SMALL GROUPS.
BIG POTENTIAL.

Logitech ConferenceCam BCC950

Small groups video conferencing deserves more than huddling around PC webcams or begging for time on overbooked conference room systems. The ConferenceCam BCC950 combines high quality HD videos and crystal clear audio in a simple, amazingly affordable package, so small groups can run their own video conferences anywhere in the office.

What makes the ConferenceCam Unique?
• First ever all-in-one video and audio conferencing device designed with small groups in mind

• Professional HD video lets small groups be seen
• Crystal clear audio lets small groups be heard
• Remote control and on-unit buttons help control the call from anywhere in the room

FEATURE SPOTLIGHT

All-in-one design combines HD video with high-quality audio clarity
Business-grade video conferencing.

The built-in, full duplex speakerphone and noise-cancelling microphone
Allows all meeting members to hear and be heard clearly up to 8 feet away from the base.

Omni-directional mic pickup and echo cancellation audio
Makes it seem like conversations are happening in the same room.

Remote control and base button control options
Quickly control camera pan, tilt and zoom and volume up/down, mute and answer/hang-up functions during call.

1080p HD up to 30 fps
Business-quality video.

Broad application compatibility
Optimized for Microsoft® Lync™, Certified Skype for Business and Skype™ and works with most other popular video conferencing platforms.

Plug-and-Play compatibility for both PC and Mac® with onboard H.264 encoding
Helps ensure plug-and-play functionality across many video conferencing platforms.

High-quality webcam sensor and Logitech RightLight™ 2 technology
Improves visual quality in low light and backlit situations.

Autofocus and ZEISS® lens certified
Allow detailed documents or visuals to be shared close up during calls.

A 78-degree field of view and 180-degree video pan
Makes the ConferenceCam ideal for small group meetings.

Camera height extender
Places camera focal point at eye-level for the most flattering video angles.

CONNECT THE UNCONNECTED.

Logitech ConferenceCam Connect

The Logitech ConferenceCam Connect goes beyond its award winning design — video conferencing so simple to use that anyone can set it up and so affordable you can enable every meeting room with video. Designed for small groups of up to 6 people, this video conference solution offers a generous 90° field of view with digital pan and mechanical tilt, 4x digital HD zoom, and a certified ZEISS® lens with autofocus making it easy to see everyone in the room.

Multi-device connectivity, a USB and *Bluetooth*® speakerphone, and wireless screen-mirror projection will take your small group collaboration to the next level. It even works with any video conferencing application — including the ones you already use.

With ConferenceCam Connect, you can also use the USB and *Bluetooth*® enabled mobile speakerphone for great-sounding audio calls. With true 360° sound, users can hear and be heard within a 12-foot diameter range while acoustic echo and noise-cancelling technology delivers life-like sound.

Primary Conferencing Locations

- "The Road" 8%
- Home Office 18%
- Conference Room 39%
- Desk or Workspace at Work 35%

From: Wainhouse research, Anywhere Workplace, 2015

90° field of view
With digital pan/tilt and mechanical tilt control.

360° audio with 12-foot diameter range
The acoustics are tuned to provide a quality experience so that users can hear and be heard within a 12-foot diameter range.

Omni-directional full duplex mics
Makes it seem like conversations are happening in the same room.

HDMI connector
Connect the ConferenceCam through HDMI to a TV screen to wirelessly stream content from a mobile device.

Portable All-in-One Design
Sleek, easy to carry, and a snap to set up and use to expand the collaborative potential of the Anywhere Workplace.

Perfect for Small Workgroups
Optimized for teams of 1-6, experience HD 1080p video, 360° sound, and wireless screen-mirror projection in virtually any workspace—and watch productivity soar.

See and Be Seen
Automatically focus on people and objects for razor-sharp resolution wherever the lens is pointed.

Multi-Device Connectivity
Simply connect PC or Mac to conduct life-like meetings within own familiar computing environment, or use the convenience of wireless connectivity for screen mirroring and audio pairing from a compatible mobile device*.

* Compatible with Android and Windows 8.1 – see specifications for requirements.

Interact with Everyone at the Table
The 90° field of view with digital pan, tilt, and 4x digital zoom in Full HD is ideal for small group meetings.

