KVM

Take command of multiple computers

Belkin KVM (keyboard, video, mouse) solutions provide users with precise control over multiple computers and servers. Our diverse, expanding line exemplifies our commitment to innovation and to delivering durable, high-quality products at a reasonable price.

Offering new performance features, improved designs and cross-platform capabilities, the Belkin line is engineered to enhance your control over a wide range of configurations, from desktop applications to enterprise environments.

KVM - Rack Mount Console

F1DC101Hau

The Belkin 19-inch Widescreen Rack-Mount Console offers an innovative new design that simplifies your IT duties at every turn. The often-cumbersome installation process has been reduced to a hassle-free, one-person job–simple slide it in, and you're done. Belkin 19-inch Widescreen Rack-Mount Consoles are lighter and slimmer than ever before, and deliver simplified deployment, instant access, and reduced energy usage. And, with the ultra-slim 19-inch widescreen display, you'll enjoy a more comfortable viewing area while saving valuable rack space. Belkin 19-inch Widescreen Rack-Mount Consoles are just another way Belkin enables you to successfully simplify your IT responsibilities.

Features and benefits:
• Widescreen 19" Grade A LCD Display
• Space saving 1U construction
• Hassle-free Installation
• Unique handle design providing easy access
• PS2 & USB Connectivity
• Works with any KVM switch
• Can purchase with built-in PRO3 KVM

Part Number	Product Description	Supported CPUs	KVM Compatibility

KVM - PRO3

F1DA116Zau

The OmniView PRO3 USB & PS/2 KVM Switch provides easy and dependable server control with extraordinary performance. The Switch enables network administrators to monitor and control up to four, eight, or sixteen USB- and PS/2-platform servers from a single console. The PRO Series KVM Switches are the industry's most popular for small-to-medium server rooms, branch locations, and test and development labs. Designed to grow along with your server network, the Switch can be daisy-chained together using dedicated daisy chain ports with other OmniView PRO Series KVM or SMB KVM Switches to support up to 256 servers.

Features and benefits:
• USB/PS2: Flexible designs supporting multiple platforms
• Dual-Port Cabling: Clutter reduction
• On-screen display
• Dedicated daisy-chain ports enable easy expansion of up to 256 servers without losing any ports

KVM - OVER IP

F1DP116Gau

The OmniView SMB KVM-over-IP Switch enables network administrators to monitor and control their servers from anywhere, at any time. This round-the-clock access lets you troubleshoot servers faster and more efficiently, dramatically reducing server downtime and service costs. Designed to grow along with your server network, the Switch expands to support up to 248 servers via daisy-chaining. The Switch features built-in CAT5 technology to provide simplified deployment and reduced cable clutter.

One Server Interface Module is required per server connected to the SMB KVM-over-IP Switch. Server Interface Modules are available for PS/2 and USB servers.

Features and benefits:
• No software installation required
• Access servers from anywhere in the world via web browser: IE or Firefox
• User-friendly interface perfect for SMB customers with limited staff
• 128-bit SSL data encryption over the Internet
• Supports up to 2 remote and 1 local user
• Out-of-band BIOS level access and virtual media support for up to 2 servers
• Supports serial devices such as PDU

KVM - OVER IP

The OmniView Remote IP Manager provides businesses with an easy way to add KVM-over-IP technology to their existing KVM and server configurations. When connected to a KVM switch, this product allows network administrators to remotely access and control their servers-from anywhere, at any time. This round-the-clock remote access lets you troubleshoot servers faster and more efficiently, dramatically reducing server downtime and service costs. With its compact design, the Remote IP Manager positions on your desktop or mounts to the back of your server rack to take up 0U space.

Equipped with virtual media capability, the Remote IP Manager enables administrators to transfer images and files between local and remote computers, remotely load software, perform application and OS patches, and perform diagnostic testing from a CD.

Part Number	Product Description
F1DE101Hau	Remote IP Manager with Virtual Media Support

KVM - CAT5

F1DP116Aau

The Belkin OmniView SMB CAT5 KVM Switch provides easy and dependable multi-platform server control. Built to deliver extraordinary performance at an affordable price, this Switch provides centralised control of medium- sized server environments. OmniView SMB CAT5 KVM Switches can be daisy-chained together easily to enable management of up to 256 PS/2 or USB servers from a single PS/2 console. The combination of Belkin's integrated CAT5 extension technology and Server Interface Modules simplify deployment and deliver class-leading stability and server uptime. The OmniView SMB CAT5 KVM product family delivers functionality that you would only expect to find in an enterprise-class solution.

