be Determined.	Local and international consultants being engaged with funding from the Danish Trust Fund under the Environmental Management Project. Additional consulting requirements to be determined as required.	IEPS postponed pending improvement in dialogue on country economic and sectoral policies.
Federal Ministry of Health	14.0 (IDA)	<b>(R) Nigeria National STD Prevention</b> - Support for the programs to control the spread of sexually transmitted diseases, HIV and AIDS. The project would focus on public education and promotion of behavior change, improved surveillance and case management, institutional support, and operational research. Environmental Assessment Category C.	Local and international consultants will be required to determine baseline behaviors and prevalence of disease; assist with strategy formulation, monitoring and evaluation; and to conduct studies.	Negotiations postponed since there is no lending program. Further reporting will be discontinued.
Federal Ministry of Agriculture/Federal Environmental Protection Agency (FEPA)	15.0 (IDA)	<b>(R) Community Forestry</b> - Promotion of sustainable multiple-use management of forest reserves, communal and individual tree planting, participatory land and forest resource management, and institutional development. Environmental Assessment Category A.	Minimal consultancy services will be needed for developing forest reserve management plans.	Project has been dropped from the current lending program. Further reporting will be discontinued.
Nigeria National Petroleum Corporation (NNPC)	100.0 (Bank)	<b>Escravos Flared Gas Reduction</b> - Project will reduce greenhouse gases emissions/global warming by reducing current flaring of natural gas. Project will include: (a) an offshore gathering system; (b) an onshore compression station; (c) a gas pipeline; and (d) a processing plant. In addition, support will be provided for environmental, institutional and technical development within NNPC and the Ministry. Environmental Assessment Category A.	Consulting services will be required for studies and technical assistance. Most terms-of-reference have been agreed upon with the borrower.	Project has been deferred pending clarification on macroeconomic policy issues.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Nigeria</b>				
Ministry of Works and Transport (Lagos State Government)	25.0 (Bank)/ (IDA)	<b>(R) Lagos Urban Transport</b> - To improve the supply and productivity of urban transport. Project would support: (a) improvements in efficiency of transport infrastructure through priority road maintenance and rehabilitation, and traffic management and traffic flows enforcement; (b) integration of urban transport elements and reduction of traffic congestion; and (c) institutional reforms and human resource development. Environmental Assessment Category B.	Consulting services have been secured for some of the preparation activities.	Project has been dropped from the current lending program. Further reporting will be discontinued.
<b>Rwanda</b>				
Ministry of Public Works, Energy and Water	33.8 (IDA)	<b>(R) Water Supply III</b> - Project would provide: (a) assistance to the privatization of the operation of urban water supply systems; (b) sanitation and storm drainage of the capital city, Kigali; (c) strengthening of the Directorate of Water and Sanitation; and (d) rehabilitation and expansion of rural water supply schemes throughout the country. Environmental Assessment Category B.	Consulting services will be required for the above components (a), (b), and (d).	Due to country conditions, preparation studies should be updated. Components of the project need to be redefined in the new context of post-war reconstruction.
<b>Senegal</b>				
Ministry of Environment and Protection of Nature, Ministry of Industry and Energy	5.2 (IDA) 4.7 (GEF)	<b>Sustainable and Participatory Energy Management</b> - The project seeks to meet the increasing urban demand for household fuels, without the loss of forest cover and the ecosystem's carbon sequestration potential and biodiversity. This objective would be met through: (a) implementing and monitoring 300,000 hectares of environmentally sustainable forest resource systems managed by the rural communities; (b) promoting private sector inter-fuel substitution, and private sector and NGO-based improved stoves initiatives; and (c) strengthening the institutions managing the sector, and promoting the civil society's participation in sector management. Environmental Assessment Category C.	Consulting services will be required.	Preparation under way. (Cofinancing in the amount of US\$8.0 million equivalent expected.)

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Senegal</b>				
Ministry of Plan	30.0 (IDA)	<b>(R) Urban Development and Decentralization (SN-PA-2365)</b> - Project has two main components: (a) institutional development of both central and local government levels; and (b) physical investment encompassing the financing of smallscale public facilities and service under the responsibility of local governments. Environmental Assessment Category B.	Need for consultants not yet determined.	Appraisal mission scheduled for July 1996.
Ministry of Plan and Health	30.0 (IDA)	<b>Integrated Health Sector Development</b> - The project would further strengthen policies and programs in health and population including the quality of primary health care and referral services initiated under the First Human Resources Development Project. Environmental Assessment Category C.	Consulting services will be required.	Preparation under way. Pre-appraisal mission scheduled for September 15, 1996.
Ministry of Basic Education and National Languages	12.0 (IDA)	<b>(R) First Literacy</b> - Project would contribute to the Government objective of decreasing illiteracy among rural women by financing a literacy program during the 1995-2000 period for about 120,000 rural girls and women aged 15-30 years. Would also focus on teaching literacy, problem solving, and management skills. Environmental Assessment Category C.	Consulting services will be required.	Approved by the Executive Directors on June 4, 1996.
Ministere de l'Education Nationale	23.5 (IDA)	<b>(R) Higher Education</b> - The project has three components: (a) improvement of library and information services; (b) upgrading of teaching and research; and (c) strengthening of management capacity. Environmental Assessment Category C.	Consulting services will be required.	Approved by the Executive Directors on June 4, 1996.  Five PPF advances in the amount of US\$1,780,000 have been approved for the implementation of the project.
To be determined	50.0 (IDA)	<b>Agricultural Services and Producers Organizations</b> - Project is a follow-up of Agricultural Services I and Research II projects. It is adding two components: (a) producers' organizations support; and (b) rural finance. Environmental Assessment Category B.	Consulting services required in the areas of agricultural engineering (for agricultural research, equipment and infrastructure), and organizational management and support to farmer organizations. Consultants have been identified.	Appraisal mission scheduled for June 29, 1996.  Potential parallel financing with the French cooperation.
<b>Seychelles</b>				
Ministry of Foreign Affairs, Planning and Environment	8.0 (Bank)	<b>Infrastructure Management</b> - Project will mainly deal with water supply rehabilitation and expansion. Environmental Assessment Category B.	Consulting services will be required.	Project is being re-identified under the ongoing Environment and Transport Project.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Sierra Leone</b>				
Sierra Leone Roads Authority, Dept. of Transportation and Communications	35.0 (IDA)	<b>(R) Transport Sector</b> - Project focuses on: (a) rehabilitation of trunk and feeder roads, urban roads, Freetown port facilities, airport runway, river and coastal jetties; (b) support to the private sector for inland water transport; (c) promotion of village level transport in rural areas; and (d) institutional strengthening and human resource development in the transport sector. Environmental Assessment Category B.	Consulting services will be required for design and supervision, and technical assistance.	Negotiations completed. Board presentation scheduled for June 27, 1996.
Department of Education	10.0 (IDA)	<b>(R) Education IV</b> - Project would support Government's basic education reform, particularly in the areas of: (a) improving organization and delivery of planning, monitoring and regulatory services; (b) improving the efficiency and increasing the budgetary allocation to education; (c) balancing the supply of and demand for education sector personnel; (d) enhancing the cost-effectiveness of pre-service and in-service teacher training; (e) strengthening the production, distribution and resupply of learning materials; (f) rehabilitating buildings; and (g) providing technical equipment. Environmental Assessment Category C.	Consulting services have been arranged to assist in preparation.	Appraisal mission scheduled for October 1996.
<b>Tanzania</b>				
Tanzania Harbours Authority (THA)	45.0 (IDA)	<b>(N) Ports III (TZ-PA-2768)</b> - The main objective of the project is commercialization of port activities which will include: (a) deepening and widening of the entrance channel; (b) improvements to navigational aid; (c) upgrading of Kurasini Oil Jetty facilities including loading arms and a new coastal jetty; and (d) relining/replacement of the submarine pipeline (for crude oil) from SBM to the shoreline. Environmental Assessment Category A.	Need for consultants not yet determined.	Project under preparation. A commercialization study is completed. THA management is presently reviewing different options.
To be determined	30.0 (IDA)	<b>(R) Export Development Enterprise Competitiveness</b> - Project would include measures to strengthen and expand the domestic private sector and foster export. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Initial discussion on the project will be held in July 1996.
Ministry of Finance	80.0 (IDA)	<b>(R) Structural Adjustment I</b> - Project would support key policy reforms in the financial sector, agriculture, civil service, parastatal sector, and private sector development. Environmental Assessment Category U.	Consulting services will not be required.	Appraisal mission scheduled for August 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministry of Health, Prime Minister's Office	40.0 (IDA)	<b>Health Sector Reform</b> - Project will support the Government's efforts to combat the major sources of burden of disease through community and preventive health interventions. It will assist in reforming and restructuring the health sector including decentralization and greater local control over community interventions and improved health sector financing. Environmental Assessment Category C.	Consulting services will be required in the areas of public health, contracting out, facility-based management, health financing, specific disease programs, monitoring and evaluation, municipal public finance, and health insurance.	Appraisal mission scheduled for October 1996.
Ministry of Agriculture	31.1 (IDA)	<b>(R) National Agricultural Extension (Phase II) (formerly National Extension Program II)</b> - The project provides for: (a) reorganization and strengthening of the agricultural extension system with an enhanced role for farmers and user; (b) improving linkage between research and extension; and (c) establishment of a monitoring and evaluation system. Environmental Assessment Category C.	Consultant services will be needed during implementation for monitoring and evaluation, communication support, and training.	Negotiations completed. Board presentation scheduled for early July 1996.
Ministry of Water, Ministry of Agriculture and Cooperative	26.3 (IDA)	<b>(R) River Basin Management of Smallholder Irrigation</b> - The project aims to strengthen the Government's capacity to manage water allocation, and address environmental concerns in the Rufiji and the Pangani river basins and to rehabilitate and upgrade key common infrastructure components of smallholder traditional irrigation schemes. The project would also support the downsizing of the irrigation support function in the Ministry of Agriculture, and the strengthening of the institutional framework for basin management. Environmental Assessment Category B.	Consultant services will be used for institutional environmental and preparation of bidding documents and construction supervision.	Negotiations completed. Board presentation scheduled for July 1996.  A PPF of US\$1.3 million has been approved to cover activities, equipment and vehicles in connection with smallholder irrigation surveys, assessments of water use, and date collection. A supplemental PPF of US\$700,000 was approved on October 4, 1995 to finance preparation of a detailed implementation plan.
Government of Tanzania, Ministry of Energy and Minerals, TANESCO, SONGAS	249.0 (IDA)	<b>Songo Songo Gas Development</b> - Project includes installation of a gas gathering system for about five wells, construction of a gas processing facility, a 20 km offshore gas pipeline, a 220 km overland pipeline, and a power generation facility near Dar-es-Salaam. Also includes distribution works, a village electrification scheme, and reinforcing and expansion of the MNAZI Bay power system. Environmental Assessment Category A.	Consulting services will be required to assist the Government and TANESCO in implementation of the TANESCO and Ministry of Energy and Minerals (MEN) components for studies.	Appraisal mission scheduled for July 1996.
National Urban Water Authority (NUWA), Prime Minister's Office	105.0 (IDA)	<b>(R) Urban Sector Rehabilitation</b> - Rehabilitation, maintenance, and selected expansion of the infrastructure stock in major urban areas. Environmental Assessment Category B.	Consulting services will be required for technical assistance, supervision, and studies.	Approved by the Executive Directors on May 23, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Tanzania</b>				
Prime Minister's Office	20.0 (IDA)	<b>(R) Human Resources Development I</b> - This is a pilot project with two major components: (a) support for a community education fund to increase primary school enrollments and quality; and (b) support for a program to increase enrollments and performance of girls in secondary school. The project also includes a component for monitoring and evaluation in education. Environmental Assessment Category C.	Consulting services will be required.	Appraisal mission in the field. Board presentation scheduled for November 1996.
<b>Togo</b>				
To be determined	6.0 (IDA)	<b>(N) Private Sector/Financial Sector Technical Assistance (TG-PA-2873)</b> - Project will focus on incentive and regulatory reforms. Environmental Assessment Category C.	Need for consultants not yet determined.	Identification under way.
To be determined	50.0 (IDA)	<b>(N) Private Sector/Financial Sector Adjustment (TG-PA-35625)</b> - Project seeks to restructure financial institutions including banks, insurance companies, savings banks and small and medium enterprises. Environmental Assessment Category C.	Five studies are to be undertaken as part of program preparation: (a) strategic coalition and audit of Societe Nationale d'Investissements (SNI); (b) evaluation of Caisse d'Epargne du Togo (CET); (c) audit of Groupement Togolai d'Assurances; (d) assessment of informal financial markets; and (e) functioning of the judicial system.	Preparation mission scheduled for June 1996. Appraisal tentatively scheduled for late 1996.
Ministry of Finance	To Be Determined (IDA)	<b>Debt Buy Back</b> - Project will focus on the buy back of commercial debt. Environmental Assessment Category U.	Services of legal advisors will be needed.	Project preparation under way. A preparatory grant has been approved.
Ministry of Health and Population	15.0 (IDA)	<b>(R) Health/Population Sector</b> - Project seeks to improve the quality and utilization of health services through rehabilitation of existing facilities, rationalization of staff use, decentralization of the public health system and increase in the availability of essential generic drugs. It will support the implementation of the Government population policy and strengthen the capacity to contain the spread of HIV/AIDS/sexually transmitted diseases. Environmental Assessment Category C.	Need for consultants not yet determined.	Identification/preparation under way. Pre-appraisal mission tentatively scheduled for July 7, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Togo</b>				
Ministry of Equipment	40.0 (IDA)	<b>(R) Infrastructure Rehabilitation</b> - The project is intended to: (a) develop the planning and management capacity of urban institutions; (b) support the five main cities with an aim to increase local resource mobilization; and (c) execute priority urban works in the five main cities, with an optimal impact of employment and income of the poor. Environmental Assessment Category B.	Consultants were selected in March 1996.	IEPS issued in October 1995. Pre-appraisal mission scheduled for March 1997.
Ministry of Rural Development (Ministere du Developpement Rural)	20.0 (IDA)	<b>(R) National Agricultural Services Support</b> - Project will include: (a) restructuring of the Ministry of Agriculture, of agricultural research extension services, and farmer's organization support; and (b) support to the restructured institution. Environmental Assessment Category C.	Consulting services may be required for implementation of the project (cooperative support, on-the-job training, agriculture research).	Appraisal mission completed. Negotiations scheduled for July 22, 1996.
Regie Nationale des Eaux du Togo (RNET)	19.0 (IDA)	<b>(R) Water Resources Management</b> - Project would support: (a) the improvement of the management of ground water resources; (b) the establishment of equitable and efficient cost recovery policies; and (c) the expansion of water services in Lome. Environmental Assessment Category A.	Selection of consultants under way for the environmental assessment. Consulting services will also be required for assistance for water resources management, beneficiary assessments and willingness to pay studies.	Pre-appraisal mission completed.
Ministries of Planning, Finance and Public Enterprises	35.0 (IDA)	<b>(R) E.R.A.C.</b> - Project would provide support to the recovery of the Togolese economy. It would specifically support: (a) tax reforms; (b) privatization and parastatal reform; and (b) reform of the regulatory framework. Environmental Assessment Category U.	Consulting services may be required for implementation of the program, but they would not be financed by the credit.	Approved by the Executive Directors on April 25, 1996. Credit was signed on May 24, 1996.
Ministry of Transport and Commerce	40.0 (IDA)	<b>Transport Sector</b> - Project supports a three year transport sector expenditure program concentrating on extending routine maintenance to all subdivisions. Environmental Assessment Category B.	Need for consultants not yet determined.	Pre-appraisal mission scheduled for September 1997. Project description will be reviewed after the mission.
<b>Uganda</b>				
Ministry of Finance and Economic Planning	10.0 (IDA)	<b>Second Economic and Financial Management (EFMP II) (UG-PA-44679)</b> - Project would continue assistance in strengthening economic planning and public financial management. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	IEPS under preparation.
Ministry of Finance	80.0 (IDA)	<b>(R) Structural Adjustment III (SAC III)</b> - Project will support long-term fiscal sustainability with the new decentralized political system. Environmental Assessment Category U.	Consulting services would be required.	Next mission scheduled for end July 1996.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Ministry of Works, Transport and Communication	250.0 (IDA)	<b>(R) First Road Sector</b> - Project will include the following: (a) institutional strengthening and capacity building; (b) improvement of classified road network through pavement strengthening; (c) rehabilitation of classified road network; (d) maintenance of existing roads; (e) construction of traffic terminals in Kampala; and (f) technical assistance. Total project cost is US\$750.0 million. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	IEPS has been reviewed by the country team.  (Parallel funding expected from Japan, Germany and EEC.)
Ministry of Tourism, Wildlife and Antiquities	60.0 (IDA)	<b>(R) Protected Areas Management (PAMSU)</b> - Project will support: (a) management and conservation of protected areas and biodiversity through rehabilitation and improved management of national parks and other key protected areas and policy development to address issues of people currently residing in these areas; (b) promotion and regulation of tourism by strengthening district and local levels of government in partnership with the private sector to facilitate sustainable tourism development; and (c) promotion of local community participation in management and sustainable use of the protected areas and natural resources. Environmental Assessment Category B.	Need for consultants not yet determined.	Appraisal mission scheduled for September 15, 1996.  A PPF of US\$410,000 was approved to finance key activities and participatory approaches in designing components by local working groups. A supplemental PPF of US\$410,000 was approved for activities associated with management of Protected Areas, biodiversity, community participation, preparation of a resettlement plan for key protected areas and tourism promotion/regulation.
Ministry of Health	10.0 (IDA)	<b>Health Sector Reform</b> - Project will support the Government in decentralizing health services nationwide. Environmental Assessment Category C.	Need for consultants not yet determined.	Preparation mission is in the field.
Ministry of Finance and Economic Planning	40.0 (IDA)	<b>(R) Nutrition and Child Development (UG-PA-40551)</b> - Project will focus on delivery of nutrition and child development services, including: (a) protein-calorie malnutrition interventions; (b) micronutrient deficiency control program; and (c) early childhood care and development. Environmental Assessment Category C.	Consulting services will be required.	Appraisal mission tentatively scheduled for December 1996.
Ministry of Local Government	20.0 (IDA)	<b>Peri Urban Infrastructure</b> - The project aims to improve water sanitation and public hygiene for the population in poorer urban areas, through building and maintaining appropriate facilities with the involvement of the beneficiaries. Environmental Assessment Category B.	Need for consultants not yet determined.	IEPS issued April 19, 1996. Appraisal mission scheduled for February 1997.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Uganda</b>				
Ministry of Agriculture, Animal Industries and Fishery (MAAIF)	17.9 (IDA)	<b>(R) Agriculture Sector Management</b> - Project will focus on upgrading skills and training, and management capacity and policy analysis through: (a) development of analytical and planning capacity; (b) improvement of internal systems; and (c) human resource development. Environmental Assessment Category C.	Consultant services will be required.	Approved by the Executive Directors on April 16, 1996. Credit was signed on May 2, 1996.  A PPF of US\$600,000 was approved to finance expenses of the steering committee, local consultants, and office equipment for the secretariat to the project preparation terms.
<b>Zambia</b>				
Ministry of Finance	90.0 (IDA)	<b>(N) Third Economic and Social Adjustment (ZM-PA-35641)</b> - Project is the seventh overall structural adjustment operation for Zambia since 1991. Will support follow up actions to previous operations and reforms in new areas identified in subsequent economic and sector work. Will also provide critical balance of payments support. Environmental Assessment Category U.	Consulting services will not be required.	Project is under preparation.  (Cofinancing will be required.)
Ministry of Commerce, Industry and Trade	45.0 (IDA)	<b>(R) Enterprise Development (ZM-PA-44324)</b> - Project has three components: (a) a credit component with short-term export finance facility and a medium-term investment finance facility; (b) a matching grant scheme to assist firms in accessing advice and information; and (c) technical assistance to financial institutions and business support services to upgrade operation. Environmental Assessment Category C.	Consulting services will be required.	Appraisal mission scheduled for late June 1996.
Ministry of Communication and Transport	70.0 (IDA)	<b>(R) National Road Sector</b> - Project will help the Government to rehabilitate and maintain the road infrastructure by placing the management of roads on a more commercial basis and through greater reliance on the private sector. In addition to a comprehensive program of institutional reform, the project will also finance rehabilitation with some modest new investment in rural roads to boost agriculture capacity quickly. Environmental Assessment Category B.	Consulting services will be required in the areas of highway and rural road engineering, systems analysis, institutional development, procurement, and environmental management.	Appraisal scheduled for late June 1996.  (Cofinancing will be required.)
Electricity Supply Corporation	50.0 (IDA)	<b>Power Rehabilitation</b> - Project will support the rehabilitation of the generation, transmission and distribution infrastructure of the Zambian grid. Will also reform the Zambian power sector and the commercialization of ZESCO, the Zambian power utility. Environmental Assessment Category B.	Consulting services will be required.	Project under preparation.  (Cofinancing will be required.)

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Zambia</b>				
Ministry of Environment and Natural Resources	20.0 (IDA)	(R) <b>Environment</b> - Project will assist in implementation of Government's environmental program in coordination with other donors. It will provide investment capital and technical assistance in environment and natural resource use problems. Environmental Assessment Category C.	Need for consultants not yet determined.	Appraisal tentatively scheduled for late June 1996.  (Cofinancing will be required.)
Ministry of Finance/Ministry of Mines and Mineral Development	23.0 (IDA)	(R) <b>Economic Recovery and Investment Program TA</b> - Project to include financial, technical and legal assistance for the privatization of ZCCM, the copper mining company. Environmental Assessment Category C.	Consulting services will be required.	Approved by the Executive Directors on June 4, 1996.
Ministry of Education	30.0 (IDA)	(R) <b>Education Sector</b> - The project would support the sector by improving the quality of and the access to education in the country. Environmental Assessment Category C.	Consulting services will be required.	Preparation under way.  (Cofinancing will be required.)
Ministry of Finance/Bank of Zambia	90.0 (IDA)	(R) <b>Second Economic and Social Adjustment</b> - Project will provide support for the adjustment program with a focus on private sector growth and improved delivery of social services. Environmental Assessment Category U.	Need for consultants not yet determined.	Negotiations completed. Board presentation scheduled for July 17, 1996.  (Cofinancing will be required.)
<b>Zimbabwe</b>				
Ministry of Local Government, Rural and Urban	10.0 (IDA)	(R) <b>Rural District Council Pilot (ZW-PA-45029)</b> - Project would support capacity building of recently formed rural district councils. Financing would be provided for smallscale rural infrastructure. Bilateral donors to finance components for institutional development and for human resource development. Environmental Assessment Category B.	Need for consultants not yet determined.	Project is under preparation.  (Cofinancing likely to be provided by United Kingdom, Sweden and the Netherlands.)
Ministry of Transport and Energy	25.0 (Bank)	<b>Road Rehabilitation</b> - Project will strengthen Government's ability to rehabilitate and maintain its roads through coordinated sector development plans, policy and institutional reforms, improved programming of rehabilitation and maintenance, private sector participation, and human resource development. Environmental Assessment Category B.	Consulting services will be required.	Project being identified.  (Cofinancing will be required.)
Ministry of Industry and Commerce	70.0 (IDA)	<b>Enterprise Development (ZW-PA-35628)</b> - Project will support financing, guarantees, business services and institutional development so as to achieve more rapid growth of export and small and medium enterprises. Environmental Assessment Category B.	Consulting services will be required.	Approved by the Executive Directors on April 25, 1996.  (Cofinancing will likely be provided by USAID and NORAD. Further cofinancing will also be required.)

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Zimbabwe</b>				
Ministry of Finance	125.0 (IDA)	<b>SAC III</b> - Third phase of support for Government's Structural Adjustment Program will provide balance of payments support and be conditioned on satisfactory reforms under the first and second phase and support of: (a) fiscal reform to focus expenditures strategically on poverty reduction and growth and reduce the deficit; (b) tariff and indirect tax reform; and (c) public enterprise reform. Environmental Assessment Category U.	Consulting services will be required.	Project under preparation. (Cofinancing will be required.)
<b>Western Africa</b>				
Governments of Senegal, Mauritania and Mali - (OMVS) Organization pour la Mise en Valeur du Fleuve Senegal	25.0 (IDA)	<b>Regional Power</b> - Develop the hydro project at Manantali and the associated transmission lines to supply Dakar, Bamako and Nouakchott. Environmental Assessment Category A.	Consultants have been selected for environmental and institutional studies.	Appraisal mission tentatively scheduled for November 1996.
West Africa Pipeline Company (WAPCO) (to be created)	260.0 (Bank) (IDA)	<b>West Africa Regional Gas Pipeline</b> - Construction of a pipeline to transport Nigerian gas to Ghana, Togo and Benin. Environmental Assessment Category: To Be Determined.	Consulting services will be required for preparation and implementation.	Pre-appraisal reports to be completed during 1996. Pre-appraisal mission tentatively scheduled for Fall 1996.  (Cofinancing will be required.)
<b>Regional Securities Exchange (UEMOA)</b>				
Banque Centrale des Etats de l'Afrique de l'Ouest (BCEAO)	10.0 (IDA)	<b>(R) Union Economique et Monetaire Ouest-Africaine (UEMOA) Regional Securities Exchange (3A-ER-45389)</b> - Project would provide financing to set up the regional securities exchange to provide a trading mechanism for securities issued in UEMOA countries. Environmental Assessment Category C.	Consulting services will be required for preparation and implementation.	IEPS was issued May 15, 1996.  A second PPF advance of US\$650,000 was granted for consulting services and operating expenses.

## II. East Asia And Pacific Region

### Cambodia

Phnom Penh Water Supply Authority, Ministry of Industry, Mines and Energy, Phnom Penh Water Supply Authority	29.0 (IDA)	<b>(R) Water Supply Rehabilitation (KH-PE-45629)</b> - Project aims to improve access to portable water to urban areas in Phnom Penh and Sihanoukville through the rehabilitation of existing water supply systems. Environmental Assessment Category B.	Consulting services will be required for capacity building, supervision, and technical discussion.	Appraisal mission scheduled for September 1996.
Ministry of Health	30.0 (IDA)	<b>Disease Control and Health Development (KH-PE-4034)</b> - Project will provide support for: (a) the national malaria, tuberculosis and HIV/AIDS control programs; and (b) basic health system strengthening including investments in facilities upgrading, medical equipment, essential drugs, and capacity building. Environmental Assessment Category C.	Consulting services will be required for technical assistance, health surveys, and other services.	Appraisal and negotiations completed. Board presentation scheduled for September 12, 1996.
Ministry of Urbanization	30.0 (IDA)	<b>Infrastructure Rehabilitation</b> - Project scope has been expanded to include: (a) urban roads, drainage and traffic management; (b) highway routes 6 and 3; (c) a road maintenance and building materials study; and (d) institutional support. Environmental Assessment Category B.	Consulting services will be required for supervision and technical assistance.	Pre-appraisal mission scheduled for April 1997.
Ministry of Agriculture, Forestry and Fisheries	29.3 (IDA)	<b>(R) Agriculture Productivity Improvement</b> - Project aims to build capacity needed for sustained agricultural development through selective programs of technical assistance, training, agricultural and fisheries (research, field trials, pilot extension activities and rehabilitation investments). Environmental Assessment Category C.	Consultants for project preparation have been selected.	Appraisal mission currently in the field.  (Cofinancing of about US\$5.9 million expected from IFAD.)

### China

Ministry of Agriculture	100.0 (Bank)	<b>(R) Sustainable Coastal Resource Development (formerly Coastal Development II) (CN-PE-3539)</b> - Project would support four coastal provinces in promoting sustainable development of coastal resources through: (a) planning and execution of coastal zone management plans; (b) investment in selected productive mariculture activities and supporting services; and (c) investments in improvements of aquatic product quality. Environmental Assessment Category B.	Consultants for formulation of coastal zone management plans will be required.	Identification mission completed.
-------------------------	-----------------	---	--	-----------------------------------

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Ministry of Agriculture, Bureau of Animal Husbandry	100.0 (Bank)	<b>(R) Animal Husbandry Development (CN-PE-45264)</b> - Project will include livestock production, processing and marketing in Anhui, Henan, Hebei and Shanxi provinces. Project also has a poverty alleviation objective. Project will also focus on: (a) rangeland management and crop by-product feeding; (b) household and larger scale beef production; (c) breed improvement; and (d) technical support services. Environmental Assessment Category B.	Consulting services will be required for project identification and preparation.	Reconnaissance mission is in the field.
Baise Project Management Office	400.0 (Bank)	<b>(R) Baise Multipurpose (CN-PE-42760)</b> - Project will raise the flood standards for Nanning City from 20 to 50 years benefiting about 535,000 people in the city and in the Youjiang River Valley. The main components will be: (a) Baise multipurpose dam; (b) lift irrigation to 20,000 ha; (c) power plant 540 MW; and (d) navigation improvements on the upper Pearl River System. Environmental Assessment Category A.	Consulting services to be identified.	Project may be postponed at government's initiative. Further reporting will be discontinued.
Ministry of Railways, Foreign Capital and Technical Import Office	300.0 (Bank)	<b>(R) Railways IX (CN-PE-45345)</b> - Project description under discussion. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project Information Document (PID) will be issued end July 1996.
Hubei and Hunan Provincial Communication Departments	300.0 (Bank)	<b>(R) National Highway IV</b> - Project would finance construction of a four lane expressway between Wuhan in Hubei and Changsha in Hunan (about 300 km). Environmental Assessment Category A.	Need for consultants not yet determined.	Project preparation mission in the field.
Liaoning Urban Construction and Renewal Project Office (LUCRPO)	200.0 (Bank)	<b>(R) Liaoning Urban Transport</b> - This is an urban transport project in the three cities of Shenyang, Anshan and Fushun. The components are likely to include: (a) infrastructure construction; (b) public transport improvements; (c) traffic management and safety; (d) motor vehicle pollution control; (e) street maintenance; and (f) technical assistance. Environmental Assessment Category A.	Need for consultants not yet determined.	Pre-appraisal mission tentatively scheduled for March 1997.
Sichuan Provincial Construction Commission	100.0 (Bank)	<b>(R) Sichuan Urban Environment (CN-PE-43933)</b> - This is the first phase of a long-term urban improvement program financing of improved urban environmental services (water, wastewater, and solid waste management). Policy focus will be on municipal finance of urban services, land management, and financial sustainability of urban services. Environmental Assessment Category B.	Consulting services will be required.	Project under discussion with Government.
To be determined	200.0 (Bank)	<b>(R) Inland Waterways II (CN-PE-3619)</b> - Project will focus on the development of sector Inland Waterways. Environmental Assessment Category A.	Consulting services will be required.	Identification mission completed.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Shanghai Waigaoqian Thermal Power	400.0 (Bank)	<b>Shanghai Waigaoqiao Thermal Power (CN-PE-42109)</b> - Project will include: (a) construction of 2 x 900 MW coal-fired supercritical thermal units; (b) installation of desulfurization device to control the sulfur emissions in Shanghai; and (c) support for reform and restructuring of Shanghai Municipal Electric Power Company. Environmental Assessment Category A.	Consulting services will be required for engineering, construction management, environment protection, and legal service on corporatization.	Identification mission completed.  <u>Procurement:</u> Letter of Intent (LOI) for engineering consulting service was issued.
To be determined	150.0 (Bank)	<b>(R) Beijing Environment II (CN-PE-42109)</b> - Project description is to be determined. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project not yet identified.
Ministry of Railways	300.0 (Bank)	<b>(R) Railway VIII (CN-PE-3640)</b> - Project description is to be determined. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project Information Document (PID) will be issued end July 1996.
State Council Leading Group for Poverty Reduction	200.0 (IDA)	<b>(R) Qinba Mountains Poverty Reduction</b> - Project seeks to reduce absolute poverty in the provinces of Sichuan, Shaanxi, and Ningxia through a multisectoral program of environmentally sustainable rural development including upland agriculture, rural enterprise, labor mobility and training, and basic infrastructure (roads, drinking water, and electrification). Environmental Assessment Category B.	Limited need for international consultants.	Preparation mission is completed. Pre-appraisal is now scheduled for late 1996.
World Bank Department, Ministry of Finance	50.0 (Bank)	<b>Huaihe River Basin Pollution Control</b> - Project will focus on control of water pollution in the Huaihe River Basin. Environmental Assessment Category B.	Need for consultants not yet determined.	Pre-identification under way.
National Patriotic Health Campaign Committee	30.0 (Bank)/ 70.0 (IDA)	<b>(R) National Rural Water Supply III (formerly National Rural Water Supply)</b> - Project will supply safe water to poor rural areas. Environmental Assessment Category B.	Need for consultants not yet determined.	Pre-identification under way.
Nanning and Guilin Municipalities, and Guangxi, ERB	80.0 (Bank)/ 20.0 (IDA)	<b>(R) Guangxi Urban Environment</b> - Project will support protection and rehabilitation of natural water courses, and help improve management and treatment of wastewater, municipal waste, and industrial waste in Nanning and Guangxi. Environmental Assessment Category: To Be Determined.	Consultants have been mobilized with bilateral funding to assist with project preparation.	Pre-appraisal mission tentatively scheduled for October 1996.
State Economic and Trade Commission (SETC), Department of Resource Savings and Comprehensive Utilization	65.0 (Bank) 30.0 (GEF)	<b>(R) Energy Conservation</b> - Project is being designed to support new initiatives to overcome constraints to rapid adoption of a more energy efficient technologies, especially in industry. Environmental Assessment Category: To Be Determined.	Consultants will be required with experience in energy service company operations and management.	Identification mission completed.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
To be determined	200.0 (Bank)	<b>(R) State-Owned Enterprise Reform (Hebei (formerly State-Owned Enterprise Reform (Wuhan))</b> - Project would support priority industrial policy reforms and investments for industrial restructuring and environmental protection. Environmental Assessment Category: To Be Determined.	Consulting services will be required for project preparation.	Identification mission scheduled for September 1996.
Shandong World Bank Project Management Office	120.0 (Bank)	<b>(R) Shandong Environment</b> - Project will support: (a) the Government's environmental action plan to improve environmental management; (b) development of environmental strategies and subsector action plans in three cities and Xiaoging River Basin (water, air, and hazardous wastes pollution control); (c) urban water supply and wastewater collection system; (d) district heating investments in three cities; (e) improvement of industrial pollution control through pollution control funds; and (f) provision of technical assistance in most areas of environmental management and performance. Project will also focus on cleaner production technologies, and river basin protection. Environmental Assessment Category A.	Consulting services for project implementation with required to studies will be required.	Second preparation mission completed.
Hubei Province Communications Department	250.0 (Bank)	<b>(R) National Highway III (Hubei Expressway)</b> - Project to include construction of sections of the National Trunk Highway System in Hubei Province, including a BOT scheme for a Yangtze Bridge. Environmental Assessment Category A.	Need for consultants not yet determined.	Preparation mission completed.
Agricultural Bank of China	300.0 (Bank)	<b>(R) Agricultural Bank of China (ABC) Commercialization (formerly Agricultural Bank of China Commercialization)</b> - Project is designed to: (a) support the commercialization of the Agricultural Bank of China through improvements of management and processes and provision of technical assistance, training, and equipment; and (b) stimulate growth of the rural economy through provision of a line of credit for long term investments in the non-state sector. Environmental Assessment Category B.	Consulting services will be required.	Appraisal mission will be scheduled when agreement is reached with ABC's senior management on internal management and policy improvements and related technical assistance.
Ministry of Finance	30.0 (Bank)/ 20.0 (IDA)	<b>(R) Technical Cooperation IV</b> - Project will provide a line of credit to finance consultancy services, training, studies and equipment for central and provincial agencies in support of the Government's economic reform program, and for related institutional strengthening. Environmental Assessment Category C.	Consulting services likely to be required to carry out studies and deliver training courses.	Pre-appraisal mission scheduled for mid-June 1996.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Education Commission	70.0 (IDA)	<b>(R) Basic Education IV</b> - Project will extend provision of good quality, universal, basic education including for girls and minorities. The project will finance improved schooling conditions in selected counties, including facilities, material inputs, teachers, and management training. Environmental Assessment Category C.	Consulting services will be required.	Identification mission completed. Preparation mission scheduled for September 1996.
Ministry of Health	70.0 (IDA)	<b>(R) Basic Health Services In Poor Areas (Health VIII)</b> - Project will support innovative pilot projects to reform health services and establish financing systems for basic health care services in selected rural areas. Environmental Assessment Category C.	Consulting services will be required.	Identification mission is in the field.
Ministry of Water Resources	430.0 (Bank)	<b>Xiaolangdi Multipurpose II</b> - Project will complete the ongoing Xiaolangdi Multipurpose Dam Project, the first phase of which is financed by Loan No. 3727-CHA. Environmental Assessment Category A.	Consultants have been selected during Phase I of the project and will continue through Phase II.	Preparation mission scheduled for September/October 1996. <u>Procurement</u> : Procurement of civil works completed under Phase I.
Inner Mongolian Electric Power Company (IMEPC)	400.0 (Bank)	<b>(R) Tuoketuo Power Plant</b> - Project will include: (a) construction of 2 x 600 MW coal-fired units at Toketo minemonth power plant (final stage 6 x 600MW) in Inner Mongolia to meet the needs of the Beijiang/Tiangiang areas; and (b) a transmission/distribution rehabilitation development component to improve power supply and efficiency in Beijing; and (c) a technical assistance component to the Inner Mongolia Power Company for a pilot divestiture of generation assets. Environmental Assessment Category A.	An engineering contract has been awarded for assistance in: (a) finalization of the detailed design; and (b) preparation of the bid documents. A draft environmental assessment report has been prepared with the assistance of foreign consultants.	Preparation mission completed. Pre-appraisal mission is in the field. (Cofinancing is required but not secured as yet. CRISSP funds in the amount of US\$2.2 million have been approved for project preparation.)

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Northeast Power Group Corporation	300.0 (Bank)	<b>(R) Liaoning Pushihe Hydro (formerly Pushihe Pumped Storage) -</b> Project will include: (a) construction of a pumped storage development in Liaoning Province with an installed capacity of four 300 MW; (b) 320 km of 500 KV transmission lines, and associated substations; (c) 270 km of fiberoptic cables to upgrade NEPG communications; (d) engineering and construction management services; (e) technical assistance and training to assist Northeast Power Group Corporation (NEPG) to implement power industry reforms, strengthen organizational management and installation of accounting and financial management systems. Environmental Assessment Category: To Be Determined.	Consultants will be employed using CRISPP funds during project preparation for: (a) assistance in preparation of bid design and documents; and (b) carrying out first phases of organizational management and systems studies. Consultants financed under the project will have expertise in: (a) detailed design and construction management assistance; (b) implementation phase of organization, management and systems studies; and (c) transmission planning techniques and models.	Project preparation mission completed. Concept paper prepared. Timing of the project delayed to the FY99 lending program.  <u>Procurement:</u> International competitive bidding (ICB) will include: (a) pump turbine generator motors and antiliaries; (b) power transformers; (c) 500 kv equipment, generator voltage equipment and station services; (d) control, communication and protection systems.
Henan Provincial Communications Department	210.0 (Bank)	<b>(R) Second Henan Provincial Highway -</b> Project is to include: (a) construction of a 136 km 4-lane expressway between Luoyang and Sanmenxia; (b) construction/improvement of 17 km of linking roads to the expressway; (c) construction of a 6 km connection between Yangjia and Baijiazhai to connect the Weinan-Tongguan expressway in Shaanxi Province with the existing highway 310 in Henan province; (d) improvement of about 1700 km of county roads in poor areas to help alleviate poverty; (e) institutional strengthening/training; (f) traffic safety; and (g) provision of equipment for highway maintenance and institutional strengthening. Environmental Assessment Category A.	Consulting services will be required for supervision of construction, study of toll road operations and maintenance, study of factors contributing to traffic accidents, and overseas training of staff.	Approved by the Executive Directors on May 30, 1996.  <u>Retroactive financing of up to US\$0.6 million will be sought.</u>
Xinjiang Communications Department/Project Execution Office	300.0 (Bank)	<b>(R) Xinjiang Highway II -</b> Project to include: (a) construction of a new 267 km highway from Urumqi to Kuitun; (b) construction and improvement of 19 km of linking roads; (c) institutional strengthening and training; (d) improvement of highway maintenance; (e) highway safety; and (f) strategic study of transport linkages between Xinjiang and neighboring provinces and counties. Environmental Assessment Category A.	Consulting services will be required for construction supervision, highway safety, and overseas training of staff.	Appraisal mission completed. Negotiations tentatively scheduled for August 26, 1996.
Heilongjiang Provincial Planning Commission	120.0 (Bank)	<b>(R) Heilongjiang Agricultural Development -</b> Project will develop integrated crop and livestock production and processing, and promote market oriented enterprise development in rural Heilongjiang industries. Environmental Assessment Category B.	Need for consultants not yet determined.	Pre-appraisal mission is in the field.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Yellow River Diversion Project Office	400.0 (Bank)	(R) <b>Wanjiashai Water Transfer</b> - The project consists of construction of 200 km of tunnels, several pumping stations, and other structures, including another 117 km of pipelines and structures to transfer 1.2 billion cum of water per year from the Yellow River to North Shanxi area (Taiyuan, Datong and Pingshuo). Project will require the procurement of several large pumping plants, automatic control equipment for canal and pumping plant regulation, and have an institutional development component for the Yellow River Diversion Project Office and for Shanxi Provincial Water Conservancy Bureau. Environmental Assessment Category A.	Consultants have been appointed to complete the specifications and bidding documents for civil and electrical mechanical works. Consultants are also completing the environmental impact assessment.	Project has been approved by the Government. Appraisal mission scheduled for September/October 1996.
City Municipal Government	125.0 (Bank)/ 25.0 (IDA)	(R) <b>Yunnan Environment</b> - Project will enhance provision of cost effective urban environmental services to sustain economic growth. Financial initiatives will focus on tariff adjustments and sustainability, and investment support will be provided to wastewater, solid waste and clean technology programs. Environmental Assessment Category A.	Consulting services will be required.	Negotiations completed. Board presentation scheduled for June 25, 1996.
Gansu World Bank Projects Implementation Office	60.0 (Bank) 90.0 (IDA)	(R) <b>Gansu Hexi Corridor</b> - Project will focus on development and improvement of irrigated agriculture for a total of 98,000 ha in the Shule River Valley. Will also include voluntary settlement of 200,000 poor farmers on the newly developed irrigated land. Environmental Assessment Category A.	Consulting services will be required for supervision of ICB construction of Changma Dam, planning and design of irrigation monitoring system.	Approved by the Executive Directors on May 30, 1996. <u>Retroactive financing of up to US\$5.0 million has been approved.</u>
Guangdong and Hunan Provincial Communication Departments	400.0 (Bank)	(R) <b>National Highway II</b> - The project's main component would be construction of two high priority sections of the interprovincial expressway between Guangzhou and Changsha. Environmental Assessment Category A.	Consulting services for construction supervision have been determined.	Appraisal mission completed.
Electric Power of Henan Province	440.0 (Bank)	(R) <b>Henan (Qinbei) Thermal Power</b> - Project's main focus will be the construction of the coal-based thermal power plant. Environmental Assessment Category A.	Contracts for engineering studies and construction management have been awarded. Consulting services will be required for organizational restructuring and financial management systems.	Approved by the Executive Directors on February 27, 1996. Date of loan signing yet to be determined. <u>Procurement: Bids for boiler island and turbine generator island are under evaluation.</u>
Shanxi Provincial Government	100.0 (IDA)	(R) <b>Shanxi Poverty Alleviation</b> - Project will raise incomes and living standards in the poorest counties of one of the less prosperous provinces. This will be achieved by making presently cultivated land more productive through more reliable irrigation, watershed rehabilitation, and the introduction and processing of higher value crops. Environmental Assessment Category B.	Consulting services will not be required.	Approved by the Executive Directors on March 26, 1996. Credit was signed on June 7, 1996. <u>Retroactive financing of up to US\$10.0 million has been approved.</u>

