Our telegraphic returns of clearings for the five days ended this (Friday) evening are given below. All the cities exhibit figures in excess of those for the preceding five days, the increase being particularly large at Chicago, Boston and Phil-adelphia. The comparison with 1884 is more favorable than for some time past, the decline from that year, in the aggre-gate, reaching 14.8 per cent, but with New York excluded an increase of 4.6 per cent is recorded.

· Estimated on the basis of the last weekly returns.

### THE FINANCIAL SITUATION.

Without any ostensible change in either the business or the agricultural situation, the stock market has, with repeated lapses and weaknesses, appeared to gain some strength during the past ten days. Probably the rumored developments in West Shore affairs had as much as any one thing to do with the activity during the first half of this week. Every one understands what an incubus and fomenter of discord that enterprise in its present condition is. So the public only requires very little support for a rumor of settlement to give it currency, and set all who are short of the market to covering. In this instance the actual advance at one time of more than four points in the bonds of that road, appeared strongly confirmatory of the report, while the apparent prompt rejection of the last Hewitt plan of re-organization (between which and the original bondholders' or Lent plan, it would almost require a microscope to discover the difference) was interpreted as being a suggestion of confidence in something new and undisclosed.

But besides that and other minor incidents favoring the views of those who control stocks, there is undoubtedly a feature of considerable strength in the improving financial situation. The decline which has taken place in foreign exchange is an encouraging fact, since it prevents for the time being the shipment of gold, which was feared, while each succeeding week such a movement is deferred is important now, as it materially shortens the period before cotton bills will be on the market again. Then the Government situation is also interpreted more favorably and full confidence is now felt in the ability of the Secretary, either with or without the help of the banks (and the latter are in full sympathy with him), to carry the country through till the next Congress has an opportunity to repeal the Silver Coinage law. And, on the question of repeal, there is likewise cumulative evidence of progress being made towards a revision of opinions among Congressmen. To be sure, this hope has been raised before only to be disappointed; but this city has seen this week more than one old worshipper of the silver dollar who seems to be experiencing a change of heart. Even Senator Warner, as reported in the Commercial Advertiser, expresses the opinion "that the coin. "age will be suspended, and that, too, early in the session." And Wall Street is quick to discount such a promise as that.

With reference to the Government situation, although there is no doubt as to the wisdom of the present management and of the determination and ability of the Treasury Department to provide for all future requirements, the monthly figures of June 1st, published this week, fail to encourage the belief that the banks will not have to lend a hand in pulling the Treasury through. The loss in the net gold holdings in May seems to have been just about two mil. lion dollars, as we estimated it would be in our article on the Treasury and the Banks last week, against nearly eight million dollars in April. That is favorable, so far as it goes; but we must remember, as we remarked last week, that the interest requirements were only \$1,456,428 in May; consequently, the gold balance declined about \$700,000 more than the total interest payments of the month. Moreover, we should not lose sight of the fact that the surplus revenue during the same month was about 5 million dollars; if that surplus had been used, as of old, in paying called bonds, the reader can easily estimate what the position of the gold reserve fund would have been on June 1. As the case stands, however, the record of Government gold holdings on the first of each month has been as follows.

1885.	Total Gold	Go	ld Cerithcal	Cerithcales.			
1009.	in Treasury.	Issued.	Held.	Outstanding	Net Gold Held.		
anuary 1	\$234,975,852	\$119,031,150	\$20,343,730	\$93,287,420	\$141,688,432		
ebruary 1	237,167,975	134,279,330	22,299,150		125,187,595		
March 1	240,029,843	153,110,220	40,426,030	112.683.290	127,346,358		
April 1	241,440,796	153,337,530	37,659,990	115.647.540	125,793,256		
lay 1	243,102,195	153,860,000	28,625,290	125,234,800	117.927.993		
une 1	244,363,544	142,024,860	14,371,350				

The foregoing makes the exact loss of gold in May \$2,116,861, and as this loss was only kept down to these figures by allowing the surplus revenue of the month to accumulate, the future of this balance must obviously depend somewhat upon the continuance of a similar relation between the government receipts and expenditures. Of course, if business were active, this accumulation might cause a serious disturbance in the money market; under existing circumstances it is a harmless expedient which the issue of silver certificates has forced upon the Government. In the same connection it is instructive to note how rapidly the Treasury accumulations are running into silver. Counting silver dollars and bullion alone, the holdings of the Government on the first of each month have been as follows.

35.	Silve	Silver in Treasury.			Saver Certificates.		
1885	Dollars.	Bullion.	Total.	Issued.	Held.	Oulstand- ing.	Silver Held.
7 1	\$	\$	\$	8	\$	\$	8

We here see that the net holdings of silver have inincreased in May over 7 millions of dollars, and since the first of January nearly 25 million dollars. As to future revenue payments in gold, the prospect is not quite as favorable as our conclusions of last week promised. We stated then that customs receipts at New York were 59 per cent gold and its equivalents in April and probably 62 per cent in May, that is to say 38 per cent in silver in May against 41 per cent in April, and inferred that this im. provement indicated larger gold receipts in future. Recurring to former monthly returns however, does not encourage this belief, as it thereby appears that payments of revenue in silver have all along fluctuated, the percentage being in February and March, even smaller than in May, as can be seen from the following.

MONTHLY RECEIPTS OF CUSTOMS DUTIES AT NEW YORK,

	man and	Payments made in*						
	Total duties – received.	Gold.	U. S. Notes	Gold certificates.	Silver certificates.			
1885.	\$	\$	\$	\$	8			
January	10,298,801	119,000	5,253,000	2,729,000	4,179,000			
Jan: p'centages	100.0	1.2	S1.0	26.0	40.0			
February	10,456,966	84,000	3,697,000	3,291,000	3,378,000			
Feb. p'centages	100.0	0.8	35.4	31.2	32.3			
March	11,278,971	77,000	2,821,000	4,482,000	3,858,000			
Mar. p'centage <sup>8</sup>	100.0	0.7	25.0	39.8	34.5			
April	9,977,571	91,000	1,940,000	3,813,000	4,120,000			
Ap'l p'centages.	100.0	0.8	19.5	38*3	41-8			
Мау	9,519,474	€9,000	1,786,000	4,037,000	3,565,000			
May p'centages	100.0	C·8	18.8	43.0	37.4			

\* These payments do not include amounts paid in silver dollars, which reach only a few thousand dollars for the whole year.

Thus it appears that the February Government customs revenue at New York was only  $32\frac{1}{3}$  per cent and the March revenue only  $34\frac{1}{2}$  in silver, while in May it was  $37\frac{1}{2}$  per cent. Hence, although there was an improvement in May compared with April, yet after all the May percentage was much less satisfactory than the February and March results. So it is impossible to build any very promising hopes upon these latest returns. On the contrary, this exhibit and foregoing suggestions seem to corroborate our remark, made on previous occasions, that nothing but a most marvelous concurrence of fortuitous events will enable the Treasury to go through the year

[VOL. XL.

without outside assistance. Still the Government situation is in any event assured through the phenomenal strength of the banks, whereas the late turn in foreign exchange relieves the country for the time being from any anxiety respecting shipments of gold. If, therefore, as we think, there is good reason to anticipate relief from silver coinage early in the life of the next Congress, the financial outlook has certainly and greatly improved.

Nothing encouraging cau be said with regard to the condition of general business, except that merchants and manufacturers are showing unexpected strength and endur ance, as seen in the comparatively few and generally unim portant failures that are occurring under this very severe and prolonged depression. The strike among the iron workers bids fair to continue, keeping while it lasts about 60,000 men in enforced idleness. A good many cotton and other factories are also being shut down, and the pros. pect is that during the summer the country will experience a wider prevalence of short time running through all our industries than has occurred before for a long period. The best measure of the business conditions we are passing through is found in our table of clearings. To-day we give the monthly figures, and from them have prepared the following, which shows in a graphic way the past and present situation.

	T	btal Ail.	Outsid	e New York.

In keeping with the above and indicative of the po promise the summer months afford, are the latest railr earnings now being made public, nearly all of the repushowing loss, and many of them a decided loss. We might refer also as a conspicuous feature to the depression in the coal trade, but the foregoing facts present clearly enough the unusual lethargy that prevails. We are inclined to believe that there never was in the aggregate so much idle force-suspended vitality-in the country as to-day. This is a very important fact, for it gives a hint of what may be expected if the distrust which is its cause can be removed ; furthermore, it proves so conclusively that present railroad earnings are no evidence at all of real values.

The important reduction in foreign exchange this week, already referred to, was brought about by a pressure of bills and an absence of demand for them. It is not impossible, as suggested last week, that the Canadian Government has already negotiated its loan in London and that some of the bankers' bills offering are against this The cheapness of money in the open market at loan. London-13.16 of 1 per cent for 60 days to three months drafts-and the difficulty of employing money at almost any rate, also inclines foreign bankers to retain their balances here instead of remitting. Therefore unless some event now unforeseen should occur abroad, we may look for a gradual decline in the rates, and as we have passed the period when the demand is most urgent a decided upward reaction is improbable.

The stock market is still thoroughly cliqued. That does not necessarily mean that stocks are not worth current quotations, but simply that values have little to do with sales at present, the properties being in the hands of expert operators, who are apparently capable of retaining control until their object is accomplished. This condition tends to deter liberal speculative sales, as recent experi- now the net for the four months of 1885 is almost half a

ence has taught those who are seeking to depress prices that attacks upon the market are likely to result in severe loss rather than expected moderate gains; it also tends to prevent purchases for investment, under a fear that these who have loaded up with these properties for speculative purposes will possibly find it convenient to unload with disastrous results to the public, should that course best serve their purpose. One would have expected to have seen some depression when the Manhattan Banking Company defalcation was an. nounced, and perhaps there would have been were it not for the very conservative and commendable course pursued by Mr. D. C. Hays, the President, in announcing, as soon as the results of the examination were known to him, all the facts of the case. A less wise management would have concealed and covered up the truth and let it leak out by driblets, in which case rumor would havo produced any number of spooks for parade on the street. The latter part of the week the market lost the buoyancy which was apparent earlier, but that circumstance has very little significance.

