Huebsch

YOUR SMART LAUNDRY PARTNER

On-Premises **Front Control Stack Washer/Dryer**

Get the complete package in a single unit, combining our efficient dryers with the powerful performance of our industry-leading front load washers. Our line of stack washer/dryers are designed as vertical combinations that provide all of the power of Huebsch washers and dryers, while occupying only half of the floor space of a conventional washer and dryer setup. Plus, these stacked units allow you to use the same connections and hookups required as a standard washer and dryer, so you won't have to make changes to your installation.

Power

Our high spin speed up to 440 G-Force removes more water from clothes, speeding up drying cycles and lowering dryer energy usage.
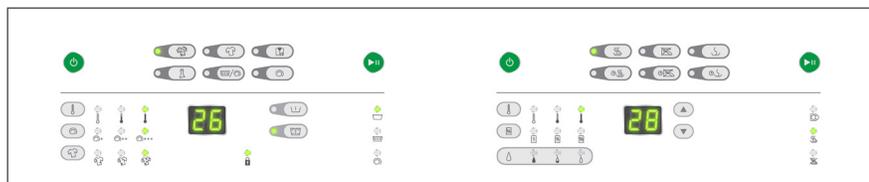

Smart

Improved suspension with new out-of-balance logic manages and redistributes unbalanced loads for uninterrupted wash cycles.

Efficient

Water use is trimmed to 11.7 gal (44.3L) per cycle to reduce operating costs.

Electronic Control

The Electronic Control keeps users informed throughout the wash process with cycle-status lights and a digital cycle countdown. Users also have the flexibility to control temperature, load type and soil levels, as well as options for prewash and/or additional rinse to achieve high levels of efficiency. Automatic (moisture-sensing) cycles come standard to prevent over-drying of your linens.
