RE: Phase I Environmental Site Assessment  
Lisle Transitional Care  
2850 Ogden Avenue  
Lisle, DuPage County, IL 60532

Dear Ms. Parnell:

GuideWire Consulting, LLC (GuideWire) has performed a Phase I Environmental Site Assessment (ESA) for the above-referenced Property. The project was completed in general accordance with the scope and limitations set forth in ASTM Designation E 1527-13. Please find enclosed the Phase I ESA report along with an invoice for the completed services.

If you have questions about the project or if we may be of service in any way please contact us. Thank you for working with us on this project, we look forward to the opportunity of working with you again on future projects.

Sincerely,  
GuideWire

Vice President

## 1.0 - Project Summary

### 1.1 Contract & General Scope of Work

GuideWire Consulting, LLC (GuideWire) has performed a Phase I Environmental Site Assessment (ESA) for the Lisle Transitional Care property located at 2850 Ogden Avenue, Lisle, DuPage County, Illinois (Property). The project was completed in accordance with the scope and limitations set forth in ASTM Designation E 1527-13 and the Scope of Work described in the GuideWire proposal dated Thursday, January 5, 2017.

No chain of title information was reviewed for this project. No environmental liens or activity and use limitation were reported by the client. No commonly known or reasonably ascertainable information was reported by the client. The client reported no specialized knowledge of recognized environmental concerns (RECs), historical recognized environmental concerns (HRECs) or other potential environmental concerns in connection with the Property. No Property valuation reduction related to environmental issues or concerns was reported by the client.

### 1.2 General Property & Area Information

The Property consists of approximately 3.03 acres of land, is irregular in shape, identified as parcel 0809100025 by the DuPage County assessor's office, and is not developed. The Property is currently owned by IH Lisle Owner LLC. The Property includes no buildings.

Adjoining properties currently contain the following development: Country Villas (4715 Beau Bien Boulevard), Lakeside Apartments (4800 Lake Trail Drive), Multi-tenant office building (2900 Ogden Avenue), Multi-tenant strip retail building (2801 Ogden Avenue), Forever 25 Medical Center (2867 Ogden Avenue), and multi-tenant retail building (2895 Ogden Avenue).

### Physical Setting

The Property elevation is approximately 740 feet above Mean Sea Level. Based on local topography and other physiographic information obtained, the groundwater is anticipated to flow toward the northwest at an estimated depth of 10 - 25 feet. A small unnamed engineered lake is located approximately 500 feet northwest of the Property.

According to Federal Emergency Management Agency (FEMA) map number 17043C0802H, dated December 16, 2004, the subject Property is not in a flood prone area. According to the U.S. Fish and Wildlife Service (FWS) 2017 DuPage County Wetlands Map, the subject Property does not contain identified wetland areas.

### Historical Research

The Property is not currently developed. Previously the Property was developed as a residence and outbuildings.

### Environmental Records Research

A review of the state and federal regulatory data as provided by Environmental Data Resources, Inc. (EDR) has identified the following state or federal listings within the approximate minimum search distance (AMSD) of the Property.

Database	Minimum Search Distance	Number of Sites	Subject Property Listed	Concern to Property?
FEDERAL DATABASES				
Deleted National Priority List Sites	1.00 mile	1	No	No

Database	Minimum Search Distance	Number of Sites	Subject Property Listed	Concern to Property?
RCRA CORRACTS TSD Facilities List	1.00 mile	2	No	No
STATE DATABASES				
CERCLIS List	0.50 mile	1	No	No
LUST List	0.50 mile	7	No	No

One Deleted National Priority List, two RCRA CORRACTS, one State Remediation Program and seven Leaking Underground Storage Tank facilities were identified in the Regulatory Database Report. Based on distance, topography, area groundwater conditions and/or site status, these listings are not considered to represent a material threat to the Property. A review of the state and federal regulatory data as provided by EDR has not identified other state or federal listings within the AMSD of the Property.

A prior environmental report entitled "Vacant Property, 2850 Ogden Avenue, Lisle, IL" created by Mionx Corporation on Thursday, October 9, 2014 and provided by the Client was examined. At the time of the Mionx report, the Property was in its current undeveloped state. The 2014 report did not identify any RECs associated with the property and made no recommendations for further action or investigation. No significant discrepancies were identified with the site setting, historical or regulatory findings of this report.

#### **Site Reconnaissance & Interviews**

Wastes are not currently generated onsite. No landfill activities were identified on the Property.

Various glass bottles, paper, trash and wood debris, were identified near the northern and eastern borders of the Property. No evidence of surficial staining, releases or noxious odors was observed in the vicinity of the debris at the time of the visual survey. These materials do not appear to constitute a REC at this time.

The Property is currently undeveloped, no buildings or debris were identified on the Property considered to contain suspect lead-based paints. The EPA National Database for DuPage County, IL indicates that a moderate potential for elevated radon levels exists for DuPage County, IL.

Representative interviews were conducted with various individuals knowledgeable of the Property. The interviews were conducted to determine an awareness of any recognized environmentally related problems or concerns at the Property. The following person was interviewed during the course of this assessment: Karen Arnold, Deputy Village Clerk, Lisle.

Additional hazards were not observed on the Property or on the adjoining properties.

No material deviations from the standard were made in the preparation of this report.

### **1.3 Summary of Findings & Conclusion**

#### **Significant Data Gaps**

Significant data gaps were not encountered during the preparation of this Phase I Environmental Site Assessment.

#### **Recognized Environmental Conditions**

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Designation E 1527-13 of Lisle Transitional Care, the property. Any exceptions to, or deletions from,

this practice are described in Section 2.4 of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the property.

Based on the findings of this Phase I ESA, GuideWire recommends no further environmental investigation at this time.

## **2.0 - Introduction**

### **2.1 Purpose**

The purpose of this Phase I ESA is to identify existing or potential recognized environmental conditions or historical recognized environmental conditions (as defined by ASTM Designation E 1527-13) affecting the Property.

### **2.2 Detailed Scope of Services**

GuideWire was retained by Lancaster Pollard to conduct a Phase I Environmental Site Assessment (ESA) of the Property in accordance with the scope of work detailed in the GuideWire proposal dated Thursday, January 5, 2017. Authorization to perform the work was provided by Ms. Kelly Parnell of Lancaster Pollard on Friday, January 6, 2017. The Scope of Work for the Phase I ESA is included in Appendix F of this report.

### **2.3 Significant Assumptions**

This Phase I ESA was conducted in accordance with ASTM Standard Practice ASTM E 1527-13 to insure that methodologies used constitute appropriate inquiry into the prior uses of the property consistent with good commercial and customary practice in order to identify and analyze environmental conditions that constitute existing, past, or potential environmental risks associated with a property. Performance, in accord with these standards is intended to reduce, but not eliminate uncertainty with respect to the potential for RECs associated with a property.

This report is designed to satisfy the requirements for the innocent landowner defense to CERCLA liability as defined in 42 USC 9601 (34)B. All of the investigative reports as stated in ASTM subject have been satisfied by this assessment.

### **2.4 Limitation, And Exceptions**

A Phase I ESA is limited by the availability and quality of site documentation. Undocumented, unauthorized releases of hazardous materials, the remains of which are not readily identifiable by visual inspection, are very difficult and often impossible to detect within the scope of such an investigation.

In preparing this report, GuideWire has relied on certain information provided by various government agencies and officials, interviews, third party environmental database providers, and data available at the time of the site inspection. Although there may be some degree of overlap in the information provided by these various sources, GuideWire did not attempt to independently verify the accuracy of all information reviewed or received during the course of this Phase I ESA. GuideWire disclaims any and all liability for any errors, omissions or inaccuracies in information provided by third party sources.

The findings of this report are valid as of the date of this report. Changes in the condition of a property can occur with the passage of time, whether due to natural processes or to the works of man on this or adjacent sites. In addition, changes in state-of-the-art procedures or government regulations may occur. Such changes, which are beyond GuideWire's control, may render the findings of this report invalid, wholly or in part. GuideWire has no responsibility for any contingent liabilities for any reason.

The final assessment of the potential for the existence of hazardous material at the subject property should be considered professional opinions based upon the data obtained during the investigations and should not be considered a definitive statement that hazardous material is or is not present in the area of study. These opinions have been derived in accordance with ASTM Designation E 1527-13.

This report does not constitute legal advice, nor does GuideWire claim to give legal advice. Any maps, plats, sketches, drawings, or photographs reproduced and included in this report are intended only for the purpose of showing spatial relationships and do not represent legal surveys.

All of the investigative requirements as stated in ASTM Designation E 1527-13 have been satisfied by this assessment.

### **2.5 Special Terms and Conditions**

All appropriate inquiry into the prior uses of the property was made with good commercial and customary practices in order to identify and analyze RECs constituting existing, past or potential environmental concerns in connection with the Property.

### **2.6 User Reliance**

This assessment was performed at the request of the client utilizing methods and procedures consistent with good commercial or customary practices designed to conform with acceptable industry standards. The independent conclusions represent the best professional judgment of the Environmental Professional based on the conditions that existed and the information and data available to us during the course of this assignment. Factual information regarding operations, conditions, and test data provided by the client, owner, or their representative have been assumed to be correct and complete. The report may be distributed and relied upon by the client, its successors and assigns:

Lancaster Pollard  
United States Department of Housing and Urban Development (HUD)

Reliance on the information and conclusions presented in this report by any other party(ies) is not authorized by GuideWire.

### 3.0 - Property Description

A site visit was performed by Mr. Michael Dever, Environmental Professional, on Wednesday, January 11, 2017. The observations noted in this section apply to the site as it appeared on that day. Site maps and plans showing general site layout are provided in Appendix A - Property Maps and Site Plans.

#### 3.1 Property Location and Legal Description

##### 3.1.1 - Property Location

The Property is located at 2850 Ogden Avenue in Lisle, DuPage County, Illinois. It is irregular in shape, and identified as parcel 0809100025 by the DuPage County assessor's office. The Property is located on the north side of Ogden Avenue, approximately 150 feet northeast of the intersection with Keller Street.

##### 3.1.2 - Legal Property Description

The legal description for the Property was obtained from the office of the DuPage County Assessor. A copy of the legal description is included in Appendix H - Additional Documentation.

#### 3.2 Site and Vicinity General Characteristics

The Property is located in an area of commercial and residential development in Southern DuPage County.

#### 3.3 Current Use of the Property

The Property is currently undeveloped.

#### 3.4 Descriptions of Structures, Roads, Other Improvements

The Property consists of approximately 3.03 acres. The Property is not currently developed.

The remaining portion of the Property consists of limited landscaping.

#### 3.5 Current Use of the Adjoining Properties

Summary of current use of the adjoining properties:

Direction	Development Type	Site Use	Adjoining Street
North	Residential: Multi-Family	Lakeside Apartments (4800 Lake Trail Drive)	Old Oaks Drive
East	Residential: Multi-Family	Country Villas (4715 Beau Bien Boulevard)	Beau Bien Lane
South	Commercial	Multi-tenant strip retail building (2801 Ogden Avenue), Forever 25 Medical Center (2867 Ogden Avenue) and multi-tenant retail building (2895 Ogden Avenue)	Ogden Avenue
West	Commercial	Multi-tenant office building (2900 Ogden Avenue)	Non-Applicable

## **4.0 - User Provided Information**

### **4.1 Title Records**

Review of chain-of-title information is out of scope for this project.