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministry of Agriculture	80.0 (Bank)/ 20.0 (IDA)	<b>(R) Seed Sector Commercialization</b> - The project would assist the government in developing an enabling environment for a viable commercial seed sector by improving national seed policy to promote commercialization, deregulating seed pricing, improving seed certification and introducing plant breeding rights. It would assist selected seed companies in commercializing their operations, which would include improvement of management and marketing structures, including staff training, quality control, reorganization of production and modernization of production and processing facilities. It would also strengthen public seed institutions to enable them to more effectively service the seed industry. Environmental Assessment Category B.	Consulting services will be required for training of seed enterprise managers and staff in business management, marketing and quality control.	Approved by the Executive Directors on June 18, 1996. <u>Retroactive financing of up to US\$8.0 million will be sought.</u>
To be determined	200.0 (Bank)	<b>Guangzhou City Center Transport</b> - The project was identified following an urban transport study completed in June 1994. Components include transport infrastructure, traffic management motor vehicle pollution controls, bus reform, street maintenance, and technical assistance. Environmental Assessment Category A.	Need for consulting services not yet determined.	Pre-appraisal mission scheduled for July 1996.
Ministry of Agriculture	200.0 (Bank)	<b>State Farms Commercialization</b> - The proposed project would support policy and institutional reform of the state farm sector in the areas of management reforms, introduction of alternative forms of ownership, and technological modernization. It would assist state farms to diversify production and develop services industries; assist enterprises to improve their management and planning capability and expand production with construction and renovation of agro-processing and commercial facilities. Environmental Assessment Category B.	Need for project consultants not yet determined.	Appraisal mission is in the field.
China Construction Bank (CCB)	200.0 (Bank)	<b>(R) China Construction Bank Transformation</b> - Project would support transformation of the China Construction Bank, one of the four large specialized banks, into a commercial bank. It will assist in the establishment of a new governance mechanism, design of new systems for financial accounting, credit risk management and internal controls, and in upgrading commercial banking skills. Environmental Assessment Category B.	Consulting services will be required on design and implementation of new financial accounting and information systems, internal controls, and risk management.	Appraisal mission scheduled for August/September 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>China</b>				
Chongqing Planning Commission	170.0 (Bank) 30.0 (GEF)	<b>(R) Chongqing Industrial Reform and Pollution Control</b> - The project will link industrial pollution control, policy reform, restructuring of industrial enterprises and strengthening of environmental regulatory policy and framework into an integrated program that will include: (a) policy reform; (b) industrial relocation; (c) restructuring advice; (d) a line-of-credit; and (e) technical assistance. A GEF financed project (Efficient Industrial Boilers Project) will develop/adapt high efficiency, small and medium-sized, coal-fired industrial boiler designs, and obtain foreign technology, licenses and engineering expertise. Environmental Assessment Category A.	Consulting services will be required.	Approved by the Executive Directors on June 18, 1996.
Ministry of Agriculture/ National Feed Industry Office/ China Agri-business Development Trust and Investment Corporation	150.0 (Bank)	<b>(R) Animal Feed</b> - The project would increase production of feed additives and concentrate feeds, upgrade feed industry design and training institutes, agro-industrial waste conversion to protein feeds, and develop integrated feed mill/livestock production/ processing complexes. Improved feed grain production promotion component is included. Technical assistance and training would be provided. Environmental Assessment Category A.	Consulting services will be required to assist in financial institution development.	Approved by the Executive Directors on April 16, 1996. Loan was signed on June 7, 1996.  (Cofinancing of up to US\$3.5 million under discussion.)  <u>Retroactive financing of up to US\$5.0 million has been approved.</u>
State Education Commission	10.0 (Bank)/ 20.0 (IDA)	<b>(R) Vocational Education Reform</b> - Project will support enterprise reform and seek to reform the vocational education system with respect to quality improvement, responsiveness to labor market needs and linkages with employment. Will also finance vocational training activities in selected provinces, including facilities, equipment, management and staff training. Environmental Assessment Category C.	Consulting services will be required for implementation of subsector reform including staff training.	Negotiations completed. Board presentation scheduled for July 2, 1996.
<b>Fiji</b>				
Ministry of Education, Science and Technology	2.5 (Bank)	<b>Education</b> - Project seeks to: (a) improve quality of primary/ secondary education especially in rural areas; (b) increase access to secondary education; and (c) improve management at central and local levels. Total project cost is about US\$14.0 million. Environmental Assessment Category C.	Consulting services will be required to assist in project implementation.	Date of negotiations not yet agreed with Government.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Indonesia</b>				
Provincial Government of Bengkulu	20.0 (Bank)	<b>(N) Sumatra (Bengkulu) Regional Development (ID-PE-40061)</b> - Components of the project are currently envisaged to include: (a) improvement of agricultural support services (e.g. extension); (b) village development (e.g. village road community development; (c) improvement of minor rural infrastructure (rehabilitation of roads connecting villages); and (d) strengthening of local institutions. Environmental Assessment Category: To Be Determined.	Consulting services may be required to provide possible technical assistance for project implementation.	Needs assessment completed in April 1996. Detailed design scheduled to begin in June 1996.  Detailed design will be financed from the Danish consultant trust fund.
Provincial Governments of West Sumatra and Jambi Padang	40.0 (Bank)	<b>(N) Sumatra (West Sumatra/Jambi) Regional Development (ID-PE-44717)</b> - Components of the project are currently envisaged to include: (a) improvement of agricultural support services (e.g. extension); (b) village development (e.g. village road community development); (c) improvement of minor rural infrastructure (rehabilitation of roads connecting villages); and (d) strengthening of local institutions. Environmental Assessment Category: To Be Determined.	Consulting services may be required to provide possible technical assistance for project implementation.	Planning for needs assessment to begin shortly.  Policy and Human Resource Development (PHRD) grant received from the Government of Japan for project preparation.
Ministry of Education and Culture (MOEC), Directorate General of Higher Education (DGHE)	80.0 (Bank)	<b>(N) Higher Education Support (QUE) (ID-PE-40195)</b> - Project is a complementary operation to the Higher Education Support (DUE) Project and will include development of undergraduate education focussing on improvement of the quality of undergraduate education through improved planning and management at the program level. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project identification scheduled for July 1996.
To be determined	100.0 (Bank)	<b>Second Regional Roads</b> - Project involves road network preservation and development in Kalimantan. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Identification is under way.
To be determined	30.0 (Bank)	<b>Eastern Islands Water and Sanitation</b> - Project may include investments in water supply, drainage, sanitation, solid waste management, accompanied by institutional measures, improved community health, and environmental awareness. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Reconnaissance mission in the field.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Province of East Java (BAPPEDA), Local Governments	250.0 (Bank)	<b>East Java Strategic Regional Development -</b> Project would support initiatives in spatial management, environmental protection, and private sector participation within a strengthened planning and programming framework. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Identification is under way. A Japanese Grant was approved to initiate preparation of a policy implementation plan, a land management improvement plan, and to provide provincial level assistance to prepare local programs and the project.
Ministry of Health (MOH)	40.0 (Bank)	<b>(R) Health Professional and Development (formerly Health Professional and Health Services Development) (ID-PE-3967) -</b> Project supports human resources development as a means of improving service delivery at the community level. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project is in its early stage of identification.
National Planning Agency, Ministry of Home Affairs, Ministry of Public Works	140.1 (Bank)	<b>(R) Second Village Infrastructure (ID-PE-40521) -</b> This is a 2-year project that will provide a grant to 2600 of the poorest villages on Java and Sumatra for building local public infrastructure. Environmental Assessment Category B.	Local consultants are being employed to prepare project.	Appraisal mission scheduled for July 1996. Negotiations scheduled for July 1996.
Provincial Government of North Sumatra	30.0 (Bank)	<b>(R) Regional Watershed I - Sumatra -</b> Project would raise the living standards of poor (upland) farmers in selected Kabupaten in priority watershed management areas in south Sulawesi by improving and restoring the production potential of their resource base, and to enhance watershed environmental quality and protect downstream watershed resources. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Pre-identification mission carried out in January 1996. Identification scheduled for July 1996.
Provincial Government of North Sumatra	30.0 (Bank)	<b>(R) Regional Watershed II -</b> Project would raise the living standards of poor (upland) farmers in selected Kabupaten in priority watershed management areas by improving and restoring the production potential of their resource base, and to enhance watershed environmental quality and protect downstream watershed resources. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Pre-identification mission completed February 1996. Identification mission scheduled for July 1996.
Ministry of Forestry (PHPA), Kutai Kabupaten	30.0 (Bank)	<b>Kalimantan/Kutai Integrated Conservation and Development -</b> Project will seek to involve the private sector and NGOs with park conservation activities, while using public funds to promote agricultural and other income generating activities for the population in areas around the park. Environmental Assessment Category A.	Need for consultants not yet determined.	Identification mission completed in the field. Second draft of concept note completed.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
BAPEDAL (Agency for Environmental Impact Control)	15.0 (Bank)	<b>Second BAPEDAL Development Technical Assistance</b> - Project seeks to assist BAPEDAL in expanding its pollution control compliance programs, developing and implementing a system of pollution charges, and developing capacity to provide technical guidance on pollution prevention in key industrial subsectors. Environmental Assessment Category C.	Consulting services will be required in development of economic incentives for pollution control, cleaner production technologies, air emission and toxic waste compliance systems, guidelines development and training.	Identification under way.
Ministry of Education and Culture (MOEC)	60.0 (Bank)	<b>West Java Secondary Education</b> - Project will support improvement in the quality and management of secondary education on a decentralized basis. Environmental Assessment Category C.	Need for consultants not yet determined.	Project is in its early stage of identification.
Ministry of Education and Culture (MOEC)	100.0 (Bank)	<b>(R) Sumatra Secondary Education</b> - Project will provide support for expansion and quality improvement of junior secondary education in five Sumatra provinces. Environmental Assessment Category C.	Need for consultants not yet determined.	Appraisal mission scheduled for end June 1996.
Ministry of Education and Culture (MOEC)	40.0 (Bank)	<b>Sulawesi Secondary Education</b> - Project will support improvement in the quality and management of secondary education on a decentralized basis. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project is in its early stage of identification.
Ministry of Public Works, Directorate General of Water Resources Development (DGWRD)	80.0 (Bank)	<b>(R) Semarang Flood Control</b> - Project aims to mitigate flood damage to areas located east and west of Semarang in Central Java, where housing estates, industrial and commercial complexes exist and further expansions are planned. Project will further support flood protection works and related studies for possible future investments and introduce a cost recovery policy for such works. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project is under preparation. Concept review meeting has been held.
To be determined	25.0 (Bank) 25.0 (GEF)	<b>Solar Home Systems (SHS)</b> - Project aims to catalyze the rapid penetration of solar PV systems by: (a) formulating a least cost rural electrification strategy; (b) facilitating participation of the private sector (including cooperatives and NGOs) in advancing renewable energy commercialization through the creation of a sustainable "market conforming" framework; and (c) promoting environmentally sound energy resource development and reducing the energy sector's dependence on fossil fuels; and (d) strengthening institutional capacity to sustain solar PV development. Environmental Assessment Category B.	Consultants have recently completed detailed field surveys to assess the demand for SHS in these provinces, with the specific purpose of assessing the extent of the market that can be served in the near term by private dealers at commercial terms.	Appraisal mission in the field.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministries of Public Works, Home Affairs, Bappedas I&II (Provincial and Local Planning Boards)	150.0 (Bank)	<b>(R) Northern Sumatra Regional Roads (formerly Regional Roads)</b> - Project consists of three components: (a) network preservation including improvement and periodic maintenance; (b) regional planning focussing on strengthening regional institutions responsible for transport development planning and implementation; and (c) improved resource allocation and use. Environmental Assessment Category A.	Need for consultants not yet determined.	Concept paper circulated May 31, 1996. Pre-appraisal mission tentatively scheduled for November 1996.
BANGDA, BAPPEDA, PHPA	20.0 (Bank) (GEF)	<b>(R) Maluku Integrated Conservation and Natural Resources Management</b> - Project to include: (a) creation and improved management of terrestrial and marine reserves; (b) natural resources management of watersheds, coastal zones, fisheries and forests; and (c) income generation, primarily from agriculture in the target area. Environmental Assessment Category B.	Consulting services will be required for project preparation covering coordination, economic analysis, social assessment, parks and reserves management, natural resources management, and development activities.  Consultants not yet selected.	Preparation mission to begin August 1996.
COTOFOFET	50.0 (Bank)	<b>Merit Scholarship (National Post Graduate Overseas Study Award)</b> - Project to include support for merit scholarships to be awarded to private individuals who commit themselves to development of the private sector, with special focus on the medium-sized company. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Identification/project preparation under way.
BAPPENAS	20.0 (Bank)	<b>(R) Capacity Building For Human Resources</b> - The project will help build capacity at the national and provincial levels, and assist the Government in developing strategic approaches for human resource development. It will also facilitate a stronger pipeline that responds to the needs of the human resource sectors. Environmental Assessment Category C.	Limited external consultant services have been identified.	Approved by the Executive Directors on June 4, 1996.
P.T. PLN (Persero)	200.0 (Bank)	<b>Power Distribution - Java</b> - The project will focus on: (a) strengthening of P.T. PLN's (Perusahaan Listrik Negara) distribution business units in Java; and (b) providing distribution facilities in Java. Environmental Assessment Category: To Be Determined.	Consulting services will be required for project preparation covering assessment and proposal for strengthening of PLN's Java distribution units Consultants not yet selected. PLN will arrange contracts.	Identification/preparation under way.
Ministry of Health	40.0 (Bank)	<b>(R) Intensified Iodine Deficiency Control</b> - Project seeks to increase consumption of iodized salt by influencing consumer demand and producer supply. Environmental Assessment Category C.	Consultants have been selected for appraisal.	Project under preparation. Appraisal mission scheduled for end June 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
To be determined	95.0 (Bank)	<b>(R) West Java and Jakarta Environmental Management (formerly JABOTABEK Waste Management)</b> - Project would include: (a) local governments' investments to improve environmental management; and (b) improvements to regional and multi-sectoral delivery. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Identification under way.  A Japanese Grant has been approved to finance preparation.
Ministry of Education and Culture (MOEC)	99.0 (Bank)	<b>(R) East Java (Junior) Secondary Education -</b> Project seeks to help Government expand coverage and improve quality of secondary education by training teachers, providing equipment, supporting evaluation and rehabilitating physical infrastructure on a decentralized basis. Environmental Assessment Category C.	Limited external consultant services might be required.	Approved by the Executive Directors on June 18, 1996.
Local government coordinated through DG Bangda and LIPI	40.0 (Bank) 12.0 (GEF)	<b>(R) Coral Reef Rehabilitation and Management -</b> The project will: (a) carry out management of coral reefs in priority sites; (b) launch a marine conservation awareness and participation program; (c) improve planning, human resources capacity and policies affecting coral reef management; and (d) establish a coral reef information network. Environmental Assessment Category B.	Consulting services for preparation completed.	Draft preparation scheduled for August 1996.  <u>Procurement:</u> Technical assistance has been mobilized.
Port Corporations and Ministry of Communications	20.0 (Bank)	<b>(R) Ports Environment Improvement -</b> Project would assist in: (a) providing ship waste reception facilities in major ports; (b) developing capability for monitoring and managing impacts from dredged materials; (c) upgrading capability of oil spill prevention and contingency planning; (d) preparation of regulations; and (e) manpower development. Environmental Assessment Category: To Be Determined.	Draft preparation report has been completed.	Project has been placed in the Reserve Program. Further reporting will be discontinued.
To be determined	100.0 (Bank)	<b>Sulawesi Water Resources Management -</b> Project would introduce integrated river basin water resources management, expand the irrigation service fee program, support efficient levels of operation and maintenance to ensure sustainability of existing irrigation infrastructure and support new infrastructure development. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project is being identified.
Ministry of Public Works	50.0 (Bank)	<b>Lombok Urban Infrastructure -</b> Project scope is to be determined. Environmental Assessment Category: To Be Determined.	Terms-of-reference for consultants being drafted by the Government.	Project under preparation.
MOP/BKKBN	80.0 (Bank)	<b>(R) Safe Motherhood -</b> The main objectives of the project is to improve maternal health by enhancing quality and access of safe motherhood services. The project will also support activities for women's empowerment and educational campaigns for the youth. Environmental Assessment Category C.	Consultants services will be required.	Project under preparation.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
To be determined	60.0 (Bank)	<b>Child Development</b> - Project's objective would be to improve the health, nutrition and education status of pre-school children especially from poor families. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project identification under way.
Ministry of Public Works, Directorate General of Water Resources Development (DGWRD)	75.0 (Bank)	<b>(R) Jatiluhur Water Resources Management (formerly East Jatiluhur Water Resources Management)</b> - Project will: (a) improve existing Jatiluhur canal networks and strengthen the system operations and maintenance to increase agricultural production and guarantee continuation of water supply for agricultural, industrial, municipal and other uses; and (b) provide water for industrial purposes and new irrigation on about 5,000 ha. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project has been identified. Preparation under way.
Ministry of Home Affairs and Ministry of Agriculture	15.0 (Bank)	<b>Decentralized Agricultural Extension Pilot</b> - Project will support decentralization and restructuring of agricultural extension system to facilitate accelerated and cost-effective transfer of technology to smallholders based on participation, needs assessment and location-specific resources, and improved extension management. Environmental Assessment Category: To Be Determined.	Consultants have submitted their final preparation report.	Project is in preparation stage.
BANGDA, BAPPEDA, DGWRD	30.0 (Bank)	<b>Maluku Regional Development</b> - Project will provide implementation of an agriculturally based development project in three Kabupatens of the Maluku province. Environmental Assessment Category: To Be Determined.	Consulting services will be required. Contracts to be managed by the Bank.	Concept review has been held. Social assessment being conducted.
Ministry of Public Works, Director of Human Settlements	145.6 (Bank)	<b>(R) Sulawesi Urban Development II</b> - Project will include improvements of priority urban infrastructure and review and assistance in some 42 towns in the four Sulawesi provinces. Environmental Assessment Category B.	Bridging (including preparation through implementation) consultants are in the field.	Negotiations tentatively scheduled for July 10, 1996.
Ministry of Public Works, Director of Human Settlements	142.7 (Bank)	<b>(R) East Java Urban Development II</b> - Project will continue the process of institutional strengthening and providing priority urban infrastructure in East Java Province (which is currently being carried out under the ongoing East Java/Bali Urban Development Project) through a follow-up project. Environmental Assessment Category B.	Need for consultants not yet determined.	Approved by the Executive Directors on May 16, 1996.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Ministry of Public Works	150.0 (Bank)	<b>(R) Bali Urban Environmental Infrastructure</b> - This is a follow up to the East Java - Bali Urban Development Project. It will focus on improving urban environment in Bali (in the context of economic development, particularly tourism), through policy actions, institutional development and investments in water supply, sanitation, solid waste management, interurban and urban roads, and traffic management. Environmental Assessment Category A.	Selected consultant consortia mobilized in October 1995.	Pre-appraisal scheduled for June/July 1996.
To be determined	100.0 (Bank) 5.0 (GEF)	<b>(R) Renewable Energy Small Power</b> - The project aims to principally promote the development of renewable energy power projects by the private sector, non-governmental organizations (NGOs), and cooperatives and PLN within the framework of a least cost electrification strategy, with particular emphasis on serving rural consumers needs. Renewable technologies that provide a cost effective basis for reducing greenhouse gas (GHG) emissions, will be promoted under a grant from the Global Environment Facility (GEF). Environmental Assessment Category B.	Some consultants will be required during project implementation.	Appraisal mission in the field.
Perumka	104.0 (Bank)	<b>(R) Railway Efficiency</b> - Project has five components: (a) policy reform; (b) technical assistance and training; (c) Java locomotive workshop and depot rationalization; (d) Java track upgrading and maintenance; and (e) Jakarta-Bandung Corridor Development. Environmental Assessment Category B.	Consultants will be required for: (a) project supervision; (b) subsector policy reform; (c) operational improvements; and (d) management improvement.	Appraisal mission tentatively scheduled for late June 1996.
Ministry of Home Affairs (BANGDA)	30.0 (Bank)	<b>(R) Sulawesi Agriculture and Area Development</b> - Implementation of a rural development project in southeastern and central Sulawesi provinces. Project seeks to promote rural income generation through a farming system approach including livestock, tree crops and food crops. Environmental Assessment Category B.	Some local consultants will be required to assist in project implementation.	Approved by the Executive Directors on April 30, 1996.
Ministry of Public Works, Directorate General Bina Marga	86.9 (Bank)	<b>(R) Strategic Urban Roads Infrastructure (SURIP)</b> - Project has five components: (a) ring road construction/completion for seven towns in North Java Transport Corridor; (b) urban management and quality of life improvements; (c) institutional development for participating local governments and the Directorate of Urban Roads; (d) human resource development; and (e) formulation and articulation of an urban transport policy. Environmental Assessment Category A.	Consultants will be required to support project implementation and to provide technical assistance.	Negotiations completed. Board presentation scheduled for June 25, 1996.
Ministry of Education and Culture	65.0 (Bank)	<b>(R) Higher Education Support (DUE) (formerly Higher Education Support)</b> - To improve the quality and efficiency of undergraduate programs particularly in basic sciences and engineering. Environmental Assessment Category C.	Consulting services will be required.	Approved by the Executive Directors on June 18, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Indonesia</b>				
Ministry of Education and Culture	104.0 (Bank)	<b>(R) Central Indonesia Secondary Education -</b> To further assist in secondary education expansion and quality improvement, and strengthen sector management. Environmental Assessment Category C.	Consulting services will be required for teacher training, examination, development and management.	Negotiations completed. Board presentation scheduled for June 25, 1996.
Ministry of Forestry and Home Affairs	19.2 (Bank) 15.0 (GEF)	<b>Kerinci Seblat Integrated Conservation (Biodiversity Conservation) -</b> The project would aim to: (a) develop a model for an Integrated Conservation Development Project (ICDP) including (i) an institutional framework to manage the Kerinci-Seblat National Park, (ii) establishing mechanisms for local community participation in conservation and development activities, and (iii) support for provincial governments and NGOs; and (b) support conservation promotion. GEF will cover buffer zones and protected area delineation and management, ecologically sound smallholder production system. Environmental Assessment Category A.	Consultant services required.	Approved by the Executive Directors on April 30, 1996.
Perum Gas Negara (PGN)	166.0 (Bank)	<b>(R) Gas Transmission -</b> To promote non-tradeable supplies of natural gas for industrial and commercial use to meet demand in Java. Environmental Assessment Category A.	Consulting services will be required for carrying out an environmental assessment (EA) on the project.	Appraisal mission scheduled for March 1997.
<b>Kiribati</b>				
Ministry of Education	2.0 (IDA)	<b>Education -</b> Project seeks to improve the quality of primary education through provision of textbooks and access to junior secondary education through construction of schools. Environmental Assessment Category C.	Consulting services will be required.	Awaiting Government proposal.
<b>Lao, People's Democratic Republic</b>				
Electricity de Laos	30.0 (IDA)	<b>(R) Power Development -</b> Project will focus on expansion of distribution networks in southern and central Laos, rural electrification in remote communities, and planning studies. Environmental Assessment Category B.	Consulting services will be required for (a) project implementation; (b) power planning studies; and (c) institutional development.	Pre-appraisal mission scheduled for September 1996.
Ministry of Communication, Transport, Post and Construction	15.0 (IDA)	<b>(R) Rural Infrastructure (LA-PE-42237) -</b> Project aims to improve the core rural transport network of Laos as a means to alleviate rural poverty through the provision of greater access to markets and other key social infrastructure. Environmental Assessment Category C.	Need for consultants not yet determined.	Concept review meeting scheduled for June 30, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Lao, People's Democratic Republic</b>				
Ministry of Communications, Transport, Post and Construction (MCTPC)	40.0 (IDA)	<b>Third Highway Improvement</b> - Project to include: (a) highway upgrading of existing roads; and (b) road maintenance (technical assistance and training). Environmental Assessment Category B.	Consulting services will be required for construction supervision and technical assistance to road maintenance.	Pre-appraisal mission scheduled for September 1996.
Ministry of Education/ Committee for Planning and Cooperation	10.0 (IDA)	<b>(R) Education II</b> - Project would support the development of an enhanced program of education and training that would produce the skills necessary to sustain a market-based economy. It would: (a) improve the pipeline of skills through qualitative strengthening of formal education; (b) strengthen the policy and institutional capacity for managing skill development and utilization; and (c) fill gaps in strategic skills. Environmental Assessment Category C.	Consulting services will be required, but have not yet been determined.	Pre-appraisal mission scheduled for November 15, 1996.
Ministry of Finance	20.7 (IDA)	<b>(R) Land Titling</b> - Support for government program to issue land titles and improve land management. Environmental Assessment Category B.	Consultancy services will also be required for studies and project management.	Approved by the Executive Directors on March 21, 1996. Credit was signed on June 7, 1996.  (Cofinancing of US\$5.1 million expected from Australian Agency for International Development AUSAID).
<b>Malaysia</b>				
Ministry of Education	150.0 (Bank)	<b>Fourth Primary and Secondary Education Sector</b> - Implementation of Malaysia's 7th Plan. Major objectives are: (a) to promote quality and excellence in teaching and the learning process; (b) to expand equitable access to quality education; and (c) efficiency of sectoral and project management. Environmental Assessment Category C.	Consulting services will be required, particularly twinning arrangements with external institutions and agencies to strengthen management and performance assessment.	Awaiting Government's response to request on project content.
To be determined	50.0 (Bank)	<b>Universities Science and Engineering</b> - Project seeks to improve the quality of undergraduate science and engineering projects. Will also develop new projects consistent with needs of the industry. Environmental Assessment Category: To Be Determined.	Consulting services will likely be required in program development.	Awaiting Government's response to pre-identification mission's aide-memoire.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Mongolia</b>				
To be determined	20.0 (IDA)	<b>Energy Sector</b> - Project seeks to rehabilitate the power heat delivery system. Environmental Assessment Category: To Be Determined.	Consulting services will not be required until project preparation begins in late 1996.	Project yet to be identified. Scope of project not yet determined.
Bank of Mongolia	15.0 (IDA)	<b>(R) Banking and Enterprise Sector Adjustment</b> - Project objective is to support and strengthen the reform efforts undertaken by the Government in the financial and enterprise sectors. Project is expected to assist in the restructuring and recapitalization of the banking system as a means to stimulate investment and growth. Within the financial sector, the objectives are to increase the efficiency of credit allocation and strengthen the viability of select commercial banks in the economy. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Appraisal mission tentatively scheduled for mid-August 1996.
Municipality of Ulaanbaatar	15.0 (IDA)	<b>Urban Services Rehabilitation</b> - Project will include upgrading services in Ger areas. Will also provide for: (a) rehabilitation of bulk water supply production and distribution; (b) secondary sewer rehabilitation and investments, improved management, collection, transport and disposal of solid waste; and (c) support to institutional development and project management. Environmental Assessment Category B.	Consulting services will be required for project and utility management and sector policy services during implementation in 1997.	Detailed design preparation began in February 1996 with AUSAID funding. Pre-appraisal mission is in the field.
Baganuur Joint Stock Company	35.0 (IDA)	<b>(R) Coal Sector</b> - Project main components are: (a) rehabilitation of coal mining facilities; and (b) training in mine operations and management. Environmental Assessment Category B.	Foreign consultants to assist in the implementation of the rehabilitation project will be required.	Approved by the Executive Directors on May 7, 1996. Credit was signed on May 24, 1996.
<b>Papua New Guinea</b>				
To be determined	30.0 (Bank)	<b>Highlands Highway</b> - Project will provide for emergency maintenance and rehabilitation of the Highlands Highway, the most important thoroughfare in the country, as well as setting up an authority in Lae for the future. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Identification under way.
Forest Authority	20.0 (Bank)/ (GEF)	<b>Forestry and Conservation</b> - Project will facilitate sustainable forest management through training, planning, monitoring, surveillance and enforcement of the Logging Code of Practice. The project will promote conservation through national initiatives and regional/CDP interventions. Environmental Assessment Category A.	Consulting services will be required.	Identification not yet initiated.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Papua New Guinea</b>				
Ministry of Agriculture and Livestock	30.0 (Bank)	<b>Agricultural Sector Investment</b> - Project will support policy, regulatory and institutional reforms as well as selected investments in a range of subsectors, within an overall medium-term strategy for the agricultural sector. Environmental Assessment Category B.	Consulting services will be required but not identified.	Further project processing subject to outcome of the sector review currently under way as well as progress in the implementation of the Economic Recovery Program.  PHRD grant for project preparation has been approved.
Department of Finance	50.0 (Bank)	<b>Social and Rural Development Program</b> - Project will support the conclusion of the reform agenda and improvement of service delivery through NGOs and civil society. Environmental Assessment Category B.	Consulting services required for the operation will be financed under other operations, and include functional review of Government departments and agencies, and for a social fund operation.	Initiating Memorandum planned for August 30, 1996.
Departments of Transport and Works	30.0 (Bank)	<b>(R) Road Maintenance and Rehabilitation</b> - Project seeks to improve road condition inventory and help finance the road maintenance and rehabilitation program. Will also continue program of institutional development in the departments of: (a) transport/works; and (b) civil aviation. Environmental Assessment Category B.	Consultants prepared road and are preparing bridge condition inventory and 5-year maintenance and rehabilitation program. Further consultant services will be needed for implementation.	Appraisal mission tentatively scheduled for September 1996.
<b>Philippines</b>				
To be determined	50.0 (Bank)	<b>Mindanao Integrated Rural Infrastructure</b> - Project would focus on the enhancement of agricultural productivity and crop diversification through the provision of key infrastructure which might include farm-to-market roads, ports or warehousing, and post-harvest processing facilities as well as essential support services. Environmental Assessment Category B.	Consulting services will be required and financed with PHRD funds.	Concept review scheduled for March 15, 1997.
To be determined	100.0 (Bank)	<b>(R) Industrial Pollution Prevention</b> - Project will strengthen the framework, incentives, planning, and enforcement mechanisms dealing with industrial pollution in Metro Manila. Project will also establish financial arrangements for firm level investment in pollution control and waste management. Environmental Assessment Category B.	Need for consultants not yet determined.	Project has been removed from the current lending program. Further reporting will be discontinued.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Department of Education, Culture and Sports	50.0 (Bank)	<b>(R) Teacher Development</b> - Project will assist GOP in: (a) streamlining and consolidating the sub-sectoral governance framework and management of superstructure for improved quality and efficiency in teacher training; (b) support for the upgrading of the best teacher education institutes (TEI) into increasingly autonomous regional centers of excellence operating as a network with associated satellite TEIs, and schools. Environmental Assessment Category C.	Consulting services will be required.	Project has been removed from the current lending program. Further reporting will be discontinued.
Department of Agrarian Reform	50.0 (Bank)	<b>(R) Agrarian Reform Communities Development</b> - Project will support infrastructure technical services and community development for poor farmers receiving land under the agrarian reform program. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Appraisal mission scheduled for June 24, 1996.
Subic Bay Metropolitan Authority	60.0 (Bank)	<b>(R) Second Subic Bay Freeport (SBF)</b> - Project to continue critical improvements needed in SBF infrastructure, administration, and environmental management, in order to continue to attract private investors to SBF. Major components include: (a) water supply; (b) power distribution; (c) roads and bridges; and (d) institutional strengthening. Environmental Assessment Category B.	Consulting services will be required.	Appraisal will be completed upon receipt of the Property Acquisition and Compensation Plan (water component).
Local Water Utilities Administration (LWUA)	45.0 (Bank)	<b>(R) Water Districts Development</b> - Project seeks to: (a) support Government regulatory sectoral reforms in the water subsector to encourage private sector participation; and (b) finance Government's investment program for specific priority sewerage projects. Environmental Assessment Category B.	Consulting services will be required.	Pre-appraisal mission is in the field. Project is in the preparation stage, and is expected to move swiftly once GOP clearance is obtained.
Department of Education, Culture and Sports (DECS)	110.0 (Bank)	<b>(R) Third Elementary</b> - Project seeks to: (a) improve quality of learning achievements, cohort survival rates and access to elementary education in the most disadvantaged provinces of the country; (b) build professional and managerial capacities of key levels of the education system in support of this and other programs; and (c) pilot-test decentralized approaches for education management. Environmental Assessment Category C.	Some national and international consultants will be required.	Appraisal mission just completed. Staff appraisal report under preparation.
Department of Health, Department of Social Welfare	40.0 (Bank)	<b>(R) Early Childhood Development</b> - Project would support a new integrated national program which seeks to improve the health, nutritional, educational and psychosocial developmental status of preschool children, and strengthen the capacity of central and local government to plan and manage early childhood development programs. Environmental Assessment Category C.	Local and international consultants preparing program and project proposal under a Japanese Grant for Women's Health and Early Child Development, as well as project preparation technical assistance funds from ADB.	Preparation review mission completed. Appraisal mission scheduled for January 1997.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Philippines</b>				
National Power Corporation, Philippine National Oil Corporation	180.0 (Bank)	<b>(R) Transmission Grid Reinforcement</b> - The project would (a) support NPC's plans to strengthen the EHV grid in the northern region of Luzon to facilitate connection of Masinloc and Sual power plants; (b) expand the national load dispatch facilities; and (c) reinforce the 138KV networks in the Visayas region to improve subtransmission operations. Environmental Assessment Category B.	Consulting services under evaluation for: (a) supervision of 500 kv lines; (b) design and supervision of NLDC; and (c) installation of MIS facilities.	Approved by the Executive Directors on April 4, 1996.
Metropolitan Waterworks and Sewerage System	57.0 (Bank)	<b>(R) Manila Second Sewerage</b> - The project would include: (a) treatment facilities for septage; (b) upgrading of sewerage system; (c) provision of laboratory and monitoring instruments; and (d) technical assistance and training. Environmental Assessment Category A.	Consulting services will be required for supervision.	Approved by the Executive Directors on May 21, 1996. <u>Retroactive financing of up to US\$150,000 is envisaged.</u>
National Irrigation Administration (NIA)	60.0 (Bank)	<b>Water Resources Development</b> - The project will improve water resources management in the country through: (a) policy and institutional reforms and formulation of long-term plans; (b) support for investments for the improvement and repair of existing national irrigation systems; (c) provision of institutional strengthening of the National Irrigation Administration and Irrigators Associations; and (d) assistance with controlling water-borne diseases. Environmental Assessment Category B.	Consulting services will be required for supervision.	Negotiations scheduled for June 24, 1996.
<b>Thailand</b>				
Ministry of Education	194.7 (Bank)	<b>(R) Secondary Education Quality Improvement II (TH-PE-42259)</b> - Project would support quality improvement in secondary education through financing a staff development program, upgrading science and languages equipment, and facilities and civil works. Environmental Assessment Category C.	Need for project management and equipment procurement assistance possible.	Project preparation completed. Pre-appraisal scheduled for August 15, 1996.
Ministry of Education	60.5 (Bank)	<b>Vocational Training (TH-PE-42258)</b> - Project will finance an institutional improvement program which would include overseas training for administrators and teaching staff, and consultant services for project management and procurement. Environmental Assessment Category C.	Need for project management and equipment procurement assistance possible.	Project preparation completed. Pre-appraisal mission planned for August 15, 1996.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Provincial Electricity Authority (PEA)	135.0 (Bank)	<b>(R) Distribution Automation and Reliability Improvement</b> - The primary objective of the project is to: (a) improve the reliability of the distribution network through automation; (b) upgrade the distribution network in southern Thailand; (c) strengthen PEA's engineering and management capabilities; (d) help rationalize PEA's interfacing arrangements with EGAT; (e) investigate options and issues for the regulatory framework of energy sector. Project components include: (a) distribution automation system; (b) construction of transmission lines and substations; (c) consulting services; and (d) technical assistance. Environmental Assessment Category B.	Consulting firm for distribution automation design has been selected.	Board presentation scheduled for July 2, 1996.  <u>Retroactive financing of up to US\$4.0 million is envisaged.</u>
Royal Irrigation Department (RID)	50.0 (Bank)	<b>Dam Safety</b> - The primary objective of the project is to formalize the regulatory process of inspecting and monitoring the performance of dams through the establishment of a permanent, technically qualified, and adequately staffed and equipped dam safety organization in the Thai Royal Irrigation Department. Will also provide for the reinforcing of basic safety facilities and undertaking remedial works as necessary. Environmental Assessment Category C.	Consultants to be financed through a Japanese PHRD facility.	Concept paper review scheduled for June 30, 1996. Detailed preparation to begin upon receipt of PHRD funds.
Royal Irrigation Department	20.0 (Bank)	<b>Community Irrigation</b> - The project would support a program for: (a) improved water resource management; (b) irrigation systems improvement; (c) crop diversification; and (d) intensification of on-farm activities within selected existing irrigation schemes. Environmental Assessment Category C.	Consultants, being funded under PHRD, expected to complete work in September 1996. Further consultant services may be required.	Work initiated to insure that project preparation is under way. Processing schedule contingent on timely recruitment of consultants by the Government. Concept paper scheduled for September 1996.
To be determined	25.0 (Bank)	<b>Northern Watershed Management</b> - Project seeks to support watershed protection, with community participation in selected priority sub-watersheds in the Northern Region. Environmental Assessment Category C.	Consulting firm has been selected.	Concept review paper due September 1, 1996.
Social Security Office	40.0 (Bank)	<b>(R) Social Security Modernization and Development</b> - Project will focus on procurement of a computer system and technical assistance for the institutional development of the Social Security Office. Environmental Assessment Category C.	Consulting services will be required for training of social security staff for reorganization study.	Pre-appraisal mission scheduled for July 1996. Appraisal scheduled for December 1996.
Ministry of Education	81.9 (Bank)	<b>(R) Secondary Education Quality Improvement</b> - Project seeks to improve science, math, and improve research capabilities of teacher colleges. Environmental Assessment Category C.	Consulting services will be required for developing the research program and for project management.	Board presentation scheduled for June 25, 1996.
Ministry of Education	41.1 (Bank)	<b>(R) Technical Education</b> - Project will strengthen training of craftsmen and technicians and improve management of training institutions. Environmental Assessment Category C.	Consulting services will be required for curriculum development and procurement.	Board presentation scheduled for June 25, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Thailand</b>				
Metropolitan Authority of Thailand (MEA)	138.0 (Bank)	(R) Metropolitan Distribution - Project seeks to meet the anticipated growth in demand over 1997-2001 by: (a) improving system reliability; and (b) restructuring MEA's organization in preparation for its commercialization and corporatization. Project components include: (a) expansion of four existing transmission substations and construction of one new transmission substation; (b) expansion of five existing distribution substations; (c) construction of five new distribution substations; (d) expansion and modification of five distribution substations; (e) construction of about 47 km of subtransmission lines; and (f) addition of a distribution system. Environmental Assessment Category B.	Need for consultants not yet determined.	Preparation mission in the field.
Ministry of Agriculture and Cooperatives, Office of Agricultural Economics	45.0 (Bank)	(R) Coastal Resources Management - Project will support Government and local initiatives to improve management and conservation of coastal resources in five areas. Environmental Assessment Category: To Be Determined.	Consultants have been selected for pre-investment study.	Appraisal mission scheduled for January 1997.
Ministry of University Affairs	171.2 (Bank)	(R) University Science and Engineering Education - Project seeks to improve the quality of science and engineering education through faculty upgrading, new course development, strengthening of information services, and upgrading laboratories. Environmental Assessment Category C.	Consulting services will be required for new course development, project management, and procurement. AUSAID will finance the technical assistance.	Negotiations tentatively scheduled for July 24, 1996.
Ministry of Agriculture and Cooperatives, Office of the Permanent Secretary, Royal Forestry Department (RFD), Agricultural Land Reform Office (ALRO)	23.0 (Bank) 14.0 (GEF)	<b>Forest Area Conservation and Development -</b> Project consists of two major components: (a) the demarcation, protection and appropriate management of priority conservation forests, wildlife sanctuaries and national parks in the Thung Yai Huey Ka Kaeng Complex; and (b) support of integrated conservation area development approaches for villages adjoining vulnerable buffer zone areas. Total project cost is US\$42.0 million. Environmental Assessment Category A.	Limited external consulting services will be required for support of environmental assessment to primarily be undertaken by local consultants and institutes.	Project preparation under way.  (GEF funding being sought for component (a); Danish assistance being provided for environmental assessment.)
<b>Vanuatu</b>				
Ministry of Education	8.0 (IDA)	<b>Education II -</b> Project will expand access to secondary schools, undertake teacher training, support the development and supply of educational materials, and improve management planning. Environmental Assessment Category C.	Consultants recruited under the Japanese Grant Facility has conducted a preliminary evaluation of the education system for project preparation.	Date of identification mission not yet agreed with the Government.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Viet Nam</b>				
Committee for the Protection and Care of Children	25.0 (IDA)	<b>Child Nutrition and Development</b> - Project would: (a) provide services to improve the health of mothers and maintain satisfactory growth patterns for children under age three; (b) implement a national communications strategy aimed at improving nutrition-related child care practices; and (c) strengthen institutional capacity of the organizations that would implement the service delivery and communications activities mentioned above. Environmental Assessment Category C.	Government currently using PHRD Grant to design project components.	Pre-appraisal planned for September 1996.
Ministry of Transport	50.0 (IDA)	<b>(R) Rural Transport (VN-PE-39021)</b> - Project will begin rural transport development focusing on breaking key bottlenecks obstructing the improvement of rural economies. It will include rehabilitation of rural roads and bridges in 15 selected provinces that are relatively poor, but have good economic potential. Environmental Assessment Category B.	Ministry of Transport will select consultants for implementation.	Negotiations scheduled for mid-July 1996.
To be determined	85.0 (IDA)	<b>Agricultural Diversification (VN-PE-4844)</b> - Project aims to increase rural incomes, employment opportunities, and agricultural production in the poor Central Highland Region by developing smallholder rubber plantations in environmentally sound manner and exploring other agricultural development opportunities. Environmental Assessment Category B.	Need for consultants not yet determined.	Concept review meeting scheduled for October 22, 1996.  (Cofinancing of about US\$35.0 million is expected from Caisse Francaise du Developpement (CFD).)
To be determined	80.0 (IDA)	<b>Irrigation II</b> - Project will support the second phase of the development of the lower Mekong Delta's water resources. Environmental Assessment Category A.	Consultants' proposals being reviewed by the Government.	Pre-appraisal mission and concept review scheduled for September 1996.  <u>Procurement:</u> Invitations for proposals have been received and are being reviewed.
To be determined	50.0 (IDA) 5.0 (GEF)	<b>Coastal Wetlands/Protection and Development</b> - Project aims to re-establish and protect mangrove wetland areas, and valuable ecosystem in southern coastal provinces to revive fishery nurturing abilities and promote sustainable aquaculture. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	IEPS completed September 1, 1995. Pre-appraisal mission scheduled for October 1996.
Ministry of Transport	46.0 (IDA)	<b>(R) Inland Waterways</b> - The project comprises the rehabilitation and upgrading of about 700 km of primary inland waterways and ancillary facilities in the Mekong Delta (Ho Chi Minh City) and the rehabilitation of the Port of Can Tho. Environmental Assessment Category A.	Consultants have been recruited to undertake the detailed engineering under a grant.	Appraisal mission planned for November 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
State Bank of Viet Nam	122.0 (IDA)	<b>Rural Finance</b> - Project will provide a credit line to support rural development activities, combined with institutional strengthening, with special emphasis on banking for the poor. Environmental Assessment Category: To Be Determined.	State Bank of Viet Nam to select consultants for implementation.	Approved by the Executive Directors on May 7, 1996. (Cofinancing of about US\$2.0 million envisaged from CIDA.)
State Bank of Viet Nam	130.0 (IDA)	<b>Structural Adjustment II</b> - Project is to assist the financing of a structural adjustment program to support the Government's medium-term program of macroeconomic stabilization and structural reform. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project is in pre-identification stage. Concept paper scheduled for July 1996.
Power Investigation and Design Co. (PIDC) No. 2 and Electricity of Vietnam	175.0 (IDA)	<b>Dai Ninh Hydro Power</b> - Project development to include: (a) dams and a reservoir in the headwaters of the Dong Nai River; (b) an 11 km tunnel to divert water to a reservoir on the Luy River which supplies irrigation water to the arid coastal plain; (c) a powerhouse at the downstream end of the tunnel, utilizing the 610 m elevation difference to generate 300 MW, 1120 GWh per annum of power in 2x150 MW Pelton units; and (d) 170 km of 110 kV transmission and 132 km of 220 kV transmission lines. Environmental Assessment Category A.	Consulting services will be needed for project management. Environmental assessment and resettlement studies are under way.	Project preparation under way.
Ministry of Forestry	54.0 (IDA)	<b>(R) Forest Conservation and Barren Land Development</b> - Project will focus on management of priority special use forests with high bio-diversity values through: (a) strengthening of protection measures and management capabilities of three or parks/special use forests in low to central highland region; and (b) improving livelihoods of residents in these areas. Environmental Assessment Category B.	Consultants being recruited under the Japanese Grant Facility.	Appraisal mission scheduled for March 15, 1997.
Ministry of Education and Training	60.0 (IDA)	<b>(R) Higher Education Reform and Consolidation</b> - Project will provide sectorwide support to higher education. It will focus on policy, management, and administration of the composition of the public investment program in higher education. Environmental Assessment Category C.	Consulting services will be required for higher education administration and systems management, financing and regulation, institutional planning, and development.	Project still in preparation stage. Appraisal mission will be scheduled for January 1997.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Viet Nam</b>				
Ministry of Transport	150.0 (IDA)	<b>Highway Rehabilitation II</b> - Project will focus on reconstruction of about 290 km of Highway No. 1 (including bridges), and also include equipment and capacity building for road maintenance. Environmental Assessment Category B.	Consulting services will be required for construction supervision, technical assistance, and training.	Appraisal scheduled for July 1996.
Ministry of Construction	125.0 (IDA)	<b>Water Supply</b> - Project will provide rehabilitation of water supply systems and limited additional capacity in Hanoi, Haiphong, Danang, and Hong Gai/Cam Pha. Environmental Assessment Category B.	Consulting services are financed through bilateral donors.	Appraisal mission scheduled for June 1996.
<b>Western Samoa</b>				
Ministry of Education	6.0 (IDA)	<b>Education</b> - To improve the quality of education, strengthen the system, and management planning. Environmental Assessment Category: To Be Determined.	Government currently using PHRD Grant to design project components.	Discussions will continue with Government for a possible project during implementation of a pilot.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
---------------------	--------------------------	---------------------	---------------------	---