Chicago Burlington & Quincy, while so many other roads in different parts of the country are presenting unfavorable exhibits of earnings, affords a welcome relief in the publication of a very good return covering the month of April. The Burlington & Quincy is not exempt from the influence of depression in operation on other lines, but it is so much more dependent upon the movement of corn, which this year as a result of last season's excellent crop is quite large, that the first-mentioned circumstance is a mere minor influence just now. Thus for the four weeks ended April 25 the receipts of corn at Chicago (by all roads) were ,422,559 bushels this year, against only 2,246,055 bushels st year, an increase of 2,176,504 bushels, or nearly 100 · cent, and of this increase the Burlington & Quincy, since the principal corn carrier of the Northwest, must have the major proportion. Hence it is not surprising to find

a gain of \$233,000 in the gross for April-to a larger total than ever before in that month. The most satisfactory feature about the return, however, is the fact that this increased business was done at an increase of less than \$9,000 in expenses, so that almost the whole of the gain in gross has been added to the net, making the total \$369,461, against only \$645,203 in 1884, and an average of less than \$700,000 per month in the three years preceding, while in 1880 the total was only \$549,928, and in 1879 only \$400,748. The following is a comparison for five years, not only for the month of April, but for the four months ended with April.

Jan. 1 to April 30. Gross carnings Operating expenses	8, <b>29</b> 8, <b>579</b> 4,685,960	7.537,719 4,234,112	7,457,415 3,909,812	6,219,190 8,486,568	5,395,299 8,052,003
Net oarnings	8,612,019	3,323,600	8,555,108	2,796,092	2,283,997

Here we see that for the four months the company makes a hardly less favorable exhibit than for April. The gross is considerably the largest ever made, while the net is now above even the exceptionally heavy aggregate of 1883. The progress made by the company in recent years is shown by comparing the net of \$3,612,619 this year with that of \$2,283,227 in 1881 in the table above, and it may be said that in 1879 the net was only \$1,819,448.

Louisville & Nashville is another road that is doing better than in former years. Indeed, the road has shown a steady and large increase every month this year, so that

million greater than in the corresponding four months of 1884. The increase for April was somewhat smaller than in the months preceding, but still reaches nearly \$86,000, and the total of \$444,029 compares with \$358,295 last year and with \$317,188 in 1881. The aggregate net for the four months are \$1,882,199 this year, against \$1,385,216 in 1884, and only \$1,130,615 in 1881. The New Orleans Exposition has helped the company quite a good deal in this period, but the gain in net is also in part due to increased economy and a consequent reduction in expenses. Subjoined is a comparison extending over five years.

Money, represented by bankers' balances, remains nominally at  $1@1\frac{1}{2}$  per cent. These low rates and the probability that they will continue, have, it is reported, induced banks of deposit and trust companies to increase their holdings of Government bonds, and the demand from this source has been a noticeable feature during the week. The following statement, made up from returns collected by us, exhibits the receipts and shipments of gold and currency by the New York banks during the week.

Week ending June 5, 1885.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Curreney	\$2,018,000		Gain\$1,678,600
Total gold and legal tenders	\$2,018,000		Gain\$1.673,000

The above shows the actual changes in the bank holdings of gold and currency caused by this movement to and from the interior. In addition to that movement, the banks have gained \$300,000 through the operations of the Sub-Treasury. Adding that item to the above, we have the following, which should indicate the total gain to the New York Clearing House banks of gold and currency for the week covered by the bank statement to be issued to-day.

Week ending June 5, 1885.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' Interior Movement, as above	\$2,018,000	\$845,000	Gain. \$1,673,000
Sub-Treasury operations	6,800,000	0,300,000	Gain. 300,000
Total gold and legal tenders	\$8,818,000	\$6,845,000	Gain. \$1,978,000

The Bank of England reports a gain of £230,169 bullion for the week. This represents £11,000 drawn from abroad and £219,169 from the interior. The Bank of France gained 12,910,000 francs gold and 4,769,000 francs silver, and the Bank of Germany, since the last report, increased 4,240,000 marks. The following indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

	June 4	, 1885.	June 5, 1884.		
	Gold.	Silver.	Golđ.	Silver.	
the second s	£	£	£	£	
Bank of England	27,072,049		24,507,463		
Bank of France	44,164,128	43,077,713	41,494,100	40,609,454	
Bank of Germany	7,609,750	22,829,250	7,910,500	23,731,500	
			73,912,063		
Total previous week	77,983,607	65,372,058	74,461,856	\$4,210,702	

The Assay Office paid \$53,495 through the Sub-Treasury for domestic and \$311,300 for foreign bullion during the week, and the Assistant Treasurer received the following from the Custom House.

				Consisting of-

### GOVERNMENT CONTROL OF RAILROADS.

If the investigations being carried on by the Senate inter-State Commerce Committee shall serve no other good purpose (and roving Commissions of this kind never doaccomplish much), they will at least have the effect of calling public attention to the widely divergent views held by different people as to the best way of dealing with the complex problem of railroad supervision and the wisdom or unwisdom of Government interference in the matter. It has been quite common among a certain class of agitators to talk as if the difficulty were a comparatively easy one, and could be disposed of by simply passing a law and declaring that henceforth all the evils complained of shall cease to exist. These persons, if they are of a tolerant disposition and open to conviction, will find in a perusal of the testimony lately given, evidence showing at least that. the question, so far from being a simple one, is an unusually complicated one, and that no two men are agreed as to precisely what our legislators should or can do in the premises. Everybody knows what is wanted, but. nobody knows how to bring it about; and the disposition is to look pleadingly to the Government, as usual.

The committee has had before it an unusual number of men prominently identified with the railroad world and the mercantile community, and distinguished either for the wide range of their experience or their superior intelligence and general understanding and study of the questions involved. Among them have been Pool-Commissioner Fink, the Railroad Commissioners of the State of New York, President Herrick of the Produce Exchange, Henry V. Poor, Edward Atkinson, George R. Blanchard, and Judge Russell of the Massachusetts Commission and various other Eastern railroad men of note. There is in the testimony of these people much useful and instructive matter. As said above, however, its chief value is in showing the difficulties that confront one in attempting to deal with a problem of such vast magnitude and so far-reaching in its scope. Of course each witness looked at the problem from his own individual standpoint, but that merely tends to disclose the multitude of conflicting claims and interests comprised within it.

It is noticeable that there are more advocates of Government interference than heretofore, and that the applicants no longer represent one single interest. A few years ago the clamor was not so much about the railroads as it was against them. It was shippers and merchants claiming protection-against the grasping monopolies. To guard against extortion on their part, maximum rates had to be fixed by law. But now Mr. Fink dcclares that the idea of establishing maximum rates has been exploded. "The "question of establishing minimum rates, however," he says, "might well be considered, with a view of passing a "law forbidding any road to do business at less than cost." If it were not that all recent experience emphatically sup ports the conclusion that railroads frequently do carry traffic at a loss, the proposition that they be restrained from such a practice might manifestly be deemed absurd. The fact should be borne in mind, therefore, that not through the operation of any legislative restrictment, but solely through

the operation of the law of competition, the cry of high rates of yore has entirely disappeared, and, instead, we have the complaint that rates are unnecessarily and excessively low. Shippers and merchants now declare that equal and fixed rates are of more importance to them than low rates. Jackson S. Schultz stated that "shippers " wanted to be treated alike, more than they wanted low " rates." Yet many of them advocate Government interference as strenuously as they did before, though one would think that the fact that the old trouble had remedied itself without legislative aid were a guarante<sub>0</sub> that the new troubles might also be depended on to work out their own cure. And these advocates are now reinforced by a class who but a brief period ago were arrayed in antagonism to any kind of intervention.

Thus the curious spectacle is presented of friend and opponent alike pleading for redress at the hands of the Gov ernment. The mercantile community ask that violent fluc fuations in rates be done away with, that drawbacks and rebates be made impossible, that no more be charged for a long haul than a short one, that discrimination he abolished. that diversion of freight be no longer permitted, and that various other grievances, real or imaginary, be attended to. The railroads, too, now look to the Government to help them out of their difficulties. They want it to see that no road does business for less than cost, that minimum rates be fixed by law, that pools and combinations be legalized, that the building of parallel and competing lines be prohibited in the future, and that solvent roads be in some way protected against the competition of bankrupt roads. Finally, there come the investors in railroad propertystockholders and bondholders-who ask for much the same thing, but in addition want a remedy against speculative directors and managers, some provision against an impairment of their investment either by parties without or within, statutes enforcing their rights and privileges, protection of the minority against the majority, a guarantee against unfair leases or leases or other arrangements made by directors without the consent of stockholders, and so In a word, merchants want to be proon ad infinitum. tected against the railroads, the railroads want to be protected against themselves, and investors against both. And they all cry for the same soothing syrup-legislative enactment.

Now, as we look at it, the great mistake these people make is in assuming that this railroad question can be speedily solved. They forget that railroads are largely the growth of recent times, that with their growth have come new problems, new difficulties, new developmentsan entirely new situation; that there is little in the pastor in the history and experience of other countries that will serve as a guide; that only by experiment and repeated trials can we determine what course is best to pursue; in brief, that only by the rigid and slow process of evolution can we grope our way forward, and arrive at the highest type of railroad management. And this being so, what can the national government (for it is national control or interference that is sought) do that the railroads could not do better themselves? Leaving out of consideration its utter unfitness for the work, what remedies can it apply? A cast-iron law, bringing all sections, East and West, North and South, seaboard and interior, new and old developed and undeveloped, upon a common basis, is out of the question, so the commission would have to be given wide latitude and large discretion. To en-force their authority in the way proposed, they would have to be clothed with almost despotic powors.

Would that be either in the interest of the country however, does not mean that there is need for constant or of the railroads? Assuming that they did not meddling with the railroads. It means simply that as we

abuse these powers, would not, the ultimate solution of the problem have to be arrived at in the same way, namely, by experiment and trial? And in that event would not the Government be at an immense disadvantage to the railroads? The railroads have in their employ the best talent and some of the ablest minds in the country. They are all the time seeking to develop latent ability. They will not stint the possessor of it, but will pay for it liberally-in fact, a man fitted for the work can command his own terms. As Mr. Fink says, railroading has become as much a profession as law or medicine. Men make it the study of their lives. With such a trained corps of investigators at work, what could a national commission do, except feebly follow in their footsteps, or else hamper them in their efforts to attain the best results possible ? True, these investigators are not amenable to any central authority, which at present constitutes a most aerious obstacle ; but self-interest is more potent than any legislative enactment, and may be trusted to provide a substitute.

