1 General Information

Introduction and product concept

d-Copia 1801MF, d-Copia 2201MF, d-Copia 1801MF plus, d-Copia 2201MF plus, are the new names for the new A3 entry level monochrome MFP series with a speed of 18 ppm and 22 ppm. They are the second generation devices of the equivalent successful 18-22 ppm models launched in the second half of 2009, namely d-Copia 1800, d-Copia 2200, d-Copia 1800MF, d-Copia 2200MF.

Many are the improvements introduced in order to satisfy the request of an more demanding market as well as to maintain a good position vs the competition.

To maintain and increase the market share of in the entry level A3 monochrome segment the new series has adopted a new engine, which is capable to offer improved functionality under quite many points of view.

Printing and **color scan** are **standard features in all four models** of the new series. These functionalities are available **via network for the advanced models in combination with the optional network interface**. Furthermore the **operation noise is reduced, footprint is the smallest** in the category and the traditional reliability of the series is maintained thanks to its long life components.

With new up-dated features the new models target both growth and mature markets, where balance in price and functionality is important.

d-Copia 1801MF/2201MF/PLUS, the essential characteristics

Key Features at a glance:

- > **18 ppm and 22 pages per minute in A4 format monochrome**
- > **Up to 22 ipm scanning speed and up to 600 dpi scan resolution**
- > **Standard printing and color scanning**
- > **Selectable one-path duplex- and reversing-document processor**
- > **Paper capacity, expandable up to 1,300 sheets**
- > **Long-life components provide unprecedented efficiency and reliability**
- > **Fax and network functions as option for advanced models**
- > **Less power consumption**
- > **256MB standard memory**
- > **GX driver for better control and overview**
- > **Command Center RX functionality for advanced models**

d-Copia 1801MF corresponds to Kyocera TASKalfa 1800
d-Copia 2201MF corresponds to Kyocera TASKalfa 2200
d-Copia 1801MF^{plus} corresponds to Kyocera TASKalfa 1801
d-Copia 2201MF^{plus} corresponds to Kyocera TASKalfa 2201

Specifications

BASIC SPECIFICATIONS	
d-Copia 1801MF	simplex: 18 ppm A4, 8 ppm A3 / duplex: 11 ppm A4, 6 ppm A3
d-Copia 2201MF	simplex: 22 ppm A4, 10 ppm A3 / duplex: 11 ppm A4, 7 ppm A3
d-Copia 1801MF plus	simplex: 18 ppm A4, 8 ppm A3 / duplex: 11 ppm A4, 6 ppm A3
d-Copia 2201MF plus	simplex: 22 ppm A4, 10 ppm A3 / duplex: 11 ppm A4, 7 ppm A3
GENERAL	
Technology	Dry Electrostatic Transfer
Power source	AC 220 ≈240 V, 50/60 Hz
Engine Speed	1801MF: max. 18/8 pages per minute A4/A3 2201MF: max. 22/10 pages per minute A4/A3
Power consumption	Copying/printing: 421 W (1801MF), 450 w (2200MF), Stand-By: 63W, Sleep mode: 6,2 W
Warm-up time	less than 17,2 sec.
Recovery time from sleep	less than 11 sec.
Standard paper handling	Paper cassette (64-105 g/m ²): 1801MF/2201MF: 1x300 sheets Formats: A3, A4, A5, Ledger, Letter, Legal, Folio
	Multipurpose tray: (45-160 g/m2): 100 sheets Formats: A3, A4, A5, A6, Ledger, Letter, Legal, Folio, Custom (98x148 mm to 297x432 mm)
Maximum paper capacity	300 sheets x 4 cassettes + 100 sheets (MP tray)
Paper thickness from cassette	64-105 g/m2
Paper thickness from MP tray	45 - 160g/m2
Output paper capacity	250 sheets face down
Noise (ISO 7779/9296)	62db
Operation panel	B/W LCD screen 2 lines LCD 1801MF/2201MF - 5 lines 1801MFplus/2201MF
DIMENSIONS	
	565 X 527 X 485 mm (with platen)
Footprint	565 x 527 (MP tray closed)
	829 x 527 (MP tray open)
Weight	25 Kg. (27 Kg with platen)
PRINTER	
CPU	ARM v5 base core equivalent, 500 Mhz
Memory	standard 128 MB
Time to first copy	less than 5.7 sec.
Print speed	1801MF: max 18/8 pages per minute A3/A4 - 2201MF: max 22/10 pages per minute A3/A4
Resolution	600x600 dpi optical (up to 2400 dpi)
Emulations	standard GDI (USB I/F)
Operating Systems	All current Windows operating systems, MAC OS X version 10,2 or higher, UNIX, LINUX
Interfaces	USB 2.0
Print Features	Print Box feature up to 10 destinations

