The vote on the motion was 16 to 9. It was decided to write to San Franelsee in order to ascertain from competent authorities just what constitutes an amateur and a professional driver. A great deal of doubt exists locally upon this point, though why this should be so is hard to tell. A professional driver is a man who has at any time competed for a purse hung up by an association. Whether he won or not is immaterial, the fact that he has competed for money effectually damaging his amateur status.

His owner will give God for help. This brought Mr. Warde him a chance to become thoroughly acto illustrations, and he first took Henry VIII, making the great character of Wolsey stand out like a cameo. He said Shakespeare showed no trace of sectarianism though living in the time when there was high feeling over the America. church, but breathed through all his works the spirit of charity for all, a mare by Playful. Wolsey's great speech when stripped of honors and wealth, "Farewell, a long farewell," was read with care a bang-up third for the English Derby and deep expression, and the colloquy of the Brooklyn Handicap winner, Kinwith Cromwell was just as brilliantly ley Mack.

From this Mr. Warde went on through several parts, the prayer of Greenwich. Henry V before the French army, that | Nullah, the pony, is by imp. Aintree, of Richmond on the eve of Bosworth out of imp. Ainderberry. field, and the deeply touching appeal of the King in "Hamlet," all read with a freedom which turned new lights SHOT HIMSELF upon the actor with each recital and recitation.

Leaving this side of the teachings of the master, Mr. Warde took up Polonius' speech to Laertes as an example of the philosophy, and the words of Cassio in "Othello," "Oh! that man should put an enemy into his mouth to the people. Mr. Warde then told a ley, saying that on a visit two years suicide. ago the chief executive asked if he played "Henry VIII," saying that it himself about 9 o'clock on Sunday was the motto of his own life: "Let night, as a shot was heard near the all thy ends thou alm'st at be thy country's, thy God's and Truth." Now that the President had passed away the victim of the assassin, he thought the quotation might well be ended as had been employed on a plantation, Shakespeare closes it. That Shakespeare was unhappily

married could not be, he said, for otherwise he could not have peopled his pages with the galaxy of beautiful women. He spoke of Mrs. Jameson's the head of the list as the most perfectly womanly woman. With naivete Mr. Warde told the story of Portia and gave the speeches of the colloquy between Portia and Nerissa, and finally between the heroine and the three suitors, ending with Bassanio. During this passage he evoked applause which rung suicide returned by the jury when he said the speech of the Prince of Morocco was one of the manliest of which he knew, and, turning to that portion of the house which was filled with the boys from Kamehameha School, said that they, born under the tropical suns, could well say with that Prince, that they bore the "shadow of the burnished sun." Down through the trial scene he went with Portia, showing her always as the womanly woman, and saying that her speech to Shylock, "The quality of mercy is not strained, etc.," was one of the greatest of all those given to women in the

Not content, Mr. Warde went through the list with Rosalind, Juliet, Cordelia, Miranda, the gentle Desdemona, Cato's daughter, Lady Macbeth, of whom he said he thought differently than some actresses, for he saw in her only love for her husband, a man too weak to do right and too weak

to do wrong. He concluded: "When you take up the study of Shakespeare, don't be frightened. Don't think Shakespeare is so deep and obscure that you must be a scholar to understand him. His greatest charm to me is his simplicity. One of the first things to do Is to burn the commentaries. If there were no commentaries Shakespeare would be better read than he is. If you want to read, don't first read the thousand and one self-constituted critics, but go right to the words of the author himself. Shakespeare was an actor and wrote for intelligent actors to play before intelligent people, to be understood intelligently. If he had intended his works for the library reader he would have made his poems epics.

He then said that Shakespeare should be read first for the story, then for the poetry, then for the philosophy, and it would be a case of reading whenever one could find the time

There is much dissension as to the conception of the characters, he said, but the way to do was to take not the speeches, but the first soliloquy, and here would stand revealed the character of the man. He illustrated by everal quotations and then said:

"Read Shakespeare and inwardly digest his words and thoughts. He will uplift and ennoble your-thoughts and minds. To understand his beauties is to grow nearer to our God."

