A modern bathroom interior featuring a white, curved sink with a chrome faucet. To the right of the sink is a chrome soap dish with a bottle of soap. In the background, a large window with a dark frame allows natural light to enter. On the windowsill, there are two green glass vases with a yellow flower. Below the window, a white toilet is visible. To the left of the toilet, there are two chrome cylindrical containers on a dark, textured surface. The overall design is clean and minimalist.

HYGIENE WC

HYGIENE-WC

JOMOTech hygienic WC element for wall-hung WCs with bidet function

The JOMOTech hygienic WC element from WERIT is a self-supporting pre-wall element for mounting in front of a Solid or a lightweight construction wall. As a wall installation the element can be used for mounting in both lightweight and timber stud walls.

The SLKplus wall mounted cistern contained in the element is equipped with the proven JOMO 2 flush technology and offers on the cisterns 25 years Spare parts availability guarantee. Due to the integrated Safety device according to DIN EN 1717 type AD (free outlet with injector) reduces the danger of backflow into the Drinking water system prevented.

The connections for direct installation of cold and hot water fittings are pre-mounted in the frame. An installation of the JOMOTech hygienic WC element is possible without a power connection. The mounting plate for the Fitting can be mounted either on the right or left and can be individually adjusted for each user. The high-quality flush rimless series S20, S50 and D-Light with Vitraflush 2.0 technology and each equipped with

VitrA-Shower-WCs = Hygiene with style

a matching WC seat with soft-closing mechanism are available in conjunction with our JOMOTech hygienic WC element available as a complete package. As a fourth package, WERIT offers the ceramic Pera with closed flushing rim. Technically reduced and thus offering a cheaper alternative.

Due to the Vitraflush 2.0 technology integrated in the ceramic intimate body, parts are treated with a warm water jet cleaned in a gentle and natural way. The intensity and warmth of the water jet can be regulated continuously and individually with a hand tap. For uncomplicated cleaning of the nozzle, the flush distributor can be easily removed.

THE JOMOTECH SERIES

Optimized down to the last detail

The new JOMOTech series with its overall height of 1120 mm is optimally adapted to most modern bathroom situations. All elements are pre-assembled and self-supporting. Sanitary elements such as WCs, washstands, urinals or modern hygienic WCs can be easily installed and held reliably.

Picture 1 - 3 Due to the infinitely variable angle adjustment, the multi wall bracket can be used flexibly. Wall projections or corner mounting do not mean time-consuming extra work for the installer.

Picture 4 + 5 The new multi-wall bracket makes it easy to hang up as the JOMOTech elements can be easily inserted into standard C-rails measuring 27x18 mm with a 15 mm profile opening. The wall bracket is available in two lengths. For Building depth 135-175 mm and for Building depth 175-300 mm.

Picture 6 + 7 Support for drywall planking.

Picture 8 Simple floor mounting.

Picture 9 We recommend the use of a sound insulation set for sound decoupling according to DIN 4109.

Picture 10 Easy fastening by inserting into C-rails with the dimension: 27 x 18 mm and the profile opening of 15 mm.

Picture 11 Quick fastening.

Picture 12 Tested safety: TÜV.

Picture 13 Rail mounting with sound insulation tested according to DIN 4109.

Picture 14 Installation on underfloor heating is also possible.

WC elements

174-91100000-00

Single element for wall-mounted WC with in-wall cistern SLKplus, Overall height 1120 mm

174-91102000-00

Single element for wall-mounted WC with in-wall cistern SLKplus, Overall height 1120 mm, width 450 mm

174-91102100-00

Single element for children and adults Stand-alone WC with in-wall cistern SLKplus, Overall height 1120 mm

174-91198000-00

Hygienic WC element for Wall WC with bidet function with in-wall cistern SLKplus, Overall height 1120 mm

174-91300000-00

Single element for wall-mounted WC with in-wall cistern SLS Flush technology, Front or top operation, Overall height 820 mm

174-91200000-00

Single element for wall-mounted WC with in-wall cistern SLS Flush technology, Front or top operation, Overall height 980 mm

Washstand elements

174-92100000-00

Single element for washstand for single-hole fitting, for mounting wall discs/connection boxes, Overall height 1120 mm

174-92200200-00

Single element for washstand for UP wall fitting, Overall height 1120 mm

174-92200000-00

Single element for washstand for AP wall-mounted fitting, for mounting wall plates Junction boxes, Overall height 1120 mm

Barrier-free elements

174-80000000-00

Single element for wall-mounted WC with in-wall cistern SLKplus, for barrier-free building, Overall height 1120 mm

174-81100000-00

Single element for wall-mounted WC with in-wall cistern SLKplus, for barrier-free construction, with 2 waterproof glued veneer wood panels for support and holding handles, construction width 880 mm, construction height 1120 mm

174-82100000-00

Single element for washstand for single-hole fitting with UP odour seal, for barrier-free building, for mounting of wall discs/connection boxes, Overall height 1120 mm

174-82200000-00

Single element for washstand for AP wall fitting with UP odour seal, for barrier-free building, for mounting of wall discs/connection boxes, Overall height 1120 mm