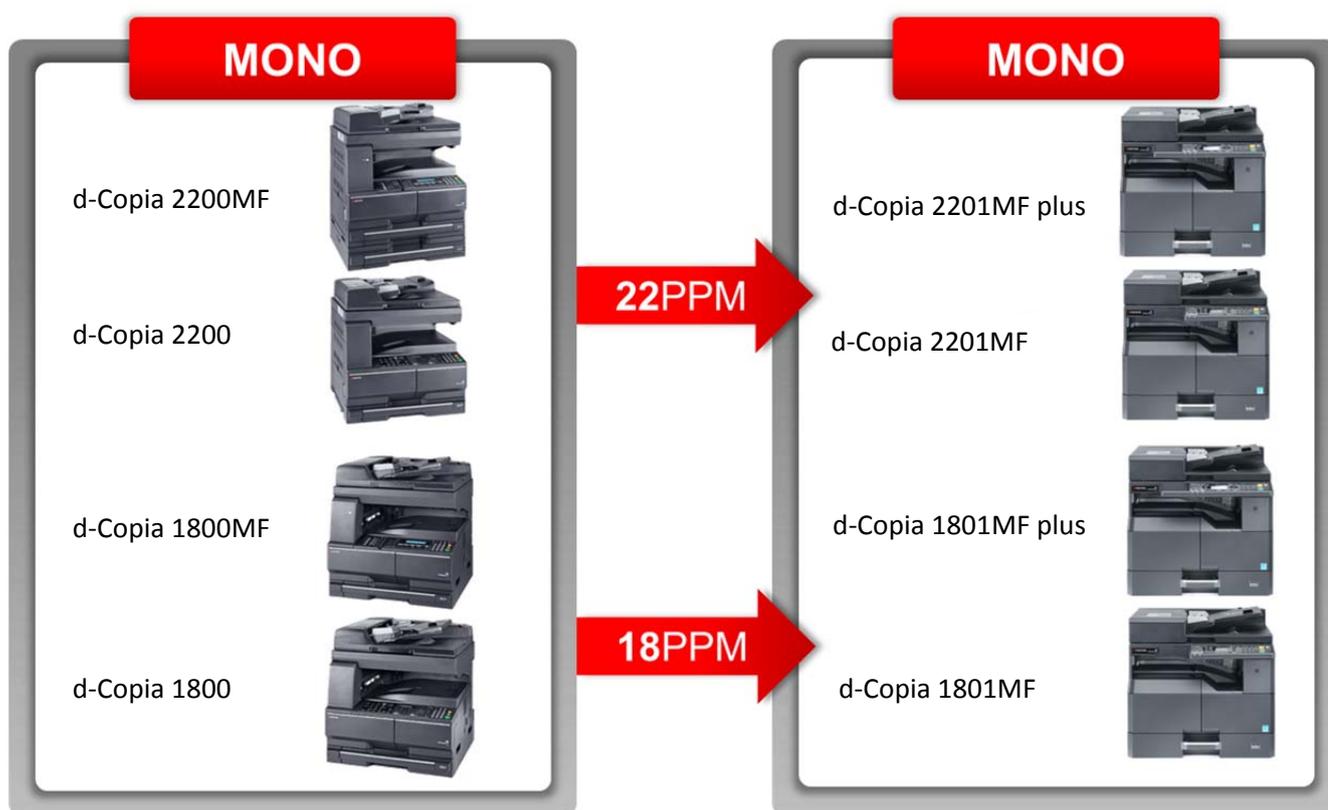

COPIER		
Time to first copy		less than 5.7 sec
Continuous copying		1-999
Resolution		600 x 600 dpi
Copy speed		22/18 cpm
Max original size		A3
Greyscales		256 levels
Zoom range		25-400 % (in 1% step)
Exposure mode		Auto, manual: 7 levels
Image adjustments		Text + photo, text, photo
Copy features		ID Card copy functionality
SCANNER		
Scan mode		Color/monochrome/TWAIN scanner
Scan speed (mono)		22 ipm (300 dpi)
Scan speed (color)		6 ipm (300 dpi)
Scan resolution (mono)		600 dpi / 400 dpi / 300 dpi / 200 dpi
Scan resolution (color)		300 dpi / 200 dpi
Original recognition		Text, photo, text + photo and OCR
Maximum scan size		A3
Image format		TIFF / Pdf
Interface		USB device High Speed : 1
Scan functionalities		TWAIN scan via USB I/F (with Quick Scan Utility)
Supported File Format		Bitmap (BMP); JPEG; PNG; TIF; PDF; High Compression PDF, CCITT Group 4, Image Mask; JBIG2, Mask + Image Mask
FAX (available option only d-Copia 1801MF plus and d-Copia 2201MF plus)		
Transmission mode		Super G3
Compression Methods		MH, MR, MMR
Transmission speed		33,6 ÷ 2,4 Kbps Automatic Fall back
Transmission time (min.)		4 seconds or less MMR
Network fax transmission		Network FAX driver, Reception protocol: RAW, LPR
OPTIONS		
Platen cover		Type H cover
DP-480		Document processor reversing original feeder 50 sheets, RADF
PF-480		Paper cassette 300 sheets/1 cassette, max. 3 optional cassettes
DU-480		Sheet duplex unit 50 sheets
FAX System (X)		Network Fax Board (1801MF/2201MF plus versions only)
IB-33		Wired Network (1801MF/2201MF plus versions only)
Cabinets		2 versions: low and high
CONSUMABLES		
Toner cartridge	1801/2201MF/plus	First equipment toner: approx. up to 3.000 pages
		Standard toner: approx. up to 15.000 pages
Maintenance kit	1801/2201MF/plus	up to 150.000 pages

PRODUCT POSITIONING

The new Olivetti d-Copia 1801MF/2201MF, 1801MF plus/2201MF plus are the successor devices of d-Copia 1800/2200 and d-Copia 1800MF/2200MF which were launched in June 2009. The new series is based on the high reliability and durability of the previous series, which played a successfully role in our portfolio and managed to satisfy both our dealers and large account customers.

Target of the basic products is to provide a competitive price, to maintain the market share of the d-Copia 1800/2200 in those market where sales have traditionally been strong and represent an appeal model for the growing markets, where the demand of products in this segment is still quite strong. And by adding more functionality to the advanced models, d-Copia 1801MF/2201MF plus, play a role in keeping our market share in Western European market.

Each of the devices has a direct successor and the printing speed is maintained. This means the:
d-Copia 1801MF/1801MF plus with 18 ppm will be launched in the segment: 1-20 ppm
d-Copia 2201MF/2201MF plus with 22 ppm will be launched in the segment: 21-30 ppm

A3 monochrome line up

With new d-Copia 1801_2201 MF/plus series Olivetti is completing its renewed monochrome line up

Monochrome A3 MFP 18 : 85 cpm

2 Sales Strategy

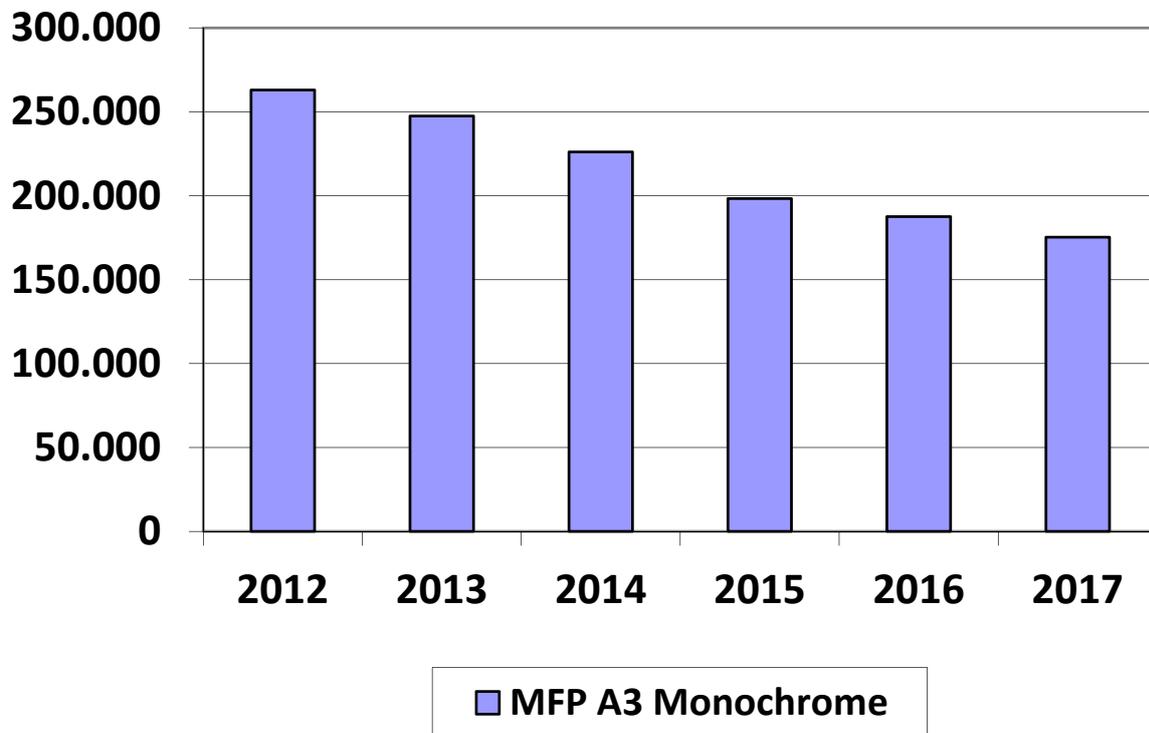

Target market

West Europe A3 Monochrome MFP Market

The forecast for the A3 monochrome MFP segment shows a declining trend during the next years, that become more evident by approaching the end of the period under consideration, see graph below.

The CAGR (Compund Annual Growth Rate) of this period is **-7,80%**.

Units

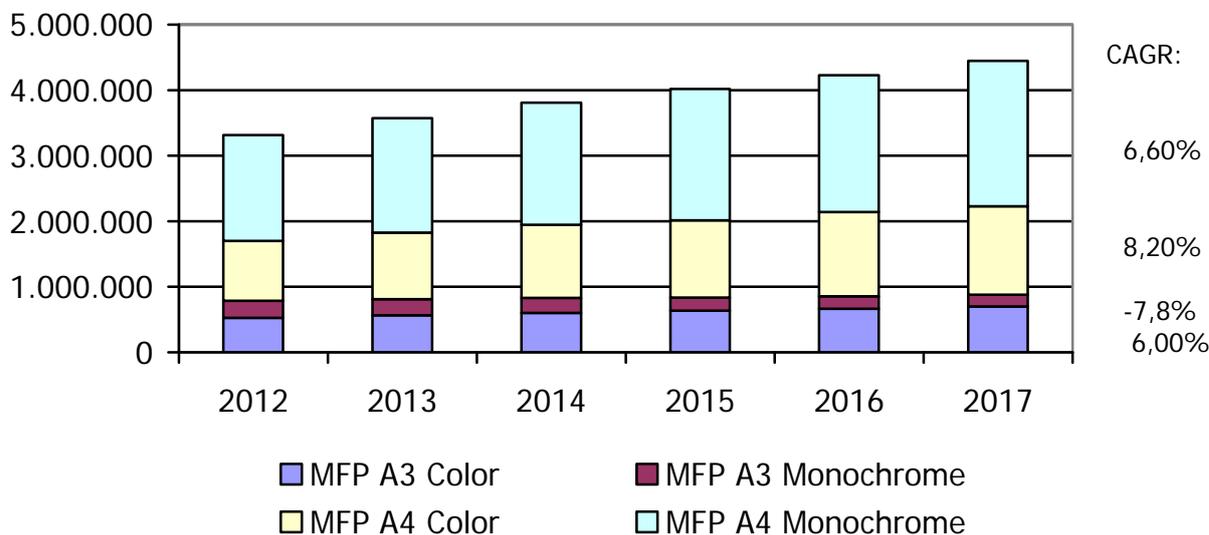

Source: Gartner

Sum of Units Shipment

Looking at the whole MFP market in Western Europe, the A3 monochrome MFP segment is the "thinner" among the others as far as the number of shipments is concerned, see following graph.