Features and benefits:
• No software installation required
• On Screen Display
• Dedicated Daisy-Chain ports: Enables easy expansion of up to 256 servers without losing any ports
• Can be managed remotely with optional Remote IP Device product (F1DE101Hau)

Part Number	Product Description

KVM - Secure

F1DN104D

Designed specifically for secure military and government installations, the OmniView Secure KVM Switch lets you control multiple USB computers from a single USB console. This product ensures the integrity of your data by safely switching among classified and unclassified computers. The Switch features a dedicated processor per computer port to keep each computer separate and secure at all times, and prevent data transfer among them.

The OmniView Secure KVM Switch is listed by NIAP, and NIAP Common Criteria validated to EAL 4.

Features and benefits:
• NIAP certification: verified by the US National Security Agency that the network ports are separate
• Already in many US Military bases, intelligence, and law enforcement agencies
• USB technology allows for touchscreen displays, CAC readers, and other non traditional applications.
• Highest growth KVM category

Part Number	Product Description
F1DN102U	2-port USB/VGA EAL4-certified Secure KVM switch
F1DN104U	4-port USB/VGA EAL4-certified Secure KVM switch

F1DN104D	4-port USB/DVI-D Dual-link EAL4-certified Secure KVM switch

KVM - SOHO

With Belkin's newly redesigned SOHO KVM, you can share your monitor, keyboard and mouse with up to four USB and PS/2 computers. You can also connect one set of speakers and use them for all your computers.

The SOHO KVM Switch helps to increase your efficiency and productivity at home or in the office by reducing desktop clutter while keeping access to all of your programs and files spread across multiple computers.

Features and benefits:
- USB/PS2: Flexible designs supporting multiple platforms
- Dedicated processors per port offer robust and fast switching
- Front panel buttons for quick monitoring and independent switching of your PC and audio source
- Front USB port for quick connection of personal devices like smartphones and flash drives

KVM - FLIP

## One laptop. One desktop. One big monitor.
Laptops offer a great way to work - and play - almost anywhere. But sometimes you just don't feel like sitting in front of a tiny display and cramped keyboard. Thanks to Flip, you can now use your big monitor and full-sized keyboard for both your laptop and desktop computer.

Click. Flip.
It's simple. Just place the remote anywhere on your desk and press to flip your monitor from one computer to the next. Something old. Something new. Flip is also great for connecting your old and new desktop computers, giving you instant access to files, programs, and games on both computers.

Features and benefits:
• Shares one monitor, keyboard, and mouse between computers
• Shares one set of speakers between computers*
• Connects instantly to notebook computers
• Supports PC and Mac® notebook and desktop computers**
• Features a 2-colour LED that indicates which computer Flip is accessing
• Includes 2 cables to connect computers
• Installs in 3 easy steps with no software required
• Also available with wireless remote
• 2-Year Warranty

Structured Cabling Solutions

Secure. Reliable. Scalable.

For more than two decades Belkin has designed and produced the highest quality connectivity solutions. Engineered to exceed performance requirements, Belkin's Structured Cabling Solutions ensures maximum network uptime and transmission rates. Belkin Fibre and Copper Patch Cables feature quality components and utilise advanced manufacturing techniques all backed by our class leading Lifetime Warranty.

Need a specific cable type, connection, length or colour? Belkin delivers customised cables for most electrical applications including military, medical and telecommunications. Contact Belkin to obtain a quotation.

Cables - Copper Patch
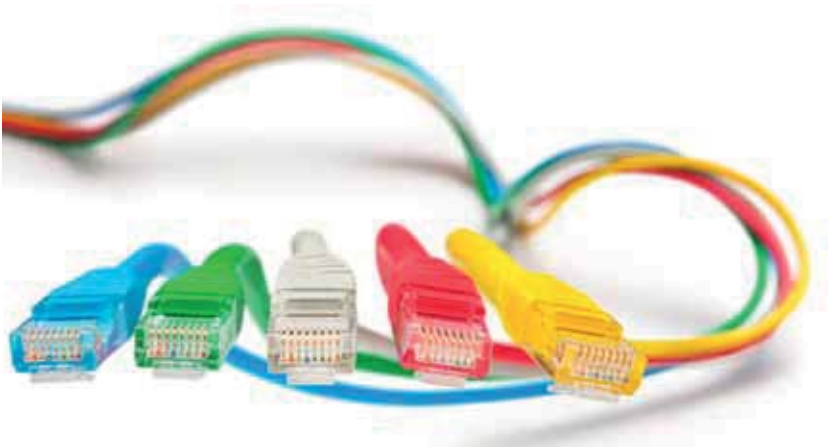

Belkin offers CAT5e and CAT6 copper cables and connectivity products that feature quality components and utilise advanced manufacturing techniques to ensure consistent, top-quality network performance. All Belkin cables are certified and tested to exceed the industry cabling standards, and come with a lifetime guarantee.

