

VESA mount accessory PV04 for DH110SE and other models of the XPC slim series

The PV04 VESA75/100 wallmount allows many Shuttle 1.3l models of the XPC slim series to be installed on to walls or just affixed on the rear side of a monitor which is particularly interesting for the industry segment, company buildings and public institutions.

Shuttle XPC accessory PV04

XPC accessory PV04 – Installation Guide

(1) Due to safety reasons, please turn off your computer completely first and unplug it from the power supply.

(2) Use four screws to fasten the VESA mount brackets on the rear of a suitable monitor.

(3) Position the XPC slim between the metal brackets of the VESA mount. Check that it is properly aligned with the screw holes, then affix the PC with the present thumbscrews on each side.

(4) Completed.