Units

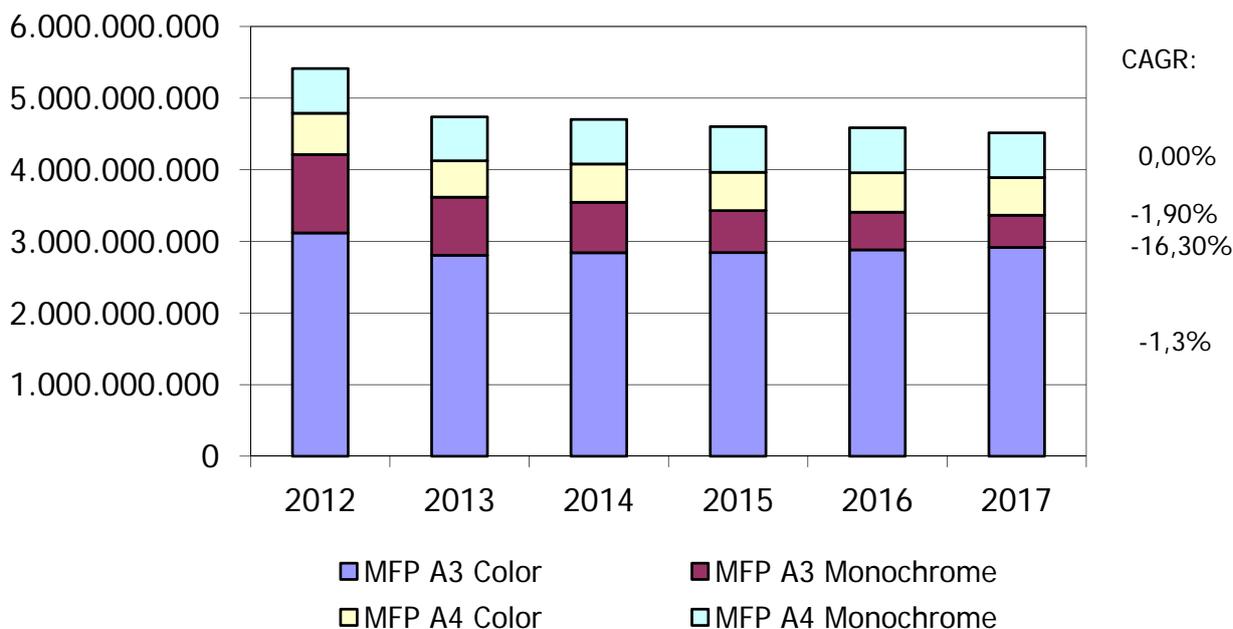

Source: Gartner

Sum of Users Spending

However, it must be noted that the A3 monochrome MFP remains one of the most appealing segments in terms of value, as a consequence of the high unit value. Moreover, this segment is very profitable in terms of return from consumables due to the high printing volumes that are produced.

Units

Source: Gartner

Middle-East & Africa A3 Monochrome MFP Market

In the Middle-East & Africa area the market is still forecasted to growth with a pace of **3,36%** from 2012 to 2016 (CAGR).

Source: Gartner

Eastern Europe A3 Monochrome MFP Market

In the Eastern European countries the A3 monochrome market is foreseen to follow the same kind of trend of the Western Europe but at slower pace, with a CAGR of **-2,89%** for the period under consideration.

Target Customers

d-Copia 1801MF / 2201MF (Basic products) target users:

d-Copia 1801MF / 2201MF represent the replacement models of d-Copia 1800/2200. Target customers are both current users of the series as well as new customers who are establishing new small medium businesses. The target office segments are:

- Small office, typically small businesses that require a shared copier device
- In price sensitive markets: Small to Medium sized companies or smaller departments inside larger organization that require shared copiers.

Based on d-Copia 1800/2200 models, d-Copia 1801MF / 2201MF continues to offer reliability (durability) with a machine that doesn't break easily and requires minimal care and maintenance from both dealer and user side.

At fast copy times and fast print speeds of 18 and 22 cpm/ppm, the d-Copia 1801MF / 2201MF save users time and will not keep them waiting, even when the devices are shared by many users with high printing volumes. It achieves the **class top first copy time of 5.7 sec**, so even when copying many small sets of single copies, the machine offers speedy output so that the user is not left waiting. In addition the duplex copy capability meets the demand of the corporate users to reduce the paper cost.

Thanks to the attractive and low initial machine cost, low TCS and competitive CPP through long-life technology, d-Copia 1801MF / 2201MF compete against competitors' models and meets requirements of both growing and mature markets.

d-Copia 1801MFplus / 2201MF plus (Advanced products)

Target users are:

- Within Small to Medium sized Enterprise or smaller departments inside larger organization which require a network purpose designed multifunctional device still keeping an eye on costs

d-Copia 1801MFplus / 2201MF plus are a replacement product for the d-Copia 1800MF and 2200MF. They target customers who want to consolidate all their office needs—including printing, copying, scanning and faxing—in a single MFP.

Based on d-Copia 1800MF/2200MF model, the new d-Copia 1801MFplus / 2201MF continue to offer reliability (durability) in a machine that does not break easily and requires minimal care and maintenance from both dealer and user side. High productivity is assured with fast copy and print speeds of 18 and 22 cpm/ppm.

Consolidating everything into a single MFP they offer the benefits of increasing office by reducing the number of devices. d-Copia 1800MFplus/2200MFplus are the most compact machines in their class. This is a strong point of appeal for potential customers who are considering consolidating all their needs into a single MFP. With the d-Copia 1800MFplus/2200MFplus, an easy-to-use MFP leads to improved productivity with a new GX DRIVER, offering improved operability and visibility.

The advanced products are addressing both growth and mature markets. They are targeted in particular for customer who need a network connectable device with fax option and who care about a correct price/functionality balance.

To meet the requested low price level all four products of the series are equipped with GDI printing capability.

Target distribution channels

The **d-Copia 1801MF, 2201MF, 1801MF^{plus} & 2201MF^{plus}** will be distributed in **Western Europe** through the **Dealers** and **Direct Sales** channels, and outside **Europe** through **Distributors**.