### **4.2 Environmental Liens or Activity and Use Limitations**

Recorded land title records for the Property were not reviewed for this assessment. No environmental liens were reported by the Client.

### **4.3 Specialized Knowledge**

The client reported no specialized knowledge of RECs, HRECs or other potential environmental concerns in connection with the Property. No Property valuation reduction related to environmental issues or concerns was reported by the client.

### **4.4 Commonly Known or Reasonably Ascertainable Information**

GuideWire was not provided with any commonly known or reasonably ascertainable information about the Property that is material to recognized environmental conditions in connection with the Property.

### **4.5 Valuation Reduction for Environmental Issues**

GuideWire was not provided with any information, which indicated any valuation reduction for the Property.

### **4.6 Owner, Property Manager, and Occupant Information**

The Property is currently owned by IH Lisle Owner LLC. The Property is currently undeveloped.

### **4.7 Reason for Performing the Phase I ESA**

This Phase I ESA and report was prepared by GuideWire at the request of the Client. The ESA was requested for one or more of the following reasons:

- Assist in the evaluation of legal and financial liabilities associated with the Property.
- Assist in the evaluation of the Property's overall development potential.
- Assist in the determination whether any immediate actions at the Property are necessary to comply with existing environmental laws and regulations.
- Constitute partial or whole appropriate inquiry for purposes of CERCLA's innocent landowner defense.

### **4.8 Other**

The user has not made known to the environmental professional any other reason why the user wants to have this Phase I Environmental Site Assessment performed other than the user's desire to qualify for an LLP to CERCLA liability.

## 5.0 - Records Review

### 5.1 Standard Environmental Records Review

A search of available federal and state environmental records was conducted by Environmental Data Resources, Inc. (EDR). The EDR Radius Report with GeoCheck (Report) for the Property is included in Appendix D Regulatory Records Documentation of this report. The provided Report meets or exceeds the regulatory records search requirements of ASTM Designation E 1527-13. Discrepancies may exist between the EDR report and the findings of GuideWire's research and reconnaissance regarding sites identified in the Report. Listed facilities may not be plotted in correct locations or may be listed as unmapped sites because of incomplete or incorrect addresses or other inadequate data. When discrepancies occur, the findings of GuideWire's site reconnaissance and other records review will take precedence over information provided by EDR.

Based on the distance from the Property, the topography relative to the Property, the suspected hydrogeologic gradient and the site status, the site does not constitute a material threat to the Property. This site has received regulatory closure.			

A summary of the information provided in the EDR Report is presented in Section 5.1.1 and Section 5.1.2. Unless described in one or more of the following sections, the unmapped facilities identified in the EDR Report are either located beyond the prescribed search radii or cannot be located because of insufficient addresses.

### 5.1.1 - Federal and State Listing Summary

One Deleted National Priority List, two RCRA CORRACTS, one State Remediation Program and seven Leaking Underground Storage Tank facilities were identified in the Regulatory Database Report. Based on distance, topography, area groundwater conditions and/or site status, these listings are not considered to represent a material threat to the Property.

### 5.1.2 - Unmappable "Orphan" Sites

Unmapped facilities are those that do not contain sufficient address or location information to evaluate the facility listing locations relative to the site. The EDR report listed 1 facilities in the unmapped section. This facility is listed in the EDR report in Appendix D. Based on facility address information provided, the unmapped listing is not considered to be located within the AMSD of the Property.

### 5.2 Additional Environmental Records Sources

In addition to the database review, no local and/or state agencies were contacted and questioned with regard to any environmental issues related to the site or adjoining properties.

### 5.3 Physical Setting Sources

#### 5.3.1 - Topography

GuideWire reviewed the 1998 USGS Wheaton, IL 7.5 minute series topographic map (Contour Interval: 10 feet) for this assessment. The Property elevation is approximately 740 feet above Mean Sea Level (MSL) with a moderate slope to the northwest. A small unnamed engineered lake appears on the map approximately 500 feet northwest of the Property. The area surrounding the Property is shown as a mixture of residential and commercial property on the map and specific development is depicted. A copy of the topographic map can be found in Appendix A - Property Maps and Site Plans of this report.

### 5.3.2 - Regional Geology

Interior Plains Province - According to a map of Geologic Provinces of the United States, produced by the US Geological Survey, the Property is situated within the Interior Plains geologic province. The Interior Plains is a vast region that spreads across the stable core of North America. With the exception of the Black Hills of South Dakota, the entire region has low relief. The northern and eastern portions of the province, extending from Kansas to the Canadian border, were affected by Pleistocene glaciation. Alluvial actions have shaped the topography over much of the province. The bedrock in the Interior Plains consists primarily of thick layers of Paleozoic sedimentary rock, although, more recent alluvial deposits are found along many river and stream systems.

### 5.3.3 - Soil Survey Information

According to the United States Department of Agriculture's Soil Survey of DuPage County, IL, the predominant soil classification for the Property is as follows:

<b>Soil Classification</b>		Orthents, clayey, undulating	
<b>Percent Slope</b>	1 to 6%	<b>Water Capacity</b>	Low
<b>Depth</b>	Deep	<b>Surface Runoff</b>	High
<b>Drainage</b>	Well Drained	<b>Hydric Soil Type</b>	No
<b>Natural Fertility</b>	Moderate	<b>Formed In</b>	earthy fill
<b>Permeability</b>	Moderate		

### 5.3.4 - Groundwater Depth And Movement

Based on local topography and other physiographic information obtained, the groundwater is anticipated to flow toward the northwest at an estimated depth of 10 - 25 feet. However, it is possible that groundwater may not be present in unconsolidated material above bedrock in the area or may be seasonally present along bedrock surfaces. Local features may influence groundwater flow direction; therefore, a complete hydrogeologic investigation would be required to adequately determine groundwater flow direction at the Property. A small unnamed engineered lake is located approximately 500 feet northwest of the Property.

### 5.3.5 - Flood Zone Map

According to Federal Emergency Management Agency (FEMA) map number 17043C0802H, dated December 16, 2004 obtained from FEMA Flood Map Service Center, the subject Property is not in a flood prone area.

### 5.3.6 - Other Maps and Data

No additional maps or other data were provided by the client or obtained during the assessment.

## 5.4 Historical Use Information on the Property

### 5.4.1 - Land Use and Development

The Property is not currently developed. Prior to the current vacant status of the Property, a residence and outbuildings were located on the Property until the 1970's.

### 5.4.2 - City Directories

Historical city directories for the Property obtained from EDR were investigated for indications of previous uses of the Property. Where available, city directories are reviewed to determine historical Property use in a

minimum of five-year intervals. Historical uses of the adjoining properties were also researched, to the extent that records were considered practically reviewable. The following city directories from 1969 to 2013 were reviewed.

2013 2008 2003 1999 1995 1992 1986 1981 1976 1969

A review of the listed city directory listings for the Property from 1969 to 2013 did not identify usage of the Property or adjoining sites that is considered evidence of an REC or a potential REC.

#### **5.4.3 - Fire Insurance Maps**

Fire Insurance Maps were produced for urban areas since the late 1800s and were utilized for determining fire hazards. When available, these maps are reviewed for further documentation concerning the historical use of the Property and surrounding area. A search was conducted locally and through a national database company for all readily available Fire Insurance Maps.

According to information provided by Environmental Data Resources, a review of the EDR collection of Fire Insurance Maps indicates that there is no map coverage for the area of the Property.

#### **5.4.4 - Aerial Photographs**

Aerial photographs of both developed and undeveloped land have been produced since approximately 1930. Historical photographs are often available from local and federal government agencies. Numerous private companies also maintain collections for certain parts of the country. Where available, aerial photographs provide a valuable tool for evaluating the historical use of the Property and surrounding area. A search was conducted locally and/or through national providers for readily available aerial photographs.

Historical aerial photographs of the Property and vicinity were obtained from NETR, DuPage County Imagery Service and Google Earth. The photographs were reviewed for indications of previous uses of the Property and potential environmental concerns in the area.

Representative copies of the aerial photographs reviewed can be found in Appendix C - Historical Research Documentation of this report. A summary of the aerial photograph review is as follows:

2011 2006 2002 1998 1987 1978 1956 1939

A review of aerial photographs for the Property from 1939 to 2011 did not identify usage of the Property or adjoining sites that is considered evidence of an REC or a potential REC.

#### **5.4.5 - Historical Topographic Maps**

GuideWire Consulting, LLC reviewed the following historical topographic map published by the USGS and obtained from US Geological Survey (USGS):

- 1998 Wheaton, IL 7.5-minute, USGS
- 1993 Wheaton, IL 7.5-minute, USGS
- 1972 Wheaton, IL 7.5-minute, USGS
- 1962 Wheaton, IL 7.5-minute, USGS
- 1954 Wheaton, IL 7.5-minute, USGS
- 1948 Wheaton, IL 7.5-minute, USGS
- 1908 Weaton, IL 15-minute, USGS

The color-coding used on the maps indicates areas that are historically-developed, recently-developed, or undeveloped at the time of the publication of the map.

Based on the review of the historical topographic maps identified above obvious indications of RECs were not observed on the subject site or adjoining properties.

#### 5.4.6 - Prior Reports and Other Documentation

GuideWire was provided with, or obtained, the following reports for the Property during the investigative process.

A prior environmental report entitled "Vacant Property, 2850 Ogden Avenue, Lisle, IL" created by Mionx Corporation on Thursday, October 9, 2014 and provided by the Client was examined. At the time of the Mionx report, the Property was in its current undeveloped state. The 2014 report did not identify any RECs associated with the property and made no recommendations for further action or investigation. No significant discrepancies were identified with the site setting, historical or regulatory findings of this report.

#### 5.4.7 - Building Department Records

Building Department Records were reviewed during the assessment. According to the Village of Lisle Building Department, there are no issues of compliance or environmentally relevant records for the Property.

#### 5.4.8 - Zoning/Land Use Records

Zoning Land Use Records were reviewed during the assessment. According to the Village of Lisle Zoning Department, the Property is zoned B-2 Community Business and an ordinance dated June 21, 2016 approves a special use permit for the development of a transitional care facility at this site.

#### 5.4.9 - Property Tax Files

Property Tax Files were reviewed during the assessment. According to the office of the DuPage County Assessor, the Property is currently owned by IH Lisle Owner LLC.

#### 5.4.10 - Other Historical Sources

Other Historical Sources were not reviewed during the assessment.