We are free to confess, therefore, our dialike for a national commission, endowed with supreme control, even if their powers be in a measure circumscribed. If anything, we should prefer a commission with simple advisory powers, modeled after the Massachusetts and New York Commissions. But even that is not necessary, in our opinion. We think that the State commissions, supported by public sentiment, accomplish all of good that can be expected from Government in any shape The absence of a central authority, we have seen, is likely to be overcome in time, and it is better anyway that such authority should proceed from the railroads, for in that case it would be representative of the railroads and therefore as efficient as it could be made under the circumstances, than that it should proceed from political sources and therefore in danger of being inefficient. Upon this point Mr. Edward Atkinson made some forcible remarks. After stating that in dealing with its own railroads and those entering its borders, the Massachusetts Commission had cured all abuses, he goes on to say that "this could " not be done by a board sitting at Washington any more "than Ireland can be governed in London." Upon the general effects of Government intervention, Mr. Henry V. Poor was even more emphatic. He declared that the Government would make a dismal failure in interfering (except as a police), and that it could do nothing but confuse things and make matters worse. "You would want "fifty tribunals to manage our roads," he said, "and "then the roads would do just what the laws of trade " permitted them to do."

Comparison is sometimes made between the United States and Great Britain in the matter of the Government control of railroads, but there is this fundamental difference between the two countries which is not always borne in mind. Great Britain comprises a comparatively small area, while the United States covers a vast expanse of territory, extending from ocean to ocean and from the Lakes to the Gulf. Her total railroad mileage, too, is only about one-seventh that of the United States. Moreover, there are no such diverse interests to provide for, no such rivalry there between different ports and different sections as here, and the country is, besides, wholly developed, while here it is only partially developed.

Undoubtedly, further legislation will be necessary, but it must come gradually, and only time can determine what it shall be. New aspects of the case are constantly being presented, demanding new and different treatment. This, however, does not mean that there is need for constant meddling with the railroals. It means simply that as we

get a broader grasp of the situation, under the teaching of experience and the light of new developments, certain modifications of existing law may suggest themselves. Perhaps the modifications will consist in the repeal of some statutes, rather than in the enactment of others. Mr. Atkinson declares that more progress has been made in the improvement of the railroad service by the repeal of obnoxious statutes, than by the making of new ones. Even the principle of the short haul law of Massachusetts. which has latterly found so much favor, he thinks would doubtless have been ultimately acted on by the railroads even without any legislative declaration to that effect. As regards this law, we see no objection to it if it be modified in the manner done by the Connecticut legislature. We have not the space to go into details, but the Massachusetts law provides that no more shall be charged for a short haul than for a long haul, provided, however, that the freight be shipped from the same original point of departure, be of a like class and quantity, and be sent in the same direction. The Connecticut law differs from this only in containing the further modifying phrase that the goods be shipped "under similar circumstances." This is as it should be, for it is conceivable that the circumstances may be so unlike as to make it a great injustice to a railroad to compel it to charge no more for the short haul than for the long one.

This rate question is like everything else connected with railroad management-very difficult to deal with. One would think for instance that all discrimination should be prohibited, but on second thought one is inclined to agree with Mr. Blanchard, when he says that it is only unjust discrimination that is wrong. He states that while connected with the Erie he allowed persons engaged in the building of factories and other industrial structures to ship the materials for those structures at a reduced rate That he thinks was a wise discrimination, and we do not think any one is prepared to deny that it was. But how would a Government board meet such a case?

A national commission therefore is to be deprecated for various reasons, but chiefly because it could not effect the purpose sought. The difficulties that exist and which are patent to all, are inherent in the situation, and would exist whether there was a national board or not. State Commissions are of use, if of the right kind, because they have only a limited territory to cover and can sit as a tribunal to listen to grievances which might otherwise not come to light. They should however, as stated, have merely advisory powers, and not judicial functions as suggested by a number of witnesses before the inter-State Committee. They should exercise a sort of moral suasion over the roads, which it has been proven both in New York and Massachusetts is amply sufficient to insure correction.

### FINANCIAL REVIEW OF MAY.

The month of May, as an anniversary, recalled to every mind the financial panic of May, 1884; and bad as the stagnation in business yet remains, the conclusion is fairly drawn that never has there been a serious financial crisis that was borne by the country at large with greater strength and elasticity. The panic of 1884 was the culmination of a long period of gigantic speculation in railroads, mines and produce, and that the results have been no more disastrous was certainly owing to the generally sound condition of commercial and industrial affairs in the country.

The month of May was only remarkable for its dulness reserve from \$55,140,650 May 2 to \$60,768,925 May April and May, 1885.

30, and the rate for money on call ranged at 3 per cent to 11 per cent throughout most of the month, the only exception being a rather fictitious advance to 3@4 per cent about the 20th.

The Bank of England reduced its discount rate three separate times, to 3,  $2\frac{1}{2}$ , and finally to 2 per cent.

At the Stock Exchange the tone was usually weak, and the volume of business near a minimum. On the first of May Chesapeake & Ohio defaulted on the "B" bonds, and offered to pay half the interest in cash. Lake Erie & Western went to a receiver. The lease of Oregon Navigation to Northern Pacific and Union Pacific was agreed to, but not executed. The Pacific Mail subsidy from the Pacific railroads was reduced from \$95,000 to \$85,000 per month, and the Pacific Mail Company made a good report, showing 8 per cent earned on its stock. The settlement of the railroad pools west of Chicago gave an element of strength to the market, although the Eastern trunk line war was kept up and served to weaken the Vanderbilts, Pennsylvania, and many other stocks. Foreign exchange remained tolerably firm on a moderate supply of produce bills, but the reduction in Bank of England rate to 2 per cent lessened the prospect of any specie export.

The following summary shows the condition of the New York City Clearing-House banks, rate of foreign exchange, and prices of leading securities and articles of .merchandise, on or about the 1st day of June 1883, 1884 and 1885.

#### [From our own correspondent.]

LONDON, Saturday, May 23, 1885. The reports circulated during the past day or two show very clearly that all danger of further complications, politically, has not yet been removed. Evidently the Continental nations, except Italy, are not too well disposed towards us at the present moment. The detention of the Guards at Alexandria may be on account of doubts as to the position of affairs in Egypt, but it is generally attributed to the prospect of more acute complications on the Afghan frontier. Of course all these conjectures may prove to be ntterly groundless, but if an adverse construction be put upon these movements, the continued reticence on the part of the Government must be held responsible. The re-appearance of the Bosphore-Egyptien in its old form, before time has been given to allow the new Press laws in Egypt to be discussed and formulated, cannot be described otherwise than as an unfriendly act on the part of France; and at the same time the opposition by Russia, Germany, Austria and France to the imposition of the 5 per cent tax on the coupons of the Egyptian debt until the proposals for the new £9,000,000 loan have received the acceptance of all the Powers, shows the widespread desire prevalent just now to harass England as much as possible. Only a few days ago the prospect was considered peaceful; now we are again in the midst of uncertainty. Commercial affairs do not have a chance of reviving. With each gleam of hope we hear of inquiries in the leading centres which might result in some good business orders being placed, but anticipations of an improved status are almost immediately destroyed by some fresh threatened political trouble. With such a state of affairs confidence cannot be restored, and without it there cannot be any real revival of trade. That a disposition on the part of the home trade to improve exists, there can be no question, but export operations are too hazardous, and we must therefore wait for a solution of present troubles before we can discover how we really stand.

No change has been made in the Bank rate. Possibly the directors were influenced in their decision by the fears of further political troubles. Otherwise there is no reason why the rate should not have been lowered to 2 per cent. For the moment no demand whatever prevails for money, and the real state of the market can be seen by the liberal response to the invitation for tenders to the Metropolitan Board of Works loan. Borrowers can obtain as much money as they desire at merely nominal charges, so long as the security is good, and in spite of the existing plethora; gold is still flowing into the country. It will require some very decided revival of trade to absorb existing balances. This week's Bank of England return is a repetition of the familiar features of further accumulation of resources. The reserve of notes and coin now closely approximates to £18,000,000 and the proportion to liabilities is 50.70 per cent. The stock of gold is £26,623,000. Financially there is no reason why the Bank rate should not have been reduced to 2 per cent, but the Bank would not secure any more basiness from a 2 per cent than a 21/2 per cent rate, under present circumstances.

Messre. Pixley & Abell report as follows on the state of the bullion market :

builton market :
Gold.—The Bank has received since our last £187,000, and has sold £30,000 in soverelene for South America. The Etruria brought £50,000 from New York, the Cotopaxi broucht £21,000 from theBrazils, the Potoei and Chusan brought £21,100 from Australia. The Heveline takes £30,000 to River Plate; the Shannon takes £20,000 to Hombay.
Billyce since our last has fallen rapidly. The best rate obtainable for the arrival ex Cotopaxi was 48 13-16d, but on higher exchanges the price has risen to 49d, which we quote this day. The banks of Bengal and Bombay have lowered their rates of Interest and discount to 8 and 7 per cent respectively. The Cotopaxi brought £43,000 to Shannon takes £132,000 to Bombay and £10,000 to Calcutta, and the Carthage £37,000 to Bombay.
Maxies Dollars.—In the absence of arrivals we are unable to quote a price. Should the demand for French Government account not be revived, a relapse for the last quotation will probably take place.
The quotations for builton are reported as follows:

The quotations for bullion are reported as follows:

Tenders for £1,750,000 3 per cent Metropolitan Board of Works consolidated stock were received at the Bank of Eng. land, the total applications being £5,800,000 at prices varying from £96 10s., the minimum, to £98 3. 6d. Tenders at £97 11s. per cent will receive about 31 per cent of the amount applied for, those above that price being allotted in full. The average price obtained was £97 13s. 11d. per cent.

Stock Exchange business has again been upset by the un. certainty of the political prospect, by the wet weather, and by the re-appearance of the cholera at Marseilles. There has been a disposition to reduce operations as much as possible in view of the Whitsuntide holidays, for fear a crisis should be expedi. ted in the interim. The sight-bill account, which had been initiated on the strength of the cheapness of money, has for the most part been closed, and not without affecting values. Amongst American railways Erie issues were depressed by rumors of an impending receivership. "Vander bilt" stocks have all more or less declined.

The number of failures in England and Wales gazetted dur. ing the week ended May 16 was 87, or 27 more than the corresponding week of last year. The net increase to date is now 90. The number of bills of sale published in England and Wales for the week were 240, or 4 less than last year. To date there is a net increase of 75. The number published in Ireland was 14, or the same as last year; the net decrease to date being 4.

