

## QT4760-1 –Q-See Advanced Series 16 Channel CIF/D 1 1 Terabyte HDD DVR with HDMI Port.

For complete real-time surveillance coverage look no further than the QT4760 DVR from Q-See. The enterprise capable QT4760 DVR offers 16 channels for a complete and thorough surveillance setup. This DVR also features a real-time CIF recording option as well as a larger, clearer D1 recording resolution. Included with the premium QT4760 DVR bundle is an HDMI port for higher resolution viewing option. Always be aware of what's happening on your property with standard noteworthy features. View camera footage in high resolution thanks to the HDMI port. Easily monitor your home or business using only a computer or supported mobile device via free apps from Q-See. Up to 10 additional users can log onto the DVR for an extra set of eyes to monitor. Even if you can watch over all 16 channels, this DVR sends out email alerts when security criteria that you can set are met. Receive email alerts with incident snapshot when motion is detected or when camera loss occurs! Save footage in the pre-installed hard drive to view and back up footage. The QT4760 also features impressive multi-tasking capabilities such as simultaneously record, watch video, back up video and remotely monitor. Q-See DVRs are a winning selection for your

surveillance solution. With high quality products, Q-See DVRs achieve excellence in home or business environments.

### KEY FEATURES:

- **MULTIPLEX MULTI-TASKING FUNCTIONALITY** -You can simultaneously record, view live or recorded footage, back-up files and remotely monitor and manage your DVR on your computer network or the Internet. With Q-See's DVR multiplex feature, you can do all of this without any recording loss.
- **RECORDING RESOLUTION** - CIF provides real-time recording with smooth video playback at 30 frames per second per channel at a playback resolution of 352x240 or D1 at 7.5FPS (704x480).
- **REMOTE MONITORING** - Remotely monitor and manage your home or office 24/7 via the internet using or a supported 3G/4G Smartphone by up to 10 users at the same time.
- **EMAIL ALERTS**- Receive instant email alerts with snapshot images when motion is detected; when the hard drive is full, or when video loss has occurred.
- **THREE RECORDING MODES** -Select from 3 different recording modes:
  - **Motion Detection:** Motion detection settings help to minimize false alarms. The easy-to-use motion detection set-up screen allows you to mask out certain areas which frequently experience heavy movement in order to avoid false alarms and unnecessary triggers.
  - **Time-Schedule:** Record based on a pre-set schedule that you choose depending on your needs. For example, only at night, only during office hours or only during non-business hours.
  - **Manual:** When set to manual, the system can be turned on to record 24 hours a day, 7 days a week or until you manually turn it off.

- **THREE VIEWING MODES** - Select from 3 different viewing modes:
  - **Single Cam:** Display 1 camera at a time.
  - **All:** Display up to 16 cameras at once.
  - **Timed Auto-Sequence:** Display a timed-auto sequence, which shows each camera for a few seconds.
- **TWO SEARCH OPTIONS** -Quickly find previously recorded video by searching in one of two ways:
  - **Time:** search video within a specific time frame
  - **Motion Detection Event:** search video by occurrences of motion
- **CONVENIENT BACKUP** -Backup video files from the surveillance system to a PC, Flash Drive or USB Hard Drive in order to free-up space for new video while retaining important footage.
- **NAVIGATION MENUS** - The user-friendly interface, along with the accompanying mouse and remote control, make moving through the program menus a breeze.
- **COMPATIBILITY -Operating Systems** Windows XP, Windows Vista, Windows 7, MAC OS 10.6/10.7/10.8
- **Internet Browsers** - Internet Explorer (IE), Google Chrome or Mozilla Firefox with IE Plug-in
- **Mobile Devices** - Remote Monitoring on a supported 3G or 4G Smartphone instantly view live video stay in touch on the go! Instantly view live video from any of your system's cameras. Supported Smart phones: Windows Mobile Pro, I-Phone/I-Pad, Android, Windows phone, Blackberry operating systems.
- **1 TERABYTE HARD DRIVE:** Record and store video footage on the pre-installed 1 Terabyte SATA A/V-rated hard drive. The amount of footage that you can save on the hard drive before needing to over-write footage will depend on the recording and resolution settings selected during setup. This system can support 1 hard drive of up to 2 TERABYTE.
- **CONNECT to A MONITOR** - Display on any TV/MONITOR or 19" or larger PC Monitor through BNC, VGA or HDMI.
- **HDMI PORT:** Connect to a TV for a true High-Definition viewing experience! An HDMI port allows you to run the video feed to a high definition TV for a higher quality image.