### III. Europe And Central Asia Region

#### Albania

Ministry of Finance	8.2 (IDA)	<b>(N) Private Enterprise Development (AL-PA-40983)</b> - Project will focus on creation of a favorable environment to encourage new entry into the private sector and expand private sector activities. Environmental Assessment Category B.	Consulting services will be required.	Project preparation under way.
Port of Durres Authority	20.0 (IDA)	<b>Port (AL-PA-40818)</b> - Project would rehabilitate infrastructure (berth strengthening, breakwater rehabilitation, channel widening and other rehabilitation), assist in privatizing port operations, establishing an autonomous port, and improving operations and finance. Environmental Assessment Category B.	Consulting services will be needed for supervision of construction and technical assistance for institutional improvements.	Preparation studies under way.
Ministry of Construction and Tourism	25.0 (IDA)	<b>Water Privatization</b> - Project will provide investment in rehabilitation and optimization of water system, and corporate development of utilities. Environmental Assessment Category B.	Consulting firms have been shortlisted.	Project preparation under way.
Ministry of Construction, PMU	8.0 (IDA)	<b>Housing II</b> - Project will address the rapid growth of unservice housing by improving infrastructure services (roads, water, sewerage, drainage) in selected sites in the larger Tirana area. Environmental Assessment Category B.	Consulting services will be required for feasibility and environmental studies. Technical assistance will be required during project preparation and implementation.	Project preparation under way.
GRD/PDA/Railways	25.0 (IDA)	<b>(R) National Roads</b> - Reconstruction/upgrading of the East-West (175km) Corridor. Rehabilitation of high priority sectors of the road network, maintenance organization and equipment. Environmental Assessment Category A.	Technical assistance and training for General Directorate of Roads and Road Safety.	Board presentation scheduled for June 20, 1996.
Albanian Electroenergetic Corporation (KESH)	About 29.5 (IDA)	<b>Power Transmission and Distribution</b> - Project will include: (a) rehabilitation and reinforcement of the electricity transmission, dispatching and distribution systems; (b) strengthening of KESH financial position; and (c) support for privatizing part of the power sector. Environmental Assessment Category B.	Consulting services are being provided for establishing a regulation system, and preparing the sale of distribution enterprises.	Approved by the Executive Directors on March 5, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Albania/Macedonia</b>				
<b>Former Yugoslav Republic of</b>				
Ministry of Construction and Tourism (Albania), Ministry of Urban Planning, Construction, and Environment (Macedonia)	3.0 (GEF)	<b>Lake Ohrid Conservation</b> - The main objective of the project is to support the implementation of a program of joint management (by Macedonia and Albania) for the protection of Lake Ohrid. The project will promote cost-effective, preventive solutions, including a well-targeted investment program, with regard to transboundary natural resources management and pollution issues. The resulting project will likely consist of four main components: (a) strengthening of transnational collaboration and development of an institutional framework; (b) preparation of a Lake Ohrid Basin Management Plan and Investment Program; (c) monitoring of water quality; and (d) priority investments in wastewater management. Environmental Assessment Category B.	Swiss consultants (Baster and Partner) have been appointed to identify scope of work.	Preparation under way. (Cofinancing being sought.)
<b>Armenia</b>				
Ministry of Health, Ministry of Education	15.0 (IDA)	<b>Health and Education (AM-PA-8281)</b> - The project will support the implementation of health financing and primary health care reform as well as strengthening of general education and support to decentralization. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.
Ministry of Economy	25.0 (IDA)	<b>Municipal Development</b> - Project will finance basic urban infrastructure and provide some low cost housing units for the earthquake zone. Environmental Assessment Category B.	Need for consultants not yet determined.	Project preparation under way.
Ministry of Agriculture	10.0 (IDA)	<b>Agricultural Services</b> - The project will provide: (a) assistance to agro-processing restructuring and exports of agricultural products; (b) credit for small farmers; (c) land registration and land administration; and (d) assistance for development of extension, research and agricultural education. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project preparation under way.
Ministry of Economy	About 15.6 (IDA)	<b>Enterprise Development (EDP)</b> - The proposed project will support private investment, banking institutions and private enterprise development through a line of credit, support to exports and intercompany collaboration and the capital market. Environmental Assessment Category B.	Consulting services will be required.	Project preparation under way.
Ministry of Energy	About 35.0 (Bank)	<b>Electricity Distribution</b> - Rehabilitation of the electricity transmission and distribution network. Environmental Assessment Category: To Be Determined.	Consulting services may be required.	Project preparation under way.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Azerbaijan</b>				
To be determined	75.5 (IDA)	<b>SAC</b> - Project seeks to help deepen the Government's structural reform program and complement stabilization efforts through the provision of balance of payments. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.
Ministry of Agriculture	About 13.1 (IDA)	<b>(R) Farm Privatization Pilot</b> - Project covers areas related to Government's ongoing transition to market economy. The components include assistance to: (a) accelerate the process of privatization in the agriculture sector, particularly the land reform restructuring process; (b) demonstrate modern technologies for irrigation, drainage, etc.; and (c) improve land registration farm information systems. Environmental Assessment Category C.	Need for consultants not yet determined.	Appraisal report being prepared.
Committee for Irrigation	50.0 (IDA)	<b>(R) Irrigation I (formerly Irrigation) - Rehabilitation and improvement of existing irrigation and drainage infrastructure.</b> Environmental Assessment Category C.	Consulting services will be required.	Project identification under way.
AZERIGAS	About 20.2 (IDA)	<b>(R) Gas Rehabilitation</b> - Project will finance: (a) improvements in gas treatment; (b) rehabilitation of underground storage; (c) gas metering; (d) pipeline cathodic protection and maintenance; (e) laboratories for gas and appliance analysis; (f) LPG distribution rehabilitation; and (g) technical assistance for investment project preparation, institutional strengthening and training. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Negotiations under way. A PPF of US\$0.4 million was approved.
<b>Belarus</b>				
Ministry of Natural Resources and Environmental Protection	7.4 (GEF)	<b>(N) Phaseout of Ozone Depleting Substance (BY-GE-44729)</b> - Project will focus on phaseout of ozone depleting substances including enterprise technology conversion subprojects and institutional strengthening. Environmental Assessment Category B.	Need for consultants not yet determined.	Project preparation under way.
<b>Bosnia and Herzegovina</b>				
To be determined	10.0 (IDA)	<b>(N) Public Works and Employment (BA-PA-45310)</b> - Project will focus on creating employment opportunities for unemployed and displaced persons, by financing labor-intensive public works projects at the municipal level. Will also support the establishment of an employment and training foundation to administer/manage the project. Environmental Assessment Category B.	Consulting services will be required for individuals and firms for united technical assistance.	Negotiations scheduled for June 10, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministry of Education	5.0 (IDA)	<b>(R) Emergency Education Reconstruction</b> - Project will support: (a) primary school rehabilitation; (b) books and educational materials; (c) capacity building and project implementation; and (d) project preparation and pilot implementation in the Republikd Srpsko. Environmental Assessment Category C.	Consultants have been engaged under project cofinancing.	Approved by the Executive Directors on May 14, 1996. Credit was signed on May 21, 1996.
To be determined	90.0 (IDA)	<b>(R) Transition Assistance (formerly Structural Adjustment)</b> - Project will provide support for reforms in public finance and enterprise and banking sectors. Environmental Assessment Category C.	Need for consultants not yet determined.	Negotiations substantially completed.
TOPLANE - Sarajevo	20.0 (IDA)	<b>Emergency District Heating Reconstruction</b> - Project will include: (a) reconstruction and rehabilitation of the district heating networks in Sarajevo and Banja Luka; (b) institutional strengthening; and (c) improvement of sector finances. Environmental Assessment Category B.	Consulting services will be required in project management and engineering surveying.	Approved by the Executive Directors on May 14, 1996.
Sarajevogas	20.0 (IDA)	<b>Emergency Gas System Reconstruction</b> - Project will include: (a) reconstruction of the transmission pipeline through BH as well as the distribution system in Sarajevo, including conversion of tens of thousands of self-made connections into industry standard connections; (b) institutional strengthening; and (c) improvement of sector finances. Environmental Assessment Category B.	Consulting services will be required in project management and engineering surveying.	Date of Board presentation is to be determined.
Elektroprivreda	30.0 (IDA)	<b>(R) Emergency Electric Power Reconstruction</b> - The proposed project would: (a) assist Elektroprivreda in carrying out reconstruction and long-delayed maintenance of critical power plants in the Tuzla, Zenica, Mostar and Sarajevo areas, principal substations and major transmission lines; (b) increase coal production only in the most efficient mines serving the Tuzla and Kakanj cogeneration plants; (c) support sector restructuring and institutional strengthening; and (d) improve sector finances. Environmental Assessment Category B.	Local consultants (JEO, Sarajevo) have been appointed to carry out initial engineering preparation. Additional and longer consulting services may be required.	Board presentation scheduled for July 16, 1996.
To be determined	20.0 (IDA)	<b>Emergency Mine Clearing</b> - The project would support a program for clearing land mines throughout Bosnia-Herzegovina in support of both infrastructure reconstruction and population reintegration. Environmental Assessment Category C.	Consulting services will be needed for assisting in building up local capacity in mine clearance.	Project preparation under way.
Ministry of Physical Planning and Natural Resources	15.0 (IDA)	<b>Emergency Housing</b> - Project will focus on repair and reconstruction of war-damaged social housing to increase the stock of usable housing and address the needs of displaced persons. Will also provide technical assistance for policy and management advice to both central and local governments. Environmental Assessment Category C.	Consultant services needed for building capacity in project technical and financial management.	Project preparation under way.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Bosnia and Herzegovina</b>				
To be determined	15.0 (IDA)	<b>(R) Demobilization Support</b> - Project would finance implementation of: (a) a labor market information data base; (b) counseling and job placement services; (c) education and retraining services; and (d) a small management support group located at a newly established Employment and Training Foundation (ETF) which would manage and administer all project activities. Environmental Assessment Category C.	Consultants being sought under trust fund financing.	Negotiations completed. Board presentation scheduled for July 23, 1996.
To be determined	15.0 (IDA)	<b>Essential Hospital Services</b> - The project will support: (a) physical repair/renovation/remodeling of essential hospital facilities; (b) provision of medical equipment, pharmaceuticals and supplies; (c) upgrading of clinical skills and practices; (d) health financing reform; and (e) project implementation. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.
To be determined	20.0 (IDA)	<b>Education Reconstruction (BA-PA-45313)</b> - The project will support reconstruction/rehabilitation of selected educational facilities, provision of educational materials, and upgrading of teachers. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.
To be determined	5.0 (IDA)	<b>(R) Emergency War Victims Rehabilitation</b> - The project will support war victims rehabilitation efforts and includes: (a) community based rehabilitation; (b) prosthesis and orthoses production; (c) orthopedic and reconstructive surgery, and (d) project implementation support. Environmental Assessment Category C.	Consultants to be selected.	Approved by the Executive Directors on May 14, 1996. Credit was signed on May 21, 1996.
<b>Bulgaria</b>				
To Be Determined	About 150.0 (Bank)	<b>District Heating (BG-PA-8314)</b> - The project would assist with the rehabilitation of the Sofia and Pernik district heating systems and add cogeneration capacity to these systems. Environmental Assessment Category B.	Consulting services will be required.	Project preparation under way.
Natsionalna Electricheska Kompania	About 100.0 (Bank)	<b>Energy II (BG-PA-8321)</b> - The project will support rehabilitation of Natsionalna Elektricheska Kompania's generating facilities to allow closure of unsafe nuclear plants. Environmental Assessment Category B	Consulting services will be required.	Project preparation under way.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Bulgaria</b>				
Ministry of Health	26.0 (Bank)	<b>(R) Health Sector Restructuring</b> - Project will assist the Government in the restructuring of its health care delivery system while at the same time ensuring the continued provision of critical health services during the transition. It will include four components: (a) policy analysis and management; (b) primary health care; (c) emergency medical services; and (d) blood transfusion. Environmental Assessment Category C.	Consulting services will be required.	Approved by the Executive Directors on April 9, 1996. Loan was signed on May 9, 1996.
Ministry of Labor and Social Welfare	24.5 (Bank)	<b>(R) Social Insurance Administration</b> - The project will improve operational efficiency (including compliance and expenditure control) in the administration of the social insurance system and strengthen the institutional policy formulation and evaluation functions and better manage resources. Environmental Assessment Category C.	Need for consultants not yet determined.	Appraisal report under preparation.
<b>Central Asia</b>				
Executive Committee of the Interstate Council for the Aral Sea	13.0 (GEF)	<b>Water and Environmental Management</b> - Project aims to ensure the sustainable management and future development of the natural resources of the Aral Sea Basin, especially international waters, soils, and biodiversity. Environmental Assessment Category B.	Need for consultants not yet determined.	Preparation under way.
Committee of Environmental Protection of the Kyrgyz Republic, Ministry of Ecology and Bioresources of the Republic of Kazakstan, State Committee for Nature Protection of the Republic of Uzbekistan	7.2 (GEF)	<b>Central Asia Transboundary Biodiversity (7C-GE-42573)</b> - Project will focus on: (a) protection of mountain ecosystems, critical biodiversity, and vulnerable habitat; and (b) strengthening of existing protected areas and reinforcement of national biodiversity strategies. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.
<b>Croatia</b>				
Croatian Bank for Reconstruction and Development	45.0 (Bank)	<b>(N) Municipal Environmental Infrastructure Investment (MEIIP) (HR-PA-43444)</b> - Project will provide assistance to six municipalities to improve their wastewater collection, treatment and disposal systems and contribute to reducing the environmental pollution of the Kastala Bay area. Environmental Assessment Category A.	Consulting services will be needed for: (a) Phase 1 for review of feasibility studies, preparation of cost estimates and preliminary designs; and (b) Phase 2 for detailed design, tender document preparation and contractor selection.	Preparation under way.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Ministry of Finance	40.0 (Bank)	<b>(N) Investment Recovery (HR-PA-40139) -</b> Project would complement the EFSAL by helping finance the new cycle of private investment anticipated as a result of the current program of enterprise and financial sector reforms. Environmental Assessment Category B.	Consulting services will not be required.	Project preparation under way.
Croatian Railways, Roads Authority, Ploce Port Authority, Croatian Water Enterprise	110.0 (Bank)	<b>Restoration of Regional Public Services (HR-PA-44457) -</b> Project would finance repair and reconstruction of war-damaged regional infrastructure as needed for the rebuilding of Croatia and Bosnia and Herzegovina. Likely investments include bridges, roads, rail lines, Ploce Port, and water and sewerage facilities. Environmental Assessment Category C.	Consulting services will not be required.	Project under preparation.
Ministry of Agriculture and Forestry	42.0 (Bank)	<b>(R) Costal Forest Reconstruction and Protection -</b> Project will include: (a) reforestation of 5,000 of 11,000 ha forests destroyed by war; (b) fire control of costal forests; and (c) supporting services. Preparation under way.
Bucharest Water and Sewerage Company (RGAB)	About 25.0 (Bank)	<b>(R) Bucharest Water Supply</b> - The project will increase water availability and quality, reduce water losses and strengthen RGAB's operational, commercial and financial management. Environmental Assessment Category B.	Consulting services will be required.	Negotiations in progress.
Ministry of Communications, ROMTELECOM	About 50.0 (Bank)	<b>Telecommunications</b> - The project will assist in the expansion and modernization of trunk line and local distribution network, and liberalization of sector management and policies to facilitate private investment. Environmental Assessment Category C.	Need for consulting services not yet determined.	Preparation under way.
Agricultural Bank/Export-Import Bank	About 90.0 (Bank)	<b>(R) Private Farmer and Enterprise Support II</b> - Project would provide foreign exchange to support private initiative by financing mainly import of machinery and equipment and permanent working capital for import of essential agricultural inputs. Environmental Assessment Category B.	Consultant services may be required to support banking/institution building.	Appraisal report being prepared.
Ministry of Agriculture and Food	200.0 (Bank)	<b>Agriculture Sector Adjustment</b> - The project would: (a) promote privatization of agricultural trade and service enterprises, and food industries; (b) liberalize the agricultural trade regime; and (c) improve the incentive system. Environmental Assessment Category U.	Need for consultants not yet determined.	Identification under way.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Romania</b>				
Higher Education Councils, Ministry of Education	About 50.0 (Bank)	<b>Higher Education</b> - The project would provide funding for equipment, consumables, technical assistance and fellowships. It would have three components supporting (a) building capacity to reform the financing and management of higher education and research; (b) new undergraduate programs; and (c) a priority training program and research activities through competitive funding mechanisms. Environmental Assessment Category C.	Need for consultants not yet determined.	Appraisal report being prepared.
To be determined	50.0 (Bank)	<b>Cadastre and Land Registration</b> - The proposed project would assist in establishing a legal cadastre and land registration system. Environmental Assessment Category C.	Consulting services will be required during project implementation.	Project preparation under way.
Ministry of Industry and RAFIROM	150.0 (Bank)	<b>Oil and Gas Development</b> - The proposed project would assist the Government in the restructuring of its refinery sector for the purpose of improving the efficiency of operation, optimization of the sector and promoting private sector investment, including privatization of some of the refineries. Environmental Assessment Category: To Be Determined.	Consultants have been selected to implement a refinery sector restructuring study that would provide the restructuring framework. Consultancy services would also be required during project implementation.	Identification under way.
Ministry of Industry	5.0 (GEF)	<b>Fuel Cell Power Plant</b> - Project will include using gaseous hydrogen from an ammonia plant, constructing a scalable, phosphoric acid fuel cell electricity generation plant. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Feasibility study is under way.
<b>Russian Federation</b>				
Ministry of Environment and Natural Resources	200.0 (Bank)	<b>(N) Environmental Investment (RU-PA-8830)</b> - Project will focus on recovery of flared associated gas in Western Siberia and strengthening institutional arrangement for pollution control in the oil sector. Environmental Assessment Category A.	Need for consultants not yet determined.	Project preparation under way.
Reformugol	25.0 (Bank)	<b>(N) Coal Sector Restructuring Implementation (RU-PA-45622)</b> - Project will provide support for implementation of the Coal Sector Restructuring Program. Will also provide assistance to affected people/organizations which would include: (a) participatory activities of relevant stakeholders; (b) social programs; (c) subsidy management; (d) commercialization and demonopolization of coal companies; (e) environmental management; (f) mine closure guidelines; and (g) PIU administration. Environmental Assessment Category C.	Need for consultants not yet determined.	Board presentation scheduled for June 27, 1996.  (Cofinancing expected from Japan and USAID.)

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Ministry of Agriculture and Food, Nizhni Novgorod, Oblast Admin.	15.0 (Bank)	<b>Post Privatization Pilot (RU-PA-45567)</b> - Project will develop operational prototypes in credit and market development, with a focus on agricultural policy reforms, post privatization support services and training. Environmental Assessment Category B.	Consulting services will be required for project preparation.	Project preparation under way.
Ministry of Economy	20.0 (Bank)	<b>Economic Policy</b> - Project will support the establishment of a bureau to provide high quality economic policy advice to senior government economic managers. Environmental Assessment Category C.	Consulting services will be required.	Project preparation under way.
Ministry of Economy	500.0 (Bank)	<b>(R) Coal Sector Restructuring (RU-PA-38550)</b> - Project will support coal industry restructuring, including reducing the impact of coal subsidies on the federal budget, promoting long-term sustainability by developing measures for demonopolization and eventual privatization, and cushioning the impact of industry restructuring on miners, their families, and affected communities. Environmental Assessment Category B.	Consulting services will be required.	Negotiations completed. Board presentation scheduled for June 27, 1996.
State-Law Administration of the President	58.0 (Bank)	<b>(R) Legal Reform</b> - Project will provide technical assistance, equipment and training to improve the legal framework, with particular emphasis on developing a legal information system, improving drafting of economic laws, legal education and training, and judicial reform. Environmental Assessment Category C.	Consulting services will be required during preparation and implementation.	Approved by the Executive Directors on June 13, 1996.
Government of St. Petersburg, Russian Federation	25.0 (Bank)	<b>(R) St. Petersburg Center City Rehabilitation Engineering</b> - The project would include a comprehensive package of studies, designs, capacity building and pilot investments to permit implementation of a subsequent investment project for renovation of the historic center of St. Petersburg. Environmental Assessment Category C.	Consulting services will be required.	Appraisal mission in the field. (Cofinancing expected from Finland, Sweden and USAID.)
Russian Federation Commission on Securities and Capital Markets (RFSEC)	89.0 (Bank)	<b>(R) Capital Markets Development</b> - The project helps build the regulatory infrastructure and the market architecture for the Russian capital market. Environmental Assessment Category C.	Consulting services will be required.	Approved by the Executive Directors on May 30, 1996.
Ministry of Fuel and Energy	3.2 (GEF)	<b>GHG Reduction in Natural Gas</b> - Project will reduce losses of methane and CO2 emissions. Environmental Assessment Category C.	Need for consultants not yet determined.	Approved by the Executive Directors on December 19, 1995.
To be determined	500.0 (Bank)	<b>(R) Krasnodar Power Generation</b> - The project consists of 900 MW of combined cycle generation in the Krasnodar Region. Environmental Assessment Category A.	Consultant services will be required.	Appraisal mission in the field.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Ministry of Finance	270.0 (Bank)	<b>(R) Medical Equipment</b> - The project will provide medical equipment and related consumables to stem the decline in provision of health care services to the population. Procurement advisory services will also be provided. Environmental Assessment Category C.	A contractor for procurement advisory services has been selected. Consulting services will be required to design national health accounts. Technical services for consolidating and forwarding agent(s) will also be contracted.	Approved by the Executive Directors on June 4, 1996.  A PPF of US\$1.0 million has been approved to finance procurement and other consulting services as well as operating costs of project preparation and implementation.  <u>Procurement:</u> Specific procurement notices for the first round of equipment purchases have been published. Bidding documents are expected to be issued shortly.
Ministry of Finance	500.0 (Bank)	<b>Social Sector SECAL</b> - The project will support social sector reform, including improvements in federal social transfers, the social safety net, and the health and education systems. Environmental Assessment Category C.	Consulting services will be required.	Project preparation under way.
Purneftegas	47.0 (Bank)	<b>(R) Gas Injection Demonstration</b> - Project will support: (a) a gas injection pilot to increase oil recovery and reduce air pollution; and (b) technical assistance and training to strengthen project implementation. Environmental Assessment Category B.	Consultant services for reservoir simulation and tracer services will be required.	Project has been placed in the FY2001 lending program. Further reporting will be discontinued.
To be determined	500.0 (Bank)	<b>Agriculture SAL</b> - The project will support agriculture sector policy reform program and finance imports of critical agriculture inputs and/or provide balance of payment support. Environmental Assessment Category C.	Need for consultants not yet determined.	Identification under way.
To be determined	200.0 (Bank)	<b>Education</b> - Project will provide support for Government reform to restructure textbook and materials finance, and targeted support for higher education reforms. Environmental Assessment Category C.	Consulting services will be required.	Project preparation under way.
To be determined	300.0 (Bank)	<b>Enterprise Housing Divestiture</b> - Project would support the transfer of housing and the related infrastructure from enterprises in order to ensure the sustainability of the divestiture process and encourage enterprise restructuring. Environmental Assessment Category B.	Consultants will be required to assist in engineering design and supervision.	Approved by the Executive Directors on May 7, 1996.  (Potential cofinancing being discussed with donors.)  A PPF of US\$1.5 million has been approved to finance the technical assistance and equipment for technical, engineering and procurement works.  <u>Procurement:</u> Letters of invitation for engineering and procurement services have been issued. Tenders for heat meters are being prepared.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Federal Highway Department, Ministry of Transport	350.0 (Bank)	<b>(R) Bridge Rehabilitation</b> - Project will help improve the condition of the public road network by rehabilitating or reconstructing high priority bridges. Environmental Assessment Category B.	Consultant services will be required to assist in project preparation, engineering design, and supervision.	Approved by the Executive Directors on March 28, 1996. Loan was signed on May 22, 1996.
Ministry of Nationalities and Federal Affairs	200.0 (Bank)	<b>Community Social Infrastructure</b> - The project will support selected oblasts in: (a) rehabilitation or upgrading of selected health, water and sanitation, and education facilities; (b) advisory services and training; (c) budget planning and social sector management; and (d) design monitoring and evaluation procedures that will permit transfer of lessons for a potential national program. Environmental Assessment Category B.	Consulting services will be required.	Approved by the Executive Directors on April 30, 1996.  A PPF of US\$1.0 million has been approved to finance completion of detailed designs of identified and appraised sub-projects in the education, health and water sectors; the formation of tender documents and the preparation of bids, as well as the start-up costs associated with the establishment of project implementation units.  <u>Retroactive financing is envisaged.</u>
To be determined	About 500.0 (Bank)	<b>(R) Petroleum Joint Venture (RU-GU-43435)</b> - Project would support a major joint venture (international/domestic) for a new oil field development project in Western Siberia in the form of guarantees issued to commercial banks by IBRD on behalf of borrower and possible direct loans to Russian partners. Environmental Assessment Category A.	To be determined.	Project preparation under way.
To be determined	About 300.0 (Bank)	<b>Enterprise Support II</b> - Project includes a line of credit and focuses on restructuring advisory services to private enterprises. Environmental Assessment Category C.	Consultant services will be required.	Project preparation under way.
Ministry of Health	70.0 (Bank)	<b>Health</b> - The project would develop and support the <b>National Family Medicine Program</b> and the following reforms in Kaluga and Tver oblasts: (a) rationalization of inpatient and outpatient health care facilities; (b) improvement of maternal and child health and family planning; (c) introduction of a new system of providers' incentives and quality assurance; (d) prevention of cardiovascular diseases and improving health education; and (e) an evaluation, monitoring and dissemination component has been added as a federal level sub-project to insure the dissemination of project's results throughout the country. Environmental Assessment Category C.	Limited consulting services will be required.	Appraisal report being prepared.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Russian Federation</b>				
One Gas Distribution Company (Volgograd)	106.5 (Bank)	<b>Gas Distribution and Energy Efficiency -</b> Project would increase gas available for export and domestic use by decreasing consumption and losses. Purchase of meters would be included along with cathodic production equipment, leak detection equipment, remote monitoring equipment, and replacement of existing piping and equipment to reduce gas consumption like burners and related controls, temperature controls and instrumentation would be procured. Environmental Assessment Category C.	Consulting services will be required for related technical assistance.	Approved by the Executive Directors on May 2, 1995.
Ministry of Ecology and Natural Resources	60.0 (GEF)	<b>(R) Ozone Depleting Substances Consumption Phaseout -</b> Project will include Identification of key ozone depleting substance (ODS) reduction activities and new technology for ODS phaseout in the aerosols sector. Environmental Assessment Category B.	Need for consultants not yet determined.	Approved by the Executive Directors on May 30, 1996.
Environmental Protection and Natural Resources	20.1 (GEF)	<b>(R) Biodiversity Conservation Priority Response Program -</b> Project will provide support for Russia's biodiversity by: (a) establishing a national biodiversity strategy; (b) assisting the protected area system; and (c) initiating a regional program in the Lake Baikal region which includes (i) a natural resource management strategy, (ii) a pilot watershed and forestry project, and (iii) a sustainable development fund. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Approved by the Executive Directors on May 30, 1996.
<b>Slovak Republic</b>				
To be determined	12.0 (Bank)	<b>Labor Restructuring -</b> Project would: (a) promote durable and effective reform by supporting labor redeployment and employment in key loss-making enterprises through enterprise restructuring; and (b) support an enterprise component, a worker redeployment component and a local employment initiatives component. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.
To be determined	30.0 (Bank)	<b>Health Sector Reform -</b> Project would assist the Government in: (a) developing a more cost-effective service package by strengthening health promotion and clinical prevention programs; and (b) improving resource management and financial control. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Slovenia</b>				
To be determined	40.0 (Bank)	<b>(R) Investment Recovery</b> - A direct complement to the EFSAL. Would help finance a new cycle of private investments anticipated as a result of Slovenia's implementation of enterprise reform. Environmental Assessment Category B.	Consulting services will not be required.	Negotiations expected to be completed by June 28, 1996.
Ministry of Environment	25.0 (Bank)	<b>(R) Environment</b> - The project will focus on air pollution and institutional strengthening. The project will have two components: (a) conversion of existing systems in households and buildings from use of polluting fuels (coal, oil) to clean systems (gas-fired or district heat); and (b) institutional strengthening. Environmental Assessment Category C.	Consulting services will not be required.	Approved by the Executive Directors on May 30, 1996.
<b>Tajikistan</b>				
Office of the Economic Advisor to the Cabinet Ministers	About 14.9 (IDA)	<b>Pilot Poverty Alleviation (TJ-PA-44202)</b> - Project aims to support the Government in its efforts to alleviate existing poverty and address the transitory negative social effects of the development of a market economy by supporting the rehabilitation of essential social and economic infrastructure and the stimulation of employment and income generation and by strengthening institutional capacities. Will build upon existing developmental activities now being carried out largely by non-governmental organizations, scaling them up and extending them where appropriate. National Bank of Tajikistan, Project Implementation Unit	5.0 (IDA)	<b>(R) Institutional Building/Technical Assistance</b> - The proposed credit aims to: (a) help meet skill shortages; (b) strengthen Government institutional capacity to implement and sustain economic reforms; and (c) facilitate this transition towards a market-oriented economy. The credit would address urgent technical assistance requirements in the following core areas: (a) privatization, enterprise reform and private sector development; and (b) the financial sector. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Approved by the Executive Directors on May 16, 1996. Credit was signed on May 20, 1996.
To be determined	55.4 (IDA)	<b>(R) Agriculture Recovery and Social Safety</b> - Project seeks to assist the Government's economic reform program through the provision of balance of payments and technical assistance support. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Appraisal mission is in the field.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Turkey</b>				
BOTAS	About 12.5 (Bank)	<b>Oil Pipeline Engineering (TR-PA-45073)</b> - Project is to assist the Government of Turkey in its effort to select an economically, technically, environmentally sustainable and commercially viable route to transport 45 million metric tons per year of the crude oil to be produced from the Central Asia Region, particularly from Azerbaijan and Kazakstan, for export through Turkey. Environmental Assessment Category C.	Consulting services will be required to carry out the engineering study.	Preparation under way.
Devlet Su Isleri (DSI) and Water User Organizations	About 50.0 (Bank)	<b>Privatization of Irrigation Operations and Maintenance</b> - The project will assist: (a) Water User Organizations (WUOs) by helping them obtain required operations and maintenance equipment to operate and maintain the irrigation systems; and (b) the Government agency, DSI, to provide required support, guidance and training to WUOs and monitor their performance. Environmental Assessment Category B.	Consulting services will be required.	Preparation under way.
Antalya Metropolitan Municipality	15.0 (Bank)	<b>Antalya - Solid Waste Management</b> - Project will improve solid waste collection and disposal, and land management and pollution monitoring. Environmental Assessment Category B.	Consulting services will be required.	Negotiations have been completed.
General Directorate of Highways (KGM)	About 250.0 (Bank)	<b>(R) Road Improvement and Safety</b> - The project will finance a timeslice of the 1996-2000 road investment program with the objective of reducing transport costs on state and provincial roads. The project will also address road safety issues, and pavement management. Environmental Assessment Category B.	Consulting services may be required.	Negotiations completed.
Housing Development Administration	About 50.0 (Bank)	<b>Housing (TR-PA-9070)</b> - The project would finance housing for lower income households in Southeastern Turkey and assist in the development of a policy framework for well functioning housing market. Environmental Assessment Category B.	Consultants to conduct feasibility and policy studies have been selected.	Project preparation under way.
National Institute of Metrology, Turkish Scientific and Technical Research Institute, Ministry of Industry and Trade	50.0 (Bank)	<b>Technology Development II</b> - The project will support: (a) the second phase of development of the National Metrology Institute; (b) the establishment of a Turkish Patent Institute; and (c) the establishment of an independent quality accreditation body. Environmental Assessment Category B.	Consulting services will be required.	Preparation in progress by implementing agencies.
Ministry of Transport	About 45.0 (Bank)	<b>Communications Liberalization</b> - The proposed project would provide: (a) equipment and services for installing a modern radio Frequency Spectrum Management System (FSMS); and (b) technical assistance for TGM's institutional development and establishment of modern methods of frequency allocation (including auctions). Environmental Assessment Category C.	Consulting services will be required.	Appraisal report under preparation. <u>Advance Procurement:</u> Advance procurement actions are envisaged.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Turkey</b>				
Ministry of National Education	About 120.0 (Bank)	<b>(R) Basic Education</b> - Project would support the expansion of basic schooling (Grades 1 through 8) to improve system coverage and relieve overcrowded schools, with particular effort to raise the school attendance of girls. Environmental Assessment Category C.	Consultant services for project management services expected for June 1998.	Project preparation under way.
Ministry of Labor	About 100.0 (Bank)	<b>Social Insurance Reform</b> - Support of restructuring of pension system and health insurance. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.
<b>Turkmenistan</b>				
Ministry of Land Reclamation and Water Management	30.0 (Bank)	<b>Water Supply and Sanitation</b> - The project will improve the water supply and sanitation in Etrap Centers, and selected collective farms in Tashauz vilayet, and initiate institutional and policy changes in water supply and sanitation sectors to improve financial and technical sustainability. Environmental Assessment Category B.	Consultant to conduct feasibility study selected.	Project preparation under way.
To be determined	40.0 (Bank)	<b>Urban Transport</b> - Project seeks to rehabilitate key parts of the country's urban transport, and design and implement key improvements in sector policies and institutions. Environmental Assessment Category B.	Need for consultants not yet determined.	Project preparation under way.
<b>Ukraine</b>				
State Export-Import Bank of the Ukraine	55.0 (Bank)	<b>(N) Export Development (UA-PA-44851)</b> - Project will provide: (a) export development technical assistance to private exporters; (b) technical assistance for the institutional development of EXIM Bank or other suitable institutions specialized in trade finance and promotion; and (c) credit finance to private supporters. Environmental Assessment Category B.	Need for consultants not yet determined.	Project preparation under way.
Ministry of Coal Industry	300.0 (Bank)	<b>(N) Coal Sector Adjustment (UA-PA-40564)</b> - Project will provide financial support for policy measures to restructure the coal industry. Environmental Assessment Category U.	Need for consultants not yet determined.	Project preparation under way.
UKRAVTODOR	200 0 (Bank)	<b>Highway Rehabilitation (UA-PA-9110)</b> - Project will include: (a) expansion of periodic road maintenance; (b) technical upgrading through introduction of improved standards and quality control; (c) improvement of road management; (d) institutional improvements through technical services and training to Ukravtodor and one oblast road organization (pilot); (e) a road safety program; and (f) assistance to developing competitive and road construction and engineering industry. Environmental Assessment Category B.	Consulting services will be required for project preparation.	Project preparation under way.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Ministry of Power and Electrification	200.0 (Bank)	<b>Dniester Hydropower Pump Storage (UA-PA-40565)</b> - The project will include: (a) completion of three units of the Dniester Hydropower Pump Storage Project; (b) strengthening of the transmission system (including switch yard construction/improvement); (c) addressing further priority upgrades of the dispatch control and communications systems needed to improve control of system frequency, system voltages, power interchange and power dispatch. Environmental Assessment Category A.	Need for consultants not yet determined.	Project preparation under way.
Ministry of Power and Electrification	315.7 (Bank)	<b>Electricity Market Development (UA-PA-44444)</b> - The project would include: (a) building up the fuel stocks of thermal power plants, and the stocks of spare parts; (b) carrying out deferred maintenance at thermal power plants; (c) purchase and installation of metering and communications equipment; and (d) technical assistance and training. Environmental Assessment Category B.	Consulting services will be required and expected to be funded bilaterally.	Appraisal report under preparation.
Ministry of Coal Industry	About 15.8 (Bank)	<b>Coal Pilot (UA-PA-44110)</b> - Project is a pilot to mitigate the social and environmental impact of closing three mines. Technical and social aspects will be included. Will also help to design the larger projects later. Environmental Assessment Category B.	Consulting services will be required for technical assistance to Ukraine local company for project management.	Approved by the Executive Directors on May 16, 1996.
State Land Resources Committee	20.0 (Bank)	<b>(R) Agriculture Services</b> - Project will support an agribusiness training program to improve the standard of agribusiness education at the Ukrainian national agricultural university. Will also support: (a) agribusiness incubators which will provide consulting services and loans to small agribusiness companies; (b) establishment of an agricultural marketing information system; and (c) a pilot program for the restructuring of the agricultural research system. Environmental Assessment Category B.	Need for consultants not yet determined.	Project identification under way.
Ministry of Finance	170.0 (Bank)	<b>Agricultural Pre-Export Guarantee</b> - Project will support a guarantee facility, which will offer coverage to suppliers of pre-export finance for agricultural and food products against political risks associated with export and import policy changes as well as government performance risks related to internal trade barriers. Environmental Assessment Category B.	Consulting services will not be required.	Appraisal report under preparation.
National Bank of the Ukraine	About 200.0 (Bank)	<b>Financial Institutions Development</b> - Project will be comprised of: (a) a credit line component of about US\$150.0 million to be channeled through qualifying participating banks to private and privatized enterprises; and (b) a technical assistance component of about US\$50.0 million to support the institutional development and automation needs of selected state and former state banks. Environmental Assessment Category B.	Consulting services will be required.	Project preparation under way.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Municipal Water and Wastewater Enterprises of the Cities of Lviv and Odessa	40.0 (Bank)	<b>Municipal Water and Wastewater</b> - The project will focus on: (a) institutional reorganization and strengthening of water and wastewater enterprises in Odessa and Lviv; (b) investments in water and wastewater infrastructure; and (c) engineering services and environmental activities to be defined. Environmental Assessment Category B.	Consulting services will be required.	Project preparation under way.
Ministry of Coal Industry/Ministry of Finance	80.0 (Bank)	<b>(R) Coal Sector Restructuring - Phase I</b> - Project will assist in alleviating social and environmental impact closure of up to possibly 20 coal mines. Project would support safe closure of mines, including: (a) retraining and relocation of workers to other mines; (b) transfer of social services (kindergartens, clinics) to the municipalities; and (c) promotion of jobs in the region. Environmental Assessment Category B.	Consulting services will be required in monitoring and evaluation, and job skills retraining. Knowledge of the coal sector is required.	Project preparation under way.
State Property Fund of Ukraine	310.0 (Bank)	<b>(R) Enterprise Development Adjustment</b> - The project will implement policy and institutional reforms supporting trade and price liberalization, enterprise privatization, promote post-privatization enterprise restructuring and capital markets development, and provide technical assistance for restructuring of enterprises after privatization. Environmental Assessment Category C.	Consulting services to include US\$10.0 million for consulting assistance and training to enterprises for post-privatization.	Negotiations completed. Approved by the Executive Directors on June 27, 1996.
Kievgaz/UKRGAS	100.0 (Bank)	<b>Gas Distribution Rehabilitation</b> - The project would: (a) support conservation of gas use by upgrading and increasing the use of customer metering; (b) reduce gas distribution operating costs through rehabilitation of gas distribution systems; and (c) support the commercialization of gas distribution companies. Environmental Assessment Category B.	Consulting services completed.	Project preparation under way.
Ministry of Agriculture	About 250.0 (Bank)	<b>Agriculture SECAL</b> - Project will include: (a) privatization and demonopolization of agricultural supply and processing enterprise; (b) pre-export loan guarantee; (c) marketing infrastructure component; and (d) land registration. Environmental Assessment Category U.	Need for consultants not yet determined.	Appraisal report under preparation.
State Committee for Housing and Municipal Economy	About 75.0 (Bank)	<b>Urban Transport</b> - The project will benefit up to three cities selected on the basis of their commitment to key sector reforms. It will have two components: (a) an institutional support program to assist in formulating and implementing policy reforms, efficiency improvements, and regulatory institution building; and (b) conditional upon reforms, an improvement program to finance new and used vehicles, vehicle rehabilitation spare parts and other equipment. Environmental Assessment Category B.	Local and foreign consulting services have been retained through grant financing.	Appraisal report under preparation.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Ukraine</b>				
Ministry of Education	About 35.0 (Bank)	<b>Education</b> - Project to include curriculum and instructional materials development, textbooks, assessment and evaluation, teacher education for secondary, vocational and higher education, and institutional development. Environmental Assessment Category C.	Consultant services will be required.	Appraisal report under preparation.
State Committee for Housing and Municipal Economy (SCHME)	17.0 (Bank)	<b>Housing</b> - The project will support the Government's effort to reform the housing sector by establishing a housing market and promoting privatization, increasing competition in housing construction and improving housing quality, especially energy efficiency. Housing investments are being developed in Lviv, Kharkiv and Odessa. Environmental Assessment Category B.	Consulting services will be required for project implementation.	Approved by the Executive Directors on March 14, 1996.
Ministry of Power	About 250.0 (Bank)	<b>Thermal Power Rehabilitation</b> - Possible components include the rehabilitation of several units in two major coal-fired thermal power plants to extend service life, increase efficiency, and reduce environmental impact. Environmental Assessment Category B.	Consulting services may be required.	Project preparation under way.
<b>Uzbekistan</b>				
Goskomprognostat	3.7 (Bank)	<b>(R) Pilot Water Supply</b> - Pilot project for water supply and distribution to 34,000 residents in a peri-urban area near Nukus in the Republic of Karakalpakstan and detailed engineering design of the full scale project. Environmental Assessment Category C.	Consulting services will be required.	Negotiations in progress.
Ministry of Health	25.0 (Bank)	<b>(R) Health I</b> - Project will support the Ministry of Health for policy reform and implementation in the light of newly evolved responsibilities for policy formulation, planning and regulatory controls. Support would also be given to two oblasts (to be selected) to strengthen health service cost-effectiveness, financing and management, to enable assumption of decentralized functions. Environmental Assessment Category C.	Consultant services will be required for project preparation.	Project preparation under way.
To be determined	75.0 (Bank)	<b>Farm Restructuring and Development</b> - Project seeks to identify and introduce reforms and investments for developing agriculture based on best technical, financial, economic and environmental issues. Environmental Assessment Category B.	Consulting services will be required.	Project preparation under way.
To be determined	120.0 (Bank)	<b>(R) Structural Adjustment I</b> - Project seeks to help deepen the Government's structural reform program and complement stabilization efforts through the provision of balance of payments and technical assistance support. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project has been dropped from the lending program. Further reporting will be discontinued.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Uzbekistan</b>				
Goskomprognostat	75.0 (Bank)	<b>Rural Water Supply, Sanitation and Health -</b> Project will assist in rehabilitation and development of water supply and sanitation in the populated areas most affected by the aral-sea crisis, including improvements in related institutions and policies. Environmental Assessment Category B.	Need for consultants not yet determined.	Project preparation under way.
To be determined	150.0 (Bank)	<b>(R) Enterprise Reform -</b> Project is a policy adjustment loan to support implementation of an enterprise policy adjustment program. Environmental Assessment Category C.	To be determined.	Project preparation under way.