Products Launch

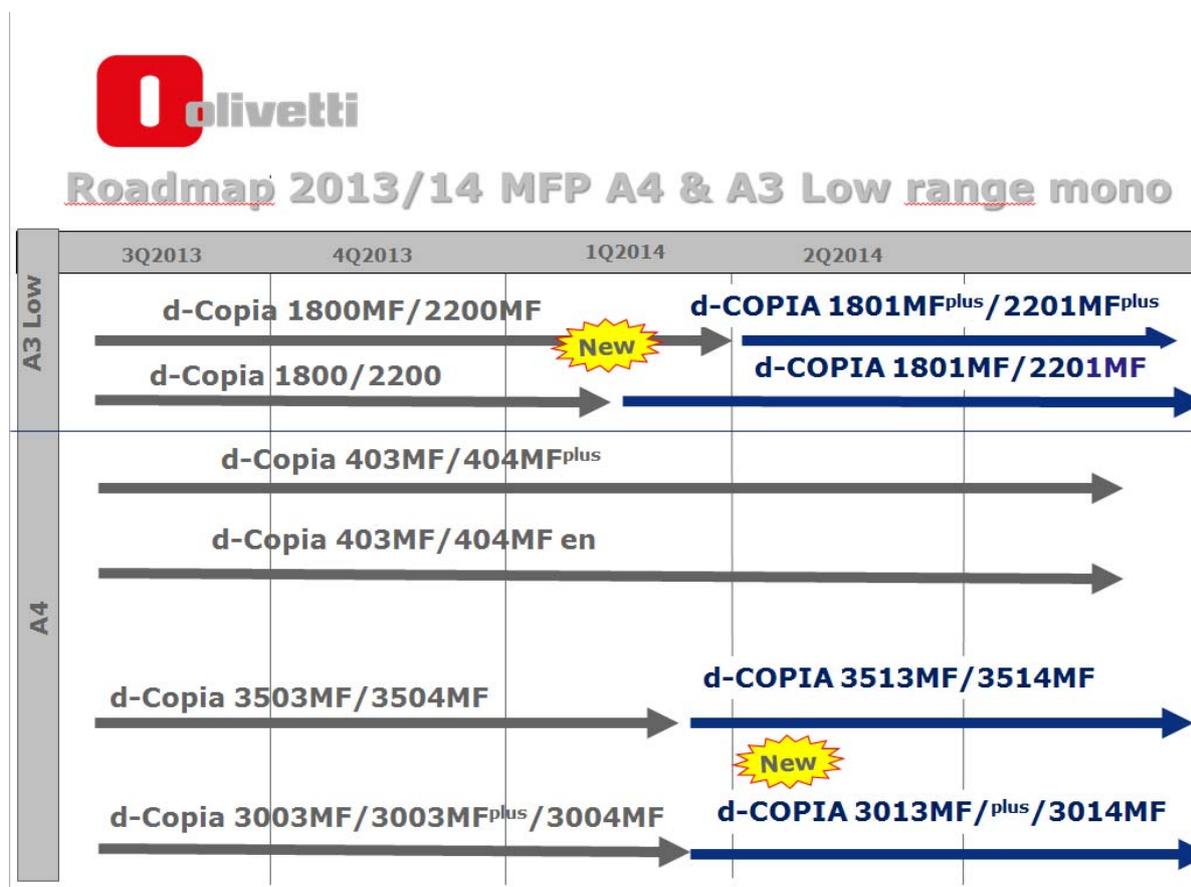

The **d-Copia 1801MF and 2201MF** are foreseen to be launched from early **February 2013** with a phase-in/phase out process with the predecessors models **d-Copia 1800 and d-Copia 2200**.

The **d-Copia 1801MF^{plus} 2201MF^{plus}** are foreseen to be launched from April 2013 onwards with a phase-in/phase out process with the predecessors models **d-Copia 1800MF and d-Copia 2200MF**.

The complete stock run-out of the existing models is the condition for the launch of the new models to take place.

Products Road Map

The picture that follows shows the 2013 Road Map for the low range A3 MFP range models.

3 Sales points

The new d-Copia 1801MF/2201MF/PLUS exceed most of the Competitors models in the same market segment thanks to the following characteristics:

Long life technology

d-Copia 1801MF/2201MF/PLUS series is equipped with Kyocera's renowned Long Life Technology. With its Long Life Drum of 150K these multifunctional devices provide unprecedented efficiency and reliability, reduces costs, downtime and waste and are environmental friendly.

This technology enables us to maximize device "uptime" and offer considerable savings for the user during the life of the MFP. With a monthly print volume of 2K, drum replacement is not required for 6 years.

The extreme hard drum surface is adding increased protection from paper friction to achieve a drum life of 150K.

Kyocera's technology realizes an extreme hard coated surface for durability, while the coating is thin enough to realize excellent photosensitivity. This drum technology is just one of the contributors to high printing quality with this new series

	Olivetti d-Copia 1801/2201/MF/plus	Xerox WC 5021	Konica Minolta bizhub 195	Ricoh MP 2001L	Canon iR 2320
Toner Yield	15K	9K	12K	9K	14.6K
Maintenance Cycle	150K	80K	55K	60K	58K

Compactness

Being entry level devices, compactness is one of the important aspects to consider, as space in office environments is always a pressing problem. This is especially the case for small and medium business users, who are the target customer of this series.

All four models of the 1801-2201 series have the same footprint of 565 x 527 mm, which is **up to 4% smaller** than previous 1800-2200 and **11% smaller than the 1800-2200MF** its predecessor series. With this size the device is only taking limited space while maintaining its functionality. Footprint is up to **35% smaller than competitor's**

MF models	Previous models	Xerox	Konica Minolta	Ricoh	Canon

Usability

With its new designed easy-to-use, multi-button control panel the d-Copia 1801MF 2201MF 1801MFplus 2201MF plus offer simple and quick access to a multiple document management functions. The important functions of the device have their dedicated hard-key on the control panel. The advantage for the end user is the control panel functions and settings which are definitely easy-to-find as they are not hidden in menus but visible and quickly accessible with one button press. Also features like Print Box and ID card copy have their own dedicated hard-keys for easier usage.

The control panel is equipped with an LCD user display – 2 lines in case of basic and 5 lines in case of advance models. The display is used for navigation through the menus for more advanced settings and also for display of operation instructions or error messages.

Control panel of d-Copia 1801MF / 2201MF

Control panel of d-Copia 1801MF plus / 2201MF plus

The left part of the advanced panel has a reserved space for the fax operation hard-keys in case the Fax Card is installed.

d-Copia 1801MF, 2201MF, 1801MFplus and 2201MFplus are the first models adopting the new color blind friendly key panel with the **"Aqua" color start key**, making the operator interface become more distinguishable and clear to manage for a color blind person.

Environmental friendliness

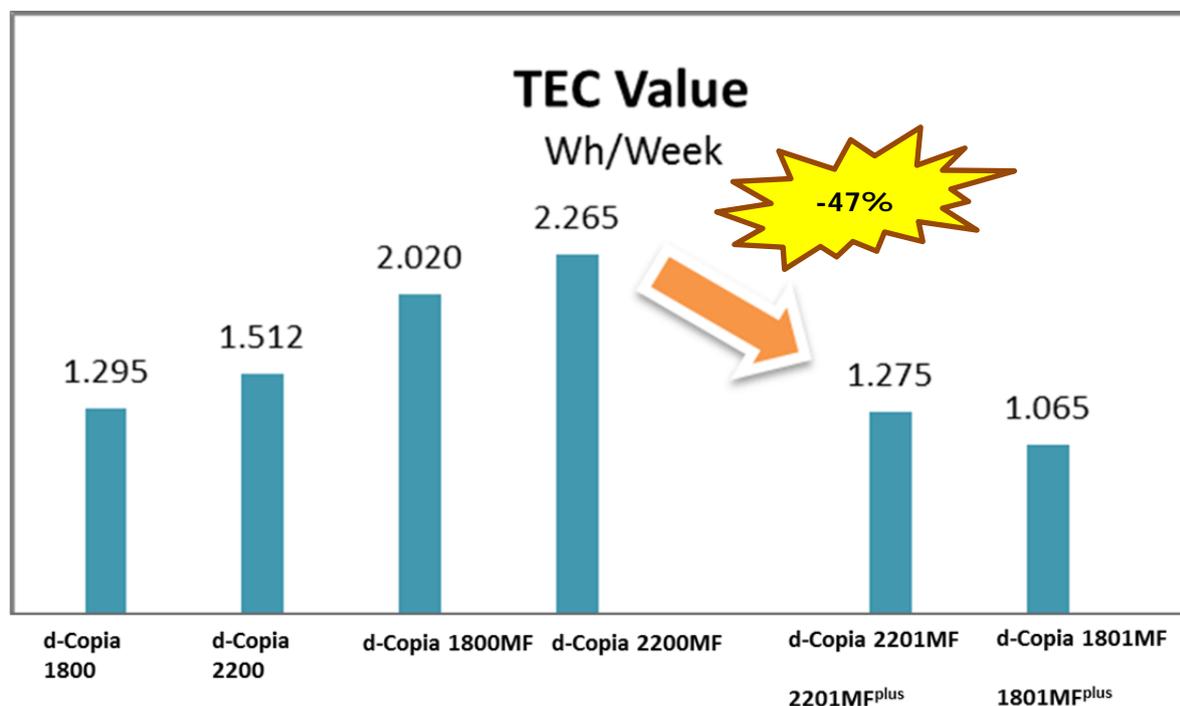

Energy Saving with up to 47% lower TEC values

To reduce environmental impact a totally new engine has been developed which makes this new A3 series much more energy-efficient than its predecessor.

The d-Copia 1801MF, 2201MF, 1801MFplus and 2201MFplus series has reduced TEC values on all models; the energy consumption is strongly reduced and the devices are compliant to the latest environmental international standards such as **Energy Start 2.0**, der **Blauer Engel 2014** based on **the 2012 RAL-UZ 171** measurement procedure.

TEC stands for Typical Electricity Consumption, and is a standard value used to compare different devices in terms of power consumption while using them typically.