#### 5.4.11 - Historical Use of the Property Table

The following table summarizes historical land uses identified for the Property:

<b>Historical Use Information on the Property</b>		
<b>Year(s)</b>	<b>Property Use</b>	<b>Reference Source</b>
1908-1972	Developed with an apparent farmstead consisting of small residential or outbuilding structures	Aerial Photograph, City Directory, Topographic Map
1978-2017	Undeveloped land	Aerial Photograph, City Directory, Interview, Local Records, Site Reconnaissance, Topographic Map

The Property has been undeveloped land since at least 1978. Prior to this, the Property was developed with an apparent farmstead consisting of small residential or outbuilding structures from at least 1908 to 1972.

#### 5.5 Historical Use Information on Adjoining Properties

The following table summarizes historical land uses identified for adjoining properties:

<b>Historical Use Information on Adjoining Properties</b>		
<b>Year(s)</b>	<b>Property Use</b>	<b>Reference Source</b>
<b>East</b>		
1908-1962	Undeveloped or agricultural land	Aerial Photograph, Topographic Map

<b>Historical Use Information on Adjoining Properties</b>		
<b>Year(s)</b>	<b>Property Use</b>	<b>Reference Source</b>
<b>East</b>		
1972-2017	Developed residentially with current structures	Aerial Photograph, Site Reconnaissance, Topographic Map
<b>North</b>		
1908-1962	Undeveloped or agricultural land	Aerial Photograph, Topographic Map
<b>North</b>		
1972-2017	Developed residentially with current structures	Aerial Photograph, Site Reconnaissance, Topographic Map
<b>South</b>		
1908-1948	Undeveloped or agricultural land	Aerial Photograph, Topographic Map
<b>South</b>		
1954-1998	Developed with commercial or residential structures and undeveloped land	Aerial Photograph, City Directory, Topographic Map
<b>South</b>		
2002-2017	Developed commercially with current structures	Aerial Photograph, City Directory, Site Reconnaissance
<b>West</b>		
1908-1962	Undeveloped or agricultural land	Aerial Photograph, City Directory, Topographic Map
<b>West</b>		
1972-2017	Developed commercially with current structure	Aerial Photograph, City Directory, Site Reconnaissance, Topographic Map

Prior to the development of extant structures, the adjoining property to the south was developed with antecedent residential or commercial structures from at least 1954 to 1998. All other adjoining properties were undeveloped or agricultural land.

## 6.0 - Site Reconnaissance

### 6.1 Methodology and Limiting Conditions

A site visit was performed by Mr. Michael Dever, Environmental Professional, on Wednesday, January 11, 2017. The observations noted in this section apply to the Property as it appeared on that day. A site investigation of the Property was performed. The exteriors of adjoining properties were visually evaluated as part of the site reconnaissance. Mr. Dever was unaccompanied during the site investigation. The weather at the time of the site visit was cloudy and approximately 35 degrees Fahrenheit.

### 6.2 General Site Setting

The Property consists of approximately 3.03 acres of land, is irregular in shape, identified as parcel 0809100025 by the DuPage County assessor's office, and is not developed. The Property is currently owned by IH Lisle Owner LLC. The Property includes no buildings.

#### 6.2.1 - Solid Waste Disposal

Solid waste is not generated on this Property.

#### 6.2.2 - Sewage Discharge

Sanitary sewage is not generated on the Property.

#### 6.2.3 - Process Wastewater

Process wastewater is not generated at the Property.

#### 6.2.4 - Surface Water Drainage

Surface water on the Property flows across the Property onto adjacent sites and flows toward the adjoining properties.

#### 6.2.5 - Utilities

Utilities were not identified on the Property.

#### 6.2.6 - Additional Property Conditions

Additional relevant property characteristics were not observed.

### 6.3 Exterior Observations

#### 6.3.1 - Landfills

No landfill activities were identified on the Property.

#### 6.3.2 - Summary of Exterior Observations Table

Summary of exterior observations:

Category	Item or Feature	Item or Feature Observed
<i>Site Operations, Processes, and Equipment</i>	Emergency generators	
<i>Aboveground Chemical or Waste Storage</i>	Evidence of aboveground storage tanks	
	Drums, barrels and/or containers $\geq$ 5 gallons	

Category	Item or Feature	Item or Feature Observed
<i>Underground Chemical or Waste Storage, Drainage or Collection Systems</i>	Evidence of underground storage tanks or ancillary UST equipment	
	Sumps, cisterns, catch basins and/or dry wells	
	Septic tanks and/or leach fields	
	Pipeline markers	
<i>Electrical Transformers/PCBs</i>	Pad or pole mounted transformers and/or capacitors	
	Generators	
<i>Evidence of Releases or Potential Releases</i>	Stressed vegetation	
	Stained soil	
	Stained pavement or similar surface	
	Leachate or waste seeps	
	Trash, debris and/or other waste materials	X
	Dumping or disposal areas	
	Construction/demolition debris and/or dumped fill dirt	
	Surface water discoloration, odor, sheen, and/or free floating product	
	Strong, pungent or noxious odors	
	Exterior pipe discharges and/or other effluent discharges	
	Discharge from roof drains	
	Discharge other than roof drains	
	Compressor blowdown	
<i>Other Notable Site Features</i>	Surface water bodies	
	Quarries or pits	
	Wells	
	Additional observations	
<i>Hazardous Materials and Petroleum Products</i>	Hazardous materials and petroleum products	

### **Evidence of Releases or Potential Releases**

#### *Trash, debris and/or other waste materials*

Various glass bottles, paper, trash and wood debris, were identified near the northern and eastern borders of the Property. No evidence of surficial staining, releases or noxious odors was observed in the vicinity of the debris at the time of the visual survey. These materials do not appear to constitute a REC at this time.

## **6.4 Interior Observations**

### **6.4.1 - Building Heating and Cooling**

The Property is currently undeveloped.

### **6.4.2 - Biohazardous Waste**

No biohazardous waste was identified on the Property.

**6.4.3 - Summary of Interior Observations Table**

Summary of interior observations:

<b>Category</b>	<b>Item or Feature</b>	<b>Item or Feature Observed</b>
<i>Site Operations, Processes, and Equipment</i>	Elevators	
	Air compressors	
	Hydraulic equipment	
	Film/X-ray developing equipment	
<i>Aboveground Chemical or Waste Storage</i>	Evidence of aboveground storage tanks	
	Drums, barrels and/or containers $\geq$ 5 gallons	
	Cleaning and/or similar supplies	
	MSDS	
<i>Underground Chemical or Waste Storage, Drainage or Collection Systems</i>	Evidence of underground storage tanks or ancillary UST equipment	
	Grease traps	
	Oil/water separators	
	Interior floor drains	
<i>Evidence of Releases or Potential Releases</i>	Stained pavement or similar surface	
	Laboratory hoods and/or Incinerators	
	Waste treatment systems and/or water treatment systems	
<i>Other Notable Site Features</i>	Additional observations	
<i>Hazardous Materials and Petroleum Products</i>	Hazardous materials and petroleum products	

**6.4.4 - Additional Hazard Observations on the Property**

Additional hazards were not observed on the Property.

**6.4.5 - Additional Hazard Observations on Adjacent Properties**

Additional hazards were not observed on the adjoining properties.

## **7.0 - Interviews**

Representative interviews were conducted with various individuals knowledgeable of the Property. The interviews were conducted to determine an awareness of any recognized environmentally related problems or concerns at the Property. Specific information obtained from the noted individuals appears in the appropriate sections of this report.

### **7.1 Interview with Owner**

At the time of this ESA, property owners were not available for interview.

### **7.2 Interview with Site Manager**

At the time of this ESA, property site managers were not available for interview.

### **7.3 Interview with Occupants**

At the time of this ESA, property occupants were not available for interview.

### **7.4 Interviews with Local Government Officials**

GuideWire interviewed Karen Arnold, the Deputy Village Clerk, Lisle on January 16, 2017. Ms. Arnold coordinated Guidewire's requests for records from the Village of Lisle Building and Zoning Departments. No issues of environmental concern were identified.

### **7.5 Interviews with Others**

At the time of this ESA, other individuals were not available for interview.

Copies of interview documentation can be found in Appendix E Interview Documentation of this report.

## 8.0 - Findings

The following findings and opinions were derived from GuideWire's assessment of the Property located at 2850 Ogden Avenue, Lisle, DuPage County, Illinois.

No environmental liens or activity and use limitation were reported by the client. No commonly known or reasonably ascertainable information was reported by the client. The client reported no specialized knowledge of recognized environmental concerns (RECs), historical recognized environmental concerns (HRECs) or other potential environmental concerns in connection with the Property. No Property valuation reduction related to environmental issues or concerns was reported by the client.

The Property consists of approximately 3.03 acres of land, is irregular in shape, identified as parcel 0809100025 by the DuPage County assessor's office, and is not developed. The Property is currently owned by IH Lisle Owner LLC. The Property includes no buildings. The Property has been undeveloped land since at least 1978. Prior to this, the Property was developed with an apparent farmstead consisting of small residential or outbuilding structures from at least 1908 to 1972.

Adjoining properties currently contain the following development: Country Villas (4715 Beau Bien Boulevard), Lakeside Apartments (4800 Lake Trail Drive), Multi-tenant office building (2900 Ogden Avenue), Multi-tenant strip retail building (2801 Ogden Avenue), Forever 25 Medical Center (2867 Ogden Avenue), and multi-tenant retail building (2895 Ogden Avenue).

The Property elevation is approximately 740 feet above Mean Sea Level. Based on local topography and other physiographic information obtained, the groundwater is anticipated to flow toward the northwest at an estimated depth of 10 - 25 feet. A small unnamed engineered lake is located approximately 500 feet northwest of the Property.

According to Federal Emergency Management Agency (FEMA) map number 17043C0802H, dated December 16, 2004, the subject Property is not in a flood prone area. According to the U.S. Fish and Wildlife Service (FWS) 2017 DuPage County Wetlands Map, the subject Property does not contain identified wetland areas.

A review of the state and federal regulatory data as provided by Environmental Data Resources, Inc. (EDR) has identified the following state or federal listings within the approximate minimum search distance (AMSD) of the Property. One Deleted National Priority List, two RCRA CORRACTS, one State Remediation Program and seven Leaking Underground Storage Tank facilities were identified in the Regulatory Database Report. Based on distance, topography, area groundwater conditions and/or site status, these listings are not considered to represent a material threat to the Property.

A prior environmental report entitled "Vacant Property, 2850 Ogden Avenue, Lisle, IL" created by Mionx Corporation on Thursday, October 9, 2014 and provided by the Client was examined. At the time of the Mionx report, the Property was in its current undeveloped state. The 2014 report did not identify any RECs associated with the property and made no recommendations for further action or investigation. No significant discrepancies were identified with the site setting, historical or regulatory findings of this report.

Wastes are not currently generated onsite. No landfill activities were identified on the Property.

Various glass bottles, paper, trash and wood debris, were identified near the northern and eastern borders of the Property. No evidence of surficial staining, releases or noxious odors was observed in the vicinity of the debris at the time of the visual survey. These materials do not appear to constitute a REC at this time.