174-82300000-00

Single element for washstand for concealed wall fitting / electronics with UP odour seal, for barrier-free building, Overall height 1120 mm

174-80050100-00

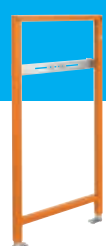

Single element for supporting and holding handles for barrier-free building, Overall height 1120 mm, Construction width 365 mm

Another element

174-70000300-00

Single element for sinks for mounting of wall discs/connection sockets, Overall height 1300 mm

174-70000400-00

Single element for shower / bathtub AP fitting, for mounting of wall discs/connection boxes, Overall height 1120 mm

174-70000500-00

Single element for shower / bathtub UP-fitting, for mounting of wall discs/connection boxes, for wall connection bend for hand shower, Overall height 1120 - 1300 mm

174-70000600-00

Single element for bathtub AP fitting, for mounting of wall discs/connection boxes, Overall height 820-980 mm

Trusses

174-60000100-00

Multi-truss for drywall walls min. installation depth 100 mm, to accommodate wall discs/connection boxes, console loads, concealed fittings, concealed measuring equipment, suspended storage tanks, instantaneous water heaters, construction width 500 mm

174-60000200-00

Cross beam for drywall with at least a building depth of 100 mm for washing machine, with washing machine UP siphon, to accommodate wall discs/connection boxes, Construction width 500 mm

174-60000300-00

Cross beam for drywall with at least a building depth of 100 mm for sinks, for mounting wall discs/connection boxes or Flush-mounted installation body, Construction width 500 mm

174-60000400-00

Cross beam for drywall with at least a building depth of 100 mm for washstand, for mounting of wall discs/connection boxes, Construction width 500 mm

174-60000500-00

Drywall traverse for washing machine with UP washing machine siphon, for mounting of wall discs/connection sockets, Construction width 500 mm

174-60000600-00

Drywall traverse for AP fittings, to accommodate wall discs/connection boxes, Construction width 500 mm

174-60000700-00

Drywall traverse for washstand, to accommodate wall discs/connection boxes, Construction width 500 mm

Accessories

174-70010100-00

Multi-wall bracket for individual elements, long, for wall mounting, 360° rotatable, continuous angle adjustment, for Building depth 135 - 175 mm

174-70010200-00

Multi-wall bracket for individual elements, short, for wall mounting, 360° rotatable, continuous angle adjustment, for Building depth 175 - 300 mm

173-30030000-00

Sound insulation set with base and screw decoupling for structure-borne sound decoupling of wall and floor mountings, according to DIN 4109 and VDI 4100

Urinal elements

174-92100200-00

Single element for washstand for single-hole fitting, for mounting wall discs/connection boxes, Overall height 1120 mm

174-92100300-00

Single element for washstand for single-hole fitting, for mounting wall discs/connection boxes, Overall height 850 - 980 mm

174-93000000-00

Single element for urinal for mounting Flushing valve EXCLUSIVE, for infrared and manual operation, Overall height 1120 mm

174-93000100-00

Single element for urinal for mounting JOMO-Tronic-Urinal control with concealed sensor, Overall height 1120 mm

174-93000200-00

Single element for urinal for mounting UP-Urinal flushers, Overall height 1120 mm

174-93000300-00

Single element for urinal for mounting AP-Urinal flushers, Overall height 1120 mm

174-93000500-00

Single element for urinal for the installation of waterless urinal bowls, Overall height 1120 mm

174-93000600-00

Single element for urinal for mounting Flushing valve EXCLUSIVE, with bodyshell set Operation from above, Overall height 980 mm

174-94000000-00

Single element for wall bidet for single-hole fitting, for mounting wall discs/connection boxes, Building depth let op. 135 mm, Overall height 1120 mm

174-94200100-00

Single element for wall bidet for single-hole fitting, for mounting wall discs/connection boxes, Building depth let op. 135 mm, Overall height 820 mm

174-70000700-00

Single element for bathtub for mounting wall discs/connection boxes, flush-mounted fitting, Overall height 820-980 mm

174-70001000-00

Single element for empty spaces for bridging empty spaces of more than 600 mm, for holding various components such as UP bathroom furniture, Overall height 1120 mm

174-70001100-00

Single element for empty spaces for bridging empty spaces of more than 600 mm, for holding various components such as UP bathroom furniture, Overall height 820-980 mm

174-70001200-00

Individual element for washing machine with siphon for mounting of wall discs/connection sockets, Overall height 1120 mm

174-70001300-00

Individual element for washing machine with siphon for mounting of wall discs/connection sockets, Overall height 820-980 mm

174-70000800-00

Single element for faeces sinks for Keramag Espital, wall-hanging, to accommodate wall discs/connection boxes, Overall height 1600 mm

174-70001800-00

Single element for faecal sinks for Laufen Bernina, wall mounted, to accommodate wall discs/connection boxes, Overall height 1400 mm

173-50100007-00

Special footrests for use with drywall elements on floors with Underfloor heating 1 set, including fixing screws