Typical electricity consumption (Wh/week)

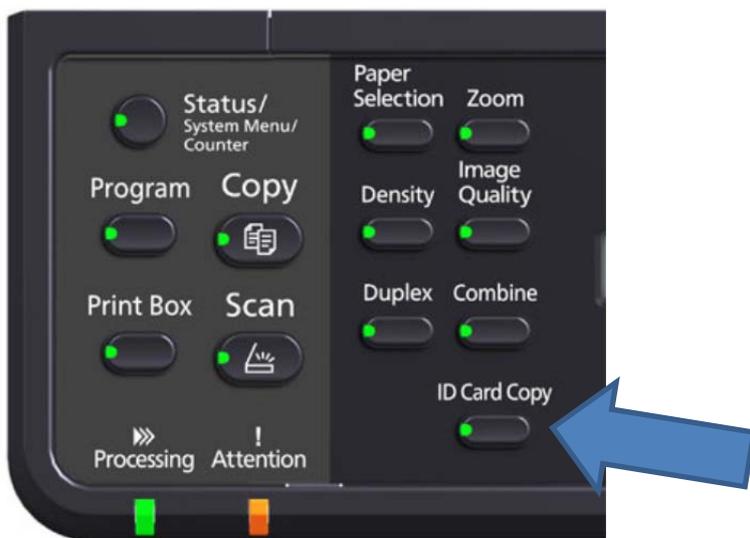

Wh / week	d-Copia 1800/1801MF	d-Copia 2200/2201MF	d-Copia 1800MF/1801MFplus	d-Copia 2200MF/2201MFplus
Current	1,295	1,512	2,020	2,265
New	1,065	1,275	1,065	1,275
Reduction	17%	15%	47%	43%

ID Card Copy Function

The ID Card Copy Function is a copy function for combining both sides of a proof of identification, drivers license or other type of identification card into one side of a sheet of paper. d-Copia 1801MF,2201MF and PLUS series has an ID Card Copy function. Compared to its predecessor, the new models have a hard key in the operation panel combined with a LCD dialog in the LCD screen, for more convenient operation compared to competitors.

In the previous models there was actually no dedicated ID card copy key, therefore the customer had to use a program key developing over 7 steps on the operation panel.

The improvement in d-Copia 1801/2201MF/plus series compared to its predecessors consists of having the ID Card Copy hard key for this function directly on the control panel. This makes it easier and faster to use and reduces miss-operation possibilities: ID card copy can be performed in just 4 steps!

Scan Productivity

For customers with document archiving needs the d-Copia 1801MF,2201MF and PLUS series offers fast class scanning performance with up to 22 ipm available with the optional reverse document processor DP-480.

Scanning is **standard** and it is in **colour**, which is a key difference versus the predecessor series.

The reverse document processor DP-480 has a capacity of 50 sheets and can scan paper media from A6R to A3 (Ledger) and weight from 45 to 105 gr. The maximum scanning speed is 22 images per minute.

Furthermore TWAIN scan is available over network (for advanced models when IB-33 installed). Network TWAIN scan is a feature which is usually available in higher segments. With it on-board the devices from the d-Copia 1801MF, 2201MF and PLUS series are perfect for shared office use.

Color Scan as Standard

Color scanning is standard for all four machines of the series. With scanning formats from A3 down to A5R from the document processor DP-480 the d-Copia 1801MF,2201MF and PLUS series covers a very wide range of all office documents.

Scanning is performed via TWAIN and WIA protocols. TWAIN scanning is also possible over network, in case of the advanced models with the IB-33 installed. In this way the scanning functionality of the device and also be shared among the users. This is important as document archiving is growing in volume and shared scanning is a trending requirement in the office environment.

Furthermore Scan to E-mail and Scan to Folder functions have been added for more scanning flexibility. Both functions have to be activated via the Control Panel.

Scan Speed Simplex		Monochrome		Color
		2 Values	Greyscale	
600dpi	USB	22ipm	-	-
	N/W (100Base)	22ipm	-	-
300dpi	USB	22ipm	6ipm	6ipm
	N/W (100Base)	22ipm	12.9ipm	4.3ipm

Scan Speed Duplex		Monochrome		Color
		2 Values	Greyscale	
600 dpi	USB	8ipm	-	-
	N/W (100Base)	8ipm	-	-
	N/W (10Base)	8ipm	-	-
300dpi	USB	8ipm	6ipm	6ipm
	N/W (100Base)	8ipm	6ipm	4.3ipm

GDI printing as standard

Printing is standard for all the four models of the d-Copia 1801/2201MF/PLUS series. It is performed via host based (GDI) technology. The main characteristic of host based printing is that all the processing is done on the PC side and the ready page is sent to the device only to be printed.

The advantage is particularly remarkable in case of complex data, where it is processed by the computing power of the PC, which is in most cases much faster than any MFP could process it. Printing is also available via network when the IB-33 interface is installed in the "PLUS" models.

Print Box function

The Print Box function prevents to mix printing jobs between users when sharing the device. The concept is the same as private print, however the difference is that in case of private print the job is physically saved on the MFP and in case of print box it is saved on user's PC.

The Print Box works in the following way. The user is first selecting print box function from the driver, when configuring the print job. Then, after starting the print job, the user has to press the Print Box button on the MFP control panel to start the printing process. Until the button on the MFP is not pressed the printing does not get started. In the meantime, the job is saved on the PC side, so no memory is occupied on the MFP side.

Print Box can be used by up to 10 different users on the basic models (d-Copia 1801MF/2201MF) and up to 30 on the advanced ones (d-Copia 1801MFplus/2201MFplus), who can print at the same time and call their print jobs at the MFP side when pressing the dedicated button on the MFP control panel.

Furthermore a password protection also can be used.

The advantage of Print Box is particularly evident when the device is shared and the print-jobs of the user are not mixed, unordered or incomplete. Also sensitive company material can be printed on this device as password protection is available.

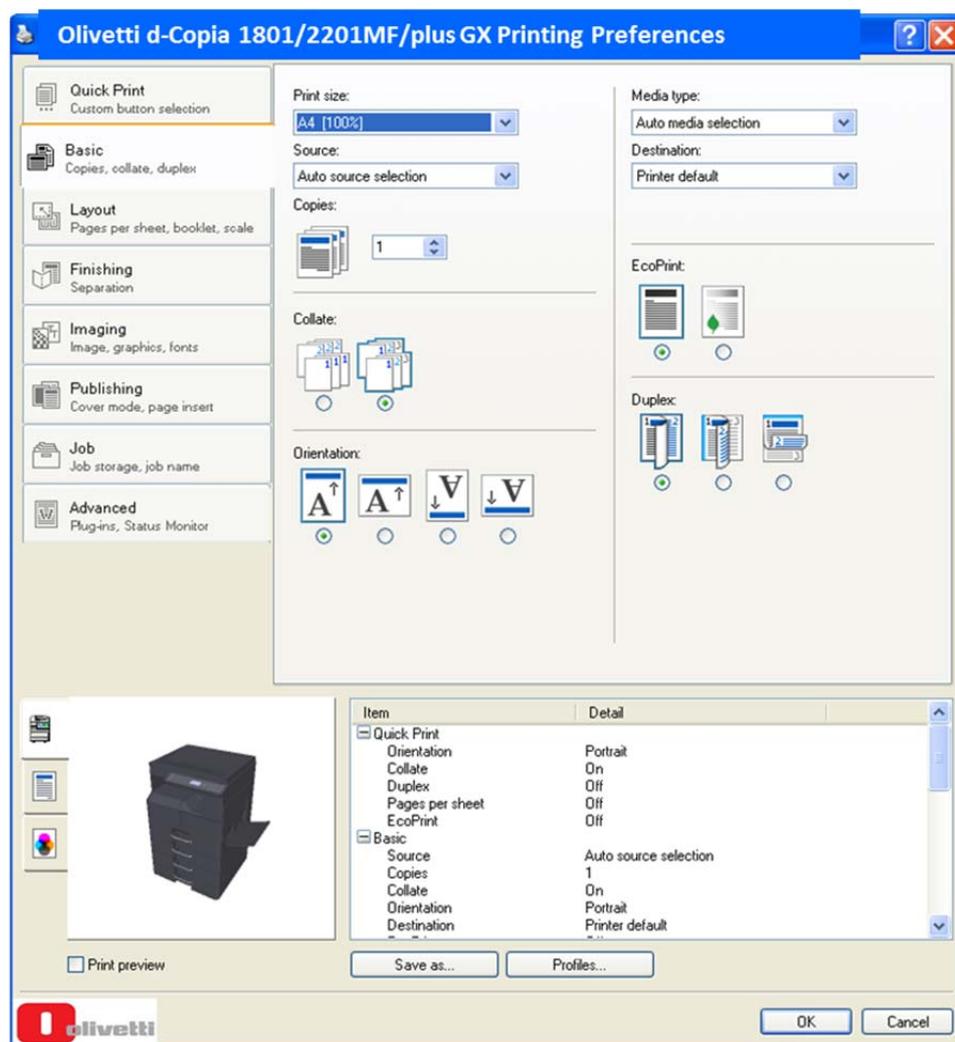

New GX DRIVER

The GX driver is designed especially for the GDI embedded models. The driver is a simple device interface which is processing the images directly on the user PC, without using printer emulations. By utilizing the full power of the PC it is possible to achieve high print speed without the need of a very powerful print controller.

