REVIEW OF MAY.

There was further decided improvement in the tone of the financial markets during May. Political developments had much to do with this, but in addition the success attending the floating of some large new bond issues was also a favoring element in the situation. The more cheerful aspect in the financial markets was in marked contrast with the state of things in industrial affairs. General business remained very much depressed, with the volume of trade on an exceedingly small scale and with returns of railroad gross earnings still recording exceptionally heavy ratios of decline.

Revisions of prices in the direction of lower figures brought about a little increase in activity in certain leading industries towards the close of the month. This was notably true in the iron market, where a reduction in the price of Southern iron led to the giving of some fairly liberal orders, and it was also true of the dry goods trade, where radical cuts by manufacturers in the price of staple prints and gingham and other classes of cotton goods induced active buying both for immediate requirements and for future needs. In fact in some instances, as in prominent lines of bleached goods, the buying was so heavy that the market at once became firmer and some recovery in values actually ensued. It was claimed that for some classes of goods prices were away below the cost of manufacture. In the raw material, cotton, a sharp advance occurred, in part as a result of manipulation directed against the short interest and in part as the result of floods in Oklahoma and Texas. The middling upland grade in New York was 10.20 cents May 1 and 11.50 cents May 25, with the close May 29 11.40 cents. Print cloths at Fall River were $3\frac{1}{4}$ cents up to the 4th, when there was a reduction to $3\frac{1}{8}$ cents; but on the 22d the price again recovered to $3\frac{1}{4}$. A new wage agreement involving a cut in wages of 17.94% went into effect May 25. At the same time Mr. M. C. D. Borden announced that at his Fall River Iron Works Co. mills there would be an immediate resumption of full-time working. A few other mills elsewhere in New England also resumed full time.

As far as prices of steel are concerned, a meeting of leading steel manufacturers from all parts of the country was held in the offices of the United States Steel Corporation on May 21 and the same action taken as at the several similar meetings held previously in the year, namely it was decided to maintain the existing schedule of prices. After the close of the month, however—on June 1—it was announced that a cut of \$4 a ton in bar steel had been authorized on that day by a committee of manufacturers of bar steel, the basing price at Pittsburgh being reduced from \$1 60 per hundred pounds to \$1 40.

What gave to the political situation its more favorable aspect and caused the improved feeling in financial circles was that as the month progressed it became increasingly apparent that much of the threatened further harmful legislation would fail. Congress adjourned on May 30 after having passed a compromise measure for an emergency currency, made up of the leading features of the Aldrich and Vreeland bills, but certain other measures which had been strenuously insisted on by President Roosevelt, and in advocacy of which he had sent several special messages to Congress, did not even come to a vote. Among these measures were the two which had been particularly feared, namely the Anti-Injunction Bill limiting the power of courts to issue injunctions in controversies between employers and employees, and the bill for amending the Sherman-Anti-Trust Law so as to give the Federal authorities absolute and arbitrary control over corporations engaged in inter-State business.

The success attending certain new loan flotations was one of the striking events. The syndicate headed by J. P. Morgan & Co. which at the close of April had offered \$25,000,000 Interborough Rapid Transit Co. 3-year convertible 6 per cent notes, it developed, had not been obliged to take any of the issue itself, and the members of the syndicate received about 2 3/4% on their subscriptions without having been obliged to advance any cash. Redmond & Co. and the Equitable Trust Co. of this city offered at 98 1/2% \$17,000,000 first lien 5-year 6% guaranteed gold notes of The Tidewater Company, and these also were heavily oversubscribed. J. P. Morgan & Co. brought out at 95 1/2% an issue of \$16,000,000 general mortgage 50-year 4 per cent bonds of the Chicago Burlington & Quincy RR., and this was so largely over-subscribed that the price almost immediately advanced to 97. Perhaps the most exhilarating event, however, was the announcement which came in the first half of the month that the needs of the Southern Railway for the immediate future (including some 5 per cent sterling notes maturing in June and July) had been taken care of through the sale to a syndicate headed by J. P. Morgan & Co. of an issue of \$15,000,000 3-year 6 per cent convertible gold notes. It should be added that New York City succeeded in placing \$38,527,000 of its current revenue bonds at very low interest rates—3 1/8% @ 3 3/4 per cent. Another noteworthy occurrence was that a syndicate took an option on a block of \$7,000,000 of the city's long-term bonds bearing only 4 per cent interest, being the remnant of an offering made last August, subsequent to which the rate of interest had to be raised to 4 1/2 per cent.