Features and benefits:
• Moulded connectors with snagless guards make installations effortless and protect connector tabs from damage
• Stranded, 24AWG, copper conductors offer superior conductivity over smaller gauges and provide increased flexibility to prevent kinking
• Gold-plated connector contacts deliver maximum conductivity for high-speed data transmissions
• Compliant to telecommunications standards: A-Tick verified to AS/ACIF S008: 2001 inc amdt. no.1
• Compliant to industry standards: ETL verified to TIA/EIA 568B and SO/IEC 11801-compliant (CAT5e) and TIA/EIA 568B.2.1 C(CAT6)
• Performance tested to exceed: 100MHz for CAT5e, 500MHz for CAT6
• Class leading reliability with Belkin's snagless boots with strain relief protect the release table from snagging on objects ensuring maximum uptime

Cables - Fibre Patch

Belkin fibre cables ensure the performance and reliability of servers, storage, and network switches. Built using the highest quality fibre cable and connectors, Belkin fibre-patch cables come with the satisfaction guarantee of Belkin's Lifetime Warranty. All Belkin fibre cables are factory-terminated and tested to ensure the highest level of performance and reliability.

Features and benefits:
• Corning glass cores
• Ceramic ferrules
• 3M film for ferrule polish
• Epoxy terminated connectors
• ROHS-compliant, flexible PVC jacket
• 100% assembly tested
• A-tick Certification
• Lifetime Warranty
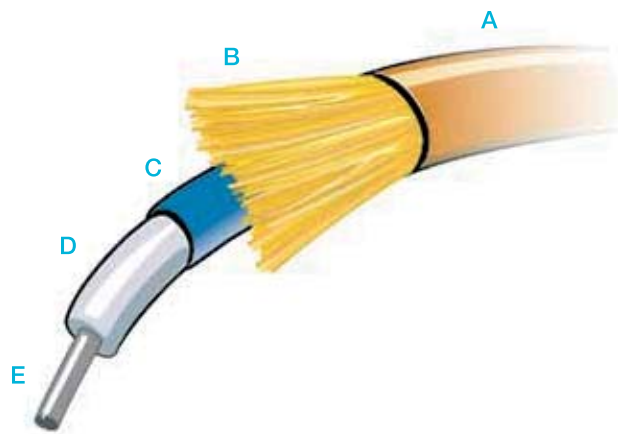

A   Cable Jacket
    The outermost layer of the fibre cable.

B   Strengthening Fibres
    The strengthening fibres that help protect the core against damage during installation or from being crushed.

C   Coating
    This layer of thicker plastic surrounds the cladding and helps protect the fibre core.

D   Cladding
    The layer that protects the core and causes the necessary refraction to allow light to travel through the fibre-core segment.

E   Core
    The physical component that transports the optical data signal, made up of a continuous strand of glass. The core's diameter is measured in microns.

High-Definition Multimedia Interface (HDMI) enables the delivery of both high-definition video and multichannel, digital audio quality through just one cable. Belkin HDMI Audio Video Cables deliver the richest possible HD video and digital audio experience to your home theatre.

DVI
Our DVI Cable provides a high-bandwidth video interface suitable for today's host and display devices, and addresses potential future bandwidth requirements. It meets Digital Display Working Group (DDWG) and Digital Visual Interface (DVI) standards, guaranteeing outstanding performance with all digital, flat-panel, liquid-crystal displays. This DVI digital-cable format delivers high-speed digital transmission of up to 9.9Gbps.

VGA
Belkin Super VGA Cables use the highest-quality materials to isolate your signal from interference and deliver the purest video solution available. Super VGA Cables are compatible with RGB and Component Video signal-processing standards.

Cables - PC

Serial Cables
The USB-to-Serial Portable Adapter provides the easiest and most convenient way to connect your notebook to all your serial devices.

PS/2 keyboard Cable
The Belkin USB to PS/2 Adapter allows you to link two PS/2 devices, such as a keyboard and mouse, to a single USB port on your computer. It lets you easily connect a full-size PS/2 keyboard and mouse to your notebook or desktop computer. Two devices can be used simultaneously, and you can plug and unplug devices without rebooting.

USB Hubs

Connect your devices

Sophisticated computer users demand efficient accessories designed for the way they work. They want the highest-quality, value priced products that conform to their computing needs. Belkin delivers all of that and more in the most comprehensive, innovative line of connectivity solutions on the market.

USB Hubs

The Belkin Pebble Travel Hub provides four downstream USB ports that offer backward-compatible, plug-and-play connectivity with all USB devices, including USB 1.1 devices, as well as with USB 2.0 (or high-speed) devices. This includes peripherals such as scanners, printers, mass-storage devices and high-resolution cameras. The Pebble also comes with built in cable management.