#### A FOOLISH OLD IDEA.

It was once thought that a medicine was all the more beneficial for having a nasty taste and smell. We now know that such an idea is perfect nonsense. There is no more reason why medicine should offend the senses than why food should do so. Therefore, one of the greatest chemical victories of the past few years is what we may call the redemption of cod liver oil. Everybody knows what a vile taste and smell this drug has in its natural state. No wonder most people declare they would rather suffer from disease than take cod liver oil, and the emulsions are quite as foul and abominable as the plain oil, no matter what may be alleged to the contrary. Now it is one of nature's laws that a medicine which disgusts the nose and the palate, and also sickens the stomach, can have no good effect as a medi-cine, because the system cries out to be delivered from it. In WAMPOLE'S PREPARATION

the desired miracle is wrought, and we have the valuable part of the oil, without the other. This effective modern remedy is palatable as honey and contains the nutritive and curative properties

of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Ex-tracts of Malt and Wild Cherry. The palate accepts it as it does sugar, confectionary or cream. Taken before meals it goes to the very secret stronghold of digestive disorders: prevents and cures Nervous Dyspepsia, Scrofula, Throat and Lung Troubles and all diseases due to impurity of the blood. Dr. G. C. Shannon, of Canada, says: "I shall continue its use with, I am sure, great advantage to my patients and satisfaction to myself." Has all the virtues of cod liver oil; none of its faults. Effective from the first dose. Sold by all chemists.

#### THE ELLEFORDS **WERE A SUCCESS**

They Gave the Town a Session of Fine Amuse-

ment.

The Elleford company closed a suc essful six weeks' season at the Orpheum on Saturday night, a well-filled house attending the farewell performthe Alameda tomorrow, fully satisfied with the success of this, their second season in Honolulu, and resolved to come down again next year with a fresh repertoire.

While the Ellefords have made no particular claims to greatness their efforts to entertain have been fully appreciated during their stay. They have catered most successfully to theatergoers who otherwise would suffer for the lack of amusement. The Elleford season was unfortunate in overlapping that of Frederick Warde, but both houses seemed to have no lack of pat-

Wyman and Bates, who have had the management of the Ellefords, are deserving of commendation for the manner in which they have kept their promises and the extended repertoire which they have shown. The style of plays selected by the Ellefords for production are eminently of the popular class, containing something to suit all kinds and conditions of playgoers. The ompany is well balanced and in the eading roles boasts artists whose performances are not merely conscientious but artistic. Clever Jessie Norton and "Billy" Elleford were missed, but the presentations have lacked nothing to nake them sources of thorough entertainment.

The Ellefords are now assured of a earty welcome on every occasion, their easons having proved matters of cross congratulation between public and performers. Amusement for the evenings has been recognized by local merchants and others as a factor in retaining their clerks who would otherwise become dissatisfied, and the Elleford seasons do much to solve that problem. This is the backing that stands behind every box of Doan's Kidney Pills. Here is a case of it:

Mr. Cyrus S. Edison of Kapiolani Park, this city, says: "I am at present a teamster and came to the Islands fifteen years ago. Previous to that I drove a stage coach in the United States. These occupations necessitating my being out at all seasons were no doubt the cause of my kidney disorder. I had the ordinary symptoms of this complaint, and resorted to a host of things to cure it. All of them failed to do so, however, and when I had almost given up hope I heard about Doan's Backache Kidney Pills and got some at the Hollister Drug Co.'s store. They did indeed relieve me and I am quite satisfied with the benefit they have been to me."

Donn's Backache Kidney Pills are for sale by all dealers; price 50 cents per E box (six boxes \$2.50). Mailed by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Major Wood Gives Paper on the Evolution of the Salva-

tion Army.

Major Wood of the Salvation Army held the attention of the Ministerial Union at its meeting yesterday morning in Central Union church, with an excellent paper upon "The Evolution of the Salvation Army." Among those present were Rev. Dr. Sereno Bishop, Rev. E. S. Muckley, Rev. W. M. Kincald, Rev. W. H. Rice, Rev. George L. Pearson, Rev. J. P. Erdman, Theodore Richards, Rev. Hiram Bingham, Rev. O. H. Gulick, H. C. Brown, Major Wood, before reading his paper, said that criticisms had been frequent that the Salvation Army was not all it should be. He said he knew this only too well, but that it was carrying on its work to the best of its ability. Some of the criticisms were friendly, some otherwise. Knowing how far it came short of perfection the Army always welcomed the former, and if such criticisms are put forth in practical shape and can be used, they are seized and acted upon, for the Army was always ready to learn and is prepared to adopt any plan which approves itself to their judgment as one by which more souls can be saved. Many find fault with some of the departments of the work, believing that the Army would do better without them, adhering strictly to the spiritual part. Major Wood's purpose in his paper was to show that the Army was an evolution, that it did not spring complete from the brain of the founder, but krew gradually, many of its customs being practically forced upon it by circumstances over which it had no control. For every one of the Army's methods, strange and eccentric