<b>IV. Latin America And Caribbean Region</b>				
<b>Argentina</b>				
Ministry of Economy	300.0 (Bank)	<b>(R) Provincial Pension Reform (AR-PA-44445)</b> - Project would support the transfer of the provincial pension funds to the National Social Security System. The transfer would help improve the provincial finances as well as the consolidated social security system. Environmental Assessment Category is C.	Need for consultants not yet determined.	Appraisal mission scheduled for June 24, 1996.
Secretaria de Recursos Naturales y Ambiente Humano (SRNyAH)	100.0 (Bank)	<b>Industrial Pollution Control (AR-PA-6050)</b> - The Project would strengthen regulatory framework and institutional capacities, as well as finance investments, to address selected pollution priorities in an integrated, sustainable manner. Pollution problems may include industrial contamination, coastal and urban pollution, and actions still to be selected by SRNyAH through participatory processes. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Identification/preparation under way.
Cabinet of Ministers	8.0 (Bank)	<b>National Airport System Technical Assistance (AR-PA-6061)</b> - The project would: (a) reduce the size of military service facilities through the restructuring and privatization of airports; and (b) establish a regulatory framework for the National Airport System (NAS). Environmental Assessment Category B.	Consultants selected for both technical strategy and regulatory framework. Merchant Bankers to be selected.	Board presentation scheduled for July 9, 1996.
Transport Secretariat (Ministry of Economy and Public Works)	150.0 (Bank)	<b>Buenos Aires Urban Transport (AR-PA-39584)</b> - Project will: (a) develop an integrated urban transport system for the Buenos Aires Metropolitan Area; (b) improve the service quality and coverage of mass transit; (c) help in shaping a regulatory and financial environment within which transport investments and services are provided by the private sector; and (d) contribute to the financial obligations which the Government has assumed under concession agreements with the private sector. Environmental Assessment Category B.	Consulting services will be required.	Appraisal mission scheduled for September 1996.
Secretaría de Recursos Naturales y Ambiente Humano (SRNyAH) and Administración de Parques Nacionales (APN)	18.0 (Bank)	<b>(R) Native Forests and Protected Areas (AR-PA-40808)</b> - The project would strengthen the policy, institutional and regulatory framework affecting native forest and protected areas. It would also carry out research and generate information, as well as invest in national parks. Environmental Assessment Category B.	Need for consultants not yet determined.	Negotiations tentatively scheduled for July 15, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Argentina</b>				
Ministry of Economy	16.0 (Bank)	<b>(R) Public Investment Strengthening (AR-PA-37049)</b> - The project aims to improve the efficiency of public expenditures through an increase in the cost-effectiveness of the public investment, through the development of methodologies for project evaluation, preparation, monitoring and impact measurement, training of agencies in their use, and the financing of a limited number of sectoral and project related studies. Environmental Assessment Category B.	Consultant services will be required.	Approved by Executive Directors on November 21, 1995. Loan signing expected in September 1996.
Ministry of Health	150.0 (Bank)	<b>Maternal and Child Health and Nutrition II (AR-PA-6059)</b> - The project is similar to the Maternal and Child Health and Nutrition I, but will cover other provinces. The project will have three overall objectives: (a) strengthening maternal and child health services; (b) improving the management of public health institutions involved in the delivery of these services; and (c) strengthening health institutions involved in the project to facilitate the process of decentralization of health services at the municipal and provincial levels. Environmental Assessment Category C.	Consultant services will be sought for the following activities: (a) development of management tools; (b) diagnosis of management and service needs; (c) development of training programs in management; and (d) assessment of training needs.	Project identification under way.
Ministry of Culture and Education	116.0 (Bank)	<b>(R) Secondary Education II (AR-PA-6057)</b> - The project is aimed at supporting the decentralization of secondary education by facilitating the transfer of schools to the provinces, and delivering efficient and effective secondary education. Environmental Assessment Category C.	Consultant services in the areas of assessment of students, management information system, teacher training, and curriculum planning will be required for the preparation and implementation.	Approved by the Executive Directors on December 21, 1995. Loan signing tentatively scheduled for July 31, 1996.
Ministry of Interior	200.0 (Bank)	<b>(R) Flood Protection (AR-PA-6052)</b> - Implementation of a flood protection program in several provinces adjacent to the Parana, Paraguay, and Uruguay Rivers. Environmental Assessment Category A.	Consultants for preparation have been retained under Japanese grant financing.	Negotiations tentatively scheduled for June 24, 1996.
Secretariat of Agriculture, Livestock and Fisheries (SAGyP)	50.0 (Bank)	<b>Small Farm Development (AR-PA-6041)</b> - Project would strengthen small farmers' organizations and finance participatory community development initiatives. Environmental Assessment Category: To Be Determined.	Consultant services will be required for preparation.	Preparation under way. Japanese grant signed in January 1995 and became effective in April 1995.
Ministry of Interior	300.0 (Bank)	<b>(R) Provincial Roads (AR-PA-5980)</b> - Project will help strengthen provincial government's road maintenance planning and management capabilities, and finance provincial road rehabilitation and periodic maintenance and, where appropriate, high priority upgrading and new construction programs. Environmental Assessment Category B.	Consultant services will be required for engineering, Environmental Assessments, work supervision, technical assistance and training.	Board presentation tentatively scheduled for July 18, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Argentina</b>				
Secretariat of Agriculture, Livestock and Fisheries (SAGyP)	16.0 (Bank)	<b>(R) Forestry Development (AR-PA-6040)</b> - Project seeks to focus the role of government on its core activities in support of forest plantations and timber processing industries. It will strengthen the policy and regulatory framework, generate research data and information, and help alleviate rural poverty through the use of agroforestry. Environmental Assessment Category B.	Consultant services will be required for implementation.	Approved by the Executive Directors on October 24, 1995. Loan was signed on June 6, 1996.
Ministry of Economy Secretariat of Agriculture, Livestock and Fisheries (SAGYP)	125.0 (Bank)	<b>(R) Provincial Agriculture Development I (AR-PA-6010)</b> - Project will strengthen provincial capacity in agriculture sector planning, and investment appraisal and evaluation. Key components would be: (a) institutional development; (b) technical assistance; (c) complementary financing for small scale rural infrastructure; and (d) strengthening provincial support services. Environmental Assessment Category A.	Consultant services will be required for implementation.	Negotiations planned for July 1996.  Japanese Grant has been almost fully disbursed.
Secretariat of Natural Resources and Human Environment	10.0 (GEF)	<b>Biodiversity Conservation (AR-GE-39787)</b> - Project will include strengthening of policy, legal and regulatory frameworks; research and information generation and dissemination, including research on Chaco; and strengthening of protected area system. Environmental Assessment Category B.	Need for consultants not yet determined.	Project under preparation.
<b>Belize</b>				
To be determined	12.5 (Bank)	<b>(R) Public Sector Modernization TA (formerly Public Sector Modernization and Private Sector Development Sectoral Adjustment) (BZ-PA-43875)</b> - The project will support a medium-term program of public expenditure reform, as well as a medium-term program of public sector and tax reforms and a medium-term program to complete measures to improve the environment for private sector development. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project preparation under way.
Social Investment Fund (SIF)	7.0 (Bank)	<b>Belize Social Investment Fund</b> - The project would assist the Government in: establishing an efficient, demand driven, participatory mechanism for channeling resources to social assistance, basic infrastructure and small-scale productive activities through the financing of sub-projects. The project would also finance institutional support for the SIF, including personnel, operating expenses, vehicles equipment, technical assistance and training. Environmental Assessment Category B.	Consultants are being contracted as needed in the development of various aspects of the Fund.	Project preparation under way.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Belize</b>				
Ministry of Education	8.0 (Bank)	<b>Secondary Education</b> - The project would: (a) support the Ministry of Education's developing and implementing a secondary school reform that would increase access to and the quality of education through improved teacher training, modification to secondary school curriculum including a more relevant general technical education curriculum; (b) assist the Government in developing procedures to effectively implement and monitor new education sector financing mechanisms; and (c) assist the Government in the design of appropriate policies and levels of budget support for continuity of key programs in primary and secondary education. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Project preparation under way.
<b>Bolivia</b>				
To be determined	20.0 (IDA)	<b>Agricultural Research and Extension</b> - To strengthen the agricultural knowledge system with the objective of increasing the productivity of agriculture by generating and extending technologies that are economically and environmentally sustainable. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.
Servicio Nacional de Caminos	50.0 (IDA)	<b>Road Maintenance III</b> - The project will contribute to SNC's maintenance and rehabilitation plan for 1998-2002, and will seek to: (a) reduce vehicle operating costs; (b) improve access to markets and encouraging trade, and (c) strengthen road institutions. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Identification mission is scheduled for July 15, 1997.
National Secretariat of Education and Social Investment Fund	45.0 (IDA)	<b>Primary Education</b> - The project would support: (a) a plan to rationalize and expand infrastructure at the primary level in peri-urban and rural areas; (b) relocation of existing schools (many of which are dangerously deteriorated) where necessary, to areas undergoing rapid population growth; and (c) equipment purchases. Additional components may be identified in the course of implementation of the Education Reform Project. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project preparation under way.
Ministry of Finance	20.0 (IDA)	<b>Bolivia Civil Service Reform</b> - To create a modern civil service for Bolivia by upgrading salaries, downsizing through attrition and job grading, and upgrading recruitment and training policies. Environmental Assessment Category C.	Consultants in the field preparing organizational studies.	Project preparation under way.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Brazil</b>				
Secretariat of Planning	150.0 (Bank)	<b>(R) Rio Grande do Sul State Reform (BR-PA-39196)</b> - The loan would support sector adjustment reform for the State of Rio Grande do Sul. Environmental Assessment Category is B	Need for consultants not yet determined.	Appraisal mission tentatively scheduled for mid-July 1996.
Health Secretariat of Minas Gerais	75.0 (Bank)	<b>Minas Gerais Health Sector (PROSUS) (BR-PA-6554)</b> - The project would: (a) increase coverage, equity, quality, and client satisfaction through strengthening of inter-municipal consortiums, creation of a health family program, and the strengthening of emergency care programs; and (b) improve the Unified Health System (SUS). Environmental Assessment Category C.	Need for consultants not yet determined.	Appraisal mission scheduled for September 16, 1996.
Rede Ferroviaria Federal SA (RFFSA)	350 (Bank)	<b>(R) Federal Railway Restructuring and Privatization (BR-PA-40028)</b> - The project will assist the Government in restructuring and privatizing federal railways (RFFSA) including regulatory reform, emergency rehabilitation of essential assets, retraining, retrenchment and redeployment of railway staff. Environment Assessment Category B.	Consultant services will be needed for real estate, staff retraining and outplacement, and project management.	Board presentation scheduled for June 20, 1996.
Secretariat of Planning	300.0 (Bank)	<b>(R) Rio de Janeiro State Reform (BR-PA-39197)</b> - Project will support reform of the State of Rio de Janeiro. Environmental Assessment Category B.	To be determined.	Appraisal report under preparation.
Getulio Vargas Foundation	20.0 (GEF)	<b>(R) Biodiversity Fund (BR-GE-44597)</b> - Project would support model sub-projects to test partnerships between public and private sectors. The Fund would create a financing mechanism to secure long-term funding for biodiversity activities. Environmental Assessment Category B.	Consulting services will be required.	Approved by the Executive Directors on April 16, 1996. Grant agreement was signed on June 5, 1996.
Secretaria de Planejamento (SEPLAN)	60.0 (Bank)	<b>Pernambuco Rural Poverty Alleviation (BR-PA-42566)</b> - The project will assist the State of Pernambuco in alleviating rural poverty and its consequences by financing small-scale investments selected and subsequently operated and maintained by the beneficiaries. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project preparation under way.
To be determined	175.0 (Bank)	<b>(R) Rural Poverty and Natural Resource Management (Parana) (BR-PA-37828)</b> - The project would focus on alleviating rural poverty caused by deterioration in social production conditions resulting mainly from the implementation of sectoral and trade adjustment initiatives, and would also promote natural resource management in the State of Parana. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Board presentation scheduled for June 27, 1996.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
To be determined	Up to 55.0 (Bank)	<b>Bahia Water Resources (BR-PA-35728)</b> Project will focus on development of a state master plan for: (a) integrated water resources management; (b) institutional strengthening; (c) revision of the legal and regulatory framework for water resources management; (d) a hydrologic monitoring and data base system; (e) implementation of the State's construction of flow regulating structures; and (f) river flow stabilization. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project preparation under way.
To be determined	100.0 (Bank)	<b>Rio Grande do Sul Poverty Alleviation and Natural Resources Management (BR-PA-43868)</b> Project would focus on alleviating rural poverty caused by deterioration in social and production conditions resulting mainly from the implementation of sectoral and trade adjustment initiatives, and would also promote natural resources management in Rio Grande do Sul. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project preparation under way.
Secretaria de Trabalho e Ação Social (SETAS)	30.0 (Bank)	<b>Rio Grande do Norte Rural Poverty Alleviation (BR-PA-38896)</b> - The project will assist the State of Rio Grande do Norte in alleviating rural poverty and its consequences by financing small-scale investments selected and subsequently operated and maintained by the beneficiaries. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project preparation under way.
Superintendencia de Desenvolvimento do Norte (SUDENOR)	60.0 (Bank)	<b>Minas Gerais Rural Poverty Alleviation (BR-PA-42565)</b> - The project will assist the State of Minas Gerais in alleviating rural poverty and its consequences by financing small-scale investments selected and subsequently operated and maintained by the beneficiaries. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.
To be determined	100.0 (Bank)	<b>(R) Minas Gerais State Reform (BR-PA-40033)</b> - The project would include reforming the state's fiscal and financial accounts, and institutional development. Environmental Assessment Category C.	Consultants will be required for technical studies in the water and sewerage, and pension sectors. TORs for these studies have been prepared.	Pre-appraisal mission in the field.
Companhia de Desenvolvimento e Ação Regional (CAR)	100.0 (Bank)	<b>(R) Bahia Municipal Development (BR-PA-6562)</b> - The project will strengthen municipal management and regional cooperation and invest in key basic infrastructure in the municipalities of the state. Environmental Assessment Category B.	Consultant services will be required.	Negotiations scheduled for July 1, 1996.
DAER - Departamento Autonomo de Estradas de Rodagem	75.0 (Bank)	<b>State Highway Management - Rio Grande do Sul (BR-PA-34578)</b> - Supports rehabilitation and maintenance of the state highway network and strengthen state and road maintenance capacities. Environmental Assessment Category B.	Consultant services will be required for engineering, construction supervision, and technical assistance.	Project preparation under way.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Secretary of Transport of Sao Paulo	435.0 (Bank)	<b>Sao Paulo Integrated Urban Transport (BR-PA-6559)</b> - Project will integrate the rail-based modes in the Sao Paulo Metropolitan region (including CBTU, FEPASA, and METRO) and the Sao Paulo Municipal bus system seeking a reduction of buses on the streets, reduction in travel times, and improvements in the environment. Environmental Assessment Category B.	To be determined.	Negotiations on hold at Government's request.  (Cofinancing of about US\$435.0 million will be required.)
Departamento Nacional de Estradas de Rodagem (DNER)	300.0 (Bank)	<b>Federal Highway Decentralization (BR-PA-6532)</b> - Will support decentralization of highway administration and private sector involvement in highway construction, operation and maintenance. Would also help finance the federal highway rehabilitation and maintenance programs. Environmental Assessment Category B.	Consultant services will be required for engineering and work supervision, concessions, institutional strengthening, and project management.	Date of negotiations to be determined.
Secretaria de Agricultura, Pecuaria e Desenvolvimento Agrario do Estado de Mato Grosso do Sul (SECAP-MS)	28.0 (Bank)	<b>Mato Grosso do Sul Management and Conservation of Natural Resources</b> - Project seeks to improve natural resource management in the higher Paraguay (Pantanal) and Parana watersheds, while generating sustainable productivity gains through an integrated approach of improved soil, water and forest conservation practices planned and implemented in about 350 micro-catchment areas of the State of Mato Grosso do Sul. Environmental Assessment Category C.	Local consultant services will be required for about 12 months for training and 40 months to assist the government in the preparation of environment systems.	Negotiations postponed. Awaiting confirmation from Federal government on new date for negotiations.
Ministry of Health	300.0 (Bank)	<b>(R) Health Sector Reform (BR-PA-6554)</b> The project's main objectives are to: (a) introduce policy reforms which would improve the financial viability, efficiency and management of the Unified Health System-SUS, and (b) expand and improve the delivery of care under the SUS, which is the sole source of care for the poor. Environmental Assessment Category B.	To be determined.	Board presentation scheduled for June 20, 1996.
Ministry of Agriculture, National Irrigation Secretariat	Up to 150.0 (Bank)	<b>Water Resource Management Northeast (BR-PA-6449)</b> - Private irrigation (follow-up to Irrigation Subsector I) in Northeast. Environmental Assessment Category B.	To be determined.	Project preparation on hold pending Government's assignment of priority to project.
Ministry of Environment and Legal Amazon	10.0 (GEF)	<b>(R) National Biodiversity (BR-GF-6210)</b> - The project would help the Government carry out workshops to identify priority actions, develop a biodiversity network, and support dissemination activities for the conservation and sustainable use of biodiversity. Environmental Assessment Category B.	Consulting services will be required.	Approved by the Executive Directors on April 16, 1996. Grant agreement signed on June 5, 1996.
Ministry of Science and Technology, Companhia Hidroelectrica do Sao Francisco	23.0 (Bank) 23.0 (GEF)	<b>(R) Pilot Biomass Power (BR-PA-6211)</b> - Project will include commercial scale demonstration technology for co-generation of electricity based on the gasification of wood chips or sugar cane bagasse. Environmental Assessment Category B.	Need for consultants not yet determined.	Project feasibility study is well advanced under GEF/UNDP technical assistance project funding. Appraisal mission scheduled for May 1997.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Caribbean Region</b>				
To be determined	12.5 (Bank) 7.5 (IDA)	<b>(R) OECS Sewerage (6O-PA-39025)</b> - Project seeks to assist eligible OECS member states to address key deficiencies in the existing wastewater sector. The project would also assist with the establishment of an appropriate institutional framework for the system, and identify cost recovery mechanisms to achieve long-term sustainability of the project. Environmental Assessment Category B.	Need for consultants not yet determined.	Project preparation under way.
Caribbean Development Bank	20.0 (Bank)/ (IDA)	<b>Caribbean Region Disaster Reinsurance Program</b> - Technical assistance for regulatory reform and institutional development in the areas of insurance industry regulation, building code enforcement, and natural hazard mapping, coupled with contingent funding to ensure liquidity of natural catastrophe insurance or reinsurance funds to mitigate losses and reduce fiscal impact of reinsurance premium fluctuations. Environmental Assessment Category C.	Mostly consulting technical assistance services. Insurance regulatory reform, hazard mitigation techniques, and financial management of reinsurance pools.	Project preparation under way.
To be determined	8.0 (Bank) 6.0 (IDA)	<b>OECS Export Diversification</b> - Project will support the OECS Governments in setting up the institutions to reduce the costs of entrepreneurs associated with breaking into foreign markets. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.
Organization of American States, CARICOM Governments	6.5 (GEF)	<b>Planning For Adaptation To Climate Change</b> - Project seeks to support Caribbean countries in preparing to cope with the adverse effects of impeding global climate change (GCC) in coastal and marine areas, primarily through vulnerability/risk assessment, adaptation planning and capacity building. Environmental Assessment Category C.	Need for consultants not yet determined.	Project is being prepared. The Bank is overseeing preparation as implementing agency under the GEF.
<b>Chile</b>				
Ministry of Agriculture	15.0 (Bank)	<b>Secano Agricultural Development I (CL-PA-6676)</b> - Support to the ministry's efforts for rural poverty alleviation and resource management in the Secano area. Environmental Assessment Category B.	Need for consultants not yet determined.	Approved by the Executive Directors on January 16, 1996. Signing date not yet determined.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Colombia</b>				
Secretaria de Educacion de Pasto	15.0 (Bank)	<b>(N) Pasto Education Quality Improvement (CO-PA-46112)</b> - The project would: (a) establish school networks to improve communication and sharing of resources among schools and stakeholders; (b) improve minimum levels of quality of education settings, teacher training and curriculum; and (c) support change management efforts in the Municipal Secretaria of Education and the schools. Environmental Assessment Category C.	Need for consultants not yet determined.	Pre-appraisal mission scheduled for October 1996.
Instituto Nacional de Vias (INVIAS)	60.0 (Bank)	<b>El Vino-Tobiagrande-Pto. Salgar Toll Road (CO-PA-39082)</b> - Project supports construction of a 74 km two-lane road and rehabilitation of an existing 4.0 km road segment, under a private concession arrangement. Environmental Assessment Category A.	Consultants have already been hired.	Project preparation under way.
Municipality of Cartagena in Partnership w/ Aguas de Barcelona	50.0 (Bank)	<b>Cartagena Water and Sewerage (CO-PA-44140)</b> - Project will focus on water supply and wastewater treatment works including: (a) rehabilitation of deteriorated water supply system; (b) development of an additional water supply source; (c) expansion of sewerage networks and main collectors; (d) construction of municipal wastewater treatment and disposal installations; and (e) technical assistance and partial fund of industrial wastewater treatment facilities. Environmental Assessment Category A.	Need for consultants not yet determined.	Project preparation under way.
Ministry of Agriculture and INCORA	200.0 (Bank)	<b>Land Reform</b> - Project will facilitate transfer of land to the rural poor with restructuring of land reform agency complementary infrastructure and measures of policy reform. Environmental Assessment Category B.	Consulting services will be required for social assessment of studies on farm size/efficiency relationships and cost benefit analysis.	Project preparation under way.
To be determined	200.0 (Bank)	<b>Power Distribution</b> - Project will support power sector electricity. The project will be a key component of the comprehensive power reform by promoting private sector participation in the distribution of sector restructuring that is being put in place through institutional reforms which were designed with Bank assistance. Will also support: (a) contracting out management of selected utilities; (b) rehabilitating and expanding the distribution infrastructure of the selected companies; and (c) converting companies to stock-owned corporations with the objective of attracting private investment. Environmental Assessment Category A.	Need for consultants not yet determined.	Project in identification stage. Preliminary conversations held with Government officials and distribution utilities to identify clear objectives and options.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministry of Health	50.0 (Bank)	<b>(R) Municipal Health II</b> - This proposed operation would expand coverage of primary care services in low-income municipalities, as well as strengthen the managerial and operational capacity of local institutions. Colombian Institute of Family Welfare (ICBF) and Vice Ministry of Youth, Ministry of Education	55.0 (Bank)	<b>(R) Child Development II (formerly Child/Youth Development II)</b> - Project will strengthen and consolidate the Government's home-based child care program and support selective youth programs with a view towards improving quality and efficiency. Environmental Assessment Category: To Be Determined.	Consulting services will be required in early childhood and youth development.	Project preparation under way.
Ministry of Finance and Public Credit/National Department of Planning	300.0 (Bank)	<b>Private Sector Infrastructure Finance</b> - Project seeks to support the development of new instruments and markets to facilitate infrastructure project finance and to aid in technical assistance for regulatory reforms. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.
Financiera de Desarrollo Territorial S.A. FINDETER	75.0 (Bank)	<b>Municipal Development II</b> - Project will deepen the sector reforms introduced under the first sector operation and finance a timeslice of sector investments for municipal infrastructure. Environmental Assessment Category B.	Need for consultants not yet determined.	Ongoing discussions with FINDETER on terms of reference and preparation work under way.
Government of Antioquia	40.0 (Bank)	<b>(R) Antioquia Education Quality Improvement (CO-PA-6891) (formerly Primary Education Quality Improvement)</b> - This project would: (a) increase access to basic education with support of NGOs and PUOs; (b) improve the quality of education settings, human resources and pedagogical models; and (c) support change management initiatives in the education sector. Environmental Assessment Category C.	Need for consultants not yet determined.	Pre-appraisal mission scheduled for October 1996.
To be determined	45.0 (Bank)	<b>(R) Technology Skills and Development</b> - To correct existing shortcomings in the technology transfer policies and evaluations, and develop institutional mechanisms to strengthen technology development and adaptation activities by the private sector. Environmental Assessment Category C.	Need for consultants not yet determined.	Pre-appraisal mission scheduled for end June 1996.
Ministry of Finance	15.0 (Bank)	<b>Financial Markets Development</b> - To support sector reforms to improve the structure, efficiency and competitiveness of the financial system, and to remove the existing constraints to capital markets development. Environmental Assessment Category C.	Need for consultants not yet determined.	Awaiting Government reaction to complete appraisal.
Bogota District Government	65.0 (Bank)	<b>(R) Urban Transport</b> - Improve transport conditions in Bogota, promote more efficient use of existing infra-structure, and strengthen the institutions in charge of planning, managing and maintaining the city's transport infrastructure. Environmental Assessment Category B.	Consultants will be required for supervision and technical assistance.	Approved by the Executive Directors on May 23, 1996. Signing expected by end June 1996. <u>Retroactive financing of up to US\$3.0 million will be provided.</u>

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Costa Rica</b>				
National Biodiversity Institute (INBio)	7.0 (GEF)	<b>Biodiversity Resource Development</b> - Project objectives are to: (a) support the development of a framework for undertaking a biodiversity inventory; (b) complete an inventory of at least five taxa; (c) develop human capacity in systematic biology; (d) develop revenue and non-revenue generating activities related to the inventory; and (e) strengthen the institutional capacity at INBio. Environmental Assessment Category B.	Need for consultants not yet determined.	Submission to GEF Council expected October 1996.
Ministry of Energy, Mines and Natural Resources	15.0 (Bank)	<b>(R) Conservation Area Management</b> - Communication and extension support for natural forest management and plantation activities. Will also include: (a) support to protective area system; (b) development fund for conservation activities; and (c) research into forest management and non-traditional wood products. Environmental Assessment Category B.	Consultants being contracted directly by MIRENEM (Ministry of Energy, Mines and Natural Resources) through Government task force.	Government considering convenience of proceeding to negotiations.  (Japanese Grant Facility has been signed and became effective August 10, 1994.)  <u>Retroactive financing of up to US\$1.5 million is included.</u>
<b>Dominica</b>				
Ministry of Education	3.07 (IDA) 3.07 (Bank)	<b>Basic Education Reform (DM-PA-6969)</b> - The project aims to improve the effectiveness and efficiency of basic education, as well as to enhance the equity of access to educational opportunities. The project includes: (a) a strengthening management and planning component; (b) a qualitative improvement of basic education component; and (c) an expansion and conservation of school places component. Environmental Assessment Category C.	Consulting services will be required for implementation.	Approved by the Executive Directors on December 21, 1995.  A PHRD Grant was approved on May 17, 1995.  <u>Retroactive financing of US\$0.61 million is expected.</u>
<b>Dominican Republic</b>				
Secretaria de Estado de Salud Publica y Asistencia Social	30.0 (Bank)	<b>Health Services and Financing (DO-PA-7015)</b> - Project would assist the Government in carrying out sector reforms to improve health service coverage and effectiveness. It would strengthen the Health Secretariat's (SESPAS) capacity to oversee health service delivery, improve health care finance arrangements, develop institutional capacity to formulate health policy and to regulate the sector, and foster innovative arrangements for delivering basic health services. Environment Assessment Category C.	Consulting services expected to be required in institutional development, accreditation, health care finance, managed care, health sector regulation, health information systems and technology assessment.	Project identification under way.  Japan PHRD Grant agreement signed September 28, 1995.
Secretariat for Education, Fine Arts and Culture	37.0 (Bank)	<b>Basic Education</b> - Project is a follow-up to the Primary Education Development Project seeking to further strengthen basic education and its management. Environmental Assessment Category C.	Consultant services will be required.	Approved by the Executive Directors on November 7, 1995. Signing tentatively scheduled for September 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Dominican Republic</b>				
Secretaria de Estado de Obras Publicas y Comunicaciones (SEOPC)	55.0 (Bank)	<b>National Highways</b> - The project finances the highway investment program of the SEOPC for 1997-2000 and a program for institutional strengthening. The investment program includes: (a) highway widening to four lanes (28 km); (b) highway rehabilitation (169 km); (c) bridge construction (four bridges); (d) pilot programs for highway resurfacing and maintenance by contract; and (e) road signalization, acquisition of goods and technical assistance. Environmental Assessment Category B.	Consulting services will be required in institutional strengthening, highway planning, and feasibility studies.	Appraisal completed. Negotiation scheduled for mid-September 1996.
Corporacion Dominicana de Electricidad (CDE)	70.0 (Bank)	<b>Power II</b> - The project includes: (a) technical assistance to the Government and CDE for: (i) incorporation of its generation and transmission facilities, (ii) privatization of CDE's distribution systems, (iii) strengthening of the policy and regulatory institutions of the sector, and (iv) addressing the environmental problems caused by existing power stations; (b) expansion of the transmission system and professional services for the management of the new transmission company and the dispatch center; and (c) installation and operation of generating units totalling 250 MW, by independent power producers (IPP). A bank guarantee would be applied to private financing of plant. The physical components are part of a least-cost generation and transmission expansion plan prepared by CDE's consultants. Environmental Assessment Category A.	Consultants will be required to assist CDE in the privatization of its distribution system.	Negotiations have been postponed until November 1996. Congressional approval of the Electricity Law is expected this year. <u>Retroactive financing will likely be included.</u>
<b>Ecuador</b>				
To be determined	40.0 (Bank)	<b>(R) Guayaquil Water III (EC-PA-44140)</b> - The project will support the institutional consolidation of Empresa Cantonal de Agua Potable y Alcantarillado de Guayaquil (ECAPAG) and of concession process rehabilitation of critical water and sewerage network. Will also include extension of water and sewerage networks to low income neighborhoods. Environmental Assessment Category B.	Consultants will be required to assist ECAPAG in the privatization of water and sewerage services and to determine investment plans (feasibility studies)	Project has slipped from the current lending program. Further reporting will be discontinued.
To be determined	50.0 (IDA)	<b>Export Development</b> - The project would seek to help accelerate investment in export capacity through: (a) expanding the public sector expertise to manage trade policy and administration and adjusting trade regulation and practices; (b) supporting increased export market penetration; and (c) expanding export finance. Environmental Assessment Category C.	Need for consultants not yet determined.	Pre-appraisal mission scheduled for late June 1996.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Ecuador</b>				
Fondo de Inversion Social de Emergencia (FISE)	50.0 (Bank)	<b>(R) Second Phase of the Social Fund</b> - Project would consist of: (a) support for sub-projects approved by FISE in the areas of social infrastructure, socio-economic infrastructure, social services, institutional development and productive community investments; (b) institutional support for FISE, including personnel and other operating expenses, equipment and technical assistance and training. Environmental Assessment Category B.	Need for consultants not yet determined.	Project has slipped from current lending program. Further reporting will be discontinued.
Ministry of Health	30.0 (Bank)	<b>Health Sector Reform</b> - Project will have three components: (a) institutional modernization and reform; (b) strengthening hospital management; and (c) upgrading of hospital facilities, including the financing of rehabilitation and upgrading of selected hospitals and human resources development based on the establishment of a demand-driven fund. Environmental Assessment Category C.	Consulting firms have been identified and hired.	Project preparation under way.
Environmental Advisory Commission (CAAM)	15.0 (Bank)	<b>Environment Management Technical Assistance</b> - Project objectives are to: (a) support the ongoing process of implementing a national environmental strategy; and (b) assist the Government in building an environmental management capacity in three priority geographic areas identified in the National Environment Action Plan (NEAP): urban areas, Gulf of Guayaquil, and the Amazon. Environmental Assessment Category B.	Consulting services will be required by the implementing agency (CAAM).	Approved by the Executive Directors on April 4, 1996. Signing not yet scheduled.
Supreme Court	10.0 (Bank)	<b>Judicial Reform</b> - Project objective is to increase the efficiency and effectiveness of the judicial system, to strengthen the institutional capacity of the judiciary, in order to assure access by the public to the judiciary and assure swift and fair resolution of cases. Ministry of Agriculture	21.0 (Bank)	<b>Agricultural Research</b> - Strengthening of agricultural research, extension, animal health and plant protection services. Environmental Assessment Category B.	Consulting services will be required.	Board presentation tentatively scheduled for July 11, 1996.
Ministry of Agriculture	16.0 (Bank)	<b>Agricultural Census and Information System</b> - Improvement of database for sectoral decision-making and planning. Environmental Assessment Category B.	Consulting services will be required.	Appraisal report under preparation.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>El Salvador</b>				
Ministry of Health/Social Security Institute (MSPAS/ISSS)	30.0 (Bank)	<b>Health Sector Reform</b> - Project will address institutional modernization reform of health care delivery and Finance and Infrastructure Rehabilitation Fund. Environmental Assessment Category C.	Consulting services will be required.	Project preparation under way.
To be determined	25.0 (Bank)	<b>(R) Public Sector Modernization</b> - Project is carried out jointly with the IDB. It seeks to: (a) improve organization and management capacities in central government agencies; (b) restructure and privatize public enterprises as well as improve private sector participation in public service delivery; and (c) establish integrated financial management. Environmental Assessment Category C.	Consulting services will be required.	Negotiations tentatively scheduled for June 24, 1996.
Ministry of Justice	50.0 (Bank)	<b>Land Administration</b> - Project to include: (a) land data acquisition to: (i) acquire and establish a parcel-based database, (ii) carry out the regularization of legal definition of ownership rights, and integrate physical and legal information into single parcel-based records; and (iii) establish land-related alternate conflict resolution mechanisms; (b) registry decentralization and strengthening to: (i) carry out institutional strengthening of the National Registry Center, and (ii) modernize the regional cadastral registries and install registry information stations in key municipalities, and (c) project administration to manage: (i) implementation, (ii) auditing, and (iii) monitoring and evaluation. Environmental Assessment Category C.	Consulting services will be required.	Approved by the Executive Directors on March 5, 1996.
MIPLAN/CEL	65.0 (Bank)	<b>Energy Sector Modernization</b> - Support for the modernization of the power sector including technical assistance for implementing sectoral programs and studies and investment in the modernization of generation, transmission, and distribution systems. Environmental Assessment Category B.	Consulting services will be required for technical assistance and training.	Approved by the Executive Directors on July 6, 1995. Amendment to convert the loan to a single currency loan was approved by the Executive Directors on February 1, 1996. <u>Retroactive financing of up to US\$6.0 million is included.</u>
<b>Grenada</b>				
Ministry of Education	3.83 (IDA) 3.83 (Bank)	<b>Basic Education Reform (GD-PA-43923)</b> - The project aims to improve the effectiveness and efficiency of basic education, as well as to enhance the equity of access to educational opportunities. The project includes: (a) a strengthening management and planning component; (b) a qualitative improvement of basic education component; and (c) an expansion and conservation of school places component. Environmental Assessment Category C.	Consulting services will be required for implementation.	Approved by the Executive Directors on December 21, 1995. <u>Retroactive financing of up to US\$0.76 million equivalent is expected.</u>

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Guatemala</b>				
Minister of Communications, Transport and Public Works (MCTOP)	35.0 (Bank)	<b>(N) Rural and Main Roads (GT-PA-35737) -</b> The project would support the Government's plan to improve road transport access in the poorer areas of the country to stimulate economic activity, improve commercialization of non-traditional agricultural products, and provide greater access to social services. Environmental Assessment: To Be Determined.	Consulting services will be required for project preparation. Funds from a Japanese Grant will be used to finance the above consulting services.	Project identification under way.
Instituto de Fomento Municipal (INFOM)	20.0 (Bank)	<b>(R) Decentralized Municipal Environmental Services -</b> The project includes two components: (a) institutional strengthening of central and local government institutions involved in environmental protection; and (b) financing of priority environmental infrastructure investments for eligible municipalities. Environmental Assessment Category B.	Consulting services will be required. Funds from Japanese Grant will be used for willingness to pay survey municipal capacity assessment, institutional capacity assessment and pilot activities on participatory planning.	Project preparation under way..
Ministry of Education (MOE)	25.0 (Bank)	<b>(R) Basic Education III -</b> The project includes three components: (a) quality and equity improvements, through the provision of textbooks and educational materials, in-service teacher training, bilingual education training, and girls' education; (b) strengthening management of MOE at the central level and decentralization and strengthening of administration at the regional and departmental level; and (c) infrastructure improvement through the rehabilitation, construction and equipment of schools on a targeted basis. Environmental Assessment Category C.	Consulting services will be required.	Pre-appraisal mission in the field.
Ministry of Agriculture, Livestock and Food(MAGA), National Peace Fund (FONAPAZ)	40.0 (Bank)	<b>(R) Agricultural Services -</b> The project would: (a) support a limited number of agricultural research and extension activities; (b) provide small grants to rural communities for productive subprojects; and (c) finance a rural legal training and assistance program. Environmental Assessment Category B.	Consulting services will be required.	Project preparation under way.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Guyana</b>				
Ministry of Finance	13.0 (IDA)	<b>Public Sector Management II (GY-PA-35734)</b> - The project would be a combined adjustment and technical assistance operation designed to implement a public sector regulatory framework conducive to competitive development of the domestic and external business sectors, while supporting such activity through the provision of reliable public service including utilities, infrastructure, sea defenses, shipping facilities, and effective public sector administrative/financial operations. The project would follow-up on some of the private sector reforms begun under the PSDAC and FISBEC credits, and would emphasize the facilitating role of public regulatory bodies for business investment, as well as modernization of public sector institutions. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.
Office of the President	7.5 (GEF)	<b>National Protected Area System</b> - Project would enable the Government to establish a national system of protected areas which would conserve globally important biological diversity as an essential step towards the sustainable management of the country's natural resources, and the maintenance of access to international markets for these resources. Environmental Assessment Category B.	Need for consultants not yet determined.	Project preparation under way.
Ministry of Health	8.0 (IDA)	<b>Primary Health Services Development</b> - The project would support the Government's effort to implement critical policy, institutional and operational reforms which aim at improving the efficiency, effectiveness and quality of health services. Environmental Assessment Category: To Be Determined.	Consultants will be used on project preparation, pre-investment studies in communicable disease prevention and control, and health manpower planning and in health finance.	Project identification/ preparation under way.
Government of Guyana - EPA	5.0 (IDA)	<b>E. M. P.</b> - Project will assist the Government in establishing the Environmental Protection Agency (EPA), responsible for policy, regulation and management of the environment. Environmental Assessment Category B.	Consultants have been selected and most technical preparations completed.	Project preparation under way.  (Cofinancing in the amount of US\$5.0 million is expected from IDB.)
Ministry of Public Works, Communication and Regional Development	15.0 (IDA)	<b>Secondary Towns Infrastructure Development</b> - Project supports: (a) policy reform support; (b) development of urban and rural infrastructure facilities and inter-urban roads in the project area; and (c) strengthening of the institutional, managerial, financial and technical capabilities of the concerned towns to operate and maintain these facilities effectively. Environmental Assessment Category A.	Consultants have been selected and are preparing studies in the areas of urban development, transportation, and environment.	Project preparation under way.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Guyana</b>				
Ministry of Education and Cultural Development	17.3 (IDA)	<b>(R) Secondary Education</b> - Project is aimed at strengthening the capacity of the Ministry of Education and improving the delivery of educational services at the lower secondary level through curriculum reform, teacher training and rehabilitation/construction of schools. Environmental Assessment Category C.	Consulting services will be required for curriculum development and implementation, management training, and school infrastructure rehabilitation.	Approved by the Executive Directors on June 11, 1996. A PPF of US\$500,000, signed on June 9, 1994, is to provide financing.
<b>Haiti</b>				
Ministry of Agriculture	25.0 (IDA)	<b>(R) Forestry and Parks Protection</b> - Project is to improve conservation of protected areas, of support services for rural population living in Park Buffer areas, including a pilot productive activities fund. Environmental Assessment Category B.	Consulting services not yet determined.	Negotiations tentatively scheduled for end June 1996.
Ministry of Finance and Prime Minister's Office	15.0 (IDA)	<b>(R) Technical Assistance (TAC)</b> - The TAC aims to strengthen the Government's capacity to implement policy reforms proposed under the SAC II in the areas of public finance, privatization and public sector modernization. Environmental Assessment Category B.	Consulting services will be required.	Negotiations tentatively scheduled for end June 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Honduras</b>				
Presidential Commission for Modernization of the State	50.0 (IDA)	<b>(R) Water and Sanitation SECAC</b> - Project seeks to improve sector efficiency through: (a) strengthening sector planning and financial policy; (b) clarifying the responsibilities of key sectoral agencies, assuring that policy, planning, and regulatory functions are separated from operational functions; (c) establishing a sound regulatory framework; (d) decentralizing service provision; (e) encouraging private sector participation; and (f) increasing operating efficiency. Will also establish financial autonomy and strengthen financial performance by establishing: (a) a tariff policy that links tariffs to long-run marginal cost, covering operations and maintenance initially and gradually moving to full cost recovery; (b) a clear and transparent subsidy regime; and (c) criteria for evaluating sector investment proposals. Total project cost is US\$85.0 million. Environmental Assessment Category C.	Consultants will be required for the technical assistance loan to accompany the SECAC. Funds from Japanese Grant are being used for willingness to pay study, municipal capacity assessment, regulatory framework, contracting of Tegucigalpa's water and waste water services, and other project preparation studies.	Loan is being redesigned to support a smaller technical assistance operation. Pre-appraisal mission scheduled for June 26, 1996.  (Parallel financing in the amount of US\$35.0 million to be provided by IDB.)
<b>Jamaica</b>				
To be determined	30.0 (Bank)	<b>Micro Business</b> - The project is expected to provide particular focus on expanding service exports via an increase in: (a) the non-financial export services needed to start and expand small business; (b) technical and management skills needed for successful entrepreneurship, and (c) access to financing of micro businesses. Environmental Assessment Category: To Be Determined.	To be determined.	Project preparation under way.
Planning Institute of Jamaica	20.0 (Bank)	<b>Social Investment Fund</b> - The project was established as a social investment fund designed to channel resources to community-based social and economic infrastructure, social assistance and organizational strengthening projects sponsored by public, private or voluntary (formal or informal organizations). Interventions will be targeted to the poor. Environmental Assessment Category B.	Consulting services to be determined.	Appraisal mission in the field. Negotiations scheduled for end June 1996.
Student Loan Bureau	30.0 (Bank)	<b>(R) Student Loan</b> - The project supports the expansion of the student loan scheme. Environmental Assessment Category C.	Consultants being recruited.	Negotiations under way.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministry of Agriculture	25.0 (Bank)	<b>Agriculture Support Services/NRM</b> - This project aims to: (a) reduce rural poverty by raising the living standards of poor hillside farmers; and (b) improve NR management through: (i) enhancement of agricultural support services for small farmers; (ii) promotion of sustainable NR management techniques; and (iii) institutional strengthening of the Ministry of Agriculture and of rural communities. Environmental Assessment Category B.	Consultants being recruited.	Project preparation under way.
Ministry of Local Government and Works	48.0 (Bank)	<b>(R) Parish Infrastructure</b> - The project would concentrate in three major areas: (a) local government reforms; (b) institutional reforms to improve the capabilities of parish and local community entities to provide better services; and (c) restructuring, maintenance, rehabilitation and development of parish (urban/rural) infrastructure, including poverty alleviation, environmental protection and employment creation. Environmental Assessment Category B.	Consultants have prepared technical and institutional components of the project.	Appraisal completed. Negotiations tentatively scheduled for August 1996.
Ministry of Finance	28.0 (Bank)	<b>(R) Public Sector Modernization</b> - Project seeks to improve the function of central agencies, continue the rationalization of government, strengthen government procurement, contract and control systems, and enable the extension of the Financial Management Information System (FMIS) and Human Resources Management Information System (HRMIS). Environmental Assessment Category C.	Consulting services will be required.	Negotiations in progress.
Ministry of Finance, Development and Planning	50.0 (Bank)	<b>Regulatory Reform and Private Investment Finance Facility</b> - Further rationalization of the trade regime and public enterprise public sector expenditure; and continuation of regulatory reform and privatization. Environmental Assessment Category C.	Consulting services will be required.	Appraisal mission scheduled for late September 1996. A Japanese Grant Facility has been approved for this loan. <u>Retroactive financing of up to 20% of loan amount will be provided.</u>
Ministry of Local Government and Works	60.0 (Bank)	<b>Transport Sector</b> - Project components include: (a) institutional strengthening of, and technical assistance for Ministry of Public Utilities and Transport and Ministry of Local Government and Works; and (b) investment funds to improve strategic highway connections. Environmental Assessment Category B.	Consultants recently selected for the preparation of relevant feasibility studies.	Project preparation under way.
National Water Commission	20.0 (Bank)	<b>(R) Water Supply and Sewerage Privatization</b> - The project will include the rehabilitation of Kingston's water distribution system and in particular focus on NWC's commercial operations including comprehensive metering of all customers, and macro metering of the distribution system in Kingston. The project will also include the rehabilitation of the sewage treatment facilities and preparation of preliminary designs for the Kingston Harbor Water Pollution Control Scheme. Environmental Assessment Category B.	Consultants for final design and project supervision have been selected and are in the field.	Appraisal completed. Negotiations tentatively scheduled for September 13, 1996.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Mexico</b>				
To be determined	400.0 (Bank)	<b>(N) State Roads Pilot (MX-PA-7653)</b> - The project will provide assistance to improve roads planning and maintenance at local levels. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Identification under way.
Secretaria de Trabajo y Prevision Social (STPS)	250.0 (Bank)	<b>Second Labor Market (MX-PA-43305)</b> - Project aims to increase the productivity of the labor force and competitiveness of micro, small, medium-sized enterprises by expanding and strengthening the programs of training scholarship to unemployed workers and of technical assistance to enterprises for employee training design and provision. Environmental Assessment Category U.	Consulting services will be required.	Identification under way.
Secretariat of Finance and Public Credit (SHCP)	30.0 (Bank)	<b>(R) Rural Finance Markets Technical Assistance (MX-PA-7732)</b> - Project will finance technical assistance to the Secretariat of Finance and Public Credit and pilot experiments related to policy reform and financial technologies. Environmental Assessment Category B.	Need for consultants not yet determined.	Negotiations tentatively scheduled for end June 1996.
Secretaria de Comunicaciones y Transportes (SCT)	400.0 (Bank)	<b>(R) Federal Roads Modernization</b> - The project would: (a) assist with increasing the capacity and level of service of sections of the federal highway network; (b) strengthen SCT and selected state highways organizations; and (c) further support improvements on road safety, vehicle weight control, and environmental impact mitigation. Environmental Assessment Category B.	Consulting services will be required.	Negotiations completed. Board presentation tentatively scheduled for September 1996.
Secretaria de Hacienda y Credito Publico	400.0 (Bank)	<b>(R) Contractual Savings</b> - Project supports reforms in the social security and pension system to improve domestic savings mobilization and allocation. Environmental Assessment Category C.	Need for consultants not yet determined.	Negotiations tentatively scheduled for June 25, 1996.
To be determined	350.0 (Bank)	<b>Housing III</b> - This project would support institutional development in the housing sector, and the expansion of low-income housing. Environmental Assessment Category B.	Need for consultants not yet determined.	Project preparation under way.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Secretaria de Desarrollo Social (SEDESOL)- Secretaria de Salud (SS)	300.0 (Bank)	<b>Basic Health III</b> - Program, to be jointly financed with the IDB, will focus on the rationalization and reform of food distribution and nutrition programs, improving targeting, increasing efficiency and eliminating redundant programs. It will have four components: (a) rationalization and reform of food/nutrition programs targeted to the urban poor; (b) integrated nutrition program targeted to vulnerable groups (pregnant and lactating women, children under age five) in rural areas; (c) integrated primary and pre-school nutrition and health program, including snack, micro-nutrient supplementation and deworming targeted to the poorest areas of the country; (d) nutrition operations research; and (e) monitoring policy and institutional development. Environmental Assessment Category C.	Need for consultants not yet determined.	Identification under way. <u>Retroactive financing of up to US\$30.0 million is likely to be included.</u>
Secretaria de Agricultura, Ganaderia y Desarrollo Rural	150.0 (Bank)	<b>Sustainable Development</b> - The project is expected to augment the income of poor farmers located in three indigenously populated areas of the states of Oaxaca, Hidalgo, Veracruz, and San Luis Potosi by increasing the sustainable output of basic food crops, increasing the efficiency of producing and marketing traditional cash crops, diversifying crop production, increasing livestock production, and providing off-farm employment opportunities. The project would support extension and research efforts to conserve natural resources in the project area and finance on-farm investments to achieve this objective. It would provide institutional assistance for the strengthening of producer groups and organizations and to state agencies having responsibilities for agricultural and rural development. Environmental Assessment Category B.	Consulting services will be required.	Project preparation under way. Japanese grant agreement was signed on March 30, 1995. <u>Retroactive financing may be provided.</u>
Banco Nacional de Obras y Servicios Públicos (BANOBRAS)	30.0 (Bank)	<b>State and Municipal Management</b> - Project will support BANOBRAS in providing local governments with improvements for their financial management. Environmental Assessment Category C.	Consulting services may be required.	Appraisal report under preparation.
To be determined	200.0 (Bank)	<b>Industrial Pollution Control</b> - Project aims at: (a) improving industrial response to environmental regulations on industrial waste; (b) strengthening regulatory and non-regulatory compliance; and (c) helping industry convert to cleaner technologies. Environmental Assessment Category U.	Consulting services will be required.	Identification is under way.

