## The Bottle: Reborn

---

This bag was designed with the environment in mind. By using GRS-certified recycled materials, 10 plastic bottles were kept out of our waterways and landfills, shredded into small flakes, re-polymerised into plastic chips, then heated and spun into yarn that was

woven, and sewn into the fabric of this EcoSmart bag.

## Expanding Capacity

---

Lightweight and sleek, the MultiFit range is designed to adapt to fit your tech. The innovative neoprene-like material can stretch to fit screens up to 16" in size, allowing you to keep your devices protected with ease.