of the Salvation Army from the time when it consisted solely of two persons up to this present time when its ramiications are found in almost every corer of the earth, it was necessary for the Major to give a brief account of the lives of the founders, which he narratd in an interesting way:

"We come to a notable day," said he, the one from which our Army dates is inception, July 2, 1865. On that night William Booth began his work in Lonlon. The people who gathered were of the most degraded type, and when he stood among them and talked of salvation, they listened with mingled curiosity and derision. On his part he felt a profound and almost prophetic nterest in the crowd. Hitherto he had spoken to country people in market places and had thanked God for the privilege, then in the towns with their working population and was supremely grateful; but now he stood in the streets of London, with a multitude exeeding the population of most of those owns added together."

The Mission tent, an old one to start with, did not last long; it soon came to grief in the high winds. A dancing saoon, holding about 600 people, was then taken for the Sunday services, while an old wool warehouse served the purpose for week nights. Other places were occupied, an old chapel, a bowling alley, a stable.

The venture with the old rascally Effingham theater was a big success. Upon the stage a crowd of converted prize fighters, drunkards, profligates, and the disreputable ragged edge of the hem of society's garment, told with marvellous effect what God had done

Mr. Herbert Gladstone, in speaking at one of the annual meetings, referred to some statistics given, saying: say that this is a great result because you must remember that the class of men dealt with in these homes are of most dangerous character and were untouched by any work or influence of the government. Here is a proof of the practical work done by the Army for the last six years. In my official capacity at the Home office and as a Member of Parliament I have given close and personal attention to prison matters, and I say emphatically there is no society or body in the country which has done more valuable work for the rescue of crimmals than the Salvation Army.'

We now have 13 of these homes in operation, through which 1500 criminals go every year to lead new and Chris-

Again there was the out-of-works, the man down on his luck. This opened up a tremendously large The Army has always believed in the principle that "He who only feeds the poor is their greatest enemy, while he who employs them in useful labor is their best friend." For the man without a trade, Salvage Brigades were formed, in which men were employed with wagons and push carts to go around and collect paper, rags, string, bottles, old clothes, broken fur-niture, anything and everything.

Twenty-four different governments. besides many municipalities, now recognize the Army's work officially and make annual grants toward its support, several of the Australian colonies mve turned over their boys' and girls' reformatories to the charge of the

The proposed flesta for Honolulu was discussed and caused considerable talk, as many of those present feared that there were evils which would go hand in hand with it. Rev. W. H. Rice stated that he had already written to Rev. E. S. Chapman at Los Angeles for Inrmation regarding the excesses which e said accompanied such affairs. Rev. E. S. Muckley was appointed to make an investigation as to these effects and present the results to the next meeting we weeks hence. The Union will then take action as to whether or not they will approve of the fiesta.

There are a great many people who take a ride to Waikiki in the evening choose to spoil it all by smoking like a out saying. Once I moved to the other side of car, my heart softened a mite, for I thought possibly his education had been neglected in his youth, and he could not read. But the driver should have told him. Another party hung half way out of the window to escape the blend of breath and smoke, which was not like unto the air of Araby the blest, but he smoked on forever, throwing away the stub when we were almost home. The stuffy little cars are enveloped in a blue cloud that gives an Indian summery aspect. At every inhalation you are regaled with tough smoke to cure a side of bacon, and you alight at your door feeling like you had dropped from a nail in the smoke house, back in the old home in smoke house, back in the old home in Posey county, and that you are ready for a yellow canvas overcoat and a label. A party of half a dozen Japaneze boarded the car, and one of the men calmly fished up a package of cigarettes and passed them among the company. At first glance he would pass for a gentleman: besides, his purple and fine linen was of the gladdest, and a diamond on his hand shone like a midnight sun, lighting up the track a furlong in advance of the mules. He took a front seat, complacently lighted a cigar, and resting his hands on the top of his cane, proceeded to smoke like a volcano. How the rest of the passengers did enjoy that cigar! Commissioner Wray Taylor has recived specimens of a "slug" which is said to be doing damage to crops on Hawaii. The new pest is believed to have been brought here from Japan. A W. C. T. U. meeting will be held at the pariors of Central Union church today at 2:30 o'clock p. m. The subject to be discussed will be the cigarette