Implementing Agency	Amount & Probrble Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Secretaria de Medio Ambiente (SMA)	36.0 (Bank)	<b>Aquaculture</b> - The project would: (a) assist SMA define and implement its new role as a regulatory agency for the aquaculture sector; and (b) promote property alleviation by increasing the productivity of resources owned by social sectors producers. There are two components to support these objectives: (a) regulatory framework and public goods component; and (b) social sector development component. Environmental Assessment Category A.	Consulting services have been contracted to prepare the Environmental Assessment and the state sub-projects.	Ongoing discussions over social assessments and participation requirements. Board presentation tentatively scheduled for September 1996.
Ministry of Environment, Natural Resources and Fisheries (SEMARNAP)	60.0 (Bank)	<b>Community Forestry</b> - The project would have the following components: (a) Community and Ejido Forestry Component (about 75 percent of loan amount) - would assist communities and ejidos in managing their timber resources, and developing and managing their non-timber resources; and (b) Institutional Strengthening Component (about 25 percent of loan amount) - would strengthen SEMARNAP and other federal agencies, and the state environmental agencies. Studies, training, technical assistance, equipment, management supervision, monitoring and evaluation, would be financed under this component. The experience of this pilot project would be carefully monitored, and if positive, studies would be undertaken to replicate the experience in the other five priority states with temperate forests. Environmental Assessment Category B.	Need for consultants to be determined.	Project preparation under way.
Comisión Federal de Electricidad (CFE)	500.0 (Bank)	<b>(R) Transmission and Distribution II</b> - The project would finance a time slice of CFE's transmission and distribution investment program while supporting the restructuring of the power sector. Environmental Assessment Category C.	Consultant services will be required.	Appraisal scheduled for September 1996.  Funds from a Japanese Grant are being used to finance the feasibility study for the project.
Comisión Nacional del Agua	186.5 (Bank)	<b>(R) Water Resources Management</b> - The project would help the Government to improve its water resources management system, enabling it to create a better environment for sustainable economic growth. The project would strengthen water resources management by: (a) implementing the provisions of the National Water Law; (b) improving efficiency in water use and the intersectoral allocation of water; (c) reducing flood damage and risk of failure in the hydraulic infrastructure; (d) decentralizing and improving water resource management; and (e) enhancing the water quality and quantity monitoring nationwide. Environmental Assessment Category B.	Consulting services will be required for preparation and supervision.	Board presentation scheduled for June 20, 1996.  A Japanese grant agreement was signed on March 30, 1995.  <u>Retroactive financing is expected to be recommended for up to 10% of the loan amount.</u>

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Nicaragua</b>				
Ministry of Finance	50.0 (IDA)	<b>(R) Public Sector Modernization</b> - A sectoral adjustment credit to support modernization of the public sector including reforms in the structure of the central government, operations of state-owned banks, and reform of the civil service and public financial management. Environmental Assessment Category C.	Consulting will be required.	Board presentation scheduled for July 18, 1996.  A Japanese Grant agreement was signed on October 27, 1995.
Ministry of Construction and Transport (MCT)	25.0 (IDA)	<b>(R) Roads Rehabilitation and Maintenance</b> - Project will include: (a) rehabilitation of selected segments of the north-south trunk road between Izapa and Guasale; (b) training and technical assistance to implement road maintenance by contract; (c) development of a five-year maintenance program; and (d) studies for urban transport development and for preparation of future projects. Environmental Assessment Category B.	Consulting services will be required for: (a) project supervision; (b) setting up a system for carrying out periodic road condition inventories; (c) developing an HDM based planning and programming system; and (d) urban transport studies for Managua and Granada.	Approved by the Executive Directors on May 30, 1996.
Ministerio del Ambiente y Recursos Naturales y Instituto Nicaraguense de Fomento Municipal	30.0 (IDA/ 7.0 (GEF)	<b>(R) Rural Municipalities</b> - The project would make resources available for strengthening municipal government in rural areas, financing micro-projects in natural resources management, including "green" environmental protection and small farmer agricultural intensification. Project would also finance institutional development, training and extension, applied research, technical assistance, equipment and minor civil works and monitoring. Environmental Assessment Category B.	Consulting services will be required.	Negotiations scheduled for June 21, 1996.  (Global Environment Facility (GEF) to provide protection of the biological corridor in the Atlantic.)
INAA (Instituto Nacional de Aguas y Alcanatarillados)	30.0 (IDA)	<b>(R) Water and Sanitation</b> - The project would have two main components: (a) an institutional development component - would assist the Government in implementing the legal, institutional and regulatory reforms under the Inter-American Development Bank's Public Utilities Reform Loan; and (b) an investment component - would finance the rehabilitation of water supply and sanitation services, particularly in low-income areas of Managua. Environmental Assessment Category C.	Consulting services have been contracted.	Approved by the Executive Directors on March 28, 1996. Loan was signed on May 3, 1996.
Ministerio de Desarrollo Agropecuario	55.0 (Bank)	<b>Rural Poverty and Natural Resources</b> - The main objectives of the project are to: (a) combat poverty in depressed rural areas; and (b) reduce resource deterioration resulting from migration of poor rural populations from central provinces to agricultural frontier areas and to strengthen the country's protected area system. Environmental Assessment Category B.	Consulting services have been secured with a national project preparation team.	Project preparation under way. Japanese grant agreement signed on June 23, 1995.
<b>Paraguay</b>				
Ministry of Health and Social Action	35.0 (Bank)	<b>(R) Maternal Health and Child Development (PY-PA-7927)</b> - The project will assist in the expansion of coverage and improvement of quality of basic health services. Environmental Assessment Category C.	Consultant services will be required.	Negotiations scheduled for July 15, 1996. A PPF advance of US\$450,000 has been approved.
To be determined	20.0 (Bank)	<b>Sustainable Rural Investment (PY-PA-7919)</b> - Project will provide support to rural investments. Small agro-industry and titling will also be targeted to rural poor communities within the framework of sound natural resources management practices. Environmental Assessment Category: To Be Determined.	Local consulting team has been hired. Preparation team supported by external international consultants.	Project preparation under way. Japanese Grant was signed and became effective on April 18, 1995.
<b>Peru</b>				
Ministry of Energy and Mines (MEM)	25.0 (Bank)	<b>Mining Development and Environment (PE-SR-21220)</b> - Project consists of the following components: (a) pilot rehabilitation of past environmental damage; (b) technology improvements for artisan, small and medium scale mining operations; (c) poverty alleviation for artisanal miners; and (d) strengthening of the mining sector institutions' environmental and sectoral management capacity. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project preparation under way.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministry of Energy and Mines	250.0 (Bank)	<b>Private Power Generation Market Expansion (PE-PA-8042)</b> - Project consists of development, financing and operation of a 300-350 MW thermal power plant to house the central-northern interconnected systems. All complementary facilities, such as the storage and handling, terminal substation and transmission lines will be part of the project and financed also by the private sector. Environmental Assessment Category A.	Consultants have been hired for project preparation including: (a) pre-qualification and bidding documents; (b) advice during evaluation and selection; and (c) contractual documents and advice during negotiations and financing closure.	Project preparation under way.  (Cofinancing from Inter-American Development Bank (IDB) expected.)
Ministry of Transport, Communications, Housing and Construction	200.0 (Bank)	<b>Transport Rehabilitation II (PE-PA-8043)</b> - This project would: (a) force economic integration of the country and open market access to previously remote areas through rehabilitation of roads; and (b) improve safety in road transport; and (c) support introduction of key management and financial policies in the road sector. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project preparation under way.
Ministry of the Presidency	100.0 (Bank)	<b>(R) Lima Urban Transport (PE-PA-35740)</b> - Project would focus on improving public transport and other mobility needs of the low-income population. Environmental Assessment Category B.	Consultants will be required for project preparation.	Project preparation under way.
Consejo Ejecutivo, Poder Judicial	25.0 (Bank)	<b>Administration of Justice</b> - Project will focus on the administrative apparatus of the Judicial Branch and seeks to: (a) improve courtroom administration; (b) institute information systems; (c) strengthen legal education; (d) monitor judicial performance; (e) strengthen alternative dispute resolution mechanisms; and (f) complete physical construction. Environmental Assessment Category C.	Administration and management services; information systems; physical construction of courts; financial management; legal education services and training.	Project preparation under way.
Ministry of Energy and Mines	100.0 (Bank)	<b>Rural Electrification</b> - The project would provide: (a) assistance in preparing and implementing a rural electrification program consistent with the Government's electricity sector strategies and policies; (b) assistance to the coordinating institutions and implementing/operating entities; (c) financing of economically viable projects; and (d) evaluation of economically viable renewable energy options for rural electrification. Environmental Assessment Category B.	Consulting services will cover: (a) methodology for R.E. project evaluation; (b) preparation of technical assistance program for R.E. project implementation and operation; and (c) assessment of renewable energy options for electricity generation.	Project in abeyance subject to Government review.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
To be determined	44.0 (Bank)	<b>Sierra Natural Resources and Community Development</b> - Project will reduce poverty in the Sierra by supporting a participating, integrated natural resources management approach at the microbasic level. Would aim to: (a) reduce poverty by raising crop yields and incomes through small-scale investments in productive infrastructure and off-farm collective activities; and (b) strengthen community participation and public institutions in order to focus effective infrastructure development on low-income populations. Environmental Assessment Category: B.	Need of consultants not yet determined.	Project preparation under way.
To be determined	130.0 (Bank)	<b>Water Resource Management</b> - Project will address: (a) water management at a basin level; (b) institutional strengthening of water basin authorities; (c) monitoring of water logging and salinity conditions in the coastal valleys; and (d) establishment of a transferable water rights system in pilot areas. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project preparation under way.
To be determined	100.0 (Bank)	<b>(R) Coastal Pollution Control</b> - Project seeks to restore and protect the environmentally deteriorated coast of Lima and to improve on quality of the rivers that feed Lima. The project would aim to: (a) finance environmental infrastructure for inception, treatment and disposal of sewage to reduce water pollution along the coast of Lima; (b) retrieve the coastal zone and river embankments for recreation and transportation purposes; and (c) develop a legal and regulatory framework and strengthen institutional capacity for water quality and pollution control regulations. Environmental Assessment Category A.	Main consultant for project preparation has been hired and being financed by Japanese PHRD grant.	Project preparation has been postponed until final decision is made on privatization of SEDAPAL (Secretaria de Agua Potable y Alcantarillado).
Fondo Nacional de Compensacion y Desarrollo Social (FONCODES)	150.0 (Bank)	<b>(R) Social Development (FONCODES) II</b> - Project would support overall operation of FONCODES during the period 1996-1998 including: (a) a wide range of community-based labor-intensive projects targeted to the poor; and (b) institutional development of FONCODES and local communities. Environmental Assessment Category B.	Consultant services will be required for staff and community-based training, MIS installation, project ex-post evaluations and beneficiary assessments.	Negotiations completed. Board presentation scheduled for July 16, 1996.
To be determined	25.0 (Bank)	<b>Public Sector Reform Technical Assistance</b> - Project will provide technical assistance to public sector reform in the areas of civil service and public pension reform, improvement of management information systems, decentralization, and restructuring of central government. Environmental Assessment Category C.	Need for consultants not yet determined.	Project identification under way.
Ministry of Economy and Finance (MEF)	100.0 (Bank)	<b>Structural Adjustment II</b> - The operation is expected to support the macro-economic and sectoral reforms related to international trade, social security and pensions system, management and financial system and public sector budget, accounting and auditing systems. Environmental Assessment Category C.	Consulting services will be required for preparation of the project.	Appraisal scheduled for late June 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Peru</b>				
Ministry of Agriculture	85.0 (Bank)	<b>Irrigation Rehabilitation</b> - The project would provide: (a) support to the development of a tradable water rights system; (b) rehabilitation of about 25-30 irrigation schemes, estimated to cover about 100,000 ha; (c) institutional development and strengthening of water users' organization; and (d) incentives for technological innovation, including a training program and a pilot program to encourage adoption of modern irrigation technology; and (e) preparation of emergency dam safety component. Environmental Assessment Category B.	Consulting services will be required for preparation of feasibility studies and engineering designs for rehabilitation schemes that will be implemented after the first two years of the project. Services will also be required for review and development of water regulatory framework.	Board presentation scheduled for July 11, 1996.  (Cofinancing in the amount of US\$60.0 million provided by OECF.)
Ministry of Transport, Housing and Construction	Up to 150.0 (Bank)	<b>(R) Urban Rehabilitation and Management</b> - Project will strengthen institutional and policy reform in selected municipalities, including the metropolitan region of Lima, and improve services in selected urban subsectors. Environmental Assessment Category B.	To be determined.	Project preparation under way.
<b>Trinidad and Tobago</b>				
Ministry of Agriculture, Land and Marine Resources	10.0 (Bank)	<b>National Parks and Watershed Management</b> - Project would address renewable natural resource management issues including protecting environmentally sensitive areas in upper watersheds and installing a system of protected areas including a National Parks Authority. Environmental Assessment Category C.	Consultancy services (mostly local) are being financed by PHRD Trust Fund. Limited opportunities exist for international consultants in areas of specialization where no local skills available.	Project preparation under way.
To be determined	40.0 (Bank)	<b>Water and Sewerage Rehabilitation</b> - Project will address a high priority investment program to reduce water losses including metering, replacement of water mains and rehabilitation of pumping stations, groundwater wells, water treatment plants and water reservoirs. Environmental Assessment Category B.	Consultants are in the field.	Project preparation under way.
To be determined	15.0 (Bank)	<b>Public Services Strengthening</b> - The project will: (a) support restructuring, institutional strengthening and capital investments in the postal service; (b) provide technical assistance to improve transportation licensing performance; and (c) provide technical assistance to develop management strengthening strategies in other key sectors, such as justice administration. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Pre-appraisal mission tentatively scheduled for July 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Trinidad and Tobago</b>				
Ministry of Works and Transport	50.0 (Bank)	<b>Drainage and Flood Control</b> - Project will include: (a) rehabilitation of selected existing irrigation and flood control infrastructure installations; (b) construction of the Caroni River basin works; (c) construction of the Vistabella and Marbella River basin works; and (d) construction of the short-term Caparo River basin works. Environmental Assessment Category B.	Consulting services are under way and additional services will be required.	Project preparation under way.
<b>Uruguay</b>				
Administracion Nacional de Usinas y Trasmisiones Electricas (UTE)	125.0 (Bank)	<b>Power Transmission and Distribution (UY-PA-8177)</b> - Project will include: (a) expansion of the 500-Kv transmission system; (b) modification of the 150-Kv transmission system; (c) first phase of distribution system renovation including change of middle voltage (22 Kv) system and low voltage (380/220v); and (d) technical assistance to help implement the project. Environmental Assessment Category B.	Consulting services will be required to help UTE to restructure in business units as part of the sector reforms and individual consultants to: (a) help project implementation; (b) develop load characteristics studies; (c) develop marginal cost studies; and (d) develop and implement a demand-size management program.	Approved by the Executive Directors on October 31, 1995. Loan expected to be signed by July 1996.  <u>Retroactive financing of up to US\$3.0 million is expected.</u>
Obras Sanitarias del Estado	20.0 (Bank)	<b>Water Supply (UY-PA-8144)</b> - Project would improve public health and environment through extension of water and sewerage facilities, and would increase sector efficiency through greater participation of private sector and eventual restructuring of sector. Environmental Assessment Category: To Be Determined.	Consultant services will be required.	Project preparation under way.
<b>Venezuela</b>				
HIDROVEN,(Compania Anonima Hidrologica de Venezuela) HIDROCAPITAL	20.0 (Bank)	<b>(R) Caracas Water Sector Rehabilitation (formerly Caracas Water Sector Rehabilitation and Privatization)</b> - The project would assist HIDROCAPITAL with emergency rehabilitation works; improvement of commercial and institutional aspects; and preparation for private sector participation. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Project preparation under way.
FUNDACOMUN, Ministerio Familia	50.0 (Bank)	<b>Low Income Barrios II</b> - Project has two components: (a) institutional development for both the Central Government on decentralization issues, and local governments; and (b) investment focussing on water and sanitation, power distribution, paving, titling and urbanization. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project preparation under way.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Venezuela</b>				
To be determined	40.0 (Bank)	<b>Public Sector Modernization and Decentralization</b> - The project will restructure and strengthen public institutions responsible for providing those core government functions which constrain the development of institutional capacity in the delivery of public services by both the Central Government and state governments. Environmental Assessment Category C.	Consulting services will be required.	Project preparation under way.
HIDROVEN aguas de Monagas	35.0 (Bank)	<b>(R) Monagas State Water</b> - The project would assist in the decentralization of water and sanitation services to the State of Monagas. It will finance pre-investment activities to strengthen state and/or municipal level water companies in other selected states, and help establish a well-functioning institutional framework for sector regulation. Environmental Assessment Category B.	Consulting services will be required.	Approved by the Executive Directors on June 4, 1996. Signing expected in mid-July 1996.  <u>Retroactive financing of US\$2.7 million is expected.</u>

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>V. Middle East And North Africa Region</b>				
<b>Algeria</b>				
Ministere de la Restructuration Industrielle et de la Participation	50.0 (Bank)	<b>(N) Public Enterprise Spinoff</b> - Project will support strategies and process of expanding and privatizing activities under public enterprise control in order to: (a) promote the privatization process; and (b) restructure public enterprises so as to make them more efficient and privatizable. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project is under preparation.
Ministry of Agriculture and Fisheries	50.0 (Bank)	<b>(R) Rural Employment</b> - Project seeks to promote rural employment through a program of civil works for the rehabilitation, maintenance and repairs of the agricultural infrastructure, emphasizing private sector implementation through local contractors. Environmental Assessment Category C.	Local consultants will be used to prepare project.	Identification under way.
Ministry of Housing	80.0 (Bank)	<b>(R) Low Income Housing</b> - Project will address urban poverty concentrated in urban settlements main cities. Upgrading areas, covering 3,000 ha, and involving 40,000 dwellings would include land servicing and house improvements. Environmental Assessment Category A.	Consulting services will be required for carrying out studies (technical and financial components, and environmental assessment), training and assistance in project implementation. Consultant selected for project preparation.	Project preparation under way.
SONATRACH	100.0 (Bank)	<b>Petroleum Rehabilitation</b> - Project will focus on rehabilitation of enhanced oil recovery installations, collection of associated gas presently flared, and environmental protection. Environmental Assessment Category B.	Need for consultants not yet determined.	Project preparation under way.
Ministry of Housing	150.0 (Bank)	<b>(R) HSAL</b> - Project will include: (a) enhancement of efficiency of the supply of housing by enlarging the role of the private sector in the construction; (b) improvement of the targetting of social housing; and (c) pursuit of the reform of the housing finance system. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Preparation under way.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministère de l'Équipement et de l'Aménagement du Territoire (AGEP)	100.0 (Bank)	<b>(R) Urban Water Supply Restructuring (formerly Water Supply VI)</b> - Project would outline the institution (policies, laws, regulations, and organization) that should be set up to ensure an integrated regional resources management in Algeria. Under the proposed project seven regional agencies would be set up to develop and manage natural resources in the country. They will have the status of government corporation, but will be given the flexibility and initiatives of private enterprise. A number of water supply and sewerage works would be built in two cities (Oran and Constantine). Environmental Assessment Category B.	Consulting services will be required for detailed design and preparation of bidding documents for urban water systems and sewerage in the two cities (Oran and Constantine).	Appraisal mission scheduled for June 1996.
Ministry of Labor and Social Affairs	50.0 (Bank)	<b>(R) Social Safety Net II</b> - Project is the second phase of a social safety net support program to create a social development fund managed by an autonomous agency. Will also support temporary employment schemes managed by small enterprises for developing community based social infrastructure as well as to assist in targeting of social assistance programs. Environmental Assessment Category: To Be Determined.	Consulting services will be required for project preparation.	Project preparation under way.
Government of Algeria, Ministry of Housing	100.0 (Bank)	<b>Housing Infrastructure</b> - Project components include: (a) trunk infrastructure for urban expansion areas in the four major cities: Algiers, Oran, Constantine, and Annaba, areas in which Government land would be auctioned to private developers; (b) construction material imports to meet the demand induced by the project; and (c) technical assistance to improve the institutional framework, the land market operational environment and infrastructure cost recovery. Environmental Assessment Category: To Be Determined.	Selection of consultants to carry out feasibility study is under way.	Project preparation under way.
Ministry of Health	50.0 (Bank)	<b>Health Sector</b> - Project would support the Government effort to improve efficiency and organization in the public health system and the quality of services. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.
Ministère de l'Intérieur, de l'Environnement, et des Collectivités Locales	78.0 (Bank)	<b>(R) Industrial Pollution Control</b> - Provides technical assistance to strengthen the institutional framework for environmental management, and finances pilot investments for reducing air and water emissions in the northern region. Environmental Assessment Category B.	Consultant report on assessment of hazardous waste and industrial audits were completed in May 1994.	Approved by the Executive Directors on June 11, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Egypt, Arab Republic of</b>				
Ministry of Education and Higher Education	75.0 (IDA)	<b>(R) Education Enhancement Program (EG-PA-5169</b> - Project will contribute to the cost effectiveness of the Government's reform program. Project would also: (a) contribute to Government's program to improve access and equity to basic education; (b) strengthen and professionalize the teaching force and school administrators; and (c) promote the use of technology. Environmental Assessment Category C.	Consulting services will be required from international and local specialists.	Pre-appraisal mission currently in the field.  (Cofinancing has been confirmed with the European Union.)
Government of Egypt	120.0 (IDA)	<b>(R) Social Fund For Development</b> - The project seeks to support the most successful elements of SFD and support its development into a major partner for regional authorities and local communities. The project will specifically support the following programs within SFD: public works; community development; enterprise development; institutional development and human resources development (a new demand-driven program). Environmental Assessment Category B.	Consultants being funded by European Union.	Approved by the Executive Directors on May 21, 1996.
National Bank of Egypt (NBE), Egyptian Environmental Affairs Agency	20.0 (Bank)/ 15.0 (IDA)	<b>(R) Pollution Abatement</b> - Project will consist of two components: (a) an institutional and technical support component for monitoring and enforcement; and (b) a pollution abatement fund to finance environmental investments in industrial pollution control and to be managed by NBE and other participatory banks. Environmental Assessment Category B.	Consultants have been hired to prepare the first pipeline of industrial audits.	Approved by the Executive Directors on May 21, 1996.  (Cofinancing will be provided by the Government of Finland.)
Ministry of Agriculture and Land Reclamation	17.0 (IDA)	<b>(R) Agricultural Extension and Marketing Assistance</b> - Project will modernize domestic production and marketing system and export of fruits and vegetables. Project will specifically: (a) improve farmers know-how by improved marketing extension/adaptive research focused on production/marketing of quality horticultural produce; and (b) support expansion, modernization and development of alternative information/marketing channels at the producer, wholesale/retail levels, thus promoting a more cost-effective food distribution system for urban consumers and improved incomes for small-scale producers. Environmental Assessment Category C.	Consulting services will be required.	Appraisal report under preparation.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Egypt, Arab Republic of</b>				
Ministry of Health and Population	17.2 (IDA)	<b>Population</b> - Project seeks to: (a) build institutional capacity for population programs in the Ministry of Health and Population for a set of key functions in policy development, intersectoral coordination, community development/NGO/private sector coordination, program planning, resource mobilization, sectoral training planning, and monitoring and evaluation; and (b) support for population activities carried out mainly by NGOs and private organizations. Environmental Assessment Category C.	Consulting services will be required from international and local specialists to assist in institutional development of the ministry and for specific technical tasks.	Approved by the Executive Directors on March 21, 1996.
<b>Jordan</b>				
Ministry of Planning	120.0 (Bank)	<b>(R) Second Economic Reform and Development (ERDL II) (JO-PA-44139)</b> - Proposed project supports the Government's reform program in the areas of export development and trade liberalization, financial sector reform, privatization and regulatory reform. Environmental Assessment Category C.	Technical assistance with implementation of reform policy actions.	Appraisal mission scheduled for end July 1996.  (Parallel financing from European Union (ECU 100.0 million) confirmed. Other cofinancing being sought.)
Ministry of Tourism	15.0 (Bank)	<b>Second Tourism Development</b> - Project would address: (a) improved sector management planning and policy/regulatory measures conducive to private sector development; (b) infrastructure development and environmental protection of Petra; and (c) development of other tourism sites. Environmental Assessment Category B.	Consulting services will be required in sector management, environmental protection and tourism site development.	Appraisal mission scheduled for July/August 1996.
Central Bank of Jordan, Housing and Urban Development Corporation	20.0 (Bank)	<b>(R) Housing Finance and Urban Sector Reform</b> - The project would support: (a) establishment of a secondary mortgage facility; and (b) regulatory and institutional reforms in the land development and construction subsectors. Environmental Assessment Category C.	Consulting services will be required for institutional reforms.	Negotiations completed. Board presentation scheduled for July 1996.
Aqaba Region Authority	2.7 (GEF)	<b>(R) Gulf of Aqaba Environmental Action Plan</b> - Project will focus on regional marine pollution action plan, including assessment and control of ship-based oil pollution, tourism impacts, beach erosion, and coral reef conservation. Will also focus on reuse of wastewater and sludge, and strengthening institutions and legal/regulatory framework. Environmental Assessment Category B.	Consulting services will be required from individuals and firms (local and international) to assist in institutional strengthening, and for specific technical activities..	Approved by the Executive Directors on June 13, 1996.  Project Preparation Advance (PPA) studies nearing completion.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Lebanon</b>				
Council for Development and Reconstruction (CDR)	50.0 (Bank)	<b>(R) ERRP Supplement</b> - Project will consist of the rehabilitation and extension of water supply and wastewater facilities in the Bekaa Valley, Mount Lebanon, and South Lebanon areas. In addition, it will include repair of damaged water supply, wastewater and power facilities. Environmental Assessment Category B.	Consulting services will be required.	Approved by the Executive Directors on May 30, 1996.
Council for Development and Reconstruction (CDR), Ministry of Agriculture (MOA)	31.0 (Bank)	<b>(R) Agriculture Infrastructure Development</b> - This project would have two components: (a) an agricultural infrastructure development component which would include demand-driven activities in (i) land terracing and reclamation, (ii) construction of small hill ponds, and (iii) rehabilitation and construction of agricultural roads; and (b) an institutional capacity building component which would include (i) the conduct of a national agricultural census and data base center, and (ii) institutional support to project executing agencies. Environmental Assessment Category B.	Consulting services will be required for the conduct of the agricultural census and the establishment of an agriculture data base.	Appraisal report under preparation. Government is reviewing appraisal mission's findings.  (Cofinancing of about US\$12.0 million is expected from IFAD.)
Electricite du Liban	100.0 (Bank)	<b>(R) Power Sector Restructuring and Transmission Expansion</b> - Project will include rehabilitation and expansion/upgrading of national power grid to 220KV. Components consist of: (a) 350km of double circuit 220KV lines; (b) 50km of 220KV underground cable, 68km of 66KV transmission line; and (c) 10 new substations (220/150KV; 220KV; 220/66KV). Environmental Assessment Category B.	Consulting services may be required for project management services for the implementation of the transmission system	Appraisal scheduled for end June 1996.  <u>Procurement:</u> Advance contracting for components (a), (b), and (c) is under way.  <u>Retroactive financing of up to US\$10.0 million is envisaged to cover supplier down payments for 220 KV substations and 220 KV cables.</u>
Ministry of Public Works	42.0 (Bank)	<b>(R) National Roads</b> - The project includes: (a) a pilot roads rehabilitation component to initiate a program for arresting deterioration of the road network (implementation of about 400 km of rehabilitation); (b) technical assistance to (i) strengthen roads administration; and (ii) establish multi-year programs of maintenance; and (c) equipment for better management of roads. Environmental Assessment Category B.	Consulting services will be required for: (a) supervision of the road rehabilitation program; and (b) technical assistance for strengthening road administration.	Negotiations completed. Board presentation scheduled for early July 1996.
Council For Development and Reconstruction (CDR)	45.0 (Bank)	<b>Coastal Pollution Control and Water Supply</b> - Rehabilitation of water supply and wastewater systems and construction of new wastewater networks and disposal and treatment facilities. Technical assistance for sector restructuring. Environmental Assessment Category A.	Consulting services will be required for construction supervision, and technical assistance.	Negotiations scheduled for October 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Morocco</b>				
Ministry of Commerce, Industry and Crafts	40.0 (Bank)	<b>(R) PSD IV: Industrial Infrastructure (formerly PSD IV: Industrial Infrastructure and Industry)</b> - Project will assist with the development of private industrial parks. Environmental Assessment Category A.	Consulting services will be required in the legal, architectural, and planning areas.	Project preparation under way.
Ministry of National Education, Ministry of Higher Education	60.0 (Bank)	<b>(R) Education Reform</b> - Project will implement reforms in general and higher education. Environmental Assessment Category C.	Need for consultants not yet determined.	Identification planned for Fall 1997.
Ministry of Education, Ministry of Labor and Social Affairs (Literacy)	54.0 (Bank)	<b>(R) Social Priorities (Education)</b> - Project is part of a comprehensive social development program. Will extend coverage of basic education in rural areas of 13 selected provinces (with special emphasis on women), and improved quality and efficiency of basic education and literacy programs. Environmental Assessment Category C.	Consulting services will be required for evaluation and teacher training.	Approved by the Executive Directors on May 30, 1996.
Ministry of Health	68.0 (Bank)	<b>(R) Social Priorities (Health)</b> - Project is part of a comprehensive social development program. Will extend coverage of basic health services (including safe motherhood programs) in rural areas of 13 selected provinces, and improve quality and equity in the provision of services. Will also support selected priority preventive health programs at the national level. Environmental Assessment Category C.	Consultants with skills in decentralization, human resources planning issues, pharmaceutical sector, MIS and participatory approaches will be needed.	Approved by the Executive Directors on May 30, 1996.
Ministry of Population, Ministry of the Interior	28.0 (Bank)	<b>(R) Social Priorities (Coordination and Monitoring of Social Programs and Labor Promotion) Social Priorities (Institutional Support)</b> - Project is part of a comprehensive social development program. Project will: (a) promote labor-intensive public works and improve rural infrastructure in rural areas of 13 selected provinces; (b) enhance the statistical monitoring of living conditions; and (c) provide institutional support for program implementation. Environmental Assessment Category C.	Consulting services will be required for analysis of living conditions data.	Approved by the Executive Directors on May 30, 1996.
RAD, RADEEF, RADEEMA	40.0 (Bank)	<b>(R) Second Sewerage and Water Re-Use</b> - Project includes: (a) rehabilitation and expansion of sewerage systems of Casablanca, Fes and Marrakech Regies; (b) assistance to the Regies in the institutional, operational and financial fields; (c) provision of credit lines for sewerage house connections; (d) provision of operational equipment; and (e) consulting services, technical assistance, and training. Environmental Assessment Category B.	Consulting services will be required for (a) final design and bidding documents for sewerage works; (b) supervision of sewerage works; (c) tariff structure studies (sewerage charges); and (d) technical assistance.	Approved by the Executive Directors on April 30, 1996. Loan was signed on May 30, 1996

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministry of Vocational Training	23.0 (Bank)	<b>(R) Vocational Training (PSD III)</b> - Project seeks to realize a greater match between training, supply and demand by creating effective links between enterprises and training centers, and by improving centers' responsiveness. Environmental Assessment Category C.	Consulting services will be required for technical assistance to enterprises.	Negotiations expected in June 1996.
Ministry of Public Works	100.0 (Bank)	<b>(R) Water Sector Investment (WSIL)</b> - Project aims to assist the Government in defining and implementing a comprehensive water resource management strategy. Environmental Assessment Category B.	Consulting services completed.	Appraisal mission in the field. Negotiations scheduled for September 1996.
Office National de l'Electricite (ONE)	150.0 (Bank)	<b>(R) Power Sector Reform (PSD II)</b> - Project will support sector reform which includes: (a) establishment of Electricity Code and Regulatory Agency; (b) contracting Independent Power Producers (IPP) for power generation; and (c) implementation of LRMC tariffs and reorganization of ONE. Loan will finance investment in transmission and distribution as well as technical assistance. Environmental Assessment Category B.	Consulting services being financed through existing loans for sector reform.	Project preparation completed.
Fonds d'Equipeement Communal (FEC)	80.0 (Bank)	<b>Second Municipal Finance</b> - Project aims to improve local sector management and foster private provision and financing of local services. It will mainly include funds to finance local infrastructure sub-projects. Environmental Assessment Category B.	Consulting services will be required to help prepare some project components.	Project preparation under way.
Ministry of Health	60.0 (Bank)	<b>Health Management</b> - Project would support: (a) implementation of new financing mechanisms, mainly health insurance; (b) hospital management reforms; and (c) priority rehabilitation of health infrastructure. Environmental Assessment Category C.	Consulting services will be required.	Project preparation under way.
Ministry of Agriculture and Agricultural Development (MAMVA)	60.0 (Bank)	<b>National Watershed Management</b> - To improve land use and natural resources management in mountain areas and reduce siltation in reservoirs and associated hydraulic infrastructure. Main components would include: (a) natural resources conservation; (b) agricultural development; (c) infrastructure development; (d) institution building; and (e) research; and (f) technical assistance and training. Environmental Assessment Category B.	To be determined.	Appraisal mission planned for June 1996.
SNEC, Credit Immobilier Hotelier (CIH) and Commercial Banks (To be determined)	100.0 (Bank)	<b>Low Income Housing</b> - Project aims to: (a) upgrade housing conditions of low income households; (b) reduce housing costs and contain the cost of urban growth mainly by improving the operation of land markets; and (c) reduce the Government's role in land development. Environmental Assessment Category: To Be Determined.	To be determined.	Project preparation under way.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Tunisia</b>				
Ministry of Transport	120.0 (Bank)	<b>Transport Sector</b> - Project objectives are to: (a) lower transport costs and increase control on delivery schedules by promoting private sector participation and intermodalism and serve as catalyst of private investments in missing links of the transport chain. Will also combine: (a) a fast disbursing component; (b) an investment component to finance rehabilitation of infrastructure; (c) technical assistance; and (d) a partial Bank guarantee for private investment in port and railway. Environmental Assessment Category C.	Need for consultants not yet determined.	Project under preparation.
To be determined	100.0 (Bank)	<b>(R) PSD/Economic Competitiveness Adjustment II</b> - Project will provide support measure to improve the policy and institutional environment and of enterprises as to make them more effective. Environmental Assessment Category C.	Need for consultants not yet determined.	Project preparation under way.
Ministry of Higher Education	70.0 (Bank)	<b>Higher Education II</b> - Project will promote increased external efficiency of higher education system, as well as improve efficiency of public resource use. Environmental Assessment Category C.	Need for consultants not yet determined.	Project identification expected in mid-1996.
Ministere de l'Agriculture	30.0 (Bank)	<b>(R) Natural Resources Management</b> - This operation to promote a participatory approach to management of soil, rangeland, other resources and to strengthen administrative capacity to provide support services to resource management will be undertaken in three provinces. Environmental Assessment Category B.	Consulting services will be required for project implementation.	Project preparation under way.
Ministry of Industry	30.0 (Bank)	<b>(R) Industry Support and Institutional Upgrading (PSD I) (formerly Industrial Support Upgrading (PSD I))</b> - Project would provide parallel financing to European Commission Programme for Enhancing Competitiveness in support of a national program to upgrade to international standards already or potentially competitive private industrial firms. Project would finance technical assistance and investment to upgrade technical support institutions. Environmental Assessment Category C.	Need for consultants not yet determined.	Approved by the Executive Directors on June 13, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Tunisia</b>				
Ministry of Economic Development	75.0 (Bank)	<b>(R) Economic Competitiveness Adjustment I</b> - Project would support a post-adjustment program of reforms to establish the environment for an internationally competitive private sector. Program would have four aims: (a) reinforcing long-run macro-economic stability; (b) integrating the economy more fully into world market for goods, services, and capital; (c) reforming regulations to improve the functioning of the domestic market; and (d) accelerating privatization. Environmental Assessment Category C.	Consulting services will be required for project preparation and implementation.	Negotiations completed. Board presentation scheduled for July 1996.
Office National Assainissement (ONAS)	89.0 (Bank)	<b>Greater Tunis Sewerage</b> - Project will include: (a) expansion of sewerage systems including treatment in Tunis area; and (b) strengthening of institutional aspects of ONAS. Environmental Assessment Category A.	Feasibility study, and Environmental Assessment completed. Final studies to be carried out in 1996.	Project preparation under way.
Ministry of Vocational Training and Employment	60.0 (Bank)	<b>(R) Second Training and Employment (formerly Employment and Training II)</b> - The objectives of the project are to: (a) promote private sector competitiveness by enhancing the relevance of vocational training vis-à-vis the needs of enterprises; (b) develop employment services for workers affected by economic restructuring; and (c) create a labor market information system. Environmental Assessment Category C.	Consulting services will be required for technical assistance.	Approved by the Executive Directors on June 13, 1996.
Ministere de l'Agriculture	80.0 (Bank)	<b>Water Sector</b> - The project would promote an integrated development and management of surface water, groundwater, and wastewater in filling the demand for urban supply and irrigation. It would include physical works for water storage, wastewater treatment and reuse, rehabilitation and installation of meters, studies and technical assistance. Environmental Assessment Category: To Be Determined.	Consultants will be required for technical assistance in water management.	Project preparation under way. <u>Procurement</u> : Government has sent study terms of reference for project component preparation to a shortlist of consulting firms and is now evaluating the submissions.
<b>West Bank and Gaza</b>				
Palestinian Industrial Estates Authority (to be formed)	5.0 (IDA)	<b>Industrial Estates</b> - Project will provide infrastructure and technical assistance for industrial estates designed to help initiate export-oriented industrial development. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Identification of site completed. Government of Israel and the Palestinian Authority are to develop a detailed enabling framework governing the regulation and operation of the industrial estates.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>West Bank and Gaza</b>				
Palestinian Energy Authority (PEA)	30.0 (IDA)	<b>(R) Electricity Sector Investment and Management</b> - Project likely to include the following components: (a) upgrading and rehabilitation of parts of West Bank distribution network; and (b) private distribution utility management contract and technical assistance for sector institutions. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Project processing delayed pending discussion of institutional issues. Final mission scheduled for late June 1996.
Palestinian Economic Council for Development and Reconstruction (PECDAR)	40.0 (IDA)	<b>(R) Municipal Infrastructure Development</b> - Project is to include rehabilitation of basic high priority infrastructure and services, and municipal reform and capacity-building in selected cities. Environmental Assessment Category B.	Consulting services will be required.	Approved by the Executive Directors on May 30, 1996.
Ministry of Housing	20.0 (IDA)	<b>(R) Housing</b> - The project is a combination of credit facility to support long term commercial lending for housing and infrastructure for housing development. Environmental Assessment Category B.	Consulting services will be required.	Appraisal mission scheduled for June 1996.
Palestinian Water Authority (PWA)	25.0 (IDA)	<b>(R) Water and Sanitation Services In Gaza</b> - Project would consist of provision of: (a) an international operator under a four year management contract to implement the service improvement program; (b) operating investment funds, built into management contract, to fund goods, equipment, works and services; and (c) technical assistance to strengthen newly created PWA, support implementation/ monitoring of the project, and provide independent auditors to monitor operator's technical and financial performance. Environmental Assessment Category B.	Consulting services will be required.	Board presentation scheduled for July 2, 1996.  <u>Procurement</u> : Advance contracting for component (a) is under way.

#### Yemen, Republic of

Ministry of Agriculture and Water Resources	10.0 (IDA)	<b>Seeds and Services</b> - Project would finance six major components: (a) varietal-sourcing and testing services; (b) procurement of inputs, particularly fertilizer; (c) institutional support; (d) private sector promotion; (e) human resources development; and (f) works and equipment. Environmental Assessment Category C.	Consulting services will be required.	Project preparation under way.

