IMPORTANT DESJARDINS CONSUMER FINANCING INFORMATION: Subject to Desjardins Financial Group ("Desjardins Group") approval. All annual interest rates are subject to change. The "**Deferred payment, no payments or interest for ...**" offer allows the customer to use a Best Buy Card issued by Desjardins Group ("the Card") to pay for a deferred payment purchase, without incurring interest during the period set at the time of purchase. If this purchase is not paid in full by the due date, an annual interest rate of not more than 21.9% applies and it is converted into 12 equal monthly instalments if the converted balance is less than \$1,000; 24 monthly instalments if greater than \$1,000 and less than \$3,000; or in 36 monthly instalments if \$3,000 or higher. The "**Interest-free equal monthly payments**" offer allows the customer to use the Card to pay for purchases in equal monthly instalments with no interest. Equal monthly payments are included in the minimum payment due on the Credit Card. If the minimum payment due is not paid in full by the due date, the annual interest rate of not more than 19.9% applies to the unpaid equal monthly instalment. Minimum card payment is 5% of the total of: the previous period account statement; credit charges on purchases and monthly instalments unpaid on the current period due date; regular purchases, cash advances and cheques during the statement period and credit charges on cash advances and cheques. To which are added: monthly instalments and deferred payment purchases due on the statement date, past due amounts and any other amounts set out in the card contract. See details in store.