smoking in school. Full attendance is to escape from the world for a brief while, to get nearer to the throb of the surf and fill their lungs with the salty sir first-handed, and some others amounting to about \$532. The bulk of the traveling, however, was done after tar kiln. The expectorating goes with- 5 o'clock in the afternoon, every car being crowded with pleasure seekers. Supt. H. T. Marsh was elected trustee yesterday by the creditors of A. E. Nich-ols, at a meeting held in the office of Referee W. S. Fleming. Nearly all the creditors of Nichols were represented either in person or by attorneys. Wade Thayer was also nominated for the position of trustee, but failed of election. A. A. Wilder, at the hearing, questioned the discharge of the bankrupt. The assets are practically nothing, and Mr. Wilder inquired if the bankrupt did not have an interest in a piece of land mortgaged to the Queen's Hospital. This interest is now in the bankrupt's wife, and it is alleged she has an in-terest in other property formerly held

### **Good Cheer for** Thirsty People

Quality in soda is everything. Customers say ours has the flavor, snap and fiz that they enjoy and can't get elsewhere. But you are a good judge of soda. Pretty good idea to follow the crowd that comes here day after day. Must be some reason for it-there is. Soda is only a trifle. Most merchants treat it as a trifle. but with us this has the same careful attention that every other department of our business receives. We spare neither pains nor money to make it right The water is carbonated on the premises. Fresh cream made daily from cow's milk; fruit flavors used exclusively From start to finish it is abso-

lutely right. Next month we move to our new store, Ehlers' block, Fort street, where more room can be spared for soda. We have some agreeable surprises in store in liquid refreshments. After we are well settled we will have an opening day, when every lady will receive a souvenir and free soda to everyone all day long. We are making a run on : : :

There were several speakers who took up the discussion of what had been said, and there were some facts which proved to be full of interest to Ooksis

the 50 persons present. When the question box was opened it was found to contain one point which brought out a great deal of talk, and which will be the theme for a subsequent meeting. This was: "Should quent meeting. This was: motor cars be provided with auxiliary brakes for heavy grades?" The subject will be brought up by men connected with the operating department of the two electric roads of the city.

> Kimura and Kane Arranged to Kill Each Other at Wasslua.

Kimura, the Japanese who is charged with having murdered a Japanese woman named Kane, at Walalua on Sunday, was brought to town yesterday morning. His attempt to end his

own life was a poor one, for his throat was only slightly cut. He told High Sheriff Brown yesterday that while he and Kane were returning from a christening they decided to kill each other, and that each held a knife at the throat of the other, and when three had been counted, drew the knives quickly from ear to ear. Kimura's stroke was a fatal one, but the woman weakened and Kimura's life was spared.

#### Anti-Saloon League Work.

Reports made by the committee of the Anti-Saloon League bearing upon the soliciting of subscriptions for the carrying on of the work of the League indicate that there will be no great difficulty in the getting together of the sums needed for the continuation of the fight against the brewery. The work will go on. The president, the Rev. W. D. Westervelt, Superintendent W. H. Rice and W. A. Bowen were named a committee for the purpose of visiting the meeting of the W. C. T. U. and enlisting the aid of the women's organization in this fight.

# FOR BARS

General Order No. 19, posted at National Guard headquarters yesterday gave notice of the semi-annual shoot, the date of which is fixed from June 16 to June 29. The rifle range in Kakaako will be repaired immediately and put in condition for the event. This will be the first shoot held for over a year, though it has always been the custom to hold them semi-annually. Various good reasons have combined to cause continued postponements, so that the order of Colonel Jones fixing a definite date will be of much interest to the Guardsmen of Hawaii.

Sharpshooters' bars are to be offered as usual, and event will be of considerable importance to the men of the various companies, many of whom have been keeping up their practice for months with this shoot in view. Both the 200 and 500 yards targets will be made ready for use.