Features and benefits:
• Adds four additional USB ports to your computer
• Built-in cable management
• Plug and play; no drivers required
• Data transfer speeds of up to 480 Mbps
• Mac/PC compatible

F8N031	Weekender Trolley Case

Surge

Protect your valuable equipment

Belkin provides the latest, most advanced surge protection technology. Our product mix is designed to provide the right level of protection and breadth of features for your specific needs. Only the highest quality components are used and each product is designed to give you protection you can rely on.

Surge Warranties

Power related problems are the number one cause of damage to equipment and lost data (damage not covered by product warranties). Belkin surge protectors are built to the highest standards and are backed by a genuine lifetime product replacement warranty that covers the surge protector and any equipment properly connected to it.

Lifetime Product Warranty
Belkin will replace, free of charge, any Belkin surge protector that is defective or that expires after protecting your electrical equipment.

Connected Equipment Warranty
Belkin will repair or replace any equipment that was properly connected to a Belkin surge protector and damaged by a power disturbance up to the value stated on the product packaging.

Data Recovery Warranty
If your computer is damaged while properly connected to a Belkin surge protector we will provide data recovery services at no cost to you. This services is offered only on Belkin Extreme Series and UPS products.

Surge

1-Outlet Surge Cube

Power related problems are the number one cause of damage to equipment and lost data (damage not covered by product warranties). Belkin surge protectors are built to the highest standards and are backed by a genuine lifetime product replacement warranty that covers the surge protector and any equipment properly connected to it.

Features and benefits:
• 1 Surge Protected AC Outlet
• Lifetime Product Replacement Warranty

4-Way Surge Protector

Power related problems are the number one cause of damage to equipment and lost data (damage not covered by product warranties). Belkin surge protectors are built to the highest standards and are backed by a genuine lifetime product replacement warranty that covers the surge protector and any equipment properly connected to it.

Features and benefits:
• 4 Surge Protected AC Outlets
• Lifetime Product Replacement Warranty

Part Number	Product Description
F9H100vauCW	Surge Protector with Battery Backup, 400VA

The 6-Way Surge Protector is perfect for mid-level to advanced computers, printers, ADSL modems, audio video, Ethernet networks, and everyday household electronics.

Offering up to 1940 Joules, AC/phone, fax/modem, cable-broadband protection, cable management, recessed sockets, and insulated pins.

Features and benefits:
• Recessed sockets and insulated-pin plugs
• Simple cable management
• Lifetime Product Replacement Warranty
• Connected Equipment Warranty up to $150,000

Part Number	Product Description
BZ102055auTVL	Notebook Surge Protector with USB Charger
F9S620au2M	6-Way Surge Protector

UPS

The Surge Protector with Battery Backup not only offers the same level of protection against surges and spikes as a surge board, but it will also protect your precious memories and valuable data from being corrupted or lost during a power outage. If a power outage occurred and your computer was not protected by battery backup the following could happen:

• Any changes that you have made to documents or files such as images, videos, word or excel files would be lost
• Any files being saved to the hard drive at the time could become corrupted and unusable
• Systems files could become corrupted causing the operating system to become unstable
• Physical damage to the hard drive can occur. In some cases the files cannot be retrieved

Features and benefits:
• 3 battery backup with surge protection sockets and 3 surge protected only sockets
• USB port for plug-and-play communication
• 3-Year Product Warranty
• Connected Equipment Warranty up to $50,000 for F6S400auUSB and up to $100,000 for F6S600auUSB

Part Number	Product Description
F6S400auUSB	Surge Protector with Battery Backup, 400VA
F6S600auUSB	Surge Protector with Battery Backup, 600VA

YOU DON'T HAVE TO CHANGE THE WAY YOU USE THINGS, JUST THE WAY YOU USE POWER.

Introducing a new way to track and reduce your power use.

The Belkin Conserve family of products help people save energy, lower their electricity bills and do their part to help the environment. Elegantly designed and simple to use, these products make it easy to save energy and minimize your environmental impact.

The Conserve Insight (F7C005au), you can find out how much energy your devices really use—including the cost of operation, watts and the amount of carbon dioxide (CO_2) produced in generating the electricity consumed.

Conserve Switch (BZ108200au) enables you to control power to your workstation with the flick of a switch. The device comes with a wireless remote that you can place anywhere. When you turn the remote switch off, power to the six controlled sockets turns off too—including standby power—so no energy is wasted.

A charger left plugged into the wall can still draw power—even when no device is attached. The Conserve Valet Smart USB Charging Station (F7C008au) charges up to four mobile devices at once and shuts off automatically. The product itself draws zero power when not in use—so you can keep your devices ready to go without wasting energy.

