Incredibly Small NAS With Great Performance

Synology DS416slim is a palm sized 4-bay NAS with only 0.66kg in weight and measures 120mm x 105mm x 142mm, fulfilling your need for a personal cloud without taking up too much space. Despite its compact appearance, DS416slim makes no compromise on performance. DS416slim is powered by a **dual-core CPU** with **hardware encryption engine** and built-in **floating point unit** support. Under RAID 5 configuration in a Windows® environment, DS416slim delivers up to an average **194.21 MB/s in reading** and **77.91 MB/s in writing** through **Link Aggregation**, while delivering an average speed of **112.14 MB/s in reading** and **77.72 MB/s in writing** through single Gigabit LAN.¹

The **Dual Gigabit LAN** with failover support ensures continual service uptime in the event of unexpected LAN failure, while the **hot-swappable drive tray** allows you to replace the hard drives without powering off DS416slim. Designed for easy replacement, the system fan can be quickly swapped, so the average time to repair can be significantly reduced. DS416slim comes with **dual USB 3.0 ports**, each on the front and rear panel, providing fast and convenient data transfer and backup to external storage devices. Running on Synology's award-winning **DiskStation Manager (DSM)** operating system, DS416slim shares a rich reservoir of applications available in DSM **Package Center**.

Cross Platform File Sharing

Synology DS416slim supports comprehensive network protocols, ensuring a seamless file sharing experience across Windows, Mac®, and Linux® platforms. **Windows AD and LDAP integration** allows Synology DS416slim to fit quickly and effortlessly into any existing network environment without the necessity to recreate user accounts. **Cloud Sync** keeps your Dropbox, Google™ Drive, Microsoft OneDrive, Baidu and Box storage in sync with your personal DiskStation at home. **Cloud Station** suit allows users to sync files among multiple devices, no matter it's Windows PC, Mac, Linux, iOS or Android™ tablets/phones, effortlessly keeping everything up-to-date. While you enjoy the seamless file sharing, all the file sharing over the Internet is protected at a high security level through the HTTPS, firewall, and IP auto-block that supported by DS416slim.

Cross-platform File Synchronization

Auto-synchronize your files among DiskStation, PC and mobile devices using Synology Cloud Station suit.

Reliable Backup Solution

To protect your valuable data, DS416slim can become a centralized backup destination for consolidating fragmented and unstructured information across your network through a range of options. Advanced backup privilege management makes network backup tasks safer and more efficient. Complete backup solutions such as **Backup & Restore** minimize the impact of disasters, keeping your valuable data safe and secure.

Your Personal Multimedia Bank

DS416slim helps you easily manage your multimedia contents and share them across Windows, Mac®, and Linux® platforms. With **Video Station**, you can organize your digital video library with comprehensive media information, watch movies and films, or record your favorite TV programs with a DVB-T/DVB-S stick. **Photo Station**'s intuitive design allows you to effortlessly organize photos into customized categories, smart albums and blog posts, and link them to social networking websites within a few clicks. **Audio Station** comes with built-in lyrics plugin, Internet radio and lossless audio formats support and provides music playback via DLNA, AirPlay®, and Bluetooth devices (A Bluetooth dongle is required).

Anywhere/Anytime Availability

No matter what browser you're using, Synology offers handy features of **QuickConnect** and **EZ-Internet**, letting you enjoy accessing to the Internet with minimum effort. Combined with Synology's mobile apps for every popular feature, including **DS photo**, **DS audio** and **DS video** for anywhere multimedia access, **DS download**, **DS file**, and **DS cloud** for seamless file download/access/synchronization, you can enjoy the content and data in your NAS anywhere, anytime.

Anytime Availability

Access your DiskStation anywhere using Synology mobile apps.

Energy Efficient and Easy Management Design

Synology DS416slim is designed and developed with energy efficiency in mind. Compared with the average storage server counterparts, DS416slim consumes only 17.17 watts in regular operation. The support of Wake on LAN/WAN and scheduled power on and off can further reduce power consumption and operation cost. HDD hibernation can be configured to take effect automatically when the system has been inactive for a specified period of time. This not only saves energy but also extends the lifespan of the hard disks.

All Synology products are produced with RoHS compliant parts and packed with recyclable packing materials. Synology acknowledges the responsibility as a global citizen to continually work to reduce the environmental impact of every product produced.