Tenders for £2,171,000 Treasury bills will be received at the Bank of England on June 3, to replace a similar amount then maturing, and which were placed in March last at an average of £3 1s. 9d. per cent for three months' bills.

We have now had an abundance of rain, quite sufficient for present needs. A warmer temperature with bright sunshine would be welcomed as a stimulus to vegetation. Progress of late has not been rapid, the nights being too cold. Complaints of discoloration are becoming more frequent. , Serious losses from wire worm are also reported from East Kent. So much wire worm has not been known for years, and the wheat has suffered very severely in some places.

The grain trade has been quiet and featureless during the week. Wheat in some of the provincial markets has further receded in value slightly, and business has been rather more brisk at the reduction. But at Mark Lano no movement has

taken place. The trade there, in fact, has been rather inclined to harden than show weakness, and at the close the tendency was against the buyer. Actual operations were, however, light buyers purchasing merely from hand to mouth. The trade is now feeling the effects of the holidays, and continued quietness may be looked for. It is, however, not impossible that the markets may gradually become stronger. What is weighing upon values just at present la the liberality of foreign receipts and the prospect of fresh arrivals being largely supplemented in the immediate future. But for that circumstance more firmness might have been witnessed. As it is, a very appreciable advance here is the signal for increased shipments to us, and unless the agricultural outlook becomes so unfavorable as to render the holding-back of wheat a possibly profitable speculative operation, we see little prospect of an advance. The average price of home-grown wheat for the past week was 37s. 5d. or 8d. per qr. less than in the preceding week, the difference in the average price for the season being 4s. 10d. per qr. sgainst 1854-5.

The Revenue and Agricultural Department of the Government of India has issued the following memorandum (dated April 24, 1885), on the prospects of the Indian wheat crop :

April 24, 1885), on the prospects of the Indian wheat crop: Speaking generally, the prospects of the Meat crop, a previoually reported, remained unchanged up to the end of March. Complete statistics for the Punjaub are not yet available, the wheat harvest of that province being, as explained in the last summary, later in ripening that though in some districts the yield is expected to be helow. In others it is likely to be above the average, and that on the whole the wheat outturn of the province will be quite up to that of previous years. In the Northwestern Provinces and Guie the very favorable character of the weather during March has led to an improvement in the estimated outturn. The area under wheat is and to be 5.284.400 acres, which is norecess of the normal wheat area by 318.721 acres. Of this area about 106 per cent is expected to bear a full average crop. A crop estimated at 90 per cent of an average or p is expected on about 12 per cent of the area, an 84 per cent of an average crop, and 63 per cent of the wather during the store of the norther the total outturn. The area, an 84 per cent of an average crop is expected on about 12 per cent of the area, an 84 per cent of an average crop, and the total outturn anticipated is 2,040.000 tons. The stocks in haod are supposed to a numb to about 60,000 tons. In the Central Provinces, and (372-000) overes, but the outturn is expected to be 817,537 tons, or 14,230 tons, above the average. The export during March was about 14,232 tons, out that for the first week in April amounted to 5,357 tons, in the formbary Presidency and to the Berear, prospects remain unchanced at any of the matters. No fresh information has been received form any of the matters.

The following return shows the extent of the imports of cereal produce into the United Kingdom during the first thirty-seven weeks of the season, the sales of home-grown produce, the average prices realized, and other items, compared with last season:

IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show a decrease in both dry goods and general merchandise. The total imports were \$6,240,334, against \$7,653,911 the pre-ceding week and \$6,322,226 two weeks previous. The exports for the week ended June 2 amounted to \$5,436,259, against \$6,407,282 last week and \$7,005,759 two weeks previous. The following are the imports at New York for the week ending (for dry goods) May 28 and for the week ending (for general merchandise) May 29; also totals since the beginning of the first week in January: ECORECON IMPORTS AT NEW YORK.

Total... 7,197,068 56 6,768,582 27 Attention is called to the advertisement in the CHRONICLE -Attention is called to the advertisement in the CHRONICLE of the \$200,000 City of St. Paul 5 per cent 30-year bonds, for which proposals will be received by the City Comptroller until Thursday, June 25th instant. These bonds are in denom-ination of \$1,000 each, and at the present time when other investments are regarded with suspicion, the bonds of St. Paul City ought to command a high price.

-William Felix Alexander, of Augusta, Georgia, the well-known cotton broker and banker, announces in our adver-tising columns that he has a few of the 6 per cent debentures of the Central Railroad & Banking Company of Georgia for sale. For terms, etc., we would direct the reader's atten-tion to the advertisement.

Auction Sales.—The following were sold at auction lately by Messrs Adrian H. Muller & Son:

JUNE 6, 1885.]

### NEW YORK, FRIDAY, JUNE 5, 1885-5 P. M.

The Money Market and Financial Situation .- In financial affairs the business of the past week has been productive of nothing essentially new, except a few railroad defaults in the payment of interest due June 1: The New York Chicago & St. Louis (Nickel-Plate) was the only conspicuous one among defaulting railroads, and this had been fully expected, and the effect on the prices of the bonds had been too heavily "discounted," as they have risen 3@4 per cent since the default was made. There seems to be a disposition in some quarters to represent all the financial affairs of this company as badly as possible, and to convey the idea that the property has no future, whereas the record of its operations in 1884 and three months of 1885, one of the worst periods ever known even to the oldest and best of the trunk lines, do not make it appear that the company is in a hopeless position.

Among the best features in railroad news are the favorable reports of net earnings by Louisville & Nashville and Chicago Burlington & Quincy, and the declaration of the usual dividends on both classes of stock by Chicago & Northwestern, with a reported surplus for the year of about \$500,000, or \$1,000,000 including the receipts from land sales.

In such exceptionally bad years as 1885, it is desirable for the holders of stocks to take long views, and not limit their estimate of the value of properties to the immediate prospects of the market. On such stocks as Northwest, St. Paul, Lake Shore, Michigan Central, Penusylvania, and others, that have been dividend-payers, they should ask in each ease, what is a fair value for this stock on its history for three years past and on its prospects for three years to come, after the railroad wars have been settled, as they most assuredly will be settled when the magnates are ready.

Rates for call loans during the week on stock and bond collaterals have ranged at 1@2 per cent, and to-day at 1@11 per cent. Prime commercial paper is quoted at 31@4 per cent.

The Bank of England weekly statement on Thursday showed a gain in specie of £230,169, and the percentage of reserve to liabilities was 501, against 514 last week; the discount rate remains at 2 per cent. The Bank of France gained 12,010,000 francs in gold and 4,769,000 francs in silver.

The New York Clearing House banks, in their statement of May 29, showed an increase in surplus reserve of \$956,850, the total surplus being \$60,768,925, against \$59,812,075 the previous week.

The following table shows the changes from the previous week and a comparisou with the two preceding years in the averages of the New York Clearing House banks.

-	1885. May 29.	Differ'nces fr'm Previous Week.		1883. June 2.

Exchange.-The quiet tone which has been the only featuro of the sterling exchange market of late was continued the past week, and a reduction in posted rates of 1 cent was made on Tuesday and also a further reduction of 1 cent for demand bills on Thursday by some drawers, thus narrowing the difference between 60-day and sight bills to one cent, and further diminishing the prospect of any gold export in the near future.

To-day the rates on actual business were as follows, viz.: Bankers'60 days'sterling, 4 864;04 864; demand, 4 874;04 8874. Cables, 4 874;04 874. Commercial bills were 4 844;04 844. Con-tinental bills were : Francs, 5 184;05 194 and 5 164;05 164; reichmarks, 947;095 and 954; guilders, 404 and 404 The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying & premium, selling 4:04 premium; Charleston, buying & pre-mium, selling 3-16; premium; Boston, par;06 discount; New Orleans, commercial, 150 premium; back, 200 premium; St. Louls, 100 premium; Chicago, 25;040 premium. The posted rates of leading bankers are as follows : TI wa :

State and Rallroad Bouds .-- Business in State bonds has State and Ratifond Boulds.—Business in State bonds has been restricted to the following transactions: \$10,000 North Carolina consol. 4s at 87 $\frac{1}{3}$ ; \$1,000 do. special tax at 4 $\frac{1}{3}$ ; \$5,000 Georgia 7s gold at 114; \$5,000 Louisiana 7s consol. ex-coupon at 64; \$10,000 Missouri 6s, 1887, at 106 $\frac{1}{3}$ -107; \$2,000 do., 1888, at 107 $\frac{1}{3}$ - $\frac{1}{3}$ ; \$1,000 do., 1889–90, at 112 $\frac{1}{3}$ , and \$3,000 Ala-bama class A at 90.

In railroad honds the speculation in Erie 2ds and West Shore is has been the leading feature of the market, in both of which the transactions have been large and the prices generally the transactions have been large and the prices generally strong. Erie 2ds advanced on Wednesday to 48<sup>1</sup>/<sub>2</sub>, but reacted and close at 46<sup>1</sup>/<sub>4</sub>, against 46<sup>1</sup>/<sub>3</sub> last Friday; West Shore 5s sold as high as 34, but close at 32<sup>1</sup>/<sub>4</sub>, against 31. The N. Y. Chic. & St. Louis 1sts have been strong since the default on interest eccurred and with the probability that occurred, aud with the probability that a reorganization will be occurred, and with the probability that a reorganization will be made or some satisfactory adjustment offered; they close at 69‡, against 66½ last week; Missonri Kans. & Texas gen. 5s, ex. int., at 58½, against 61½; do. gen. 6s, ex. int., at 72½, against 77; Wahash gen. mort. at 28½, against 29; Denver & Rio Grande West. 1sts at 39, against 39½; Denver & Rio Grando 1sts at 100½, against 101; do. consols at 55½, against 55; Texas 6 brief Die Die Grande 1at en consols at 55½, against 55; Texas & Pacific Rio Grande 1sts, ex coup., at 491, against 50.

& Pacific Rio Grande Ists, ex coup., at 494, against 50. **Ballroad and Miscellaneons Stocks.**—The week opened on Monday, June 1, with a dull and weak stock market, various rumors and reports being in circulation which had a depres-sing effect on prices, and the bears were not slow to take advantage of them. The continued quarrelling among the roads both East and West in regard to freight and passenger rates, the loss in earnings reported by Pennsylvania, and the decline in the stock of that road, and the extensive and gen-eral strike of iron-workers, were the principal causes for the depression. But on Tuesday a reaction took place when it was discovered that some of these reports were exaggerated, and that the iron-workers' strike was not as bad as at first reported. Until Thursday the market continued generally strong in tone, but at no time was there any animation appar-ent in the dealings, the market continuing in the same dull and lifeless condition which has prevailed for so long a time past. Lackawanna broke below par on Monday, the depression being accompanied by a rumor of lower prices for coal; but it subsequently reacted, in sympathy with the rest of the market, and declined again to-day.

and declined again to-day.

and declined again to day. The Grangers have been something of a feature in a dull market, being alternately weak and strong, the fact that the usual dividends on Northwest were declared on Thursday not having any particular influence. To-day, Friday, the tone was weak on a very dull business, and after moderate fluctuations prices closed near the lowest of the day.

the day.