The Conserve Socket Power Timer (F7C009au) automatically shuts off power after the time interval you select—so you save energy and money. A device left plugged in but not in use can still draw power and pose a safety hazard.

The Conserve Smart Power (F7C007au) enables you to control power to your entertainment system with the push of a button—your TV's power button. The device's master outlet senses when your TV is on or off and controls power to five master-controlled outlets for your AV components. When you turn your TV off, power to the peripheral components goes off too—including standby power—so no energy is wasted.

Enclosures and Racks

Today's data centers demand security, compatibility, and quality. Enclosures and racks from Belkin provide a reliable and scalable solution for securing and organizing your rack-mountable data-center equipment. Our enclosures are available in a variety of sizes for all types of data-center applications.

Enclosures

RK1000 42U Premium Enclosure with Side Panels
- Front mesh door, rear split mesh doors
- 2,200 lb. weight capacity
- Infinitely adjustable mounting rails for various equipment depths
- Removable/lockable doors
- Excellent cable access via top and bottom openings
- Full range of accessories available
- Features square M6 holes
- Compliant with EIA 310D 19" mounting
- Made in the USA from top-quality steel

RK1003 12U Wall-Mount Enclosure
- Front Plexiglas door
- Easy mounting to various wall types
- Swings open with equipment mounted for easy access
- Lockable/removable front door
- Features square M6 holes
- Compliant with EIA 310D 19" mounting
- Made in the USA from top-quality steel

Racks

RK4000 4-Post Rack 42U
- 2,200 lb. weight capacity
- Designed for easy, one-person assembly
- Install equipment easily with RMU markings
- Features square M6 holes
- Compliant with EIA 310D 19" mounting
- Made in the USA from top-quality steel

RK2000 2-Post Rack 42U
- 1,000 lb. weight capacity
- Designed for easy, one-person assembly
- Install equipment easily with RMU markings
- Features tapped holes
- Compliant with EIA 310D 19" mounting
- Made in the USA from top-quality steel

Accessories

In addition to racks and enclosures, Belkin also offers a variety of shelves, cable-management solutions, and installation accessories to customize your data center.

RK5018

RK5019

RK5021

RK5041

Shelving

- Made in the USA of top-quality steel
- Compliant with EIA 310D mounting
- Compatible with 19" mount racks from other manufacturers
- Choose from fixed or sliding mount
- Mesh pattern allows for better airflow to equipment, prolonging equipment life
- Comes with a Belkin Limited Lifetime Product Warranty

RK5015

RK5016

RK5012

RK5013

Cable Management

- Made in the USA of top-quality steel
- Compliant with EIA 310D mounting
- Compatible with 19" mount racks from other manufacturers
- Choose from single-sided or double-sided
- Comes with a Belkin Limited Lifetime Product Warranty

RK5043

RK5044

RK5039

Power Distribution

- Zero U mounting style saves mounting space
- 16 5-20R power receptacles
- 20-Amp, 120-volt
- 49" length
- Use RK5039 to mount in the RK1000
- Compatible with enclosures from other manufacturers
- Features twist-lock plug (RK5043)
- Features straight plug (RK5044)

RK5006

RK5004

RK5005

Enclosure Thermal Management

- Increase airflow inside the enclosure
- Prolong equipment life with superior cooling
- Mount easily with a screwdriver to Belkin's RK1000

Network Copper Cables

Our CAT5e and CAT6 copper cabling and connectivity products feature quality components and utilize advanced manufacturing techniques to ensure consistent, top-quality network performance. All Belkin cables are certified to meet or exceed industry cabling standards and come with a lifetime guarantee.

Features and Benefits:

- **Molded connectors with snagless guards**—make installations effortless and protect connector tabs from damage
- **Stranded, 24-gauge copper conductors**—offer superior conductivity over smaller gauges and provide increased flexibility to prevent kinking
- **Gold-plated connector contacts**—deliver maximum conductivity for high-speed data transmissions

- **Compliant to industry standards**—ETL-verified to TIA/EIA 568B and ISO/IEC 11801-compliant (CAT5e) and TIA/EIA 568B.2.1 (CAT6)
- **Performance tested**—tested to exceed 100MHz for CAT5e, 500MHz for CAT6

Verified Performance

ETL, the industry reference for testing structured cabling systems, has fully tested and certified our CAT5e and CAT6 cables. We developed these products to exceed category specifications and include additional headroom for network applications requiring maximum data throughput.

Performance Testing of the cabling configurations as defined in, and to the requirements of, TIA/EIA-568-B.1 for Category 5e Cabling Systems.