The following is the order giving the conditions of the shoot:

Headquarters First Regiment, National Guard of Hawaii Honolulu, Hawaii, May 15, 1902. General Orders No. 19-1. The postponed semi-annual shoots for June and December, 1901, and the June shoot of 1902, will be held from June 16th to June 29th, inclusive.

The range will be open week days from 1 to 5 o'clock p. m., and on Sundays from 9 a. m. to 5 p. m. 3. Competitors will be restricted to the use of the Springfield and Lee-Remington rifle, calibre 45, and privileged to use either factory or reloaded

ammunition. 4. All those desiring to shoot will report in uniform to the officer in charge, who will assign them to a target and require them to shoot as nearly as possible in the order of their arrival Company commanders will furnish duplicate rolls of their companies to these headquarters not later than June

6. The shooting will be conducted according to general rules laid down in Blunt's Manual, 10 rounds, 200 yards off hand, with no sighting shots. 7. Each competitor who shall make from 70 to 79 per cent will be awarded a bronze Marksman's bar; each com-

petitor who shall make 80 to 89 per cent will be awarded a sliver Rifleman's bar, and each competitor who shall make 90 per cent or over will be awarded a gold Sharpshooter's bar. By order of Col. J. W. Jones.

Later more cases of salmon were can Shipbuilding Co. found on the northern beach and with the news of the discovery went forth Delaware River Steamboat Works. the doubtless inspired information that the salmon found had been stowed in the Red Rock's lower hold.

This last report struck the insurance people as being somewhat overdone, and the speaking of the vessel strengthened their belief that the northern beach had been saited for their especial benefit. Anyhow, the underwriters fought very shy of Red Rock business and by so doing frustrated the job, if such existed. When spoken the vessel was quoted at 30 per cent on the reinsurance board.

Two years ago the British ship Ardboard and was placed on the reinsured list, winning big money for a coterie of gamblers. It is likely that the Red Rock manipulators took their cue from the Ardnamurchan incident.

When the Red Rock arrives at Queenstown her captain's report should furnish interesting reading, and a failure on his part to confirm the loss of salmon will lead to a rigid investigation. It is also possible though improbable that the Red Rock may be able to furnish some information which will clear up the mystery which shrouds the loss of the ill fated gunboat Condor.

#### S. EUREKA **TOOK NO CARGO**

About 5 o'clock yesterday afternoon the Globe Navigation Company's steamer Eureka quit her wharf and, passing out of the harbor with her forehead high out of the water, was soon on her way to Kahului.

The Eureka took no cargo here for the simple reason that there was none ready for her. Agent Beebe declared himself on this point as follows:

"She took no cargo because there was none in sight, and it would not pay to tle the boat up a week or ten days waiting for a load, particularly as the Tampico will be here about the 28th. We could have got a cargo if we had cared to wait for it."

The vessel will not load anything at Kahului but will discharge 400 tons of freight, mostly lime. From Kahului she will proceed to Kaanapali, where she will take on about 600 tons of sugar, leaving for Tacoma tomorrow morning.

Poor Old Tanner.

TACOMA, May 5.- The old brig Tanner put back to this port last night in distress. The Tanner was bound from Port Blakeley for San Pedro with lumber and was off the Columbia river last Monday. That night a heavy southerly gale was experienced which swept the the deck load. The Tanner was leaking as a result of laboring in the terrific \$1500 and \$1700 vessel and threatened to wash away sea. Finally a heavy sea boarded the brig and carried away her windmill, which operated the main pump. Nothing remained but to seek port to repair the damage and the vessel was headed for the Sound. The main boom was also lost in the gale. In her crippled condition she was brought back here to make repairs.

The Tanner was here several months ago. She made a tempestous trip from San Francisco in the wild weather which sorely tried some of the great passenger boats themselves

Stole the Ropes.

Sunday night all the lines and mahin by were stolen from the dredger ighter at Pearl Harbor, and the scow left adrift. A southerly wind was blowing and the scow stranded on the beach at Puuloa. Before being turned adrift the scow was tied up as usual to the wharf of the salt warehouse. Japanese fishermen are thought to have been the thieves.

#### **BRIDGE NEEDED AT** KALIHIWAI GULCH

Bridge Necessary Across Wainahi Which Children Must Now Swim to Reach School.