### GENERAL QUOTATIONS OF STOCKS AND BONDS.

Quotations in New York represent the per cent value, whatever the par may be; other quotations are frequently made per share. The following abbreviations are often used, viz: "M.," for mortage; "g.," for gold; "g'd," for guaranteed; "snd,," for enforced; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant. Quotations in New York are to Thursday; from other eitles, to late mail dates. Subscribers will confer a favor by giving notice of any error discovered in these Quotations.

### Luvestment

#### AND Railvoad Lutelligence.

The INVESTORS' SUPPLEMENT contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month—viz., February, April, June, August, October and December, and is furnished with-out extra charge to all regular subscribers of the CHRONICLE. Extra copies are sold to subscribers of the CHRONICLE at 50 cents each, and to others than subscribers at \$1 per copy.

### ANNUAL REPORTS.

Kausas City Springfield & Memphis.

(For the year ending December 31, 1884.) From the first annual report of this company, issued in Bos-ton, the information below is condensed. The following is a statement of earnings and expenses for 1884:

Net earnings	\$363.378
Interest on bonded debt and miscel, interest for the year	\$141,559
Deduct net earnings as above	439,590

L'eficit for the year..... \$1.968

"In the early part of 1884, unusually severe and long-con-tinued floods, from the rise of the Mississippi River and its tributaries, subjected the road-bed, before being hardened or fairly completed, to such a pressure that it gave way in places, and through traffic was interrupted for at least six weeks. This involved not only a considerable loss of earn-ings, but operating expenses were largely increased in restor-ing the property and placing it in shape to resist future inroads of a similar character. "The road-bed is now believed to be in condition to with-stand any overflow of the river, and from year to year it will be still further strengthened.

"Incode of a similar character."
"The road-bed is now believed to be in condition to with, stand any overflow of the river, and from year to year it will be still further strengthened."
"In February, 1884, it was apparent from unforeseen difficulties in the way of construction, and delay in prosecuting the work from unfavorable weather, that more money would be required to complete the road and pay its interest during four endines." To meet this exigency the board issued and sold \$500,000 of the plain bonds of the company, dated May 1, 1884, bearing interest at six per cent per annum, and having the years to run. These bonds were guaranteed, principal and interest, by the Kansas City Fort Scott & Gulf Railroad Company. This makes the total bonded debt of the company \$7.500,000, with an annual interest charge of six per cent, or \$450,000. The repidly-increasing business of the road requires additional equipment to be furnished during this year and next, as appears in the President's report following."
The road extends from Springfield, Missouri, easterly through the counties of Green, Webter and Wright, passes boutheasterly through Howell and Oregen counties to the line between Missouri and Atkarsas ; thence in Arkansas south-craitened, Poinsett and Crittenden counties to the Mississippi was onested for through business before the makinematis in the St. Francis bottom had been completed from february 16 to April 9, 1884, with the exception of the days, during which freight trains only were run. Considering this fareruption, the earnings for the year were highly satisfatory. The earnings f

### Shenandoah Valley.

(For the year ending December 31, 1884.) The annual report for 1884 has just been issued, and gives the length of line in operation on Dec. 31, 1834, as follows: Main line, Hagerstown to Roanoke, 238'11 niles; branches, 17'24 niles; total main line and branches, 255'35.

"The main line, with the exception of 75.34 miles, is laid with steel rails, and is ballasted with broken stone. The road-bed and property of the company have been maintained in gcod condition, with the exception of ahout ten miles of main line, which should be re-laid with steel rails and new cross-ties as early as possible." \* \* \* "The gross earnings of 1884 were 13 per cent less than those of 1883, while the total expenses decreased but 7 per cent. The principal reductions of expenses were in the cost of motive power (\$53,004) and in general expenses (\$24,741). The principal increase of expenses was in maintenance of way (\$23,486). The outlay for repairs of trestles and bridges, which increased to \$21,385 in 1884, is a serious item of expense." expense

Not complete	\$6 175	\$5.670

either to the stockholders or bondholders." \* \* \* "The condition of the road has steadily been improved, as well in its road-bed as in its bridges and superstructure. Dur-ing the last year an unusually large expense was incurred in consequence of replacing two wooden bridges at Bloomfield with iron structures and rebuilding the bridges over the Pas-saic and Pequanoc rivers. During the present year the remain-ing bridges on the upper part of the road ought to be rebuilt. Every effort consistent with safety, however, will be made to keep the outlay within the receipts."

Chapman, receiver, §45,870. Lake Eric & Western.—At Indianapolis, Ind., June 1, the United States Express Company began suit in the U. S. Court against the Lake Eric & Western Railroad Company after the latter had made default on the payment of interest on \$3,500,000 bonds. The complaint is brought in the name of Thomas C. Platt, President of the Express Company, and the defendants are the Lafayette Muncie & Bloomington, the Lake Erie & Western, the Central Trust Company of New York, and George J. McGourkey. The complaint alleges that the Central Trust Company is disqualified from bringing the suit as trustee for the bondholders, because it is also trustee of mortgages on other parts of the consolidated road, and these conflicting interests are so hostile that the Trust Com-pany cannot perform its duty. —At Toledo, O., June 4, in the United States Court, Judge Welker ordered the sale of the Lake Erie & Western Railroad to satisfy a'judgment of \$330,000 in favor of G. J. McGourkey. The order cites that the sale must be made within sixty days, and fixes \$200,000 as the minimum amount, the sale to be sub-ject to prior mortgages.

ject to prior mortgages.

Louisville & Nashville.—The gross and net earnings of this company for April and for ten months, in 1884-5 and 1883-4, were as follows:

	-Gross Earnings		Net Earnings		
	1884-5.	1883-4.	1884-5.	1883-4.

\$36,154 Net enrnings.... Def. \$8.062 \$524.497 \$705.419 New York Chicage & St. Louis (Nickel-Plate).—This com-pany made default on its first mortgage interest due June 1. The bondholders have acted wisely and promptly in having already appointed a committee before the default was made, Mr. J. C. Reiff at 35 Broad Street being the Secretary. The bondholders have a property that is abundantly sufficient to protect the face of their bonds, and they will press mat-ters to a conclusion and get the property unless their rights are respected. It might be a fair concession to take a 5 per cent first mortgage bond, absolutely guaranteed by Lake Shore, in place of the present bonds—but this only on the idea that the new security would be fully equal in market value to the old. There is very little probability that Lake Shore is going to abandon this property and lose its investment in the stock, for which it paid \$6,500,000 in its 7 per cent bonds. There has never been a day since the purchase was made when a broad New York Chicago & St. Louis (Nickel-Plate) .- This comwhich it paid \$6,500,000 in its 7 per cent bonds. There has never been a day since the purchaso was made when a broad view of Lako Shore's finances and prospects would not lead one to conclude that the control of Nickel-Plate, even at the price paid, was a good thing for Lake Shore. An effort is usually made to present the Nickel-Plate affairs in the worst light possible, whereas an examination of its balance-sheet below on March 28, or of its earnings given in another para-graph, for the quarter ending March 31 (less two days), does not lead to a hopeless view of the company's affairs. Of all the trunk lines, this was the only one that actually showed an improvement in gross and net earnings for the first quarter of 1885, when other railroads generally lost heavily. 1885, when other railroads generally lost heavily.

Pennsylvania Company.—At Pittsburg, Penn., June 2, the annual meeting of the Pennsylvania Company, operating the lines of the Pennsylvania Railroad system west of Pitts-burg, was held. The annual report shows the following result: Total number of miles operated or controlled, 2,790;

total revenue of the Pennsylvania Company, being the profits of operating lines, together with the net earnings of the Star Union Fast Freight line, interest and dividends on securities owned, and rent of real estate and equipment owned, \$1,155,-749; total expenses, including interest on bonds. Interest on the car trust cars, and losses on lines operated, \$1,865,969, showing a deficit for the year of \$710,220. The only change in the directory was the election of Mr. Henry D. Weish to succeed Mr. Henry M. Phillips, deceased. Philadelphia & Reading.—The Boston Transcript (profe-

Philadelphia & Reading.—The Boston Transcript (prob-ably taking it from some Philadelphia paper) says that Drexel & Co. will again come to the relief of the Reading Railroad Com-Co. will again come to the relief of the Reading Railroad Com-pany on the lat of June, and pay the interest on the 7 per cent consolidated mortgage bonds maturing at that date. The company still owes the bankers for a corresponding payment made last September, for which the latter hold perfectly good collateral. The amount of money which the Drexels will have to pay out on this account is \$617,000, which, with the September advance, will make the total indebtedness of the company to the banking firm \$1,281,000.

Portland & Ogdenshurg.—A decree has been entered in the Circuit Court of the United States for New Hampshire, foreclosing at the expiration of six months from May 12, 1885, the mortgage given by the Portland & Ogdensburg Rallroad Company, under date of Nov. I. 1871, securing \$1,350,000 worth of bonds held by the city of Portland.

Company, under date of Nov. 1. 1871, securing \$1,350,000 worth of bonds held by the city of Portland. Postal Telegraph—Bankers' & Merchants'—American Rapid,—In regard to the dispatch from Baltimore, that a consolidation of the Postal and Bankers' & Merchants' tele-graph companies had been effected, Dow Jones & Co. say : "It is stated at the Postal Telegraph Company's office that a friendly arrangement has been entered into with the Bank-ers' & Merchants', whereby the Postal Telegraph Company from Jnne 1 takes the active management of the Bankers' & Merchants'. The offices of the two companies will be consoli-dated, but the separate organizations will be maintained." The plan of reorganization of the Bankers' & Merchants' Company, it is said, will provide for the issuing of \$1,200,000 first mortgage bonds to pay the floating debt and of a second mortgage in place of the present first mortgage, the exchange to be made at the rate of one new second-mortgage bond for two of the present firsts. —At Trenton, N. J.. June 2, Judge Nixon granted an order appointing Edward Harland of Norwich, Conn., as receiver of the American Rapid Telegraph Company. The motion for a receiver was made recently by the counsel for the Boston Safe Deposit & Trust Company, controlling lines extend-ing from Washington to the South, has separated from the Bankers' & Merchants' Company, and entered into busineses arrangements with the Mutual Union Telegraph Company, which is controlled by the Western Union. The agreement is for one year, and there is no consolidation. Railroads In New York State (Quarterly Reports.)—The following abstract showing the operations for the sumertar

Railroads in New York State (Quarterly Reports.)—The following abstract, showing the operations for the quarter ending March 31 in 1884 and 1885, has been specially compiled for the CHRONICLE from returns made to the Railroad Com-missioners.

