

DN-S1200

Compact Media/CD Player & Controller

Extremely compact
DENON build quality

MidiMedia Master
Total Controller for Flash Drives, HDD or iPod®

24-bit D/A converter, USB audio
Scratch & 4 Sound effects

Multi Functional Touch Sensitive Jog Disc

The 110mm JOG Disc is constructed with an ultra high-resolution pulse and touch sensor mechanism to accurately reproduce the most subtle or swift scratching movements made by the human hand. The Jog Disc can perform other vital functions too such as, pitch bending, scanning, file searching and dry/wet control for effects.

External USB Device Support

Got a portable music collection stored on external USB media? No problem...the DN-S1200 can support multiple external USB mass storage class devices. Connect your iPod®, Jump Drive and large Hard Drives for easy access to your small or extensive mp3/wav libraries. Simply plug one of these devices into the DN-S1200 to obtain the powerful on-board features such as, Instant Start, Seamless Looping, Scratching and File Searching, just to name a few.

MIDI Interface Controller (PC/MAC)

The DN-S1200 is also designed to interface & control a variety of popular DJ programs that supports USB MIDI interfaces, either by user custom mapping or direct native support by the software vendor. Control your favorite DJ software - for example NATIVE INSTRUMENTS™ Traktor®, SERATO™ Scratch Live® and other - all from one clever compact player.

*Supported Platforms: Mac OSX 10.4 or Higher, Windows XP SP2, Windows Vista

USB Audio Internal 24-Bit Processing

Most DJ MIDI controllers on the market today don't include an internal sound card. The DN-S1200 encompasses its own USB Audio interface (sound card) which eliminates the hassle to source one and spend additional money. The internal power supply delivers optimum electrical specifications, resulting in best possible audio quality & performance, featuring industry leading Burr Brown (a product of TI) 24 bit DAC processing for superior output audio fidelity. USB Audio interface includes 2-Channel Stereo output pair, 44.1kHz sampling ranges and low latency ASIO / OSX Core Audio support.

*ASIO Driver included on installation CD-ROM

Slot-In CD Player

The illuminated Slot-In, quick loading and fast data reading mechanism offers a variety of audio CompactDisc support: CD, CD-R, CD-RW. CD-TEXT is also supported.

Keyboard support (PS/2) & Intuitive File Navigation System

The DN-S1200 will support the 3-types of global USB keyboards (Qwerty, Qwertz, Azerty) in 9 different native languages for simplified song search of; Artist, Album, Title, Genre, Year, BPM, File Name, Hot List & Folder Structure. In addition, shortcut keys are assigned to perform various functions and a single keyboard can be shared in a 2-deck configuration by the D-Sync. connection.

D-Link

Two DN-S1200 players can be linked together by a single RJ45 cross-cable for MASTER / REMOTE operation. Share memo data, keyboard data and relay command information with another DN-S1200.

4 Superb Built-in DSP Effects

Building the mood of your dance floor and remixing live has never been so easy with our on-board effects. Easily activate and have full parameter adjustments with a unique Dry/Wet mix control of the effects: Flanger, Filter-(High-Mid-Low), Echo and amazing Echo Loop.

Next Track Function w/Cross Fade

Storing thousands of your favorite songs on an external USB device is now possible. But what if you want play other files from the same source back to back? Well, we answered your needs with DENON's own Next Track function. You can search for your next file by 8 criteria's (without interrupting playback) and crossfade seamlessly to that file for a smooth non-stop mix upon your command.

* Available for CD discs as well. *Cross fade time is user adjustable

DN-S1200

Compact Media/CD Player & Controller

Hot Starts & Seamless Looping:

Two Hot Starts (A1 and A2) can be made on the fly and easily turned into Seamless Loops. The Hot Starts can also be used as Stutter points as well.

3 Platter Effects

- Brake (adjustable in real-time)
- Dump (reverse sound without losing true forward time, like a radio edit)
- Reverse (plays your music backwards and platter spins backwards too)

4-Way BPM Counter

- Auto Beat Detection
- Manual TAP
- Manual BPM Input
- Reads MP3/WAV BPM Metadata from USB device (if available)

Memo function

Cue point, BPM, Pitch Setting & Range, Pitch ON/OFF, Key Adj ON/OFF, and Seamless Loop A and B data can be stored directly to the file for later recall. In addition, CD memo data can be exported to USB memory and shared with other S1200 players.

Pitch Range & Deep Pitch Resolution

For those DJ's who perform long mix transitions and require high pitch resolution, the S1200 offers a 100mm pitch slider with 0,02% for the 4% pitch range and 0,05% for the 10/16% pitch range. 24%/50%/100% ranges are also available.

Key Adjust

The Key Adjust feature keeps vocals and music sounding true even when you adjust the speed of the track or file.

Vibrant Tube Display with 2-line Character Text Support

Another unique quality of the DN-S1200 is its informative & animated tube display. The display offers two lines of character information to quickly navigate through your CD TEXT tracks and USB files. A visual 32-position Marker Point indicator follows your hand movements at lighting speeds without drift. Other indicators include Looping, Hot Starts, BPM info, Elapsed/Remain Time, MP3/WAV file types, and other useable indicators.

Loop A/B Trim

The A or B point for the seamless loops can be easily adjusted on-the-fly to perfection.

Power On Play

Unattended playback is possible upon power up. Great for restaurants, bars and nightclubs at opening time.

Relay Play

Unattended playback is possible between two players by the D-Link connection. Great for the cocktail hour or during dinner time at banquet halls.

2-way Pitch Bend (Jog Disc or buttons)

Quick Jump

We made searching fast & easy. You can now jump around within a track/file by precise user adjustable increment time steps.

Two Way CUE Search System

Supports traditional DENON Cueing method and another popular style as well.

Fader Start

Compatible with all DENON Mixers and others with pulse start.

Software Upgradeable by USB

From time to time we will make subtle improvements to current features or add new compelling ones based on valuable user feedback. These new Plug Ins are always free and made available via our www.denondj.com website.

Digital Output

Dimensions: 215 (W) x 87,4 (H) x 232 (D) mm
(without feet & jogdisc)