At the regular meeting of the Executive Council yesterday Superintendent Boyd submitted a report upon the roads and bridges of Kaual, and the need and cost of improvements on that island as compiled by Marston Campbell upon the return from his recent tour of investigation. The report is a lengthy one, covering nearly the entire island, and outlining the conditions of public works on Kauai, and the cost of whatever improvements are necessary. Summarized, the twelve-page typewritten report is as follows:

The road from Waimea to Kekaha has been well built, but the heavy rains make immediate repairs necessary. The road is but from one to three feet above high water, and is constructed through a very boggy country. About 2000 feet of the road leading to Kekaha mill has been macadamized, but the crossing for the railroad is cut through the macadam, and s unsightly. The plantation company has been notified to place the crossing in proper shape.

Puehu gulch will require a twelvefoot timber opening, and this will be done out of the Road Board's funds. The worst washout is at Waiawa gulch and a foot bridge is required, which

will cost \$850. The road from Waimea bridge to Kekupue valley is in good condition, but the grade is excessive and the valley is flooded by every storm. The road should be raised at least five feet, and quipped with proper drains and cul-The road through the bottom of Mahinauli gulch needs grading and ditching, but the road from there to the top of the hill on the Makaweli side is in good condition.

From Makaweli mili to Camp 4, and on to Hanapepe Valley the road is in very bad condition. Hanapepe bridge is in a fair state of preservation, but the superstructure requires painting. Engineer Campbell says that the roads in Waimea Village are not really roads,

and recommends that the road engineer be sent there to make a survey. The Wahiawa bridge was submerged during the recent storms and the wood work is rotten; it is recommended that new masonry piers be constructed, the total cost of which will be \$1200. The roads about McBryde plantation

are in good condition, the work having been done under the supervision of Mr. McBryde. "With few exceptions," says Mr. Campbell in his report, "I consider the roads through this district to be the best dirt roadways I have ever seen." An allowance of \$400 per menth is recommended for the district, also the purchase of a grading machine for \$300.

The roads about Koloa plantation are sadly dilapidated, but the plantation has offered to transport all rock to the rusher, and furnish all power and teams needed to improve them, provided the Government furnishes the labor for the crusher and for spreading the stone. The cost of the work will be \$1200, as the crusher can be taken to

In Libue the roads are in bad condilion from the last storm, and should of the roads are in fair condition. The allowance of \$300 per month is not sufficient to repair the storm damage, and it will cost about \$2500 to make the required improvements. The purchase of a road grader and a horse roller is recommended for this district.

The Waimea bridge, Mr. Campbell reports, has been badly misused, the plans for its construction not having been followed out. The superstructure was painted with tar without first removing the accumulated rust, and the bridge is now rusting rapidly. It is recommended that the bridge be paint ed and the approach repaired, at a cost of \$1200. The bridge is of a narrow and obsolete type and the superintendent dees not think it worthy of exten sive repairs.

In the Kawaihau district the roads are in falr condition, but need some repairs. The purchase of a road grader s recommended for this district also Anahela bridge in this district was carried out to sea in the recent storm but Mr. Hundley recovered the bolts washers and iron and rebuilt the bridge, raising the piers five feet. The approach needs to be graded, the estimated cost being \$1200. The road board is highly commended for its work in dealing with the emergency. It is recemmended also that a bridge be constructed across Wainahi gulch for the convenience of ladies and children attending the school, which is situated on the other side of the creek. Children are obliged to remove their clothing and wade across the river, which is said to be very dangerous at times. It SAVINGS DEPOSITS received and is recommended that a light bridge be constructed across the guich at a cost

Roads through Hanalei district are in good shape, and the needed repairs can be made from the road funds. It is recommended that a bridge be built at Kalihiwai gulch, which is crossed JOSEPH HARTMANN & CO. | now by means of a ferry conducted by the board at a cost of \$35 per month. "There should be constructed at this point," the report concludes, "a bridge of cylinder piers of 160 feet span. The Wine and Liquor Dealers cost of same will be approximately SILKS AND SATINS \$5000. It is, I consider, a necessity to the traveling public and if funds per-BETHEL ST. mit should be built."

### MEN! DO YOU?

Do you want to be strong? Do you want to fe-l the vim. the snap and fire of vigor? Do you want courage, energy and ambition to support you in your cares and troubles?