The Property is currently undeveloped, no buildings or debris were identified on the Property considered to contain suspect lead-based paints. The EPA National Database for DuPage County, IL indicates that a moderate potential for elevated radon levels exists for DuPage County, IL.

Representative interviews were conducted with various individuals knowledgeable of the Property. The interviews were conducted to determine an awareness of any recognized environmentally related problems or concerns at the Property. The following person was interviewed during the course of this assessment: Karen Arnold, Deputy Village Clerk, Lisle.

Additional hazards were not observed on the Property or on the adjoining properties.

No material deviations from the standard were made in the preparation of this report.

## **9.0 - Opinion**

Based on site reconnaissance, research and interviews, the current and historical uses of the Property and surrounding area do not appear to represent a material threat to the Property. Furthermore, no Recognized Environmental Conditions (REC), Historical REC or Controlled REC were identified in connection with the Property.

It is the opinion of the environmental professional that the findings and conclusions presented in this report are reasonable and prudent, given the evidence as presented. In addition, this inquiry has not identified conditions indicative of releases or threatened releases of hazardous substances that would warrant additional investigation.

## **10.0 - Conclusions**

### **10.1 Conclusions**

#### **10.1.1 - Significant Data Gaps**

Significant data gaps were not encountered during the preparation of this Phase I Environmental Site Assessment.

#### **10.1.2 - Recognized Environmental Conditions**

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Designation E 1527-13 of Lisle Transitional Care, the property. Any exceptions to, or deletions from, this practice are described in Section 2.4 of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the property.

#### **10.2 Additional Investigation**

Based on the findings of this Phase I ESA, GuideWire recommends no further environmental investigation at this time.

## **11.0 - Deviations**

No material deviations from the standard were made in the preparation of this report.

## 12.0 - Additional Services

### 12.1 Radon

Radon is an invisible, odorless, radioactive gas produced by the decay of uranium in rock and soil. Radon gas enters a building through cracks in the foundation, areas surrounding drainage pipes, and other openings in the foundation and walls. Buildings with basements and concrete slab foundations are more susceptible to elevated radon gas levels. The radon decay products, once inside a building, may become attached to dust particles and inhaled, or the decayed radioactive particles alone may be inhaled and cause damage to lung tissue.

The EPA National Database for DuPage County, IL indicates that the average radon level for DuPage County, IL is predicted to be between 2.0 and 4.0 pCi/L. According to Section 7.8 subsection E of the HUD Section 232 Handbook effective January 19, 2017, new construction in Radon Zone 2 must meet all requirements of ASTM E1465-08a, Sections 6.2, 6.3 and 6.4 in regards to ground cover, foundation walls and gas permeable layers. Radon testing is required after construction is complete, but prior to Final Closing and any finding of results above threshold levels may subject the property to applicable mitigation standards.

If more information is needed regarding prevalent radon levels, further investigation would be required. Such investigation may include short-term and/or long-term testing for radon inside any onsite structures.

### 12.2 Lead-Based Paint

The Property is currently undeveloped, no buildings or debris were identified on the Property considered to contain suspect lead-based paints.

### 12.3 Wetlands Map

According to the U.S. Fish and Wildlife Service (FWS) 2015 DuPage County Wetlands Map obtained from USFWS Wetland Mapper, the subject Property does not contain identified wetland areas.

### 12.4 Cultural and Historic Resources

In accordance with 36 CFR Part 800, the Illinois Historic Preservation Agency was consulted regarding this project. The agency issued a determination that no historic, architectural or archaeological sites exist within the project area and therefore the project will have no effect upon historic properties.

### 12.5 Ecological Resources

According to information USFWS, accessed at <https://www.fws.gov/ecological-services/habitat-conservation/cbra/maps/mapper.html>, the Property is not located within a Coastal Barrier. According to information from Illinois Department of Natural Resources, accessed at <https://www.dnr.illinois.gov/cmp/Pages/boundaries.aspx>, the Property is not located within Illinois Coastal Management Program Boundaries. No further action or investigation is recommended at this time.

### 12.6 Endangered Species

According to U.S. Fish and Wildlife Service IPaC Trust Resource Report obtained at <https://ecos.fws.gov/ipac/>, the site is not located within the critical habitat of any species listed as endangered or threatened by the Fish and Wildlife Service.

### 12.7 Indoor Air Quality

GuideWire performed a Tier 1 Vapor Encroachment Screening in compliance with ASTM E 2600-15 "ASTM Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions" as amended. The purpose of the Tier 1 Vapor Encroachment Screening is to conduct an initial screen to determine if a Vapor Encroachment Condition (VEC) exists in connection with the subject property. A VEC is defined as

the presence or likely presence of chemical of concern (COC) vapors in the subsurface of the subject property caused by the release of vapors from contaminated soil or groundwater either on or near the subject property. GuideWire reviewed standard environmental record sources to identify if there are known or suspected sources of contamination within the area of concern (AOC). According to ASTM E 2600-15, the area of concern is defined by the approximate minimum search distance which is based upon the chemical of concern (i.e. petroleum hydrocarbons vs. non-petroleum hydrocarbons) and the location of a known or suspected source of contamination with respect to the subject property.

According to ASTM E 2600-15 8.2.1 “The area of concern is one third of a mile around the subject property, unless the use of a shorter distance is appropriate.” In addition, according to ASTM E 2600-15 8.3.1, “The approximate minimum search distance may be expanded or reduced in the up-gradient, down-gradient, and/or cross-gradient directions by the environmental professional conducting the Vapor Encroachment Screening based upon experience in the local area.” Therefore, GuideWire has reduced the approximate minimum search distance for up-gradient and cross-gradient contaminated properties based on actual plume data collected for dry cleaners, state hazardous waste sites, and evaluation of actual gas station LUST data.

One LUST site was identified at a distance of 813 feet from the Property. An additional six LUST sites were identified at distances of greater than 0.3 mile from the Property. No sites were identified that are considered a potential Vapor Encroachment Condition (pVEC).

### **12.8 Other**

**Flood Plain Management:** According to Federal Emergency Management Agency (FEMA) Flood Panel #17043C0802H, dated December 16, 2004, no part of the Property is located within the 100 or 500-year flood plain.

**Airports:** According to the National Plan of Integrated Airport Systems prepared by the FAA, accessed at [https://www.faa.gov/airports/planning\\_capacity/npis/reports/](https://www.faa.gov/airports/planning_capacity/npis/reports/), the Property is not located within 2 ½ miles of a military airport or 3,000 feet of a civilian airport and therefore is not subject to HUD standards regarding Runway Clear/Protection Zones.

**Noise Analysis:** In accordance with 24 CFR Part 51, Subpart B, a noise analysis was conducted using HUD's automated Day/Night Noise Level (DNL) electronic tool. A DNL of 52.3 was calculated for the proposed building on the subject property, which is below the acceptable maximum DNL of 65.

**Explosives/Fire Prone Materials:** The local fire department was contacted regarding the presence of USTs or ASTs. None were identified. Industrial facilities handling explosive or fire-prone materials such as liquid propane, gasoline or other storage tanks were not observed adjacent to or visible from the project site. No USTs, ASTs or facilities handling hazardous materials were identified at adjoining properties in the regulatory database report.

**Aquifer System:** The site is serviced by the municipal water and sewer system. According to EPA Region 5 Designated Sole Source Aquifer Map, the Property is not located within the boundaries of the recharge area of a designated sole source aquifer.

**Natural and/or Built Hazards and Nuisances:** No known natural hazards will likely affect the subject property. Natural hazards include: faults/fractures, cliffs, bluffs, crevices, slope failure from rains, unprotected water bodies, fire hazard materials, wind/sand storm concerns, poisonous plants/insects/animals, or hazardous terrain features. No built hazards were identified during the field reconnaissance. Other built hazards include: hazardous streets, dangerous intersections, inadequate street lighting, children’s play areas located next to a busy street, railroad crossings, hazardous or chemical storage, oil or gas wells, or industrial operations.

The proposed structure is not located within the easement or engineered fall distance of any overhead high voltage transmission lines, radio antennae, cellular towers or satellite towers.

According to information from the National Wild and Scenic Rivers System, accessed at <https://www.rivers.gov/map.php>, the Property is not in the vicinity of any waters designated under the Wild and Scenic Rivers Act.

According to information from the EPA, accessed at <https://www.epa.gov/green-book>, the Property's county or air quality management district is in attainment status for all criteria pollutants and is in compliance with the Clean Air Act.

## 14.0 - Signature(s) of Environmental Professional(s)

### 14.1 Environmental Professional

I, Michael Dever, declare that to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined by 312.10 of 40 CFR 312.

Michael Dever  
Environmental Professional

I, Andrew Clayton, declare that to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined by 312.10 of 40 CFR 312.

Andrew Clayton  
Vice President

### **15.0 - Qualification(s) of Environmental Professional(s)**

I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Subject Property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

**Industry Standard  
Definitions & Acronyms**

## ***Industry Standard Definitions for Reference per ASTM Designation E 1527-13***

<i>Adjoining Property</i>	Refers to any real property of which the border is contiguous or partially contiguous with that of the property. This includes a property that would be contiguous or partially contiguous but for a road, street, or other public thoroughfare separating them.
<i>Approximate Minimum Search Distance (AMSD)</i>	Identifies the area for which records must be obtained and reviewed as pursuant to ASTM E 1527 Section 7 subject to the limitations provided in that section.
<i>Business Environmental Risk</i>	Refers to the risk that may have a material environmental or environmentally- driven impact on the business associated with the current or planned use of a parcel of commercial real estate, not necessarily limited to those environmental issues required to be investigated in this practice. Consideration of business environmental risk issues may involve addressing one or more non-scope considerations, some of which are identified in ASTM E 1527 Section 12
<i>De minimis</i>	Refers to conditions that generally do not present a material risk of harm to public health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be de minimis are not recognized environmental conditions.
<i>Environmental Lien</i>	Is a charge, security, or encumbrance upon title to a property to secure the payment of cost, damage, debt, obligation, or duty arising out of response actions, cleanup, or other remediation of hazardous substances or petroleum products upon a property, including (but not limited to) liens imposed pursuant to CERCLA 42 USC § 9607 (1) and similar state or local laws.
<i>Hazardous Waste</i>	Is defined by RCRA as “a solid waste, or combination of solid wastes, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may – (A) cause, or significantly contribute to an increase in mortality or any increase in serious irreversible, or incapacitating reversible illness; or (B) pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of, or otherwise managed.”
<i>Historical Recognized Environmental Condition</i>	Is an environmental condition that would have been considered a recognized environmental condition in the past but may or may not currently be considered a recognized environmental condition. The final decision rests with the environmental professional and will be influenced by the current impact of the historical recognized environmental condition on the property at the time of the assessment.