The user is taking advantage by the processing power of the PC. The driver is sending the processed and ready to print image over the interface to the printer. In this way, no processing on the printer side is necessary.

The GX driver is simpler than the KX driver, however offering most of the basic settings and the same layout. More complex settings such as Private Print, Job Hold, Prolog / Epilog are not supported.

Large Paper capacity and Media flexibility

Additional paper cassettes give our multifunctional devices a paper supply of up to 1,300 sheets with up to 5 media types at the same time. So the customer saves time and effort when printing large print runs or has multiple print jobs which require different paper to be printed on.

	d-Copia 1801MF d-Copia 2201MF d-Copia 1801MF plus d-Copia 2201MF plus	PF-480
		
Paper Capacity	1 x 300 + 100-sheet	3 x 300 sheet
Max.Paper Size	Cassette: A3 MPT: A3	A3
Paper Weight	Cassette: 64-105 g/m ² MPT: 45-160 g/m ²	64-105 g/m ²

Maximize the media capacity by combining unit enhancements

400 sheets standard

1,300 sheets with 3x PF-480

Grip of the cassette

The grip of the cassette is also designed with usability in mind. The user has a handle to grasp the cassette and pull it out when adding new paper.

The advantage of the full hand grip is the user applies much less strength to pull out the cassette, instead if he had only a few fingers as it is with most of the competitor paper cassettes.

The grip is particularly useful, when the cassette is at the bottom and is even harder to reach and pull open. Maybe small, still very efficient details!

Olivetti d-Copia 1801/2201MF/PLUS

Xerox WC 5019

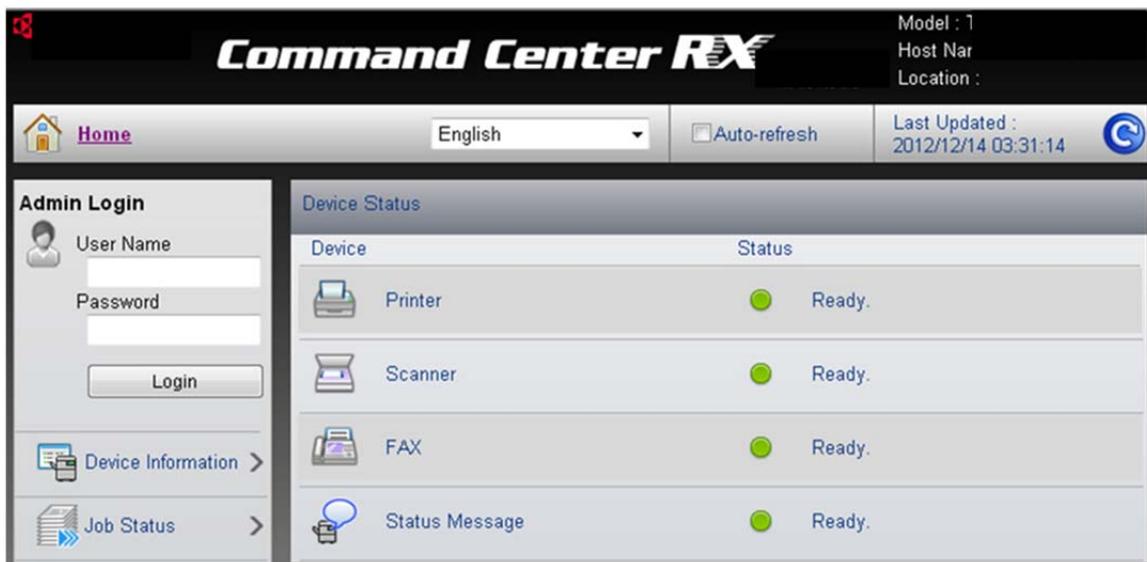

Multi access function

Individual job data for print, copy, scan or fax (in "PLUS" models) can now be processed in parallel, which results in shortening the overall processing time. Furthermore, it is possible to pause the current print job, even while actually printing to give priority for more urgent print jobs. This creates efficient workflows with short waiting time.

New programmed Command Center RX

The Command Center RX was completely new programmed from scratch to make sure to meet the requirements of an up to date solution device. For example the administrator can setup the d-Copia 1801/2201MF/PLUS devices completely via network.

Also improved is the auto refreshing panel indication in order to keep users and administrators always up to date regarding the device status. It provides information on device status e.g. toner levels, paper availability and further more to all users when required.

Controller

Utilizing the new controller ARM v5 base core equivalent, 500 MHz, the 1800/1801/2200/2201MF7PLUS series achieves high speed image processing and operating.

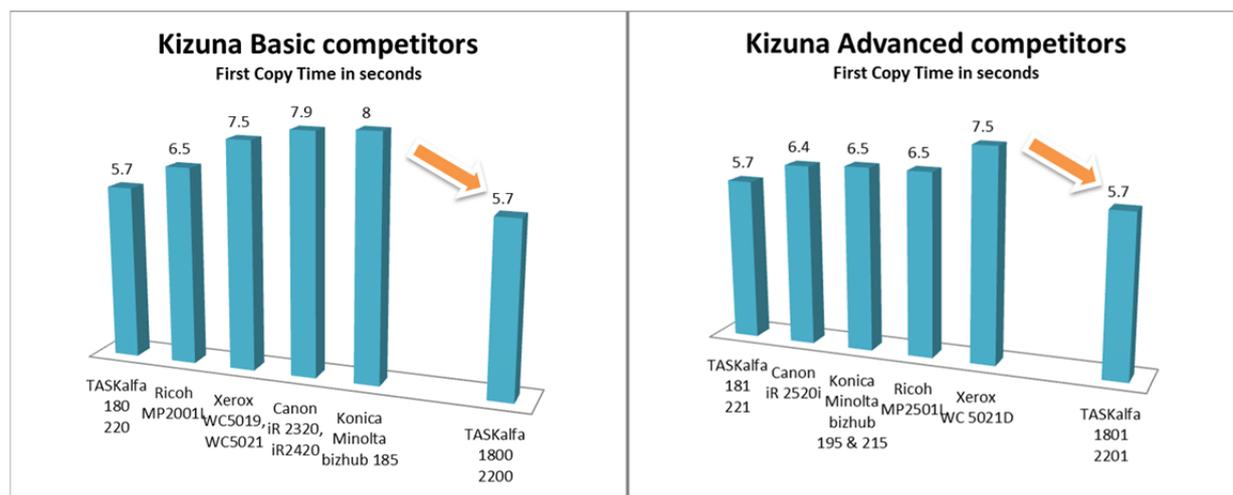

The new devices increase productivity compared to predecessors as the **RAM memory** is increased from **32MB** to **256MB** and the **CPU speed** increased from **150MHz** to **500MHz** in the basic version.

This results in faster job processing and lower power consumption.

First Print time

With a speedy first Print Time of only **5.7 seconds** the d-Copia 1801/2201 MF/plus series maintains the fast first print time of the predecessors and the lowest first copy time in its range.

Duplex Productivity

With the optional DU-480 in the d-Copia 1801/2201 MF/plus series duplex printing can be performed.

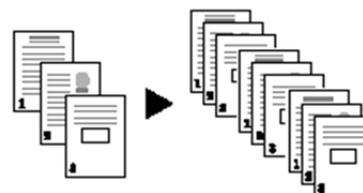

With a wide range of A3 to A5R and duplex productivity of up to 60.6% the d-Copia 1801MF plus and 2201MF plus advanced models can fulfil the performance requirements even of the most demanding office environments.

Scan-once-print-many

With Scan-Once-Print-Many, originals are scanned only once, converted to digital images and then reproduced in up to 999 sets.

Rotation sort

Multiple originals can be scanned into memory in a single operation, and then the required number of copy sets can be created. The result is each set is already sorted by page number, and this saves time as it does not have to be done manually by the user.