On the Stock Exchange the speculation for higher prices made further progress and all through the list extensive advances occurred. The rise was maintained week after week in face of reports of continued heavy losses in railroad gross earnings, though comparisons as to net earnings were, in many cases, very much better than they had been. The appreciation in values reached very large proportions, and in the case of the great majority of stocks repeated new high records were made for the year. Manipulation was decidedly in evidence, and yet the tone was, on the whole, very confident. The market became very top-heavy about the 20th, and on the 22d the announcement from Washington that the Federal Government had decided to begin an action against the New York New Haven & Hartford Railroad under the Sherman Anti-Trust Law because of its acquisition of the Boston & Maine Railroad, together with about 1,500 miles of trolley roads, dealt prices a staggering blow, under which a severe collapse ensued. After a few days, however, recovery again took place, though Missouri Pacific and Gould stocks proved weak features on the news of the appointment of a receiver for the Wabash-Pittsburgh Terminal Ry., owing to the latter company's inability to meet the interest due June 1 on its \$29,500,000 4 per cent bonds.

Month of May—	1908.	1907.	1906.	1905.
	Bushels.	Bushels.	Bushels.	Bushels.
Month of May—	44,952,000	69,888,650	41,346,500	41,981,750
Jan. 1 to May 31—	208,607,950	244,989,800	178,170,400	200,480,850

The foreign exchange market was strong almost throughout the whole month and gold exports were on a very large scale, the engagements in one week reaching \$13,455,000, so that the supply of gold bars at the Assay Office became exhausted. The gold was destined chiefly for Paris and Berlin, though one lot of \$500,000 went to Switzerland. The Bank of England rate of discount was reduced from 3 to 2 1/2% May 28, and this tended to make rates for long sterling firmer and those for short sterling easier. There was also considerable irregularity from other causes the latter part of the month, with larger or smaller reactions in quotations, but on the whole rates were maintained at high figures.

Rates for money here remained extremely low, notwithstanding the large gold exports and notwithstanding that under the Secretary of the Treasury's call of April 28 the national banks throughout the United States surrendered \$20,000,000 of Government deposits May 9th and \$25,000,000 May 23. Call loans at one time dropped as low as 1% and trust companies were in active competition with the banks.

GENERAL QUOTATIONS

OF BONDS AND STOCKS.

1. In the following thirty pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.
2. Quotations from all Stock Exchanges are as near as possible for the closing day of the month preceding the date of issue. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.
3. Bond prices marked (a) indicate that the purchaser must pay accrued interest in addition to the price given. The method of quoting on the New York Stock Exchange is to quote the price flat (that is, to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.
4. Stock prices marked thus (d) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.
5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.
6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.
7. The black-faced type in the letters showing the interest period indicates the month when the bonds mature.

STREET AND ELECTRIC RAILWAYS

In response to the request of many subscribers, we have changed the order of arrangement of the Street and Electric Railway Securities contained in the following lists. The previous practice was to group them by cities. This was a satisfactory and logical arrangement so long as the railways remained distinctly local enterprises and confined to the limits of a single city. But with the introduction of electricity as motive power most of the local systems have by degrees been transformed into interurban roads, some of them covering wide stretches of territory and connecting numerous cities and towns. In such cases the reader might look under several places before finding the one under which the road was given. To obviate this difficulty, we have recast the entire list and arranged the roads all in alphabetical order according to the names. Where the title is that of a street (like Third Avenue RR.), the securities will still be found grouped together in most cases, it being possible to do this because the controlling company usually bears the name of the city where it is located. Thus the New York City lines will be found under the New York City Railway, the Philadelphia lines under the Philadelphia Rapid Transit, &c. Cross references will assist the reader in finding any particular security.

Prices marked thus (a) indicate that the purchaser has to pay accrued interest in addition to the price given. Prices not marked are flat prices—that is, the purchaser does not pay accrued interest in addition.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the closing day of the month preceding the date of issue, though often are nominal. An asterisk (*) denotes sales. The letter (h) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

ALABAMA—Nat. banks last call May 14; State institutions latest returns.
