[1] Access to the Google Play Store and related apps are available at time of purchase. Google Play store apps are not preinstalled and are available through the App Store. Selected apps may not be compatible on all Chrome devices. For more information go to www.google.com
[2] Full high-definition (FHD) content required to view FHD images.
[3] Based on HP internal testing. Depending on system configuration, your results may vary. Testing conducted by HP using Google Chrome OS power_LoadTest. Battery life will vary and the maximum capacity of the battery will naturally decrease with time and usage. See http://www.chromium.org/chromium-os/testing/power-testing for test details.
[4] For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 35 GB of system disk is reserved for system recovery software.
[5] Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.