St. Joseph & Western.—The Reorganization Committee of the St. Jo. & West. Railroad report a deposit of all hut \$200,000 of the stock out of the total issue of \$4,100,000, and all the bonds except \$330,000; total issue \$6,200,000. The last day for re-ceiving securities has passed, and the sile of the road takes place Jnne 11.

June 11. Scloto Valley.—Mr. James Robinson, Treasurer and Assist-ant Superintendent under the old management, has been appointed receiver of the Scioto Valley Railroad, in a suit brought by Mr. C. P. Huntington, President of the Chesapeake & Ohio Railroad, who obtained a judgment against the Scioto Valley for \$639,305 for money which Mr. Hunting-ton is said to have advanced for improvements. In pursuance of this judgment levies have been made by the Sheriffs of the various counties through which the road runs. The road sails 132 miles long, running from Columbus, Ohio, to Ashland, Ky. An extension of the road sonthward from Ashland twenty-five miles to a point opposite Huntington, W. Va., to connect with the Chesapeake & Ohio system, was projected more than a year ago. Another extension northwest to Fort Wayne, Ind., was also projected. Thus the road would fur-nish valnable connections for the Chesapeake & Ohio. —A short time since a proposition was made to the bond-holders to issue a new 4 per cent bond to the first and other mortgage bondholders and to the holders of floating debt, placing them all nearly on a level. The first mortgage men took very firm ground against this and have organized in New York for defense, appointing a strong committee to protect their interests.

their interests,

Scaboard & Roanoke.—For the last fiscal year, ending February 28, 1885, the earnings and expenses were as follows : 1884-5. 1883-4.

Expenses.		\$666.526 479,747
Net earnings	\$163,191	\$186,779
Who stadlah ald one such astrond of a trans		. 1

The stockholders authorized the issue of \$500,000 bonds, to be used in case they are needed.

Shenandoah Valley.-The committee of the first mortgage bondholders of the Shenandoah Valley Railroad have obtained the co-operation of the holders of \$800,000 of the bonds thus far. The committee hopes to secure the signatures of a majority of the holders, in which case the trustee will be called upon to take action.

Tennessee State Debt .- Press dispatches from Nashville,

Tennessee State Debt.—Press dispatches from Nashville, Tenn., have said : The recommendation made to the Legislature by Governor Bate, that when bonds are hereafter presented for funding the interest due on coupons attached from July 1, 1883, to July 1, 1885, be incorporated in the face of the new or settlement bond, instead of being paid, has not been well received n financial circles. The recommendation was based upon the fact that the presentation of bonds by the holders who kept them back to await the late decision of the United States Supreme Court, which was that the State is liable for their payment, would exhaust the funds in the Treasury. The Finance Committee of the Legislature have introduced a bill, which was passed on its first reading. The Funding Board is authorized to borrow an amount sufficient to supplement the funds in the Treasury for the purpose of promptly liquidating the interest when due. The Funding Board is empowered to execute notes to the lender, bearing interest not exceeding the legal rate. The bill will become a law, as the Governor has expressed his willingness to approve such a measure. such a measure.

The Huntington Railroads.-The gross and net earnings in the month of April, and from January 1 in 1885 and 1884, were as below:

		3		4
April-	Gross,	Net.	Gross.	Net.

Wabash St. Louis & Paeific.—A press cable dispatch from London, June 3, said : "The committee of bondholders of the Wabash Railway Company have arranged to send to America Wabash Railway Company have arranged to send to America Mr. Bald, one of their number, together with Mr. Sneath, an expert accountant. Upon the arrival of these two gentlemen in the United States a third person, an American expert, will be selected, and conjointly the three will make an investiga-tion of the accounts of the Wabash Company and inquire into the prospects of the road."

the prospects of the road."
Wilmington & Weldon-Wil. Col. & Angusta.—At Wilmington, N. C., on June 1, meetings of the stockholders of these two companies were held, and a lease for 99 years of the entire property and franchises of the Wilmington Columbia & Augusta Railroad Company was made to the Wilmington & Weldon Railroad to pay all interest on the bonded debt of the Wilmington Columbia & Augusta Railroad and all fixed charges, and in addition thereto the sum of 6 per cent per annum on the capital stock of the W. C. & A. R. Co., payable in semi-annual instalments on the 10th day of January and July of each year.
The Wilmington & Weldon Railroad Company also authorized the issue of a mortgage to the Safe Deposit and Trust Company of Baltimore, Trustee, upon all its property, to secure general first mortgage bonds at the rate of \$12,000 per mile of constructed road, bearing interest at the rate of 5 per cent per annum, payable semi-annual y on the 1st of January and July of each years to run; \$1,200,000 of said bonds to be held in reserve by the Trustee, unssned, for the purpose of providing for the present bonded indebtedness of the road, and the balance of said bonds to be used for the general purposes of the company.

The Wilmington & Weldon Railroad Company also passed the following resolution :

Resolved, That all who are now stockholders in this Company shall have the privilege at any time prior to July 1, 1885, of subscribing for said increase of stock at the price of \$110 per share in the proportion of 20 per cent, or say one-fifth of the present holding of said stockholders, payable one-fourb, or 25 per cent thereof, on the 15 day of Jury, 1885, and the remaining three-fourths, or 75 per cent, on the 15th day of November, 1885.

The directors of the Wilmington & Weldon Railroad declared a semi-annual dividend of 4 per cent, payable on July 15, and instructed their Treasurer to pay to the stockholders of the Wilmington Columbia & Augusta Railroad a semi-annual dividend of 3 per cent on July 10.

# The Commercial Limes.

# COMMERCIAL EPITOME.

FRIDAY NIGHT, June 6. 1885.

FRIDAY NIGHT, June 6, 1885. The strike of the iron workers at the West, and the conse-quent closing of many mills is the most important event of the week. There is danger that a long and bitter struzgle between the employers and the employed will follow. A cessation of excessive rains in the Southwest has improved crop prospects in that section, and in all quarters the season may now be regarded as a promising one. Still the decline in domestic food stapleshas latterly received a check. The feeling in mercantile circles is rather sluggish, and no early revival of trade seems to be anticipated. The autumn season, it is thought, will probably bring some improvement. anticipated. The autumn season, it is thought, will probably bring some improvement. The following is a statement of the stocks of leading articles

of domestic and foreign merchandise at dates given :

Lard futures were depressed early in the week in sympathy with other food staples, but the decline was checked, and on Wednesday a sharp advance to k place. To-day, under sales to realize, there was a partial decline, but the close was firm at 6.80c. for June, 6.84c. for July, 6.94c. for August, 7.04c. for September and 7.14c. for October. Spot lard at the reduction was very active, but was to-day quieter, closing at 6.65c. for prime city, 6.82½c. for prime Western and 7c. for refined for the Continent. Pork is dult at \$11 50 for mess and \$13 75 for clear. Pickled cutmeats sell 'briskly at 5½@5½c. for bellies, 4½@52. for shoulders and 9½@9½c. for hams. Tallow has dectined to 5%c., with more doing. Butter steadier and more active at 14@19c. for creamery. Cheese active at 4@6¾c. for State factory.

4%@52. for shoulders and 9%@9%c for hams. Tallow has declined to 5%c, with more doing. Butter steadler and more active at 14@16% for creamery. Cheese active at 4@6%c for state factory.
Bio coffee has been dull and fair cargoes are ½c. lower at 6%c. The speculation in options was quite buoyant early in the week, but has latterly declined, and the close to-day was dull 6.90c. for June, 7.10c. for August, 7.25c. for Oct., 7.35c. for Oct., 7.35c. for Jc., and 7.45c. for Feb. R w sngars, have been feverish and unsettled, with little doing for some days past, closing at 54% 0.5%c. for Guta Muscovado, 50 degrees test. Teas are dull and weak; for Standard Japans, July delivery, 21%c. bid and for Oct. delivery 21%c. bid.
Kentucky tobacco during the past week has again been rather dull. Sales are only 100 htds., of which 50 for export. Prices are firm, but entirely nominal. Seed leaf tobacco has been much less active, yet sales aggregate 1,070 cases, as follows: 300 cases 1884 crop. New England, seconds, 12@14c.; 100 cases 1883 crop, New England, seconds, 12@14c.; 100 cases 1883 crop, New England, seconds, 12@14c.; 100 cases 1883 crop, Pennsylvania, 6@10c.; also, 550 bales Havana, 60c.@%1 10; 63 bales Yara, private terms, and 150 bales Sumatra, %1 20@%1 60.
There has been a very active speculation in spirits turpentine, on the steady reduction of stocks in London, and other favorable circumstances. To-day, however, the market is quieter at 30c. on the spot and 35%c. for October. Rosins are also dearer at \$111% for good strained. The speculation in harrels quieter at 30c. on the spot weed yreduction of stocks in London, and other favorable circumstances. To-day, however, the market is quieter at 30c. on the spot and 35%c. for October. Rosins are also dearer at \$111% for good strained. The speculation in are spon degrees on with the close at 73%c. Crude in harrels quieter at 30c. on the spot and 35%c. for October. Rosins are also dearer at \$111% for good strained. The speculation in are spot of the

### COTTON.

FRIDAY, P. M., June 5, 1885. THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (June 5), the total receipte have reached 3,917 bales, against 6,964 bales have week, 7,420 bales the previous week and 9,413 bales three weeks since; making the total receipts since the 1st of September, 1884, 4,705,278 bales, against 4,761,246 bales for the same period of 1883-84, showing a decrease since September 1, 1884, of 58,968 bales.