Hear and Be Heard
The acoustics are tuned to provide a quality experience so that users can hear and be heard within a 12-foot diameter range.

Conversations Sound Life-Like and Natural
Acoustic echo and noise-cancelling technology makes it seem like conversations are happening in the same room.

USB Plug-and-Play Connectivity
With no special software, training, or maintenance required, launching an enterprise-quality video conference has never been easier.

Wireless Screen Mirroring
Connect wirelessly to ConferenceCam to screen mirror presentations, spreadsheets, videos or Internet content from a mobile device* to a TV screen.

* Compatible with Android and Windows 8.1 versions – see specifications for requirements.

Logitech ConferenceCam Connect

H.264 UVC 1.5 with Scalable Video Coding (SVC)
Frees up laptop bandwidth by putting video processing within the camera, resulting in a smoother video stream in applications like Microsoft® Lync™ 2013 and Skype for Business.

Professional-Grade Certifications
Optimized for Microsoft® Lync™, Cerfitied for Skype for Business, and Cisco Jabber® and WebEx® compatible* certified ensures an integrated experience with most business-grade video conferencing platforms.

* See www.logitech.com/ciscocompatibility for the latest version.

Near Field Communication (NFC) Technology
Pair mobile devices* to ConferenceCam Connect by simply bringing them close together.

* With mobile devices equipped with NFC technology

Bluetooth® Wireless Connectivity
Quickly and easily create a connection between any Bluetooth® device and the integrated speakerphone.

Far-End Camera Control
Operate camera pan, tilt and zoom functions of another Logitech ConferenceCam or Webcam C930e in the other location*.

* With Microsoft® Lync™ deployments; requires plug-in download

Dockable Remote Control
Easily operate camera pan/tilt/zoom and audio functions (call answer/end*, volume, mute) during meetings. The remote covers the lens when the camera is not in use for added privacy.

* With Skype for Business, Microsoft® Lync™, Skype™, and Cisco Jabber™

Works with Most Video Conference Applications
Users are free to use the desktop video conferencing program of their choice.

Kensington Lock-Enabled
The Kensington Security Slot offers a simple, built in security solution to help provide security from theft.

Rechargeable Battery
Flexibility to leave the power cord behind: run video calls/screen mirroring for up to 3 hours or use the speakerphone for up to 15 hours with a fully charged battery (chargeable via USB or AC power).

CAMERA

Full HD 1080p video calling (up to 1920 x 1080 pixels); 720p HD video calling (up to 1280 x 720 pixels) with supported clients

H.264 UVC 1.5 with Scalable Video Coding (SVC)

Supports H.264 SVC 1080p for Skype for Business and Microsoft® Lync™ 2013, along with optimizations for best call performance in single or multiparty HD video

DESIGNED FOR BIG ROOMS AND EVEN BIGGER IDEAS.

Logitech GROUP

GROUP, the amazingly affordable video conferencing system for mid to large-size conference rooms, allows any meeting place to be a video collaboration space. It's as simple to use as a mobile phone and affordable as an office chair, now it's easier than ever to include anyone in the conversation.

USB plug-and-play connectivity makes GROUP a breeze to deploy and use. It even works within your own familiar computing environment with any video conferencing software application — including the ones you already use.

Razor sharp video and a beautifully designed full-duplex speakerphone deliver an outstanding collaboration experience that's so awesome everyone can be seen and heard. Simply connect a laptop and start a meeting, or use the state-of-the-art speakerphone with a *Bluetooth*® wireless technology enabled mobile device for great-sounding audio calls.
Optimized for 🔗 Lync | Certified for Ⓢ Skype for Business | BlueJeans | fesize | zoom | Vidyo Certified Device | broadsoft | cisco Compatible

Logitech GROUP

Video Conferencing Elevated.
GROUP, our video conferencing solution for groups of 14–20 people, delivers high quality HD video and crystal clear audio, allowing any meeting place to be a video collaboration space. With advanced features like acoustic echo cancelation, noise reduction technology, and intuitive controls now it's easier than ever to include anyone in the conversation.

Video Collaboration Made Simple.
USB plug-and-play connectivity makes GROUP easy to use. Simply connect a laptop to conduct life-like meetings within your own familiar computing environment for use with any video conferencing software application — including the ones you already use. Plus, you can use the state-of-the-art speakerphone with a *Bluetooth* wireless technology enabled mobile device for great-sounding audio calls.