<i>Practically Reviewable</i>	Means that the information is provided by the source in the manner and in a form that, upon examination, yields information relevant to the property without the need for extraordinary analysis of irrelevant data.
<i>Property</i>	Is identified as the real property that is the subject of environmental assessment including improvements, buildings, and other fixtures located on the property and affixed to the land.
<i>Publicly Available Information</i>	Is information to which access is allowed to anyone upon request.
<i>Reasonably Ascertainable</i>	Refers to information that is publicly available, obtainable from its source within reasonable time and cost restraints, and practically reviewable.
<i>Recognized Environmental Condition</i>	Refers to the presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater, or surface water of the Property. The term includes hazardous substances or petroleum products even under conditions in compliance with laws. Conditions determined to be de minimis are not recognized environmental conditions.

## **List of Acronyms Used in the Report**

AST	Above Ground Storage Tank
ASTM	American Society for Testing Materials
CERCLIS	Comprehensive Environmental Response, Compensation, and Liability Information System
ERNS	Emergency Response Notification System
ESA	Environmental Site Assessment
FEMA	Federal Emergency Management Agency
HREC	Historical Recognized Environmental Condition
LUST	Leaking Underground Storage Tank
NPL	National Priorities List
NRCS	National Resource Conservation Service
PCB	Polychlorinated Biphenyls
RCRA	Resource Conservation and Recovery Act
REC	Recognized Environmental Condition
SAR	Site Assessment Report (Standard Environmental Records Review)
TSD	Treatment Storage Disposal
USDA	United States Department of Agriculture
USEPA	United States Environmental Protection Agency
UST	Underground Storage Tank

## EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

### TARGET PROPERTY INFORMATION

#### ADDRESS

2850 OGDEN AVE  
LISLE, IL 60532

#### COORDINATES

# EXECUTIVE SUMMARY

## TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

## DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

## STANDARD ENVIRONMENTAL RECORDS

IL RGA LUST..... Recovered Government Archive Leaking Underground Storage Tank

### SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

### STANDARD ENVIRONMENTAL RECORDS

#### ***Federal RCRA CORRACTS facilities list***

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 09/12/2016 has revealed that there are 2 CORRACTS sites within approximately 1 mile of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

#### ***Federal RCRA generators list***

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 09/12/2016 has revealed that there are 2 RCRA-CESQG sites within approximately 0.25 miles of the target property.

## EXECUTIVE SUMMARY

### **State and tribal leaking storage tank lists**

IL LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the Illinois Environmental Protection Agency's LUST Incident Report.

A review of the IL LUST list, as provided by EDR, and dated 07/27/2016 has revealed that there are 7 IL LUST sites within approximately 0.5 miles of the target property.

### **State and tribal registered storage tank lists**

IL UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the Illinois State Fire Marshal's STC Facility List.

A review of the IL UST list, as provided by EDR, and dated 10/24/2016 has revealed that there is 1 IL UST site within approximately 0.25 miles of the target property.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Corrective Action Summary:**

Event date: 04/26/1990  
Event: RFA Completed

Event date: 04/26/1990  
Event: RFA Determination Of Need For An RFI, RFI is Necessary;

Event date: 09/28/1990  
Event: RFI Imposition, Focused data collection required for stabilization evaluation.

Event date: 02/01/1991  
Event: RFI Workplan Received

Event date: 09/27/1991  
Event: CA Prioritization, Facility or area was assigned a low corrective action priority.

Event date: 02/20/1992  
Event: RFI Workplan Notice Of Deficiency Issued

Event date: 11/05/1992  
Event: Stabilization Measures Evaluation, This facility is not amenable to stabilization activity at the present time for reasons other than 1- it appears to be technically infeasible or inappropriate (NF) or 2- there is a lack of technical information (IN). Reasons for this conclusion may be the status of closure at the facility, the degree of risk, timing considerations, the status of corrective action work at the facility, or other administrative considerations.

Event date: 11/05/1992  
Event: RFI Workplan Approved

Event date: 06/15/1993  
Event: RFI Supplemental Information Received

Event date: 10/20/1993  
Event: RFI Supplemental Information Requested By Agency

Event date: 03/31/1994

Event: CA Prioritization, Facility or area was assigned a low corrective action priority.

Event date: 04/14/1994  
Event: RFI Supplemental Information Deemed Satisfactory

Event date: 08/19/1997  
Event: RFI Approved

Event date: 08/19/1997  
Event: Corrective Action Process Terminated

Event date: 08/19/1997  
Event: Date For Remedy Selection (CM Imposed)

Event date: 08/19/1997  
Event: CA550RC

Event date: 08/19/1997  
Event: Current Human Exposures under Control, Yes, Current Human Exposures Under Control has been verified. Based on a review of information contained in the EI determination, current human exposures are expected to be under control at the facility under current and reasonably expected conditions. This determination will be re-evaluated when the Agency/State becomes aware of significant changes at the facility.

Event date: 08/19/1997  
Event: Igration of Contaminated Groundwater under Control, Yes, Migration of Contaminated Groundwater Under Control has been verified. Based on a review of information contained in the EI determination, it has been determined that migration of contaminated groundwater is under control at the facility. Specifically, this determination indicates that the migration of contaminated groundwater is under control, and that monitoring will be conducted to confirm that contaminated groundwater remains within the existing area of contaminated groundwater. This determination will be re-evaluated when the Agency becomes aware of significant changes at the facility.

Event date: Not reported  
Event: RFI Report Received

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

### ***Federal NPL site list***

#### **NPL: National Priority List**

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

#### **Proposed NPL: Proposed National Priority List Sites**

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 08/05/2016	Source: EPA
Date Data Arrived at EDR: 10/05/2016	Telephone: N/A

	Data Release Frequency: Quarterly

#### **NPL LIENS: Federal Superfund Liens**

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

## ***Federal Delisted NPL site list***

### Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 08/05/2016	Source: EPA
Date Data Arrived at EDR: 10/05/2016	Telephone: N/A
Date Made Active in Reports: 01/06/2017	Last EDR Contact: 01/05/2017

## ***Federal CERCLIS list***

### FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 09/14/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 10/04/2016	Telephone: 703-603-8704
Date Made Active in Reports: 10/21/2016	Last EDR Contact: 01/05/2017
Number of Days to Update: 17	Next Scheduled EDR Contact: 04/17/2017
	Data Release Frequency: Varies

### SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Number of Days to Update: 78	Next Scheduled EDR Contact: 04/17/2017
	Data Release Frequency: Quarterly

## ***Federal CERCLIS NFRAP site list***

### SEMS-ARCHIVE: Superfund Enterprise Management System Archive

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 10/10/2016	Source: EPA
Date Data Arrived at EDR: 10/20/2016	Telephone: 800-424-9346

	Data Release Frequency: Quarterly

## ***Federal RCRA non-CORRACTS TSD facilities list***

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 09/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 09/28/2016	Telephone: 312-886-6186
Date Made Active in Reports: 01/06/2017	Last EDR Contact: 12/28/2016
Number of Days to Update: 100	Next Scheduled EDR Contact: 04/10/2017

## ***Federal RCRA generators list***

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 09/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 09/28/2016	Telephone: 312-886-6186

## RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 09/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 09/28/2016	Telephone: 312-886-6186
Date Made Active in Reports: 01/06/2017	Last EDR Contact: 12/28/2016

## LF SPECIAL WASTE: Special Waste Site List

These landfills, as of January 1, 1990, accept non-hazardous special waste pursuant to the Illinois EPA Non-Hazardous Special Waste Definition. List A includes landfills that may receive any non-hazardous waste, Non-Regional Pollution Control Facilities are so noted. List B includes landfills designed to receive specific non-hazardous wastes. List B landfills are designated as a Regional Pollution Control Facility by RPCF, or Non-Regional Pollution Control Facility by Non-RPCF.

Date of Government Version: 01/01/1990	Source: Illinois EPA
Date Data Arrived at EDR: 06/17/2009	Telephone: 217-782-9288
Date Made Active in Reports: 07/15/2009	Last EDR Contact: 06/10/2009
Number of Days to Update: 28	Next Scheduled EDR Contact: N/A
	Data Release Frequency: No Update Planned

## IL NIPC: Solid Waste Landfill Inventory

Solid Waste Landfill Inventory. NIPC is an inventory of active and inactive solid waste disposal sites, based on state, local government and historical archive data. Included are numerous sites which previously had never been identified largely because there was no obligation to register such sites prior to 1971.

Date of Government Version: 08/01/1988	Source: Northeastern Illinois Planning Commission
Date Data Arrived at EDR: 08/01/1994	Telephone: 312-454-0400

## ADDITIONAL ENVIRONMENTAL RECORDS

### **Local Brownfield lists**

#### US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 09/20/2016

## EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

Date of Government Version: 08/30/2013	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/21/2014	Telephone: 617-520-3000
Date Made Active in Reports: 06/17/2014	Last EDR Contact: 11/08/2016

	Data Release Frequency: Quarterly

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## 2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Date of Government Version: 04/22/2013	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/03/2015	Telephone: 703-308-4044

## RMP: Risk Management Plans

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

## RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995	Source: EPA
Date Data Arrived at EDR: 07/03/1995	Telephone: 202-564-4104

## HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

## UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

## US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

## HWAR: Hazard Waste Annual Report

Each year, Illinois hazardous-waste generators tell the Illinois EPA the amounts and kinds of hazardous waste they produced during the previous year. Generators indicate by code the types of wastes produced and the steps they took to manage these wastes. If some or all of these wastes were sent to commercial treatment, storage, and disposal facilities (TSDFs), that information and the identity of each receiving facility also are submitted.

Illinois TSDFs likewise report the types and quantities of wastes received from in-state and out-of-state generators; they also report the procedures they used to manage these wastes.

Date of Government Version: 12/31/2014	Source: Illinois EPA
Date Data Arrived at EDR: 04/22/2016	Telephone: 217-524-3300

Data Release Frequency: Annually

## UIC: Underground Injection Wells

Injection wells are used for disposal of fluids by "injection" into the subsurface. The construction of injection wells range from very technical designs with twenty-four hour monitoring to simply a hole dug in the ground to control runoff. As a result of this diversity, the UIC Program divides injection wells into five different classes.