<b>VI. South Asia Region</b>				
<b>Bangladesh</b>				
Bangladesh Water Development Board (BWDB)	To Be Determined (IDA)	<b>Water Sector Rehabilitation (BD-PA-40712)</b> - Project will focus on: (a) improvement in sectoral policies; (b) rehabilitation of deteriorated projects; (c) improvements in existing projects to reduce damage to fisheries or improve drainage; and (d) introduction of sustainable maintenance systems. Environmental Assessment Category: To Be Determined.	Consulting services will be required to assist in preparation and implementation.	Project under preparation.  Japanese PHRD Grant approved to assist with project preparation.
To be determined	100.0 (IDA)	<b>Commercial Banking Reform</b> - Project would focus on the banking sector with emphasis on: (a) improving governance; (b) restructuring and recapitalization of domestic commercial banks; (c) privatizing nationalized commercial banks; and (d) improving the environment for debt recovery. Project will also include a technical assistance component to strengthen the central bank, and upgrade technology and the human resource base. Environmental Assessment Category B.	Consulting services will be required.	Project preparation under way.
Bangladesh Road Transport Authority	50.0 (IDA)	<b>Dhaka Urban Transport</b> - Project would include: (a) support for capacity building, including necessary technical assistance for addressing institutional policy and issues and regulatory framework, enhancing the private sector role increasing implementation capacity and developing an environmental improvement action plan; (b) support measures for improving the public transport system with focus on efficient private sector-run-bus systems; (c) training for transport agencies and others, including public education for road safety; (d) civil works, materials, equipment and project support for better traffic management; (e) improving facilities for buses (bus only lanes), non-motorized modes (junction improvements, special lanes) and pedestrians (sidewalks, pedestrian over-bridges); and (e) preparation of long-term urban transport plan for the capital area. Environmental Assessment Category B.	Consulting services will be required for: (a) conducting preparatory engineering and economic studies; and (b) providing supervision and project related technical assistance for training and institutional strengthening.	Project preparation under way.
Roads and Highways Department (RHD)	200 0 (IDA)	<b>(R) Road Rehabilitation and Maintenance III (BD-PA-37294)</b> - Project will focus on: (a) improvement of about 500-600kms of feeder roads "A"; (b) construction of a new road between Nalka and Bonpara; (c) rehabilitation and improvement of the Dhaka-Sylhet road; (d) technical assistance for financial and institutional strengthening of RHD and for project implementation. Environmental Assessment Category B.	Consultant selection for feeder road "A" and the Nalka and Bonpara components is in final stages. Appointment of consultants expected mid-June 1996. Consultants will also be required for project supervision.	Project preparation under way.  <u>Procurement:</u> Procurement of consultant services under way.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministry of Health and Family Welfare (MOHFW)	200.0 (IDA)	<p><b>Fifth Health Population</b> - The project would support a sector program which gives priority to a basic health services package, primarily for maternal, reproductive and child health, and family planning services. It will seek to improve the quality, efficiency and effectiveness of the country's health and family planning strategies while continuing to reduce fertility and lower maternal and child morbidity and mortality.</p> <p>Environmental Assessment Category C.</p>	Consulting services will be required for preparation.	Project being prepared. (Cofinancing expected from multilateral and bilateral sources.)
Ministry of Environment and Forestry	20.0 (IDA)	<p><b>National Environmental Management</b> - Project will strengthen central environmental institutions, promote linkages between environmental agencies and line ministries, establish a source of investment funds and prioritize environmental work to be performed by Government entities and NGOs.</p> <p>Environmental Assessment Category B.</p>	Consulting services will be required for both present processing and implementation stages.	Project identification under way.
Primary and Mass Education Division	200.0 (IDA)	<p><b>(R) Primary Education Development</b> - Project would support the primary education subsector program which gives priority to raising school completion and learning achievements. It would: (a) improve school quality and efficiency; (b) strengthen institutional capacity at school, district and national levels; and (c) target underserved areas.</p> <p>Environmental Assessment Category C.</p>	Need for consultants not yet determined.	Appraisal under way. (Cofinancing expected from multilateral and bilateral sources.)
To be determined	90.0 (IDA)	<p><b>(R) Private Sector Infrastructure Development</b> - The proposed project would have two components. A provision of up to US\$80.0 million for funding and operating an infrastructure development facility which will onlend long-term for infrastructure projects sponsored by the private sector. This government-supported facility would work in combination with private sector debt and equity. A technical assistance component of about US\$10.0 million is included to build institutional capacity for advancing, evaluating and negotiating private sector initiatives.</p> <p>Environmental Assessment Category A.</p>	Consulting services will be required for: (a) reviewing and recommending appropriate sector policy framework to promote private investment; (b) financial and institutional structuring of the funding facility; and (c) other project preparation activities.	Pre-appraisal scheduled for late September 1996. (Cofinancing expected from multilateral and bilateral sources.)

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
To be determined	150.0 (IDA)	<b>Power Development</b> - The project would seek to: (a) rationalize supply areas of existing rural electricity cooperatives and rehabilitate networks taken over from other utilities (Bangladesh Power Development Board (BPDB) and Dhaka Electricity Supply Authority (DESA)); (b) strengthen performance of the Rural Electrification Board and operating cooperatives (PBSs); (c) expand rural electrification coverage and intensify existing supply areas; and (d) establish corporatized and commercialized units out of BPDB's distribution sector. Environmental Assessment Category: To Be Determined.	A Japanese PHRD Grant has been approved to undertake the preparatory work. Consulting services to be arranged under the PHRD grant.	Initial Executive Project Summary to be prepared.
Ministry of Finance (Project Steering Committee)	105.0 (IDA)	<b>(R) Poverty Alleviation Micro</b> - Project will include: (a) a line of credit to NGOs for financing self employment activities of the poor and landless, particularly women; and (b) technical assistance to NGOs for strengthening credit management and strengthening linkages with the formal financial sector, MIS, and capacity for group formation. Environmental Assessment Category C.	Consulting services will be required.	Negotiations completed. Board presentation scheduled for August 1996.
Ministry of Local Government, Rural Development and Cooperative	137.0 (IDA)	<b>Second Rural Roads and Markets</b> - The project would include: (a) upgrading and maintenance of feeder roads in selected districts in the greater Dhaka region and northwestern Bangladesh; (b) construction of drainage structures on rural roads; (c) construction of river jetties; (d) improvement of selected market sites; (e) integration of rickshaws and country boats into the transport system; and (f) technical assistance for training, studies, and construction supervision. In all components, there would be a close involvement of NGOs, and community participation in selection of subprojects. Environmental Assessment Category B.	Consulting services will be required for: (a) the supervision and monitoring of annual programs for maintenance of rural infrastructure; and (b) training of project staff.	Appraisal completed. Negotiations scheduled for July 1996.  (Swiss Development Corporation (SDC) has expressed interest in cofinancing and joined the appraisal mission.)
Dhaka Water Supply and Sewerage Authority (DWASA)	76.2 (IDA)	<b>Fourth Dhaka Water/Sanitation</b> - Project to include: (a) development of long-term water source for Dhaka (including ground and surface water); (b) rehabilitation and extension of water distribution and sewerage systems; (c) extension of water and low-cost sanitation program; and (d) further institutional development of DWASA. Total cost of first phase of investment program is estimated at US\$162.0 million. Positive environmental impact through improved sanitation facilities and rehabilitation of sewage collection treatment works. Environmental Assessment Category B.	Consultants will be required for leak detection, supervision of project implementation, management support, a water resource management study and a sanitation study.	Negotiations completed. Board presentation delayed pending GOB and DWASA meeting conditions of Board.  (Cofinancing interest expressed by the French Government.)

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Bangladesh</b>				
Local Government Engineering Department and Interministerial Coordinating Committee	To Be Determined (IDA)	<b>Cyclone Shelter</b> - Project is tentatively expected to include: (a) construction of multipurpose cyclone shelter-cum-school buildings; (b) repair of existing cyclone shelters; (c) construction of complementary physical infrastructure (such as feeder roads) to facilitate the functioning of the shelters for cyclone evacuation and relief; (d) improvements in cyclone warning and disaster relief systems; and (e) support for community/NGO involvement in operation of shelter services and disaster preparedness. Environmental Assessment Category B.	Consulting services required for preparation studies being financed by the European Community. Consultants for preparation study began work November 22, 1995.	Project preparation under way.  (Cofinancing interest expressed by European Community, Netherlands and Germany.)
<b>Bhutan</b>				
Ministry of Health and Education, Education Division	10.0 (IDA)	<b>(N) Second Education (BT-PA-9574)</b> - Project will focus on: (a) expansion and improvement of primary and secondary school facilities including teacher education, curriculum and instructional material development, educational assessment and examination improvements and provision of support services to primary and secondary schools; and (b) strengthening of the decentralized demonstration and school management system. Environmental Assessment Category C.	Need for consultants not yet determined.	Preparation under way.  (Cofinancing expected from the Swiss Development Cooperation (SDC).)  A request has been submitted for preparation assistance from the Japanese Policy and Human Resource Development (PHRD) Fund.
<b>India</b>				
Department of Women and Child Development, Central Nodal Agency	32.0 (IDA)	<b>(N) Rural Women's Development and Empowerment (IN-PA-44449)</b> - The project aims to improve women's economic and social status through: (a) establishment and capacity building of women's self-reliant groups with the help of NGOs and other line agencies; (b) support for women managed on-farm/off-farm income generating activities; (c) assistance for community asset creation; and (d) project management and process monitoring and evaluation. Environmental Assessment Category B.	Consulting services will not be required.	Appraisal scheduled for late June/July 1996.  (Cofinancing expected from IFAD.)
Ministry of Human Resources Development, Department of Women and Child Development	200.0 (IDA)	<b>(N) Women and Child Development (IN-PA-35827)</b> - The project would seek to improve the nutritional, health and educational status of young children and pregnant, and breastfeeding mothers in the poorest populations in selected areas of five states. Environmental Assessment Category C.	Need for consultants not yet determined.	Preparation under way.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
DPEP Bureau of Department of Education, Ministry of Human Resource Development	525.2 (IDA)	<b>(R) Second District Primary Education (IN-PA-35821)</b> - Project will assist the Government in expanding technical and financial support to 11 states for primary education development. Its four components include: (a) building and strengthening institutional capacity in project states; (b) improving the quality of, reducing drop out from, and expanding access to primary education; (c) developing a distance education program to support DPEP in-service teacher training activities; and (d) continuing the DPEP I designed national management structure support to strengthen the capacity of national institutions to appraise, monitor, assist and evaluate state and district investment proposals. Environmental Assessment Category C.	Local consulting services will be required.	Approved by the Executive Directors on June 6, 1996.  Additional financing of US\$25.8 million is expected to be provided by the Government of the Netherlands.  <u>Retroactive financing of US\$4.0 million (about 1% of the credit amount would be made available.</u>
Government of Punjab, Irrigation Department, Public Health Engineering Department of Gas	71.0 (IDA)	<b>(R) Punjab Water Resources Management (IN-PA-44206)</b> - The project will: (a) assist Punjab in developing environmentally sound policy and institutional reforms to improve the efficiency of water resources management across all uses; (b) support the upgrade and new construction of water supply and sanitation schemes covering about 600 villages, while promoting and piloting changes in current practices in the state, including beneficiaries' participation in the design and implementation of projects, full responsibility for operation and management of the schemes by the communities concerned, and beneficiaries' contribution to capital costs; (c) provide support for project monitoring and institutional strengthening of the Public Health Engineering Department; and (d) promotion of hygiene education. Environmental Assessment Category B.	Consulting services will be required for: (a) feasibility studies and designs of rural water supply and sanitation schemes; (b) setting up a computerized management information system (MIS) in the Public Health Engineering Department; (c) groundwater modeling; and (d) other studies and technical assistance in the fields of data collection and water management, institutional reform, water pricing, organization of water committees at the village level, environmental assessments and impact on health.	Pre-appraisal mission in the field. Appraisal tentatively scheduled for September 1996. Negotiations tentatively scheduled for December 1996.
Ministry of Environment and Forestry	50.0 (IDA)	<b>(R) Environmental Management Capacity Building Technical Assistance (IN-PA-43728)</b> - The project would: (a) strengthen environmental policy planning; (b)strengthen environmental monitoring and compliance; (c) support community and non-governmental organization environmental initiatives; and (d) strengthen environmental law infrastructure; (e) bring together all elements of an effective environmental management system in one state, Gujarat. Environmental Assessment Category C.	Local and expatriate consultancy services will be required.	Appraisal mission completed. Negotiations tentatively scheduled for June 17, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Rajasthan Energy Development Agency	49.0 (GEF)	<b>Solar Thermal Power</b> - Project will focus on construction of a solar thermal fossil fuel hybrid power plant of about 140 MW, incorporating a parabolic trough solar thermal field of 35 to 40 MW. Will also include technical assistance package to support commercialization of solar thermal technology. Total project cost is US\$245.0 million. Environmental Assessment Category A.	Consulting services will be required.	Project under preparation.  GEF has approved a US\$750,000 advance for project preparation.  Additional financing of US\$196.0 million to be provided by KfW, GOI and private sector groups to be identified.
National Malaria Eradication Program, Ministry of Health and Family Welfare	170.0 (IDA)	<b>(R) Malaria (IN-PA-10511)</b> - Project will improve the balance of interventions in the National Malaria Eradication Program (NMEP) towards a more effective malaria control strategy. Components include: (a) integrated early detection and prompt treatment; (b) vector control; (c) epidemic planning and rapid response; and (d) institutional strengthening. Environmental Assessment Category B.	Need for consultants currently being assessed.	Preparation under way. Pre-appraisal mission tentatively scheduled for August 1996.
Department of Energy, Government of Rajasthan	350.0 (Bank)	<b>Rajasthan Power Sector Restructuring (IN-PA-38334)</b> - Project would consist of: (a) an investment component to finance expansion and upgrading of transmission and distribution facilities; and (b) a technical assistance package to assist the Government of Rajasthan in implementing the agreed reform program. Environmental Assessment Category A.	Consulting services will be required for implementation of a reform program.	Project preparation under way.  A PPF advance of US\$2.0 million was extended to finance project preparation.
Coal India Ltd.	80.0 (IDA)	<b>(R) Coal India Environmental and Social Mitigation</b> - Project would assist Coal India Ltd. in the implementation of the environmental action plans, rehabilitation action plans and indigenous peoples development plans that are slated to receive financial assistance under the proposed Coal Sector Rehabilitation Project. Environmental Assessment Category A.	Consulting services will be required to strengthen Coal India's capacity to deal effectively with the environmental and social issues of coal mining operations.	Approved by the Executive Directors on May 16, 1996.
Power Grid Corporation of India, Ltd.	400.0 (Bank)	<b>Second POWERGRID System Development (POWERGRID II)</b> - Project will fund: (a) coordination and control systems for the eastern and western regions; and (b) transmission system improvements and interconnections. Environmental Assessment Category A.	POWERGRID will engage consultants to help implement the eastern and western region system projects.	Pre-appraisal under way.
Madras Metrowater and Madras Metropolitan Development Authority	400.0 (Bank)	<b>Third Madras Water Supply and Environmental Sanitation</b> - Project will include rehabilitation and expansion of water distribution in the city and adjacent urban areas, with sewage system improvements and environmental sanitation to include low cost sanitation, solid waste, toxic waste, drainage and sullage disposal. Environmental Assessment Category A.	Consulting services will be required for major engineering design studies. Water master plan, sewage master plan, and some detailed engineering design have been completed. Some studies financed by donors. Remaining consulting requirements are currently being assessed.	Project under preparation at an advanced stage. Appraisal possible in FY97.  (Possible cofinancing for environmental sanitation components is being considered.)

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Bombay Metropolitan Regional Development Authority (BMRDA)	100.0 (IDA)	<b>Bombay Resettlement and Rehabilitation -</b> The project aims to: (a) assist in actual resettlement and rehabilitation of persons affected by the Second Bombay Urban Transport project, and (b) build institutional capacity in the Bombay metropolitan region to manage the future urban R&R demand. The project has three components: (a) investments (shelter for up to 45,000 project affected families); (b) capacity building; and (c) a social development fund. Environmental Assessment Category A.	Three local NGOs (SPARC, SRS and SIDHI), with the approval of the Bank, have completed baseline social surveys on three demonstration sites. Consultants for institutional study, rehabilitation action plans, and the preparation of housing designs (with participation of PAPs) are currently being recruited.	Pre-appraisal planned for September 1996. Project preparation under way.  A PPF (US\$2.0 million) was approved, as well as a PHRD Grant (US\$860,000 million).
Infrastructure Leasing and Financial Services LTD.	200.0 (Bank)/ 50.0 (IDA)	<b>Private Infrastructure Finance (IL &amp; FS) -</b> The proposed project would provide a line of credit to Infrastructure Leasing and Financial Services Ltd. (IL & FS), the proceeds of which would be onlent to special purpose companies established to build and operate commercial infrastructure projects. Environmental Assessment Category A.	Consulting services will be required.	Approved by the Executive Directors on March 28, 1996.
Ministry of Public Health and Family Welfare	170.0 (IDA)	<b>Public Health Capacity Building -</b> The project would strengthen essential public health functions focusing on consumer protection and quality control for food and drugs. The main components would include: (a) quality control of drugs and biologicals; (b) food quality control and safety; and (c) institutional development, research and skills enhancement. Environmental Assessment Category C.	Currently advised by WHO, FDA and CDC. Need for additional consultants currently being assessed.	First preparation mission completed. Next mission scheduled for July 1996.
Roads and Buildings Department	220.0 (Bank)	<b>Andhra Pradesh State Highways -</b> Project will include: (a) widening and rehabilitation of about 1,200 km of state highways; (b) updating and expansion of the existing road management system; (c) technical assistance for institutional reform and strengthening; and (d) consulting services for project design and coordination, and for supervision of civil works. Environmental Assessment Category B.	Messrs. SMEC have been appointed Project Coordinating Consultant (PCC), to carry out project design and coordination, as well as technical assistance for institutional reform. Consulting services will be required for supervision of civil works.	Project in latter stages of preparation.  A PPF of US\$2.4 million has been approved to finance PCC services for initial feasibility studies, design and project coordination.  <u>Procurement:</u> PCC consultants (Messrs. SMEC) commenced July 1995.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministry of Environment and Forests (MOEF)	180.0 (Bank)/ (IDA)	<p><b>(R) Hazardous Waste Management (HWM) -</b> Project's objective is to assist in the implementation of the Government's policy on hazardous materials and hazardous waste management and implement a cost effective sustainable hazardous waste management system. Specific goals are to: (a) strengthen institutions involved in HWM; (b) support the development of a network of properly designed and managed disposal and containment sites for hazardous wastes; and (c) support training and information requirements for implementation of this HWM system.</p> <p>Environmental Assessment Category A.</p>	A short-list of consultants has been finalized. Award of contracts expected by June 15, 1996.	<p>Pre-appraisal completed. Appraisal mission scheduled for September 1996. Environmental impact assessment summary under preparation.</p> <p>PHRD Grant and Danida Trust Fund approved and signed in the amounts of US\$910,000 and US\$435,000 respectively.</p>
Ministry of Health and Family Welfare	300.0 (IDA)	<p><b>(R) Reproductive and Child Health (RCH) -</b> The objective of this project is to: (a) improve the performance of the family welfare system in implementing policy change; (b) strengthen the quality and effectiveness of a defined essential package of reproductive and child health services; (c) expand access to the essential package of services; and (d) improve project implementation through the application of performance-based criteria for continued funding.</p> <p>Environmental Assessment Category C.</p>	<p>TORs for technical support institutions (local consultancies) being finalized. Consultants from WHO, Overseas Development Association (ODA), and International Development Research Center (IDRC) are assisting the team. Participation Fund of US\$30,000 approved for shareholder participation.</p>	Pre-appraisal mission in the field. Appraisal mission scheduled for September 1996.
Ministry of Environment and Forests	28.0 (IDA) 20.0 (GEF)	<p><b>Ecodevelopment -</b> Project would conserve biodiversity by addressing the impact of local people on protection areas (PAs) and the impact of the PAs on local people in seven widely varied sites of threatened biodiversity. Project components comprise: (a) improved PA management; (b) participatory microplanning and implementation of reciprocal agreements including development of alternative livelihoods and resource uses; (c) development of more effective and extensive support through research and monitoring, and environmental education; (d) preparation of future biodiversity projects dealing with additional eco-development biodiversity information and ex-situ conservation; and (e) overall project management.</p> <p>Environmental Assessment Category B.</p>	Most of the consultancies likely to be provided by Indian nationals.	Appraisal mission completed in June 1995. Board presentation expected in July 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
U.P. State Electricity Board	300.0 (Bank)	<b>Uttar Pradesh State Power Sector Restructuring</b> - Project will include: (a) an investment component for rehabilitation and upgrading of existing facilities and priority transmission and distribution (T&D) and demand side management (DSM) related investments; and (b) a technical assistance component to provide assistance to GOUP in implementing the agreed reform program and in the privatization of existing generation and distribution facilities and institutional strengthening to the new power sector institutions. Environmental Assessment Category A.	Consulting services will be required for implementation of the reform program and various investment components. Detailed implementation program has been finalized by the consultants, and is under review by the state government.	Preparation under way. <u>Procurement</u> : Contract preparation under way.
Government of Uttar Pradesh	190.0 (IDA)	<b>UP Diversified Agriculture Support</b> - Project would support vertically integrated agricultural diversification through: (a) strengthening agricultural services especially research and extension with participation of NGOs and private sector initiatives; (b) improved natural resource management; (c) promotion of support for growth enhancing income generating programs in thrust areas which primarily benefit the poor; (d) promotion of greater private sector participation in post-harvest value added activities including agro-processing; and (e) rural roads and markets development. Environmental Assessment Category B.	Individual local and international consultants in selected areas have been identified, and in most cases have begun the work. FAO/CP (Cooperative Program) is also supporting preparation work.	Appraisal mission tentatively scheduled for end June 1996, pending completion of fulfillment of requirements outlined in the Aide-Memoire.
Irrigation and Command Area Development Department	200.0 (IDA)	<b>Third Andhra Pradesh Irrigation</b> - The project will support completion of the Srisailem Right Bank scheme and rehabilitation of the Sriramasagar Project. Other components include agricultural support services, a regional environmental management plan, and retrospective rehabilitation of persons affected by a previous project. Environmental Assessment Category B.	Consulting services will be required during implementation only.	Appraisal mission in the field.
Ministry of Environment and Forests, Ministry of Labor	120.0 (Bank)/ (IDA)	<b>(R) Industrial Safety and Disaster Prevention</b> - Project's objective is to: (a) assist in the implementation of the Government policy on industrial safety; (b) promote the adoption of cost effective safety measures by industry; and (c) provide technical assistance on safety to specialized government agencies and industry. Environmental Assessment Category B.	Letters of invitation issued on March 15, 1996 to 35 consultants in 7 countries. Award of contracts scheduled to be completed by July 30, 1996.	Identification completed. Pre-appraisal mission scheduled for September 1996.  A joint PHRD Grant with the Hazardous Waste Management project has been signed.  Dutch Trust Fund agreement for US\$150,000 has been signed.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
State of Haryana	300.0 (Bank)	<b>(R) Haryana Power Sector Restructuring -</b> The project will support the process of reforming the Haryana power sector with the goals of: (a) supplying electric power under the most efficient conditions in terms of quality and cost to support economic development of the State; and (b) enabling the State's power industry to eventually become a net generator of financial resources. Environmental Assessment Category A.	Two consultants commissioned by Government of Haryana have completed assignments; National Economic Research Associates (NERA) (reform consultant) and Kennedy & Donkin (investment consultant) have issued their final report.	Haryana has decided to implement the reform program. Reform legislation is under preparation. Appraisal will start when the reform legislation is sent for clearance to GOI, and other appraisal conditions are met.  Closing date of PPF has been extended. Various consulting assignments are under preparation. An additional PPF will be requested.
Ministry of Environment and Forests, State Governments	200.0 (IDA)	<b>(R) State Forestry -</b> This is a project which includes the states of Kerala and Uttar Pradesh. The project, which is sector-wide, covers all aspects of forestry including sector policy reforms. The main thrust is a joint forest management with forest villagers and tribal people. Environmental Assessment Category B.	Need for consultants not yet determined.	Pre-appraisal mission for Uttar Pradesh is completed. Pre-appraisal for Kerala scheduled for end June/end July 1996. Appraisal of both Kerala and Uttar Pradesh is scheduled for November 1996.  A PPF is likely.
Grid Corporation of Orissa (GRIDCO) and Orissa Hydro Power Corporation (OHPC)	350.0 (Bank)	<b>Orissa Power Sector Restructuring -</b> The project will include: (a) an investment component to support transmission and distribution rehabilitation and load management/electricity conservation; and (b) a technical assistance component to facilitate the implementation of Orissa's power sector reform program. Environmental Assessment Category B.	Consultants have been appointed.	Approved by the Executive Directors on May 14, 1996.
Government of Haryana, Department of Public Works	121.0 (Bank)	<b>Haryana Highway Upgrading -</b> Project will include: (a) widening and reconstruction of about 800 km of high volume traffic on state highways; (b) establishment and initial operation of a Road Management System (RMS) for state highways; and (c) associated institution strengthening reforms. Environmental Assessment Category B.	Consulting services for project coordination and supervision of civil works being provided by Project Coordinating Consultants.	Project is in latter stage of preparation. Pre-appraisal mission scheduled for November 1996.  A PPF for US\$1.4 million has been established to finance PCC services.  <u>Procurement:</u> PCC consultants started work on October 1, 1995. Road conditions survey contract implemented November 1995.
Ministry of Agriculture/ Indian Council of Agricultural Research/State Department of Agriculture and Agricultural Universities	100.0 (IDA)	<b>National Agricultural Technology -</b> The proposed project would aim to increase the efficiency and relevance of the agricultural technology development and dissemination system through: (a) institutional and policy adjustments; (b) support for priority research and extension activities in accordance with national development objectives, needs of farmers, and sustainable use of natural resource base; and (c) human capital development at all levels in the system. Environmental Assessment Category C.	Preparation work is in progress. Consultants and FAO/CP are assisting with the preparation work. Costs will be covered under a Japanese Grant.	Follow-up preparation mission scheduled for October/November 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministry of Finance	500.0 (IDA)	<b>District Poverty Initiatives</b> - The project would assist in alleviating poverty in selected poor districts in four states. It will emphasize capacity building decentralization and participation to ensure sustainability. Environmental Assessment Category B.	Consultants have been identified for project preparation. Additional consultants still to be appointed based on new emerging tasks.	Project preparation under way by state teams designated by each state.
Bombay Metropolitan Regional Development Authority (BMRDA)	350.0 (Bank)	<b>Bombay Urban Transport II Investment</b> - Project has two major components: (a) the improvement of operating efficiency of the road and commuter rail network, and the bus system, and the development of urban transport planning and traffic engineering institutions; and (b) financial investments in new and upgraded road and rail links, road overpasses, public bus systems, traffic engineering and traffic enforcement measures, and training and technical assistance in support of the above. Environmental Assessment Category A.	Atkins International has provided consultant services for a master plan. Additional consulting services will be required for feasibility and engineering studies for the road, bus, and rail components, as well as for environmental studies. Most of these have been awarded. One tender is still outstanding.	Project was split in December 1994 into two parallel projects. An IDA project is for relocation and resettlements.  A PPF advance of (US\$3.0 million) and a PHRD Grant (US\$3.0 million) have been approved for project preparation.  <u>Procurement:</u> Requests for proposals for preparation studies have been received and contracts awarded for all but one study. Date of appraisal mission to be determined.
Coal India Ltd.	500.0 (Bank) 25.0 (IDA)	<b>Coal Sector Rehabilitation</b> - Project will support the implementation of a reform program for the coal sector. Focus will be on commercialization of the coal industry. The project will also finance equipment for the expansion of existing mines. Environmental Assessment Category A.	Local and foreign consulting services will be required.	Appraisal mission scheduled for September 16, 1996.
Ministry of Health	110.0 (IDA)	<b>(R) Tuberculosis Control</b> - The project would provide for better diagnosis, case management, treatment compliance and monitoring of TB cases in 115 districts and cities in 15 states, so as to reduce transmission of the disease and to reduce morbidity and mortality. Environmental Assessment Category C.	Social assessment studies have been completed. NGO participation has continued with advice from INMED. Non-fee consultants from CDC, WHO, London School of Hygiene, and Tropical Diseases and International Union Against Tuberculosis and Lung Disease (IUATLD) are advising the team.	Follow up appraisal mission in the field to complete appraisal.
Government of UP	80.0 (Bank)	<b>(R) U.P. Water Supply and Environmental Sanitation</b> - Provision of rural water supply, environmental sanitation facilities and health programs. Environmental Assessment Category B.	Consulting services will be required.	Negotiations completed. Board presentation scheduled for June 22, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Nepal</b>				
To be determined	50.0 (IDA)	<b>(R) Power Development Fund (NP-PA-43311)</b> - Project description is to be determined. Environmental Assessment Category A.	Consultants for screening and banking of hydro projects have begun their work. Additional consulting services will be required.	Scope and operational guidelines for power development fund (PDF) will be agreed upon in September/October 1996 during pre-appraisal mission. Projects and beneficiaries will be identified subsequently.
Ministry of Agriculture and Nepal Agricultural Research Council (NARC)	32.0 (IDA)	<b>(R) Agricultural Technology and Dissemination</b> - The project will strengthen the national capacity and efficiency of agricultural research and technology transfer for agricultural productivity. Its components include: (a) strengthening institutional capability by improving organizational structures; (b) upgrading the quality and performance of staff; (c) selective rehabilitation of existing facilities in the Region; (d) research and extension program support; and (e) introduction of improved communication techniques for agricultural technology transfer and marketing information services. Environmental Assessment Category C.	Consultants may be needed for project subcomponents.	Project preparation is in progress with a PHRD fund. Pre-appraisal mission scheduled for late August/early September 1996.
Ministry of Works and Transport (MOWT)	23.0 (IDA)	<b>(R) Multimodal Transit and Trade Facilitation (MTTFP)</b> - The project will improve and modernize Nepal's transit trade through India's ports and road/rail network. Its components are: (a) construction of a modern, inland freight terminal (IFT) with rail/road facilities at Birgunj and another for road traffic at Biratnagar close to the Indian border; (b) construction of a 7 km broad gauge rail siding to Birgunj from the Indian border; and (c) technical assistance and training for improved trade facilitation, computerization of documents, management of IFTS and design and supervision. Environmental Assessment Category B.	Consultants' final report including feasibility, engineering and institutional recommendations received, and comments sent to Government. Draft ACRP (Acquisition Compensation Resettlement Plan) socio-economic baseline surveys received and being followed up during mid-May 1996 mission.	Final project concept document (PCD) issued for review June 4, 1996. Appraisal mission scheduled for June/July 1996.
Rural Water Supply and Sanitation Fund (to be established by Parliament)	18.28 (IDA)	<b>(R) Rural Water Supply and Sanitation</b> - The project's objectives are to raise the standards of living in rural areas by delivering sustainable health and hygiene benefits to the rural population through improvements in water supply and sanitation, improvements in rural incomes through time savings for women as water supplies are brought closer to dwellings in a cost effective and sustainable manner, and improvements in capabilities of sector institutions. Environmental Assessment Category B.	An expatriate technical advisor will be required for a two-year period.	Appraisal mission completed. Negotiations scheduled for June 17, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
<b>Nepal</b>				
Ministry of Forests and Soil Conservation	25.0 (IDA)	<b>(R) Land Resource Management</b> - The project will aim to bring all forest resources in the Terai and Siwaliks under optimal management. The main components of this seven-year project will be: (a) forest resource assessment; (b) preparation and implementation of forest management plans; (c) establishment and management of community forests and private plantations; (d) establishment and maintenance of an environmental management capability within the Ministry and executing agencies; (e) institutional development; (f) forest research; and (g) training. Environmental Assessment Category B.	Preliminary estimates indicate that implementation of the project would require about 450 months of international and national consultants in forest management, resource planning and monitoring, training and environmental management.	Project preparation scheduled to begin during FY97.
Department of Irrigation	80.0 (IDA)	<b>Irrigation Sector</b> - Project seeks to: (a) construct small and medium-sized farmer managed surface schemes and rehabilitate existing farmer managed surface schemes in the Hills and Terai areas; (b) construct farmer-group managed groundwater schemes on the Terai; (c) pursue management transfer in public irrigation schemes; and (d) carry out institutional development support. Environmental Assessment Category B.	Consulting services have been acquired through a PHRD Grant for project preparation. Consulting services will be required for supervision during implementation.	Project preparation is under way. Appraisal mission tentatively scheduled for Fall 1996.
<b>Pakistan</b>				
Ministry of Food, Agriculture, and Livestock	To Be Determined	<b>(R) Agricultural Support Services (PK-PA-10542)</b> - Project would support institutional and management reforms in research, extension, and input supply with the aim of promoting productivity growth of the agriculture sector in a sustainable manner. Environmental Assessment Category: To Be Determined.	Consulting services will be required for preparation.	IEPS to be completed June/July 1996.  PHRD grant awaiting final approval.
Ministry of Science and Technology	44.0 (IDA)/ (Bank)	<b>Industrial Technology For Private Sector Development (PK-PA-43751)</b> - Project aims at reforming technology infrastructure to make it market-driven and linked to private sector leadership. Project components include: (a) restructuring of major national technology and institutions; (b) strengthening the national metrology, standards, testing and quality infrastructure; (c) developing local technology service centers in industrial town clusters; and (d) technical assistance for development of venture capital. Environmental Assessment Category C.	Consulting services and training arrangements will be required from technology institutions similar to those involved in Pakistan.	Pre-appraisal completed. Appraisal pending Government's approval of proposals for institutional change.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Ministry of Food, Agriculture and Livestock	To Be Determined	<b>Agricultural Sector Investment (PK-PA-10541)</b> - Project aims to support continued agricultural growth through private sector development, agricultural price and market policy reforms, phasing out of agricultural public enterprises, and restructuring of public enterprises. Environmental Assessment Category: To Be Determined.	Need for consultants not yet determined.	Project preparation under way.  PHRD Grant has been signed.
Planning and Development Division, Government of Pakistan	250.0 (IDA)	<b>Social Action Program II</b> - Project will focus on improving human resource development through improved social services, particularly for women and NGO institutional development. Environmental Assessment Category C.	Need for consultants not yet determined.	IEPS approved. Project processing schedule under discussion with the Government.
Government, NGOs	7.0 (GEF)	<b>Conservation of Biodiversity</b> - Project to include: (a) preparation of a Biodiversity Action Plan; (b) strengthening of protected area system; (c) improving participatory management of 3 to 5 priority protected areas of global biodiversity significance; (d) human resource and institutional development; and (e) improving biodiversity information. Environmental Assessment Category B.	Consultants will be required for preparation by local office of international NGO.	Preparation discussions under way. Project preparation advance funds have been approved.
Ministry of Railways, Government Secretariat, Pakistan Shippers' Council	200.0 (Bank)	<b>Freight Transport Improvement and Facilitation</b> - Project seeks to assist with the formation and operation of a private railway freight company through introduction of modern customs and other facilitation procedures. Environmental Assessment Category B.	Consultants to be selected by Private Power and Infrastructure Board.	Preparation discussions under way.
Directorate of Education (NA), Department of Education (AJK)	50.0 (IDA)	<b>Northern Education</b> - Project is aimed at improving quality, increasing access and strengthening institutional capacity in the Northern Areas (NA) and Azad Jammu and Kashmir (AJK) areas. Environmental Assessment Category C.	Consulting services will be required through PHRD grant.	Appraisal mission completed.
Department of Health (AJK), Department of Health (NA)	26.7 (IDA)	<b>(R) Northern Health</b> - The project would support improvements in primary health/family planning services in the Northern Areas (NA) and Azad Jammu and Kashmir (AJK). It would also support improvements in access and quality, with a special emphasis on the poor and women, and make use of community-level organizations to help deliver these services. Environmental Assessment Category C.	Consulting services will be required for implementation.	Approved by the Executive Directors on June 13, 1996.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Pakistan Audit Department	25.8 (IDA)	<b>(R) Improvement to Financial Reporting and Auditing</b> - The project will implement the first phase of Government's financial information development strategy, financing equipment, facilities, technical assistance, and training. Major components will include: (a) computer hardware, software development for priority applications, and related facilities; (b) task oriented, sub-professional and professional level accountancy and audit training, MIS skills development and related facilities; (c) consultancy to assist improvement of Government financial systems; (d) support from an International Auditor General's office and/or a professional accountancy body; and (e) studies of private sector financial reporting and economic management. Environmental Assessment Category C.	Consulting services will be required for implementation.	Negotiations currently under way.  A PPF of US\$800,000 has been approved for consultant services and training.
Project Management Unit, Planning and Development Department, Government of Punjab	56.0 (IDA)	<b>Private Sector Groundwater Development</b> - The project would transfer public tubewells in fresh groundwater SCARP areas to farmers' organizations and develop a monitoring and evaluation program as well as a regulatory framework for sustainable use of groundwater by the private sector. Watercourse improvements would be made to facilitate transfer of pumped water by the private tubewells. Drainage facilities in adjoining saline areas would be improved and water conservation measures (improvements to the distribution system) would be undertaken to reduce the amount of drainage effluent. Institutional strengthening, and technical assistance/training would be provided for improving the performance of the sector. Environmental Assessment Category B.	Consulting services will be required for implementation.	Negotiations completed April 30, 1996. Board presentation scheduled for July 18, 1996.
Ministry of Water and Power, Provincial Irrigation Departments	70.0 (Bank)/ 100.0 (IDA)	<b>National Irrigation Program</b> - The project would: (a) decentralize irrigation management; (b) support policy and institutional reforms for participatory irrigation management (PIM); (c) establish public utilities (PUs) and farmer organizations (FOs) on selected major canal commands; and (d) improve the operational efficiency of the irrigation system. Environmental Assessment Category B.	Additional consulting services will be recruited to undertake preparation of additional components.	Project preparation is under way.  A PHRD grant for project preparation was signed on December 23, 1995.

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Karachi Water and Sewerage Board (KWSB)	30.0 (IDA)/ 30.0 (Bank)	<b>(R) Karachi Water Loss Reduction and System Strengthening</b> - The proposed project would: (a) increase utilization of existing systems through rehabilitation to reduce water losses and allow increased system pressure; (b) strengthen the distribution systems to accommodate increased volumes resulting from ongoing investment programs to increase the water supply to the city; (c) enhance system operation capabilities through training; and (d) improve financial operations and promote contracting out of maintenance activities to the private sector. Environmental Assessment Category B.	Consultants have been appointed in September 1995.	Project preparation under way. Pre-appraisal mission scheduled for September 1996.
Ministry of Education and Education Institutes	About 40.0 (IDA)	<b>(R) Education Sector Institutional Reform (ESIR)</b> - The project will support policy reform in the education sector, particularly curriculum/textbook upgrading, teacher training, revamping of the examination system and management information system. Environmental Assessment Category C.	Consultants appointed. Preparation by local working group is under way.	Project preparation under way. Pre-appraisal mission planned for June 1996.
Water and Power Development Authority (WAPDA)	About 135.0 (Bank)/ 150.0 (IDA)	<b>(R) National Drainage Program</b> - The project would have three components: (a) the irrigation and drainage institutional reform component aims at reducing the quantity of excess water and salts to be drained (i.e. drainable surplus) in the longer term, through policies and incentives for better operation and maintenance, improved water allocation and use, and the control of over-irrigation; (b) the drainage investments component aims at evacuating excess water and salts from the Indus Basin; and (c) the drainage research component aims at enhancing the technical foundations of drainage. The private sector beneficiaries and NGOs would have critical roles in design and implementation roles. Environmental Assessment Category B.	Preparation, funded by the UNDP and PHRD Fund, has been carried out by a consortium of NESPAK-MMI. Additional consulting services are required for pre-implementation and implementation activities. Recruitment of NDP consultants under way.	Appraisal mission completed. Negotiations will be scheduled after borrower has approved legal framework in July 1996.  ADB approved a parallel loan of US\$140.0 million in December 1995.  (Cofinancing from OECF is expected.)  <u>Retroactive financing may be requested.</u>
National Crescent Petroleum Limited (NCPL)	95.0 (Bank)	<b>Karachi Hydrocracker</b> - Project would assist in mobilizing resources for cofinancing private sector investments in development of the refinery subsector. Project would also promote: (a) efficiency and ensure petroleum products supply while reducing environmental pollution; and (b) institutional strengthening of project company. Financing will be provided on a limited recourse basis to a private joint venture company, the National Crescent Petroleum Limited (NCPL), with responsibility to design, build, finance, own and operate a hydrocracker complex in Karachi. Environmental Assessment completed in January 1995. Environmental Assessment Category A.	Project management consultants to assist NCPL in project preparation and implementation have been appointed. Financial advisors were appointed by NCPL in December 1994. Equity underwriters appointed in January 1996. Legal advisors to the National Development Finance Corporation (NDFC) appointed in February 1996.	Appraisal mission tentatively scheduled during 1996.  (Cofinancing is expected from other donors.)  <u>Procurement:</u> Project sponsors have selected the turnkey contractor. Negotiations have been completed and signed. Contract documents expected. Operations and Maintenance contract is under review.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
<b>Pakistan</b>				
Environmental Protection Agency of Punjab, Water and Sanitation Agency, Metropolitan Corporation Lahore (MCL)	23.0 (IDA) 25.0 (Bank) 11.0 (GEF)	<b>Punjab Urban Environment</b> - Project seeks to arrest decline of urban environment through appropriate waste collection and disposal, public awareness and EPA strengthening. Project comprises wastewater treatment, solid waste management, public awareness and education, technical assistance for institutional strengthening, and private sector participation in provision of urban services. Environmental Assessment Category A.	Consultancy services will be required for project implementation.	Project in process of restructuring.
Ministry of Finance	30.0 (IDA)	<b>Microenterprise</b> - Project seeks to provide non-subsidized financial assistance to the microenterprise sector by: (a) addressing market failure by promoting linkages between the formal, quasi-formal and informal financial markets; (b) introducing innovative financial instruments; and (c) strengthening institutional capabilities of the intermediaries. The project will involve a range of banking and non-banking financial intermediaries, including commercial banks, leasing companies and NGOs. Environmental Assessment Category B.	Need for consultants not yet determined.	Project appraisal postponed. Date to be determined.
<b>Sri Lanka</b>				
To be determined	100.0 (IDA)	<b>Agricultural Sector Investment</b> - Project will provide financing of agricultural sector investments combined with policy and institutional reforms developed through recent bank sector work. Short and long term financing needs to be determined on the basis of a review of sectoral expenditures. Environmental Assessment Category: To Be Determined.	Consulting services will be required.	Project under preparation. Following discussions with Government, terms-of-reference (TOR) for consultants are being developed for project preparation activities.
Clean Settlement Project Unit	18.5 (IDA)	<b>Clean Settlements</b> - Project is designed to assist improvement of low income settlements, and includes components to build the capacity of communities, provide infrastructure services, and develop institutions. Environmental Assessment Category B.	Consulting services will be required for preparation and implementation.	Project under preparation. A PPF of US\$300,000 has been approved for consultant services, pilot schemes and training.

<b>Implementing Agency</b>	<b>Amount &amp; Probable Lender</b>	<b>Project Description</b>	<b>Consulting Services</b>	<b>Stage of Processing and Action on Procurement</b>
Ministry of Education and Higher Education	50.0 (IDA)	<b>(R) Teacher Education and Deployment</b> - Project seeks to improve education quality by: (a) modifying teacher hiring and deployment practices by establishing mechanisms to respond to actual needs for teachers; (b) strengthening the national coordination of teacher education programs; (c) upgrading teacher educators; (d) strengthening educational management of teacher training programs; (e) rationalizing the number, location and facilities of the National Colleges of Teacher Education; and (f) supporting and monitoring studies in teacher education. Environmental Assessment Category C.	Consulting services in curriculum, cross-creditation, and management will be required during implementation.	Approved by the Executive Directors on June 13, 1996.  (Cofinancing discussions under way.)
Ministry of Transport, Environment and Women Affairs	5.0 (GEF)	<b>National Strategic Planning and Conservation of Biodiversity</b> - Preparation of a Biodiversity Action Plan; in-situ- and ex-situ conservation and research and development investments for medicinal plants. Environmental Assessment Category B.	Consultants will be required for preparation by local office of international NGO.	Preparation discussions under way. Project preparation advance funds have been approved.
Ministry of Finance	About 77.0 (IDA)	<b>(R) Private Sector Infrastructure Development</b> - The project would have two components: (a) creation of a long-term debt facility to provide subordinated loans at market rates to private sector borrowers of up to forty percent of the total cost of infrastructure projects; and (b) provision of technical assistance to provide consultancy services and a limited amount of operational support. Environmental Assessment Category A.	Consulting services will be required for implementation.	Approved by the Executive Directors on June 13, 1996.  (Cofinancing from KfW confirmed.)
Ministry of Finance, Ceylon Electricity Board (CEB)	25.7 (IDA)	<b>Energy Services Delivery</b> - This project would promote private sector development of cost-effective grid and off-grid alternative energy service delivery options, including solar photovoltaic home systems, mini/micro hydro installations, and demand-side management applications. A wind power demonstration component is also included. Environmental Assessment Category B.	Consulting services would likely be required.	Appraisal mission scheduled for June 1996.  (Cofinancing of about US\$7.3 million from the Global Environment Facility (GEF) is expected.)

