

ROG SLI HB BRIDGE

Boost Gaming Performance, Brilliantly

Ideal for 2-Way SLI Configurations

ROG SLI HB Bridge is compatible with variety of 2-way SLI configurations for maximum flexibility. 2-Way-M supports 3-slot configurations, while 2-Way-L supports 4-slot configurations.

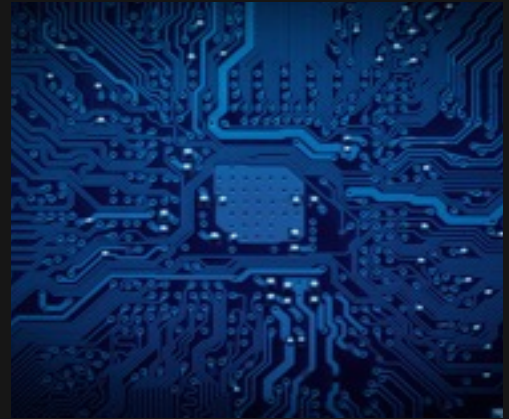

Aura Sync (Cable attached)

When paired with an Aura-enabled gaming motherboard, ASUS Aura Sync technology perfectly synchronizes the lighting for a system that really shines.

High-Bandwidth Transfer

ROG SLI HB Bridge supports dual-link SLI with the SLI HB technology to enable high-speed data transfer between GPUs and double the available transfer bandwidth compared to previous-generation GeForce GTX GPUs.

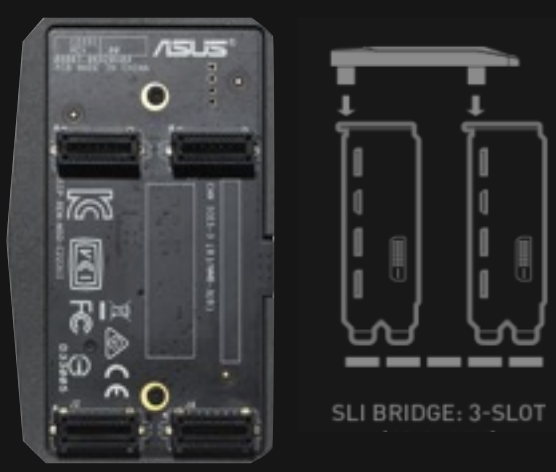

Aura RGB Touch-Sensitive Panel

ROG SLI HB Bridge features ASUS-exclusive Aura RGB lighting that automatically displays millions of colors in a repeating loop. Tap a specific color on the lighting panel will display it constantly, and another tap will resume the loop.
