Warranty, registration and support

Warranty

- Promethean is confident in its product quality and to support this, offers an exceptional warranty for its parts and materials to be free of defects from date of installation (when registered). To view warranty information for your region, visit https://www.prometheanworld.com/activcare
- The installation of this product should be completed by a Promethean trained installer or other qualified installer. Promethean cannot warrant any fault occurring due to improper installation.
- This product is designed and manufactured to operate within defined design limits.
- Use of components not supplied by Promethean or not meeting minimum specifications may impact performance and affect the warranty.

Registration

- To ensure you maximize the standard warranty offered or if you have purchased an enhanced warranty and need to activate it, please register the product within 90 days of installation at: http://registration.prometheanworld.com

Support

- If your Promethean product suffers a fault, please visit our Support Portal for initial troubleshooting: https://support.prometheanworld.com
- If the troubleshooting does not correct the fault, please contact Promethean Technical Customer Support via our Support Portal: https://support.prometheanworld.com/contact

Troubleshooting

ActivPanel

If your ActivPanel is not operating correctly, please check the following table before contacting Technical Customer Support.

Problems	Solutions
No sound	• Try increasing the volume of the speaker. • Check that the ActivPanel is not turned off. • Check the ActivPanel volume level. • Make sure the correct input is selected. • Make sure the correct cables are properly connected.
Remote Control does not work	• Make sure the batteries are correctly inserted. • Take the batteries out and clean the terminals in the remote and the ends of the batteries. • If reinserting the battery has no effect, please replace the battery.
No power	• Make sure the AC power cable is securely connected to a power outlet. • Make sure the AC socket is properly connected. • Try another electrical device on the power outlet to ensure that there is an electrical current.

ActivSoundBar

This product is an optional accessory.

If your ActivSoundBar is not operating correctly, please check the following table before contacting Technical Support.

Problems	Solutions
No sound	• Try increasing the volume of the speaker. • Check that the ActivSoundBar is not turned off. • Check the ActivSoundBar volume level. • Make sure the correct input is selected. • Make sure the correct cables are properly connected.
Remote Control does not work	• Make sure the battery is correctly inserted. • Take the battery out, press the buttons once or twice, then reinsert the battery and try again. • If reinserting the battery has no effect, please replace the battery.
No power	• Make sure the AC power cable is securely connected to a power outlet. • Make sure the AC power cord is securely connected to the power connector. • Try another electrical device on the power outlet to ensure that there is an electrical current.
Speaker emits buzzing or humming sound	• Make sure both ends of the audio cable are properly connected. • Test the sound bar with another audio cable. • Test the sound bar with another audio device.
