**NEW AFTERMARKET OEM-  
COMPATIBLE REPLACEMENT PARTS**

Dear Friends,

Welcome to Global Light. We are the world's leading manufacturer of new OEM-compatible replacement parts for barcode readers and scanners, point of sale devices, and related industries. We are an ISO 9001:2008 certified company; our products are fully guaranteed to be fit-for-use as replacement parts. The company's mission is to provide products exceeding industry standards for quality, reliability and value.

With distribution centers in the US, the Netherlands, and China, we are highly responsive to our worldwide customer base. There is no minimum order requirement, and there are substantial discount programs for high volume purchases.

To our existing worldwide customer base, we thank you for your business. To everyone else, give us a try; we are confident you will be satisfied.

We hope you will give us the opportunity to help you lower your costs and increase your margins.

Mauricio Viniegra  
Senior VP

# Terms and Conditions

**ORDERS**

There is no minimum order quantity. We must receive a purchase order with Global Light part numbers and prices to confirm the order.

**SPECIAL ORDERS**

Parts which we do not stock may be special ordered. To provide a quote, we will need a working sample. Minimum order requirements and lead times vary with the type of part requested. Please contact your sales manager or our office for assistance.

**PAYMENT TERMS**

We accept payment by check, direct deposit to our bank, Master Card, VISA or American Express. We reserve the right to withhold services and remaining goods until payments on account are current.

**PRICING AND DISCOUNTS**

Please see our Price List for current pricing. Prices are subject to change without notice. We offer substantial discounts for volume purchases. Please contact your sales manager or our office for additional information.

**WARRANTY**

Our parts are designed and manufactured to replace OEM products. We warranty them to be fit for use as replacement parts. We offer a one-year replacement warranty on all parts that fail due to defects in materials or workmanship. We are not responsible for failures due to modification, misuse, or conditions of storage and/or use. We do not warrant our products' fitness for a particular use or purpose. Determination of fitness for use is the sole responsibility of the purchaser. Our liability is limited to the amount charged for our product and shall not include any costs for labor or other special or consequential damages.

**RETURNS, CANCELLATIONS & RESTOCKING FEES**

For defective parts, we accept returns solely for replacement for up to one year following the invoice date. Returns for any other reason are limited to a maximum of 10% of the invoiced amount, must be in original condition, and may be subject to a 20% restocking fee. All returns must have a Global Light RMA (Return Materials Approval) prior to shipment and must be returned prepaid to receive credit or replacement. Parts that have been tested or custom parts are non-returnable.

**SHIPPING**

All products are shipped through our distribution centers. We normally ship via UPS, FedEx or DHL. We within 48 hours of receipt of an order.

**CLAIMS**

Shortage claims or other problems with your shipment must be reported to us by e-mail, phone (617) 868-1110, or fax (617) 868-1120 within 5 days of your receipt of the goods. Failure to inspect the shipment and report shortages or problems within that time is a waiver of the right to make a claim at a later date.

**SHIPMENT INSPECTION**

It is very important that you inspect all shipments for obvious and for concealed damage immediately when received. When in doubt indicate "damaged" when you sign for the shipment. This will protect your rights in the event there are problems. Please let us know right away if you receive damaged freight. We will assist with claims wherever possible, but generally the consignee (i.e., you) must file damage claims directly with the delivering carrier under the rules established by the I.C.C.