Implementing Agency	Amount & Probable Lender	Project Description	Consulting Services	Stage of Processing and Action on Procurement
Ministry of Transport, Environment and Women Affairs (MTEWA), Ministry of Agriculture, Land and Forestry (MALF), NGOs and Provincial Council Central Province	19.0 (IDA)	<b>Environmental Action I</b> - The proposed project would be the initial four-year phase to assist the GOSL in environmental planning and management. The emphasis in this first phase is on strengthening the institutional and policy framework of environmental management within which the Bank and other donors would provide assistance in the environmental sector. The project would: (a) support the Government's strategy of restructuring MTEWA's Environment Division (ED) and strengthening the Central Environment Authority (CEA) to carry out its analytical as well as enforcement and monitoring responsibilities; (b) support an ongoing effort to internalize environmental considerations into the overall development planning process; and (c) help GOSL take immediate remedial measures to reverse the trend of environmental degradation through pilot programs of participatory approaches to environmental management. Environmental Assessment Category B.	Consultants will be required for implementation.	Appraisal mission completed. Negotiations tentatively scheduled for October 1996.
Ministry of Health	25.0 (IDA)	<b>(R) Health Services</b> - The project would support key health activities focusing on malaria, HIV/AIDS and reproductive health, nutrition, and health policy. Environmental Assessment Category C.	Consultants will be required for implementation.	Appraisal mission completed. Negotiations tentatively scheduled for July 1996.  <u>Retroactive financing anticipated.</u>
Ministry of Finance Policy Planning, Ethnic Affairs and National Integration	40.1 (IDA)	<b>Poverty Alleviation/Employment II</b> - The project would facilitate access to resources and social services to promote self employment and entry to the market for the poor. Environmental Assessment Category: To Be Determined.	Consulting services will likely be required.	The project has not yet been identified.
Ministry of Education and Higher Education	50.0 (IDA)	<b>(R) General Education II</b> - The project will support the implementation of policy reforms and investment programs to improve education quality. It will focus on better quality school books, increased access through the provision of necessary facilities, equipment and furniture. It will also focus on strengthening the management and financial capacity of the education sector. Environmental Assessment Category C.	Consultants working on project preparation.	Project content identified. Preparation mission scheduled during July 1996.
Mahaweli Authority of Sri Lanka (MASL)	30.0 (IDA)	<b>(R) Mahaweli Restructuring and Rehabilitation (formerly Mahaweli Restructuring)</b> - Restructuring of the Mahaweli Authority including: (a) privatization of commercial activities; (b) transfer of infrastructure to line agencies; and (c) handing over of responsibility for operation and maintenance of distributory and field canals to farmers' organizations. Irrigation and facilities would also be rehabilitated and improved. Environmental Assessment Category B.	Consulting services will be required.	Appraisal substantially completed. Negotiations pending detailed design of irrigation rehabilitation and improvement works.

## MONTHLY OPERATIONAL SUMMARY

### ANNEX I

As explained in "Information About the Environmental Assessment Process", environmental classifications for all projects are included in the Monthly Operational Summary every month. This quarterly annex contains:

- o For Category A projects, the environmental data sheet containing information about the issues and scheduled of the environmental assessment process;
- o For Category B projects, a header showing project status; and
- o For projects in Categories C and T ("to be determined"), a listing of project names and identification numbers.

Structural and sectoral adjustment loans listed in the main text are not included because they do not fall within one of the above three categories for purposes of the directive governing environmental assessment.

Environmental data sheets for projects categories other than A have not been reproduced here because of the volume involved, but are available to the public on request. Any request should identify the data sheets desired by project name and identification number (e.g. 3AFRPA000). Request for a data sheet may be made by writing:

Environmental Data Sheets  
Environment Department  
Room S-5143  
World Bank  
1818 H Street, N.W.  
Washington, D.C. 20433  
USA

or by telephoning 1-202-473-3685 and leaving a message.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : BURKINA FASO Project ID No: BF-PA-306  
Project : Water Supply  
Appraisal Date : October 25, 1996 IBRD Amount (\$m):  
Board Date : May 29, 1997 IDA Amount (\$m): 40.00  
Managing Division : AF4IN Sector: Urban  
Lending Instrument: Specific Investment Loan Status: Lending  
Date for receipt of EA by Bank:  
Date EA Category Assigned: December 6, 1994

---

MAJOR PROJECT COMPONENTS:

Dam, treatment plant, pipe and distribution network.

---

MAJOR ENVIRONMENTAL ISSUES:

Surface water (downstreams); resettlement; and soil

---

OTHER ENVIRONMENTAL ISSUES:

Wildlife.

---

PROPOSED ACTIONS:

Optimizing spillway; participation strategy consultation; partnership with NGO; management of the Nakanabe Basin; relocation plan associated to a development plan of the area.

---

JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

Diverse and significant environmental impacts.

---

REPORTING SCHEDULE:

Environmental Assessment produced end-June 1995. Governmental Mitigation Plan under preparation. Will be available in September 1996.

---

REMARKS:

All local NGOs consulted and involved. Public consultation started in October 1995 and is still active. Additional data sheet cannot be provided at this time. Preparation of the project is underway.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : BENIN Project ID No: BJ-PA-119  
 Project : Oil & Gas Promotion & Privatization  
 Appraisal Date : October 19, 1996 IBRD Amount (\$m):  
 Board Date : May 20, 1997 IDA Amount (\$m): 40.00  
 Managing Division : AF4IE Sector: Other  
 Lending Instrument: Technical Assistance Loan Status: Lending  
 Date for receipt of EA by Bank: N/A  
 Date EA Category Assigned:

---

 MAJOR PROJECT COMPONENTS:

- (a) Studies leading to strengthening the sector.
- (b) Investment promotion leading to the privatization of "Project Petrolier de Seme (PPS).
- (c) Strengthening the "Direction de l'Energie" (DEN).
- (d) Miscellaneous equipment for maintaining the production of the Seme oil field.

---

 MAJOR ENVIRONMENTAL ISSUES:

The risk of oil leaks and blow outs could result in an oil slick and/or widespread fire.

---

 OTHER ENVIRONMENTAL ISSUES:

None.

---

 PROPOSED ACTIONS:

In view of the privatization of the field, an environmental audit will be carried out and would form part of the bidding documents for the privatization of the field and subsequently in any contractual engagement with the private partner. In addition the petroleum Code will be revised to incorporate the necessary measures to protect the environment.

---

 JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

The project is classified as a Category A project because of its potential for widespread environmental damage.

---

 REPORTING SCHEDULE:

Not yet determined.

---

 REMARKS:

Consultant for environmental audit has been identified, and work will be completed by end-March 1993.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : COTE D'IVOIRE Project ID No: CI-PA-1194  
 Project : Rural Land Management(PNGTER)  
 Appraisal Date : April 29, 1996 IBRD Amount (\$m): 0.00  
 Board Date : December 17, 1996 IDA Amount (\$m): 45.00  
 Managing Division : AF4AE Sector: Agriculture  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank:  
 Date EA Category Assigned: March 3, 1994

---

 MAJOR PROJECT COMPONENTS:

(a) Land tenure security; (b) community-based land management planning; (c) financing of investments in the fields of natural resources management, agricultural development and rural infrastructure; (d) training, institutional support, monitoring and evaluation.

---

 MAJOR ENVIRONMENTAL ISSUES:

Based on the preparation work undertaken so far, the project does not appear to raise any major environmental issues.

---

 OTHER ENVIRONMENTAL ISSUES:

N/A

---

 PROPOSED ACTIONS:

Monitoring of environmental and social issues.

---

 JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

The project is the result of the merger of two separate project proposals, one (PNAGER) addressing land tenure security and community-based natural resources management, and the other (PNER) supporting rural infrastructure development. No resettlement or involuntary displacement will take place under the project. The project impact on the environment is expected to be highly positive, with no significant adverse effects. Nevertheless, in view of the variety of environmental and social issues the project will have to deal with, and the sensitive areas in which it will operate (rural areas surrounding gazetted forests, zones with high migration rates, areas with occasional conflicts between farmers and herders), a category A environmental assessment has been proposed.

---

 REPORTING SCHEDULE:

A draft environment assessment of components that were originally part of the PNAGER had been carried out by the Government and received by the Bank in February 1995. Comments by Bank reviewers are being incorporated into the document. The environmental assessment of activities that were originally part of the PNER and a consolidation of the environmental assessment of the PNGTER as a whole has started on May 18, 1996. It will be submitted for public information and comments in Abidjan and in a sample of five mid-size rural villages on June 30, 1996. It is expected to be transmitted by the government to the Bank by August 10, 1996.

---

ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

REMARKS:

None.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : ERITREA Project ID No: ER-PA-34154  
 Project : Ports  
 Appraisal Date : March 27, 1996 IBRD Amount (\$m):  
 Board Date : September 12, 1996 IDA Amount (\$m): 30.00  
 Managing Division : AF2EI Sector: Ports  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: November 01, 1995  
 Date EA Category Assigned: November 24, 1993

---

 MAJOR PROJECT COMPONENTS:

Rehabilitation of berths 5 and 6 in Massava, including improvement to navigation aid and potential dredging.

---

 MAJOR ENVIRONMENTAL ISSUES:

Dredging and disposal of dredged material.

---

 OTHER ENVIRONMENTAL ISSUES:

N/A

---

 PROPOSED ACTIONS:

The material to be dredged by a cutler suction dredger and reclaimed behind the sheet-pile wall to be driven.

---

 JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

Category selected because of dredging to be carried out.

---

 REPORTING SCHEDULE:

Environmental Impact Assessment is part of the update of the Port Master Plan. Final report was completed in January 1996 and recommendations on how to carry out the dredging has been incorporated in the bidding documents for the civil works contract.

---

 REMARKS:

None.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : CENTRAL AFRICA AND THE INDIAN OCEAN Project ID No: F3-PA-44305  
 Project : Chad-Cameroon Petroleum Development & Pipeline  
 Appraisal Date : October 03, 1996 IBRD Amount (\$m):  
 Board Date : April 24, 1997 IDA Amount (\$m): 100.00  
 Managing Division : AF3IE Sector: Energy  
 Lending Instrument: Specific Investment Loan Status: Standby  
 Date for receipt of EA by Bank: May 96  
 Date EA Category Assigned: 08-31-95

---

MAJOR PROJECT COMPONENTS:

(a) Development of Chad's Doba oil fields, including drilling of about 300 wells and construction of associated facilities and infrastructure; (b) construction of a 30", 1,050 km pipeline from the Doba fields to Cameroon's Atlantic Coast, and installation of pumping stations and other facilities; (c) installation of marine (offshore) terminal and marine pipeline facilities in Cameroon; and (d) some technical assistance.

---

MAJOR ENVIRONMENTAL ISSUES:

The length of the pipeline is over 1,000 km and would traverse areas of varying geological sensitivity (which would include forest and populated areas). The project also involves the construction of marine facilities in the Atlantic Ocean. Therefore, it raises environmental issues, including resettlement and possibly other socio-economic issues. Similar issues would arise upstream and around the production wells and other facilities. Preliminary field work indicates that very limited involuntary resettlement will be needed, if at all.

---

OTHER ENVIRONMENTAL ISSUES:

None

---

PROPOSED ACTIONS:

N/A

---

JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

Although most of the project investments would be in remote areas, the impact on the environment could be adverse, and there is need to minimize this with appropriate mitigation plans.

---

REPORTING SCHEDULE:

The sponsors have hired a reputable firm to draw up environmental assessment plans and to assist in developing a route that is environmentally acceptable. The terms of reference for the environmental assessment have been commented on by the Bank and IFC. Field work has been virtually completed and the reports are being drafted. There are also plans to set up an independent expert panel to evaluate the mitigation plans and to monitor the implementation of the environmental assessment.

---

REMARKS:

None

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country	: EQUATORIAL GUINEA	Project ID No:	GQ-PA-656
Project	: Energy I		
Appraisal Date	: November 08, 1996	IBRD Amount (\$m):	
Board Date	: July 15, 1997	IDA Amount (\$m):	10.00
Managing Division	: AF3IE	Sector:	Power
Lending Instrument	: Specific Investment Loan	Status:	Standby
Date for receipt of EA by Bank	: January 1994		
Date EA Category Assigned	: October 22, 1994		

---

**MAJOR PROJECT COMPONENTS:**

(a) Construction by private investors of an 8-MW thermal power plant to replace the existing diesel plant. The new thermal plant will run on gas from the Alba oil field. Presently the gas from the Alba field is being flared.

(b) Rehabilitation of existing hydroelectric plants and distribution net works.

(c) Implementation of environmental monitoring and capacity building for enforcement of environmental regulations in the petroleum sector.

(d) Technical assistance, training and studies leading to the strengthening of the energy sector.

---

**MAJOR ENVIRONMENTAL ISSUES:**

The major environmental issue the project deals with is the growing risks for the environment from increasing petroleum exploration and production activities.

---

**OTHER ENVIRONMENTAL ISSUES:**

The proposed power plant will contribute to reduce global warming because (a) its production will replace diesel generation, and (b) the gas to be used as fuel is presently being flared. Its negative impacts will be minimal because of: (a) its small size, and (b) the fact that it will be built in the general area of the existing condensate plant, i.e., on land already developed for industrial installations, away from the city.

---

**PROPOSED ACTIONS:**

The project will provide to the Ministry of Mines and Energy the means to monitor emissions from petroleum exploration and production activities, and will build capacity of enforce environmental regulations in the oil sector, aiming to safeguard the natural environment.

An environmental assessment will be carried out for the proposed new thermal plant. This assessment will recommend any mitigation measures that might be necessary.

---

**JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:**

The project is classified as a Category "A" because it involves the construction of a thermal power plant.

---

**REPORTING SCHEDULE:**

---

ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

REMARKS:

None.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : KENYA Project ID No: KE-PA-1344  
 Project : Energy  
 Appraisal Date : November 21, 1994 IBRD Amount (\$m): 0.00  
 Board Date : September 17, 1996 IDA Amount (\$m): 100.00  
 Managing Division : AF2EI Sector: Power  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: February 02, 1995  
 Date EA Category Assigned: August 23, 1995

## MAJOR PROJECT COMPONENTS:

Major components are: two 2 x 32 MW geothermal power stations; two 75 MW diesels power stations; Nairobi transmission system strengthening; 60 MW hydroelectric station; LPG import facilities. New 220 kV transmission lines, upgrading of distribution systems.

## MAJOR ENVIRONMENTAL ISSUES:

(a) Harmful effects of condensates on wildlife in the geothermal plant area; (b) possible restrictions on movement of wildlife in the geothermal plant area; and (c) displacement of people and loss of land in the hydropower plant area.

## OTHER ENVIRONMENTAL ISSUES:

(a) Potential for oil spills from the pipeline; and (b) aesthetic effect of transmission lines on landscape.

## PROPOSED ACTIONS:

Most EA studies completed; proposed actions include : (i) fencing of geothermal plant wells to allow wildlife access to most of the area; (ii) wildlife easements between adjacent parks; (iii) reinjection of condensates.

## JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

Energy projects have diverse and significant environmental impacts.

## REPORTING SCHEDULE:

All EAs have been prepared. EAs for transmission lines have been finalized and will be made publicly available.

## REMARKS:

Government has given permission to release EAs. All EA studies are being carried out in full consultation with local groups and NGOs.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : LESOTHO Project ID No: LS-PA-1409  
 Project : Water II  
 Appraisal Date : October 07, 1996 IBRD Amount (\$m): 120.00  
 Board Date : July 29, 1997 IDA Amount (\$m):  
 Managing Division : AF1G1 Sector: Other  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank:  
 Date EA Category Assigned: March 7, 1995

---

MAJOR PROJECT COMPONENTS:

Construction of a 165 m concrete face rock fill dam, a 30 km concrete lined tunnel, a 5 m weir, and a 6 km tunnel.

---

MAJOR ENVIRONMENTAL ISSUES:

Resettlement and income restoration of families living in the dam catchment area. Agricultural land scarce. Exact numbers to be determined in the next 6 months.

---

OTHER ENVIRONMENTAL ISSUES:

Civil works related natural environment issues.

---

PROPOSED ACTIONS:

Being developed by consultants in conjunction with local communities.

---

JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

Major environmental impact expected. Resettlement.

---

REPORTING SCHEDULE:

Baseline studies underway. Resettlement options submitted end Feb 1996.  
 Draft EA due July 1996. Final EA and draft EAP due Oct 1996.

---

REMARKS:

Consultants have mobilized to undertake this work.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country	: CHAD	Project ID No:	TD-PA-503
Project	: Petroleum Sedigi		
Appraisal Date	: October 01, 1996	IBRD Amount (\$m):	0.00
Board Date	: March 27, 1997	IDA Amount (\$m):	10.00
Managing Division	: AF3IE	Sector:	Oil
Lending Instrument:	Specific Investment Loan	Status:	Lending
Date for receipt of EA by Bank:	EA completed		
Date EA Category Assigned:	November 2, 1989		

---

**MAJOR PROJECT COMPONENTS:**

Development of oil field at Sedigi; construction of pipeline, refinery and power plant in N'Djamena to use indigenous oil to meet local demand for petroleum and electricity, and reduce the supply cost of petroleum products and of electric power.

---

**MAJOR ENVIRONMENTAL ISSUES:**

(a) Routing of pipeline which might affect Lake Chad and local population; (b) gas associated with crude oil production of the Sedigi field.

---

**OTHER ENVIRONMENTAL ISSUES:**

Refinery waste.

---

**PROPOSED ACTIONS:**

Detailed design of project, including routing of the pipeline, will minimize any potential risk.

---

**JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:**

Classification is consistent with guidance in OD 4.01.

---

**REPORTING SCHEDULE:**

EA will need to be discussed with government, local organization, etc.

---

**REMARKS:**

None.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : TANZANIA Project ID No: TZ-PA-2797  
 Project : Songo Songo Gas Development  
 Appraisal Date : June 18, 1996 IBRD Amount (\$m):  
 Board Date : October 22, 1996 IDA Amount (\$m): 250.00  
 Managing Division : AF2EI Sector: Thermal  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: December 1994  
 Date EA Category Assigned: December 15, 1993

## MAJOR PROJECT COMPONENTS:

(a) Installation of a gas gathering system; (b) construction of a gas processing facility; (c) construction of a 22 km marine pipeline; (d) construction of a 220 km overland pipeline; (e) construction of a gas-fired generation plant; and (f) distribution rehabilitation & expansion, village electrification.

## MAJOR ENVIRONMENTAL ISSUES:

Relocation of some households in Dar-Es-Salaam urban area and along the pipeline route.

## OTHER ENVIRONMENTAL ISSUES:

Crossing of the Rufigi River.

## PROPOSED ACTIONS:

- A resettlement plan is being prepared.
- Appropriate measures such as suspension or directional drilling will be used to mitigate the impact of the river crossing.

## JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

Category "A." New construction of an underwater and overland pipeline and power plant.

## REPORTING SCHEDULE:

Final report was issued on December 1994. The Executive Summary was issued to the Board on January 24, 1995. Since the location of the thermal plant has been changed, the supplemental EA Review of the existing Ubungo facility has been undertaken. The report dated November 1995 is under review and an amendment to the January 1996 EA was issued to the Board on April 17, 1996.

## REMARKS:

Local groups consulted include the Tanzanian Association of Non-governmental Organizations, the UDS/NGO, the Coast Region Development Association and the Wildlife Conservation Society.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : CHINA Project ID No: CN-PE-34081  
 Project : XIAOLANGDI MULTI. II  
 Appraisal Date : February 11, 1997 IBRD Amount (\$m): 430.00  
 Board Date : September 16, 1997 IDA Amount (\$m):  
 Managing Division : EA2RS Sector: Agriculture  
 LenJing Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: EIA submitted to Board April 15, 1993  
 Date EA Category Assigned:

---

 MAJOR PROJECT COMPONENTS:

a) Construction of a rockfill dam 171 m high, 1370 m crest length and 56 mcm of fill; b) construction of a hydropower station with total capacity of 1800 MW; c) resettlement of 150,000 people in the two provinces of Shanxi and Henan; and d) construction of additional works for river channel stabilization.

---

 MAJOR ENVIRONMENTAL ISSUES:

The project will have very significant environmental benefits. It will provide immediate flood protection for about 4 million people, increasing the water supply for cities of about 15 million people, reduce sediment deposition in the lower reaches of the river; firm up irrigation for 1 million ha; and generate a portion of the peak power needs of Henan and China's central region. The project will increase the safety of some 100 million people downstream from catastrophic floods. The major environmental issue relates to the resettlement of 150,000 people who live in the reservoir area, over a 15-year period. Dams of this size generally have many other negative impacts on downstream fisheries, water quality, health, etc. However, the Yellow River has the highest silt load of any major river in the world. With this dam, silt load will be dramatically reduced, low flows will be increased, and water quality improved. The downstream drainage conditions will be improved by less periodic flooding. Hence, the health effects downstream will improve, and because of less silt and increased low flows, the estuary and river fisheries will be improved quite dramatically. Other environmental impacts of the dam are relatively minor.

---

 OTHER ENVIRONMENTAL ISSUES:

N/A

---

 PROPOSED ACTIONS:

A review of the on-going environmental and resettlement component implementation and monitoring will be performed in January 1997 and this will provide an update of the EIA implementation.

A review of the ongoing environmental and resettlement component. Implementation will be performed in January 1997 and this will provide an update of the EIA implementation .

---

 JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

---

REPORTING SCHEDULE:

An EIA was submitted to the Board on April 15, 1993, for this project. This is only the second tranche of financing for the same project.

---

REMARKS:

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : CHINA Project ID No: CN-PE-3614  
 Project : Guangzhou City Center Transport  
 Appraisal Date : November 15, 1996 IBRD Amount (\$m): 200.00  
 Board Date : April 29, 1997 IDA Amount (\$m):  
 Managing Division : EA2EM Sector: Urban  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: July 1996  
 Date EA Category Assigned:

## MAJOR PROJECT COMPONENTS:

(a) A city center traffic management and safety program to rationalize the existing street system based on a functional hierarchy of roads; (b) highway infrastructure upgrading to support the efficient traffic functioning of the city center street system; (c) bus transport improvements based on a program of bus company enterprise reform, and including procurement of equipment and vehicles; (d) measures for motor vehicle pollution control with an emphasis on treatment of motorcycles; and (e) technical assistance.

## MAJOR ENVIRONMENTAL ISSUES:

New highway construction could lead to: (a) involuntary resettlement; (b) disruption, noise and dust during construction; and (c) increased motor vehicle noise and pollution adjacent to the new highways after opening (potentially offset by improved traffic conditions in the city center).

## OTHER ENVIRONMENTAL ISSUES:

None.

## PROPOSED ACTIONS:

Environmental Assessments are being prepared all new highways, leading to Environmental Action Plans. Resettlement Action Plans have been prepared and submitted to the Bank for review.

Responsibility for preparation lies with the Guangzhou Environmental Protection Office (GEPO) responsible for EAs, and with the Guangzhou Road Engineering Expansion Office responsible for RAPS.

## JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

N/A

## REPORTING SCHEDULE:

An EIA was initiated early in 1995 and is now being finalized with consultant assistance.

## REMARKS:

GEPO are aware of China's national requirements for environmental assessment, resettlement, and public consultation.

Managing Division	: EA2IN	Sector:	Railways
Lending Instrument	: Specific Investment Loan	Status:	Lending
Date for receipt of EA by Bank	: February 1997		
Date EA Category Assigned:			

## MAJOR PROJECT COMPONENTS:

The proposed project is expected to include:

- (a) Construction of a new 421 km, double track, electrified passenger line between Qinhuangdao and Shenyang (Qin-Shen Line);
- (b) Possible double-tracking (without electrification) of 160 km of the Xingxiang to Heze line;
- (c) Construction of a new 376 km single track, diesel traction line from Neijiang to Schuicheng;
- (d) Financing of a system-wide telecommunications, TMIS and transportation equipment;
- (e) Construction of oily wastewater treatment plants at three railway factories; and
- (f) Railway policy reform assistance.

## MAJOR ENVIRONMENTAL ISSUES:

Potential adverse environmental impacts are expected from construction, maintenance and operation of the railway. The most significant are those related to clearing, grading and construction of railbed, loss of vegetative cover, loss of other land uses, modification of natural drainage patterns, landslides, erosion, destruction of cultural sites, interference with movements of wildlife, livestock and local residents, dust, noise and vibration, air pollution, fuel and oil spills, trash and garbage, accidents involving hazardous materials in transit and the presence of non-resident labor force. The project will also have to address land acquisition and resettlement issues.

## OTHER ENVIRONMENTAL ISSUES:

For electrified lines, the impact of additional power generation as opposed to the use of diesel locomotive on the environment will need to be addressed.

## PROPOSED ACTIONS:

The preparation of Environmental Impact Assessments (EIAs) for the major components have been initiated. Environmental Action Plan (EAPs) and Resettlement Action Plans (RAPs), with the associated monitoring and implementation procedures will be prepared in a manner satisfactory to the Bank.

## JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

The construction of a new single-track, partially electrified passenger line will have important implications on land acquisition, resettlement and the environment. This project is similar to others in China with similar implications, which have been assigned an "A" classification and submitted to the Board.

ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

---

**REPORTING SCHEDULE:**

MOS is undertaking the preparation of EIAs, EAPs and RAPs for the major components of the project. Draft EIAs are expected to be submitted to the Bank in February, 1997 for review and comments by the Bank.

---

**REMARKS:**

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country	: CHINA	Project ID No:	CN-PE-36405
Project	: Wanjiashai Water Transfer		
Appraisal Date	: August 31, 1996	IBRD Amount (\$m):	400.00
Board Date	: March 04, 1997	IDA Amount (\$m):	
Managing Division	: EA2RS	Sector:	Irrigation
Lending Instrument	: Specific Investment Loan	Status:	Lending
Date for receipt of EA by Bank	: May 15, 1996		
Date EA Category Assigned	: October 1995		

---

**MAJOR PROJECT COMPONENTS:**

The project essentially consists of a waterway to transfer 1.2 billion cum of water a year from the Yellow River to North Shanxi. The scope of the project under the Bank portion involves only the Phase II portion:

(a) Civil works involves the construction of: (i) the General Main portion of the project which consists of two underground pumping stations to lift water 280 m (104 m each net lift). The pumping stations have a total capacity of 48 cum/s and power needs are 305 MW and (ii) the South Main which consists of 103 km of waterways including seven tunnels 98 km long with a capacity of 25.8 m<sup>3</sup>/sec, three aqueducts, several inverted siphones and canals, and two above-ground pumping stations with an installed capacity of 120 MW. There will be one existing regulating reservoir and several wasteways and other in-canal regulating structures.

(b) Electrical and Mechanical Works consisting of: (i) procurement and installation of pumps (84 nos.), electric motors (84 nos.) and controls for the five pumping stations -- 3 pump stations on the General Main and 2 on the South Main; (ii) procurement and installation of computers and servers, fiber optic network and software for automatic control of the whole network of pump stations, canal regulation structures and wasteways.

(c) Institution Development and Technical Assistance Component: (i) The first part of this component will be for strengthening the Yellow River Diversion Project Corporation through a training program on project planning, cost control, contract management and financial management during project construction and operation as the office changes its status from a state-owned enterprise to a quasi-government corporation with financial autonomy and accountability as a profit center operation; (ii) the second part of the component is to restructure the Fen River Basin Office by corporatizing and commercializing the river basin office. This new river basin corporation could be responsible for all groundwater and surface water management and development within the basin. There will be special programs to: adopt the new accounting system throughout the water/irrigation related project offices; restructure the water pricing system for water resources use for agriculture and municipal and industrial users and to adopt prices which reflect the scarcity costs; adopt a water licensing system for surface and groundwater users; adopt new procedures for fund raising through bonds, loans from banks, equity financing, etc. for projects within the basin; and (iii) the third part will be technical assistance for developing a financing program for Phase III, which will include private sector groups and possible cofinanciers with an aim to improve overall efficiency in bulk water delivery systems.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

---

MAJOR ENVIRONMENTAL ISSUES:

There is negligible negative direct impact for the whole project because most of the waterways would be underground. Some people who will be affected by land acquisition in the regulating reservoir areas (very small areas) and in the inlets and outlets of tunnels crossing deep ravines between mountains. Resettlement action plans are being prepared. Downstream impacts as a result of water diversion have been studied in detail in the Yellow River Investment Planning Study and in the Chinese Water Master Planning Studies. These studies will also be reviewed as part of the environmental assessment.

The indirect impacts as a result of supply of water to cities and industry are the generation of more liquid wastes. Quantification of incremental generation of waste will be a major focus of our investigation. The Shanxi Government however will implement major sewage interceptors and treatment facilities for Taiyuan and Datong using technical assistance from Asian Development Bank (ADB). ADB also has placed loans for sewerage in its lending program for several of these cities in 1997/98. The adequacy of the proposed plans will be evaluated and covenants and institutional components will be included to ensure that impacts are adequately addressed.

---

OTHER ENVIRONMENTAL ISSUES:

N/A

---

PROPOSED ACTIONS:

International consultants were appointed in March 1995 to undertake a thorough review and updating of the Chinese EIA to meet Bank's requirements. The Government also proposes to undertake additional work in defining the additional wastewater generated and plans to collect and treat it.

---

JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

This is an A category project because of the major water quality impacts the project could have as a result of additional waste water generated by Taiyuan.

---

REPORTING SCHEDULE:

See above.

---

REMARKS:

The Chinese version of the EA has already been subject of extensive 3rd party technical review through normal government processes. The more comprehensive study being prepared to satisfy Bank requirements will be made widely available in summary form both within the study area and externally.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : CHINA Project ID No: CN-PE-3643  
 Project : Xinjiang Highway II  
 Appraisal Date : April 12, 1996 IBRD Amount (\$m): 300.00  
 Board Date : October 08, 1996 IDA Amount (\$m):  
 Managing Division : EA2IN Sector: Highways  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: December 1996  
 Date EA Category Assigned: February 1996

**MAJOR PROJECT COMPONENTS:**

The proposed project is expected to include:

- (a) construction of the Urumqi-Kuitun Highway (UKH) and its linking roads:
- i. Bypass to the west of Urumqi consisting of Urabo-Xishan 2-lane Class 2 Auto-only Highway (18.5 km) and Xishan-West Station 4-lane Class 1 Highway (13.9 km);
  - ii. West Station-Kuitun 4 lane Expressway (218.3 km);
  - iii. West Station-Shangshahe Class 1 Highway (16.7 km); and
  - iv. Other 4 linking highways (aggregate length of 18.8 km)
- (b) implementation of a highway network maintenance program;  
 (c) undertaking of a highway safety program;  
 (d) technical assistance, studies, training and equipment for road maintenance, institutional strengthening, highway safety etc.

**MAJOR ENVIRONMENTAL ISSUES:**

Major environmental impacts include dust and noise, soil erosion and impacts on irrigation channels, and transportation of construction materials during the construction period. Traffic noise and vehicle exhaust, soil erosion, and water pollution from service areas were identified as a major adverse impacts during the operation period. Land acquisition and resettlement are needed. About 3,700 persons are affected by land acquisition out of whom about 1,100 would need to be relocated.

**OTHER ENVIRONMENTAL ISSUES:**

A problem deserving special attention is impacts on livestock migration.

**PROPOSED ACTIONS:**

An EIA for UKH was undertaken. An Environmental Action Plan (EAP) and a Resettlement Action Plan (RAP), with associated implementation and monitoring procedures, will be prepared in a manner satisfactory to the Bank.

**JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:**

This project is similar to others in China with important implications for environment and resettlement, which have been assigned an "A" classification, and which have been submitted to the Board.

**REPORTING SCHEDULE:**

The final EIA and EAP for UKH were submitted to the Bank in December 1995 and reviewed by the Bank. The documents were found to be satisfactory. The RAP was submitted to the Bank in February 1996 and was found to be generally acceptable by ASTHR. The final RAP is expected to be submitted to the Bank by June 30, 1996.

ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

---

REMARKS:

None.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : CHINA Project ID No: CN-PE-3646  
 Project : Chongqing Industrial Reform & PC  
 Appraisal Date : November 26, 1995 IBRD Amount (\$m): 170.00  
 Board Date : June 18, 1996 IDA Amount (\$m):  
 Managing Division : EA2EM Sector: Other  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: To be determined  
 Date EA Category Assigned: September 6, 1994

---

 MAJOR PROJECT COMPONENTS:

(a) development of action plans to control industrial pollution; (b) improvement of environmental regulatory framework; (c) relocation/modernization of a priority polluting steel making enterprise; (d) strengthening of environmental institutions; (e) line of credit for industrial restructuring and pollution control; (f) retraining of redundant labor

---

 MAJOR ENVIRONMENTAL ISSUES:

Current levels of air, water and hazardous waste pollution from industry have created a significant threat to the population and natural environment of Chongqing Municipality (CM). Air pollution is largely the result of iron and steel production, nonferrous metallurgy, organic chemical industries, commercial and residential uses of inferior coal/high sulphur and ash, and transport vehicles utilizing high leaded fuels, or diesel fuels with inferior pollution characteristics. Water pollution results from a variety of industry point sources (ferrous, nonferrous metallurgy, food, textile, paper, machinery), municipal sewage, and agricultural sources (nutrients, pesticides, etc.). Hazardous wastes (liquid/solid) are generated primarily by ferrous/nonferrous metallurgy, organic synthesis (chemicals and pharmaceutical). The steel sector is considered a priority polluter of air, water and solid wastes.

---

 OTHER ENVIRONMENTAL ISSUES:

Reform of the municipal environmental regulatory system and structure, relative priorities of pollution sources from the municipal, transport and commercial sectors.

---

 PROPOSED ACTIONS:

Studies were conducted during project preparation to: (a) establish a more rational regulatory framework to control industrial pollution affecting air, water and soil; (b) fully characterize industrial wastewater discharges and industrial hazardous waste management practices; (c) design appropriate air and water quality monitoring networks; and (d) link air quality issues to public health in CM. An overall pollution control plan for the steel sector in CM has been developed. Technical assistance will be provided to Chongqing Environmental Protection Bureau (CEPB) to: (a) prepare an industrial pollution control action plan; (b) establish and operationalize and environmental audit unit (training, monitoring equipment, consultant services); (c) strengthen enforcement capabilities (source monitoring

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

equipment, training); and (d) establish a true environmental baseline (continuous air quality monitoring network). These elements will provide the basis for CEPB to develop a rational strategy for industrial pollution control in CM.

Relocation/modernization of a priority polluting steel making enterprise will provide marked improvements to air and water quality.

---

**JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:**

Relocation of major industrial facility requires appropriate in-depth analysis of potential environmental impacts. The feasibility study will also look at whether relocation of industrial facility involves any resettlement or land acquisition and resettlement action plans will be prepared if required.

---

**REPORTING SCHEDULE:**

CEPB (EA unit) and the enterprise are responsible for EA preparation for projects being funded from credit line. Under the regulatory reform component of the project, institutional strengthening consisting of computer hardware and software will be provided allowing CEPB to more effectively monitor and enforce industrial enterprise compliance with existing EA regulations. For the two steel mill relocation components, the Chongqing Iron and Steel Design Institute and CEPB in collaboration with the affiliated steel companies and an international consultant completed their EAs. Both EAs were approved by the State Environmental Authority (NEPA). ASTEN had reviewed the EAs and their Executive Summaries, and found them to be of sufficient quality to allow the appraisal mission to proceed. A number of comments and questions raised by ASTEN based upon their review of the EA and EA summary were discussed with the Borrower during the appraisal mission. As appropriate, these were incorporated into the project design or resolved to the satisfaction of ASTEN.

---

**REMARKS:**

All industrial subprojects to be financed will be required to submit an environmental assessment prepared by CEPB. An environmental auditing program is designed to deal systematically with major pollution in the industrial sector in CM.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : CHINA Project ID No: CN-PE-3650  
 Project : Inner Mongolia Thermal Power  
 Appraisal Date : March 17, 1997 IBRD Amount (\$m): 400.00  
 Board Date : June 17, 1997 IDA Amount (\$m):  
 Managing Division : EA2IN Sector: Thermal  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: To be determined  
 Date EA Category Assigned: May 20, 1994

---

MAJOR PROJECT COMPONENTS:

Construction of a 22 x 600MW mine-mouth thermal power plant to provide electricity to Beijing and its environs to alleviate shortages and help meet future demands. Studies have shown the project to be the least-cost approach to meet Beijing's power requirements. The proposed project will be the first phase of a 3,600 MW plant which will burn low sulfur coal (0.47%), and therefore not require flue-gas desulfurization. Coal will be brought to the plant by rail, and the project includes construction of a 45km spur line. The plant will employ high-efficiency particulate control and low NOx burners and use a recirculating cooling system. Water requirements will be supplied by pipeline from the Yellow River, about 12km from the plant site. Liquid effluents from the plant site will be treated to acceptable standards and returned to the Yellow river. The plant will be built in a sparsely populated area, and will require resettlement of less than 90 persons in total. Fugitive dust in the area is relatively high, due to the wind erosion and desertification. A Resettlement Action Plan is under preparation and will be submitted to the Bank prior to approval. A project component to control desertification is under discussion with the project sponsors.

---

MAJOR ENVIRONMENTAL ISSUES:

Environmental issues include monitoring and control of the impact of (a) atmospheric emissions on background air quality; (b) withdrawal and discharge of water for power station needs; (c) ash landfill; (d) rail spur; (e) transmission lines associated with the project (although not part of the project). The resettlement and desertification control programs are also major issues.

---

OTHER ENVIRONMENTAL ISSUES:

(a) Fugitive dust; (b) potential project impact on agriculture and underground water; (c) noise; (d) cooling tower plumes in winter.

---

PROPOSED ACTIONS:

An environmental impact mitigation plan has been prepared and submitted to the Bank for final approval and, a resettlement plan is being prepared. An environmental management unit is to be established in the power company. Two continuous weather and air quality monitoring stations have been in operation for more than a year. Additional sampling and analysis equipment are included in the project budget. Operational monitoring will be in accordance with the national "Environmental Supervision and Regulation of Thermal Power Plants". The public have been, and will continue to be, consulted in development and implementation of relevant plans.

---

JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

Major coal-based thermal power plant.

ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

---

**REPORTING SCHEDULE:**

An Environmental Assessment Report (EAR) prepared by the North China Electric Power Design Institute (NCEPDI) was submitted for the Bank's review in July 1995. The final EA was reviewed and found to be satisfactory to the Bank subject to clarification on a few outstanding issues. During appraisal, these questions will be answered.

---

**REMARKS:**

The EAR is being prepared not only for the initial 600 MW included in the project but also for the planned ultimate plant capacity of 3,600 MW. Foreign consultants have been engaged to assist NCEPDI in the revision of the draft developed. It is also possible that other environmental issues may be identified during the course of project development.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : CHINA Project ID No: CN-PE-3654  
 Project : Guangdong-Hunan Highway Corridor (National Highways II)  
 Appraisal Date : April 27, 1996 IBRD Amount (\$m): 400.00  
 Board Date : December 10, 1996 IDA Amount (\$m):  
 Managing Division : EA2IN Sector: Highways  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: February 5, 1996  
 Date EA Category Assigned: October 1994

## MAJOR PROJECT COMPONENTS:

(a) Construction of 280 km of 4-lane expressway in Guangdong and Hunan provinces; (b) construction of approximately 60 km 2-lane class 2 highway between Loudi and Lianyuan; (c) construction of interconnecting roads to the expressway; and (d) institutional assistance and training.

## MAJOR ENVIRONMENTAL ISSUES:

Major impacts include dust, noise, water pollution, soil erosion during construction phase and air pollution, noise, water pollution, social disruption during the operation phase. Land acquisition and resettlement are also anticipated.

## OTHER ENVIRONMENTAL ISSUES:

None.

## PROPOSED ACTIONS:

EIAs, Environmental Actions Plans (EAPs) and Resettlement Action Plans (RAPs) are being prepared in due course.

## JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

This project is similar to other expressway projects in China with important implications for environment and resettlement, which have been assigned as "A" classification.

## REPORTING SCHEDULE:

Discussions on environment and resettlement were held during the identification, preparation and preappraisal missions. EIA reports and draft RAPs were submitted to the Bank in June 1995, reviewed by the Bank during the preparation mission in July 1995. The revised EIA reports, EAPs and RAPs were submitted to the Bank in September 1995, reviewed by the Bank during the preappraisal mission in November 1995. The final EIA reports, EAPs and RAPs were submitted to the Bank by January 31, 1996.

## REMARKS:

The process of environmental review involved inputs from various units in the provinces, including environmental protection bureaus, research

ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

institutes and universities. The affected groups along the highways have been intensively consulted. EIA related information will be disclosed locally in Hunan and Guangdong Provinces respectively and at the Public Information Center of the Bank Headquarters.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country	: CHINA	Project ID No:	CN-PE-36949
Project	: National Highway III		
Appraisal Date	: March 15, 1997	IBRD Amount (\$m):	250.00
Board Date	: August 26, 1997	IDA Amount (\$m):	
Managing Division	: EA2IN	Sector:	Highways
Lending Instrument	: Specific Investment Loan	Status:	Lending
Date for receipt of EA by Bank	: April 12, 1996		
Date EA Category Assigned	: May 1995		

---

**MAJOR PROJECT COMPONENTS:**

The proposed project is expected to include: (a) Construction of (i) the Northern Section of the Beijing-Zhuhai (Jingzhu) Expressway (138 km); (ii) two short sections of the Shanghai-Chengdu (Hurong) Expressway (in total 31 km); (iii) an interconnecting road program connecting the Expressway sections under (i) and (ii) to existing road infrastructure; (iv) Wuhan Junshan Yangtze River Bridge Section (5 km) under BOT finance structure; and (b) technical assistance, studies, training and equipment for road maintenance, institutional strengthening, environment, etc.

---

**MAJOR ENVIRONMENTAL ISSUES:**

Potential adverse impacts include alteration of hydrological regimes and impacts on irrigation channels, soil erosion, impacts on ecosystems and cultural relics, water pollution during the construction, noise and air pollution during the construction and operation, and excavation and transportation of construction materials during the construction. Land acquisition and resettlement are needed.

---

**OTHER ENVIRONMENTAL ISSUES:**

None.

---

**PROPOSED ACTIONS:**

EIAs are underway for major highway components. Environmental Action Plans (EAPs) and a Resettlement Action Plan (RAP), with associated implementation and monitoring procedures, will be prepared in a manner satisfactory to the Bank.

---

**JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:**

This project is similar to others in China with important implications for environment and resettlement, which have been assigned an "A" classification, and which have been submitted to the Board.

---

**REPORTING SCHEDULE:**

EIAs for the Northern Sections of the Beijing-Zhuhai Expressway and Wuhan Junshan Yangtze River Bridge Section are underway by the Highway Research Institute of Ministry of Communications (MOC) and Shanghai Ship and Shipping Research Institute of MOC.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

TOR of EIA for the Northern Section of the Beijing-Zhuhai Expressway were submitted to the Bank in March 1995, reviewed and commented by the Bank during the identification mission in March 1995. TOR for EIA for Wuhan Junshan Yangtze River Bridge Section were submitted to the Bank in April 1995, and commented by the Bank in June 1995. Supplementary TOR of EIA for two sections of Hulong Expressway was submitted to the Bank in September 1995 and commented by the Bank during the preparation mission in November 1995. EIA reports and EAPs for the northern section and the two sections of Hulong Expressway were submitted to the Bank in March 1995. The EIA report and EAP for the Wuhan Junshan Yangtze River bridge section were submitted to the Bank on March 4, 1996. The EIAs and EAPs were reviewed and commented on during preparation mission in May 1996. Draft final Resettlement Action Plans (RAPs) are also expected to be submitted to the Bank by December 31, 1996.

