# About us

## WE ARE POWERED BY INNOVATION AND DIVERSITY

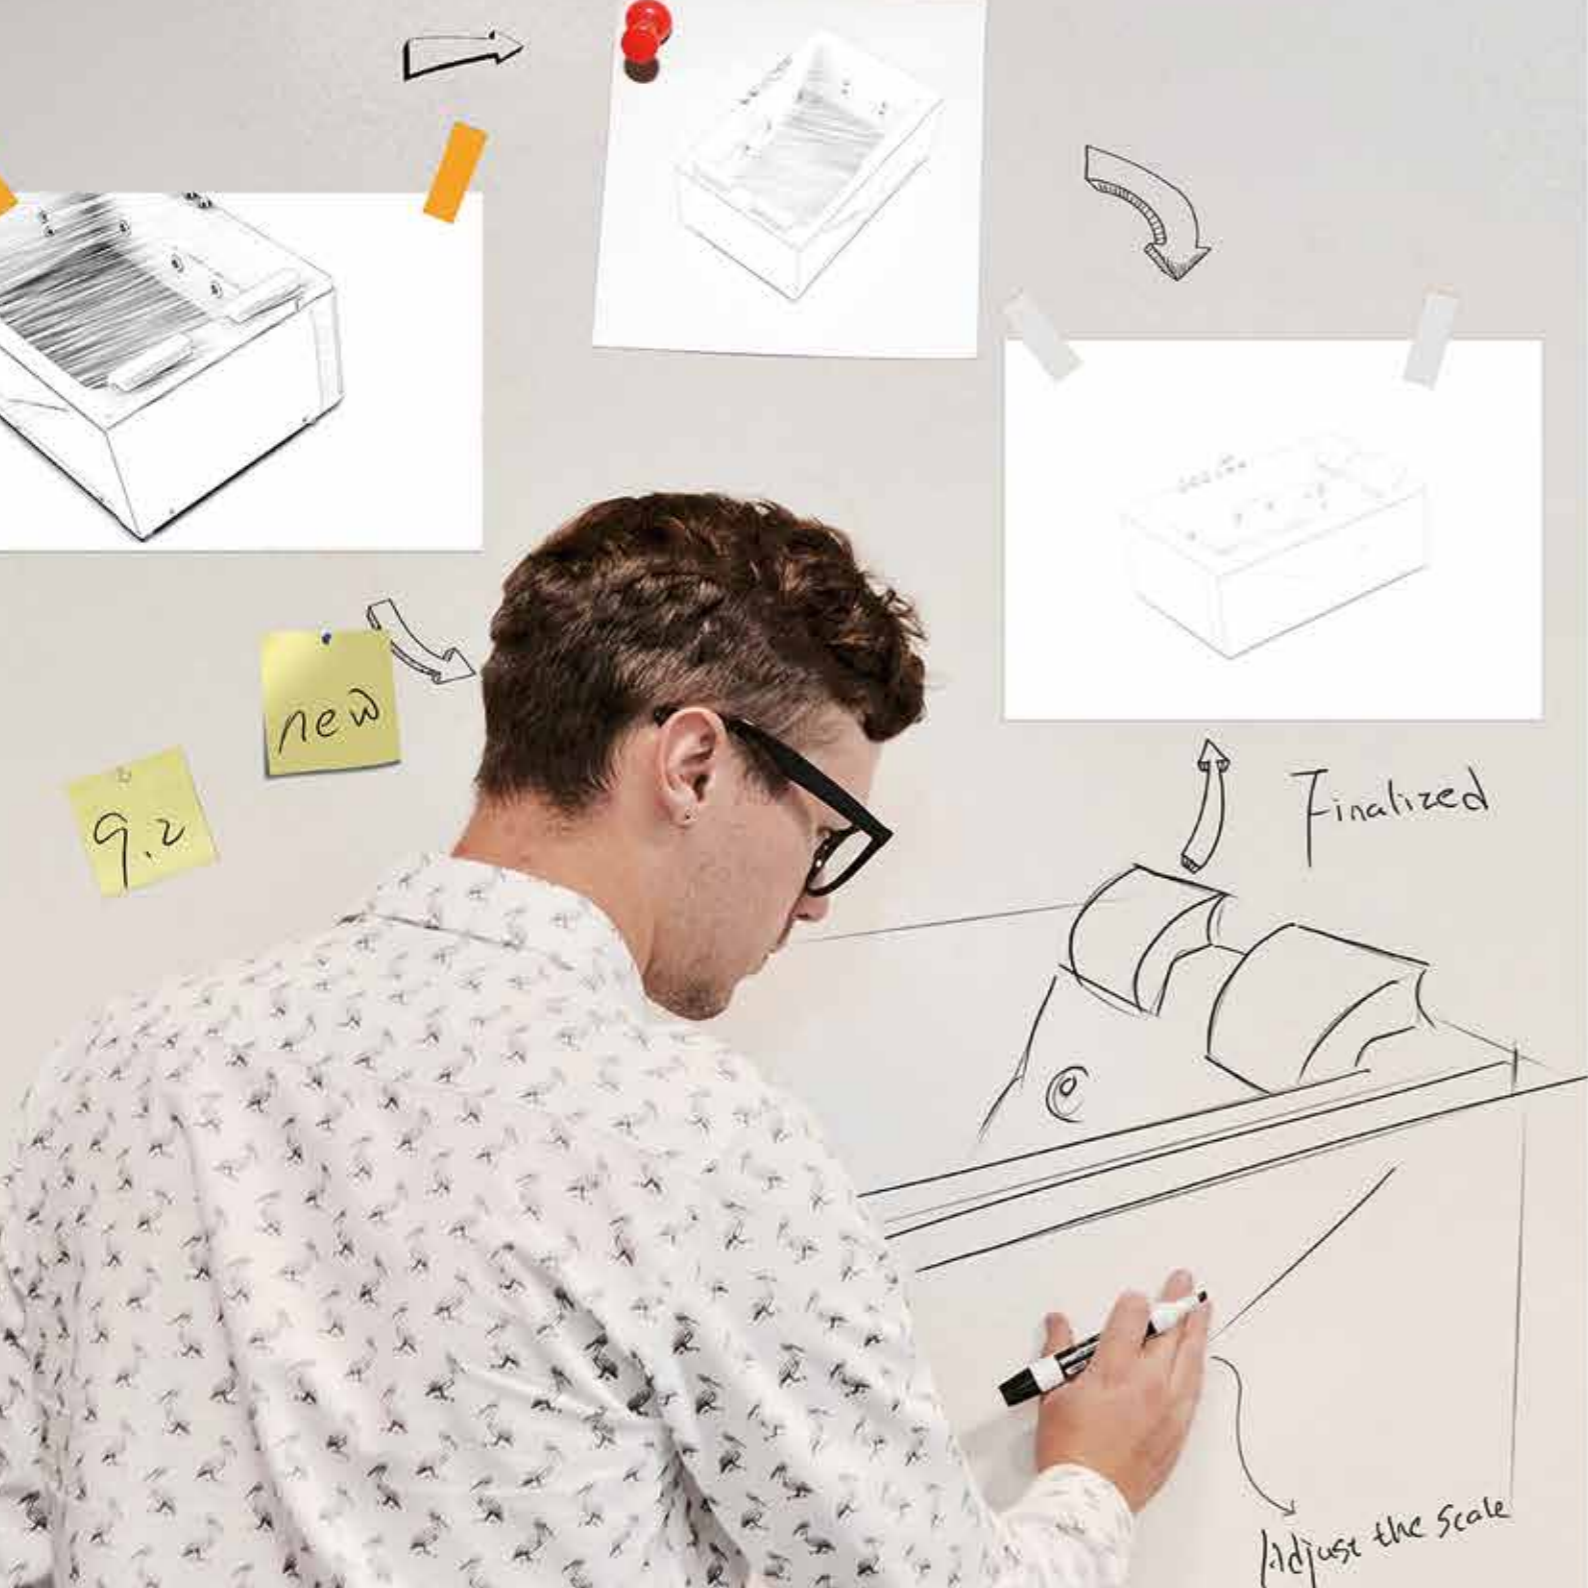

Started In 2002, Empava Appliances has been growing each year and never stop its steps toward our final goal, globalization. Now we are a corporation of 200 members and focusing on the American market. For years, we are powered by a foundation of innovation and diversity, which drives the whole team's enthusiasm and motivation to design and develop quality products that meet people's expectations.

## WE TAKE CONTROL OF THE PROCESS FROM PRODUCING TO SHIPPING

Having our own factory and warehouse closely connected to our office, we are able to put the whole process from producing to shipping under our control, with no third party getting involved so that our service team can respond to customers' requests and solve problems more quickly before and after the sale.

The image shows the exterior of a modern building with a dark, textured facade. The Empava logo is prominently displayed on the upper part of the building. The logo consists of the word "EMPAVA" in a bold, sans-serif font, with three small circles above the "V". The logo is set within a white rectangular frame that is slightly recessed into the building's surface. Below the logo, there is a large glass window reflecting the sky.

EMPAVA

Design

