TUF-R® HEAVY LINEAR LOW DENSITY FLAT BAGS

- Made from a unique blend of linear low density (LLD) resin
- This material allows bags to be of a thinner gauge while still providing the same or better strength and puncture resistance as a Standard low density bag of a higher gauge
- Bags meet FDA requirements for use in food applications
- Bottom sealed for added strength

HEADER PAK® HEADER BAGS

- An excellent intermediate solution for bulk packaging tasks
- Bags are constructed of low density polyethylene and because they are packaged on a convenient header with perforations for easy tear off, filling is quick and easy
- Designed to be used with saddle pack stands
- Chipboard header holds bags securely in place for fast filling
- Perforated lip for easy tear-off

PINK ANTI-STATIC POLY TUBING

- Pink anti-static material contains additives that effectively eliminate the hazard of static damage to electronics
- It has a surface resistivity of 10¹² ohms/sq.in. and is amine- free, so it won't damage sensitive polycarbonate boards
- Designed for applications in which Faraday Cage Protection is NOT required

PLASTRONIC® MERCHANDISE BAGS

- High molecular weight, high density film makes these bags strong and durable
- They're embossed for easy opening and are conveniently packaged in a low cube dispenser carton
- Made with controlled-life technology that enables them to break down in the presence of sunlight, heat, moisture, and outdoor elements, but still allows them to be recycled with regular HDPE material