Performance Testing of the cabling configurations as defined in, and to the requirements of, ANSI/TIA/EIA-568-B.2-1, Transmission Performance Specification for 4 Pair 100Ω Category 6 Cabling.

CAT5e Unshielded (UTP) Network Cables

Belkin CAT5e cables offer reliable, practical, Gigabit-Ethernet performance.

CAT6 Unshielded (UTP) Network Cables

Belkin CAT6 delivers higher performance and reliability than CAT5e by reducing packet loss and the need for retransmissions. Belkin CAT6 cables are tested to exceed the industry standard for throughput, offering headroom in your network for growth.

Bulk Cable

For more than two decades, Belkin has designed and produced the highest-quality connectivity solutions on the market. Our efforts have resulted in a complete line of structured-cabling solutions engineered to deliver outstanding performance.

Today, Belkin cabling solutions connect systems used by leading organizations worldwide. From the desktop to the cross-connect in the telecommunications closet, our broad range of solutions meets your specific infrastructure needs.

Patch Panels

- Support multiple labeling systems
- Accept both 568A and 568B wiring schemes
- Ship with an included strain-relief bar
- Are optimized to seamlessly interface with Belkin bulk and patch cables
- Offer rigid construction to ensure for stable termination on standard 19" racks

DON'T FORGET to include High-Performance CAT6 Snagless Networking Cables

Fiber Cables

These Cables ensure the performance and reliability of servers, storage, and network switches. Built using the highest-quality fiber cable and connectors, Belkin fiber-patch cables come with the satisfaction guarantee of Belkin's Lifetime Warranty. All Belkin fiber cables are factory-terminated and -tested to ensure the highest level of performance and reliability; they can handle network speeds up to 1000Mbps and can be used in all multimode applications.

All Belkin fiber cables feature:

• Corning glass cores

• Ceramic ferrules

• RoHS-compliant, flexible PVC jacket

• PC polishes

• 100% optically inspected and tested for insertion loss

Belkin offers four types of fiber-patch cables:

• 62.5/125 Multimode Duplex

• 50/125 Multimode Duplex

• 8.3/125 Singlemode Duplex

• 50/125 10-Gigabit Aqua
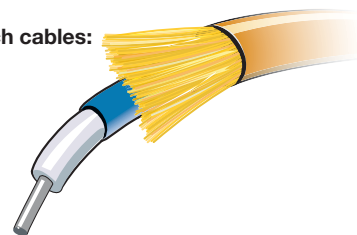

FIBER-CONNECTION TYPES

ST – The ST connector uses a push-and-turn-to-lock system.

LC – The LC connector features a small form factor and resembles the SC connector.

SC – The SC connector has a molded, plastic plug casing and a push/pull locking system.

MT-RJ – The MT-RJ connector is a small form-factor connector with a square plastic casing that contains both fiber strands into a single polymer ferrule.

Identify the required fiber-cable type, and then use the appropriate table below to identify the Belkin part number that meets your needs.

Belkin offers accessories for the mobile professional with advanced features and industry-best warranties.

F8N050-BR – 15.4" Messenger Bag
F8N051-BR – 17" Messenger Bag

F8N050-KLG – 15.4" Messenger Bag
F8N051-RL – 17" Messenger Bag

Messenger Laptop Bag

Our Messenger Laptop Bag has all of the comfort of a lightweight case, but with the organization and capacity of a much larger case. Built-for-you organization inside gives you a place for your cell phone, business cards, pens, and other mobile office accessories.

A separate pouch safely stows your power adapter and cables. Two sizes to fit laptops up to 15.4 or 17 inches. All of Belkin's laptop bags are backed with our Lifetime Warranty.

F5L010

Laptop Power Adapter for travel

The Laptop Power Adapter for travel eliminates the need for multiple power supplies while you are traveling. Because the Laptop Power Adapter derives power from the most common sources of power, including AC wall sockets and DC power from a car charger, you will never have to worry about your laptop running out of power.

- Guaranteed compatibility for PC laptops under 17"
- USB Power for iPod, Motorola® RAZR, or BlackBerry® powering on the go
- Integrated cord-wrap design
- Battery-expandable
- All-inclusive cable management helps prevent the loss of parts
- $100,000 Connected Equipment Warranty

F5L017-USB

Wireless Travel Mouse

The Wireless Travel Mouse is perfect for taking on the road—no messy cables to get tangled, and more comfortable to use than your laptop's track pad.

- Compatible with Windows® 2000, XP, and Vista®
- Compatible with Mac OS® X v10.4
- Works with USB or PS/2 port
- Features optical technology with 800dpi
- Features 3 programmable buttons: micro switch, mechanical scrolling wheel, and depressing function on wheel
- Features on and off switch to save power when not in use
- 27MHz wireless USB receiver adapter

Laptop Accessories

Belkin provides a complete line of power protection and the highest connection equipment warranties in the industry.

