The Laparoscopic Kit Solution

Your Theatre Your Choice

FROM THE UK'S LEADING MANUFACTURER OF LAPAROSCOPIC INSTRUMENTS AND DEVICES

Purple Surgical is a leading independent British manufacturer of high quality, cost-effective single-use surgical instrumentation and devices, partnering with global healthcare providers for positive patient outcomes.

We aim to enhance surgical efficiency and effectiveness and are a trusted partner to clinical teams across the UK and around the world.

Setting a new standard in best practice

A recent UK report ⁽¹⁾ on productivity and performance in healthcare, recommends the establishment of a set of best practice standards.

Other recommendations include the need to address product rationalisation in order to reduce variation, improve quality outcomes and increase efficiencies and productivity throughout the patient pathway.

Our portfolio of in-stock and fully customisable laparoscopic procedure kits and trays have been designed to support healthcare professionals to reduce clinical variation and improve efficiencies and productivity.

Ref 1: Lord Carter (2016) Operational productivity and performance in English NHS acute hospitals: Unwarranted variations, Online: Department of Health.

Our Solution Your Choice

"We have always received excellent service from Purple Surgical. Service with a smile and superb product knowledge."

*Paul Etherington,
Clinical Services Manager*

STAGE 1: TRIAL YOUR PRODUCTS

Decide on the right instruments and devices for you by trialling components from our extensive range of individually sterile-packed items.

STAGE 2: BREATHER BAG

Your chosen products for any given procedure can then be combined into one pack while remaining in individually sterile packaging, allowing us to audit your usage and eliminate waste.

STAGE 3: PURPLE PLATFORM & TRAY

The Purple Platform & Tray can be customised to include any product of your choice to provide a complete laparoscopic procedural solution.

The Purple Surgical Laparoscopic Tray has two parts:

1. A deep bottom platform to accommodate your choice of products
2. An upper tray that houses instruments

Additional sundries, drapes and gowns can be provided as part of each Platform and Tray.

STAGE 4: BLISTER PACK

Your chosen sterile products are combined in a compact blister capsule, eliminating the time and waste involved in removing and disposing of the packaging of individual products.

Increase Efficiencies

Working alongside Surgeons, Theatre Managers, Heads of Procurement and Operations Directors, gives us a thorough understanding of your critical issues. Our Laparoscopic Procedure Kits & Trays have been developed in close consultation with healthcare professionals to tackle these critical issues and help increase efficiencies within your operating theatre.

"The Purple Surgical Lap Kits have allowed me to regain confidence in every theatre set up, especially when we have new or temporary staff working.

Each kit contains exactly what we need, guaranteeing a smooth set up every time. All I have to do is unwrap the kit and we are ready to go."

Emelita Estrella, Clinical Lead

COST

- + Streamline your supply chain by reducing suppliers
- + Decrease inventory values
- + Reduce packaging disposal costs
- + Establish the cost of every procedure
- + Reduce order processing costs

ORDERING

- + Reduce the volume of individual orders raised
- + Reduce the volume of individual orders through consolidation

INVENTORY

- + Streamline inventory
- + Guarantee product availability
- + Gain storage space
- + Reduce product variation
- + Guarantee product availability in busy periods and weekends

SURGEONS & STAFF

- + Standardise your product portfolio
- + Assure full compliance
- + Maximise time spent on patient care
- + Eliminate the risk of picking incorrect products
- + Ensure consistent product quality & design
- + Measurably improve productivity

TIME

- + Reduce procedural set-up time
- + Free up time for effective planning of theatre lists
- + Eliminate the time spent picking individual instruments per procedure

"Purple Surgical are hugely creative in finding the right solution for the challenges that the NHS is up against."

Liz Roberts, Theatre Stores Manager

Stocked Blister Kits

After trialling your products and the Breather Bag, you can combine your chosen products in a compact Blister Kit.