Data Release Frequency: Quarterly

## ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## EDR HIGH RISK HISTORICAL RECORDS

### *EDR Exclusive Records*

#### EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Data Release Frequency: No Update Planned

#### EDR Hist Auto: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

#### EDR Hist Cleaner: EDR Exclusive Historic Dry Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

## OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

## CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 07/30/2013  
Date Data Arrived at EDR: 08/19/2013  
Date Made Active in Reports: 10/03/2013

**Sensitive Receptors:** There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

## AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

## Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

## Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

### Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

### Daycare Centers: Homes & Centers Listing

Source: Department of Children & Family Services

Telephone: 312-814-4150

**Flood Zone Data:** This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Target Property Map:	5680801 WHEATON, IL
Version Date:	2012

West Map:	5680757 NAPERVILLE, IL
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

## GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

## TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

## TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SW

## SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

## HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

## **FEMA FLOOD ZONE**

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>
1702110005B	FEMA Q3 Flood data
<u>Additional Panels in search area:</u>	<u>FEMA Source Type</u>
1701970040B	FEMA Q3 Flood data
1702130009C	FEMA Q3 Flood data
1702130008C	FEMA Q3 Flood data
1701970055B	FEMA Q3 Flood data

## **NATIONAL WETLAND INVENTORY**

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
WHEATON	YES - refer to the Overview Map and Detail Map

## HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

### ***Site-Specific Hydrogeological Data\*:***

Search Radius:	1.25 miles
Status:	Not found

## **AQUIFLOW®**

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

## **GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY**

### **GROUNDWATER FLOW VELOCITY INFORMATION**

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

### **GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY**

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

#### **ROCK STRATIGRAPHIC UNIT**

Era: Paleozoic  
System: Silurian  
Series: Middle Silurian (Niagoaran)  
Code: S2 *(decoded above as Era, System & Series)*

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

### DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

#### Soil Map ID: 1

Soil Component Name: Orthents, clayey

Soil Surface Texture: silty clay

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Moderately well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 84 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	5 inches	silty clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay Soils.	Max: 0.42 Min: 0.14	Max: 7.8 Min: 5.6
2	5 inches	59 inches	silty clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay Soils.	Max: 0.42 Min: 0.14	Max: 8.4 Min: 6.1

#### Soil Map ID: 2

Soil Component Name: Markham

Soil Surface Texture: silty clay loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Moderately well drained

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 76 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

**Soil Map ID: 6**

Soil Component Name: Ashkum

Soil Surface Texture: silty clay loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Poorly drained

Hydric Status: All hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 15 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	53 inches	59 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 4.23 Min: 1.41	Max: 8.4 Min: 7.4
2	0 inches	11 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 4.23 Min: 1.41	Max: 7.3 Min: 5.6
3	11 inches	29 inches	silty clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit 50% or more), Fat Clay.	Max: 4.23 Min: 1.41	Max: 7.3 Min: 6.1
4	29 inches	53 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 4.23 Min: 1.41	Max: 7.8 Min: 6.6

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

### Soil Map ID: 7

Soil Component Name: Millstream

Soil Surface Texture: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Somewhat poorly drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 46 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	7 inches	12 inches		Not reported	Not reported	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.1
2	0 inches	7 inches	silt loam	Not reported	Not reported	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.1
3	12 inches	29 inches		Not reported	Not reported	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.1
4	29 inches	46 inches		Not reported	Not reported	Max: 42.34 Min: 4.23	Max: 7.8 Min: 5.6
5	46 inches	64 inches		Not reported	Not reported	Max: 141.14 Min: 141.14	Max: 8.4 Min: 7.4

### Soil Map ID: 8

Soil Component Name: Dunham

Soil Surface Texture: silty clay loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Poorly drained

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: All hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 15 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	11 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.6
2	11 inches	31 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.6
3	31 inches	42 inches	clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 42.34 Min: 4.23	Max: 7.8 Min: 6.1
4	42 inches	59 inches	stratified gravelly sandy loam to extremely gravelly coarse sand	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 705 Min: 141.14	Max: 8.4 Min: 7.4

### Soil Map ID: 9

Soil Component Name: Fox

Soil Surface Texture: silt loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	3 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.1
2	3 inches	7 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.1

### LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

## TOPOGRAPHIC INFORMATION

### USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

### Current USGS 7.5 Minute Topographic Map

## HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

### State Wetlands Data: Wetland Inventory

Source: Illinois State Geological Survey

Telephone: 217-333-4747

## HYDROGEOLOGIC INFORMATION

### AQUIFLOW<sup>R</sup> Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

## GEOLOGIC INFORMATION

### Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

### STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

### SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

## LOCAL / REGIONAL WATER AGENCY RECORDS

### FEDERAL WATER WELLS

#### PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

#### PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

#### USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

### STATE RECORDS

#### Water Well Records

## Assessment Interviews Documentation

<b>Lisle Transitional Care</b> <b>2850 Ogden Avenue</b> <b>Lisle, DuPage County, IL 60532</b>		GuideWire Project 14.1.170002
Site Inspection Date:	1/11/2017	
Field Scientist:	James Davis	

<b><i>Local Government Official</i></b>		
Name	Karen Arnold	Date 1/16/2017
Title	Deputy Village Clerk, Lisle	
The following issues were addressed while interviewing the knowledgeable party. <i>*Are you aware of any emergency responses at the subject address?</i> <i>*Are you aware of any current or historical underground storage tanks (USTs) at the address?</i> <i>*Are you aware of any petroleum or hazardous materials spills on the property on in the area?</i> <i>*Are you aware of any recognized environmental conditions in connection with the Property?</i> <i>*Are you aware of any other concerns in connection with the Property or surrounding properties?</i>		
<b>Comments / Details</b>		
Ms. Arnold coordinated Guidewire's requests for records from the Village of Lisle Building and Zoning Departments. No issues of environmental concern were identified.		
Completed by <i>James Davis</i>		

## USER QUESTIONNAIRE

For Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the user must provide the following information (if available) to the environmental professional. As per the Brownfields Amendments, failure to provide this information could result in a determination that "all appropriate inquiry" is not complete.

<b>Project Number:</b>	NA
<b>Property Name:</b>	Transitional Care of Lisle
<b>Property Address:</b>	2850 Ogden Ave., Lisle, IL 60532
<b>Respondent Name:</b>	IH Lisle Owner
<b>Respondent Address:</b>	1630 Des Peres Rd., STE 310 St. Louis, MO 63131
<b>Response Date:</b>	1/10/17

### 1. Environmental Cleanup Liens

Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law?

Yes **No**

### 2. Activity and Land Use Limitations

Are you aware of any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?

Yes **No**

### 3. Specialized Knowledge or Experience

Do you have any specialized knowledge or experiences related to the property, nearby properties, or are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

Yes **No**

### 4. Purchase Price vs. Fair Market Value

Does the purchase price being paid for this property reasonably reflect the fair market value of the property?

**Yes** No

### 5. Commonly Known or Reasonably Ascertainable Information

Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases?

Yes **No**

5a. Do you know the past uses of the property? **Yes** **No**

5b. Do you know of specific chemicals that are present or were once were present at the property?

Yes  No

5c. Do you know of spills or other chemical releases that have taken place at the property?

Yes  No

5d. Do you know of any environmental cleanups that have taken place at the property?

Yes  No

#### **6. Obviousness of the Presence or Likely Presence of Contamination**

As the user of this ESA, based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of contamination at the property?

Yes  No

## **Appendix F**

# **Special Contractual Conditions Between User and Environmental Professional**

## **Phase I Environmental Site Assessment**

The Phase I Environmental Site Assessment (Phase I ESA) prepared by GuideWire Consulting, LLC (GuideWire) was performed in accordance with the standards set forth in ASTM Designation E 1527-13 and the following Scope of Work Summary.

### **Purpose**

The purpose of this Phase I ESA is to identify existing or potential recognized environmental conditions or historical recognized environmental conditions (as defined by ASTM Designation E 1527-13) affecting the Property. The qualitative assessment will be accomplished by, and limited to, a review of presently and readily available information regarding past and current land use for indications of the manufacture, generation, use, storage and/or disposal of hazardous substances at the site, and site reconnaissance to observe existing site conditions. The Phase I ESA is typically requested by the Client for one or more of the following reasons:

- Assist in the evaluation of legal and financial liabilities associated with the property;
- Assist in the evaluation of the Property's overall development potential;
- Assist in the determination whether any immediate actions at the Property are necessary to comply with existing environmental laws and regulations; and
- Constitute partial or whole appropriate inquiry for purposes of CERCLA's innocent landowner defense.

### **Scope Of Work**

- Performing a site visit to identify any obvious visual signs of contamination. Access to all portions of the subject property, including roof(s), storage area(s), and basement(s), if applicable will be necessary. If access is unavailable to any portion of the subject property, ability to complete the scope of services described herein may be hindered);
- Investigation of past and present land use. (Should past use dictate, review of previous site usage to identify the possibility of on-site release or disposal of manufacturing or other waste);
- Investigation of adjacent land use and possible source(s) of contamination;
- Review of pertinent readily available documents and maps regarding geologic and hydrogeologic conditions for the site;
- Review and interpretation of available historical aerial photographs and other readily available historical documentation of the site and vicinity and provide representative copies of the photographs reviewed;
- Review of existing facility for potential PCB or PCB-contaminated electrical equipment (if applicable);
- Review county, state, and U.S. Environmental Protection Agency (EPA) lists of known or potential hazardous waste sites or landfills and sites currently under investigation for environmental violations;
- Conduct inquiries to applicable municipal, county, and state regulatory agencies for information regarding building or environmental permits, environmental violations or incidents and/or status of enforcement actions at the subject property;
- Conduct interviews, if appropriate, with subject property owner or manager and maintenance personnel, if available, to evaluate site history and operation and maintenance procedures; and
- Prepare a report of findings of the above investigation including color photographic documentation of the subject site and site maps. The report may include a recommendation to perform a Phase II Environmental Site Assessment to evaluate concerns disclosed during Phase I. Phase II typically includes, but is not limited to, additional sampling and analysis of water, soil, electrical equipment fluid and building materials. This scope does not include services associated with Phase II of an Environmental Site Assessment.

### **Out of Scope Items / Additional Services**

- When applicable and at the request of the Client, additional out-of scope items may be included in the Phase I Environmental Site Assessment. These additional out-of-scope items may include, but are not limited to: limited inspection for suspect asbestos-containing materials (ACM) or lead-based paints; placement, collection and analysis of radon test canisters; collection and analysis of soil or groundwater samples; identification and evaluation of site-specific wetland areas; and obtaining chain-of-title documentation.

## **Appendix G**

### **Qualifications of the Environmental Professional**

---

# Michael H. Dever

President

Environmental Professional / Project Manager

**Education:** B.A. Environmental Studies/Geography, University of Kansas, 1986

**Licenses/Registrations:** CA EPA Registered Environmental Assessor I, No. 2676  
US EPA AHERA Asbestos Inspector  
Accredited Asbestos Inspector / Professional – Multiple States  
US EPA AHERA Asbestos Project Designer  
OSHA HAZWHOPER  
NIOSH 582

---

## Qualifications & Professional Experience

Michael H. Dever has worked as an environmental consultant since 1985. He has managed environmental site assessment programs for several Fortune 500 companies located throughout the country. Mr. Dever manages and performs Phase I Environmental Site Assessments as well as Phase II investigations and Phase III remediation projects. Michael also performs Property Condition Screens and Property Condition Assessments. Because of his vast environmental and real estate background, he has been called upon to complete projects in nearly all of the contiguous United States as well as Alaska, Hawaii and Puerto Rico.

Michael has built upon his environmental experience through the development of a program for integrating hand-held computer technology with site reconnaissance and property review. Working with computer programmers, Michael has developed an application of digital data collection and custom database development to allow users to provide accurate, efficient and easy-to-read documents. With his field experience and hands-on involvement in all aspects of the environmental industry, Michael has successfully implemented procedures and protocols for the performance and development of field assessments: protocols that further enhance the benefit of performing assessments of real property.

