

800 mm (31.5") height adjustment  
 Comes 95% assembled  
 Large-format flat panels 37-90"  
 (subject to VESA pattern and weight limit)  
 VESA 800 (wide) x 600 mm (tall)  
 SWL (safe working load) 130 kg (286 lb)

The VFM-F30 is a powerful, attractive motorised floor stand for large displays. This premium mount is rigid with narrow vertical elements which help it blend in instead of dominating a room - essential for high quality boardroom and meeting space decor.

Installation is super-fast; just take it out of the box, attach the flat-panel mount, and fix it to the wall. Done! Vision's floor stands transmit the load of the heavy display safely to the floor.

### Components included:

#### Heavy Duty

The F30 uses heavy-gauge components to take a SWL of up to 130kg (286 lbs), and a powerful linear drive which moves at 16 mm (0.6") per second.

#### For 37-90" Displays

Fits most displays from 37-90" subject to VESA pattern and weight limit. Note: curved screens are not supported by this mount.

#### 800 mm / 31.5" Motorised Height Adjustment

The columns move up and down with 800 mm / 31.5" of range. With no pinch-points this is a very safe design.

#### Telescopic Columns

The tolerance of the telescopic legs is exceptional, resulting in smooth motion with no unwanted wobble at the screen.

#### Wireless Control

A remote control is included with simple up and down functions, plus two programmable memory positions. *Note: users should not rely on memory to lower the stand in case of harm or injury.*

#### Four Wall Brackets

Brackets fix the column to the wall at two height positions. They secure the column 35-130 mm (1.4-5.1") off the wall. It is not possible to anchor to the floor.

#### Meets ADA Regulations

The thin design holds the display close to the wall. This looks better, reduces snagging risk, and because the load is close to the wall the mount has a higher safe working load rating.

#### Safety Stop

A safety stop is triggered when the display lowers onto hard furnishings. *Note soft items may fail to trigger the stop. Care should be taken whenever moving the display down.*

#### Adjustable Feet

Adjustable feet are integrated to make it easy to adjust level.

#### Cable Management

Dual cable strips on the rear keep the cables tidy, and a spring-loaded reel helps keep slack cable out of sight when the display is lowered.

### Media Player Fixing

Media players can be fixed to the wall bracket assembly out of sight.

### VESA 800 x 600

This product includes Vision's heavy-duty VFM-W8X6 wall mount which fits most large-format flat panels from 37-80". Vision's larger VFM-W10X6 wall bracket can also fix to this column, or the smaller VFM-W6X4 and VFM-W4X4.

### Optional Laptop Shelf

An optional shelf fixes at four different heights in 80 mm (3.1") increments to the horizontal part of the wall mount. The platform is 450 mm (17.7") wide by 306 mm (12.0") deep. At the lowest height setting the shelf is 680 mm (26.8") below the centre of screen. *Part Number: VFM-WLS [EU SAP: 4857149 / US SAP: 13557610]*

### Optional Video Conference Shelf

This shelf fixes in the centre above or below the display. It accommodates cameras such as Logitech's Rally, and also Logitech's Meetup, Yamaha's YVC-1000, or Barco's Clickshare CSE-200 base stations. With VESA100 holes on the vertical section, products like iPad enclosures can be fixed above or below the display. *Part Number: VFM-WVC [EU SAP: 5048878 / US SAP: 13557673]*

### Display Secured in Place

The display latches into place on the floorstand.

### Floor Fixing

A fixing plate is included for applications where it is better to fix to the wall and the floor - for example when only one wall anchor point is available. Just remove the adjustable feet and replace with the plate.

## SPECIFICATIONS

### VFM-F30

#### WHAT YOU GET

1 x VFM-F30FRAME 1 x VFM-W8X6

#### PRODUCT DIMENSIONS

VFM-F30FRAME: See CAD VFM-W8X6: 845 x 635 x 36 mm / 33.3" x 25.0" x 1.4" (width x height x depth)

#### PACKAGED DIMENSIONS

VFM-F30FRAME: 1280 x 540 x 160 mm / 50.4" x 21.3" x 6.3" VFM-W8X6: 880 x 235 x 40 mm / 34.6" x 9.3" x 1.6"

#### PRODUCT WEIGHT

VFM-F30FRAME: 18.2 kg / 40.12 lbs VFM-W8X6: 5.8 kg / 12.9 lbs  
Total: 24 kg / 52.9 lbs

#### PACKAGED WEIGHT

VFM-F30FRAME: 26.5 kg / 58.4 lbs VFM-W8X6: 6.8 kg / 15.0 lbs  
Total: 27.9 kg / 61.5 lbs

#### SAFE WORKING LOAD

130 kg / 286 lbs

#### CONSTRUCTION MATERIAL

Steel

#### COLOUR

Powdercoated Matt Black