I have devoted my life to the deve opment of manly and womanly vigor. I've made a great success. My methods are approved by the greatest doctors and copied.

I have proven that electricity is the basis of all animal life and that "weak men," dyspeptics, rheumatics, sufferers from lost energy, weak kidneys, pains in the back, head, chest and shoulders, from vericoceie, and its allied weaknesses, etc., are weak in electricity. My Electric Belt restores this life in a few weeks and cures every time. If it fails I ask no pay.

Describe your case to me and if I say I can cure you I will guarantee to do so. Drugs won't restore your strength. They only stimulate. If you have to take a stimulant take whisky. Taken in moderation it does less harm than the others,

Every sign of pain and weakness has disappeared. I appreciate what your Belt has done for me," writes J. Schwarz Coleridge, Trinity county, Cal. I will gladly send you my book on this subject. It has 82 pages of meat to people who want more "fire." Sealed, free. I take imitations of my Belt in trade, just to show how much better

mine is. Consultation free. DR. M. G McLAUGHLIN. 906 MARKET STREET, CORNER KEARNY, SAN FRANCISCO.

DAVIS GETS \$1000 FEE NEXT APRIL

Grand Jury Returns Eighteen Indictments-Robbers Are Heavily Sentenced.

The fishing rights at Pearl Harbor are involved in a suit filed yesterday by the Oahu Railway and Land Co. vs. the Territory of Hawaii. The fisheries are claimed by virtue of a lease from James Campbell to B. F. Dillingham for the term of fifty years from January 1, 1991. Besides the claim of private right of fishery in the waters Lagoon, the plaintiff claims the follow-

The second Judge then fixed the alimony at \$10,000 and again an appeal was taken with the result that the Supreme Court again reversed the decision and peremptorily fixed the ali-

mony at \$5000. The decree yesterday was in accordance with the final decision of the Supreme Court. The decree provides for the dissolution of the marital ties and fixes the alimony at \$5000, the sum of \$4000 to be paid to the libellant, and the sum of \$1000 to George A. Davis, on or before April 30, 1903. A mortgage is given on the Schriever homestead in Nuuanu Valley for this amount, and interest is to be charged at the rate of

6 per cent. GRAND JURY MAKES REPORT. The grand jury made another partial report yesterday, returning eighteen true bills, and five cases ignored. There is but one unimportant case left for trial on the printed criminal calendar, and there was no business for the jury which appeared yesterday afternoon. Deputy Attorney General Catheart was notified of the need of cases for trial and promised the court that the grand jury would make at least a partial report before evening. The eighteen defendants indicated yesterday will be arraigned in court this morning. The majority of the cases are petit larceny or assault, and there is little of interest in the report. "Kentucky Bill" is not among those against whom indictments were returned yesterday, but it is said that a true bill has already

#### BICYCLE THIEF IS CAPTURED

Young Hawaiian Tried to Sell a Stolen Wheel and Was Arrested.

A bicycle thief was neatly trapped yesterday morning and is now held to bounded and within Pearl Harbor or await trial in Judge Wilcox's court. On Saturday morning about 10 o'clock a bicycle belonging to Ed Dekum was taken from the hallway leading to the Advertiser office. The owner made a diligent search for the wheel on Saturday and Sunday, and also reported his lose to the police. Yesterday morning a young Hawailan brought a wheel to Bailey's Cyclery on King street and offered to sell the same for \$10. The Japanese, who received the offer, smelt a rat, but said he would see about it. He said he would take it to Pearson & Potter's and find out the original price and let the would-be seller know about it later. The Japanese had recognized the wheel as one of the style for which Pearson & Potter were agents. A memof the firm also recognized it as the wheel of Mr. Dekum. It was found that the number had been filed away to some extent but not entirely obliterat-

A police officer was told of the matter and he accompanied the Japanese and Mr. Dekum back to Bailey's. The Hawallan, however, saw the party first for Libanna de Nobregga from Sylvano and bolted. An hour later Mr. Dekum, while coming out of the Hawaiian hotel, saw the youth, and calling to him, inquired why he had stolen the wheel. The Hawaiian replied that he did not know why he took the bicycle, but it was the first time he had done such a the wife \$15,000, which was one-half of thing, and he promised not to repeat the property of the defendant, and the offense.