He has performed hazardous materials assessments on more than 30,000,000 square feet of educational, governmental, commercial and industrial facilities, and has designed and managed hazardous materials remediation projects for contaminants such as petroleum hydrocarbons, poly-chlorinated biphenyls (PCBs), asbestos and lead-based paint on more than 300 projects. He has managed facility-wide projects for a variety of commercial, industrial, and health-care organizations. One example is a project that involved assessments of 450 facilities in 8 states. Additionally, he has performed various types of assessment and remediation projects on properties for federal and state government agencies, corporations, property development firms and lending institutions.

# Andrew L. Clayton

## Environmental Professional / Project Manager

**Education:** M.S. Geology, Kansas State University, 1986  
B.S. Geology, Bowling Green State University, 1980

**Licenses/Registrations:** Professional Geologist – Kentucky  
Professional Geologist – Indiana  
Professional Geologist – Tennessee  
Professional Geologist – Pennsylvania  
Registered Geologist – Missouri  
US EPA AHERA Asbestos Inspector  
NIOSH 582e

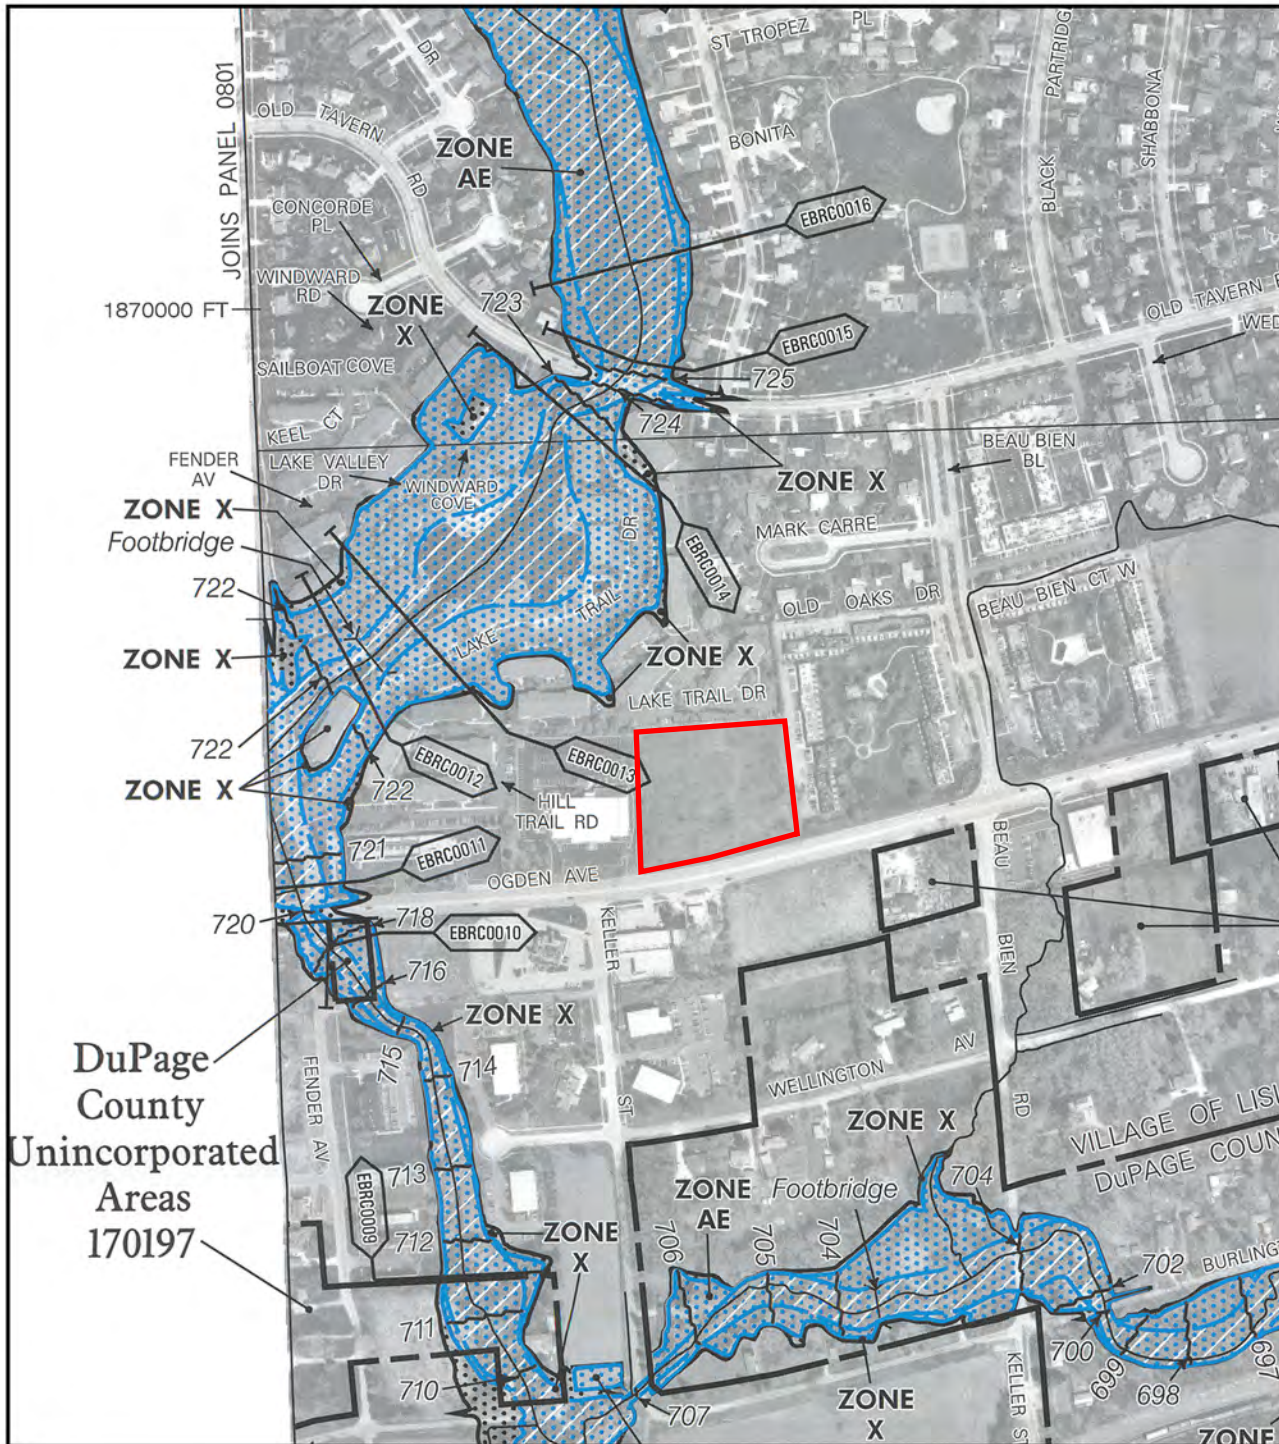

---

### Qualifications & Professional Experience

Andrew L. Clayton has been an environmental consultant since 1984. During his career he has developed, designed, and managed a multitude of advanced environmental projects throughout the country. These projects include environmental assessment and remediation projects, surface and subsurface contamination investigation and remediation projects, hazardous materials investigation and remediation projects, and real estate assessment. In addition to environmental consulting, Mr. Clayton has performed multiple Property Condition Screens and Property Condition Assessments. His projects, both environmental and real estate, keep him traveling nationally.

Andrew has managed and coordinated multiple \$1,000,000 environmental projects including the removal and replacement of fuel storage systems at more than 50 managed care facilities in 15 states, and the demolition of a large urban transportation center. The demolition project incorporated a variety of environmental challenges including characterization and disposal of unknown chemicals, PCB equipment and biological wastes; asbestos abatement; and subsurface investigation and excavation of hydrocarbon contaminated soil. He has managed several multiple site environmental assessment portfolios for various health care and commercial clients. Mr. Clayton has also provided expert witness testimony and litigation support in several civil cases involving environmental contamination of real property from industrial solvents and petroleum hydrocarbons.

## Mitigation Options

If your site DNL is in Excess of 65 decibels, your options are:

- **No Action Alternative:** Cancel the project at this location
- **Other Reasonable Alternatives:** Choose an alternate site
- **Mitigation**
  - Contact your Field or Regional Environmental Officer (</programs/environmental-review/hud-environmental-staff-contacts/>)
  - Increase mitigation in the building walls (only effective if no outdoor, noise sensitive areas)
  - Reconfigure the site plan to increase the distance between the noise source and noise-sensitive uses
  - Incorporate natural or man-made barriers. See *The Noise Guidebook* (</resource/313/hud-noise-guidebook/>)
  - Construct noise barrier. See the **Barrier Performance Module** (</programs/environmental-review/bpm-calculator/>)

# IPaC resource list

## Project information

### NAME

Lisle HUD

### LOCATION

DuPage County, Illinois

## Local office

Chicago Ecological Service Field Office

☎ (312) 216-4720

U.S. Fish And Wildlife Service Chicago Ecological Services Office  
230 South Dearborn St., Suite 2938  
Chicago, IL 60604-1507

<http://www.fws.gov/midwest/angered/section7/s7process/7a2process.html>

## Endangered species

**This resource list is for informational purposes only and should not be used for planning or analyzing project level impacts.**

[Section 7](#) of the Endangered Species Act **requires** Federal agencies to “request of the Secretary information whether any species which is listed or proposed to be listed may be present in the area of such proposed action” for any project that is conducted, permitted, funded, or licensed by any Federal agency.

**A letter from the local office and a species list which fulfills this requirement can only be obtained by requesting an official species list either from the Regulatory Review section in IPaC or from the local field office directly.**

For project evaluations that require USFWS concurrence/review, please return to the IPaC website and request an official species list by creating a project and making a request from the Regulatory Review section.

Listed species<sup>1</sup> are managed by the [Endangered Species Program](#) of the U.S. Fish and Wildlife Service.

1. Species listed under the [Endangered Species Act](#) are threatened or endangered; IPaC also shows species that are candidates, or proposed, for listing. See the [listing status page](#) for more information.