There was a stronger opening on Monday, owing to the reports of excessive rains, injuring crop prospects, and the effect which they had in Liverpool, but the return of good weather deprived the market of this influence, and on Tues-day prices were weak. On Wednesday the reports were bet-ter from both Liverpool and Manchester, and the opening with us was dearer : but a free selling movement set in, especially for this crop, which closed at a sharp decline and the next crop weaker with October options largely dealt in. Yesterday there was a heavy selling movement in this croo, in sympathy with Liverpool, under which prices gave way rapidly; but there was a quick rally in the last hour, the decline in the next crop being fully recovered. To-day there was renewed depres-sion following a steady opening; Liverpool and Manchester advices were unsatisfactory, and crop accounts very favor-able. But the last hour the decline was mostly recovered on the better business for export. Cotton on the spot was duil early in the week, but on Wednesday at 1-16c. decline there was a fair business for export as well as home consumption. Yesterday a further decline of 1-16c. was recorded. To-day prices again declined 1-16c, and the elose was at 10% (c for mid-dling uplands. The decline led to much better business for export, which was understood to include 1,500 bales not officially reported. The total sales for forward delivery for the week are 199,400 bales. For immediate delivery the total sales foot up this week 3,231 bales, including 2,170 for export, 1,064 for consumption, -- for speculation and -- in transit. Of the above, -- ba'es were to arrive. The following are the official quotations for each day of the past week.

each day of the past week.

308,701 bates. WEATHER REPORTS BY TELEGRAPH.—The weather has in general been very favorable at the South during the week. With less rain and higher temperature cotton has made rapid development and in Texas blooms and squares are reported. Good progress is being made in clearing the fields of weeds where the rains of late have been excessive. *Galveston, Texas.*—The weather has been warm and dry all the week. The thermometer has ranged from 72 to 87, aver-aging 82. During the month of May the rainfall reached six inches and forty-one hundredths.

Galoeston, Texas.—The weather has been warm and dry all the week. The thermometer has ranged from 72 to 87, aver-aging 82. During the month of May the rainfall reached six inches and forty-one hundredths. Indianola, Texas.—We have had warm and dry weather all the week, and the crop is developing promisingly. Blooms and squares are abundant. Average thermometer 76, highest 89 and lowest 70. Rainfall for the menth of May four inches and ninety-one hundredths. Palestine, Texas.—There has been no rain all the week. Crops of all sorts are fine. Wheat and oats harvest progress-ing. The thermometer has averaged 77, the highest heing 87 and the lowest 61. During the month of May the rainfall reached six inches and eight hundredths. Huntsville, Texas.—We have had one shower during the week, the rainfall reaching seventy-three hundredths of an inch. Cotton is developing finely. The thermometer has averaged 79, ranging from 60 to 90. Rainfall for the month of May four inches and twenty hundredths. Luitng, Texas.—We have nad lowest 71. Rainfall for the month of May six inches and seventy-eight hundredths. Columbia, Texas.—We have had no rain this week. Some lowlands have been overflowed, but the reported damage to the crop is blooming and squaring promisingly. Good prog-ress is being made in clearing the fields of weeds. Average thermometer 83, highest 90 and lowest 71. Rainfall for the month of May six inches and seventy-eight hundredths. Columbia, Texas.—We have had no rain this week. Some lowlands have been overflowed, but the reported damage to the crop is much exaggerated. The crop is developing prom-isingly, and the plant looks strong and healthy and is begin-ming to bloom. Good progress is being made in clearing the fields of grass and weeds. The thermometer has arenged from 65 to 90, averaging 83. During the month of May the rainfall reached five inches and eight hundredths. Brenham, Texas.—We have had warm and dry weather all the week. Wheat and oats are being harvested, yielding abundantly, and cotton develo

hundredtha.

hundredtha. Weatherford, Texas.—No rain all the week. Wheat cutting has been begun, and all crops are very good. The thermometer has ranged from 43 to 87, averaging 74. During the month of May the rainfall reached five inches. Dallas, Texas.—The weather has been warm and dry all the week. The small grain harvest has begun and all crops promise well. Cotton is developing finely. The reported

damage to crops is much exaggerated, though some overflowed bottoms require replanting. In the main prospects are first-class. The thermometer has averaged 80, the highest being 91 and the lowest 60. Rainfall for May six inches and fifty

01 and the lowest 60. Rainfall for May six inches and fifty hundredths. New Orieans, Louisiana.—It has raised on two days of the week, the rainfail reaching one inch and six hundredths. The thermometer has averaged 81. Shreevport, Louisiana.—Felegram not received. Meridian, Mississippi.—The weather has been warm and dry all the week. The thermometer has ranged from 65 to 92. Columbus, Mississippi.—We have had rain on one day of the week, the rainfall reaching forty-five hundredths of an inch. The thermometer has averaged 77, ranging from 60 to 94. During the month of May the rainfal reached six inches and thirty-two hundredths.

inch. The thermometer has averaged 77, ranging from 60 to 94. During the month of May the rainfal reached aix inches and thirty-two hundredths. *Letand, Mississippi.*—The weather has been warm during the week and crops are growing finely. The thermometer has ranged from 60 to 90, averaging 74:5. *Little Rock, Arkansas.*—Telegram not received. *Helena, Arkansas.*—We have had hot and clear weather during the week, and the crop is developing promisingly. The thermometer has averaged 77, the highest being 90 and the lowest 59. Rainfall during the month of May one inch and forty-eight hundredths. *Memphis. Tennessee.*—Telegram not received.

lowest 59. Rainfall during the month of May one inch and forty-eight hundredths. Memphis, Tennessee.—We have had train on two days of the week, the rainfall reaching eighty-seven hundredths of an inch. Average thermometer 76, highest 90 and lowest 61. Mobile, Alabama.—It has been showery on one day of the week, the rainfall reaching fifteen hundredths of an inch. Average thermometer 76, highest 90 and lowest 61. Mobile, Alabama.—It has been showery on one day of the week, the rainfall reaching fifteen hundredths of an inch. The crop is developing promisingly. Average thermometer 77, highest 91 and lowest 63. During the month of May the rainfall reached three inches and twenty-four hundredths. Montgomery, Alabama.—We had rain on two days in the early part of the week, but the latter portion has been clear and pleasant. The rainfall reached two inches and fourteen hundredths. Crop accounts are more favorable. The thermometer has averaged 75, ranging from 63 to 92. Rainfall for the month of May eight inches and ninety-two hundredths, and the highest temperature was 88.
Selma, Aiabama.—It has rained slightly on two days of the week, the rainfall reaching thirty hundredths of an inch. The thermometer has averaged 73, the highest being 85 and the lowest 62. Rainfall during the month of May four inches and fifteen hundredths ; rain on eleven days.
Auburn, Alabama.—It has rained on two days of the week, the rainfall reaching thirty hundredths. The thermometer has ranged from 68 to 89, averaging 78.
Macon, Georgia.—We have had rain on two days of the week.

week. Weed troublesome.

week. Weeda are growing so fast that they are becoming troublesome. Columbus, Georgia.—It rained on two days in the early part of the week, but the latter portion has been clear and pleasant; the rainfall reached three inches and seventeen hundredths. Cotton develops well. The thermometer has averaged 78, ranging from 67 to 83. Rainfall for May slx inches and eighty hundredths. Savannah, Georgia.—We have had rain on three days and the remainder of the week has been pleasant. The rainfall reached two inches and flfty hundredths. The thermometer has ranged from 63 to 90, averaging 77. Augusta, Georgia.—The weather has been very favorable during the week, and accounts are very good. There has been one light rain, with a rainfall of thirty hundredths of an inch. Average thermometer 76, highest 93 and lowest 61. Rainfall during May five inches and eighty-six hundredths. Atlanta, Georgia.—We have had rain on two days of the week, the rainfall reaching forty hundredths of an inch. We are now having warm and growing weather. The thermom-eter has averaged 73.9, the highest being 89 and the lowest 61. Charleston, South Carolina.—It has rained on two days of the week, the rainfall reaching seventy-five hundredths of an inch. The thermometer has averaged 77, ranging from 54 to 90. Stateburg, South Carolina.—It rained heavily on two nights in the early part of the week, but the latter portion has been clear and pleasant. The rainfall reached one inch and thirty-seven hundredths. Average thermometer 75.8, highest 87, lowest 64. Columbia, South Carolina.—Telegram not received.

The following statement we have a very state of the state

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock June 4, 1885, and June 5, 1884.

	June	4, '85.	June	5 '84.
New Orleans Below high-water mark Memphis	4 18 20 21	IncA. 8 7 9 3	Feel. 2 23 39	Inch. 0 9 11 2 0

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871. or 16 feet above low-water mark at that point,

INDIA COTTON MOVEMENT FROM ALL PORTS. - We have INDIA COTTON MOVEMENT FROM ALL PORTS. — We have re-arranged our India service so as to make our reports more detailed and at the same time more accurate. We had found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved only to be shipments from one India port to another. The plan now followed relieves us from the danger of this inaccuracy and keeps the totals correct. We first give the Bombay statement for the week and year, bringing the figures down to June 4.

BOMBAY RECEIPTS	AND	SHIPMENTS	FOR	FOUR	YEAR
-----------------	-----	-----------	-----	------	------

	Shipme	ents the	veek.	Shipm	ente sunc	Receipts.		
Year	Great Brit'n.	Oonli- nent.	Total.	Greal Britain	Oonti- nent.	Totat.	This Week.	Since Jan.1.
1884	26.000	20,000 23,000	46,600 23,000	101,000 311,000			75.000	

According to the foregoing, Bombay appears to show a *decrease* compared with last year in the week's receipts of 17,000 bales, and an *increase* in shipments of 20,000 bales, and the shipments since January 1 show a *decrease* of 371,000 bales. The movement at Calcutta Madras and other India ports for the last reported week and since the 1st of January, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

1071	Shipme	nts for th	e week.	Shipments since January 1.			
300	Great Brilain.	Oonti- nent.	Total.	Great Britain.	Continent.	Total.	
Calcutta-							
1885				53,400	11,500	64,900	
1884	1,000	300	1,300	87,500	41,200	125.70	
Madras- 1885				4.000		4.000	
1884				13,000	4,600	17.600	
All others-							
1885		1,400	1,400	17,100	23,400	40.500	
1884		******		13,500	4.000	17.500	
Total all-							
1885		1,400	1,400	74,500	31.900	109.400	
1984	1.000	300	1,300	111,000	49,800	163,900	

The above totals for the week show that the movement from the ports other than Bombay is 100 bales *more* than same week last year. For the whole of India, therefore, the total shipments since January 1, 1885, and for the corresponding periods of the two previous years, are as follows:

	EXPORT	A TO RORO	PE FROM	ALL INDI	A.	
Mh dana an ta	18	885.	18	384.	te	383.