Mini Travel Surge Protector with USB Charger

- 360-degree rotating plug with 4 locking positions
- Charges both AC and USB devices
- 3 surge-protected outlets
- Compact, lightweight design
- Belkin Limited Lifetime Product Warranty

Part No.: BZ103050qTVL

Travel Surge Protector

- Hidden swivel plug
- 2 surge-protected outlets
- Network and broadband Ethernet protection

Part No.: F9H220-TVL

Hi-Speed
USB 2.0 Hubs

USB 2.0 Hubs

Provide additional USB ports, are compact in size, and offer top-loading ports for convenience

For desktop users

USB Plus Hub

- Adds multiple USB devices to your computer
- Features 2 top-load USB ports for quick access
- Requires no external power supply (for most devices)
- Features over-current power protection

Part No.	Description
F5U304-WHT	4-Port Hub, White
F5U304-BRN	4-Port Hub, Brown
F5U307-WHT	7-Port Hub, White
F5U307-BRN	7-Port Hub, Brown

Hi-Speed USB 2.0 7-Port Hub

- Offers 2 easy-access, top-loading 480Mbps ports—perfect for thumb drives, USB lights, or fans
- Features 5 horizontally mounted 480Mbps ports
- Features over-current power protection

Part No.: F5U237v1

Hi-Speed USB 2.0 4-Port Hub

- Provides four 480Mbps, USB 2.0 ports to connect up to four 1.1 or 2.0 devices
- Features over-current power protection
- Connects up to 2 high-speed devices without a power supply

Part No.: F5U234v1

Why Belkin USB Hubs?

- Add USB ports
- Install easily with plug-and-play convenience
- Work seamlessly with all USB 1.1 and USB 2.0 devices
- Support "hot swapping" of all USB devices
- Save desk space with stackable, slim-line design

Clip-On Hub

- Attaches to the edge of your desk, keeping your desktop clutter-free
- Features 2 easy-access, top-loading USB ports for quick access to your files
- Adds 4 Hi-Speed USB 2.0 ports with transfer speeds of up to 480Mbps

Part No.: F5U416

For mobile users

Hub-To-Go

- 2 ultrafast USB hubs in one
- 4 ports detach from the base to act as a travel hub, while the 4-port base/tray stays on your desk
- Adds 7 Hi-Speed USB 2.0 ports that transfer files at speeds of up to 480Mbps

Part No.: F5U706

Hi-Speed USB 2.0 4-Port Pocket Hub

- Features slim, lightweight, travel-friendly design
- Connects 4 devices at any USB device speed
- Offers convenient, built-in cable management

Part No.: F5U215vMOB

Wireless Networking

N1

*High-performance, secure,
and reliable wireless networking*

SELLING POINTS

Networking

Belkin, the recognized leader in PC cabling and connectivity, provides advanced, easy-to-install, high-performance networking solutions. Belkin's entire networking product line is back with Lifetime Warranties and free, 24-hour tech support.

*The most advanced interactive*
Status Display

N1 Vision

- Delivers faster wireless networking over a wider range
- Interactive, easy-to-read status display to view your network's broadband speed, computer-bandwidth usage, and the status of your connected devices
- Plug-and-play "CD-less" setup

Part No.: F5D8232-4

Interactive Status Display shows your network's broadband speed, computer bandwidth usage, status of connected network devices, and more.
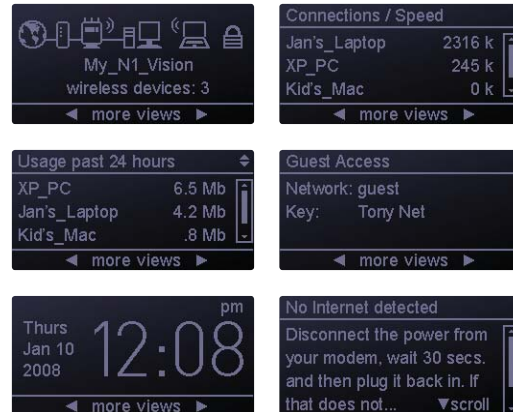

What is N1 Wireless?

N1 lets you wirelessly share your cable or DSL Internet account with your home computers, at a faster connection rate from farther away. Offering the easiest way to set up a wireless network, N1 Wireless quickly and easily sends video, music, photos, and other files over your network—simultaneously.

N1 offers faster wireless speeds over a wider range than the previous networking standard, 802.11g. Your N1 network features multiple receivers and transmitters that send and receive data using Intelligent MIMO (Multiple Input Multiple Output), a smart-antenna technology.