Layout mode

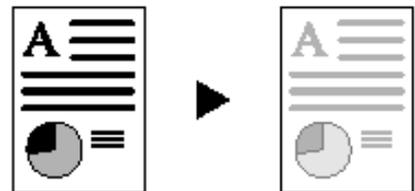

With this mode, the images from either 2 or 4 originals can be reduced and then combined onto a single copy.

Duplex copying

Copies of both sizes can be made from spread originals, and double-sided printing also helps to reduce cost.

EcoPrint Mode

d-Copia 1801/2201 MF/plus series uses **EcoPrint mode**, which is designed to save toner consumption. In EcoPrint mode, toner consumption is reduced by approximately 30% while maintaining an output quality more than sufficient for normal daily copying.

EcoPrint mode is very effective for reducing toner consumption, when copying in-house documents or drafts that have a high coverage ratio.

Mode Program Key

d-Copia 1801/2201MF can register 4 and d-Copia 1801/2201MF PLUS can register 10 simple copy job settings, such as mixed inch/metric copying, duplex copying and rotate sort.

4. d-Copia 1801/2201MF vs 1801/2201MFplus specifications and configuration

The table that follows compares main specifications and possible configurations of the MF basic models d-Copia 1801MF / 2201MF versus the MF PLUS versions, 1801MFplus / 2201MFplus

Print / Copy function		d-Copia 1801MF	d-Copia 1801MF plus	d-Copia 2201MF	d-Copia 2201MF plus
Type		Desktop			
Copy speed (A4/A3 monochrome)		18 ppm		22 ppm	
Warm up time		17.2 seconds			
Print speed		18 ppm		22 ppm	
First print time A4		5.7 seconds or less			
Resolution		Multi-bit technology for print quality of 600 dpi x 600dpi			
Emulation		Hostbased (GDI)			
Paper feed		Type (standard)			
Paper feed Resolution	Capacity (standard)		1 drawer + multipurpose tray		
	Capacity (max)		(80 g/m ²) 1 x 300 sheets + 100 sheets

Send method		PC, Email, TWAIN, WIA Scan			

FAX function: Fax System(X)	Option only for advanced models: d-Copia 1801MF plus / 2201MF plus
Transmission mode	Super G3
Compression method	MH, MR, MMR, JBIG
Network FAX function	Standard
Internet FAX function	Not available

Platen Cover type E	Option for all models 1801MF/2201MF/PLUS
---------------------	---

DP-480	Option for all models 1801MF/2201MF/PLUS
Original size	A3 max., A5-R min.
Type	Reverse type Document Processor
Capacity	Stack capacity 50-sheet A4 size 50÷80 g/m ²
Paper weight	45÷160 g/m ² simplex, 50÷120 g/m ² duplex
Original size	A3 max., A5-R min.

Duplex Unit: DU-480	Option for all models 1801MF/2201MF/PLUS
Paper Size	A5R – A3
Paper thickness	64 to 105 g/m ²
Paper capacity	50 (80 g/m ²)
Size (W x D x H)	375 x 60 x 220 mm
Weight	1 kg

Paper Feeder: PF-480	Option for all models 1801MF/2201MF/PLUS
Paper Size	A5R – A3
Paper thickness	64 to 105 g/m ²
Paper capacity	300 (80 g/m ²)
Size (W x D x H)	565 x 520 x 148.5 mm
Weight	6 kg

IB-33	Option only for advanced models: d-Copia 1801MF plus / 2201MF plus
Board for connection of the devices to LAN point	

CONSUMABLES	d-Copia 1801MF/2201MF & 1801MFplus/2201MFplus
Toner cartridge 1801/2201MF/plus	First equipment toner: up to 3.000 pages approximately
	Standard toner: up to 15.000 pages approximately (packaging includes 2 waste toner boxes) with 6% coverage
Maintenance kit 1801/2201MF/plus	Up to 150.000 pages, including drum unit, development unit, fixing unit and separation belt unit

CABINETS	d-Copia 1801MF/2201MF & 1801MFplus/2201MFplus
Copystand low	Size: 570 x 490 x 340 mm
Copystand high	Size: 570 x 490 x 550 mm

4.1 d-Copia 1801MF/2201MF v/s d-Copia1800/2200

The table that follows compare the characteristics of the d-Copia 1801MF/2201MF with its predecessor models

		d-Copia 1801MF / 2201MF	d-Copia 1800 / 2200
Print Speed (A4, Mono)		18/22 cpm	18/22 cpm

Package of basic units

Contents

The basic unit is delivered in a carton box containing the following items:

- Basic unit d-Copia 1801MF/2201MF/1801MFplus/2201MFplus are equipped with starter cartridge toner (3.000 prints), drum (full capacity 150,000 prints) and waste toner box;
- European power cord;
- Control panel labels in 8 languages (Italian, English, German, Dutch, French, Spanish, Portuguese, Russian);
- Product Library & User Documentation DVD (see contents detail in the next page);
- Printed documents:
 - Quick Guide Multilanguage
 - Safety Sheet Multilanguage;
 - Toner Cartridge & Waste Toner Box Installation Guide Multilanguage

What does it take to set a minimum operative configuration ?

The table below lists the items that are necessary to obtain the minimum operative conditions

BASIC UNITS	RANDOM CODE
d-Copia 1801MF	B4538

6 Promotional material

The following promotional material for **d-Copia 1801MF** and **2201MF** will be available:

- 1) **Brochure (Italian)** Code: 29138-00 Availability: February 2014;
- 2) **Brochure (English)** Code: 29140-00 Availability: February 2014;

The Olivetti web site (www.olivetti.com) will be updated in February 2014 with all information regarding the new devices, including their high-resolution photos.

The promotional material for **d-Copia 1801MFplus** and **2201MFplus** will be available coherently with commercial launch of the products expected in April 2014.

8 Quality Approvals

d-Copia 1801MF – 2201MF – 1801MFplus – 2201MFplus bear the following marks:

- CE Mark (see copy of the CE declaration in Annexes A, B and C)
- GS TUV Rheinland Safety Mark
- Energy Star 2.0 - 2013

They are also compliant with both RoHS and WEEE

Annex A: CE Declaration (1801MF/2201MF)

N° 13-112

DICHIARAZIONE CE DI CONFORMITA' del COSTRUTTORE secondo ISO/IEC 17050
 MANUFACTURER'S CE DECLARATION of CONFORMITY according to ISO/IEC 17050

OLIVETTI S.p.A Via Jervis, 77 - IVREA (TO) - ITALY

Dichiara sotto la sua responsabilita' che i prodotti:

Declares under its sole responsibility that the products:

Categoria generale:	Apparecchiature per la Tecnologia dell'Informazione
Equipment category:	Information Technology Equipment
Tipo di apparecchiatura:	Stampante Multifunzionale
Product type:	Multifunctional Printer
Nome / model:	d-Copia 1801MF, d-Copia 2201MF
Opzioni / options:	PF-480, DP-480, DU-480

soddisfano i requisiti essenziali di Compatibilita' Elettromagnetica, Consumo Energetico e Sicurezza previsti dalle Direttive:

fulfill the essential requirements of Electromagnetic Compatibility, Electrical Power Consumption and Electrical Safety as prescribed by the Directives:

2004/108/CE del 15 Dicembre 2004; (EMC)
 2004/108/EC dated 15th December 2004;
 2009/125/CE del 21 Ottobre 2009; (ErP)
 2009/125/EC dated 21st October 2009;
 2006/95/CE del 12 Dicembre 2006; (LVD)
 2006/95/EC dated 12th December 2006;

in quanto progettati e costruiti in conformita' alle seguenti Norme Armonizzate:

since designed and manufactured in compliance with the following European Harmonized Standards:

EN 55022:2010 (Limits and methods of measurements of radio interference characteristics of Information Technology Equipment) / Class B
 EN 55024:2010 (Electromagnetic Compatibility – Information technology equipment – Immunity characteristics – Limits and methods of measurement)
 EN 61000-3-2:2006 + A1:2009 + A2:2009 (Electromagnetic Compatibility (EMC) - Part 3: Limits - Section 2: Limits for harmonic current emissions (equipment input current ≤ 16 A per phase)
 EN 61000-3-3:2008 (Electromagnetic Compatibility (EMC) - Part 3: Limits - Section 3: Limitation of voltage fluctuations and flicker in low voltage supply systems for equipment with rated current up to and including 16A)
 EN 60950-1:2006 + A11:2009 + A1:2010 + A12:2011 (Safety of Information Technology Equipment, including electrical business equipment)
 EN 60825-1:2007 (Radiation Safety of laser products, equipment classification, requirements and user's guide)
 EN 62311:2008 (Assessment of electronic and electrical equipment related to human exposure restrictions for electromagnetic fields (0 Hz - 300 GHz))
 EN 62301:2005 (Household electrical appliances – Measurement of standby power)

La conformita' ai suddetti requisiti essenziali viene attestata mediante l'apposizione della Marcatura CE sul prodotto.