Your Meeting Space. Your Way.
GROUP offers the flexibility to customize conference room set-up with multiple camera mounting options. Use the camera on the table or mount it on the wall with included hardware. The bottom of the camera is designed with a standard tripod thread for added versatility. Conference participants can also clearly converse within a 6m/20' diameter around the base, or extend the range to 8.5m/28' with optional expansion mics.

For razor sharp close-ups of objects and whiteboard content, the GROUP camera offers 10x lossless zoom enabling your team to see every detail with outstanding resolution and clarity.

Logitech GROUP

HD 1080p video quality at 30 frames-per-second
Brings life-like full HD video to conference calls, enabling expressions, non-verbal cues and movements to be seen clearly.

H.264 with Scalable Video Coding (SVC) and UVC 1.5
Preserves PC processing and battery power by putting video processing within the camera adjusting dynamically to the available bitstream. The result is a smoother video stream in applications like Microsoft® Lync® 2013, Skype for Business and in Windows® 8 and Windows® 10.

90° field of view with mechanical 260° pan and 130° tilt
The generously wide field of view and silky smooth pan and tilt controls enhance collaboration by making it easy to see everyone in the room.

10x lossless HD zoom
Zero in on close-ups of objects and whiteboard content with outstanding detail and clarity.

Autofocus
High-precision lens automatically focuses on people and objects to deliver razor-sharp resolution wherever the lens is pointed.

ZEISS® lens certification
Logitech designs and manufactures all ConferenceCam lenses to the highest technical standards to produce optical components of outstanding quality as certified by ZEISS.

Far-end camera control
Operate camera pan, tilt and zoom functions[1] of another Logitech ConferenceCam or Webcam C930e in the other location.

5 camera presets
Multiple camera presets make it easy to frame and focus the lens on frequently used views — such as the conference table, whiteboard, and close-ups — and quickly return to each view at the touch of a button.

Plug-and-play camera setup
Simply connect camera to powered hub with 4.9m/16' cable provided to get up and running in a snap.

Full-duplex speakerphone
Hear and be heard with life-like sound that's crisp, clear, and highly intelligible. Plus the cast metal base console is loaded with advanced audio features and intuitive controls.

Spacious audio
Conference participants can converse within a 6m/20' diameter around the speakerphone and be heard so clearly by remote participants that it seems like conversations are happening in the same room.

Optional expansion mics
Expand the conversation area from 6m/20' to 8.5m/28' so that even those away from the speakerphone can be clearly heard. Microphones, sold in pairs, are automatically recognized and configured by simply plugging them into the GROUP speakerphone.

Beamforming technology with four omni-directional mics
Conversations sound realistic and natural by minimizing sound reflections (reverb) and distracting audio artifacts.

Acoustic echo cancelation
Advanced acoustic engineering reduces echo, making calls sound more natural.

Noise reduction technology
Ambient noises and other distracting tones are suppressed to support comfortable, natural-sounding conversation on both ends of the call.

HD audio
High bandwidth audio reproduces vocal tones with exceptional quality, enabling people on both sides of the call to enjoy a life-like communication experience.

Visual call status indicator
Onboard LEDs flash to provide visual alerts when on a call, when there's an incoming call and when an incoming call is muted.

LCD displays Caller ID and other info
View call-related info[2] (Caller ID, call duration, etc.) and speakerphone/camera function indicators (volume control, etc.) on LCD display screen.

Plug-and-play speakerphone setup
Simply plug the speakerphone into the powered hub with the supplied 4.9m/16' cable to get up and running in no time.

Tight integration with top cloud communication apps
Logitech partners with the top communication developers to ensure the most integrated and seamless experience when using GROUP.

Compatible with Mac® and PC
Simply connect a PC or Mac® to conduct meetings within the user's own familiar computing environment.

Works with most UC and video conferencing applications
Users are free to use the desktop video conferencing application of their choice.

***Bluetooth* wireless technology and Near Field Communication (NFC) technology**[3]
Connect the speakerphone to a *Bluetooth* wireless technology enabled device for great-sounding audio calls, or pair NFC-enabled mobile devices by simply bringing them close together.