---

**REMARKS:**

The process of environmental review involved inputs from various units in the province, including environmental protection bureaus, research institutes and universities. The affected groups along the highways have been intensively consulted. EIA related information will be disclosed when they are prepared.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : CHINA Project ID No: CN-PE-40185  
 Project : Shandong Environment  
 Appraisal Date : December 01, 1996 IBRD Amount (\$m): 120.00  
 Board Date : May 20, 1997 IDA Amount (\$m): 5.00  
 Managing Division : EA2EM Sector: Pollution  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: June 1996  
 Date EA Category Assigned:

## MAJOR PROJECT COMPONENTS:

(1) Revolving funds for cleaner production and for environmental improvements of the Xiao Qing River Basin; (2) District heating improvement in three cities; (3) Waste water conveyance; (4) Water transmission from Yellow river; and (5) Institution building and training.

## MAJOR ENVIRONMENTAL ISSUES:

None.

## OTHER ENVIRONMENTAL ISSUES:

Not yet determined, but likely to involve disposal of waste residuals from sewerage system, district heating and industrial pollution control components.

## PROPOSED ACTIONS:

To be developed, but likely to include proper disposal of waste residuals from sewerage system, district heating components and industrial pollution control components.

## JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

Environmental improvements in air and water, and industrial cleaner production are principal objectives of Project.

## REPORTING SCHEDULE:

EAs are being prepared by the respective agencies, and will be reviewed during pre-appraisal and appraisal missions and summarized by independent consultant for SAR presentation.

## REMARKS:

Under an about US\$1.0 million PHRD Grant, extensive environmental policy studies are being carried out at the present time on air, notorious/toxic wastes and river basin pollution control management and action plans.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : CHINA Project ID No: CN-PE-41268  
 Project : National Highway IV  
 Appraisal Date : November 15, 1997 IBRD Amount (\$m): 300.00  
 Board Date : June 02, 1998 IDA Amount (\$m):  
 Managing Division : EA2IN Sector: Highways  
 Lending Instrument: Specific Investment Loan Status: Standby  
 Date for receipt of EA by Bank: June 30, 1996  
 Date EA Category Assigned: March 1996

---

MAJOR PROJECT COMPONENTS:

The proposed project is expected to include:

- (a) Construction of a 4-lane, 183 km Tucheng - Changsha expressway in Hunan;
- (b) Construction of a 4-lane, 108 km Shengshan - Tucheng expressway in Hubei;
- (c) Interconnecting road programs in both provinces;
- (d) Yangtze bridge pilot B-O-T;
- (e) Several road improvement sub projects (to be defined); and
- (f) Technical assistance, studies, staff training and equipment to improve highway management, road traffic safety, institutional strengthening etc.

---

MAJOR ENVIRONMENTAL ISSUES:

Potential adverse impacts include soil erosion, construction and operation in flood plain, impacts on ecosystems and cultural relics, noise and air pollution during construction and operation, and impacts on surface water and irrigation channels. The project will also have to address land acquisition and resettlement issues. The impact of the Yangtze bridge during construction and operation will require special attention.

---

OTHER ENVIRONMENTAL ISSUES:

---

PROPOSED ACTIONS:

EIAs for the major components are currently being prepared. Environmental Action Plans (EAPs) and Resettlement Action Plans (RAPs), with associated monitoring and implementation procedures will be prepared in a manner satisfactory to the Bank.

---

JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

The project is similar to others in China with important implications for environment and resettlement, which have been assigned an "A" classification and submitted to the Board.

---

REPORTING SCHEDULE:

Both Hubei and Hunan PCDs are undertaking the preparation of EIAs, EAPs, and RAPs for the major components of the project. These documents are expected to be submitted in June 1996 for review and comments by the Bank.

---

REMARKS:

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country	: CHINA	Project ID No:	CN-PE-44485
Project	: Waigaoqiao Thermal Power		
Appraisal Date	: March 01, 1997	IBRD Amount (\$m):	400.00
Board Date	: June 24, 1997	IDA Amount (\$m):	
Managing Division	: EA2IN	Sector:	Power
Lending Instrument:	Specific Investment Loan	Status:	Lending
Date for receipt of EA by Bank:	August 1996		
Date EA Category Assigned:	March 1996		

## MAJOR PROJECT COMPONENTS:

This low sulfur coal fired power plant is a greenfield project with an ultimate capacity of about 5200 MW implemented in a three phase construction program. The Bank's portion, the second Phase, consists of two units, each of capacity 800 to 1000 MW. Phase I is essentially complete with 600 MW in operation and another 600 MW currently under construction. In order to meet future needs for pollution control, space was set aside during Phase I for a flue gas desulfurization facility (FGD).

Other facilities associated with the plant include switchyard, coal storage and delivery and ash disposal and transport systems. Each of these subsystems will be constructed using World class, state of the art technologies which incorporate major pollution control features.

In addition other projects components include flue gas desulfurization technology to be retrofitted at priority polluting power station(s) which are to be identified as part of project preparation.

## MAJOR ENVIRONMENTAL ISSUES:

**Water pollution:** Potential water pollution impacts include a thermal plume, chemicals from the various plant subsystems (chlorine, feedwater treatment, etc.), sanitary wastes, ash carriage water and coal pile runoff.

**Solid waste pollution:** Potential pollution in this area is primarily from as handling and storage, residual sludges from water treatment systems and construction debris.

**Noise:** Potential impacts from such a large plant could include noise from a variety of sources.

## OTHER ENVIRONMENTAL ISSUES:

**Risk of coal transport ship collisions,** but this risk is considered to be of a very low probability and its impact on humans is minimal.

**Land Acquisition:** (74ha) will be required and about 1000 people resettled. A draft RAP prepared in accordance with OD 4.30 has been received. After Bank review, the final approved RAP will be ready prior to project appraisal.

## PROPOSED ACTIONS:

**Air Pollution Control:** An innovative approach to air pollution control has been developed for this project. Briefly, since this new plant at Wai Gao Qiao will meet both emissions and ambient guidelines for SO<sub>2</sub> without FGD, in part because of clean coal to be used, and efficient combustion, sulfur production control resources will be deployed at other plants in Shanghai

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Municipality which are causing most of the pollution. Candidate plant(s) will be identified for retrofitting of sulfur dioxide controls as part of this project.

For particulate control, electrostatic precipitators will be used on the power plant at Wai Gao Qiao with a collection efficiency adequate to meet Chinese and World Bank emissions standards for dust. NOx controls are not necessary since the plant meets both Chinese standards and World Bank Guidelines.

Water Pollution Control: Yangtze River water is used for once through plant cooling. The plume will be modeled to assure both Chinese and World Bank guidelines (Chinese and World Bank) for other pollutants such as suspended solids, COB, BOD, etc. by using in plant treatment systems.

Solid Waste Pollution Control: Systems to control leachate from the ash disposal site will be incorporated as necessary to insure groundwater integrity. The ash transport scheme will be one minimizing fugitive dust and debris. The coal yard will be designed to minimize which runoff is treated to appropriate Chinese or World Bank requirements before discharge, or recycled with the plant.

---

**JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:**

Major greenfield, coal fired thermal power station in a large urban area.

---

**REPORTING SCHEDULE:**

EIA outline approved by NEPA. Chinese EIA submitted to NEPA (February 1996). English version submitted to the Bank (April 1996). Revised version to conform with OD 4.01 (August 1996)

---

**REMARKS:**

Shanghai Municipal Electric Power Company has prepared a document entitled "Study on FGD Installation in Power Plants in Shanghai" (January 1996) to establish priority sulfur dioxide polluting power plants in Shanghai Municipality. An international consultant will be engaged to confirm the economic analysis and cost estimates, check the air quality modeling, and verify the desulfurization technology selected is most appropriate.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

 MAJOR PROJECT COMPONENTS:

(a) Road Construction. Construction of by-pass subprojects on new alignments in the towns of Weleri, Kaliwungu, Demak and Kudus. Widening and improvements to existing by-passes of Cirebon, Pemalang, and Semarang. The by-passes form some 57kms of the 750 km primary arterial road between Jakarta and Surabaya;

(b) Urban Management and Quality of Life Improvements. Traffic and environmental area management measures in the centers of the project towns, adjustments to the land use and transport investment plans and by-pass ROW protection;

(c) Institutional Development. C1: Strengthening the local government road traffic and transport units serving the project towns to undertake responsibilities for urban transport assigned to them through decentralization; and C2: Strengthening of ANDAL (Environmental Assessment) Section of the Directorate of Urban Roads in the Ministry of Public Works.

(d) Human Resource Development. Technical training of local government staff in the road traffic and transport units;

(e) Primary Urban Road Program. Establishment of a GOI national urban primary road investment program; and

(f) Policy Articulation and Implementation. F1: Support the articulation and implementation by GOI of an expanded urban transport policy for inclusion in the Urban Policy Statement of Repelita VII. F2: Support for preparation/updating of policies, procedures and guidelines for planning, design and management of urban roads.

---

 MAJOR ENVIRONMENTAL ISSUES:

Traffic on the new by-passes will generate noise and air pollution in the areas through which they pass. Weleri and Kaliwungu by-passes each pass close to an existing kampung. On existing by-passes, noise and pollution levels will increase, but the increases are not considered to be significant. On the positive side, the by-passes should remove heavy vehicles (with their accompanying noise and air pollution) from city streets.

The traffic and environmental area management measures in the centers of the towns will help keep traffic flows and speeds to environmentally acceptable levels, improving the quality of life of residents. Resettlement impacts for all schemes are being determined as the final engineering designs are completed. At this time, resettlement has been identified for the bypasses of Kaliwungu and Kudus.

---

 OTHER ENVIRONMENTAL ISSUES:

Impacts during construction - dust, noise: standard clauses to be included in construction contracts.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

---

**PROPOSED ACTIONS:**

- (a) Environmental Assessment has been completed, a Summary EA and Environmental Management and Monitoring Plans have been prepared for the sub-project schemes at Cirebon, Pemalang, Weleri, Kaliwungu, and Semarang.
- (b) Noise barriers or mitigation measures are to be provided for compliance with draft Indonesian standards for Weleri and Kaliwungu bypasses.
- (c) EA for sub-project schemes to be constructed in later years are in progress, and are part of a programmatic approval process which has been agreed with GOI;
- (d) Measures in Component B designed to improve the "Quality of Life" in the center of towns once through traffic diverts to the bypasses;
- (e) TA for institutional strengthening of the AMDAL section of the Directorate of Urban Roads, to assist with environmental management and monitoring; and
- (f) Environmental management and monitoring to be part of the project performance monitoring activities of the Project Management Unit to be established in the Directorate of Urban Roads.

---

**JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:**

It is considered as a Category A project due to potential adverse effects on the Indonesian urban environment, as listed.

---

**REPORTING SCHEDULE:**

EA work on individual road schemes started in April 1995. A Summary EA was submitted at the end of October for the five sub-project schemes being proposed for start of construction in years 1 & 2 of the project. EA reports for sub-projects to be built in later years have to be furnished to the Bank as part of the sub-project approval process. An RAP for resettlement for the Cirebon bypass is being prepared following OD 4.30.

---

**REMARKS:**

It is considered that the summary EA, together with the environmental assessments, management and monitoring plans produced for individual sub-project schemes address the requirements for a regional EA. The traffic and environmental area management measures in each town will be designed by local government, as part of road network development compatible with IUIDP and strategic structure plans. The EA report has been made available to the public locally and was released to the EDs at the World Bank on December 1, 1995.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : INDONESIA Project ID No: ID-PE-44320  
 Project : Gas Development Product  
 Appraisal Date : October 09, 1996 IBRD Amount (\$m): 166.00  
 Board Date : February 25, 1997 IDA Amount (\$m):  
 Managing Division : EA3IE Sector: Refining  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: October 1996  
 Date EA Category Assigned:

## MAJOR PROJECT COMPONENTS:

(a) provision by PGN of a 366.5 kilometer gas transmission pipeline from the gas gathering stations in South Sumatera to PGN's distribution network in West Java, control facilities; 80 km of the line will cross the Sunda Strait; (b) expansion of PGN's gas distribution pipelines, metering, regulation, odorization stations and other associated distribution facilities in West Java; and (c) technical assistance to GOI in gas sector development planning and implementation of gas sector regulation.

## MAJOR ENVIRONMENTAL ISSUES:

Implementation of the project would follow best international petroleum industry practice and no specific environmental issues are envisaged. The pipeline routing would generally avoid the need for population resettlement. This will be confirmed prior to appraisal. If resettlement is needed, a resettlement action plan would be furnished prior to appraisal.

Potential impacts for the offshore section: (i) degradation of aquatic life during construction; (ii) damage to pipeline and fishing equipment in near-shore areas; (iii) accidents caused by gas leakage. Potential impacts in upland areas on: (i) water quality in rivers from runoff and sedimentation; (ii) vegetation due to alteration of drainage pattern; (iii) native vegetation due to introduction of exotic plants; (iv) agricultural activities due to loss of land; (v) migration of wild life; (vi) archaeological sites; (vii) public safety due to gas leakage resulting in gas explosions; (viii) inaccessible natural areas and/or existing infrastructure due to enforced development.

## OTHER ENVIRONMENTAL ISSUES:

N/A

## PROPOSED ACTIONS:

The Environmental Assessment will incorporate a detailed environmental review process, based on O.D. 4.01, the results of which would be incorporated into the final design of the pipeline and the final field development plan.

## JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

O.D. 4.01 classify gas pipeline projects as A projects

## REPORTING SCHEDULE:

N/A

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : VIET NAM Project ID No: VN-PE-4843  
 Project : Inland Waterway and Port Rehabilitation  
 Appraisal Date : November 15, 1996 IBRD Amount (\$m): 70.00  
 Board Date : March 18, 1997 IDA Amount (\$m): 46.00  
 Managing Division : EALIN Sector: Ports  
 Lending Instrument: Specific Investment Loan Status: Standby  
 Date for receipt of EA by Bank: July 1995  
 Date EA Category Assigned: June 1994

## MAJOR PROJECT COMPONENTS:

Rehabilitation and upgrading of about 400 km of primary inland waterways and ancillary facilities in the Mekong Delta; rehabilitation of the Port of Can Tho; provision of navigation aids; technical assistance and training; studies to determine the feasibility of Can Tho Port expansion under phase II.

## MAJOR ENVIRONMENTAL ISSUES:

The rehabilitation and improvement of about 400 km of inland waterway canals in the south will require the dredging and disposal of over 10 million cubic-meters of dredged spoil.

There are plans to use the dredged spoil for the fortification of embankments resettlement site development and as road building material. The possible environmental impacts of the chemical composition of the dredged spoil, its intended uses and disposal would require specific investigation and, if necessary, appropriate measures would have to be taken to mitigate any adverse effects.

Implementation of the project will involve the resettlement of some 5,400 households who have settled along the canals slated for rehabilitation. More detailed studies on this issue, including proposals for resettlement, are being carried out presently.

## OTHER ENVIRONMENTAL ISSUES:

None.

## PROPOSED ACTIONS:

An environmental impact assessment study has been recently completed to determine the effects of the proposed rehabilitation of the canals and the planned uses of the dredged spoil. A draft EMP is under preparation.

A draft Resettlement Action Plan has been prepared and currently under revision by the borrower.

## JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

This project could have major environmental impacts on Viet Nam's

ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

inland waterways and surrounding land areas.

---

REPORTING SCHEDULE:

The first draft of the environmental study has been reviewed by the Bank in May 1996.

---

REMARKS:

The findings of the studies on resettlement being carried out in the context of the Mekong Delta Master Plan by NEDECO in conjunction with the Transport Economic Science Institute (TESI) of the Ministry of Transport has been updated to reflect the proposed project design parameters. Active participation of both local and central agencies was sought during the project preparation and environmental assessment study. A Resettlement Action Plan will be prepared by the Borrower and reviewed by the Bank in coming months.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country	: LEBANON	Project ID No:	LB-GU-45101
Project	:		
Appraisal Date	: July 08, 1996	IBRD Amount (\$m):	
Board Date	: July 02, 1997	IDA Amount (\$m):	
Managing Division	: MN2PI	Sector:	Other
Lending Instrument:	Unidentified	Status:	Lending
Date for receipt of EA by Bank:			
Date EA Category Assigned:			

## MAJOR PROJECT COMPONENTS:

The Project will be carried out as a stand alone private sector investment, which will be implemented under a BOOT (build-own-operate-transfer) arrangements for the Government of Lebanon. As part of the preparatory studies, an environmental assessment will be carried out for the following project components: (i) a tunnel, 24 km in total length, having an initial capacity of 3 m<sup>3</sup>/s, from an existing water intake at Joun on the Awali River to the water treatment plant at Ouardaniye (4.2 km) and then to Khalde (19.6 km), south of Beirut; (ii) a water treatment plant at Ouardaniye; and (iii) a 9 km pipeline to a reservoir at Hedath.

## MAJOR ENVIRONMENTAL ISSUES:

The major environmental issues are: (i) routing and site selection for the tunnel and pipeline; (ii) aesthetic impacts at the water treatment plant and reservoir; (iii) waste water sludge disposal through a marine or fresh water outfall or at a controlled landfill; (iv) procedures for identification and preservation of cultural properties; (v) disposal of excavated rock and fill from tunneling and pipeline construction operations; (vi) consultation with the affected groups; (vii) the effects of the project on water flows in the Awali River; (viii) implementation procedures by the private sector operator of all design and environmental mitigation and monitoring measures; and (ix) oversight monitoring capacity of the implementing agency and Lebanese Ministry of the Environment.

## OTHER ENVIRONMENTAL ISSUES:

## PROPOSED ACTIONS:

The recommendations of the EA will be integrated in the Request for Proposals (RFP) from the private sector and it is anticipated that: (i) adequate water flows are maintain in the Awali River; (ii) the choice of a tunnel and pipeline route alignments through use of environmental criteria; (iii) landscape and revegetation plans are recommended for the water treatment plant, the reservoir, all temporary and permanent access roads, the pipelines right-of-way and burrow areas; (iv) that disposal of water treatment sludge is based on internationally accepted environmental standards; (v) that cultural property field investigations are carried out prior to construction and adequate inspections take place during construction work; (vi) that consultation with community leaders of the affected groups would be carried out on an invitation basis; (vii) that environmental specialists are employed by the private sector during the detailed design, construction and operation phases of the project to implement all appropriate environmental protection measures; and (viii) the private sector operator fund oversight third-party environmental monitoring of the construction and operations phases of the

ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

project, and provide all results to the appropriate Lebanese Government authorities.

---

JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

As a major investment project involving use of land and use of water, both of which are valuable natural resources in Lebanon, public consultation, analysis of alternatives and enforceable mitigation measures, are required, and thus the project is rated as an "A" category.

---

REPORTING SCHEDULE:

Status of Category A Environmental Assessment:

The category A environmental assessment will be carried out prior to issuing the RFP to the private sector.

---

REMARKS:

N/A.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : LEBANON Project ID No: LB-PA-5342  
Project : Coastal Pollution Control and Water Supply  
Appraisal Date : June 27, 1995 IBRD Amount (\$m): 45.00  
Board Date : December 10, 1996 IDA Amount (\$m):  
Managing Division : MN2PI Sector: Sewerage  
Lending Instrument: Specific Investment Loan Status: Standby  
Date for receipt of EA by Bank: October 1994  
Date EA Category Assigned: December 10, 1993

---

MAJOR PROJECT COMPONENTS:

Rehabilitation and extension of water supply and waste water treatment facilities.

---

MAJOR ENVIRONMENTAL ISSUES:

Siting of wastewater treatment plants and outfall mains appropriate design and disposal of effluent and sludge, especially in heavily populated and/or tourist areas. Possible resettlement on one site, water quality aspects.

---

OTHER ENVIRONMENTAL ISSUES:

Industrial pre-treatment. Construction impacts.

---

PROPOSED ACTIONS:

Environmental assessments have identified the mitigating measures to be included in the project.

---

JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

The wide extent of existing pollution from untreated wastewater, which would be addressed under the project, is reason for Category A.

---

REPORTING SCHEDULE:

Completed EAs delivered in February 1995.

---

REMARKS:

None.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : TUNISIA Project ID No: TN-PA-5731  
 Project : Greater Tunis Sewerage  
 Appraisal Date : October 15, 1996 IBRD Amount (\$m): 89.00  
 Board Date : April 15, 1997 IDA Amount (\$m):  
 Managing Division : MNIPI Sector: Sewerage  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: March 1996  
 Date EA Category Assigned: November 1993

---

 MAJOR PROJECT COMPONENTS:

(a) Expansion and rehabilitation of sewerage systems, including the construction of pumping stations, (b) construction of two waste water treatment plants in Tunis, namely Tunis West and Sud Meliane, (c) pilot operations for the reuse of treated water from the plants, (d) technical assistance (use of new technologies) and studies, and acquisition of equipment and tools for environmental monitoring including a mobile station for pre-treatment testing of industrial waste water, and (e) institutional strengthening of ONAS management and environmental monitoring capacities.

---

 MAJOR ENVIRONMENTAL ISSUES:

The project is expected to contribute to environmental improvements because it will: (a) increase wastewater and treatment capacity in the capital with environmentally sound management of by-products of the treatment plants through optimized schemes of treated water reuse and environmentally safe disposal of treated water and sludge, (b) reduce pollution discharges from polluting industries through pretreatment and (c) strengthening the environmental monitoring and management capability of ONAS and its counterpart departments for an effective preservation of the water resources quality.

The disposal and recycling of by-products of the treatment plants will have to be carefully planned together with their management plans to avoid adverse effects on environment.

---

 OTHER ENVIRONMENTAL ISSUES:

Mitigation measures related to the construction and operation phases in order to avoid possible hazards and nuisances may be required. practices to deal with safe management of earth movements and materials disposal.

---

 PROPOSED ACTIONS:

Sectoral Environmental Assessment for sewerage and sanitation has just been completed to identify problems linked with groundwater and surface water quality, define the cumulative impacts on environment of existing and planned investments, review and evaluate the national policy aimed at solving these problems, and make recommendations to improve the situation. There have been proposed general guidelines (taking into account the results of the consultation with the different user's groups) in planning future investments for disposal of treated water in different ecological areas, in selecting the

ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

appropriate technologies of treatment and management of sludge and effluent. Specific Environmental assessment were undertaken for each proposed treatment plant, and the results incorporated in the planning and design of the plants.

---

JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

According to the Bank OD 4.01 and Tunisian regulation on environmental impact assessments, the project is classified as Category "A".

---

REPORTING SCHEDULE:

Environment assessment has been satisfactorily carried out except for (i) public consultation and (ii) costing and financing plan of the mitigation plan.

---

REMARKS:

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : ARGENTINA Project ID No: AR-PA-6010  
 Project : Provincial Agricultural Development I  
 Appraisal Date : February 11, 1996 IBRD Amount (\$m): 125.00  
 Board Date : October 29, 1996 IDA Amount (\$m): 0.00  
 Managing Division : LALER Sector: Agriculture  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: November 1995  
 Date EA Category Assigned: July 09, 1995

---

MAJOR PROJECT COMPONENTS:

(a) Institutional strengthening; (b) rehabilitation and improvement of existing irrigation and drainage systems; (c) flood control; (d) rehabilitation/improvement of rural infrastructure (feeder roads, electrification, marketing, etc.); (e) strengthening of animal health and plant protection services; (f) generation and transfer of agricultural technology; (g) soil conservation and management; and (h) information services.

---

MAJOR ENVIRONMENTAL ISSUES:

The project is expected to help rehabilitate and improve the efficiency of already existing irrigation and drainage systems and help establish an adequate O&M system under the responsibility of Water Users Associations. However, some environmental issues need to be considered such as the effects of the project on hydrology and water quantity and quality; effects on floodplain ecology; the potential for increased incidence of water-borne and water-related diseases; soil erosion; pollution by agrochemicals; impact on soils (waterlogging, salinization, etc.).

---

OTHER ENVIRONMENTAL ISSUES:

The environmental and social impact of farm workers moving into project areas; non-sustainable uses of natural resources (soil, water); increasing social inequality.

---

PROPOSED ACTIONS:

Alternative solutions and mitigatory measures to past environmental problems have been identified during preparation and are being taken into account in project design. Improved water management as proposed by this project, would precisely mitigate some of the environmental impacts already caused in some river basins by the construction of reservoirs and the corresponding irrigation and drainage works, reducing salinity levels and increasing efficiency in water use. The project would not initiate construction of new water schemes but rather would help rehabilitate, improve and maintain already existing irrigation and drainage systems. By the same token, no new roads will be opened, only rehabilitation of existing feeder roads networks is considered. Also other components would focus on improving soil conservation, land use and animal husbandry practices. All land under production has a secure tenure and availability of water as well as improved supporting services would increase productivity and quality of crops, with substantial effects over levels of rural income. Agricultural technology

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

transfer and training of technicians and farmers would contribute to improved, more sustainable practices. Plant and animal health would reduce morbidity and mortality, with economic and health consequences for producers and consumers. Institutional strengthening would improve capacity for project implementation, including environmental monitoring and on-going evaluation, both at the federal as well as the provincial levels. It would also help environmental analysis and screening of new sub-project proposals to be presented during implementation.

---

**JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:**

Category A has been recommended by LATEN since some of the sub-projects being considered (e.g., Pozo Borrado in Santa Fe) included construction of new irrigation or drainage canals within the existing areas with the objective of improving overall efficiency in water management. Nevertheless, it is noteworthy that the project as a whole is designed to improve water management, soil conservation, land use and animal husbandry practices, as well as the institutional capacity (both at the federal and provincial levels) to assess, monitor and solve environmental problems.

---

**REPORTING SCHEDULE:**

TORs prepared and consultants hired to carry out environmental analysis of main provincial and regional sub-projects. Preliminary analyses for six provincial subprojects were received and reviewed by the Bank, and comments sent to the local preparation team. New version of environmental analyses for priority sub-projects involving infrastructure work and where adverse impacts may be possible, as well as a draft Environmental Assessment for the whole project, have been received in November 1995. An Executive Summary (in English) will be distributed to the Executive Directors before appraisal.

---

**REMARKS:**

Government of Argentina is asking experienced local NGOs to carry out independent assessments of the environmental analyses prepared for the most sensitive sub-projects, as well as planning a series of workshops with NGOs and local groups to disseminate and discuss preliminary results of these analyses and receive ideas regarding alternative measures to be considered. One of these NGOs, Wetlands for the Americas, would carry out a complementary study for the "Pozo Borrado" sub-project in Santa Fe.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : ARGENTINA Project ID No: AR-PA-6052  
 Project : Flood Protection  
 Appraisal Date : January 15, 1996 IBRD Amount (\$m): 200.00  
 Board Date : August 15, 1996 IDA Amount (\$m):  
 Managing Division : LALIU Sector: Other  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: June 1995  
 Date EA Category Assigned: December 10, 1993

---

 MAJOR PROJECT COMPONENTS:

(i) Fortification of defenses against floods in selected sites based on economic justification; (ii) upgrading of flood preparedness measures to deal with, and lessen the impact of, future flooding in zones with less economic priority and potential damage gravity; (iii) strengthening institutional capabilities, particularly through technical assistance and training; and (iv) land use and ecological zoning and floodplain areas.

---

 MAJOR ENVIRONMENTAL ISSUES:

Positive environmental consequences are envisaged from the fuller restoration of damaged health, water, sewerage, and housing facilities, potential negative impacts are associated with the construction or upgrading defenses near sensitive areas. Zoning of floodplain will have important land use impacts.

---

 OTHER ENVIRONMENTAL ISSUES:

Institutional capacity for environmental screening of proposed flood protection measures is relatively weak. The cumulative impacts from other development projects, such as the Hidrovia, could be significant.

---

 PROPOSED ACTIONS:

A regional EA is being prepared which will include: environmental zoning maps, and criteria for ecological zoning of floodplain areas; and EA system for the analysis of flood protection projects in all provinces included in the project. In addition, project specific EAs will be carried out for each proposed defense work upgrading.

---

 JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

Sensitive environmental ecosystems may be affected by proposed upgrading of flood protection works; ecological zoning may cause land use changes. There is a need for institutional strengthening for environmental management of flood protection works and ecological zoning enforcement.

---

 REPORTING SCHEDULE:

Start up date for EA: January 1995  
 Final EA draft: June 1995

---

 REMARKS:

ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Two workshops are planned during EA preparation. Regional and local institutions and NGOs will participate in workshops. Regional experts are part of EA preparation team.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : DOMINICAN REPUBLIC Project ID No: DO-PA-7011  
 Project : Power II  
 Appraisal Date : March 06, 1995 IBRD Amount (\$m): 70.00  
 Board Date : December 09, 1997 IDA Amount (\$m): 0.00  
 Managing Division : LA3IN Sector: Power  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: June 1994  
 Date EA Category Assigned: November 8, 1994

---

 MAJOR PROJECT COMPONENTS:

(a) Installation and operation of a 250 MW power plant through the private sector; (b) consultant services for the restructuring of CDE and privatization of the distribution system; and (c) consultant services for implementation of a regulatory framework.

---

 MAJOR ENVIRONMENTAL ISSUES:

- Pollution.
- Institutional weakness on all aspects including EA.

---

 OTHER ENVIRONMENTAL ISSUES:

N/A

---

 PROPOSED ACTIONS:

An environmental component will help to strengthen institutional weaknesses.

---

 JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

The project includes the construction of a Thermal Power Plant of 250 MW of capacity.

---

 REPORTING SCHEDULE:

First Draft: June 1994; Current status: Final Report issued on March 31, 1995.

---

 REMARKS:

None.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : GUYANA Project ID No: GY-PA-35723  
 Project : Secondary Towns Infrastructure Development  
 Appraisal Date : May 19, 1997 IBRD Amount (\$m): 5.00  
 Board Date : October 30, 1997 IDA Amount (\$m): 15.00  
 Managing Division : LA3EU Sector: Urban  
 Lending Instrument: Sector Investment and Maintenance Status: Standby  
 Date for receipt of EA by Bank: December 1995  
 Date EA Category Assigned: October 7, 1994

---

MAJOR PROJECT COMPONENTS:

Policy reform support; institutional strengthening; and infrastructure development and rehabilitation and provision of municipal services.

---

MAJOR ENVIRONMENTAL ISSUES:

Major upgrading of roads and siting of landfills.

---

OTHER ENVIRONMENTAL ISSUES:

Construction and operation of abattoirs; construction and operation of ferry facilities.

---

PROPOSED ACTIONS:

EA will be carried out for the roads, landfills and other infrastructure prior to appraisal. TORs have been proposed by Government and will be reviewed by the Bank. Review of local capacity to implement mitigation and monitoring measures.

---

JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

"A" category assigned because of the potential impact of the infrastructure components.

---

REPORTING SCHEDULE:

EA is being undertaken as part of the project feasibility studies expected to begin in November 1995.

---

REMARKS:

None.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country : MEXICO Project ID No: MX-PA-7726  
 Project : Aquaculture  
 Appraisal Date : November 02, 1994 IBRD Amount (\$m): 36.00  
 Board Date : September 03, 1996 IDA Amount (\$m):  
 Managing Division : LAMXC Sector: Fishing  
 Lending Instrument: Specific Investment Loan Status: Lending  
 Date for receipt of EA by Bank: September 1994  
 Date EA Category Assigned: March 7, 1994

## MAJOR PROJECT COMPONENTS:

(a) Institutional framework; (b) aquaculture development; and (c) social strategy - indigenous peoples development plan.

## MAJOR ENVIRONMENTAL ISSUES:

(a) Construction of shrimp farm in coastal wetlands; and (b) disturbance of habitat of migratory birds.

## OTHER ENVIRONMENTAL ISSUES:

(a) Reduction of nearshore fisheries due to collection of wild shrimp seedstock; (b) human health concerns from cage culture operations in contaminated areas; (c) ensuring adequate water quality; (d) avoiding threats to native fish species from restocking with non-natives (e.g. tilapia); and (e) management of water birds around shrimp ponds.

## PROPOSED ACTIONS:

(a) Develop model to analyze coastal estuarine hydrology under varying scenarios of dredging and other infrastructure development; (b) improve the Mexican EA process via training and revising the methodology; (c) complete land use plans in all states; (d) develop environmental monitoring activities for mangrove ecosystems; (e) establish compensatory protected areas for wetlands converted to shrimp parks; and (f) three community based coastal zone management pilots.

## JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

An "A" rating was necessary as the project proposes development and land use changes in coastal zones and in areas close to wetlands.

## REPORTING SCHEDULE:

Government of Mexico submitted sectoral environmental assessment on June 27, 1994.

## REMARKS:

None.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country	: ALBANIA	Project ID No:	AL-PA-36060
Project	: Highways		
Appraisal Date	: February 12, 1996	IBRD Amount (\$m):	20.00
Board Date	: June 20, 1996	IDA Amount (\$m):	25.00
Managing Division	: EC2ET	Sector:	Highways
Lending Instrument	: Specific Investment Loan	Status:	Lending
Date for receipt of EA by Bank	: N/A		
Date EA Category Assigned	: October 11, 1994		

---

**MAJOR PROJECT COMPONENTS:**

(a) Rehabilitation of main roads, including capacity increases where economically justified, with probable emphasis on the Tirana - Montenegro and Durres - Macedonia (Cafasan) corridors; (b) improvement of maintenance in GRD's District Road Directorates (DRDs) through the provision of equipment; (c) equipment and TA/training to improve road safety.

---

**MAJOR ENVIRONMENTAL ISSUES:**

Construction of new road: Miloti-Lezha (12km). Draft Environmental Assessment Study circulated to Executive Director on February 7, 1996.

---

**OTHER ENVIRONMENTAL ISSUES:**

(a) Adequate exploitation of quarries; (b) proper disposal of waste materials generated during the road improvement process; (c) soil and water pollution from asphalt in the cases of asphalt surface treatment; (d) air pollution control during construction; and (e) adequate drainage and protection against erosion.

---

**PROPOSED ACTIONS:**

Preparation of mitigation plan by project team (under preparation).

---

**JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:**

Road improvement not expected to have major environmental impact. Category "A" because Miloti-Lezha (12 km) is a (the only one) new road of the project.

---

**REPORTING SCHEDULE:**

Draft Environmental Agreement of Miloti-Lezha (12 km) new road circulated to Executive Director on February 7, 1996. Separate environmental analysis due by April 15, 1996.

---

**REMARKS:**

Works would be designed and would be implemented by the MOC (roads) and MTC (ports and railways).

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country	: KAZAKSTAN	Project ID No:	KZ-PA-8507
Project	: Uzen Oil Field Rehabilitation		
Appraisal Date	: June 24, 1995	IBRD Amount (\$m):	109.00
Board Date	: July 02, 1996	IDA Amount (\$m):	
Managing Division	: EC3IV	Sector:	Other
Lending Instrument:	Specific Investment Loan	Status:	Lending
Date for receipt of EA by Bank:	June 15, 1994		
Date EA Category Assigned:	November 30, 1993		

## MAJOR PROJECT COMPONENTS:

Well workovers, rehabilitation of produced fluid gathering, in-field transportation and processing facilities in the most productive part of the field; restructuring and modernization of management control and information system; and training and technical assistance.

## MAJOR ENVIRONMENTAL ISSUES:

Extensive corrosion and failures in the surface infrastructure due to use of untreated sea water in production operations, with subsequent leaks and spills of produced fluid around production, gathering, in-field transportation and processing facilities and formation of oil pits ("lakes") of various size; abandonment of pieces of corroded and failed pipe; improper disposal of production waste.

## OTHER ENVIRONMENTAL ISSUES:

Weak existing occupational health and safety policies and procedures.

## PROPOSED ACTIONS:

Mitigation plan and pilot clean-up and environmental monitoring program outlined in EA Report. Implementation action plans for above to be reviewed and agreed upon during appraisal.

## JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

This is a major rehabilitation project requiring full scale environmental assessment. Therefore, environmental category "A" is assigned.

## REPORTING SCHEDULE:

Draft EA submitted June 1994 and reviewed by the Bank; revised final EA taking Bank comments into account submitted in September 1994. Project processing deferred for time being. EA will be resubmitted for review when decision made on revival of project processing.

## REMARKS:

None.

---

JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:

Since the project is largely one of import support, agro-chemicals would only be a small part of the project. Agro-chemicals would comply with Bank negative lists for such inputs.

---

REPORTING SCHEDULE:

N/A

---

REMARKS:

None.

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

Country	: PAKISTAN	Project ID No:	PK-GU-40547
Project	: Uch Guarantee		
Appraisal Date	: July 26, 1995	IBRD Amount (\$m):	US\$603m
Board Date	: June 28, 1996	IDA Amount (\$m):	
Managing Division	: SALEF	Sector:	Thermal
Lending Instrument:	Unidentified	Status:	Lending
Date for receipt of EA by Bank:	November 15, 1995		
Date EA Category Assigned:	TBD		

---

MAJOR PROJECT COMPONENTS:

The project will consist of a conventional combined cycle plant with an installed capacity of 586 MW to be located in the Baluchistan Province of Pakistan. The power station will use medium-Btu natural gas from the nearby Uch gas field, to be supplied by the Oil and Gas Development Corporation (OGDC), on the basis of a long-term Gas Supply Agreement. Generated power will be sold to the Water and Power Development Authority (WAPDA), on the basis of a long-term Power Purchase Agreement. The project will be implemented by the private sector company, Uch Power Limited (UPL), on a Build-Own Operate basis. UPL will enter into a fixed price turnkey construction contract with General Electric Industrial Power Systems for the construction of the project and into an Operations and Management Contract with the Electricity Supply Board of Ireland for the operations and management of the plant. Debt financing for the project will be provided by the PSEDF in Pakistan, the IFC, and commercial lenders guaranteed by US Eximbank and the IBRD partial risk guarantee.

---

MAJOR ENVIRONMENTAL ISSUES:

The sponsors of the project have prepared an environmental and social soundness assessment (ESSA) for the project following the guidelines of the Bank, IFC and GOP. The ESSA considered the impacts of the proposed facility on the physical, ecological and socio-economic environments, and identified mitigation and monitoring activities to minimize potential impacts. Potential environmental impacts of this project include impacts on air quality from emissions, on water and land resources, on the ecology of the area and on the social and cultural environment. The project site is uninhabited and located in an isolated, semi-arid environment. At best, the project site is used occasionally for grazing.

---

OTHER ENVIRONMENTAL ISSUES:

The development of the gas field and of the gas pipeline is outside the scope of this project. However, the Bank has asked that OGDC prepare an ESSA for the gas gathering and processing facilities and for the gas pipeline to the project site.

---

PROPOSED ACTIONS:

The mitigation plan concludes that: (i) by using natural gas as the primary fuel source, the project will not exceed GOP or World Bank emissions and ambient air quality standards for SO<sub>2</sub>, Nox, and particulates and no additional mitigation other than realized by the project as designed will be required; (ii) water use impacts will be mitigated by the withdrawal of water from the feeder canal only during periods of average or high flows. Furthermore, the liquid streams resulting from the project are neither hazardous nor toxic and they will be entirely contained on site, and the zero

## ENVIRONMENTAL DATA SHEET FOR CATEGORY "A" PROJECTS

discharge design for liquid effluents will therefore not adversely impact surface water or groundwater in the area; (iii) adverse impacts on worker safety will be minimized by implementing an occupational health program that includes consideration of chemical exposure, noise protection, medical monitoring and respiratory protection; (iv) the project will not result in adverse impacts to the ecological environment and therefore no mitigation is proposed; and (v) no relocation of individuals or homesteads is necessary. Appropriate arrangements have been made for payment of compensation to the owners. UPL will also put in place a program of "social uplift" in the area and will require the O&M contractor to train and hire local people.

---

**JUSTIFICATION/RATIONALE FOR ENVIRONMENTAL CATEGORY:**

OD 4.01 requires a category "A" designation for this type of project.

---

**REPORTING SCHEDULE:**

The ESSA was prepared and submitted to the Bank for review. It was revised to incorporate the comments of IFC and ASTEN, and a final ESSA was submitted in April 1995. The project has been cleared by ASTEN and ASTHR.

---

**REMARKS:**

The ESSA and ESSA Executive Summary are available at the Public Information Center

Signed by: Z. Ladhibi-Belk (Tsk Mgr) / N. Elreedy

## *Prospective World Bank Guarantee Operations*

PROJECT	BANK GUARANTEE	SCHEDULE
<b><i>SOUTH ASIA</i></b>		
<p><b>Pakistan: Freight Transport Project</b> (Private Sector). Establishment of a freight operating company by private sector sponsors to transport fuel to new private power projects. Total project cost: US\$50 million.</p>	<p>The need for and size of a partial risk guarantee against government sovereign payment obligations will be determined upon selection of sponsors.</p>	<p>Board: FY97</p>
<b><i>LATIN AMERICA &amp; THE CARIBBEAN</i></b>		
<p><b>Colombia: Tobia Grande-Puerto Salgar Toll Road</b> (Private Sector). Government will tender to private investors a concession to build and operate the toll road on a concession basis. Total project cost: US\$180 million.</p>	<p>Guarantee to support private sector financing of US\$70 million. The guarantee could be structured either: (i) as a "roll-over" guarantee for medium-term financing mobilized by the investors in the domestic and international markets; or (ii) a partial risk guarantee to cover specific government obligations. The guarantee option will be provided in the bidding documents for the concession.</p>	<p>Board: FY97</p>
<b><i>MIDDLE EAST &amp; NORTH AFRICA</i></b>		
<p><b>Lebanon: Awali-Beirut Water Conveyer Project</b> (Private Sector). Construction of a water conveyer to tunnel water from Juan for a distance of 24 kilometers, with a treatment plant and reservoir, to supply water to south Beirut. Total project cost: US\$150 million.</p>	<p>Partial risk guarantee of at least US\$50 million against government obligations to the project.</p>	<p>Board: FY97</p>
<p><b>Morocco: Jorf-Lasfar Power</b> (Private Sector) Construction of a 660MW coal fired power generation plant by private sponsors, ABB and CMS Energy, which were selected through a competitive process. Total project cost: \$1.33 billion (including lease-back of existing installed capacity of 660MW).</p>	<p>Partial risk guarantee to back Government of Morocco obligations to the project to mobilize private debt financing on a project finance basis. The Bank is also financing a related transmission project with the electric utility ONE.</p>	<p>Board: FY97</p>
<p><b>Morocco: Natural Gas Network Development</b> (Private Sector). Construction of a 240km gas pipeline on a build, own, operate, or build, operate, transfer basis. Private sponsors to be selected by competitive bidding. Total project cost: US\$200 million.</p>	<p>Partial risk guarantee of up to US\$50 million to support commercial financing. The Bank would also provide a loan of up to US\$30 million.</p>	<p>Board: FY98</p>

PROJECT	BANK GUARANTEE	SCHEDULE
<b>EUROPE AND CENTRAL ASIA</b>		
<p><b>Poland: Power Rehab Projects</b> (Public Sector) Rehabilitating and environmental retrofitting of two high-priority power generating plants selected from the recently completed least-cost investment study for the Polish power industry. The project cost for the two plants: US\$515 million.</p>	<p>Provide IBRD loan and partial credit guarantee for up to US\$250 million. The balance of funding to come from internal generation and the National Fund.</p>	Board: FY97
<p><b>Russia: Russian Input Guarantee</b> (Private Sector). Establishment of a Guarantee Facility to issue guarantees to enable foreign and local input suppliers sell inputs to Russian producers on deferred payment terms.</p>	<p>Partial risk guarantee for up to US\$300 million to cover government interference and other political risks to facilitate commercial financing.</p>	Board: FY97
<p><b>Russia: Petroleum Joint Venture</b> (Private Sector). Development of a major new oil field in Western Siberia by a joint venture between international oil companies and a Siberian oil producer. Total project cost: US\$3.2 billion.</p>	<p>Partial risk guarantee for up to US\$500 million. The amount of guarantee would be determined following further investigation of market interest. IFC is interested in cofinancing the project.</p>	Board: FY97
<p><b>Russia/Ukraine: Sea Launch Project</b> (Private Sector). A joint venture to launch earth-orbiting commercial communication satellites from a mobile launch platform near the equator in the Pacific Ocean. Enterprises in Russia and Ukraine will produce the launch vehicles and be shareholders in the joint venture along with Boeing of the US and Kvaerner of Norway.</p>	<p>Partial risk guarantee for up to US\$100 million in Russia and US\$100 million in Ukraine to cover limited political risks associated with the production and export of launch vehicles from Russia and Ukraine. EBRD is reviewing the project for possible participation.</p>	Board: FY97
<p><b>Ukraine: Pre-Export Guarantee Facility</b> (Private Sector). Establishment of a Guarantee Administration Unit to sell guarantees against government performance risks to private foreign entities financing the sale of inputs to Ukrainian agricultural enterprises.</p>	<p>Partial risk guarantee for up to US\$170 million to back government performance risks to facilitate commercial financing for private entities.</p>	Board: FY97