## EMPAVA Style, Professional, Quality And Elegance Are Perfectly Combined.

In the EMPAVA world, we constantly change the inherent characteristics of products through innovation, and the pursuit and persistence of design and our own style make each product deeply branded with our design language.

EMPAVA's products successfully combine technical innovation and functional excellence with aesthetics and attention to detail. In just a few years, we have made extraordinary achievements and gained more and more user recognition.

Now empava has a complete supply chain, an independent R&D center and design center located in California, and design teams from all over the world provide more creative products for life.

*"Make life better and let more ideas come into life."*

This is the vision that founder Ricky has always adhered to. Provide more professional and high-quality products for millions of families around the world.

EMPAVA

*Make life better and let more ideas come into life*

## RANGES

The Empava 36 in. 4.2 cu. ft. Single Oven Gas Range with the CSA Certified is a Perfect Combination of Style and Practicality.

The Exterior Features Stainless Steel Construction for Long-lasting Durability, with the Color-Matched Handle and Knobs Combine, Constructing a Fashion Sense. The gas cooktops feature commercial-grade components the power burner designed to reach maximum temperatures quickly as well as a simmer burner for more delicate, controlled heat.

The Oven Function Includes Preheating, Convection Dehydration, Defrosting, Convection Defrost, Convection Roast, Convection Bake, Infrared Broil, and Natural Airflow Bake. During the Past Years, Gas Range by Empava Appliances Has Been a Very Popular Choice for Kitchen Upgrades and New Builds.

## OVENS

Featuring 6 versatile cooking techniques, capable for multi-purpose such as RVs, light cooking family, small kitchen, or mobile home use.

Stain and heat discoloration-resistant surface and enamel tank only require a quick wipe-down to clean. All Empava wall ovens are equipped with triple layer tempered glass plus low-radiation coating technology. With low-radiation glass, it not only heats up your oven up to 2.5 times faster using less energy but also keeps the outside of the oven cool to touch, avoiding burns and injury, preventing children from harm.

## RANGE HOODS

The ergonomic control knobs are designed for simplicity and ease. The generous 30" width will get caught all the smoke and food particles in the hood before they drift to your kitchen. Ductless Supported

The stainless-steel permanent reusable baffle filter can be cleaned in the dishwasher, which is hassle-free, thus the range hood can maintain a brand-new look for years.

## WINE COOLER

The sleek 304 stainless steel trim door, soft LED interior lighting, low-E glass for improved energy efficiency, and classic slide-out wood trimmed shelves provide a timeless design to showcase your treasured collection. Whatever the setting, these units are sure to spark conversation about their attractive and pleasing aesthetic
