

# Sustainability in your course

## What is sustainability?

Sustainability focuses on meeting the needs of the present without compromising the ability of future generations to meet their needs. The concept of sustainability is composed of three pillars: economic, environmental, and social. The University of Leicester incorporates sustainability into our courses through both core and optional modules.

Above: Highlighted [Sustainable Development Goals \(SDGs\)](#) available in your course

SDGs		12	13, 15	12	3, 12, 15	12	9, 12, 13	13	6
Core	Optional	GL1104	GY2420	GL2106	GL3102	GL3113	GL4106	GL4111	GY3435
<b>Geology Degrees</b>		Natural Resources and the Environment	Climate Change: Impacts, Vulnerability and Adaptation	Introductory Mineral Deposits	Environmental Geoscience	Applied Geology Field Course	Anthropogenic Impact on the Urban Environment	Methods and Modelling in Palaeo-climatology	Water Quality Processes and Management
Geology BSc							N/A	N/A	
Applied and Environmental Geology BSc							N/A	N/A	
Geology with Geophysics BSc				N/A		N/A	N/A	N/A	
Geology with Paleontology BSc				N/A		N/A	N/A	N/A	
Geology MGeol									
Applied and Environmental Geology MGeol									
Geology with Geophysics MGeol				N/A		N/A			
Geology with Palaeontology				N/A		N/A			
Geology with Foundation Year			N/A				N/A		N/A