Bombay All other ports.						1,0:0,000

Total..... 67,400 684,40 47,300 1,109,800 26,000 1,103,100

This last statement affords a very interesting comparison of the total movement for the three years at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrange-ments we have made with Messrs. Davies, Ben. chi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years

Alexandria. Egypt, June 3	1884-95.	1883-84.	1882-85.	
Receipts (cantars*)- This week Since Sept. 1	2,000 3,594,000	1,000 2,638,000	2,000	
	This Since weck. Sept. 1.	This Since week. Sept. 1.	Phis Sun ingek Nept	
Exports (bales)— To Liverpool To Continent	1,000 297.000 2,000 189,000		1,000 230,000 1,000 - 85,000	
Total Europe	3,000 486,000	3,000,380,000	2.000,315,000	

\* A cantar is 98 lbs.

This statement shows that the receipts for the week ending ine 3 were 2,000 cantars and the shipments to all Europe une 3 3,000 bales.

MANCHESTER MARKET. -Our report received from Manchester to-night states that the market to-day is firm. We give the prices for to-day below, and leave previous weeks' prices for comparison.

Came in sight during May	33,97		
Amount of crop in sight June 1	5,589,980	5,609,891	6,841,229
Average weight of bales	491 02	482.22	489.38

TEXAS CROP .- Messrs. Martin, Wise & Fitzhugh's report to us of date Paris, Texas, May 30, is as follows :

us of date Paris, Texas, May 30, is as follows : Since our last report to you we have made a careful investigation of the condition of the crop throughout the section in which we operate, by having our employees personally catechise as many as twenty-live different farmers living in different neighborhoods of their respective counties, and sending us the nn wer of each iodividual. This is the best way we know of getting at the real facts in regard to the crop. Taklog-the grand result, we flud that our previous prognostications were in the main correct. From all directions we have the most flattering reports of the condition of the crop and stand. Everywhere farmers are well up with their work, and the fields are clear of grass and weeds, notwithstanding there has been rain nearly every day since we last ad-vised you. All nep-rustiadicale a sufficiency of labor for the cultivation and gathering of a full ero . The only drawback that we can now perceive to the plant is the excess of moisture it has been reeiving, and the con-tinued cool days as well as nights, we having hal but three real hot eviton days during the past ten days. As yet these unfavorable con-thibors have not unfavorably affected the plant, and we hope the advance of the season will bring us coutinned warm weather. We find an increase of cotton acteage as incorted to us as follows: Bowle County 15 per cent, Red River County 5 per cent, Lamar County 20 per cent, Tannin County 25 per cent. Hopkins County 20 per cent, traking an average increase throughtor to the ten counties, and are due to the fact that large areas have been taken out of grain and put in colton. JUTE BUTTS, BAGGING, &C.—The market has been without

JUTE BUTTS, BAGGING, &C.—The market has been without special feature. Trade has been moderate and only such lots special feature. Trade has been moderate and only such lots as buyers actually need are being taken, and few contracts for large parcels are being placed. Prices are very steady, how-ever, and sellers are not disposed to accept less than quota-tions on the lots that are being taken, but a prompt buyer might obtain a concession. The asking rates at the close are 9c, for  $1\frac{1}{2}$  lb.,  $9\frac{1}{2}$ c. for  $1\frac{3}{4}$  lb.,  $10\frac{1}{4}$ c. for 2 lb. and 11c, for standard grades. Butts have sold in small lots, but there is no activity an 1 sellers are showing some disposition to accept a lower figure, though not openly quoting less in the market, and a lot can be obtained at a shad - under asking rates. There have been sales of 2,000 bales at  $1\frac{7}{8}$ c. for paper grades and  $2\frac{1}{4}$ @  $2\frac{1}{2}$ c. for baggi g quality, but an offer of a fraction less would be accepted for a large lot. The stock on hand at the moment is 67,330 b de4, which, with  $9\frac{1}{6}$ 00 b bles on the way, gives a visible supply of 162,300 bales, against 202,383 bales the same time last year. same time last year.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT. -A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement since September 1, 1884, and in previous years, has been as follows:

Amilty		¥ 19187	Вецинан	y septemb	er 1.

[VOL. XL.

This statement shows that up to May 31 the receipts at the ports this year were 50,927 bales loss than in 1883-84 and 1,113,818 bales less than at the same time in 1882-83. By adding to the above totals to May 31 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years:

port ree's	ots June 5.	98.11	96 92	98.64	94.81	95.28				

This statement shows that the receipts since Sept. 1 up to to-night are now 53,793 bales less than they were to the same day of the month in 1884 and 1,129,453 bales less than they were to the same day of the month in 1883. We add to the table the percentages of total port receipts which had been received to June 5 in each of the years named.

SHIPPING NEWS .- The exports of cotton from the United States the past week, as per latest mail returns, have reached 16,771 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday night of this week.

BREADSTUFFS.

FRIDAY, P. M., June 5, 188

The flour market has changed but little in the past we There was a very dull trade and some depression in valu but matters took a stronger turn. There is no stock for whi there is any great anxiety to find buyers; all this was w closed out during the flurry caused by the war-cloud Europe, and current receipts are quite moderate, while production of local mills is somewhat restricted. To-day market was quiet,

Wheat has been dull on the spot. The limited demand h been mainly from city millers, and under free supplies t tendency of values the first half of the week was downwas but became steadier in the more recent dealings. Who futures have been very active, the speculation showing times much excitement. Early in the week prices gave w under the very unfavorable reports that were received free foreign markets; but later on there were published from t distinct sources, both of which had acquired some repu reports to the extent that the growing had so far been da. aged by severe weather that the yield will be about 100 million bushels less than last season. A partial recovery in valu followed. To-day the speculation was active and excite closing dearer, in sympathy with Chicago.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

Indian corn for future delivery has for the most part syn pathized with wheat; but on Wednesday, when wheatshow some depression, corn made a further advance. The weath for the past week has been very favorable for the growin crop. Corn on the spot met with a fair home demand. Whi continues very scarce and yellow is not plenty. To-day the was a good export demand, with a fair speculation, and pric of mixed further improved.

DAILY CLOSING FRICES OF NO. 2 MIXED CORN.

Rye has been very dull, and barley is out of season. Barle malt is held decidedly higher, on reduced stocks.

Oats have shown some recovery of speculative interest prices advancing materially on Wednesday and Thursda and with reduced offerings spot values improved. Tprospects for the next crop, so far as they have been deve oped, are generally very good. To-day there was a furth improvement, No. 2 closing at 3834c. for June, 381/2c. f July and 351/4c. for August.

### THE DRY GOODS TRADE.

Friday, P. M., June 5, 1885.

There was during the past week a fair movement in domestic cotton and woolen goods on account of former transactions, but new business was exceedingly light in most branches of the trade. Some fair-sized orders for fall goods, as worsted and all-wool dress fabrics, hosiery and knit underwear, &c., were placed-for future delivery-but nearly all descriptions of goods adapted to the present season were noticeably quiet in first hands, and sluggish in jobbing circles. Toward the close of the week there was a somewhat unsettled feeling in the market, because of the announcement of a great peremptory auction sale of domestic wool flanuels and wide cotton sheetings. The coming sale will be held next Wednesday, the 10th instant, and it will embrace 10,000 packages wool flannels and 1,500 cases Monadnock, Lowell and Lancaster brown and bleached cotton sheetings, the entire production to date of the many prominent mills represented in this market by Messrs. Parker, Wilder & Co. The terms of sale are liberalfour months' credit from July 1-and there will no doubt be a large influx of out-of-town buyers next week ; but the near approach of the "stock-taking" period renders it more than probable that their operations will be mainly confined to the auction room.

DOMESTIC COTTON GOODS .- The exports of domestics for the week ending June 2 were 2,521 packages, and the principal shipments comprised 1,748 packages to Great Britain, 116 to Brazil, 109 to Hamburg and 99 to Hayti. The tone of the market for staple cotton goods was quiet, but some considerable sales of bleached goods, wide sheetings, etc., were effected by means of slight price concessions, and a few goodsized orders for special styles of cheviots, fancy shirtings, etc., were placed by the shirt trade. Brown cottons were in very light request by jobbers, but some good-sized round lots were taken for conversion purposes. Colored cottons and cotton flannels were less active than of late, and there was only a moderate business in white goods and table damasks, but scrim curtains continued to move freely on account of back orders. Print cloths ruled quiet and easier, sales having been made on the basis of 31%c. less 1 per cent for 64x64 "spots" and contracts to July 1 and 2%c. for 56x60s. Prints, ginghams, lawns and cotton-wash fabrics were severally quiet in first hands, and the jobbing trade was only moderate, making due allowance for the advanced stage of the sesson.

DOMESTIC WOOLEN GOODS.—Clothing woolens were more active in movement than demand, liberal deliveries having been made by agents in execution of orders on record, while been made by agents in execution of orders on record, while new business was confined within somewhat narrow limits. The most popular makes of heavy caselmeres and worsted suitings are pretty well sold up as a rule, because manu-facturers have adopted the wise policy of running on orders as far as possible, instead of making goods for a market, as has heretofore been the case. Rough-faced overcoalings were in fair request and some considerable colors are showd for has heretofore been the case. Rough faced overcoatings were in fair request, and some considerable orders were placed for fancy cloakings, heavy Jereey cloths and stockinettes, but cloth-faced beavers ruled quict. Kentucky jeans and doeskins were in irregular demand, and satinets were lightly dealt in. Flannels and blankets were in light request, and a fair business was done in fall styles of soft wool suitings, sackings cashmeres, ladies cloths, etc., for future delivery. Hosiery and knit underwear have shown more animation, owing to the arrival of a good many out-of-town buyers of these goods, and a fair business was done in this connection by the principal agents.

and a rate outsides was used in this connection by the principal agents. FOREIGN DRY GOODS have subsided into the quiet condition usually witnessed at this time of year, selections having been mainly restricted to such small parcels of novelties as were required for freshening assortments, and to job lots of silks, dress goods, &c. The auction season is nearing its close, and the mole for freshening presented no near fortures of note the sales for the week presented no new features of note worthy interest. Imports continue light, and there is good reason to believe that buyers for this market (now in Europe, are operating with conspicuous caution as a rule.

# Importations of Dry Goods.