The following species are potentially affected by activities in this location:

## Flowering Plants

NAME

STATUS

Eastern Prairie Fringed Orchid <i>Platanthera leucophaea</i> No critical habitat has been designated for this species. <a href="http://ecos.fws.gov/ecp/species/601">http://ecos.fws.gov/ecp/species/601</a>	Threatened
Leafy Prairie-clover <i>Dalea foliosa</i> No critical habitat has been designated for this species. <a href="http://ecos.fws.gov/ecp/species/5498">http://ecos.fws.gov/ecp/species/5498</a>	Endangered
Mead's Milkweed <i>Asclepias meadii</i> No critical habitat has been designated for this species. <a href="http://ecos.fws.gov/ecp/species/8204">http://ecos.fws.gov/ecp/species/8204</a>	Threatened
Prairie Bush-clover <i>Lespedeza leptostachya</i> No critical habitat has been designated for this species. <a href="http://ecos.fws.gov/ecp/species/4458">http://ecos.fws.gov/ecp/species/4458</a>	Threatened

## Insects

NAME	STATUS
Hine's Emerald Dragonfly <i>Somatochlora hineana</i> There is a final <u>critical habitat</u> designated for this species. Your location is outside the designated critical habitat. <a href="http://ecos.fws.gov/ecp/species/7877">http://ecos.fws.gov/ecp/species/7877</a>	Endangered

## Mammals

NAME	STATUS
Northern Long-eared Bat <i>Myotis septentrionalis</i> No critical habitat has been designated for this species. <a href="http://ecos.fws.gov/ecp/species/9045">http://ecos.fws.gov/ecp/species/9045</a>	Threatened

## Reptiles

NAME	STATUS
Eastern Massasauga (=rattlesnake) <i>Sistrurus catenatus</i> No critical habitat has been designated for this species. <a href="http://ecos.fws.gov/ecp/species/2202">http://ecos.fws.gov/ecp/species/2202</a>	Threatened

## Critical habitats

Potential effects to critical habitat(s) in this location must be analyzed along with the endangered species themselves.

THERE ARE NO CRITICAL HABITATS AT THIS LOCATION.

## Migratory birds

Birds are protected under the Migratory Bird Treaty Act<sup>1</sup> and the Bald and Golden Eagle Protection Act<sup>2</sup>.

Any activity that results in the take (to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct) of migratory birds or eagles is prohibited unless authorized by the U.S. Fish and Wildlife Service<sup>3</sup>. There are no provisions for allowing the take of migratory birds that are unintentionally killed or injured.

Any person or organization who plans or conducts activities that may result in the take of migratory birds is responsible for complying with the appropriate regulations and implementing appropriate conservation measures.

1. The [Migratory Birds Treaty Act](#) of 1918.
2. The [Bald and Golden Eagle Protection Act](#) of 1940.
3. 50 C.F.R. Sec. 10.12 and 16 U.S.C. Sec. 668(a)

Additional information can be found using the following links:

- Birds of Conservation Concern <http://www.fws.gov/birds/management/managed-species/birds-of-conservation-concern.php>
- Conservation measures for birds <http://www.fws.gov/birds/management/project-assessment-tools-and-guidance/conservation-measures.php>
- Year-round bird occurrence data <http://www.birdscanada.org/birdmon/default/datasummaries.jsp>

The migratory birds species listed below are species of particular conservation concern (e.g. [Birds of Conservation Concern](#)) that may be potentially affected by activities in this location, not a list of every bird species you may find in this location. Although it is important to try to avoid and minimize impacts to all birds, special attention should be made to avoid and minimize impacts to birds of priority concern. To view available data on other bird species that may occur in your project area, please visit the [AKN Histogram Tools](#) and [Other Bird Data Resources](#).

Willow Flycatcher <i>Empidonax traillii</i> <a href="http://ecos.fws.gov/ecp/species/3482">http://ecos.fws.gov/ecp/species/3482</a>	Breeding
Wood Thrush <i>Hylocichla mustelina</i>	Breeding

#### What does IPaC use to generate the list of migratory bird species potentially occurring in my specified location?

##### Landbirds:

Migratory birds that are displayed on the IPaC species list are based on ranges in the latest edition of the National Geographic Guide, Birds of North America (6th Edition, 2011 by Jon L. Dunn, and Jonathan Alderfer). Although these ranges are coarse in nature, a number of U.S. Fish and Wildlife Service migratory bird biologists agree that these maps are some of the best range maps to date. These ranges were clipped to a specific Bird Conservation Region (BCR) or USFWS Region/Regions, if it was indicated in the 2008 list of Birds of Conservation Concern (BCC) that a species was a BCC species only in a particular Region/Regions. Additional modifications have been made to some ranges based on more local or refined range information and/or information provided by U.S. Fish and Wildlife Service biologists with species expertise. All migratory birds that show in areas on land in IPaC are those that appear in the 2008 Birds of Conservation Concern report.

##### Atlantic Seabirds:

Ranges in IPaC for birds off the Atlantic coast are derived from species distribution models developed by the National Oceanic and Atmospheric Association (NOAA) National Centers for Coastal Ocean Science (NCCOS) using the best available seabird survey data for the offshore Atlantic Coastal region to date. NOAA/NCCOS assisted USFWS in developing seasonal species ranges from their models for specific use in IPaC. Some of these birds are not BCC species but were of interest for inclusion because they may occur in high abundance off the coast at different times throughout the year, which potentially makes them more susceptible to certain types of development and activities taking place in that area. For more refined details about the abundance and richness of bird species within your project area off the Atlantic Coast, see the [Northeast Ocean Data Portal](#). The Portal also offers data and information about other types of taxa that may be helpful in your project review.

About the NOAA/NCCOS models: the models were developed as part of the NOAA/NCCOS project: [Integrative Statistical Modeling and Predictive Mapping of Marine Bird Distributions and Abundance on the Atlantic Outer Continental Shelf](#). The models resulting from this project are being used in a number of decision-support/mapping products in order to help guide decision-making on activities off the Atlantic Coast with the goal of reducing impacts to migratory birds. One such product is the [Northeast Ocean Data Portal](#), which can be used to explore details about the relative occurrence and abundance of bird species in a particular area off the Atlantic Coast.

All migratory bird range maps within IPaC are continuously being updated as new and better information becomes available.

#### Can I get additional information about the levels of occurrence in my project area of specific birds or groups of birds listed in IPaC?

##### Landbirds:

The [Avian Knowledge Network \(AKN\)](#) provides a tool currently called the "Histogram Tool", which draws from the data within the AKN (latest, survey, point count, citizen science datasets) to create a view of relative abundance of species within a particular location over the course of the year. The results of the tool depict the frequency of detection of a species in survey events, averaged between multiple datasets within AKN in a particular week of the year. You may access the histogram tools through the [Migratory Bird Programs AKN Histogram Tools](#) webpage.

The tool is currently available for 4 regions (California, Northeast U.S., Southeast U.S. and Midwest), which encompasses the following 32 states: Alabama, Arkansas, California, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and Wisconsin.

In the near future, there are plans to expand this tool nationwide within the AKN, and allow the graphs produced to appear with the list of trust resources generated by IPaC, providing you with an additional level of detail about the level of occurrence of the species of particular concern potentially occurring in your project area throughout the course of the year.

##### Atlantic Seabirds:

For additional details about the relative occurrence and abundance of both individual bird species and groups of bird species within your project area off the Atlantic Coast, please visit the [Northeast Ocean Data Portal](#). The Portal also offers data and information about other taxa besides birds that may be helpful to

you in your project review. Alternately, you may download the bird model results files underlying the portal maps through the NOAA/COS [Integrative Statistical Modeling and Predictive Mapping of Marine Bird Distributions and Abundance on the Atlantic Outer Continental Shelf project](#) webpage.

## Facilities

### Wildlife refuges

Any activity proposed on [National Wildlife Refuge](#) lands must undergo a 'Compatibility Determination' conducted by the Refuge. Please contact the individual Refuges to discuss any questions or concerns.

THERE ARE NO REFUGES AT THIS LOCATION.

### Fish hatcheries

THERE ARE NO FISH HATCHERIES AT THIS LOCATION.

## Wetlands in the National Wetlands Inventory

Impacts to [NWI wetlands](#) and other aquatic habitats may be subject to regulation under Section 404 of the Clean Water Act, or other State/Federal statutes.

For more information please contact the Regulatory Program of the local [U.S. Army Corps of Engineers District](#).

WETLAND INFORMATION IS NOT AVAILABLE AT THIS TIME

#### Data limitations

The Service's objective of mapping wetlands and deepwater habitats is to produce reconnaissance level information on the location, type and size of these resources. The maps are prepared from the analysis of high altitude imagery. Wetlands are identified based on vegetation, visible hydrology and geography. A margin of error is inherent in the use of imagery; thus, detailed on-the-ground inspection of any particular site may result in revision of the wetland boundaries or classification established through image analysis.

The accuracy of image interpretation depends on the quality of the imagery, the experience of the image analysts, the amount and quality of the collateral data and the amount of ground truth verification work conducted. Metadata should be consulted to determine the date of the source imagery used and any mapping problems.

Wetlands or other mapped features may have changed since the date of the imagery or field work. There may be occasional differences in polygon boundaries or classifications between the information depicted on the map and the actual conditions on site.

#### Data exclusions

Certain wetland habitats are excluded from the National mapping program because of the limitations of aerial imagery as the primary data source used to detect wetlands. These habitats include seagrasses or submerged aquatic vegetation that are found in the intertidal and subtidal zones of estuaries and nearshore coastal waters. Some deepwater reef communities (coral or tubercid worm reefs) have also been excluded from the inventory. These habitats, because of their depth, go undetected by aerial imagery.

#### Data precautions

Federal, state, and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than that used in this inventory. There is no attempt, in either the design or products of this inventory, to define the limits of proprietary jurisdiction of any Federal, state, or local government or to establish the geographical scope of the regulatory programs of government agencies. Persons intending to engage in activities involving modifications within or adjacent to wetland areas should seek the advice of appropriate federal, state, or local agencies concerning specified agency regulatory programs and proprietary jurisdictions that may affect such activities.

# Illinois Historic Preservation Agency

1 Old State Capitol Plaza, Springfield, IL 62701-1512

FAX 217/524-7525  
[www.illinoishistory.gov](http://www.illinoishistory.gov)

DuPage County  
Lisle  
2850 Ogden Avenue  
IHFSRB  
New construction, Transitional Care of Lisle

PLEASE REFER TO: IHPA LOG #001112515

December 17, 2015

Anne Cooper  
Polsinelli  
161 N. Clark St., Suite 4200  
Chicago, IL 60601

Dear Ms. Cooper:

The Illinois Historic Preservation Agency is required by the Illinois State Agency Historic Resources Preservation Act (20 ILCS 3420, as amended, 17 IAC 4180) to review all state funded, permitted or licensed undertakings for their effect on cultural resources. Pursuant to this, we have received information regarding the referenced project for our comment.

Our staff has reviewed the specifications under the state law and assessed the impact of the project as submitted by your office. We have determined, based on the available information, that no significant historic, architectural or archaeological resources are located within the proposed project area.

According to the information you have provided concerning your proposed project, apparently there is no federal involvement in your project. However, please note that the state law is less restrictive than the federal cultural resource laws concerning archaeology. If your project will use federal loans or grants, need federal agency permits, use federal property, or involve assistance from a federal agency, then your project must be reviewed under the National Historic Preservation Act of 1966, as amended. Please notify us immediately if such is the case.

This clearance remains in effect for two (2) years from date of issuance. It does not pertain to any discovery during construction, nor is it a clearance for purposes of the IL Human Skeletal Remains Protection Act (20 ILCS 3440).

Please retain this letter in your files as evidence of compliance with the Illinois State Agency Historic Resources Preservation Act.

Sincerely,

Rachel Leibowitz, Ph.D.  
Deputy State Historic  
Preservation Officer