Compliance with the above mentioned essential requirements is shown by affixing the CE marking on the product.

Ivrea, 05 Settembre 2013
 Ivrea, 05th September 2013

Quality Director
 Olivetti S.p.A.

Note: 1) La Marcatura CE è stata apposta nel 2013

Notes: 1) CE Marking has been affixed in 2013

2) Il Sistema della Qualità è conforme alle norme serie UNI EN ISO 9000.

Annex B: CE Declaration (1801MFplus/2201MFplus)

N° 14-101

DICHIARAZIONE CE DI CONFORMITA' del **COSTRUTTORE** secondo ISO/IEC 17050
MANUFACTURER'S CE DECLARATION of CONFORMITY according to ISO/IEC 17050

OLIVETTI S.p.A Via Jervis, 77 - IVREA (TO) - ITALY

Dichiara sotto la sua responsabilita' che i prodotti:
Declares under its sole responsibility that the products:

Categoria generale:	Apparecchiature per la Tecnologia dell'Informazione
<i>Equipment category:</i>	<i>Information Technology Equipment</i>
Tipo di apparecchiatura:	Stampante Multifunzionale
<i>Product type:</i>	<i>Multifunctional Printer</i>
Nome / model:	d-Copia 1801MF plus, d-Copia 2201MF plus
Opzioni / options:	PF-480, DP-480, DU-480, IB-33, FAX System (X)

sono **CONFORMI** alla **Direttiva 1999/5/CE del 9 marzo 1999**
are in compliance with directive 99/5/EC dated 9th march 1999

e soddisfano i requisiti essenziali di **Compatibilità Elettromagnetica, Consumo Energetico e Sicurezza** previsti dalle Direttive:
and fulfill the essential requirements of Electromagnetic Compatibility, Electrical Power Consumption and Electrical Safety as prescribed by the Directives:

- 2004/108/CE del 15 Dicembre 2004; (EMC)**
2004/108/EC dated 15th December 2004;
- 2009/125/CE del 21 Ottobre 2009; (ErP)**
2009/125/EC dated 21st October 2009;
- 2006/95/CE del 12 Dicembre 2006; (LVD)**
2006/95/EC dated 12th December 2006;

in quanto progettati e costruiti in conformità alle seguenti Norme Armonizzate:
since designed and manufactured in compliance with the following European Harmonized Standards:

- EN 55022:2010** (Limits and methods of measurements of radio interference characteristics of Information Technology Equipment) / Class B;
- EN 61000-3-2:2006+ A1:2009+ A2:2009** (Electromagnetic Compatibility (EMC) - Part 3: Limits - Section 2: Limits for harmonic current emissions (equipment input current ≤ 16 A per phase)
- EN 61000-3-3:2008** (Electromagnetic Compatibility (EMC) - Part 3: Limits - Section 3: Limitation of voltage fluctuations and flicker in low voltage supply systems for equipment with rated current up to and including 16A);
- EN 55024:2010** (Electromagnetic Compatibility – Information technology equipment – Immunity characteristics – Limits and methods of measurement);
- EN 60950-1:2006+ A11:2009+ A1:2010+ A12:2011** (Safety of Information Technology Equipment, including electrical business equipment.)
- EN 60825-1:2007** (Radiation Safety of laser products, equipment classification, requirements and user's guide).
- ETSI TBR 21/1998** - Requirements for pan-European approval for connection to the analogue Public Switched Telephone Networks (PSTN) of TE (excluding TE supporting the voice telephony service) in which network addressing, if provided, is by means of Dual Tone Multi Frequency (DTMF) signaling.
- EN 62311: 2008** (Assessment of electronic and electrical equipment related to human exposure restrictions for electromagnetic fields)
- EN 62301:2005** (Household electrical appliances – Measurement of standby power)

La conformità ai suddetti requisiti essenziali viene attestata mediante l'apposizione della **Marcatura CE** sul prodotto.
Compliance with the above mentioned essential requirements is shown by affixing the CE marking on the product.

Ivrea, 09 Gennaio 2014
Ivrea, 09th January 2014

Walter Fantani
 Quality Director
 Olivetti S.p.A.

- Note: 1) La Marcatura CE è stata apposta nel 2014
Notes: 1) CE Marking has been affixed in 2014
 2) Il Sistema della Qualità è conforme alle norme serie UNI EN ISO 9000.
 2) *The Quality System is in compliance with the UNI EN ISO 9000 series of Standards*

Olivetti S.p.A. – Società con unico azionista, Gruppo Telecom Italia - Direzione e coordinamento di Telecom Italia S.p.A.

Annex C: Declaración CE de Conformidad

DECLARACIÓN CE DE CONFORMIDAD (EN45014)

OLIVETTI ESPAÑA S.A., con domicilio en Barcelona, calle Aragón 390, con N.I.F. A-59.555.839 y actuando en su nombre y representación, como apoderada D^a María Fernanda Ferrer Da Pena, provista de D.N.I. nº 46.531.372 A

DECLARA

Que los productos, fabricados en China:

Categoría general: **Tecnología de la Información**
Tipo de aparatos: **Impresora multifuncional**
Nombre de modelo : **d-Copia 1801MF plus, d-Copia 2201MF plus**
Opciones: **PF-480, DP-480, DU-480, IB-33, FAX System(X)**

Son CONFORMES a la Directiva 1999/5/CE de 9 de marzo de 1999

y cumplen los requisitos esenciales de Compatibilidad Electromagnética y de Seguridad previstos en las Directivas:

2004/108/CE de 15 de Diciembre 2004; (EMC)
2009/125/CE de 21 de Octubre 2009; (ErP)
2006/95/CE de 12 de Diciembre 2006; (LVD)

por haber sido proyectados y construidos en conformidad a las siguientes Normas Armonizadas:

EN 55022:2010 (Limits and methods of measurements of radio interference characteristics of Information Technology Equipment) / Class B;
EN 61000-3-2:2006+A1:2009+A2:2009 (Electromagnetic Compatibility (EMC) - Part 3 : limits-Section 2 : Limits for harmonic current emissions (equipment input current ≤ 16 A per phase);
EN 61000-3-3:2008 (Electromagnetic Compatibility (EMC) - Part 3 : Limits - Section 3 : Limitation of voltage fluctuations and flicker in low voltage supply systems for equipment with rated current up to and including 16A);
EN 55024:2010 (Electromagnetic Compatibility - Information technology equipment Immunity characteristics - Limits and methods of measurement);
EN 60950-1:2006+A11:2009+A1:2010+A12:2011 (Safety of Information Technology Equipment, including electrical business equipment).
EN 60825-1:2007 (Radiation Safety of laser products, equipment classification requirements ad user's guide)
ETSI TBR 21:1998 - Requirements for pan-European approval for connection to the analogue Public Switched Telephone Networks (PSTN) of TE(excluding TE supporting the voice telephony service) in wich network addressing, if provided, is by means of Dual Tone Multi Frequency (DTMF) signaling.
EN 62311:2008 (assessment of electronic and electrical equipment related to human exposure restrictions for electromagnetic fields)
EN 62301:2005 (Household electrical appliances- Measurement of standby power)

La conformidad a los requisitos esenciales es atestiguada mediante la Marca CE incorporada en 2014 al producto. El Sistema de la Calidad de la producción es conforme a las normas UNE EN ISO 9000.

Las funcionalidades disponibles en los aparatos son las indicadas en el Manual de Usuario, facilitado con los mismos.

Firma y Sello

Annex D: Selling Against d-Copia 1801MF/2201MF

The main characteristics of the new d-Copia 1801MF and 2201MF are compared with those of the main competitors models in the tables that follows.

Each table compares our models with a competitor model with the same, or the closest speed for copying/printing.

Comparison of d-Copia 1801MFplus and 2201MFplus will be available coherently with the launch of the products expected in April 2014.

Digital Laser MFP line - d-Copia1801/2201MF - d-Copia1801/2201/MF^{plus}