Professional-grade certifications
Leading business certifications (Optimized for Microsoft® Lync® 2013, Certified for Skype for Business, Cisco Jabber® and WebEx® compatible[4]) and enhanced integration with Logitech Collaboration Program (LCP) members[5] ensure an integrated experience with most business-grade video conferencing platforms.

Multiple camera mounting options and device setup configurations
Set up the conference room the way you want with up to a 9.8m/32' range between camera and speaker. Use the camera on the table or mount it on the wall with included hardware. The bottom of the camera is designed with a standard tripod thread for added versatility.

Dockable remote control
Operate camera pan, tilt and zoom, volume up/down and answer/hang-up[6] functions on the base speakerphone console or with remote control that docks in console when not in use.

PTZ app
Control local camera pan, tilt and zoom functions from PC or Mac with simple-to-use software app.

Logitech SmartDock

Logitech® SmartDock is an AV Control Console that revolutionizes the Skype® for Business collaboration experience. Simply walk into a conference room and start your meeting with one-touch join.

Designed in partnership with Microsoft®, SmartDock enables expanded I/O for Surface® Pro 4 that includes support for dual HDMI displays[1], three USB 3.1 ports and Gigabit Ethernet, allowing the IT administrator to connect recommended devices, such as Logitech ConferenceCams. An embedded motion sensor activates the system when anyone enters the room. Content sharing from a laptop is a snap with 1080p60 HDMI input and capture. With the optional extender box, a single 5m cable with HDMI, USB, LAN and power provides a clean and streamlined installation on the conference table.

The pivoting, cast-metal base provides enhanced security for Surface Pro 4. The combination of tamper-resistant screws and a K-lock ensures the tablet is always in place and ready for your meeting.

With Smartdock, pure elegance meets total control to enable consistently remarkable Skype for Business collaboration.
Logitech SmartDock

Affordable, fully-integrated Skype for Business for the meeting space
Fully endorsed by Microsoft, SmartDock provides a complete Skype for Business solution for the meeting space that seamlessly works with your existing displays and Logitech ConferenceCams. With meeting solutions for small to large-sized rooms - now every room can be a video enabled Skype meeting place.

HDMI input for automatic content sharing
SmartDock includes a 1080p60 HDMI input to enable fluid HD content sharing from a laptop—PowerPoint to streaming video (and everything in between!)

Untangle your Video Meetings with SmartDock

BEFORE
AFTER

Clean and clutter free
The SmartDock Extender Box eliminates the need for a separate GROUP hub and power brick, providing a clutter free and clean conference table. The 5m cable with integrated HDMI, USB, power and LAN connectivity supports larger conference room deployments.

Loaded with connectivity
SmartDock supports dual HD displays[1], an HDMI input for 1080p60 content sharing, three USB 3.1 type A ports, Gigabit Ethernet, and a headset mini-plug, allowing users to bring multiple devices to a meeting.

EXTEND SKYPE FOR BUSINESS TO EVERY MEETING SPACE

The sturdy, elegantly designed base provides a premium mount for Surface Pro 4 with elegant industrial design.

Extended I/O for Surface Pro 4
Supports a wide variety of deployments and device connectivity with dual 1080p display ports[1], an HDMI input for 1080p60 content sharing, three USB 3.1 type A ports, Gigabit Ethernet, and a headset mini-plug.

IR motion sensor
Conveniently wakes the system when motion is detected in the meeting space and enables energy saving hibernation mode when the room is empty.

Streamlined deployment
An optional extender box combines HDMI, USB, LAN and power cords into a single 5m cable for a clean, clutter-free installation on the conference table.

Integrated support for Logitech GROUP in optional Extender Box
When used with Logitech GROUP, SmartDock Extender Box eliminates the need for the GROUP hub, power supply and associated cables.

Designed in partnership with Microsoft
Close collaboration between Logitech and Microsoft ensures full and seamless integration with Surface Pro 4 and Skype for Business.

Plug-and-play camera setup
Simply connect camera to powered hub with 4.9m/16' cable provided to get up and running in a snap.

SmartDock works with all Logitech ConferenceCams
SmartDock works with a wide range of meeting room AV devices. All Logitech ConferenceCams work with SmartDock.

Optimized for Skype for Business
SmartDock provides a low-cost, high-quality Skype for Business collaboration experience in shared meeting spaces.