Share your Internet connection and simultaneously:

- Stream HD video
- Listen to digital music
- Play online games
- Transfer photos and home videos
- Shop online and surf the Web
- Email and chat
- Handle multiple VoIP phone calls

Enhanced Firewall Included

The Belkin N1 Wireless Router provides state-of-the-art security. Wi-Fi Protected Access™ (WPA™) support provides enhanced encryption, protecting your wireless network. Stateful Packet Inspection (SPI) and Network Address Translation (NAT) double your firewall and safeguard your network from Internet intruders.

N1 Wireless Desktop Card

- Networks your desktop computer
- Expands range, transfers faster
- Uses 3-antenna format to improve efficiency
- Installs easily

Part No.: F5D8001

N1 Wireless Notebook Card

- Connects your notebook computer
- Expands range, transfers faster
- Keeps you connected as you roam throughout the house
- Slides into an available CardBus slot

Part No.: F5D8011

N1 Wireless ExpressCard™ Adapter

- Uses your notebook's high-bandwidth ExpressCard slot to network
- Expands range, improves performance
- Accesses Internet "hotspots" in select cafés, hotels, and airports from a farther distance
- Upgrades your notebook from basic 802.11g to high-performance N1

Part No.: F5D8071

Belkin Wireless G Plus products feature High-Speed Mode (HSM) networking speeds—faster than 802.11g

Wireless G Plus Router

- Sets up easily—automatically detects Internet settings to get you online in under 3 minutes
- Includes Parental Control to restrict your children/employees from accessing potentially objectionable web content
- Connects to your cable or DSL modem and enables your computers to share broadband Internet access

Part No.: F5D7231-4

Wireless G Plus Desktop Card

- Connects your desktop computer to a wireless network 35% faster than 802.11g
- Offers advanced security features, including WEP and WPA
- Includes free 6-month subscription to pop-up, adware, and spyware blocker

Part No.: F5D7001

Wireless G Plus Notebook Card

- Connects your notebook computer to a wireless network at home or on the road
- Provides 35% faster speeds than standard 802.11g
- Offers advanced security features WEP and WPA

Part No.: F5D7011

Wireless G USB Network Adapter

- Creates network by plugging into a USB port on your desktop or notebook computer
- Installs with plug-and-play ease of USB; has you networked in minutes

Part No.: F5D7050

Wireless G Router

- Creates a network in your home or office without network cabling
- Sets up easily with Belkin Easy Install Wizard—in under 3 minutes

Part No.: F5D7230-4

Wireless G Range Extender/Access Point

- Adds wirelessly networked PCs to your wired network
- Extends the coverage range of your wireless networking environment

Part No.: F5D7130

Wireless G Ethernet Adapter

- Adds networking capability to your computer or network device
- Works with all Ethernet-equipped computers or network devices
- Works with gaming consoles (not included) such as Xbox®, PlayStation 2®*, or GameCube™**

 *PlayStation 2 will require the PS2 Network Adapter
**GameCube will require the GameCube Broadband Adapter

Part No.: F5D7330

Upgrade Cards

Easy Transfer Cable for Windows Vista®

Microsoft® teams with Belkin, developer of the Easy Transfer Cable, to offer seamless migration from Windows® XP to Vista

Upgrading to a new Windows Vista computer has never been easier. The Belkin Easy Transfer Cable offers the quickest, easiest way to transfer such critical content as files, emails, user accounts, and more from an existing Windows XP computer to a new computer running Windows Vista.

- **Works flawlessly with Vista:** Belkin's Easy Transfer Cable is the only cable certified, promoted, and supported by Microsoft. It offers seamless migration from Windows XP to Vista.

- **Requires no network resources:** Files transfer over direct cable connection, eliminating the need to set up a complex network and use network storage space.

- **Minimizes customer downtime:** Save users the hassle of spending hours burning CDs or transferring to a hard drive to copy data; files can be transferred between 2 computers at speeds of up to 480Mbps.

- **Software included:** Belkin includes FREE file-synchronization software from industry leader, Laplink. Automatically synchronizes software applications, email contacts, files and more.

  Part No.:   F5U258

Retractable

Enjoy the convenience of mobile connectivity solutions

7-in-1 Retractable Cable Travel Packs

- Includes the following USB, RJ11, and RJ45 Cables and Adapters:
- Retractable USB Cable (A Male/A Female, 2.6 ft.)
- Retractable CAT5e Cable (RJ45/RJ45, 3.6 ft.)
- Retractable Modem Cable (RJ11/RJ11, 4.3 ft.)
- USB Adapter (A Male/B Male)
- USB Adapter (A Male/4-Pin Mini-B Male)
