### Ease of Use

A free stop hinge allows the lid to be easily opened and stopped at an angle between 15 to 70 degrees. This increases usability, even with one hand.

### **Epson Scan 2 Features**

#### **Text Enhancement**

Improves text recognition when scanning text documents, whether in colour, greyscale or black-and-white. Removes background for better clarity, which is especially useful for double-sided printed documents.

#### Auto Area Segmentation

This function allows separate scanning of both image and text in a document. It also automatically detects and scans text in black-and-white mode and images in halftone, giving clear text quality while preserving image details.

#### PARTNERS IN PERFECTION

LabelWorks™ LW-700 Label Printer The Epson LabelWorks LW-700 offers convenient standalone label printing or connectivity to PC or Mac.

#### **Document Skew Correction**

#### **Colour Enhancement & Colour Dropout**

Remove or enhance the visibility of ink signatures such as "Confidential" and "Urgent" stamps. Users can pick one of the preset colours (red, green, blue, pink, purple, yellow, orange, or all colours except black), or use the customised settings to dropout or enhance up to 5 colours of your choice with a single scan.

#### **PDF Features for Added Convenience**
