Safely store your unforgettable moments

You can now easily relive the missed moments. The microSD card starts saving motion-triggered events or all-day recordings on your device, with or without network connection.

- On-device recording

- Video history / playback

- Footage timeline management

Key Features

- **_High-Speed Video Transport³:_** Read speeds up to 90MB/s. Write speeds up to 50MB/s. The card is rated Class 10 UHS-I to optimize high-resolution video work, even for 2K to 4K cameras.

- **_Durable Design:_** The microSD card provides non-stop security thanks to its waterproof, shock-proof, and X-ray-proof design, and its ability to operate in extreme temperatures from 0 °C to 70 °C. It also supports TRIM and FULL-E to ensure greater efficiency and longer lifespan.

- **_Card Health Check:_** When the microSD card is connected to an EZVIZ device, you can keep tabs on the card's operating status via the EZVIZ App.

- **_Wide Compatibility:_** You can also use the memory card on a wide range of microSDXC and microSDHC compatible devices such as action cameras, drones, laptops, and more.
